## Expenses

*Information is also available in Spanish. See "Información en Español" in the Table of Contents.*

*Información en español también está disponible. Busque donde diga "Información en Español" en el índice de contenido.*

Students are expected to furnish all textbooks, supplies, materials, equipment, and uniforms as needed for instruction. The cost of these items will depend upon the number or types of classes taken. Textbooks, supplies, and materials are sold in the college bookstore. Additional fees noted below must be paid at time of enrollment.

## STUDENT FEES

**\*Fees are subject to legislative or other authorized changes without prior notice.**

1. Enrollment fees for the community college student are \$46 per unit. **FEES ARE SUBJECT TO CHANGE WITHOUT NOTICE DUE TO STATE LEGISLATION.**
2. Students who are non-residents of California or International Students, with or without F-1 visas, will be assessed \$310 per unit (\$290 per unit non-resident tuition and a \$20 per unit capital outlay fee) in addition to the \$46 per unit enrollment fee above. Active military personnel and their dependents are exempt for one year from this out-of-state tuition charge. Non-resident students who have been admitted to a class or classes without payment of the fee because of falsification of information submitted by or for them, shall be subject to dismissal from college.
3. Student Health Fee is \$19 per semester, \$16 for summer session. Students who rely on prayer for healing and can supply the college with documentation from their spiritual leader are exempt.
4. Student Activity Fee is \$10 per semester, \$4 for summer session. This fee is automatically charged and is due and payable at enrollment, but may be waived subsequently by the student. Fee purpose and waiver information is available online at the Admissions and Records and Office of Student Affairs websites.
5. On-campus student parking for vehicles will be free. There will be no cost for student parking during the Fall semester 2021, between the hours of 6 am and 10 pm. Students parking in white student stalls will not require a parking permit. All other parking violations will be strictly enforced (i.e. students parking in staff stalls, disabled and fire zone violations).
6. Lab/materials fees are listed with courses in the class schedule. Please note that failure to pay these fees may result in withdrawal from courses for lack of payment.

Students are required to pay all fees at the time of enrollment. Students adding their names to wait lists will be charged the applicable enrollment fees, tuition, and applicable lab/materials fees. Students who do not pay fees and drop classes after the refund date are still responsible for all fees. **The California College Promise Grant (CCPG) Fee Waiver waives students' course enrollment fees; however, all other fees, including but not limited to the Student Health fee, Student Activity fee, and applicable lab/materials fees, are due and payable at the time of enrollment.** Payments for the parking, student activity, and student health fees may be subject to additional considerations.

The parking fee is required to park a vehicle on campus. The student activities fee is subject to student waiver. Information is available from the Office of Student Affairs located in the Student Center. The waiver request form is available online at the Admissions and Records forms website. Revenue from the collection of this fee may be used by ASCC to support or oppose political measures. The student health fee may be waived with documentation from the student's spiritual leader that the student relies on prayer for healing.

## REQUIRED INSTRUCTIONAL AND OTHER MATERIALS FEES

Students may be required to purchase instructional and other materials required for a credit or noncredit course. Such materials shall be of continuing value to a student outside of the classroom setting and shall not be solely or exclusively available from the District. **These fees are not covered by the California College Promise Grant (CCPG) Fee Waiver (Title 5 Cal. Admin. Code Sec. 59400).**

Any questions with respect to the interpretation of this regulation shall be in writing and addressed to the College's Vice President of Academic Affairs.

## REFUND POLICIES AND PROCEDURES

It is the student's responsibility to apply for a refund. A student is eligible for a refund after classes have been officially dropped. Classes must be dropped by the appropriate deadline for the session in order to be eligible for a refund. Stated deadlines are not adjusted due to late enrollment.

A student is eligible for a refund if: a) classes are dropped by the required deadline; b) the program change is the result of action taken by the college to cancel or reschedule a class; c) the student is dropped for failure to meet a prerequisite(s) or corequisite(s); and/or, d) the student is active or reserve U.S. Military personnel who withdraws due to military orders.

Eligible students may file a petition with the district requesting refund of their enrollment fee(s). A refund will not be processed if academic credit has been awarded for the class. Refunds are not automatically processed.

To request a refund, a student must come to the Admissions and Records Office and submit a Refund Request Form. The Refund Request Form is also available online and can be mailed to the Admissions and Records Office. Approved refunds will be mailed in approximately four to six weeks. Be sure your current mailing address is on file with the college.

A check is the only form of payment that Cerritos College uses to issue refunds. If a payment is made by credit card for any registration transaction, and you drop any or all of your classes within the required refund period, we will NOT credit your credit card account. All refund checks are made payable to the student.

*Refunds are made pursuant to Title 5, Section 58501 or 58501.1.*

## CREDITS/REFUNDS

### Credits

**Enrollment Fee, Non-Resident Tuition, and Capital Outlay Fees** will be credited if the official drop has occurred within the appropriate deadline\* for session or semester. This is in accordance with the Refund of Enrollment Fee regulation, Title 5, 58508. There are no exceptions.

**Student Health, Student Activity<sup>1</sup> and Parking<sup>2</sup> Fees** will be credited only if all classes within the semester have been officially dropped within the appropriate deadline\* for the semester. There are no exceptions.

\* Deadlines for fee credit are defined as the first two weeks of full semester length classes or 10% of the number of class meetings for short term classes.

<sup>1</sup> Student Activity sticker for the semester must be surrendered at the time of refund request. No refund will be given if sticker is marked or used.

<sup>2</sup> Parking Permit for the semester must be surrendered at the time of refund request.

## REFUNDS

A refund request form must be completed to receive credit funds on account. The Refund Request Form is available online at the Admissions webpage under FORMS or in the Admissions and Records Office.

**One Year Limit on Refunds** - Classes must be dropped before filing for a refund. Students seeking refunds must meet the requirements listed above to be eligible. Students must have dropped the class(es) and met the appropriate deadlines before filing for a refund. If these conditions have been met, students have one year from the beginning of the semester in which fees were paid to apply for their refund. Beyond the one year limit, students will no longer be eligible.

## RETURNED CHECK POLICY

Personal checks are not accepted for payment of tuition, fees, and other costs. If a check is accepted for another purpose, a \$25 fee will be charged on all returned and stop payment checks. All fees are subject to change without notice in accordance with action taken by the Board of Trustees. Under state law, including California Civil Code 1719, any person who writes a check which is dishonored for lack of funds is civilly liable, and under the law is liable for at least \$100 or three times the amount of the check plus additional costs.

## FAILURE TO PAY COLLEGE FINANCIAL OBLIGATIONS

Failure to pay a financial obligation will result in an administrative withholding of grades, transcripts, diplomas, or enrollment privileges or any combination thereof. The item or items being withheld shall be released when the financial obligation has been met (California Code of Regulations, Title 5, Section 59410).

### STUDENT RIGHTS AND RESPONSIBILITIES

- (a) All students shall be required to:
  - (1) identify an education and career goal;
  - (2) diligently engage in course activities and complete assigned coursework; and
  - (3) complete courses and maintain progress toward an education goal and completing a course of study.
- (b) Nonexempt first time students shall, within a reasonable period of time, be required to:
  - (1) identify a course of study;
  - (2) be assessed to determine appropriate course placement;
  - (3) complete an orientation provided by the college;
  - (4) participate in counseling, advising, or another education planning service to develop, at a minimum, an abbreviated student education plan (A-SEP).
- (c) For the purposes of this section, a first time student is a student who enrolls at the college for the first time, excluding students who transferred from another institution of higher education. For purposes of this section, first time enrollment does not include concurrent enrollment during high school. To the extent that a college has the capacity to require and provide the services identified in (b)(1) through (4) to other students, nothing in this section would preclude a college from doing so.
- (d) Nonexempt students who have completed the services identified in (b)(1) through (4) shall be required to complete a comprehensive education plan after completing 15 semester units of degree applicable credit course work or prior to the end of the 3rd semester, or a shorter period if required by district or program policy.
- (e) Failure to fulfill the required services listed in (b) may result in a hold on a student's registration or loss of registration priority until the services have been completed.

### INSTITUTIONAL RESPONSIBILITIES

- (a) The college shall take steps to ensure that information regarding matriculation policies is accessible and available to all students during or prior to enrollment (e.g., during orientation) and is included in class schedules, catalogs, or other appropriate communications describing student rights and responsibilities.
- (b) Once the student has identified a course of study and completed 15 semester units of degree applicable course work, the college shall provide the student with an opportunity to develop a comprehensive student education plan within a reasonable time period. Student responsibilities shall also be identified in the student's education plan.

- (c) College policy provides that a nonexempt student will have a hold placed on enrollment if a student fails to fulfill the responsibilities set forth in the section, "Student Rights and Responsibilities".
- (d) The college shall make reasonable efforts to avoid duplication of the orientation, assessment, counseling, advising, or other education planning services, and development of student education plans funded through this subchapter or funded through other programs.
- (e) It is intended that the instructional and student services areas of the college shall use multiple sources of data from student education planning efforts and identified courses of study to coordinate course scheduling.

## ENROLLMENT APPOINTMENT PRIORITY

### Including Orientation, Placement, Counseling, Student Education Plans, Tier Groups, and Probation

The purpose of establishing enrollment priorities is to support students endeavoring to reach their educational goals at Cerritos College by providing priority enrollment to groups of students (as listed herein) with special needs and/or who are in continuing student status, as long as satisfactory progress is made.

## PRIORITY ENROLLMENT CRITERIA AND CONDITIONS

### A. Priority

1. New students not otherwise exempt, including those in any state-provided priority enrollment groups, must complete assessment, orientation, and counseling with at least an abbreviated student education plan (A-SEP), in order to receive priority enrollment.
2. First time, beginning with Fall 2014 enrollment, students who have identified a course of study, with appropriate course placement, completed an orientation program provided by the college, and participated in counseling, advising, or another education planning service including at least an abbreviated student education plan (A-SEP), are required to complete a comprehensive student education plan (C-SEP) after completing 15 units of degree-applicable credit course work, or prior to the end of the third (3rd) semester of enrollment, resources permitting.
3. Continuing students, including those in any state-provided priority enrollment groups, except eligible current and former foster youth, are subject to loss of the enrollment priority for which they would ordinarily be eligible if they are on any combination of progress or academic probation for two consecutive semesters.
4. Continuing students, including those in any state-provided priority enrollment groups, except eligible current and former foster youth, are subject to loss of the enrollment priority for which they would ordinarily be eligible if they have earned 100 degree-applicable, non-basic skills, and non-ESL units. Units for high unit majors and programs may be disregarded to the extent they exceed the number of units required for non-high unit majors and programs. Units from credit by exam, advanced placement, International Baccalaureate, or other similar programs may also be exempted.

- B. Subject to the above, continuing student enrollment appointments shall be set on the basis of units earned and cumulative grade point average at Cerritos College.
- C. Students subject to enrollment priority exclusion shall have a "PRB" negative service indicator, appearing as a Hold in the Student Center in MyCerritos, placed on their enrollment account. The effect shall be to place the student's access to enroll at the end of the enrollment cycle in the period known as Open Enrollment.
- D. Students excluded from enrollment priority shall be notified of options they may have, and/or are advised to exercise. See also the section of this procedure titled "Appeals and Exemptions".

### *Additional Criteria for Enrollment Priority of Certain Students*

### **Additional Conditions May Be Applicable to Order of Enrollment**

## LOSS OF ELIGIBILITY FOR CCPG FEE WAIVER

A student shall become ineligible for a **California College Promise Grant (CCPG)** Fee Waiver if the student is placed on academic or progress probation, or any combination thereof, for two consecutive primary terms. Loss of eligibility shall become effective at the first registration opportunity after such determination is made.

The District shall notify students of their placement on academic or progress probation no later than 30 days following the end of the term that resulted in the student's placement on probation. The notification must clearly state that two consecutive primary terms of probation will lead to a loss of the CCPG Fee Waiver until the student is no longer on probation. The notification must also advise students about the available student support services to assist them in maintaining eligibility.

The District shall adopt, prominently display, and disseminate policies ensuring that students are advised about the student support services available to assist them in maintaining and reestablishing CCPG Fee Waiver eligibility. Dissemination includes, but is not limited to, information provided in college catalogs and class schedules.

The District has established written procedures by which a student may appeal the loss of a CCPG Fee Waiver due to extenuating circumstances, or when a student with a disability applied for, but did not receive, a reasonable accommodation in a timely manner. Extenuating circumstances are verified cases of accidents, illnesses, or other circumstances that might include documented changes in the student's economic situation or evidence that the student was unable to obtain essential student support services. Extenuating circumstances also includes special consideration of the specific factors associated with Veterans, CalWORKs, EOPS, and SAS student status.

Foster Youth shall not be subject to loss of CCPG Fee Waiver due to placement on academic or progress probation. This exemption for Foster Youth is effective until the date specified in Education Code section 66025.9(c).

## APPEALS AND EXEMPTIONS

It is the intent of these procedures to support and promote student success, including program completion, through access to needed courses. Petitions for appeals of, or exemption from, the implementation of these procedures are subject to consideration by the Committee on Academic Records and Standards or its designee.

- A. Students may appeal the loss of enrollment priority and/or loss of the CCPG Fee Waiver due to extenuating circumstances, certain conditions specified on the Enrollment Priorities and/or CCPG Fee Waiver Appeals Form, or where a student with a disability applied for, but did not receive reasonable accommodation in a timely manner. Extenuating circumstances are verified cases of accidents, illnesses or other circumstances beyond the control of the student.
- B. Students who have demonstrated significant academic improvement will regain the CCPG Fee Waiver and/or priority enrollment status. It is the student's responsibility to timely verify changes in enrollment priority status. Significant academic improvement is defined as achieving no less than the minimum grade point average and progress standard within a term. The minimum academic standard is a 2.0 grade point average, once the student has attempted 12 semester units; the minimum progress standard is greater than 50% of all units enrolled in being other than "W", "I", "NP", or "NC", once the student has enrolled in a total of at least 12 semester units.
- C. Students may request reinstatement of enrollment priority and/or the CCPG Fee Waiver if an institutional mistake was made.

## ADMISSIONS

Complete the Cerritos College admissions application and submit to the Admissions and Records Office, located in the Administration Building. Online applications may be submitted at [www.cerritos.edu](http://www.cerritos.edu) by selecting, "Future Students/Apply", "Apply Online". Transcripts from other institutions will be required to prove prerequisite eligibility which is strictly enforced at enrollment.

## PLACEMENT

Placement is required for first-time, new-to-college students. "placement" means the process of gathering information about an individual student to facilitate his or her success. At Cerritos College, placement includes, but is not limited to, the collection of information regarding a student's study skills, English language proficiency, and/or computational skills. Academic counselors will review high school and/or college transcripts, evidence of an A.A. degree or higher from an accredited institution, learning skills, academic performance, and need for special services. In addition, career assessment is the opportunity to explore career aspirations, goals, skills, interests, and values.

## DO I NEED TO COMPLETE THE PLACEMENT PROCESS?

All students will have the opportunity to place into transfer-level English/ESL and Math.

By using high school records or guided self-placement, new and continuing students will identify the English/ESL and Math courses they are eligible to enroll in.

First-time, new-to-college students are required to complete the placement process prior to enrollment. Continuing students who previously received a placement based upon an assessment test are welcome to complete this new placement process.

Depending on when, where or if students attended high school, they will complete either the Self-Report Tool (SRT) or Guided Placement Tool (GPT), which, in most cases, will place students directly into transfer level courses in the areas of math and English or ESL.

How do you complete the SRT/GPT? To access the SRT or GPT, students can log in to their MyCerritos account. The links are located on the right side of the screen under "Placement." For those who prefer to complete the SRT or GPT in person, visit Admissions & Records to get started. Go to our web page at <http://www.cerritos.edu/assessment-center/> for more information. A current Cerritos College student number and photo ID is required when completing the SRT/GPT in person.

Students with a history of special education are encouraged to seek additional course placement guidance from counselors in Student Accessibility Services. Visit <http://www.cerritos.edu/sas/> for more information.

## STUDENT SUCCESS & SUPPORT PROGRAM (SSSP) EXEMPTION/EXCEPTION

Cerritos Community College offers Student Success and Support Services to all new students prior to their enrollment in classes. These services include SRT/Placement, orientation, and counseling. First-time, new-to-college students must complete required SRT/Placement and Orientation-Counseling (AOC) prior to enrollment. Students not required to complete the requirements under established criteria are automatically exempt upon application to the College. Students wishing to pursue another type of exemption must submit a completed Student Success and Support Program (SSSP) Exemption and Exception form to the Admissions and Records Office. SSSP Exemption and Exception forms are available in the Admissions and Records, SRT, and Counseling Offices. If you have special needs for completing SRT/placement, orientation, or counseling; please contact the Assessment Office of Student Accessibility Services.

## SRT/PLACEMENT EXEMPTIONS

Students who already possess an AA degree or higher from a regionally accredited college are not required to complete the SRT/placement process, but will be required to verify the degree by presenting official documents to the Admissions and Records Office at least 10 working days prior to their enrollment appointment date. A Requisite Clearance form must accompany the documents in order to meet prerequisites.

## SRT/PLACEMENT EXEMPTIONS FOR:

**English** – Students who have completed English courses at another college may not need to complete the English SRT. Please submit proof (official or unofficial transcripts) and a Requisite Clearance form to a counselor or Admissions and Records prior to enrollment.

**Math** – Students who have completed math courses at another college also may not need to complete the math SRT. Please submit proof (official or unofficial transcripts) and a Requisite Clearance form to a counselor or Admissions and Records prior to enrollment. It is strongly recommended that these math courses have been completed within the

past 10 years. Advanced Placement Exams – Students who participate in advanced placement courses at their high schools and earn passing scores on AP exams may earn college credit for those courses when they come to Cerritos College. For further details, ask a counselor.

**Chemistry** – Please read the prerequisites and recommendations section with each chemistry class listing. Be sure that the prerequisites are satisfied before enrolling in a course.

**Please note:** The exceptions listed are SRT/placement options for course clearance or placement. To meet the required reading, math, and English proficiencies necessary to qualify for the Associate of Arts degree, check your catalog or ask a counselor.

## ACCOMMODATIONS FOR ENGLISH AS A SECOND LANGUAGE

Students planning to take ESL (English as a Second Language) courses will also complete the SRT/GPT. Based upon your experience, skills and confidence using English in your work and daily life, you will receive your placement recommendation for instruction in the appropriate English or ESL course.

## RETEST POLICY

Students who have completed the ACCUPLACER test and wish to retest, will now complete the Self-Reporting Tool (SRT). Students who have completed high school within the last 10 years, will receive course recommendations based on their United States high school records. Based on the cumulative and unweighted United States high school GPA and other academic-related questions, students may be placed directly into transfer level courses in the areas of English, reading, math, or ESL. A current Cerritos College student number and photo ID are required to complete the SRT, which is computerized. For students who completed high school more than 10 years prior to applying to the college, completed the GED or did not complete high school, or are an international student, please contact the Assessment Office for information pertaining to your specific situation.

## ACCOMMODATIONS FOR STUDENTS WITH DISABILITIES

Any student with a verified disability may arrange accommodations for the placement process. A current Cerritos College application must be on file to receive accommodations. Accommodations requests should be made at least 7 days in advance to Student Accessibility Services (SAS). For more information or an appointment, call (562) 860-2451, ext. 2335; (562) 274-7164 (VP); or visit our website at [www.cerritos.edu/sas/](http://www.cerritos.edu/sas/). Academic Accommodations may include, but are not limited to: readers, writers, or the use of assistive technology.

## FALCON EDGE ORIENTATION

Orientation-Counseling is required for all first-time, new-to-college students. Transfer students are also highly encouraged but not required to complete orientation. An Orientation-Counseling (ORI) hold will appear in the MyCerritos account of all new-to-college students. *Enrollment in classes will not be allowed until the orientation requirement is met.* Exemptions: Re-admit and transfer students, and some additional categories of students. Contact the Counseling Office for more information on exemptions and exceptions.

### Options for Falcon Edge Orientations:

**Online:** Start, stop, and restart anytime! Go to [www.cerritos.edu](http://www.cerritos.edu), log into MyCerritos, and select *Orientation Plus*.

**On-campus:** Day and evening orientations are offered prior to the start of each term. Call the Counseling Office at (562) 467-5231, or go online to [www.cerritos.edu/counseling](http://www.cerritos.edu/counseling) for more information.

## COUNSELING

During the semester, students are highly encouraged to discuss educational goals and to develop an educational plan with a counselor. Counselors are available on an appointment and/or standby basis prior to enrollment. Small group workshops are also offered. During enrollment, counselors are available on a limited standby basis.

Students who are on academic and/or progress probation will be limited in the number of units they may take each semester based upon their GPA and course completion rate. They also risk losing their enrollment priority appointment and as of Fall 2016, may be ineligible for the **California College Promise Grant (CCPG) Fee Waiver** if they remain on probation for two consecutive semesters. Students who have not declared an educational goal and students who are enrolled in pre-collegiate basic skills courses, as well as re-admit and transfer students, are highly encouraged to develop an educational plan with a counselor. Counselors are available online at [www.cerritos.edu/counseling](http://www.cerritos.edu/counseling). Students can schedule a counseling appointment by calling the Counseling Office at (562) 467-5231.

## FOLLOW-UP

Counseling and teaching faculty provide a number of follow-up services to matriculated students. These services are designed to provide information regarding the students' academic progress. Special services are provided to students on academic and/or progress probation, students in basic skills courses, and students who are undecided about their educational goal. Referrals are made to on and off campus services when appropriate.

## WHAT ARE PREREQUISITES, COREQUISITES AND RECOMMENDATIONS?

It is the intent of Cerritos College to guide students into courses in which they will have the greatest academic success. Therefore, students will find courses which have prerequisites, corequisites and/or recommendations in the course descriptions. This is the case when a specific body of knowledge and/or skill(s) must be learned or demonstrated before the student can be expected to successfully progress to the next level course. For example, ENGL 52 must be taken before ENGL 100. This is an example of courses that must be taken in sequence. Students are encouraged to consult the course descriptions found in the current college catalog for the identification of the prerequisites for a course.

Students currently enrolled in a prerequisite course at Cerritos College will be allowed to enroll in the next sequenced course. For example, students enrolled in ENGL 52 for fall may enroll in ENGL 100 for spring. However, it is the student's responsibility to verify they have passed the prerequisite course. IF a passing grade is not received, the student will be dropped some time during the semester.

Automated prerequisite checking will stop students from enrolling in a class that has a required prerequisite that has not been met. Prerequisites are checked at the time of enrollment (Auto-enroll and Instructor adds). Prerequisites are not checked when classes are added to the shopping cart, but are enforced before completion of enrollment.

To avoid being denied enrollment, students should complete the Cerritos College placement tests or submit transcripts if prerequisite coursework was completed at another institution. Transcripts are accepted in the Admissions and Records Office. Complete the Requisite Clearance Request form available from Counseling, Admissions and Records, or download the form at [www.cerritos.edu/admissions-and-records/online-forms](http://www.cerritos.edu/admissions-and-records/online-forms).

