Color

Usage

Our Primary Palette

Cerritos College's visual identity relies almost exclusively on Cerritos Blue and White. Cerritos Blue has a deep heritage as our College's primary identifiable color.

For promotional and branded materials – such as shirts to totes – Cerritos Blue and White should be used. On occasion, it may be appropriate to use the Grayscale palette, but only in conjunction with the two primary colors.

The predominant colors in layouts and applications should always be Cerritos Blue and White.

White Space

Although Cerritos Blue is our most identifiable brand color, usage of white space is integral to giving our communications a clean, modern, and organized feel. White space helps focus attention, brings clarity to our message, and helps us to be mindful of our content length.

Secondary Palette Usage

In certain circumstances, it may be necessary to use a secondary color palette. These colors should be used sparingly and should not become the predominant color. The best uses for colors of the secondary palette are for items that require differentiation. Examples of this include charts and graphs or callout buttons in digital applications.

Tertiary Palette Usage

In some cases, it is necessary to use additional colors. Good examples of this are callouts, collateral piece, graphs, and infographics. Tertiary colors should be used sparingly and should never be the predominant color.

Design & Collateral

Design Notes

Consistency is key.

When designing collateral, following the guidelines and references in this document is critical. Consistency is important - from the colors we use to the fonts and amount of white space.

Don't be afraid of white space.

White space is your friend and helps focus attention and create a sense of order.

Make sure color is on point.

One of the biggest identifiers of the Cerritos College brand is color. If you're unsure how to appropriately use the secondary or tertiary colors, stick with the primary colors.

Align, align, align.

Aligning items gives structure and order to design.

Keep it simple.

Less is more. Do not clutter your designs. Design with purpose.

8 PT design system

This system scales well, works well digitally and for print, and provides a flexible and consistent system. In addition, it's easy to work with multiples of four.

Start with a base unit of 8 and make all subsequent aspects divisible by 4. For instance, 8 - 12 - 16 - 20 - 24 -28... You can play with different font sizes outside this system, but make sure the line-height is within the 8 PT system.

Promotional Items Guidelines

Consult with Public Affairs prior to producing designs for promotional items to be used at campus and community events. Promotional items should conform to the guidelines for color, graphic style, and proper logo use. Abbreviations and/or substitutions are not acceptable.

Please reference [Color Usage](#) when designing promotional materials.

Using Cerritos College Without the Icon

CERRITOS COLLEGE may be used when NOT locked up with the icon if the full logo is represented on the promotional item. The font used is Prompt Semi Bold with tracking set to 75 and kerning auto. If you have an exception, contact Public Affairs.