#### **Definitions for prerequisites, corequisites and recommendations for course preparation:**

**Prerequisite** - any requirement which must be satisfied before a student may enroll in a course. In other words, "prerequisite" means a course that a student is required to complete, a test score, or other requirement that demonstrates current readiness for enrollment in a course or educational program. The prerequisites offered at Cerritos College are listed with course titles in the "Announcement of Courses" section of the catalog and in the current Schedule of Classes.

**Corequisite** - a course that a student is required to take at the same time with another course. For example, if a student enrolls in PHAR 60, he/she must take PHAR 60L at the same time.

**Recommendation for course preparation** - a condition of enrollment that a student is strongly suggested to meet before or along with enrollment in a course or educational program but is not required to do so.

"*Passing grade*" is at least a grade of "C" (Satisfactory) or "P" (Pass). Requisite clearance credit will not be granted for substandard course work ("D", "F", "FW", or "NP").

"*Satisfactory grade*" means that, for the course in question, the student's academic record has been annotated with the symbol "A", "B", "C", or "P".

### **PREREQUISITE CHALLENGE**

A prerequisite may be challenged by students who have presented the appropriate reasons. It is the student's responsibility to provide information to support the challenge. The prerequisite challenge must be filed and resolved prior to the student's enrollment into the course. A Requisite Challenge form can be obtained from the Admissions and Records Office, Counseling Center, or downloaded from [www.cerritos.edu/admissions-and-records/online-forms](http://www.cerritos.edu/admissions-and-records/online-forms).

#### **Prerequisite Challenge Procedure**

1. Complete the Requisite Challenge form.
2. Select one of the four choices listed on the form:
  - A. I will be subject to undue delay in attaining my educational goal because the requisite has not been made reasonably available (must declare educational goal and major).
  - B. The requisite or enrollment limitation is either unlawfully discriminatory or is being applied in an unlawfully discriminatory manner.
  - C. Challenging the pre or corequisite on the grounds that it was established in violation of regulation or in violation of the District-approved process (student documentation required).
  - D. After careful consideration and against the recommendation of the college, I am requesting placement into the stated course.

3. Submit the completed form to the Academic Records and Standards Committee for approval or denial of request. Please allow at least ten business days for a response.
4. Approval of the prerequisite challenge requires the student to enroll in the course in the Admissions and Records Office in person. MyCerritos will not recognize the approved form. Please **NOTE**: A challenged requisite will not be deemed as a cleared requisite, therefore it will not appear on the transcript nor will it clear a like requisite in the future.
5. Denial of the prerequisite challenge requires the student to complete the clearance process or course listed as the official requisite. There is no appeal process.

## **Enrollment Information**

## **COUNSELING**

Of major importance to every student enrolled at Cerritos College is the comprehensive counseling service that is provided to assist students in achieving their educational goals as fully, smoothly, and as efficiently as possible. The constant change of requirements and prerequisites for institutions and occupations make continuing contact with the Counseling staff a vital part of the student's successful academic experience.

*The counseling service consists of four major functions:*

- (1) assistance in planning academic programs;
- (2) assistance in exploring career possibilities;
- (3) consultation and referral regarding personal problems;
- (4) provision of additional auxiliary services, such as personal development classes, articulation with transfer institutions, referrals to outside agencies, orientation classes, and placement interpretation.

These various services are offered by a professional staff of counselors trained to help students in the appropriate areas of their concerns. The counseling staff works closely with all divisions of the College and keeps abreast of the educational programs both here and at four-year institutions.

Although the use of counseling services is on a voluntary basis, all entering first-time, new-to-college students, F-1 VISA students, and some students on financial aid are required to receive counseling services for program planning before enrollment. Generally, students should schedule an appointment or attend a workshop. Refer to the Counseling website at [www.cerritos.edu/counseling](http://www.cerritos.edu/counseling) for the appropriate services, hours, and general information. Counseling appointments may be made in person in the Counseling Office located in the Administration Building or by calling (562) 467-5231. Limited standby counseling is also available.

Due to the high volume of students seeking counseling before the start of each semester, appointments are limited during the four weeks prior to each semester. Only standby counseling is available during this time. Contact the Counseling Department for hours scheduled for standby counseling.

## PROGRAM PLANNING

Students are expected to take courses on a consecutive basis. Students are not to receive credit for courses which are considered lower in degree of advancement than those already taken. Courses are to be taken in accordance with the student's ultimate objective and major.

## ADMISSION TO CLASS

Students must be officially enrolled before attending any class. If students are unable to attend the first class meeting, every effort should be made to contact the instructor(s) or the instructor(s) may drop the student as a "no show".

Students seeking admission into a "closed" class must attend the first day of class. Instructors may add students depending on seat availability and students' completion of prerequisites, if applicable.

## ADD PROCEDURES

If you wish to add to your class schedule, please follow the steps below:

1. Classes may be added via MyCerritos, Student Center (<http://my.cerritos.edu>).
2. To add a closed class, go to class on the first day and time that it meets; be on time. Respectfully request of the instructor to be added to the class. If the instructor approves, an electronic enrollment will be submitted on your behalf to Admissions and Records. Please note that prerequisites, holds/service indicators (SI), conflicts, and illegal course repetition will be checked. Fee payment deadlines are published in the current schedule of classes. Please refer to MyCerritos (<http://my.cerritos.edu>) or the current schedule of classes for information regarding being dropped from all classes and holds (SI) for lack of payment. Please check your student account via MyCerritos or in the Admissions and Records Office. All enrollments must be completed by the published add deadlines.
3. Adding a class may be prevented due to holds or unauthorized course repetition (see "Repetition of Courses").

### Level/Section Changes

Level/section changes must be processed in person. Program changes which involve level changes in skill and performance classes may be made by the add deadline. Students may also make level changes in Work Experience classes by the add deadline, but only a reduction of hours may be made after the add deadline.

Section changes may not be made between terms or semesters. A student may not drop a first six/eight week course and then enroll in a second six/eight week course by executing a section change. The student is required to officially drop the first six/eight week class and then pay the appropriate fees to be enrolled in the second six/eight week class. The money will not transfer from one term to another if the drop is processed outside of the refund date.

## DROP PROCEDURES

Pursuant to Title 5, section 58004 and Cerritos College Board Policy, it is the student's responsibility to participate fully in class(es), once enrollment is complete. However, should it become necessary to drop a class, it is the student's responsibility to withdraw themselves.

It is strongly advised that students take the initiative to officially drop themselves. Failure to officially drop from class(es) may result in an "F" grade for each class and a delinquent debt and restrictive hold to the student's account.

Classes may be dropped via MyCerritos, Student Center (<http://my.cerritos.edu>). Be mindful of deadline dates for refunds and posting of "W's" to transcripts. See the "Calendar of Important Dates" in the schedule of classes for specific deadlines. Be sure to verify the drop with a printed receipt.

**Deadlines:** Dropping a class or classes shall be authorized through the last day of the 14th week of an 18-week term or 75% of a shorter than 18-week term, whichever is less. The academic records of a student who remains in a class beyond the date allowed for drop must reflect an authorized symbol, other than a "W."

"W's" are considered "honorable withdrawals" and shall not be used in calculating grade point averages. However, excessive "W's" shall be used as factors for probation and dismissal procedures. Additionally, a student who has a "W" in the same class two or more times, loses the privilege of priority enrollment for that class. Students may submit a Petition for Course Repetition, which is subject to approval or denial, to the Academic Records and Standards Committee for exceptions to the excessive "W" policy for course repetition.

### Dropping a Class After the Drop Deadline

A student must have documented circumstances beyond his/her control to initiate a drop after the listed deadline. Examples of circumstances beyond the control of the student include, but are not limited to, the following: accident, illness, change in work schedule, or other documented circumstances. A "W" will be posted to the official transcript. Contact the Dean of Enrollment Services for further information.

## MILITARY WITHDRAWAL

Pursuant to Education Code 66023, the Board of Trustees of Cerritos College makes provisions for non-punitive withdrawals from class of students who are members of an active or reserve United States military service unit who receive orders compelling withdrawal from courses. Upon verification of such orders, a military withdrawal (MW) symbol may be assigned at any time after the period during which no notation is made for withdrawals. There will be no penalty for military withdrawals. Military withdrawal shall not be counted in progress probation and dismissal calculations.

## AUDITING COURSES

Auditing courses is permitted at Cerritos College. An audit student is a student who attends a course or courses for no credit or notation on an official transcript. Auditing may be available, pending signed permission, for any student who wishes to attend a course for information, review purposes, or skill building. Students wishing to audit should be aware that audited courses will NOT appear on the official transcript.

1. The student must be officially admitted to the College.
2. The student must submit the appropriate audit form with the required signatures of the instructor of the course and the division dean. Permission to audit is at the discretion of the instructor and division dean.

3. The fee to audit a class is \$15 per unit (in addition to student fees). Students enrolled in 10 or more units can audit 3 units free (may be 3 one-unit classes). The \$15 per unit audit fee will automatically be charged if the student drops below 10 units.
4. Credit students have priority over auditing students. If a course closes after an auditor has been admitted, the auditor may be asked to withdraw to make room for a credit student.

Students may contact the Admissions and Records Office to request the appropriate audit form and for additional information regarding auditing. (Board Policy 4070).

## WAIT LIST

Cerritos College utilizes a “paid” wait list. What this means is that once you have added your name to the wait list, you must pay all applicable fees for that class. Additionally, “auto-enroll” will be in operation. Auto-enroll will automatically enroll students in order from the wait list to the official roster when space becomes available. Each student is limited to a maximum of 10 wait-listed units. Auto-enroll from a wait list will not occur if:

1. Student has a hold (service indicator) on their account.
2. The class requisite has not been met.
3. Unauthorized course repetition would occur.
4. There is a class time conflict. Students may not be enrolled in two classes that meet at the same time.
5. If student is enrolled in a class AND on a wait list for the same course (i.e., enrolled in SOC 101 and #1 on the wait list for SOC 101 at another time) he/she will lose a seat when “auto-enroll” tries to move from the wait list to the official roster due to “Multiple Enrollment”.

Auto-enrollment will continue through the Friday before classes begin. Attendance at the first class meeting is required in order to enroll or remain on the wait list. Failure to attend class DOES NOT create an automatic drop or refund. If you do not want your wait-listed classes, please drop them to avoid a substandard grade and forfeiture of fees.

## REPETITION OF COURSES

At Cerritos College, previous course enrollment is reviewed electronically for prior enrollment attempts. All courses have repeatability limitations.

Students may repeat a course in which a substandard grade (D, F, NP, FW) or “W” in any combination has been received one time. Students receiving any combination of substandard grades may petition the Academic Records and Standards Committee for an exception to the two attempts rule. All petitions are subject to approval or denial. Upon completion of a repeated course, the most recent grade earned will be computed in the cumulative grade point average and annotated in the student’s academic record.

When a student repeats a class to alleviate substandard academic work, the previous grade and credit shall be disregarded in the computation of grade point averages, but shall not be deleted from the student’s permanent record. Courses that are repeated shall be recorded on the student’s permanent academic record using an appropriate annotation. Annotating the permanent academic record shall be done in a manner so that all work remains legible, insuring a true and complete academic history.

Students may use an equivalent course from an accredited college or university to replace a Cerritos College course in which a substandard grade was recorded, if earned subsequent to the substandard grade at Cerritos College. The student must petition the Academic Records and Standards Committee to record the change. The College may honor the prior course repetition actions of other accredited colleges and universities in determining acceptance of credits, subject to student petition to, and approval by, the Academic Records and Standards Committee. (Board Policy 4225 and Administrative Policy 4225)

### Examples of Exceptions for Consideration of Course Repetition Limitations

An Academic Records and Standards Petition must be filed for official consideration of course repetition. All petitions are subject to approval or denial. Contact the Admissions and Records Office for specific directions.

1. Student received an “MW” (Military Withdrawal).
2. Student’s previous grades are a result of documented circumstances beyond his/her control.
3. Cooperative work experience courses, subject to stated maximums, as provided in the College Administrative Procedures.
4. Certain activity or skill building courses, subject to stated maximums, as provided in College Administrative Procedures.
5. Certain classes for students with disabilities, subject to stated qualifications, as provided in College Administrative Procedures.
6. Repetition necessary for legally mandated training. Such courses may be repeated any number of times, regardless of whether or not substandard work was previously recorded, and the grade received each time shall be included for purposes of calculating the student’s grade point average.
7. After a significant lapse of time, a student may repeat a course in which a grade of “C” or better was received.

## COURSE REPEATABILITY

Intercollegiate athletics and some music and theater courses that are required for transfer programs are the only courses that allow for repeatability. There are limitations on repeatability for dance, drama, physical education, visual arts, and most music courses; these courses are offered as single enrollment courses. There will be a notation after the course description if the course allows for repeatability.

The college has developed Families of Courses that include courses related in content (see next page for Families of Courses listed by department). A family of courses may consist of more than four courses, but students are limited to a maximum of four courses in any family. Further, all grades, including "W"s, will count toward the four-course enrollment limitation. Students can repeat art, dance, drama, music, and physical education courses that are included in Families of Courses in which a grade of "NP", "D", or "F" was earned or a "W" was assigned; however, all enrollments count toward the four-enrollment maximum for each family of courses.

## CHANGE OF ADDRESS

Changes in address must be reported immediately to the Admissions and Records Office. Failure to do so may result in a delay of enrollment appointment or other important notifications. Address changes may be made online at [www.cerritos.edu](http://www.cerritos.edu), "My Cerritos", "Student Center", "Personal Information."

## COLLEGE UNITS

Each college course is offered for a particular number of units. Course units are based on the type of course and the number of hours per week it was designed to meet. For examples, a lecture course which meets three hours per week during the regular 18-week semester is worth three units; a laboratory course which meets three hours per week during that same semester is worth one unit.

## STUDY LOAD

In order to meet graduation requirements in four semesters, students should carry an average of 16 units of degree applicable credit each semester. Students desiring to enroll in more than 18 units must have the approval of a counselor. Other unit limitations are:

- Foreign Visa Students: not less than 12 units.
- Intercollegiate Athletes: not less than 12 approved units, throughout season of sport; not less than 24 approved units between seasons of sport.
- Dual Enrollment (K-10th Grade) Students: may enroll in a maximum of 4 units.
- Dual Enrollment (11th-12th Grade) Students: may enroll in a maximum of 8 units.
- Students on probation are limited to the amount of units based on GPA and/or completion rate.

## DEFINITION OF A CLASS HOUR

A "class hour" is the basic unit of scheduled attendance and/or examination and is defined as a period not less than 50 minutes. A "clock hour" is a 60-minute time frame which is composed of one 50-minute class hour and a 10-minute segment referred to as a "passing period" or "break." Cerritos College classes have been scheduled based on these definitions. Classes that meet for multiple hours may include a 10-minute break between hours but not in the last hour of attendance.

## UNIT CREDIT FOR MILITARY SERVICE

Veterans who have served on active duty a period of one year or longer and who have received other than a dishonorable discharge may be granted four (4) units of credit. The units will be designated as "Military Credit" on the transcript. To apply for these units the veteran must present the D.D. Form 214 to the Admissions and Records Office. Credits are elective credits for the A.A. degree only and do not apply to certificate programs.

## CLASSIFICATION OF STUDENTS

<i>Freshman</i>	One who has earned fewer than 30 units.
<i>Sophomore</i>	One who has earned 30 or more units but fewer than 60 units, or has completed 60 units but does not hold a degree.
<i>Graduate</i>	One who has been awarded the Associate of Arts degree or a higher degree.
<i>Full-time</i>	One who is enrolled in 12 or more units.
<i>Part-time</i>	One who is enrolled in less than 12 units.
<i>Dual Enrollment (K-12)</i>	One currently enrolled in K-12th grade who desires to enroll for college credit.

## PARKING REGULATIONS

On-campus student parking for vehicles will be free. There will be no cost for student parking during the Fall semester 2020, between the hours of 6 am and 10 pm. Students parking in white student stalls will not require a parking permit. All other parking violations will be strictly enforced (i.e. students parking in staff stalls, handicapped and fire zone violations).

**VEHICLES THAT ARE INCORRECTLY PARKED CAN BE ISSUED A PARKING CITATION. CERRITOS COLLEGE ASSUMES NO LIABILITY AND IS NOT RESPONSIBLE FOR DAMAGE TO OR THEFT OF ANY VEHICLE OR ITS CONTENTS. LOST OR STOLEN PARKING PERMITS ARE NOT REPLACED. PLEASE REFER TO THE COLLEGE CATALOG FOR ADDITIONAL PARKING INFORMATION.**

## PARKING AREAS

Vehicles authorized to park on the Cerritos College campus shall be parked head in only in areas that have been painted with lines indicating parking stalls.

### Designated Parking Areas are Color Coded:

WHITE . . . . .	Student parking
YELLOW . . . . .	Faculty and staff parking or Disabled Parking with Handicapped Placard issued by DMV
GREEN . . . . .	Timed stalls; 2 hour max parking time limit

WHITE GRID MARKED . . . . .	Motorcycle parking only
PINK . . . . .	Cosmetology patron parking located in Lot 8. Pink cosmetology patron parking permit required.

Bicycles must park in designated areas only. All designated student and staff parking areas will be enforced Monday, 7 a.m., through Friday, 11 p.m.

## PARKING ON THE INTERIOR CAMPUS

Bicycles are to park in District-provided racks. Violators will be cited. Only those vehicles with approval from the Campus Police Department or Facilities are permitted to drive and park on the interior and sidewalks of the campus. Violators will be cited and/or the vehicle taken and put into storage.

## OFF-CAMPUS PARKING

Off-campus parking is extremely restricted. Parking in surrounding residential areas is by city-issued permit only. Student vehicles parking in the surrounding neighborhoods will be cited, towed away and impounded by the city at the student's expense.

The property owners also prohibit student parking in the shopping centers adjacent to campus. Student vehicles in these shopping centers are also towed away by property managers, at the student's expense.

## RESPONSIBILITIES FOR PENALTIES

The registered owner of any vehicle on campus may be held responsible for liability or damage claims including parking or other traffic violation penalties arising in connection with the possession and/or operation of the vehicles on the Cerritos College campus.

## LIABILITY

Cerritos College assumes no liability and is not responsible for damage or theft of any vehicle or its contents.

## Scholars' Honors Program

The Scholars' Honors Program (SHP) is the academic and social home that Cerritos College provides for talented and motivated students who plan to transfer to four-year institutions. The SHP values students who embrace creativity, innovation, critical thinking, open-mindedness, research, collaboration, lifelong learning, community service, and academic integrity. The SHP provides transfer-bound students with the opportunity to enrich themselves through participation in unique, challenging, and interactive educational experiences. The SHP promotes this goal by providing an office that supports and assists students by offering Honors course sections taught by outstanding professors, and by offering opportunities for students to work one-on-one with these faculty members on undergraduate research projects.

### K-12 ARTICULATION AGREEMENTS

An articulation agreement is a formal document verifying that Cerritos College faculty accept a course from a high school, ROP, or Adult School as aligned to a course at the college. It includes what criteria students must meet to be eligible for college credit for that course. Students may earn college credit at Cerritos College for an articulated K12 course through the Credit by Exam process. Cerritos College has waived residency requirements for the students to receive college credit.

#### BENEFITS:

- Students earn college credit while in high school, ROP or adult school program.
- Students do not need to repeat coursework at the college.
- Students get basic skills and knowledge prior to college.
- Ultimately, students decrease the cost of college tuition and textbook fees, and can complete their college program sooner.

For more information, please visit our website at [https://www.cerritos.edu/epp/articulation\\_agreements.htm](https://www.cerritos.edu/epp/articulation_agreements.htm).

### DUAL ENROLLMENT

Dual Enrollment are college classes offered to high school students where they receive both college units and high school credit.

Under Assembly Bill 288 College and Career Pathway Partnership Agreement (CCAP), the college can offer college classes at a high school campus. CCAP Agreements:

- Reach a broader range of students, not just highly gifted students or students in vocational work.
- Emphasize college and career readiness, CTE and transfer pathways.
- Reduce the number of students needing basic skills math and English instruction at the community college.
- Increase enrollment cap from 11 units to 15 units each semester.

#### BENEFITS OF DUAL ENROLLMENT:

- Introduction to and preparation for college life
- Allow high school students to explore interests, careers & majors
- Opportunity to address skill gaps
- Accelerated pathway through college that can save time and money

For more information, review "Admissions to the College" on pages 8-9. Visit our website at [https://www.cerritos.edu/epp/Dual\\_Enrollment.htm](https://www.cerritos.edu/epp/Dual_Enrollment.htm).

## Learning Communities Program

Learning communities involve the intentional creation of class pairs or clusters. The same group of students is co-enrolled in two or more courses, usually from different disciplines. Students enroll in courses but receive a separate grade for each one. Classroom activities, tests, assignments, field trips, research projects, and educational technology are used to engage students in their own learning, as well as provide them with valuable "real-world" skills.

Perhaps more importantly, the learning community model promotes student-centered learning, with an emphasis on an enriched classroom environment. It promotes greater intellectual growth and genuine mastery of course content through collaborative activities, frequent feedback, and increased student-teacher and student-student interactions.

### What are the benefits of joining a Learning Community?

- Smooth your transition into college
- Meet other students and form lasting friendships
- Learn how to choose your major and reach your academic goals sooner
- Graduate or transfer to a four-year college or university sooner
- Increase your learning and earn better grades

### Are Learning Community courses transferable?

Many of the courses are transferable to the CSU's and UC's. See the Schedule of Classes, the Cerritos College Catalog or meet with your counselor to check specific courses.

### What are the requirements to enroll?

The only requirements to enroll in a Learning Community are that you:

- a) meet the prerequisites for all courses and
- b) enroll in all courses listed for that Learning Community

The prerequisites are listed in the Cerritos College Catalog and must be met prior to enrollment.

### How will Learning Community courses be listed on my transcript?

Your transcript will reflect the classes as separate courses.

## LEARNING COMMUNITIES PROGRAM

Cerritos College offers three Learning Communities: First Year Experience, Puente Program, and Umoja Success Program. Below are the descriptions of each Learning Community:

For more information about Learning Communities, please visit our website at <https://www.cerritos.edu/lc/>, email us at [learningcommunities@cerritos.edu](mailto:learningcommunities@cerritos.edu), call (562)860-2451 X2782, or stop by the Office in the Multipurpose Building, Room MP100A-F.

### FIRST YEAR EXPERIENCE PROGRAM

First Year Experience program (FYE) is a student success program designed to help students make a smooth and successful transition into college. FYE pairs classes together in "Houses" that focus on an area of interest and/or major; creating cohorts of students with shared interest.

FYE provides a supportive and welcoming learning community environment where students connect with one another and with creative faculty members. The FYE Houses are packaged together during prime class times, so they work well with your schedule and are guaranteed to the first 30 students who sign a contract. FYE also has events during the semester aimed at connecting you to campus and community.

### PUENTE PROGRAM

The Puente program is designed to help students achieve academic success, instills a sense of belonging, and guarantees students four transfer courses with textbooks provided at no cost. These courses are all transferable and will get you more familiar with the transfer process, major and career decision process, and build your leadership skills. The most unique aspect of the Puente program is that the professors approach these four subject through a Latina/o perspective. Including Latina/o authors, historical and contemporary issues in the Latina/o community, and different themes pertaining to the Latina/o community.

Through Puente you will receive counseling, guidance, mentorship, and assistance on the importance of transferring into a CSU, UC, or Private Universities. The Puente program also takes students on field trips such as visiting Northern California universities free of charge.

### UMOJA SUCCESS PROGRAM

Be a part of a community of scholars designed with you in mind! The Umoja Success Program assists African American students and others in achieving academic and life success through the exploration of Black Culture and Hip Hop. The program is a dynamic learning experience shared by a group of students with faculty that is committed to their success. Umoja, a place to call home!

So what's in it for you? Support, trips, free stuff and much more.

If you want to go fast, then go alone. If you're going to go far, go together! –UMOJA!

## Distance Education Program

Due to the ongoing threat of COVID-19 and its variants, Cerritos College will continue to offer a variety of courses via distance education. Individual sections of courses may be taught “synchronously,” meaning that students will be required to attend class remotely during specific scheduled days and times. Synchronous online courses are listed in the schedule of classes with the designation of “remote” and class days and times are listed. Courses may also be taught “asynchronously,” meaning that students can complete the coursework at any time before the established deadlines and are not required to attend class remotely during scheduled times. Asynchronous online classes are listed in the schedule of classes with the designation of “online.” Individual instructors’ will communicate with their students about requirements for tests and labs via email or in an orientation module. Hybrid courses include the combination of traditional in-class meetings with computer-based learning and other instructional technologies.

All online, remote, and hybrid courses carry full academic credit, and the content is equivalent to what you would receive via a more traditional mode of delivery. Students enroll in distance education classes in the same manner as regular classes. Consult the general enrollment procedures in this catalog or in the class schedule for more information.

### What do Distance Education students need to be successful?

- Internet access and basic computer skills (send and receive e-mail messages and attachments, download and manage files, search and navigate the Internet using a browser);
- Awareness of available online library resources and learning support services;
- Time management and organizational skills;
- Motivation and focus; and
- Completion of an online orientation program or equivalent preparation, such as previous online coursework. Your instructor may offer an orientation module to assist you to complete the course successfully online.

Before registering for an online course, you should make sure that your skills are proficient in basic computing, web browsing, e-mail, and word processing. Your instructor will not teach these skills as part of the content of the course.

## Scholarship Regulations

### FINAL EXAMINATIONS

Instructors at Cerritos College have established their course requirements within the framework of the College’s philosophy and requirements.

Final examinations are required in all courses. A schedule for final examinations is available in the class schedule and online at [www.cerritos.edu/finalexam](http://www.cerritos.edu/finalexam). Students are expected to take examinations when scheduled; but in the event of an emergency or severe illness, the instructor should be notified.

### GRADING

Accomplishment in course work is indicated by the following symbols:

Symbol	Definition	Grade Points
A	Excellent	4
B	Good	3
C	Satisfactory	2
D	Less than satisfactory	1
F	Failing (earned)	0
FW	Failing, due to lack of participation and failure to withdraw	0
EW	Extenuating withdrawal (without penalty)	-
I	Incomplete	-
MW	Military Withdrawal (without penalty)	-
NP	No Pass (less than satisfactory or failing; units not counted in GPA)	-
P	Pass (at least satisfactory, the equivalent of a “C”; units awarded not counted in GPA)	-
*RD	Report Delayed	-
W	Withdrawal	-

\*RD - The RD symbol is used when there is a delay in reporting the grade of a student due to circumstances beyond the control of the student. It is a temporary notation to be replaced by a permanent symbol as soon as possible. RD shall not be used in calculating grade point averages.

### GRADE CHANGES

The determination of the student’s grade by the instructor shall be final in the absence of mistake, fraud, bad faith, or incompetence. The correction of a grade given shall only be allowed for a request initiated within one year following the end of the term in which it was assigned.

Exceptions to the one-year limit on grade changes may be requested by petition of the student in extenuating circumstances. A formal petition must be submitted to the Academic Records and Standards Committee. Extenuating circumstances are verified cases of accident, illnesses, or other circumstances beyond the control of the student (Title 5, Section 55760).

### INCOMPLETE

Students are **not to re-enroll** for a course in which a grade of “I” has been recorded. Incomplete academic work for unforeseeable, emergency and justifiable reasons at the end of the term may result in an “I” symbol being entered in the student’s record. The condition for removal of the “I” shall be stated by instructor in a written record. This record shall contain the conditions for removal of the “I” and the grade assigned in lieu of its removal. This record must be given to the student with a copy on file with the Admissions and Records Office until the “I” is made up or the time limit has passed. A final grade shall be assigned when the work stipulated has been completed and evaluated, or when the time limit for completing the work has passed. The “I” must be made up no later than one year following the end of the term in which it was assigned. The “I” symbol shall not be used in calculating units attempted nor for grade points. (Administrative Policy 4230)

## TRANSCRIPTS OF RECORD

A transcript of all college work completed may be obtained by submitting a written request in the Admissions and Records Office. If ordered on campus, the first 2 transcripts (whether official or unofficial) and verifications of enrollment are free. For subsequent copies, a fee of \$3 is charged for each regular transcript; a \$10 fee is charged for each rush transcript requested at least 2 hours before closing. The fee for verification of enrollment is \$2 for three to five working days processing time, or \$7 for 24-hour service. Please contact the Admissions and Records Office by phone or check the website at [www.cerritos.edu/MyCerritos](http://www.cerritos.edu/MyCerritos), "Transcripts", for information on ordering transcripts via the web.

## VERIFICATION OF STUDENT STATUS FEES

The following are the fees for verification of enrollment:

\$2 per verification of status.

\$5 additional rush fee per verification to be completed within the same business day.

Exemptions for these fees are for verification of enrollment and grade point average for the California Student Aid Commission for financial aid purposes.

## GOOD STANDING

Students are considered to be in good academic standing if s/he maintains a cumulative grade point average of 2.0 or higher for all course work completed, and if the percentage of all units attempted for which entries of "W", "I", and "NP" are recorded does not reach or exceed 50 percent.

## PROBATION

### A. Academic Probation

Students who have attempted at least twelve (12) semester units as shown by the official academic record shall be placed on academic probation if the students have earned a grade point average below 2.0 in all units undertaken at Cerritos College.

### B. Progress Probation

Students who have enrolled in a total of at least twelve (12) semester units as shown by the official academic record shall be placed on progress probation when the percentage of all units at Cerritos College which the students have attempted and for which entries of "W", "I", and "NP" are recorded reaches or exceeds 50 percent.

Probation is entered on the student's permanent records and transcripts of record. Students placed on academic or progress probation will be notified at the email address listed on the official college record. (Board Policy 4250 and Administrative Policy 4250)

## PROBATION CLEARANCE

### A. Academic Probation Clearance

Students may clear academic probation by earning sufficient grade points to raise the cumulative grade point average to 2.0 or higher in the next semester of attendance. Probation status is not cleared by one semester of 2.0 GPA if it does not raise the cumulative GPA to 2.0 or higher.

### B. Progress Probation Clearance

Students may clear progress probation by decreasing the percentage of "W", "I", or "NP" entries to less than 50 percent of all units in which the students have attempted. (Board Policy 4250)

## STANDARDS FOR DISMISSAL

### A. Academic Dismissal

Students are subject to academic dismissal when their GPA is less than 2.0 in 12 units or more for two consecutive semesters on academic probation. Students subject to academic dismissal shall be placed on continued probation when their latest semester's GPA is 2.0 or higher.

### B. Progress Dismissal

Students who have been placed on progress probation shall be subject to dismissal if the percentage of units in which the students have been enrolled and for which entries of "W", "I", or "NP" are recorded in at least two (2) consecutive semesters reaches or exceeds 50 percent. Students subject to progress dismissal shall be placed on continued probation when no "W", "I", or "NP" entries are recorded for their latest semester.

Students are notified they have been placed on probation shortly after the beginning of the subsequent semester. Dismissal notices are issued before the start of the fall semester. Dismissed students may attend summer session to improve academic deficiencies.

## REINSTATEMENT AFTER DISMISSAL

### A. Academic Reinstatement

Students may re-enter the semester following academic dismissal through successful petition to the Academic Records and Standards Committee. However, such students will remain on probation until the accumulated GPA is 2.0 or higher.

### B. Progress Reinstatement

Students may re-enter the semester following progress dismissal through successful petition to the Academic Records and Standards Committee. However, such students will remain on probation until the percentage of "W", "I", or "NP" entries is less than 50 percent of all units in which the students have enrolled.

**Petitions must be filed prior to the deadline indicated on the readmission petition.**

## REMOVAL FROM CLASS

A student may be involuntarily removed from a course due to excessive absences, failure to meet prerequisite(s), or as a result of official disciplinary action (California Code of Regulations, Title 5, Section 55003).

## ATTENDANCE

It is the responsibility of students to attend classes regularly and apply themselves to the college studies in which they are enrolled. When students have been absent due to illness, they should report to their instructor to explain the absence. **Students not in attendance or late for the first class meeting are subject to drop. Students who are absent in excess of 10% of the total class hours are subject to drop. Students who are absent during the course add period are subject to drop.** Certain academic and career technical education areas may have stricter attendance requirements.

Listed below are two types of absences which permit the making up of work missed, provided that the work is of such a nature that it can be made up.

1. AUTHORIZED ABSENCE: For an approved educational field trip or school activity.
2. EXCUSED ABSENCE: For illness, injury, or quarantine.

NO CREDIT WILL BE GIVEN FOR A CLASS IN WHICH A STUDENT IS NOT OFFICIALLY ENROLLED.

Students must attend the first class meeting or their names may be removed from the roll to allow another student seeking admission to enter. If a student is unable to attend the first class meeting, the instructor must be notified.

## WITHDRAWAL

Pursuant to Title 5, section 58004 and Cerritos College Board Policy, it is the student's responsibility to participate fully in class(es), once enrollment is complete. However, should it become necessary to withdraw from class, it is the student's responsibility to drop in person in the Admissions and Records Office or through MyCerritos.

### THE ULTIMATE RESPONSIBILITY OF WITHDRAWAL FALLS TO THE STUDENT.

#### How to officially withdraw after enrollment ends:

Complete an Add/Drop Card (available in the Admissions and Records Office) or for a faster response, use MyCerritos (<http://my.cerritos.edu>). Retain an updated printout for your records.

**ALL WITHDRAWALS MUST BE COMPLETED BY THE LISTED DEADLINES. FAILURE TO OFFICIALLY WITHDRAW FROM CLASS(ES) MAY RESULT IN AN "F/FW" GRADE FOR EACH CLASS. See the "Session Dates and Deadlines" in the Schedule of Classes for specific deadlines.**

Withdrawal resulting in Progress Probation and/or grades resulting in Academic Probation for two consecutive terms causes loss of enrollment priority, with certain exceptions, and is subject to appeal.

## BASIC SKILLS COURSE LIMITATIONS

No more than a total of thirty (30) units from the pre-collegiate basic skills courses listed below are allowed:

ENGL 20  
MATH 20, 40  
READ 41, 42, 43, 46, 48, 49

"Basic Skills Course Work" refers to pre-collegiate basic skills courses (i.e., courses in reading, writing, computation, learning skills, study skills) which are designated as non-degree applicable courses, the purpose of which is to prepare students for successful completion of Associate of Arts degrees, transfer, or certificate courses.

Students enrolled in one or more courses of English as a Second Language (ESL) or students identified as having a learning disability are exempt from the thirty (30) unit limitation. A student who has completed thirty (30) units of basic skills course work, shall be barred from registering in pre-collegiate basic skills classes and referred to other appropriate agencies to develop the skills necessary to enter college-level course work. (Administrative Policy 4222)

## ACADEMIC RENEWAL REGULATIONS

An Academic Renewal procedure permits alleviation of previously recorded sub-standard ("D", "F", and "NP") academic performance which is not reflective of a student's present demonstrated ability and level of performance. The permanent academic record shall be annotated in such a manner that all work remains legible, ensuring a true and complete academic history.

1. A student may request that up to 30 units substandard course work attempted be annotated and disregarded in the computation of the student's grade point average or requirements for a degree. Only those requested courses with substandard grades will be disregarded.
2. At least twenty-four (24) units of college work from an accredited institution with a grade point average of 2.0 must be completed after the 30 units of course work to be alleviated.
3. A student may be granted academic renewal only once.
4. No alleviated course work shall apply toward degree requirements.
5. In the petition, the student must specify the course(s) to be considered under the academic renewal policy as well as the term in which the course work was attempted.
6. Some senior-level institutions and, possibly, certain out-of-state community colleges do not honor academic renewal. It is the student's responsibility to ensure that his/her transfer institution will approve of academic renewal from Cerritos College.

A student may petition for academic renewal at the Admissions and Records Office.

## CREDIT FOR PRIOR LEARNING

Cerritos College offers Credit for Prior Learning to provide students with increased access to course credit. The college honors previous educational and work experiences by permitting students to demonstrate knowledge and/or skills they have previously acquired. Students who demonstrate proficiency by any of the methods listed below may be awarded credit for prior learning.

### **PASS/NO PASS COURSES**

Title 5, California Administrative Code 55022, permits the granting of credit toward a degree or certificate for courses completed on a Pass/No Pass basis. All sections of the course must be offered in the same manner. Courses may be offered for Pass/No Pass in either of the following categories and will be specified in the catalog:

#### *Pass/No Pass Only Grading Basis*

- Courses wherein all students are evaluated on a Pass/No Pass basis only. Please refer to current Schedule of Classes for the list of courses offered as Pass/No Pass only.

#### *Optional Pass/No Pass Grading Basis*

- Courses in which each student has the option to individually elect Pass/No Pass or letter grade. Please refer to the current Schedule of Classes for the list of courses offered with the Pass/No Pass option.

No more than fifteen (15) units of Pass/No Pass courses may be completed at Cerritos College, nor may more than fifteen (15) units earned on a Pass/No Pass basis be applied toward the Associate of Arts degree. Some courses are graded entirely on a Pass/No Pass basis. Units earned in such courses shall not be considered as a part of the fifteen (15) unit limit in the optional Pass/No Pass policy.

The decision to elect Pass/No Pass grading must be made by the end of the fifth week of a full semester course or by the first 30 percent of a short-term course, after which no other evaluative grade may be given. Pass/No Pass forms are available online or in the Admissions and Records Office in the Administration Building. Forms must be received and processed by the Admissions and Records Office in order to receive the Pass/No Pass notation.

A grade of "P" is earned for coursework equal to a grade of "C" or better. A grade of "NP" is earned for coursework equal to a grade of "D" or "F". Neither "P" nor "NP" grades are used in computation of grade point average; however, P/NP units will appear on the transcript of record.

A student may reverse P/NP selection to a letter grade, provided the reversal is completed prior to the end of the fifth week of a full semester course or prior to the first 30 percent of a short-term course.

Units attempted for which a grade of "NP" is recorded shall be considered in probation and dismissal procedures. Students may not repeat a course using the P/NP grading basis for a course previously taken for a letter grade.

Students are advised that four-year institutions may limit the number of units acceptable for transfer completed with a P/NP notation. (Administrative Policy 4232)

NOTE: As a result of the shift to online instruction in Spring 2019 due to the COVID-19 pandemic, the California Community Colleges Chancellor's Office (CCCCO) issued a formal memo suspending the regulatory limitations outlined in this section through the end of the 2021 calendar year. Unless the Chancellor's Office issues an extension of the suspension, the regulatory limitations related to the P/NP grading option will be restored at that time.

**ACCEPTANCE OF TRANSFER COLLEGE CREDIT**

A student who presents an official transcript of previous college or university work (other than non-degree applicable course work) in courses comparable to those of Cerritos College, may receive credit towards the Associate of Arts degree from Cerritos College. Before credit can be granted, the course work must have been completed at a college or university that is a member of one of the six regional accrediting associations. Official transcripts must be on file with the Admissions and Records Office. Hand-delivered copies of transcripts are accepted provided they are received in a sealed envelope.

Transfer credit from institutions using the quarter system shall be evaluated as follows:

*The number of quarter units shall be multiplied by two and divided by three to arrive at the approximate number of semester units. (i.e., 4 quarter units equal approximately 3 semester units.)*

Cerritos College is authorized to enroll F-1 non-immigrant students and welcomes applications from such persons. All records of any previous schools (mark sheets, transcripts, diplomas, certificates, etc.) must be submitted. These records must show courses taken and grades earned, and must be translated into English if the original records are in another language. If a translation is supplied, it should be certified as accurate and correct by an appropriate public or school official, or sponsoring agency or government. The original record should also be included.

Prior to the application of credit towards the Associate of Arts degree (A.A.), the international transcript must be submitted to evaluation agencies acceptable to Cerritos College. The college may then choose to accept or not accept the agency's recommendations to award credit towards the Associate of Arts degree.

Since the four-year universities maintain their own individual evaluation staffs, credit from foreign institutions towards the Baccalaureate degree is subject to the universities' review.

International students who wish to enroll as an F-1 status, please refer to the "Admission of International Students" in this catalog. Also, please contact the Office of International Student Services (OISS) at (562) 860-2451, Ext. 2133; email us at [intadmissions@cerritos.edu](mailto:intadmissions@cerritos.edu) or visit the website at [www.cerritos.edu/international](http://www.cerritos.edu/international).

**ADVANCED PLACEMENT EXAM CREDIT**

Cerritos College will grant degree-applicable credit for College Board Advanced Placement examinations, based on a policy change from the community college Chancellor's Office resulting from an assembly bill. There is now a uniform statewide community college policy on the use of AP for the A.A. degree. A score of 3, 4 or 5 is required in order to receive units toward the A.A. degree. The number of units earned through Advanced Placement exams will be noted on the student's transcript. AP exams that do not specify a general education area will receive elective credit. AP Credit granted can be used to satisfy Cerritos College General Education requirements for the A.A. degree (Plan A) as follows:

AP Examination	CCC GE Areas	Minimum Semester Units
Art History	Humanities	3
Biology	Natural Sciences	4
*Calculus AB	Language & Rationality	3

## Student Rights and Responsibilities

### PREAMBLE

The community college exists for the transmission of knowledge, the pursuit of truth, the development of students, and the general well being of society. Free inquiry and free expression are indispensable to the attainment of these goals. As members of the academic community students should be encouraged to develop the capacity for critical judgment and to engage in a sustained and independent search for truth and knowledge.

Freedom to teach and freedom to learn are inseparable facets of academic freedom. The freedom to learn depends upon appropriate opportunities and conditions in the classroom, on the campus, and in the larger community. Students should exercise their freedom with responsibility so as not to endanger the rights, goals, and beliefs of other students.

Cerritos College is open to all qualified students regardless of national origin, religion, age, gender, gender identity, gender expression, race or ethnicity, color, medical condition, genetic information, ancestry, sexual orientation, marital status, physical or mental disability, pregnancy, or because he or she is perceived to have one or more of the foregoing characteristics, or based on association with a person or group with one or more of these actual or perceived characteristics, or any other status protected by law in person or in an online environment and, when the victim or victims are associated with the District, whether or not the location is associated with the District.

### CLASSROOM RIGHTS AND RESPONSIBILITIES

The professor in the classroom and in conference should permit free discussion, inquiry, and expression of thought by the student. Student performance should be evaluated solely on an academic basis, not on opinions or willingness to accept professors' personal beliefs, or conduct unrelated to academic standards. Student should be free to take reasoned exception to the data or views offered in any course of study for which they are enrolled and for maintaining standards of academic performance established for each course in which they are enrolled. The student has the right to have the course taught in a systematic, meaningful manner and to know at the beginning of the course those academic standards required of the student in the course. Administrative staff and faculty members should respect confidential information about students, such as student views, beliefs and political associations, that is acquired in the course of their work. Transcripts of academic records should contain only information about academic status.

### ON CAMPUS RIGHTS AND RESPONSIBILITIES

Students should be free to examine and discuss all questions of interest to them, and express opinions publicly and privately. They should be free to organize and join associations to promote their common interests. The membership, policies and actions of a student organization will be determined by vote of only those persons who hold bona fide membership in that college organization. Campus advisors shall advise organizations in the exercise of their rights and responsibilities.

Student organizations shall be required to submit a statement of purpose, criteria for membership, rules of procedures, a current list of officers, and the advisor shall certify the list of verified members. Campus organizations should be open to all students.

Students and student organizations should be free to support causes by orderly means which do not disrupt the regular and essential operation of the college. Student organizations shall have the right to recommend, invite, and hear any person of their own choosing as long as such speakers and topics are in accordance with federal, state and local laws, and guarantee the safety of students and protection of public property. Guest speakers invited by students or student organizations should be subjected only to those policies, requirements, and regulations as established by the Board of Trustees in order to insure an appropriate and meaningful contribution to the academic community. It should be made clear to the academic community and the larger community that the public expressions of students, student organizations and guest speakers speak only for themselves.

As constituents of the academic community, students should be free, individually and collectively, to express their views on issues of institutional policy, instruction, the evaluation of professors as it pertains to their course content, and on matters of general interest to the student body.

### IN THE LARGER COMMUNITY

College students are both citizens and members of the academic community. As citizens, students should enjoy the same freedom of speech, peaceful assembly, and right of petition that other citizens enjoy. As citizens they should be subject to civil law as others and may incur penalties prescribed by civil authorities when violating these laws. Only where the college's interests as an academic community are distinct and clearly involved should the special authority of the college be asserted.

### STUDENT PUBLICATIONS

Student publications and the student press perform the traditional roles of informing, entertaining, and influencing. They are both instructional and informational, and as such should meet the highest academic and professional standards in serving the broad college community and should set forth as the primary goal of the student newspaper the coverage of news events, happenings, and experiences on the college campus.

Associated Student Body, administrative and academic authorities, in consultation with students and advisors have the responsibility to define and clarify the role of student publications, and the standards to be used in their evaluation.

They must also assure that both academic freedom and editorial freedom are protected and exercised so that the integrity of the student publications program and the free press will not be compromised.

It is incumbent upon student editors and managers to act according to the highest ethics of responsible journalism. This corollary responsibility includes careful adherence to the laws of libel and good taste, and such considerations as the avoidance of indecency, undocumented allegations, attacks on personal integrity, and the techniques of harassment and innuendo, and should allow adequate space for rebuttal and differing views in regard to articles in which there is some controversy.

Safeguards to assure freedom of the student press with responsibility should include freedom from censorship or arbitrary control of the press, and protection of editors and managers from arbitrary attack, suspension, or removal because of disapproval of editorial policy or content by any external influence.

## STUDENT RIGHTS AND GRIEVANCES

**NOTE:** Complaints under Section 504, Section 508, and/or the Americans with Disabilities Act are to be made to the Section 504/508/ADA Coordinator in the Disabled Student Programs and Services Office or to the Diversity/Compliance/Title IX Officer in the Human Resources Office. Complaints of sexual harassment and other illegal discrimination are to be made to the Diversity/Compliance/Title IX Officer in the Human Resources Office or the Vice President of Human Resources.

If a student files a grievance under this procedure that includes an allegation of unlawful discrimination, including harassment or retaliation, the grievance, or portion of the grievance, will immediately be referred to (i) the Diversity/Compliance/Title IX Officer or to the Vice President of Human Resources or designee per AP 3435, "Intake and Processing of the Complaint," or to (ii) the Cerritos College Section 504/ADA Coordinator per Administrative Procedure 3412, for attempted informal resolution or investigation.

## STUDENT GRIEVANCE PROCEDURES

A student of the College may address grievances as applied to and regarding academic, administrative, and instructional matters relating to students, and including, but not limited to, any grievance dealing with any academic or management employee of the District.

A grievance shall herein be defined as any act depriving a student of any of the rights set forth in the statement of "Student Rights and Responsibilities," or any state, federal, or local codes. Grades and grading grievances are not addressed within this administrative procedure. The student should refer to "Student Grade Grievance Procedure."

The determination of whether the Statement of Grievance presents sufficient grounds for a hearing shall be based on the following:

- The statement contains facts which, if true, would constitute a grievance under these procedures;
- The grievant is a student, which includes applicants and former students;
- The grievant is personally and directly affected by the alleged grievance;
- The grievance was filed in a timely manner;
- The grievance is not clearly frivolous, clearly without foundation, or clearly filed for purposes of harassment.

If the grievance does not meet each of the requirements, the Office of Student Conduct and Grievance or ASCC Chief Justice or designee shall notify the student in writing of the rejection of the request for a grievance hearing, together with the specific reasons for the rejection and the procedures for appeal.

GRIEVANCE PROCEDURE (Except Grades and Grading, Sexual Harassment, and Other Illegal Discrimination):

### STEP I - INFORMAL ACTION

- A. The student with a grievance shall first attempt to resolve the matter by informal discussion with the employee(s) involved.
- B. If the problem is not resolved in step I-A, the student shall then attempt to resolve the matter by informal discussion with the person at the lowest level of supervisory authority for the person with whom there is a complaint.

- C. If the grievant still believes the issue has not been resolved satisfactorily after Step I-B, a student Statement of Grievance form may be obtained from the Office of Student Conduct and Grievance. After completion of the form, specifying the time, place, nature of the complaint and remedy or correction requested, it should be submitted to the Coordinator of Student Conduct and Grievance who will send a copy of the written statement to the ASCC Supreme Court Chief Justice and the Vice President of Academic Affairs. This statement must be submitted within 30 instructional days after the grievant has become aware of the act or condition on which the complaint is based. An instructional day is defined as any day Monday through Friday that all normal college business is conducted, both in the classroom and administrative offices. All weekend days and college holidays are excluded.
- D. The ASCC Chief Justice or Court designee shall attempt to resolve the problem through informal meeting and discussion among the pertinent parties while remaining neutral on all issues involved. This informal meeting and discussion is intended to include the levels of management or administration concerned with the problem and should be completed within ten instructional days, as such days are defined herein. In the event the informal procedure fails, the formal procedure may be implemented.

### STEP II - FORMAL ACTION

#### A. PRELIMINARY STEPS

1. If the grievant does not believe the grievance has been resolved, the grievant may request Step II-Formal Action through the ASCC Chief Justice. The Chief Justice upon receiving the request of the grievant shall call a meeting of the Student Grievance Hearing Committee. The Hearing Committee will be composed in the following manner:
  - ASCC Chief Justice or designee and two Court Justices or designees,
  - the Vice President of Academic Affairs or administrative designee,
  - the Faculty Senate President or Senate designee, and
  - one Faculty Senate member, chosen by the Faculty Senate.If replaced per section II.A.5. herein, the ASCC Chief Justice or designee or Court Justices or designees substitute(s) shall be appointed by the ASCC Court.
2. The Chief Justice or designee shall serve as the Hearing Committee Chair, but shall have no vote in committee decisions. The five voting members of the Hearing Committee may be selected within the first six weeks of the academic year. Names selected by the Faculty Senate are to be submitted to the Chief Justice. Members of the committee are to serve for an academic year.
3. The Vice President of Academic Affairs or administrative designee shall serve as Hearing Committee Executive Secretary. The Executive Secretary, a voting member of the committee, shall be responsible for keeping necessary records of committee hearings and assist the ASCC Chief Justice in the conduct of the hearing.
4. Grievance Committee members are to deal with all grievances in a confidential manner, except when both parties agree to a public hearing or otherwise required by law.

5. No person shall serve as a member of a Hearing Committee if that person has been personally involved in any matter giving rise to the grievance, has made any statement on the matters at issue, or could otherwise not act in a neutral manner. Any party to the grievance may challenge for cause any member of the hearing committee prior to the beginning of the hearing by addressing a challenge to the Hearing Committee Chair, who shall determine whether cause for disqualification has been shown. If the Hearing Committee Chair determines that sufficient grounds for removal of a member of the committee have been presented, the Hearing Committee Chair shall remove the challenged member or members and request a substitute from the original appointing constituent group.

#### B. FORMAL HEARING

The Hearing Committee shall conduct its proceedings according to the following procedures:

1. The Hearing Committee must meet within 15 instructional days after informal action has been completed and the grievant has requested a formal hearing.
2. The Chair must notify the parties involved within five instructional days before the hearing of the date, time, and location of the hearing and must include a copy of the written complaint, a copy of the Statement of Student Rights and Responsibilities, and copy of the Grievance Procedure.
3. Four members shall constitute a quorum by which Hearing Committee business may proceed. The quorum must include at least one student member, one faculty member, and one administrative member.
4. The members of the Hearing Committee shall be provided with a copy of the grievance and any written response provided by the respondent before the hearing begins.
5. Both parties shall have the right to present personal statements, testimony, evidence, and witnesses. Formal rules of evidence shall not apply. Any relevant evidence shall be admitted. Unless the Hearing Committee determines to proceed otherwise, each party to the grievance shall be permitted to make an opening statement. Thereafter, the grievant or grievants shall make the first presentation, followed by the respondent or respondents. The grievant(s) may present rebuttal evidence after the respondent(s)' evidence. The burden shall be on the grievant or grievants to prove by substantial evidence that the facts alleged are true.
6. Each party shall have the right to be present, to be accompanied by the person of his or her choice (who may not participate in the hearing), and to question witnesses who are present. In a closed hearing, witnesses shall not be present at the hearing when not testifying, unless all parties and the committee agree to the contrary.
7. The hearing shall be recorded by the Coordinator of Student Conduct and Grievance, either by audio recording or stenographic recording, and shall be the only recording made. No witness who refuses to be recorded may be permitted to give testimony. The audio or stenographic recording shall remain in the custody of the District, at all times, unless released to a professional transcribing service. Any recognized party to the grievance may request a copy of the recording.
8. The Hearing Committee Chair shall, at the beginning of the hearing, ask each person present to identify themselves by name, and thereafter shall ask witnesses to identify themselves by name.
9. The Hearing Committee shall discuss the stated grievance(s), hear testimony, examine witnesses, and receive all available evidence to the charge.
10. The hearing shall be closed to the public unless otherwise agreed upon in writing by both parties.
11. The Hearing Committee shall make decisions in private. The Hearing Committee shall write up findings and decisions. Copies of findings and decisions, including majority and minority reports, are to be sent to each party and the appropriate Vice President. The Hearing Committee's decision(s) shall be final unless appealed.
12. A recording of the proceedings shall be kept in a confidential file in the Office of Student Conduct and Grievance and shall be available at all times to parties directly involved. All documents, communications, and records dealing with the processing of a grievance will be filed separately from the personnel files of the participants. After a period of four years, the grievance file shall be destroyed.
13. Reprisals of any kind will not be taken by the District or any of its agents against any party of interest or any other participant in the grievance procedure by reason of such participation.
14. Evidence and testimony given in each case presented shall not be the sole cause of initiating or filing further grievances.
15. If the grievant does not act within the time limits provided herein, the ability to proceed with the grievance shall be terminated and no further action will be taken.
16. The number of instructional days indicated at each step herein should be considered a maximum and every effort must be made to expedite the process. Time limits may be extended by mutual consent in writing or by decision of the Hearing Committee.
17. The Hearing Committee should attempt to reach a decision by discussion and consensus on a workable solution. Voting should be a last course of action.
18. If in the course of the proceedings a student graduates before a solution is found, the student shall not be denied full consideration under this policy. A student may also submit a grievance after graduation if the grievance did not become known until that time. However, it must be submitted within 30 instructional days after the grievant should have reasonably become aware of the act or condition on which the complaint is based.

#### C. APPEALS PROCESS

1. If a party wishes to formally appeal a recommendation of the Hearing Committee, an appeal must be submitted within ten instructional days to the appropriate Vice President provided the appropriate Vice President is not a direct party to the grievance. If the appropriate Vice President is a direct party to the grievance, and either party is dissatisfied with the recommendation of the Hearing Committee, an appeal may be submitted to a Vice President/Assistant Superintendent not a direct party to the grievance.
2. Upon receiving the findings and recommendations of the Hearing Committee, and after examination of the appeal as requested by either party, the appropriate Vice President or alternate may accept or reject the Hearing Committee's decision.

3. If the appropriate Vice President or alternate rejects the Hearing Committee's decision, he or she shall submit his/her decision with the stated reasons for objections to the Hearing Committee within ten instructional days. The Hearing Committee shall within ten instructional days reconsider its decision(s) and submit its decisions to the appropriate Vice President for a final decision.
4. The appropriate Vice President shall transmit his or her final decision to the parties within ten instructional days.
5. An appeal of the appropriate Vice President's decision may be submitted to the President/Superintendent by either party within five instructional days of the appropriate Vice President's decision. The President/Superintendent shall transmit his or her final decision to the parties within ten instructional days.
6. An appeal of the President/Superintendent's decision may be submitted to the Board of Trustees by either party within five instructional days of the President/Superintendent's decision. The Board of Trustees may review an appeal for two consecutive regular Board meetings before making a final determination of the matter at the District level.
7. The President/Superintendent or designee, or Board of Trustees may reject a Hearing Committee decision only after reviewing a transcription of the involved hearing.

## STUDENT GRADE GRIEVANCE PROCEDURE

A student of the College may present a grade grievance. The California Education Code, Section 76224 (quoted below) states for a final course grade the conditions upon which grades or grading can be questioned.

When grades are given for any courses of instruction taught in a community college district, the grade given to each student shall be determined by the instructor of the course and the determination of the student's grade by the instructor, in the absence of mistake, fraud, bad faith, or incompetence, shall be final. "Mistake" may include, but is not limited to, errors made by an instructor in calculating a student's grade and clerical errors.

### Definitions

**Fraud** – Fraud consists of some deceitful practice with intent to deprive another of their right.

**Bad Faith** – Intentional design to mislead or deceive another, or neglect or refusal to fulfill some duty or contractual obligation.

**Incompetence** – That a person is incapable, inefficient, and without the qualities needed to discharge their obligations and duties.

**Mistake** – An unintentional act, omission, or error.

**Instructional Day** – Any day Monday through Friday that all normal college business is conducted, both in the classroom and in the administrative offices. All weekend days and college holidays are excluded.

## STEP I – INDIVIDUAL ACTION

If a student believes they have valid grounds to challenge a final course grade based on the presence of a mistake, fraud, bad faith, or incompetence, they must first meet with the faculty member to attempt to resolve his or her concern informally. Once grades are available, the student is expected to contact their instructor directly to discuss the dispute. If the instructor is not available or is no longer employed, the student should contact the Division Dean.

When challenging a grade, the burden of proof is on the student to provide evidence of mistake, fraud, bad faith, or incompetence.

## STEP II – MANAGEMENT ACTION

**NOTE:** If a student files a grade grievance that includes an allegation of unlawful discrimination, including harassment or retaliation, the grievance, or portion of the grievance, will immediately be referred to (i) the Diversity/Compliance/Title IX Officer or to the Vice President of Human Resources or designee per AP 3435, "Intake and Processing of the Complaint" or to (ii) the Cerritos College Section 504/ADA Coordinator per AP 3412, for attempted informal resolution or investigation.

1. The student will submit the Grade Grievance Form on the Office of Student Conduct and Grievance website within 30 instructional days after the completion of the course about which the grade grievance is filed. Information from the form will be used to create a Grade Grievance Petition, provided to the student during the meeting with the Student Conduct Coordinator. Students may obtain an alternate electronic format of this form by request to the Student Conduct Coordinator or Dean of Student Services. Stated deadline still applies.
2. The Student Conduct Coordinator will meet with the student to review this procedure and the Grade Grievance Petition. The student must schedule and meet with the Student Conduct Coordinator within 10 instructional days of submitting the form. If the student wishes to pursue the grievance, the Student Conduct Coordinator will sign and date the Petition and provide to the student. In the absence of the Coordinator, the Dean of Student Services will perform these duties.
3. The student will present a copy of the Grade Grievance Petition and all supporting evidence to the applicable Division Dean within 10 instructional days of obtaining the signature of the Student Conduct Coordinator. The Division Dean may schedule a meeting with the student and the faculty if appropriate. The Division Dean shall render a decision, and communicate the decision in writing to all parties within 15 instructional days. The outcome notice must include a summary of the grievance allegations, findings from review of the grievance and supporting evidence, a statement of analysis and determination, and instructions for appeal.

## STEP III – ADMINISTRATIVE ACTION

If either party is dissatisfied with the decision of the Division Dean, he or she may appeal the matter to the Vice President of Academic Affairs or designee within ten instructional days of the Division Dean's recommendation. The Vice President of Academic Affairs or designee shall call a meeting with the student, the ASCC Chief Justice, the Division Dean, and if needed, the faculty member. The Vice President of Academic Affairs or designee shall transmit his or her decision to the parties within ten instructional days.

The outcome notice must include a summary of the grievance allegations and prior findings, findings from review of the grievance appeal and supporting evidence, a statement of analysis and determination, and instructions for appeal.

#### **STEP IV – BOARD OF TRUSTEES ACTION**

If either party is dissatisfied with the decision of the Vice President of Academic Affairs or designee, an appeal may be submitted to the Board of Trustees. The appeal must be submitted within ten instructional days of the Vice President of Academic Affairs or designee's decision. The Board may review an appeal for two consecutive regular Board meetings during closed session, and if needed, request persons involved in the grievance to appear before making a final determination of the matter at the District level. Following final determination, the outcome will be recorded in the Board minutes and notice provided to all parties in writing from the Office of the President within ten instructional days. The outcome notice must include a summary of the grievance allegations and prior findings, findings from review of the grievance appeal and supporting evidence, and the statement of final determination.

#### **ADDITIONAL INFORMATION**

Most complaints, grievances, and disciplinary matters should be resolved at the college level. If a complaint does not fall into one of the college's established procedures, it may be addressed in writing to the President/Superintendent. Individuals are strongly encouraged to make every attempt to resolve matters through the appropriate administrative processes.

Matters that are not resolved at the college level may be submitted to one or more of the following agencies for consideration:

- The Accrediting Commission for Community and Junior Colleges (ACCJC) at [www.accjc.org/complaint-process](http://www.accjc.org/complaint-process), if the complaint is associated with the institution's compliance with academic program quality and accrediting standards. The ACCJC is the agency that accredits the academic programs of the California Community Colleges.
- If the complaint does not concern the college's compliance with academic program quality and accrediting standards, it may be directed to the California Community Colleges Chancellor's Office by completing the web form found at [www.californiacommunitycolleges.cccco.edu](http://www.californiacommunitycolleges.cccco.edu).

## ACADEMIC HONESTY/DISHONESTY POLICY

Your instructors are eager to help you succeed in your studies at Cerritos College. But success means more than just receiving a passing grade in a course. Success means that you have mastered the course content so that you may use that knowledge in the future, either to be successful on a job, or to continue on with your education in advanced classes.

Your success depends on a combination of the skill and knowledge of your instructors, and your own hard work. You will reach your future goals only if you gain new knowledge from every course you take. That knowledge becomes yours, and can be used by you, only if it is gained through your own personal efforts. Receiving a grade in a course, without acquiring the knowledge that goes with it, diminishes your chances for future success.

While in college, you are also shaping the principles which will guide you throughout the rest of your life. Ethical behavior and integrity are a vital part of those principles. A reputation for honesty says more about you, and is more highly prized, than simply your academic skills.

For that reason, academic honesty is taken very seriously by the Cerritos College faculty. The following guidelines have been prepared so that you will understand what is expected of you in maintaining academic honesty.

Academic dishonesty is normally to be dealt with as an academic action by the instructor, reflected in the student's grade in the particular course, rather than through college disciplinary procedures.

No specific departmental, divisional or institutional procedures are established for academic dishonesty other than the normal process for review and appeal of an instructor's grading procedures. However, plagiarism, cheating, and other forms of academic dishonesty are violations of the college's official Standards of Conduct.

Academic dishonesty is defined as the act of obtaining or attempting to obtain credit for work by the use of any dishonest, deceptive or fraudulent means. Examples of academic dishonesty would include, but not be limited to, the following:

- Copying, either in part or in whole, from another's test or examination;
- Discussion of answers or ideas relating to the answers, on examination or test when the instructor prohibits such discussion;
- Obtaining copies of an exam without the permission of the instructor;
- Using notes, "cheat sheets," or otherwise utilizing information or devices not considered appropriate under the prescribed test conditions;
- Altering a grade or interfering with the grading procedures in any course;
- Allowing someone other than the officially enrolled student to represent the same;
- Plagiarism, which is defined as the act of taking the ideas, words or specific substantive material of another and offering them as one's own without giving credit to the source.

Options may be exercised by the faculty member to the extent that the faculty member considers the cheating or plagiarism to manifest the student's lack of scholarship or to reflect on the student's lack of academic performance in the course. One or more of the following actions are available to the faculty member who suspects a student has been cheating or plagiarizing:

1. Review-no action.
2. An oral reprimand with emphasis on counseling toward prevention of further occurrences.

3. A requirement that work be repeated.
4. A reduction of the grade earned on the specific work in question, including the possibility of no credit for the work.
5. A reduction of the course grade as a result of item 4 above, including the possibility of a failing grade for the course.
6. Referral to the Office of Student Conduct and Grievance for further administrative action, such as suspension or expulsion.

## STUDENT DISCIPLINE PROCEDURES

Student Conduct Programs should contribute to the teaching of appropriate individual and group behavior as well as to protecting the campus community from disruption and harm. The Programs should be conducted in ways that will serve to foster the ethical development and personal integrity of students and the promotion of an environment that is in accord with the overall educational goals of the institution. This procedure will be used in a fair and equitable manner, and not for purposes of retaliation. It is not intended to substitute for criminal or civil proceedings that may be initiated by other agencies.

These Administrative Procedures are specifically not intended to infringe in any way on the rights of students to engage in free expression as protected by the state and federal constitutions, and by Education Code Section 76120, and will not be used to punish expression that is protected.

The Office of Student Conduct and Grievances is responsible for the student conduct and sanctioning procedures of the college. Inquiries should be directed to the Office of Student Conduct and Grievances.

Written copies shall be sent to the student and copies filed with the Office of Student Conduct and Grievances.

**Removal from Class** (Education Code Section 76032) – Any instructor may order a student removed from his/her class for the day of the removal and the next class meeting. The instructor shall immediately report the removal to the Faculty Coordinator for Student Conduct and Grievance and complete a Student Conduct Incident Form. The Faculty Coordinator or designee shall arrange for a conference between the student and the instructor regarding the removal. If the instructor or the student requests, the Faculty Coordinator or designee shall attend the conference. **Immediate Interim Suspension** (Education Code Section 66017) – The President/Superintendent or designee may order immediate suspension of a student where he or she concludes that immediate suspension is required to protect lives or property and to ensure the maintenance of order. If consent is withdrawn by the Dean of Student Services or designee, a written report must be promptly made to the President/Superintendent or designee.

The person from whom consent has been withdrawn may submit a written request for a hearing on the withdrawal within the period of the withdrawal. The request shall be granted not later than seven days from the date of receipt of the request. The hearing will be conducted in accordance with the provisions of this procedure relating to interim suspensions.

In no case shall consent be withdrawn for longer than 14 days from the date upon which consent was initially withdrawn.

All applicable conditions of a withdrawal of consent to remain on campus, suspension, or expulsion in effect when a break occurs in the conducting of College business (both in the classroom and in the administrative offices) remain in effect during the break unless specifically excepted in writing by the President/Superintendent or designee.

A withdrawal of consent to remain on campus, suspension, or expulsion prohibits both physical presence on the campus and at a facility or activity operated by the College and any type of online or distance education presence or participation in classes, activities, and/or operations of the College.

Any person as to whom consent to remain on campus has been withdrawn who knowingly reenters the campus during the period in which consent has been withdrawn, except to come for a meeting or hearing, is subject to arrest (Penal Code Section 626.4).

**Clearance to Return** – Prior clearance to return to the college (in-person and/or online) may be required. Clearance requirements may include completion of educational or other courses or processes as specified in the sanction decision. This requirement may include confirmation that the individual is ready for the college classroom and/or that the individual's continued presence on campus is not a threat to himself/herself, others, and/or the property of the District or others.

### **Hearing Panel**

The hearing panel for any disciplinary action subject to hearing by a panel shall be composed of one administrator, two faculty members, and two students.

Unless he or she determines to keep the prior year's appointees in place, the president of the Faculty Senate, and the President of ASCC shall each, at the beginning of the academic year, establish a list of at least five persons who will serve on student disciplinary hearing panels. The President/Superintendent or designee shall appoint the hearing panel from the names on these lists plus the Dean of Student Services or designee. However, no administrator, faculty member, or student who has any personal involvement in the matter to be decided, who is a necessary witness, or who could not otherwise act in a neutral manner shall serve on a hearing panel.

The hearing panel shall be responsible to the President/Superintendent for reviewing and making a recommendation to the President/Superintendent or designee.

Membership of the hearing panel shall include the following:

1. Two members of the instructional staff appointed by the Faculty Senate.
2. Two ASCC Student Court Justices, or two other students who meet the minimum eligibility requirements to hold office in the ASCC if such justices are party to the matter at hand or are otherwise unavailable to serve, appointed by the ASCC Court Chief Justice or by the Associated Students President, if the Court Chief Justice is a party to the matter.

3. The Disciplinary Officer/Dean of Student Services or designee shall serve as the Chairperson of the Hearing Panel, but will not vote except to break a tie.

### *Procedures for a Hearing, Disposition, and Imposition of Sanctions*

1. Written notice of a hearing shall be mailed or delivered to the student. A hearing must be held within ten days of the suspension if the suspension is immediate.
2. Notice shall include date and place of hearing, a statement of all charges, a copy of applicable policies and procedures, the opportunity of the student to appear in person, and the opportunity to present oral and documentary evidence.
3. Hearings shall be conducted in the manner consistent with the orderly conduct of the affairs of the College, and which seems to the hearing panel to be most conducive to the determination of the truth.
4. The members of the hearing panel shall be provided with a copy of the accusation against the student and any written response provided by the student before the hearing begins.
5. The facts supporting the accusation shall be presented by a college representative who shall be the Dean of Student Services or designee.
6. The college representative and the student may call witnesses and introduce oral and written testimony relevant to the issues of the matter.
7. Formal rules of evidence shall not apply. Any relevant evidence shall be admitted.
8. Unless the hearing panel determines to proceed otherwise, the college representative and the student shall each be permitted to make an opening statement. Thereafter, the college representative shall make the first presentation, followed by the student. The college representative may present rebuttal evidence after the student completes his/her evidence. The burden shall be on the college representative to prove by the preponderance of the evidence that the facts alleged are true.
9. The student may represent himself/herself, and may also have the right to be represented by a person of his/her choice, except that the student shall not be represented by an attorney unless, in the judgment of the hearing panel, complex legal issues are involved. If the student wishes to be represented by an attorney, a request must be presented not less than five days prior to the date of the hearing. If the student is permitted to be represented by an attorney, the college representative may request that legal counsel to the college participate in his/her place. The hearing panel may also request legal assistance; any legal advisor provided to the panel may sit with it in an advisory capacity to provide legal counsel but shall not be a member of the panel nor vote with it.
10. Hearings shall be closed and confidential unless the student requests that it be open to the public. If more than one student's case is under consideration, any and all such other students must also request that the hearing be open to the public in order to make it open to the public. Any such request must be made no less than five days prior to the date of the hearing. Requests contrary to state or federal law or to the safety of the college or participants shall not be approved, subject to appeal to the President/Superintendent or designee.

11. In a closed hearing, witnesses shall not be present at the hearing when not testifying, unless all parties and the panel agree to the contrary.
12. All testimony shall be taken under oath; the oath shall be administered by the hearing panel chair. Written statements of witnesses under penalty of perjury shall not be used unless the witness is unavailable to testify. A witness who refuses to be tape recorded shall not be considered unavailable for the purposes of this section.
13. The hearing shall be recorded by the District either by tape recording or stenographic recording. The official recording shall be the only recording made. No witness who refuses to be recorded may be permitted to give testimony. In the event the recording is by tape recording, the hearing panel chair shall, at the beginning of the hearing, ask each person present to identify themselves by name, and thereafter shall ask witnesses to identify themselves by name. The recording shall remain in the custody of the District at all times, unless released to a professional transcribing service. The student may request a copy of the recording. Transcripts may be redacted to comply with law, policies, and to protect the privacy and/or safety of individuals.
14. Within five days following the close of the hearing, the hearing panel shall prepare and send to the President/Superintendent or designee a written decision. The decision shall include specific factual findings regarding the accusation, and shall include specific conclusions regarding whether any specific section of the Standards of Student Conduct were violated. The decision shall also include a specific recommendation regarding the sanction to be imposed, if any. The decision shall be based only on the record of the hearing, and not on matter outside of that record. The record consists of the original accusation, the written response, if any, of the student, and the oral and written evidence produced at the hearing.

#### ***President/Superintendent's Decision***

**Long-term Suspension** – Within five days following receipt of the hearing panel's recommended decision, the President/Superintendent or designee shall render a final written decision. The President/Superintendent or designee may accept, modify, or reject the findings, decisions and recommendations of the hearing panel. If the President/Superintendent or designee modifies, or rejects the hearing panel's decision, the President/Superintendent or designee shall review the record of the hearing, and shall prepare a new written decision which contains specific factual findings and conclusions. The decision of the President/Superintendent or designee shall be final.

**Expulsion** – Within ten days following receipt of the hearing panel's recommended decision, the President/Superintendent or designee shall render a written recommended decision to the Board of Trustees. The President/Superintendent or designee may accept, modify, or reject the findings, decisions and recommendations of the hearing panel. If the President/Superintendent or designee modifies, or rejects the hearing panel's decision, he/she shall review the record of the hearing, and shall prepare a new written decision which contains specific factual findings and conclusions. The President/Superintendent's or designee's decision for expulsion shall be forwarded to the Board of Trustees.

#### ***Board of Trustees Decision***

**Expulsion** – A decision of the Board of Trustees to impose expulsion shall be reached no later than the next regularly scheduled regular meeting of the Board after receipt of the recommended decision.

The Board shall consider an expulsion recommendation in closed session, unless the student has requested that the matter be considered in a public meeting in accordance with these procedures. (Education Code Section 72122)

The student shall be notified in writing, by registered or certified mail to the address last on file with the District, or by personal service, at least three days prior to the meeting, of the date, time, and place of the Board's meeting.

The student may, within forty-eight hours after receipt of the notice, request that the hearing be held as a public meeting.

Even if a student has requested that the Board consider an expulsion recommendation in a public meeting, the Board will hold any discussion that might be in conflict with the right to privacy of any student other than the student requesting the public meeting in closed session.

The Board may accept, modify, or reject the findings, decisions and recommendations of the President/Superintendent and/or the hearing panel. If the Board modifies or rejects the decision, the Board shall review the record of the hearing, and shall prepare a new written decision which contains specific factual findings and conclusions. The decision of the Board shall be final.

The final action of the Board on the expulsion shall be taken at a public meeting, and the result of the action shall be a public record of the District.

**Time Limits** – Any times specified in these procedures may be shortened or lengthened if there is mutual concurrence by all parties.

These procedures may change from time to time and may be superseded by current state and federal laws and regulations. Otherwise, the College Catalog, which is updated annually, contains the most recent information regarding student discipline procedures.

The decision to authorize such aids or accommodations is the responsibility of the Dean, Student Accessibility and Wellness Services (SAWS), Disability Specialist, or counselor after a review of documentation verifying the disability and any resulting educational limitations.

It is the responsibility of the student with a verified disability and resulting educational limitations to apply for SAS assistance in the Liberal Arts/SAS building or online at [www.cerritos.edu/sas/](http://www.cerritos.edu/sas/). The request should be completed with adequate notice provided for an effective response, especially during busy times such as the start of the semester. All authorized accommodations are determined via an interactive process which includes the SAS specialist, the student, and review of disability documentation. It is the student's responsibility to request in advance to receive the authorized accommodations each semester. If the instructor denies the classroom-related request(s) the SAWS Dean or designee will intervene with the appropriate academic staff and attempt to resolve the matter. In the event of continued denial of an accommodation request or request for course substitution or waiver, SAS will provide the student with the Academic Accommodations Policy and related procedures/forms. The SAWS Dean or designee will concurrently inform the student of their the right to file a complaint under the College's discrimination complaint procedure

### Section 504/508 Complaint Procedure

Alternatively, the student may submit a complaint electronically at [www.cerritos.edu/sas-complaint](http://www.cerritos.edu/sas-complaint).

## STUDENT RECORDS

### Notification of Rights under FERPA

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include:

- (1) The right to inspect and review the student's education records within 45 days of the day the College receives a request for access.

A student should submit to the registrar or designee a written request that identifies the record(s) the student wishes to inspect. The registrar will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the registrar, the registrar shall advise the student of the correct official to whom the request should be addressed.

- (2) The right to request the amendment of the student's education records that the student believes are inaccurate, misleading, or otherwise in violation of the student's privacy rights under FERPA.

A student who wishes to ask the College to amend a record should write the registrar, clearly identify the part of the record the student wants changed, and specify why it should be changed.

If the College decides not to amend the record as requested, the College will notify the student in writing of the decision and the student's right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

- (3) The right to provide written consent before the College discloses personally identifiable information from the student's education records, except to the extent that FERPA authorizes disclosure without consent.

The College discloses education records without a student's prior written consent under the FERPA exception for disclosure to school officials with legitimate educational interests. A school official is a person employed by the College in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the College has contracted as its agent to provide a service instead of using College employees or officials (such as an attorney, auditor, or collection agent); or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for the College. The College may also disclose education records without consent to officials of another school in which a student seeks or intends to enroll.

- (4) The right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the requirements of FERPA. The name and address of the office that administers FERPA is:

## POLICY ON AFFIRMATIVE CONSENT, SEXUAL ASSAULT, AND TITLE IX

Cerritos College is committed to providing a safe and secure environment for all members of the campus community. ### FEDERAL PROGRAMS

**Federal Pell Grants** are awarded to eligible undergraduate students. The amount of money awarded is based upon a student's Expected Family Contribution (EFC), the number of units enrolled, and the cost of attendance.

**Federal Supplemental Educational Opportunity Grant (FSEOG)** is awarded to eligible undergraduate students with exceptional financial need. It is awarded on a “first-come, first-served” basis and is dependent upon funds available. Students must have a zero EFC and be enrolled in at least six units to receive the funds.

**Federal Work-Study (FWS)** is a program with limited funding which provides employment to help pay for part of a student's educational costs. This program is based on financial need and, if awarded, is part of a student's award package. Students on FWS may work approximately 10-12 hours per week on or off campus. Students must use Job Speaker to apply for FWS positions in addition to submitting the FAFSA.

**William D. Ford Federal Direct Subsidized and Unsubsidized Loans** must be repaid. Students must complete a Free Application for Federal Student Aid (FAFSA) first. Once a student receives a financial aid award notification, the student may apply for a student loan at [www.cerritos.edu/financial-aid/programs/loans.htm](http://www.cerritos.edu/financial-aid/programs/loans.htm).

Loan amounts will be determined at the time the Financial Aid Office certifies a loan application. Once offered a loan, students must accept/decline the loan on MyCerritos.

Both entrance and exit counseling are requirements of the William D. Ford Federal Direct Loan Program. Students must be enrolled at least half-time to receive a loan. Once a student receives loan funds, the student must maintain reasonable progress toward a certificate, associate degree, or transfer program.

In reviewing a request for any loan, the Financial Aid Office may use “professional judgment” to deny a student a loan on a case-by-case basis. If denied a loan, a student will receive a letter from the Financial Aid Office indicating the reason(s) for the loan denial.

### STATE PROGRAMS

4. Students must meet special classification criteria. See application for details or visit the Financial Aid Office.

Students must meet institutional academic and progress standards in order to avoid losing the Promise Grant.

**The Cal Grant Program** is a state-funded educational opportunity program to assist students in paying for a college education. There are entitlement awards as well as competitive awards. Application deadlines are in early March and September for community college students.

All basic Cal Grant eligibility requirements are as follows: a) be a California resident or AB 540 student; b) meet U.S. Selective Service requirements; c) attend a qualifying California postsecondary institution; d) be enrolled at least half-time; e) maintain satisfactory academic progress as defined at the school of attendance; f) have family income and assets below the established ceilings; g) not be in default on any student loan; h) not owe any federal or state grant refund; and i) not have a bachelor's or professional degree before receiving a Cal Grant (except for extended Cal Grant A or B awards for a teaching credential program).

**Cal Grant B Entitlement Awards** are for every graduating high school senior who meets the minimum GPA determined by the state, meets all the Cal Grant requirements and applies by March 2 within one year of graduating (or receiving their GED). This Entitlement Award provides an annual amount for books and living expenses for the first year. Beginning with the second year of Cal Grant B benefits, this award also helps pay for tuition and fees at public or private four-year colleges or other qualifying institutions.

**Cal Grant B Competitive Awards** are for students who aren't eligible for the Entitlement awards. Awards are for students who meet the minimum GPA determined by the state, meet all the Cal Grant requirements and apply by either the March 2nd or September 2nd deadline. The award provides an annual amount for books and living expenses for the first year. Beginning with the second year of Cal Grant B benefits, this award also helps pay for tuition and fees at public or private four-year colleges or other qualifying institutions.

**Cal Grant C Awards** are available to assist students with tuition, fee, and training costs for occupational or vocational programs. The Cal Grant C award provides for books, tools, and equipment. To qualify for Cal Grant C awards, students must meet basic eligibility requirements and be enrolled in a vocational program that is at least four months in length. For more information, visit the California Student Aid Commission website at [www.csac.ca.gov](http://www.csac.ca.gov).

**Extended Opportunity Program and Services (EOPS)** is a state-funded program that provides educationally and economically disadvantaged students assistance, which includes counseling, tutoring, workshops, grants, and transfer assistance. Admission into the EOPS program requires that a student meet either CCPG A or B standards, complete a FAFSA, or Dream application, enroll in 12 units, and have earned less than 40 degree applicable units from ALL colleges/universities attended.

**The Cooperative Agencies Resources for Education (CARE)** Program is available to students who are current recipients of TANF, in CalWORKs, single, head of household, have at least one child, and have been admitted into the EOPS Program. Students wishing to enter the program must attend an Orientation. Workshops are available.

## SCHOLARSHIPS

Scholarships are like grants; they do not have to be repaid. The Financial Aid Office is the steward of a number of scholarships that may or may not require financial need. Applications are available in the Financial Aid Office. For information on scholarships, visit [www.cerritos.edu/financial-aid/programs/scholarship.htm](http://www.cerritos.edu/financial-aid/programs/scholarship.htm).

## AB 540 AND AB 2000

California's AB 540 law allows qualifying students, including undocumented immigrant students, to pay in-state fees at public colleges including Cerritos College. A student must attend a California high school for three years or more or attended a combination of elementary, middle, and/or high schools in California for a total of three or more years; graduate from a California high school or receive the equivalent of a high school diploma (such as a GED); and file an affidavit with the Admissions and Records Office stating that they will file an application to adjust their immigration status as soon as they are eligible. Students should inquire at the Admissions and Records Office about applying for AB 540 and AB 2000. AB 540 and AB 2000 students are encouraged to search for scholarships for funding their education. Scholarship information can be found at [www.maldef.org](http://www.maldef.org) and [www.latinocollegedollars.org](http://www.latinocollegedollars.org). Additional resources are available at <http://www.cerritos.edu/financial-aid/ab540>.

## RETURN OF TITLE IV FUNDS

Federal aid recipients who withdraw or are dropped from ALL classes by the instructor are subject to regulations regarding the Return of Title IV funds. Students who withdraw or are dropped from all classes may be subject to the Return of Title IV federal regulations which may result in an overpayment to the college or Department of Education.

The amount of federal financial aid that was paid or could have been paid to the student will be based on this percentage. If the student received more financial aid than the amount earned, the student will be billed for the overpayment. Financial aid recipients should be cautioned to (1) avoid total withdrawal from all classes; (2) successfully complete at least one class during the semester, with a passing grade; and (3) repay any "unearned" financial aid as soon as possible to regain eligibility for financial aid.

Any aid recipient who needs to withdraw from all classes should contact the Admissions and Records Office and the Financial Aid Office. Recipients are encouraged to discuss alternatives to withdrawing from class(es) with their instructor(s) or a counselor before making a final decision.

Title IV funds are awarded to a student under the assumption that the student will attend school for the entire period for which the assistance is awarded.

## GRANT OVER-AWARDS

There are occasions when students receive financial aid payments based upon misreported information. This results in a grant over-award. Examples of misreported information include inaccurate or omitted income, prior loan defaults or grant overpayments, having a bachelor's degree, not having a high school diploma or GED, forged signatures, and unsatisfactory academic progress, just to name a few.

Students who receive grant funds due to misinformation as noted above are required to repay THE ENTIRE SUM RECEIVED.

## SATISFACTORY ACADEMIC PROGRESS (SAP) STANDARDS

To be eligible for financial aid, students must make satisfactory academic progress toward their educational goal. The Financial Aid Office monitors progress using both Qualitative and Quantitative Standards at the end of each semester.

### Grade Point Average (GPA) Requirement (Qualitative)

Students must maintain a 2.0 cumulative Grade Point Average (GPA). The GPA standard is used at all times in the determination of eligibility for financial aid, even when students do not receive financial aid.

#### Unit Completion Requirement - Pace of Progress (Quantitative)

Students are required to complete **67 percent** of the units they have attempted. The cumulative units completed will be divided by the cumulative units attempted to calculate the pace of progress. All units are considered in this calculation. Units for which a grade of W, NP, NC, and/or F was received are considered as units attempted, but not completed.

#### Below are some examples:

**Student A:** Attended Fall and Spring semesters for one year; attempted 24 units, completed 20 units. Pace of progress is calculated as  $20 / 24 = 83$  percent student met the 67 percent requirement.

**Student B:** Attended Fall and Spring for one year; attempted 24 units, completed 15 units. Pace of progress is calculated as  $15 / 24 = 62$  percent; student did not meet the 67 percent requirement.

**Student C:** Attended Fall and Spring semesters for two years; attempted 48 units, completed 36 units. Pace of progress is calculated as  $36 / 48 = 75$  percent; student met the 67 percent requirement.

**Student D:** Attended Fall and Spring semesters for two years; attempted 48 units, completed 33 units. Pace of progress is calculated as  $33 / 48 = 68$  percent; student met the 67 percent requirement.

### Warning

Students will be placed on warning status after a semester if they have not met the unit completion requirement and/or the 2.0 grade point average requirement. If students are placed on Financial Aid Warning status, they may remain eligible for financial aid. Students will receive notification of their status and how to avoid disqualification.

Students will also be placed on Warning status and regain their eligibility if they were previously on disqualification status and are now meeting the GPA and Unit Completion Requirement. If the student meets SAP requirements after previously being on warning, they will be placed on good standing the following semester.

Disqualification Students will be placed on disqualification status after a semester on Warning status, if they still have not met the unit completion requirement and/or the 2.0 grade point average requirement. If a student is placed on disqualification status, they will no longer be eligible to receive financial aid, with the exception of the California College Promise Grant (CCPG).

### Maximum Time Frame Requirement (Quantitative)

Students must complete their educational program within a maximum time frame of 150 percent of the published program's required units at Cerritos College. For example, Associate of Arts degrees and transfer programs generally require 60 units. Therefore, 150 percent of those programs would be 90 units (60 units x 1.5).

Students will be required to meet with a counselor and create an educational plan based on their educational program once the student attempts the following:

- 60 units (excluding remedial and ESL units) for Associate of Arts degree or transfer program
- 30 units (excluding remedial and ESL units) for a certificate program

The Financial Aid Office will notify the student regarding their eligibility for financial aid.

If at any point in time it is determined that the student cannot complete their educational program within the 150 percent time frame, they may be immediately disqualified from financial aid (with the exception of the Promise Grant). It is the student's responsibility to read and understand the Financial Aid Satisfactory Academic Progress (SAP) Standards.

### Withdrawals, Incompletes, Repeated Courses, and Transfer Credit

No pass courses, courses noted as excluded, repeated courses, and withdrawals are counted as attempted units in calculating the pace of progress. Courses noted as excluded on the transcripts are not counted for purposes of the cumulative GPA. Grades removed through academic renewal are still counted for pace of progress and GPA requirements. Transfer credits are counted as attempted units and completed units towards the 150 percent maximum time frame. Incompletes are excluded as attempted units for satisfactory Academic Progress (SAP).

### Satisfactory Academic Progress (SAP) Appeals

If a student is disqualified due to GPA, Unit Completion, and/or Maximum Time Frame and wishes to appeal their status, they can complete an appeal form to explain in detail their situation and reason(s) for not meeting the SAP Standards. They must elaborate on what steps they have taken to ensure their academic success and include any supporting documentation with their appeal. The appeal must be submitted to the Financial Aid Office by the posted deadline. Students must also complete the Get SAP online videos as part of the appeal process. They will receive notification by mail. The Financial Aid Office may request further documentation including an Academic Plan or a Work-in-Progress report of the student's current grades. If the appeal is approved, the student will be placed on probation status for the period approved by the committee and may have to meet specific conditions to be reinstated.

### SERVICES

Financial Aid staff provides assistance during office hours. Assistance is available to students with the application process. Students may use the online Contact Us form and questions will be addressed by email.

## Associate of Arts Degree Graduation Requirements

The California Community College Board of Governors has authorized the Cerritos College Board of Trustees to confer the Associate of Arts degree. A candidate does not automatically receive the Associate of Arts degree upon completion of unit and course requirements, but is required to file a petition for the degree.

College education is usually thought of as consisting of two parts: specialized education and general education. Specialized education is that which prepares the student for vocational competence or for scholastic attainment in a particular field. This the student accomplishes through the department major.

General education, on the other hand, is that which meets the common goals of all students for personal enrichment and cultural development. Work in this area helps the student increase individual ability as a citizen and improve community, home, and family living.

Although courses may be designed with one or the other of these purposes as the primary gain, all courses are presented with the values of general education in mind. College education then becomes the sum total of all the student's experience in college, and the student's education may be completed in both these areas and be granted the degree of Associate of Arts.

### STATEMENT OF PHILOSOPHY FOR GENERAL EDUCATION COURSEWORK

Cerritos College offers an array of general education coursework to students so that they may learn concepts and methods of inquiry that have breadth, depth and relevance to their lives. The general education curriculum includes coursework from the liberal arts, humanities, science, mathematics, arts and social sciences disciplines. Possession of knowledge from these disciplines will contribute to personal growth, professional development and citizenship by increasing students' awareness of the past and present and by developing their creative, adaptive and critical thinking abilities. The general education curriculum will provide students with opportunities to:

- Develop a lifestyle that will enhance physical and mental health and wellness
- Develop logical and cogent arguments, reaching conclusions that are based on comprehensive inquiry
- Adapt and apply technology to facilitate the acquisition and effective use of information
- Communicate clearly and proficiently through both oral and written expression
- Enhance the appreciation of artistic offerings
- Become informed citizens and problem-solvers to deal with current and future societal issues
- Appreciate the contributions of different cultures, eras, and traditions to the human experience
- Develop an appreciation for the value of ethics, integrity, honesty, self-management, and the welfare of others
- Requirements for the Associate of Arts Degree

### SCHOLARSHIP AND RESIDENCE

- A. A student must complete 60 units of degree applicable work with an overall grade point average of "C" or higher (2.0) in all courses.
- B. A student must achieve a grade of Pass, or "C", or higher in each course to be counted for the major. Courses completed for a Certificate of Achievement that are also to fulfill requirements for the major in an A.A. degree must be completed with a grade of Pass, or "C", or higher.

- D. A student may earn multiple Associate Degrees by completing the major requirements for each degree, the appropriate general education for each major, achieve a Pass or "C" grade or better in each major course, a grade point average of "C" (2.0) or higher in all courses, and complete a minimum of 60 degree applicable units.

### PETITION FOR ASSOCIATE OF ARTS DEGREE

1. Students desiring an Associate of Arts degree must file a Petition for Associate of Arts Degree form. The petition may be obtained in the Counseling Center and must be submitted before the deadline posted in the College Schedule of Classes. The petition must be approved and validated by a counselor and the Admissions and Records Office before the degree will be granted.
2. Students not in continuous attendance at Cerritos College must meet degree requirements for graduation in effect at the time of readmission.
3. A student is considered in continuous attendance if he/she receives a grade (A, B, C, D, F, P, NP, I, or W) in any semester, fall or spring, during each academic year. Continuous attendance is not broken at Cerritos College if a student transfers to another accredited institution, maintains his/her continuous attendance at that institution, and returns to Cerritos College to complete his/her degree (Designated programs may require students to return to Cerritos College in good standing. Please check with the Counseling Center regarding these programs).
4. Credit toward the Associate of Arts degree is not granted for non-degree applicable units or classes taken as part of the Adult Education Program.

### STUDENTS WITH BACCALAUREATE DEGREES

Those students who have been awarded a bachelor's degree from an accredited college or university in the United States will be exempt from the Cerritos College general education breadth requirements and the proficiency requirements, should they pursue an Associate of Arts degree at this institution. Please see your counselor if additional information or clarification is desired.

### ENGLISH/READING COURSE LIMITATIONS

Students completing both English 52 and Reading 54 will be able to count the units from only one course towards the Associate of Arts degree. Please see a counselor for further information.

## Cerritos College Associate of Arts Degree

Requirements for the Associate of Arts degree at Cerritos College can be met in one of three different ways: Plan A, B, or C.

**PLAN A** is designed primarily for those students interested in preparing for a vocational career upon graduation. Plan A may also be used by university transfer students and for students in vocational majors who may possibly wish to transfer in the future. However, there are courses listed under Plan A that are not transferable for general education credit to the four-year universities. Therefore, students wishing to use this option should see a Cerritos College counselor for advice in selecting the A.A. General Education plan that in combination with a major will best match their educational and career goals. Please see the Plan A degree description page for further details.

**PLAN B** is designed primarily for students who will transfer to a California State University (CSU) campus and are not interested in attending a University of California campus. Students may use this plan to combine completion of both the Associate of Arts general education requirements, with one caveat, and the California State University (CSU) General Education Certification pattern. Students should see a counselor for advice on selecting the A.A. General Education plan that in combination with a major will best match their educational and career goals. Please see the Plan B degree description page for further details.

**PLAN C** is designed primarily for students who intend to transfer to the University of California (UC), or who are undecided between transferring to the University of California or the California State University. Students may use this plan to combine completion of both the A.A. degree general education requirements and the Intersegmental General Education Transfer Curriculum (IGETC) requirements. Plan C may not be recommended for some majors at certain CSU or UC campuses. Please see the Plan C description page for further details.

*The significant differences between Plan A, Plan B, and Plan C are:*

**PLAN A** requires the completion of a minimum of 18 units of identified general education courses and requirements and a minimum of 18 units of specified "major" courses, proficiency requirements and electives, if necessary, to total a minimum of 60 degree applicable units.

**PLAN B** requires a minimum of 39 units of identified CSU general education courses and requirements plus specified lower-division major preparation, the health and wellness proficiency requirement, and elective courses, if necessary, for a minimum of 60 degree applicable units.

If a student only wishes to transfer at an upper division level and is not seeking an A.A. degree, a minimum of 60 CSU transferable units is required (See transfer requirements for CSU and your counselor).

**PLAN C** requires a minimum of 34 (UC) or 37 (CSU) units of identified general education courses and requirements plus specified lower-division major preparation courses, the health and wellness proficiency requirement, and electives, if necessary, to total a minimum of 60 degree applicable units.

If a student only wishes to transfer at an upper division level and is not seeking an A.A. degree, a minimum of 60 UC transferable units is required (See IGETC, UC transfer requirements, and your counselor).

There are important differences among the three plans. In order to select the plan that best meets each individual's A.A. and transfer goals, students should see a Cerritos College counselor.

# Associate of Arts Degree for General Education 2021–2022 Plan B CSU General Education Requirements

Plan B is designed primarily for students who will transfer to a California State University (CSU) campus and are not interested in attending a University of California campus. Students may use this plan to combine completion of both the Associate of Arts general education requirement, with one caveat, and the CSU General Education Certification pattern. Students should see a counselor for advice on selecting the A.A. general education plan that in combination with a major will best match their educational and career goals.

To earn an Associate of Arts degree using Plan B, students must complete a minimum of 60 degree applicable units with an overall grade point average of “C” (2.0) or higher, which must include the specified general education requirements and designated courses for a major. The Health and Wellness Proficiency requirement must be completed (See description in Plan A).

However, a student may not use Plan B to fulfill the Math Proficiency Requirement for a local, regular (non-AAT/AST) degree if they have taken FIN 125M, Personal Finance. They would have to meet one of the criteria specified in the Math Proficiency Requirement section for Plan A. Students should consult with a counselor if they have questions about this.

If a student wishes only to transfer and is not seeking an A.A. degree, there are no proficiencies required for CSU GE certification. Credits from international transcripts will not be used to certify general education requirements for transfer. Please see a counselor for more information.

It should be noted that completion of the CSU General Education Certification is not required for admission to the CSU nor is it the only way to fulfill the lower division general education requirements. Depending upon the student’s major, it may be advantageous to complete the requirements of the specific campus the student plans to attend.

## CALIFORNIA STATE UNIVERSITY GENERAL EDUCATION CERTIFICATION REQUIREMENTS

# Associate of Arts Degree for General Education 2021–2022 Plan C Intersegmental General Education Transfer Curriculum (IGETC) For Transfer to UC and CSU

Plan C is designed primarily for students who intend to transfer to the University of California (UC) or are undecided between transferring to the UC or the California State University (CSU). Students may use this plan to combine completion of both the A.A. degree general education requirements and the IGETC General Education requirements.

The purpose of IGETC is to provide an option for students to fulfill lower division general education requirements prior to transferring to a UC or CSU campus.

Depending upon the student's major and campus choice, it may be advantageous to complete the requirements of the specific campus the student plans to attend. In general, it is not advisable for transfer students preparing for majors at any UC campus requiring a high number of units, such as engineering and science, to use IGETC.

Plan C can be fulfilled by completing the IGETC requirements specified for either the UC or CSU.

A letter grade of "C" or higher is required in all Plan C courses.

To earn an Associate of Arts degree using Plan C, students must complete a minimum of 60 degree applicable units with a grade point average of "C" (2.0) or higher, which must include the specified general education requirements and designated courses for a major. The Health and Wellness Proficiency requirement must be completed (See description in Plan A).

If a student wishes only to transfer and is not seeking an A.A. degree, there are no proficiencies required for IGETC Certification. Credits from international transcripts will not be used to certify general education requirements for transfer. Partial certification may be possible if a student is missing no more than two courses. Please see a counselor for more information.

It should be noted that completion of IGETC is not required for admission to the UC or CSU.

\* These courses appear in more than one category, but may be used only to satisfy one category.

+ A + preceding the course number means these courses are cross-listed with another course. See individual cross-listed course descriptions in the college catalog.

+ A + following the course number indicates there is a possible UC credit limitation for this course. UC credit limitations may apply for certain courses in IGETC, as well as other UC transferable courses which are not in IGETC. An explanation for each course which has credit limitations, appears in the college catalog course description. For details, see a counselor.

**ADDITIONAL REQUIREMENTS**

## Transfer Requirements

Students planning to transfer to a four-year college or university should bear in mind that admission and subject requirements will vary from school to school. Consequently, students planning to transfer should study carefully the requirements set forth in the catalogs and brochures of the institutions which interest them. Such publications may be obtained directly from the colleges and universities. A large number of websites allow students to access such information via the Internet. Many of these links are available at the Transfer Center website, [www.cerritos.edu/transfer](http://www.cerritos.edu/transfer). To assure that appropriate transfer coursework is being undertaken at Cerritos College, students should plan to communicate regularly with a counselor.

### INTERSTATE PASSPORT

The Interstate Passport enables the successful transfer of a block of lower-level, general education course credit to other institutions participating in the Interstate Passport Network (IPN). Students who earn their Passport at Cerritos College will not be required to repeat or take additional coursework to meet lower-division, general education requirements in the Interstate Passport's nine areas upon transfer to any other IPN institution. Students with an interest in achieving the Passport-LDGE should visit our website at <https://www.cerritos.edu/international/> and contact their advisor.

### INDEPENDENT AND OUT-OF-STATE COLLEGES AND UNIVERSITIES TRANSFER REQUIREMENTS

There are many choices for transfer students when deciding to earn a bachelor's degree and beyond. In addition to the California State University and University of California systems, there are many California independent institutions. There are also many colleges, private and public, located throughout the United States to which Cerritos College students can transfer. Each of these institutions has its own unique requirements for admission. In order to determine eligibility, students should refer to the school's catalog or website and consult with a counselor at Cerritos College and/or the university of choice.

### GENERAL EDUCATION REQUIREMENTS FOR INDEPENDENT AND OUT-OF-STATE COLLEGES AND UNIVERSITIES

In planning for transfer, students should consider the general education requirements for all institutions of interest. Many in-state independent institutions accept CSU general education and IGETC. Students transferring to independent or out-of-state institutions should refer to the school's catalog or website and meet with a counselor in order to determine appropriate general education requirements. Cerritos College has articulated general education requirements with a number of independent institutions. You can visit the Transfer Center's website at [www.cerritos.edu/transfer](http://www.cerritos.edu/transfer) for a complete list of articulation agreements.

### THE CALIFORNIA STATE UNIVERSITY TRANSFER REQUIREMENTS

**Lower Division Transfer Requirements**—If you have completed fewer than 60 transferable semester (90 quarter) units, you will qualify for admission if you have a grade point average of 2.0 (C) or higher in all transferable units attempted, are in good standing at the last college or university attended, and meet the admission requirements for first-time

freshmen; i.e., you have completed with a grade of "C" or higher each of the courses in the comprehensive pattern of college preparatory subject requirements and have a qualifiable eligibility index. If you did not complete all the subject requirements in high school, appropriate college courses may be used to make up the missing subjects. Nonresidents must meet the eligibility index for nonresidents. **NOTE: Not all California State Universities accept lower division transfers.** Please go to [www.calstate.edu](http://www.calstate.edu) to find out more.

**Test Scores**—Freshmen and transfer applicants, who have fewer than 60 semester or 90 quarter units of transferable college credit, must submit scores, unless exempt, from either the Scholastic Aptitude Test (SAT) of the College Board or the American College Testing Program (ACT). If you are applying to an impacted program and are required to submit test scores, you should take the test no later than December if applying for fall admission.

Registration forms and dates for the SAT and ACT are available from school and college counselors or from a campus testing office. Or you may write to:

The College Board (SAT) Registration Unit, Box 592 Princeton, New Jersey 08541	American College Testing Program (ACT) Registration Unit, P.O. Box 168 Iowa City, Iowa 52240
--	--

**Freshmen**—The campus to which you are applying will provide information regarding when to submit your official high school transcript. Transcripts must be received in sealed envelopes directly from the high school from which you graduated.

**Upper Division Transfer Requirements**—Completion of at least 60 transferable semester (90 quarter) units, a grade point average of 2.0 (C) or higher in all transferable units attempted (nonresidents must have a grade point average of 2.4), and in good standing at the last college or university attended are required. In addition, you must have completed at least 30 semester (45 quarter) units of college courses with a grade of "C" or higher in each course to be selected from courses in English, arts and humanities, social science, science, and mathematics at a level at least equivalent to courses that meet general education requirements. The 30 general education semester (45 quarter) units (Plan B/Plan C) must include ENGL 100, oral communication, critical thinking, and transferable mathematics with a minimum prerequisite of intermediate algebra. Elective Fall 2019, FIN 125M-Personal Finance with a prerequisite of Elementary Algebra was approved for a transferable mathematics course. The ENGL 100, oral communication, critical thinking, and transferable mathematics courses must be completed with a grade of "C" or higher.

Although 2.0 is the minimum, the California State University is becoming more competitive and students should try to maintain the highest possible grade point average.

**TOEFL Requirement**—All undergraduate applicants, regardless of citizenship, who have not attended schools at the secondary level or above for at least three years where English is the principal language of instruction must present a minimum score of 500 or above on the Test of English as a Foreign Language. Some campuses may require a score higher than 500.

**Transcripts**—Final official transcripts must be submitted prior to enrollment to verify that all required coursework has been completed successfully. CSU campuses will either delay admission or not permit registration or attendance until receipt of final transcripts.

**Transfers**—Request that official transcripts be sent directly from all colleges or universities previously attended even if no coursework was completed. Transcripts must be received in sealed envelopes from each institution attended. You should keep personal copies of all transcripts and test scores to complete the admission application and for academic advising sessions.

## UNIVERSITY OF CALIFORNIA TRANSFER REQUIREMENTS

The University of California considers you a transfer applicant if you graduated from high school and enrolled in a regular session at another college or university. You cannot disregard your college record and apply as a freshman.

If you plan to attend a California community college before applying to the university, you should take courses that are transferable, that satisfy university and college requirements, and that fulfill prerequisites in your major. For assistance in planning for transfer to the University of California, see a community college counselor or university advisor. Many of the university admissions advisors are available for appointments through the Transfer Center.

### CALIFORNIA RESIDENTS

There are three ways in which you can meet the University's minimum admission requirements for transfer students. These requirements are described below. Please note that even though options 1 and 2 are possible, the number of University of California campuses actually accepting students with these two options is very limited.

**\*Residency Status:** The requirements for bonafide California residents also apply to dependents of University of California graduates and employees. The manner in which legal residence is defined for tuition purposes is different. If you have questions about your residency status, contact the Admissions or Registrar's Office at the campus you wish to attend.

1. If you were eligible for admission to the University when you graduated from high school—meaning you satisfied the Subject,\* Scholarship, and Examination Requirements—you are eligible to transfer if you have a "C" (2.0) average in your transferable college coursework.
2. If you met the Scholarship Requirement, but did not satisfy the Subject Requirement,\* you must take transferable courses in the subjects you are missing to be eligible to transfer. You will need to earn a grade of "C" or higher in each of these required courses, and an overall "C" (2.0) average in all UC transferable college coursework. If you completed less than 18 quarter or 12 semester units of UC transferable college coursework, you must satisfy the Examination Requirement for freshman applicants.
3. If you were not eligible for admission to the University when you graduated from high school because you did not meet the Scholarship Requirement, or you did not meet the Scholarship Requirement and did not complete all the required "a-g" subjects,\* you must:
  - a. Complete 60 semester units or 90 quarter units of UC transferable college credit with a grade point average of at least 2.4, **and**
  - b. Complete a course pattern requirement to include:
    1. Two transferable college courses (3 semester or 4-5 quarter units each) in English composition; **and**
    2. One transferable college course (3 semester or 4-5 quarter units) in Mathematical Concepts and Quantitative Reasoning; **and**
    3. Four transferable college courses (3 semester or 4-5 quarter units each) chosen from at least two of the following subject areas: the arts and humanities, the social and behavioral sciences, the physical and biological sciences.

Please also refer to the section titled "Intersegmental General Education Transfer Curriculum."

*\*If you graduated from high school before June 1986, your "c" and "f" subject requirements are different from those described previously. Please contact the Admissions Officer at any UC campus for more information.*

### NONRESIDENTS

The minimum admission requirements for nonresident transfer applicants are the same as those for residents except that nonresidents must have a grade point average of 2.8 or higher in all transferable college coursework.

Las cuotas adicionales que se indican a continuación se deben pagar en el momento de la inscripción.

#### **Cuotas del Estudiante**

\*Las cuotas están sujetas a los cambios legislativos u otros autorizados sin previo aviso.

1. Las cuotas de inscripción para los estudiantes de la universidad comunitaria son \$46 por unidad. **LAS CUOTAS ESTÁN SUJETAS A CAMBIO SIN PREVIO AVISO DEBIDO A LA LEGISLACIÓN ESTATAL.**
2. A los estudiantes que no son residentes de California o los estudiantes internacionales, con o sin visa F-1, se les cobrará \$275 por unidad (\$258 por unidad para matrícula de no residente y una cuota de desembolso de capital de \$17) además de la cuota de inscripción de \$46 por unidad anteriormente indicada. El personal militar en servicio activo y sus dependientes están exentos durante un año de este cargo por matrícula fuera del estado. Los estudiantes no residentes que fueron admitidos a una clase o clases sin el pago de la cuota debido a la falsificación de la información presentada por o para ellos, estarán sujetos a expulsión de la universidad.
3. La cuota médica por estudiante es de \$19 por semestre, \$16 por sesión de verano. Los estudiantes que confían en la oración para la sanación y pueden entregar a la universidad la documentación de su líder espiritual, están exentos.
4. La cuota de actividad por estudiante es de \$10 por semestre, \$4 por sesión de verano. Esta cuota se cobra automáticamente y se debe pagar al momento de la inscripción, pero se puede exonerar posteriormente. La información sobre cuotas y exenciones está disponible en línea en los sitios web de Admisiones y expedientes y de la Oficina de asuntos del estudiante.
5. Las cuotas de estacionamiento proporcionan seguridad y mantenimiento para los estacionamientos. El valor del estacionamiento para el estudiante dentro del campus por automóvil es de \$40 por semestre (\$30 para beneficiarios CCPG) y \$25 por sesión de verano. Los ciclomotores y las motocicletas pueden usar las áreas designadas sin costo. Se puede comprar un permiso diario de \$2 de los dispensadores ubicados en los estacionamientos del estudiante.
6. Las cuotas de laboratorio/materiales se indican junto a los cursos en el programa de clases. Tenga en cuenta que la falta de pago de estas cuotas pueden resultar en su retiro del curso por falta de pago.

Se requiere que los estudiantes paguen todas las cuotas al momento de la inscripción. A los estudiantes que agregan sus nombres a las listas de espera se les cobrarán las cuotas correspondientes por inscripción, matrícula y cuotas correspondientes por laboratorio/materiales. Los estudiantes que no pagan las cuotas y abandonan las clases después de la fecha de reembolso continúan siendo responsables de todas las cuotas. **La Exención de cuotas de la Promesa de Beca de Colegio de la California Fee Waiver (CCPG, por sus siglas en inglés) exonera al estudiante de las cuotas de inscripción de cursos; sin embargo, todas las otras cuotas, incluyendo, pero sin limitarse a la cuota médica, cuota de actividad del estudiante y todas las cuotas de laboratorio/materiales vencen y son pagaderas al momento de la inscripción.** Los pagos por estacionamiento, actividad del estudiante y las cuotas médicas para el estudiante pueden estar sujetos a consideraciones adicionales.

La cuota de estacionamiento se requiere para estacionar un vehículo en el campus. La cuota de actividades del estudiante está sujeta a la exención del estudiante. La información está disponible en la Oficina de actividades del estudiante que se encuentra en el Centro estudiantil. El formulario de solicitud de exención está disponible en línea en el sitio web de formularios de Admisiones y expedientes. El dinero recaudado a través de esta cuota lo puede usar ASCC para apoyar u oponerse a medidas políticas. La cuota médica del estudiante se puede exonerar con documentación del líder espiritual del estudiante que indique que el estudiante confía en la oración para la sanación.

#### **Cuotas Requeridas de Instrucción y de Otros Materiales**

Se puede pedir a los estudiantes que adquieran materiales de instrucción y otros materiales para un curso con créditos o sin créditos. Tales materiales deberán ser de valor continuo para el estudiante fuera del salón de clases y no deben estar sola ni exclusivamente disponibles del Distrito. **Estas cuotas no están cubiertas por la Exención de subsidios de la Promesa de Beca de Colegio de la California Fee Waiver (CCPG) (Título 5 Cal. Código Admin. Sec. 59400).**

Cualquier pregunta con relación a la interpretación de esta regulación debe ser por escrito y dirigirse al Vicepresidente de asuntos académicos de la universidad.

#### **Políticas y Procedimientos de Reembolso**

Es responsabilidad del estudiante solicitar un reembolso. Un estudiante es elegible para un reembolso después de dejar las clases oficialmente. Para ser elegibles para un reembolso, las clases se deben abandonar en el plazo adecuado para la sesión. Los plazos indicados no se ajustan debido a la inscripción tardía.

Un estudiante es elegible para un reembolso si: a) las clases se abandonan dentro del plazo requerido; b) el cambio del programa es resultado de una acción tomada por la universidad para cancelar o reprogramar una clase; c) el estudiante abandona la clase debido a que no cumplió con un prerrequisito o correquisito y/o d) el estudiante es un miembro activo o de reserva de las fuerzas armadas de E.E. U.U. que se retira debido a órdenes militares.

Los estudiantes elegibles pueden presentar una petición con el distrito solicitando el reembolso de sus cuotas de inscripción. No se procesará un reembolso si se otorgó un crédito académico por la clase. Los reembolsos no se procesan automáticamente.

Para solicitar un reembolso, el estudiante debe venir a la Oficina de admisiones y expedientes y presentar un formulario de solicitud de reembolso. El formulario de solicitud de reembolso también está disponible en línea y se puede enviar a la Oficina de admisiones

y expedientes. Los reembolsos aprobados se enviarán por correo aproximadamente en cuatro a seis semanas. Asegúrese de que su dirección de correo actual está en el expediente de la universidad.

Un cheque es la única forma de pago que Cerritos College utiliza para el reembolso de fondos. ## PROGRAMAS DE APOYO Y ÉXITO DEL ESTUDIANTE (Student Success and Support Programs, SSSP)

### Derechos y Responsabilidades de los Estudiantes

- (a) Se debe requerir a los estudiantes que:
- (1) Identifiquen una meta educativa y profesional.
  - (2) Participen diligentemente en las actividades del curso y completen los trabajos asignados.
  - (3) Completen los cursos y mantengan el progreso hacia un objetivo educativo y concluyan un curso de estudio.
- (b) Los estudiantes de primer ingreso no exentos en un plazo de tiempo razonable, deberán:
- (1) Identificar un curso de estudio.
  - (2) Realizar una evaluación para determinar la colocación en el curso apropiado.
  - (3) Completar una orientación que establece la universidad.
  - (4) Participar en la consultoría, asesoría u otro servicio de planificación de la educación para desarrollar un plan educativo abreviado.
- (c) A los efectos de esta sección, un estudiante de primer ingreso es un estudiante que se inscribe en la universidad por primera vez, salvo los estudiantes que se transfieren de otra institución de educación superior. Para los propósitos de esta sección, la inscripción por primera vez no incluye la inscripción simultánea cuando todavía se asiste a la escuela secundaria. En la medida en que una universidad tenga la capacidad de exigir y proporcionar los servicios indicados en (b)(1) a (4) a otros estudiantes, nada de lo incluido en esta sección impedirá a la universidad hacerlo.
- (d) Los estudiantes no exentos que hayan cumplido con los servicios identificados en (b)(1) a (4) estarán obligados a terminar un plan de formación integral después de completar 15 unidades semestrales de los cursos con créditos aplicables al grado académico o antes de finalizar el tercer semestre, o bien en un período más corto si lo requiere una política del programa o del distrito.
- (e) El incumplimiento de realizar los servicios requeridos que se enumeran en (b) puede resultar en una retención del registro del estudiante o la pérdida de la prioridad de inscripción hasta que los servicios se hayan completado.

### Responsabilidades Institucionales

- (a) La universidad tomará las medidas necesarias para garantizar que la información sobre las políticas de matriculación sea accesible y está disponible para todos los estudiantes, durante o antes de la inscripción (por ejemplo, durante la orientación) y se incluye en los programas de clase, catálogos u otras comunicaciones apropiadas que describen los derechos y las responsabilidades de los estudiantes.

- (b) Una vez que el estudiante ha identificado un curso de estudio y completó 15 unidades semestrales de trabajo del curso aplicables al grado académico, la universidad debe proporcionarle la oportunidad de desarrollar un plan educativo integral en un plazo razonable. Las responsabilidades estudiantiles también deberán determinarse en el plan de educación del estudiante.
- (c) La política de la universidad establece que un estudiante no exento tendrá una retención de la matrícula si no cumple con las responsabilidades establecidas en la sección "Derechos y responsabilidades de los estudiantes".
- (d) La universidad hará esfuerzos razonables para evitar la duplicación de la orientación, evaluación, consultoría, asesoría u otros servicios de planificación de la educación y el desarrollo de los planes educativos financiados a través de este subcapítulo o por medio de otros programas.
- (e) Se pretende que el área de servicios estudiantiles y de enseñanza de la universidad utilice diferentes fuentes de datos sobre los esfuerzos de planificación de la educación de los estudiantes y cursos identificados de estudio para coordinar la programación de los cursos.

### Prioridad de la Cita de Inscripción

*incluye la orientación, evaluación, consultoría, planes educativos, grupos de nivel, período de prueba*

El propósito de establecer prioridades de inscripción es apoyar a los estudiantes que se esfuerzan por alcanzar sus metas educativas en Cerritos College, proporcionando prioridad de inscripción a grupos de estudiantes (que se enumeran en este documento) con necesidades especiales o que están en condición de estudiantes de reingreso, siempre y cuando el progreso sea satisfactorio.

### Criterios y Condiciones Para la Prioridad de Inscripción

- A. Prioridad
- (1) Los nuevos estudiantes que no se encuentran exentos de otra manera, entre ellos los que son parte de grupos con prioridad de inscripción que establece el estado, deben completar la evaluación, orientación y consultoría con por lo menos un plan educativo abreviado (A-SEP), a fin de recibir prioridad de inscripción.
  - (2) La primera vez, a partir de la inscripción en el otoño de 2014, los estudiantes que han identificado un curso de estudio, se han evaluado para determinar la colocación apropiada de cursos, completaron un programa de orientación que proporciona la universidad y han participado en la consultoría, asesoría u otro servicio de planificación de la educación que incluye, al menos, un plan educativo abreviado (A-SEP), están obligados a completar un plan educativo integral (C-SEP) después de completar 15 unidades semestrales de los cursos con créditos aplicables al grado académico o antes de finalizar el tercer (3.er) semestre de inscripción, según lo permitan los recursos.
  - (3) Los estudiantes de reingreso, incluidos los de algún grupo con prioridad de inscripción que establece el estado, salvo los jóvenes de crianza actual y anterior que son elegibles, están sujetos a la pérdida de la prioridad de inscripción para los que ordinariamente serían elegibles si están en cualquier combinación de progreso o probatoria académica para dos semestres consecutivos.
  - (4) Los estudiantes de reingreso, incluidos los de algún grupo con prioridad de inscripción que establece el estado, salvo los jóvenes de crianza actual y anterior que son elegibles,

están sujetos a la pérdida de la prioridad de inscripción para la que ordinariamente serían elegibles si han obtenido 100 destrezas no básicas aplicables al grado académico y que no son unidades del programa ESL. Las unidades para asignaturas y programas principales podrán ignorarse en la medida en que superen el número de unidades requeridas para asignaturas y programas que no son principales. Las unidades de crédito por examen, colocación avanzada, Bachillerato Internacional u otros programas similares también pueden estar exentos.

- B. Sin perjuicio de lo anterior, las citas de matrícula de los estudiantes de reingreso se establecerán con base en las unidades o el promedio de calificaciones acumuladas en Cerritos College.

Los estudiantes que están sujetos a la exclusión de prioridad de inscripción tendrán un indicador de servicio negativo, que aparece como una retención en el Centro estudiantil en MyCerritos, colocado en su cuenta de la matrícula. El efecto será colocar el acceso del estudiante a matricularse al final del ciclo de inscripción en el período conocido como Inscripción Abierta.
- D. Los estudiantes excluidos de la prioridad de inscripción deben recibir notificación de las opciones que tienen o qué se les aconseja ejercer. Vea también la sección de este procedimiento titulada Apelaciones y Excepciones.

Pérdida de Elegibilidad para Recibir la Exención de Cuotas de Inscripción de la Promesa de Beca de Colegio de la California Fee Waiver (California College Promise Grant, CCPG)

Un estudiante ya no será elegible para recibir la Exención de cuotas de inscripción de la Promesa de Beca de Colegio de la California Fee Waiver (California College Promise Grant, CCPG) si al estudiante se le pone en un período de prueba académico o de progreso, o en alguna combinación de estos, durante dos períodos académicos primarios consecutivos. La pérdida de elegibilidad entrará en vigencia en la primera oportunidad de inscripción después de que se haya tomado dicha determinación.

El distrito deberá notificar a los estudiantes sobre su asignación en el período de prueba académico o de progreso a más tardar treinta días después del final del período académico que provocó que al estudiante

se le pusiera en un período de prueba. La notificación debe indicar claramente que dos períodos académicos primarios consecutivos en período de prueba ocasionarán la pérdida de la Exención de cuotas de inscripción de la CCPG hasta que el estudiante ya no esté en el período de prueba. La notificación también debe informar a los estudiantes acerca de los servicios de apoyo para estudiantes disponibles para ayudarlos a conservar la elegibilidad.

El distrito adoptará, exhibirá claramente y divulgará políticas que garanticen que los estudiantes estén informados acerca de los servicios de apoyo para estudiantes disponibles para ayudarlos a conservar y restablecer la elegibilidad para calificar para recibir la Exención de cuotas de inscripción de la CCPG. La divulgación incluye, entre otras, información proporcionada en los catálogos de la universidad y en los programas de clases.

El distrito ha establecido procedimientos escritos mediante los cuales un estudiante pueda apelar la pérdida de la Exención de cuotas de inscripción de la CCPG debido a circunstancias atenuantes, o cuando un estudiante con discapacidad solicite, pero no reciba, una adaptación razonable de manera oportuna. Las circunstancias atenuantes son casos verificados de accidentes, enfermedades u otras circunstancias que podrían incluir cambios documentados en la situación económica del estudiante, o bien, evidencia de que el estudiante no pudo obtener servicios de apoyo esenciales para estudiantes. Las circunstancias atenuantes también incluyen la consideración especial de factores específicos relacionados con el estado del estudiante con respecto a la ayuda para Veteranos, el programa de California de Oportunidades de trabajo y responsabilidad hacia los niños (California Work Opportunity and Responsibility to Kids, CalWORKs), Programa de Oportunidad educativa (Educational Opportunity Program, EOP) y Programas y Servicios para estudiantes discapacitados (Disabled Students Programs & Services, DSPS).

Un joven en régimen de acogida familiar no estará sujeto a la pérdida de la Exención de cuotas de inscripción de la CCPG debido a la asignación en un período de prueba académico o de progreso. Esta exclusión para los Jóvenes en régimen de acogida familiar es válida hasta la fecha que se especifica en la sección 66025.9(c) del Código de Educación.

#### **Apelaciones y Exenciones**

La intención de estos procedimientos es apoyar y promover el éxito del estudiante, incluyendo la finalización del programa, a través del acceso a los cursos necesarios. Las peticiones de apelación o para la exención de la aplicación de estos procedimientos están sujetas a consideración del Comité de Expedientes y Normas Académicas, o a quien este designe.

- A. Los estudiantes pueden apelar la pérdida de la prioridad de inscripción y/o la pérdida de la Exención de cuotas de inscripción de la CCPG debido a circunstancias atenuantes, ciertas condiciones especificadas en el Formulario de Inscripción de Prioridades y/o la Exención de cuotas de inscripción de la CCPG de Apelaciones, o cuando un estudiante con una discapacidad solicitada, pero que no recibió los ajustes razonables en el momento oportuno. Las circunstancias atenuantes verifican los casos de accidentes, enfermedades u otras circunstancias fuera del control del estudiante.
- B. Los estudiantes que han demostrado una mejora académica significativa restablecerán el estado la Exención de cuotas de inscripción de la CCPG y/o de prioridad de inscripción que perdieron. Es responsabilidad del estudiante verificar oportunamente los cambios del estado de las inscripciones

de prioridad. El mejoramiento académico significativo se define como haber logrado por lo menos el promedio de calificaciones mínimo y las normas de progreso mínimas durante el semestre. El nivel académico mínimo es una calificación promedio mínima de 2.0, una vez que el estudiante haya intentado tomar 12 unidades semestrales; el progreso mínimo convencional es superior al 50% de todas las unidades en las que se inscribió que no reciban "W", "I", "NP", o "NC", una vez que el estudiante se haya matriculado en un total de al menos 12 unidades semestrales.

- C. Los estudiantes pueden solicitar el reintegro de la prioridad de inscripción y/o la Exención de cuotas de inscripción de la CCPG si se cometió un error institucional.

### ¿Qué son prerrequisitos, co-requisitos y recomendaciones?

Es determinación de Cerritos College guiar a los estudiantes en los cursos en los cuales ellos tendrán la mayor probabilidad de un éxito académico. Por lo tanto los estudiantes se encontrarán con cursos que tengan prerrequisitos, co-requisitos y/o recomendaciones. Lo anterior describe una necesidad específica de conocimiento y/o destreza que debe de ser aprendida antes que el estudiante intente con éxito continuar al siguiente nivel del curso. Por ejemplo, Inglés 52 deberá tomarse antes que Inglés 100. Este es el ejemplo de un curso que debe tomarse en secuencia. Se les exhorta a los estudiantes a que consulten las descripciones de los cursos en el catálogo del colegio para identificar los prerrequisitos de un curso.

Los estudiantes actualmente matriculados en un curso con prerrequisitos en Cerritos College serán permitidos inscribirse en el siguiente curso en secuencia. Por ejemplo, los estudiantes inscritos en Inglés 52 durante el semestre de otoño podrán inscribirse en Inglés 100 para el semestre de primavera. Sin embargo es la responsabilidad del estudiante asegurarse que ha pasado el curso de prerrequisito. Si recibe una calificación insatisfactoria, el estudiante será dado de baja durante el curso del semestre.

**Los prerrequisitos verificados electrónicamente impedirán al estudiante inscribirse en una clase que tenga prerrequisitos y que no hayan sido satisfactoriamente terminados. Los prerrequisitos son verificados al momento de inscribirse (ya sea por medio automático o cuando el instructor agrega a un estudiante). Los prerrequisitos no son verificados cuando el estudiante lo selecciona del menú para agregarlos a la "canasta de compra virtual".**

Para evitar ser denegada la inscripción, los estudiantes deben de completar los exámenes de ubicación de Cerritos College y someter los certificados de estudios si los prerrequisitos de los cursos son completados en otra institución. Los certificados de estudios son aceptados en la Oficina de Admisión y Registro, o baje la forma de la siguiente página electrónica [www.cerritos.edu/admissions-and-records/online-forms](http://www.cerritos.edu/admissions-and-records/online-forms).

### Definiciones para los requisitos previos, requisitos conjuntos y recomendaciones para la preparación de cursos:

Un **"prerrequisito"** es cualquier requisito que deberá cumplirse antes que un estudiante pueda inscribirse en un curso. En otras palabras, un "prerrequisito" significa un curso que a un estudiante se le requiera completar para probar que está listo para inscribirse en un curso o programa educativo.

Un **"co-requisito"** significa un curso que a un estudiante se le requiera tomar conjuntamente con otro curso. Por ejemplo, si un estudiante se inscribe en Farmacia 60, deberá tomar Farmacia 60L en conjunto.

Cuando se hace una **"recomendación" para prepararse para un curso** es una sugerencia altamente recomendada para antes o durante el trayecto de un curso o un programa educativo pero no es requisito.

Una “*nota mínima*” es una calificación mínima de una “C” o “P”. No se otorgará créditos para calificaciones deficientes (“D”, “F”, “FW”, “NP”).

Una “*nota satisfactoria*” significa que, para el curso en cuestión, en el historial académico del estudiante se ha anotado con un símbolo de “A”, “B”, “C”, o “P”.

### Impugnación de los requisitos previos

Un prerrequisito podrá ser desafiado por estudiantes que hayan presentado razones válidas. Es la responsabilidad del estudiante de proveer información que apoye su petición. El prerrequisito a desafiar debe de ser solicitado y resuelto antes que el estudiante se inscriba en el curso. La forma para disputar un prerrequisito puede obtenerse en la Oficina de Admisión y Registro, en el centro de consejería y asesoramiento académico, o bajarla de la página electrónica [www.cerritos.edu/admissions-and-records/online-forms](http://www.cerritos.edu/admissions-and-records/online-forms).

### Procedimiento para presentar impugnación de los requisitos previos:

1. Complete la forma para disputar un prerrequisito.
2. Seleccione una de las cuatro opciones listadas en la forma:
  - A. Seré objeto de demora excesiva en la consecución de mi meta educativa porque el requisito no se ha hecho razonablemente disponible (debe declarar la meta educativa y área de concentración).
  - B. El requisito o limitación de inscripción es ilegalmente discriminatorio o se está aplicando de manera ilegalmente discriminatoria.
  - C. Objetando el pre o correquisito sobre la base de que se estableció en violación del reglamento o en violación del proceso aprobado por el distrito (se requiere la documentación del estudiante).
  - D. Después de una cuidadosa consideración y contra la recomendación de la universidad, estoy solicitando la colocación en el curso indicado.
3. Someta la forma completada de su petición a registro académico y comité de regulaciones para su aprobación o negación.
4. La aprobación de la objeción a los requisitos previos requiere que el estudiante se inscriba personalmente en el curso en la Oficina de Admisiones y Registros. MyCerritos no reconocerá el formulario aprobado. Tenga en cuenta: Un requisito impugnado no se considerará como requisito superado, por lo tanto, no aparecerá en el certificado de notas ni tampoco eliminará un requisito similar en el futuro.
5. La denegación de la impugnación al requisito previo requiere que el estudiante complete el curso o el proceso de autorización que figura como requisito oficial. No existe proceso de apelación.

## INFORMACIÓN DE MATRICULACIÓN

### Consejería y asesoría académica

Es de mayor importancia saber que cada estudiante inscrito en Cerritos College cuenta con un centro de servicio detallado y extenso de consejería y asesoría académica proveído para asistir a los estudiantes a que logren sus metas académicas de una manera eficiente, completa y sin contratiempos. Los cambios constantes de prerrequisitos y de requisitos por otras instituciones y centros ocupacionales, hace que el contacto continuo del personal de Consejería y asesoría académica sea una parte vital para el éxito y experiencia académica del estudiante.

Los servicios de consejería y asesoría académica consisten en cuatro funciones principalmente:

1. asistencia en planear programas académicos:
2. asistencia en explorar perspectivas y posibilidades de carreras educativas:
3. consultas y remisiones de problemas personales:
4. suministros adicionales de servicios auxiliares tales como clases de superación personal, asistencia para transferirse a otra institución, remisiones a agencias exteriores, orientación de clases y asistencia en interpretación de idiomas.

Estos servicios diversos son ofrecidos por personal profesional entrenado y acreditado para ayudar a estudiantes en las áreas de interés propio. El personal de Consejería y asesoría académica opera en conjunto con todas las divisiones docentes del colegio y se mantiene al tanto de programas educativos tanto dentro del campus como de otras universidades.

A pesar de que el uso de los servicios de asesoría es voluntario, se solicita a todos los estudiantes nuevos, de primer ingreso en la universidad, estudiantes con visa F-1 y algunos estudiantes con ayuda financiera que se reúnan con un asesor para la planificación de un programa antes de la inscripción. Por lo general, los estudiantes deben programar una cita o asistir a un taller. Consulte el sitio web de Consejería en [www.cerritos.edu/counseling](http://www.cerritos.edu/counseling) para obtener información adecuada de los servicios, horarios e información general. Las citas para consejería deberán hacerse en persona en la Oficina de Consejería y asesoría académica localizado en el edificio de Administración o por teléfono (562) 860-2451, ext. 2231. La asesoría de apoyo también está disponible de forma limitada.

Debido a la alta demanda de estudiantes que solicitan servicios de consejería y asesoría académica antes de comenzar un nuevo semestre, citas son limitados durante las primeras cuatro semanas antes de comenzar cada semestre. La asesoría de apoyo solo está disponible durante este horario. Comuníquese al Departamento de Asesoría para obtener los horarios programados para la asesoría de apoyo.

### Plan de estudios

Los estudiantes deben de tomar los cursos en secuencia. Una vez tomado un curso de cierto nivel, los alumnos no recibirán crédito por cursos que son de un nivel más bajo a los que ya se hayan tomado.

### Admisión a clases

Los estudiantes deberán estar oficialmente inscritos antes de asistir a cualquier clase. Si a los alumnos les es imposible asistir al primer día de clases, deberán agotar todos los recursos por contactar al instructor o de lo contrario el instructor podrá darlos de baja por “ausencia”.

Los estudiantes que quieran ingresar a una “clase llena”, deberán estar presentes el primer día de clases. Los instructores podrán agregar a estudiantes a sus clases dependiendo de la disponibilidad de lugares y si los estudiantes han cumplido satisfactoriamente con sus prerrequisitos, si es aplicable.

### Procedimiento para agregar clases

1. Puede inscribirse en clases a través del portal MyCerritos, Centro Estudiantil (<http://my.cerritos.edu>).
2. Para inscribirse en una clase que está llena, vaya al salón el primer día cuando comienza la clase; esté a tiempo. Pida amablemente al instructor que lo inscriba en la clase; si el instructor lo aprueba, usted no tendrá que hacer nada, la inscripción se hará electrónicamente directamente a la Oficina de Admisión y Registro. Se revisará su récord académico para verificar que cumpla con los prerrequisitos, que no tenga que no tenga detenciones estudiantiles (service indicators –SI), conflictos, o cursos que no han sido aprobados para ser repetidos. Las fechas límite de pago de cuotas están publicadas en el horario de clases actual. Por favor visite MyCerritos en el sitio <http://my.cerritos.edu> o el catálogo de clases para más información acerca de cancelación (dar de baja) de los cursos y detenciones estudiantiles (SI) por falta de pago. Por favor revise su estado de cuenta a través del portal MyCerritos o en la Oficina de Admisión y Registro. Sus matriculaciones deberán ser completadas para las fechas topes publicadas oficialmente.
3. No podrán agregar un curso si tienen una restricción o intentan repetir un curso sin autorización previa. (Vea Repetición de cursos).

### Cambios de nivel/sección

Los cambios de nivel/sección se deben procesar en persona. Los cambios de programa que implican cambios de nivel de las clases de habilidades y rendimiento se pueden hacer antes del plazo para agregar cursos. Los estudiantes también pueden hacer cambios de nivel en clases de experiencia laboral antes del plazo para agregar cursos, pero solo una reducción de horas se puede hacer después de dicho plazo.

Los cambios de secciones no se pueden hacer entre términos o semestres. Un estudiante no puede abandonar un curso de las primeras seis/ocho semanas y luego inscribirse en un curso de las siguientes seis/ocho semanas a través de un cambio de sección. Se requiere que el estudiante abandone oficialmente la primera clase de semana seis/ocho semanas y luego pagar las cuotas adecuadas para inscribirse en la segunda clase de seis/ocho semanas. El dinero no se transferirá de un término a otro si se procesó el abandono fuera de la fecha del reembolso.

### Procedimientos para darse de baja

De acuerdo a la ley Title 5, sección 58004 y a las normas de Cerritos College, es la responsabilidad del estudiante de participar enteramente en clases una vez que la inscripción ha sido completada. Sin embargo, si hay la necesidad de dar de baja una clase, es la responsabilidad del estudiante de darse de baja a sí mismo.

**Se recomienda que los estudiantes tomen la iniciativa de darse de baja oficialmente ellos mismos. Si fallan en darse oficialmente de baja en un curso, como resultado podrán obtener una nota "F" por cada curso y no tendrán acceso a su cuenta estudiantil.**

Puede darse de baja a través del portal MyCerritos, Centro Estudiantil en el sitio <http://my.cerritos.edu>. Asegúrese de verificar las fechas topes para recibir reembolsos y grados de "W". Consulte el "Calendario de fechas importantes" en el horario de clases para obtener las fechas límite específicas. Asegúrese de verificar que se haya dado de baja e imprima una copia del recibo.

Las fechas topes para dar de baja una o más clases deberán llevarse a cabo el último día de la 14<sup>a</sup> semana de un semestre de 18-semanas o cuando se complete el 75% de un término de estudios de menos de 18-semanas o lo que suceda primero. Los archivos académicos de un estudiante que continúe en clases después de la fecha permitida para darse de baja, se les marcará con un símbolo que indique curso autorizado, otro símbolo que no sea una "W".

El símbolo "W" es considerado "dada de baja confirmada" y no se usará para calcular el promedio de calificación. Sin embargo, el exceso de "W" se usará para determinar factores de periodo de prueba o de expulsión. De igual forma un estudiante que tenga una "W" en la misma clase dos o más veces, pierde el privilegio de prioridad para registrarse para esa clase. Los estudiantes pueden someter la solicitud Petición para repetir un curso, la cual puede ser aprobada o rechazada, a registro académico y comité de regulaciones para una excepción al reglamento para repetir curso por exceso de "W".

### Dar de baja una clase después de la fecha tope

Los estudiantes deberán de haber documentado las circunstancias que pasaron más allá de su control para haberse dado de baja. Ejemplos de dichas circunstancias incluyen, pero no se limitan, lo siguiente: accidentes, enfermedad, cambio de horario en su sitio laboral u otras circunstancias que se puedan documentar. Una "W" oficialmente será anotada permanentemente en su certificado de estudios. Haga una cita con el director de la Oficina de admisión si necesita más información.

### Militares que se dan de baja

De acuerdo al código de educación 66023, el Consejo de administración de fideicomisos de Cerritos College no impugna a estudiantes que se dan de baja de clases y que son miembros activos de la reserva del servicio militar de los Estados Unidos y quienes reciben órdenes para darse de baja de cursos. Después de haberse verificado dichas órdenes, el estudiante será dado de baja por la administración de todos los cursos y un símbolo "MW" que significa dado de baja por asuntos militares será asignado. No habrá sanción por darse de baja por asuntos militares. Darse de baja por asuntos militares no se contará para poner en periodo de prueba académica ni expulsión.

### Oyentes

Es permitido asistir de oyente a Cerritos College. Un estudiante oyente es un estudiante que asiste a un curso o cursos sin recibir créditos en un certificado oficial de estudios. Ingresar de oyente a cualquier curso será posible solamente con la aprobación del instructor para cualquier estudiante que desee tomar un curso ya sea para superación personal o repasar una materia. Los estudiantes que deseen asistir de oyente deben estar conscientes que los cursos que sean tomados como oyente NO aparecerán en el certificado oficial de estudios. Para cursos de oyente no es necesario tener prerrequisitos.

1. Los estudiantes no podrán asistir de oyente a un curso a menos que hayan agotado todas las posibilidades para tomar el curso por crédito.
2. Si se cumple con los criterios se otorga el permiso para auditar un curso a la discreción del instructor. Se requiere tanto la firma del instructor como del decano de división.
3. Una vez firmado el consentimiento, el estudiante debe someter la forma de oyente a la Oficina de Admisión y Registro cualquier día durante el semestre después del primer día de clases. (El primer día de clases es considerado el primer día que empieza la clase.)

4. Un estudiante oyente puede revertir el estatus de oyente a crédito para recibir crédito por sus clases antes de finalizar la 5ª semana de clases del ciclo escolar semestral o antes del 30% del término de una clase si es un curso de un periodo corto, con la firma autorizada por escrito por el instructor. El pago de clases para oyentes no es reembolsable y los pagos para clases de crédito deberán ser pagados al contado a la hora de elegir la opción para recibir crédito.
5. Un estudiante que optó por crédito puede revertir el estatus de crédito a estudiante oyente antes de finalizar la 5ª semana de clases del ciclo escolar semestral o antes del 30% del término de una clase si es un curso de un periodo corto, con la firma autorizada por escrito por el instructor. El pago de clases con opción crédito no es reembolsable después de la fecha tope para recibir reembolsos y todos los pagos para clases de estatus oyente deberán ser pagados al contado a la hora de elegir la opción oyente.
6. Los estudiantes con opción crédito tienen prioridad sobre los estudiantes con estatus de oyentes. En caso de que un curso cierre después de que un estudiante oyente haya sido admitido, se le podría pedir al estudiante oyente que abandone el curso para ceder su lugar a estudiantes que hayan optado por crédito. Se sugiere enérgicamente el criterio de el profesor.
7. La cuota de clases para oyentes es de \$15.00 dólares por unidad (además de la inscripción estudiantil). Estudiantes inscritos en 10 o más unidades pueden asistir gratis de oyente hasta 3 unidades (puede ser una clase de 3 unidades). Los \$15.00 dólares por unidad por clases para oyentes automáticamente serán cobrados si el estudiante baja de 10 unidades.

Para más información sobre la opción de oyente, estudiantes pueden pedir información en la Oficina de Consejería, la Oficina de Asuntos Académicos, la oficina de el departamento pertinente, o la Oficina de Admisión y Registro. Formas para oyentes pueden ser obtenidas en la Oficina de Admisión y Registro.

#### Lista de espera

Cerritos College utiliza el sistema lista de espera "pre-pagada". Esto significa que una vez que usted se haya agregado a una lista de espera de un curso, usted debe hacer todos los pagos pertinentes para ese curso. Consecuentemente la "inscripción automática" entrará en efecto. La "inscripción automática" inscribe oficialmente a estudiantes que están en la lista de espera de un curso siguiendo el orden de prioridad una vez que un espacio se haga disponible. Cada estudiante está limitado a un máximo de 10 unidades en la lista de espera. La "inscripción automática" no procederá si:

1. El estudiante tiene una restricción en su cuenta.
2. El prerrequisito de la clase no ha sido completado.
3. Repetición no autorizado del curso.
4. Hay un conflicto en el horario de clases. El estudiante no se podrá inscribir simultáneamente en dos clases que tengan el mismo horario.
5. Si usted está inscrito en una clase Y ESTÁ en una lista de espera de la misma clase (ej., si Ud. está inscrito en Sociología 101 y también está en el lugar #1 en la lista de espera de otra clase de Sociología 101) perderá el lugar debido a "inscripción múltiple".

Inscripción automática estará en efecto hasta el viernes antes de que comience la clase. Asistencia el primer día de clases es requerida para inscribirse o permanecer en la lista de espera. Si no se presenta a

clases NO implica que se dará de baja automáticamente o recibirá un reembolso. Si usted no desea entrar en la clase, por favor dese de baja de la lista de espera para evitar una calificación deficiente o la pérdida de su reembolso.

#### Repetición de cursos

En el Colegio de Cerritos registro de previos cursos es revisado electrónicamente para averiguar previos atentados. Todo los cursos tienen limitaciones de repetición.

Los estudiantes pueden repetir un curso en el que recibieron una vez una calificación deficiente (D, F, NP, FW) o "W" en cualquier combinación. Los estudiantes que reciben cualquier combinación de calificación deficiente pueden pedir al Comité de Normas y expedientes académicos una excepción a la regla de dos intentos. Todas las peticiones son objeto de aprobación o denegación. Al completar un curso repetido, la calificación ganada más recientemente se registrará en el promedio de calificaciones (GPA) acumulativo y se anotará en el registro académico del estudiante.

Cuando un estudiante repite un curso para mejorar deficiencias académicas, la calificación y crédito anterior no se tomarán en cuenta en la computación de el promedio de calificación general, pero permanecerán en su historial académico. Cursos que sean repetidos aparecerán en el historial académico anotados como corresponde. Cuando una repetición de curso ocurra, el historial académico será permanentemente anotado de una manera entendible y verídica.

Los estudiantes pueden transferir cursos equivalentes de cualquier colegio, universidad o institución académica acreditada para remplazar un curso tomado en Cerritos College que haya tenido una deficiencia académica si el curso fué tomado después de haber resultado en deficiencia en Cerritos College. El estudiante deberá someter una petición al Comité de Records y Regulaciones Académicos para que registren el cambio. El colegio puede honrar las acciones de curso previamente repetido de otros colegios o universidades para determinar la aceptación de créditos, sujeta a petición del estudiante y aprobación de el Comité de Records y Regulaciones Académicos.

#### Ejemplos de excepciones para la consideración de las limitaciones para repetir un curso

Una petición de Normas y expedientes académicos se debe presentar para consideración oficial de la repetición del curso. Todas las peticiones son objeto de aprobación o denegación. Contacte la Oficina de Admisiones y Registros para instrucciones específicas.

1. Estudiantes que hayan recibido una "MW" (Dado de Baja Militarmente).
2. Estudiantes con deficiencias cuyas calificaciones son resultado de circunstancias fuera de su control.
3. Cursos en cooperación con trabajo de experiencia, sujetos a determinados máximos tal como se definiera en los procedimientos administrativos de el colegio.
4. Ciertos tipos de actividades o cursos para ganar habilidades, sujetos a determinados máximos tal como se definiera en los procedimientos administrativos de el colegio.
5. Ciertos cursos para estudiantes con incapacidades, sujetos a determinados máximos tal como se definiera en los procedimientos administrativos de el colegio.
6. La repetición necesaria debido a un mandato legal para entrenamiento. \*Dichos cursos pueden ser repetidos un sinnúmero de veces, a pesar de que dicho curso ha sido oficialmente registrado en el plan de estudios o haya tenido una deficiencia en calificación, y la calificación recibida en cada instancia deberá ser incluida en el certificado de estudios como propósito de calcular el promedio de calificación del estudiante (Title 5, Division 6, Ch. 6 Subchapter 9, §55763).

- Después de un tiempo calificado como significativo tal como se definiera en los procedimientos administrativos de el colegio.

### Repetición de Cursos

A partir del otoño de 2013, cambió la posibilidad de repetición en danza, drama, educación física, artes visuales y la mayoría de cursos de música. Los cursos de deportes intercolegiales y algunos cursos de música y teatro que se requieren para programas de transferencia son los únicos cursos en estas disciplinas que podrán repetirse; todos los otros cursos que anteriormente podían repetirse se ofrecerán ahora como cursos de una sola inscripción. Se hará una anotación después de la descripción del curso que indique si se permite repetirlo.

La universidad ha desarrollado familias de cursos. Las familias de cursos incluyen cursos nuevos y anteriores cuyo contenido está relacionado. Una familia de cursos puede consistir en más de cuatro cursos, pero los estudiantes están limitados a un máximo de cuatro cursos en una misma familia. Además, todas las calificaciones incluyendo las "W" contarán hacia la limitación de inscripción de cuatro cursos. Los estudiantes pueden repetir cursos de arte, danza, drama, música y educación física que se incluyen en las familias de cursos, en los que se obtuvo la calificación de "NP", "D" o "F" o que se asignó una "W", sin embargo, todas las inscripciones cuentan hacia el máximo de inscripción de cuatro cursos para cada familia de cursos.

### Cambio de domicilio

Cambios de domicilios deben de ser inmediatamente reportados a la Oficina de Admisión y Registro. Cualquier negligencia tendrá como resultado el retraso de fechas para inscripción o el retraso de otras notificaciones importantes. Los cambios de domicilio pueden hacerse en línea al sitio web [www.cerritos.edu](http://www.cerritos.edu), en el portal My Cerritos.

### Unidades

Cada curso tomado vale cierto número de "unidades". Este número es determinado dependiendo el tipo de clase y el número de horas que dura por semana. Por ejemplo, una clase de lectura de tres (3) unidades (inglés o salud) equivale a tres horas por semana durante el periodo regular de 18 semanas que dura un semestre, pero una clase de laboratorio de una (1) unidad equivale a tres horas por semana.

### Unidades de estudios por semestre

Para graduarse en cuatro semestres, los estudiantes deberán cursar entre un promedio de 16 unidades transferibles y acreditables por cada semestre. Los estudiantes que deseen tomar más de 18 unidades por semestre, dichas unidades deberán ser aprobadas por un asesor académico. Otras limitaciones en unidades son:

- Estudiantes extranjeros con visa no menos de 12 unidades.
- Los atletas intercolegiales no menos de 12 unidades aprobadas, a lo largo de la temporada deportiva, no menos de 24 unidades aprobadas entre temporadas deportivas.
- Los estudiantes de admisión especial de los grados desde kínder hasta décimo pueden inscribirse en un máximo de 4 unidades.
- Los estudiantes de puente a la universidad de onceavo a doceavo grado se pueden inscribir en un máximo de 8 unidades.
- Los estudiantes en período de prueba se limitan a la cantidad de unidades basado en el GPA y/o tasa de finalización.

### Definición de una hora de clase

Una "hora de clase" es la unidad básica de asistencia programada y/o examen y está definida como un período no menor de 50 minutos. Una "hora de reloj" es un período de 60 minutos que está compuesto por una hora de clase de 50 minutos y un segmento de 10 minutos conocido como un "período de cambio" o "descanso". Las clases programadas para más de una hora tienen fórmulas para mantenerse dentro de esta definición. Por ejemplo, una clase programada de 8:00 a 8:50 ya tiene incorporado el período de cambio y los estudiantes deben asistir durante los 50 minutos completos. Cerritos College programó las clases para cumplir con el período de cambio y no hay necesidad de salir 10 minutos antes. Las clases que se reúnen durante varias horas pueden asignar un descanso de 10 minutos entre cada hora pero no en la última hora de asistencia. Cerritos College cumple con esos patrones de tiempo.

### Crédito de unidades por servicio militar

Soldados que hayan estado al servicio activo por un periodo de un año o más y quienes hayan sido dados de baja honorablemente sin haber desertado podrán recibir cuatro (4) unidades de crédito. Las unidades serán designadas como "Crédito por servicio militar" en el certificado de estudios. Para solicitar estas unidades el militar deberá presentar la forma D.D. #214 a la Oficina de Admisión y Registro. Los créditos serán aplicables al Diploma A.A. solamente y no serán aplicables a ningún programa de certificados.

### Clasificación de estudiantes

*Estudiante de primer año (Freshman):* Aquéllos que han acumulado menos de 30 unidades.

*Estudiante de segundo año (Sophomore):* Aquéllos que han acumulado 30 o más unidades pero menos de 60 unidades, o aquellos que han completado 60 unidades y que no tienen un certificado.

Career Pathways detail courses that may be taken at Cerritos College and that may or may not count toward a specific major for BA/BS degree requirements. Students following a Career Pathway who plan to transfer should also complete the preparation for a major available for the university where they plan to transfer. Career Pathways do not lead to an AA or AS degree. Students should consult with a counselor regarding options for completing a related associate's degree.

## REQUIREMENTS FOR THE ASSOCIATE OF ARTS FOR TRANSFER ( AA-T) OR ASSOCIATE IN SCIENCE FOR TRANSFER (AS-T)

California Community Colleges are now offering associate degrees for transfer to the CSU. These may include Associate of Arts (AA-T) or Associate in Science (AS-T) degrees. These degrees are designed to provide a clear pathway to a CSU major and baccalaureate degree.

California Community College students who are awarded an AA-T or AS-T degree are guaranteed admission somewhere in the CSU system and given priority admission consideration to their local CSU campus or to a CSU program that is deemed similar to their community college major. This priority does not guarantee admission to specific majors or campuses.

Students who have been awarded an AA-T or AS-T are able to complete their remaining requirements for the 120-unit baccalaureate degree within 60 semester or 90 quarter units.

To find out which CSU campus accepts each degree as similar, please meet with a Cerritos College counselor. You can also locate this information at <https://www2.calstate.edu/apply/transfer/Pages/associate-degree-for-transfer-major-and-campus-search.aspx>

An AA-T or AS-T degree may not be the best option for students intending to transfer to a specific CSU majors or campuses or to a university that is not part of the CSU system.

Current and prospective community college students are encouraged to meet with a counselor to review their options for transfer and to develop an educational plan that best meets their goals and needs.

## REQUIREMENTS

The following is required for all AA-T or AS-T degrees:

1. Minimum of 60 CSU-transferable semester units. At least 12 of those units must be earned at Cerritos College.
2. Minimum grade point average (GPA) of at least 2.0 in all CSU transferable coursework. While a minimum of 2.0 is required for admission, some majors may require a higher GPA. Please consult with a counselor for more information.
3. Completion of a minimum of 18 semester units in an "AA-T" or "AS-T" major as detailed in the Majors, and Certificates section of the catalog. All courses in the major must be completed with a grade of "C" or better or "P" if the course is taken on a "pass-no pass" basis.
4. Certified completion of the California State University General Education –Breadth pattern (CSUGE Breadth-Plan B) OR the Intersegmental General Education Transfer Curriculum (IGETC-Plan C) pattern.

### For CSU

If any specific AS-T degree allows IGETC for STEM Majors as its general education pattern, the specific courses that should replace the deferred lower division general education courses may be indicated on the Transfer Model Curriculum (TMC) for that discipline.

### For UC

UC will accept IGETC for STEM if the UC school/college/major program to which the student transfers accepts partial IGETC certification.

### For CSU and UC

## ADMINISTRATION OF JUSTICE

### ASSOCIATE IN SCIENCE DEGREE FOR TRANSFER (AS-T)

Administration of Justice is the study of the causes, consequences and control of crime. The program leading to the Associate in Science in Administration of Justice for Transfer is designed to acquaint pre-service and in-service students with the principles and practices of criminal justice systems in America. Although the program's curriculum allows for the development of depth in one of the subject's substantive subsystems (i.e. law enforcement, juvenile, courts or corrections), our objective is to familiarize students with activities in all the above areas. The program is both academic and professional in that it is an interdisciplinary attempt to relate intellectual issues and practitioner perspectives to the challenge of crime in a free society. Consequently, the program provides preparation for employment with a related agency and/or transfer to a college or university.

Students will be prepared to work in a variety of fields, including public law enforcement agencies such as municipal police, probation officers, county deputy sheriffs, correctional officers, game wardens, state parks, and private security. Those completing the Associate in Science in Administration of Justice degree will be able to transfer to the California State University system and be prepared to study in the following areas: Administration of Justice, Law Enforcement, Correctional Administration, Criminology, Social Science, and Pre-Law. 5. **Pregnancy Advisory:** all clinical affiliates require immunizations. All students must be immunized to participate in clinical education. Pregnancy may affect immunization and or other program requirements. If you are pregnant or planning on pregnancy (while enrolled) please consult with the Program Director. A statement from the student's healthcare provider noting the student may proceed through the program with "no limitations" will be required of all pregnant students.
6. **Latex Advisory:** the use of latex/latex based products may exist in the healthcare universal precautions and in environments such as but not limited to the classroom, labs, and clinical sites. 8. **Infection Control Guidelines:** Applicants are advised of the following Infection Control Guidelines as outlined by the Center for Disease Control (CDC): The prevention of cross contamination and transmission of infection to all persons, including: patients, Dental Health Care Professionals (DHCP), faculty, students, and non-clinical staff is the professional responsibility of all dental personnel. Cerritos College Dental Assisting program has adopted policies and procedures that represent a comprehensive and practical infection control program, based upon federal guidelines (Center for Disease Control). A fundamental principle of an effective infection control program is to exercise care, precautions and effective control techniques that can keep infectious microbes within manageable limits of the body's normal resistance to disease. Individuals at high risk of infectious diseases (HBV, HCV and HIV) among DHCP are those who perform tasks that might involve contact with blood, blood-contaminated body substances, other body fluids, or sharps, and should be vaccinated. Vaccination can protect both DHCP and patients from infectious diseases and whenever possible should be completed when DHCP are in training and before they have contact with blood. Compliance with these policies and procedures are an ethical obligation and responsibility of all participants in the delivery of care at Cerritos College. Guidelines for Infection Control in Dental Health Care Setting – 2003, 12/19/03 52(RR17); 1-61. <http://www.cdc.gov/mmwr/preview/mmwrhtml/rr5217a1.htm>

### ASSOCIATE IN ARTS DEGREE FOR TRANSFER (AA-T)

The English department offers a variety of literature and creative writing classes that assist majors in completing seamless transfer to CSU, as well as in discovering an affinity for literary periods, genres, and authors that inspire specialized study in upper-division coursework upon transfer. Literature classes are offered in 2-year cycles, while creative writing classes are offered annually, ensuring that students have the opportunity to complete transfer requirements while aiding in their educational planning. As students complete their major and degree requirements, or as they add GE or humanities electives, they may select from one of three areas in literature study: survey classes (British, American, World, and Bible as literature), genre classes (novel, short fiction, poetry, drama, film), and classes in culture and diversity (including Asian American, African American, Native American, Chicano/a, Mexican Lit. in Translation, Literature of India, Women's Lit., LGBT Lit, Children's Lit., and Modern and Contemporary Lit.). Students may also pursue one of the Creative Writing Certificate as a means of expanding their writing skills and understanding of the stylistic and technical elements of writing and reading literature.

## LITERATURE AND LANGUAGES

The literature and language emphasis offers students two principal disciplines: the study of literature in English and/or the study of foreign languages. ### PROGRAM REQUIREMENTS

#### Academic Requirement

The student may obtain a Certificate of Achievement or an Associate of Arts in Medical Assisting. The student must achieve a grade of "C" or better in required medical assisting and General Education course work. (Twelve units of the Medical Assistant program must have been taken within the last five (5) years.) MA 67 and MA 68 have prerequisite courses, which must be completed with a grade of "C" or higher.

#### Program Progression/Completion

Successful completion of all levels of course work is necessary for completion of and graduation from the program of study. In order to complete the program, the student must maintain a grade of "C" or higher whether enrolled in combined lecture/lab courses, practicums, or clinical experiences. When content is tiered, each level must be completed according to identified criteria.

Upon successful completion of all program requirements, students are eligible to receive either the Certificate and/or Associate in Art degree.

#### Expenses

- A. See the college catalog for enrollment fees.
- B. The student may expect to spend approximately \$600 for books, equipment (including watch with a second hand), and uniforms. Health screening will be at the student's expense. This may include but is not limited to immunizations and CPR/First Aid certification completed at private agencies. Students are responsible for their own living accommodations, uniform laundry, and transportation to selected clinics.

#### Essential requirements for the Medical Assistant Program

Technical Standards/Essential Functions are available for you review on the program's website. They have been designed to give you more information about the profession and important skills/functions. This information will be helpful to assist you in deciding on your career path.

#### Health

The health standards will include, but are not limited to, T.B. testing and immunization. The Medical Assistant Program Record of Immunizations, Vaccination, and Test forms (located in HS 106) must be completed before the first class session and prior to placement in the health care facility. Health clearance, CPR and First Aid requirements must be valid for the duration of the clinical affiliation. Student placements are predominately during the day hours.

### CRIMINAL BACKGROUND CHECKS

Clearance of a criminal background check may be required prior to internship/work experience placement. Students who do not clear agency requirements are not eligible for clinical placement and will, consequently, be ineligible to continue in the course. ## NURSING ASSOCIATE OF ARTS

The Cerritos College Nursing Program, approved by the Board of Registered Nursing and accredited by the Accreditation Commission for Education in Nursing, Inc., offers an opportunity to prepare for a nursing career through mastery of a specific body of knowledge and skills. Technical Standards/ Essential Functions are available for your review on the program's website. They have been designed to give you more information about the profession and important skills/functions. This information will be helpful to assist you in deciding on your career path. To qualify for the program, students must successfully complete prerequisite courses and other requirements as stated below. The generic program (Option A) consists of four semesters of sequenced courses.

Students may receive Pass for prior nursing courses to facilitate advanced placement. These students include Licensed Psychiatric Technicians, Licensed Vocational Nurses, students transferring from other accredited programs, and foreign-educated nurses.

For successful completion of the nursing program, the student is required to achieve a minimum 75% in all nursing and nursing-related courses. This is consistent with the Board of Registered Nursing's standard of competency for nursing practice. Completion of the program meets qualifications for the NCLEX-RN licensing exam.

### MISSION STATEMENT

The Cerritos College Nursing Program Mission is to prepare nurses to meet the needs of diverse populations in an ever changing health care environment.

### PHILOSOPHY

Nursing is defined as a science, discipline and health care practice that focuses on the assessment, diagnosis and treatment of patients having health problems within the domain of nursing. The goals of nursing practice focus on health promotion, illness prevention, rehabilitation, and supporting the resources of the person who is ill or threatened with illness in adapting to changes within the environment.

In addition to implementing the philosophy of the College, the purpose of the Nursing Program is to provide the community with registered nurses who are capable of functioning in a variety of health care settings. To accomplish this, the Roy Adaptation Model has been

selected as the primary conceptual framework. Within this framework, nurses identify their patients as biopsychosocial beings in constant interaction with the environment. In periods of health, individuals have both innate and learned behavioral mechanisms which enable them to cope with their complex internal and external environments. In times of stress, the patient's coping mechanisms may be disrupted and the individual is defined as ill. The patient's health status is defined on a continuum from wellness to illness.

Nursing practice focuses on adaptation of the patient in four major modes: physiological, self-concept, role function, and interdependence. The program prepares students to understand individuals as total beings and to recognize and respect a diversity of spiritual and cultural/ethnic values.

### **COMPETENCIES EXPECTED OF THE ASSOCIATE DEGREE NURSE**

The Associate Degree Nurse (ADN) graduate is prepared and expected to practice within the framework of the Educational Competencies for Graduates of Associate Degree Nursing Programs as identified by the NLN Council of Associate Degree Nursing Competencies Task Force in 2000. As identified by the Task Force, ADN graduates practice within the framework of eight core components and competencies. The core components of nursing practice are: professional behaviors, communication, assessment, clinical decision making, caring interventions, teaching and learning, collaboration, and managing care. These core components emphasize competencies related to diversity in healthcare, clinical decision making, assessment, patient education, continuity of care (including community aspects), collaboration and leadership. In order to meet the expected outcomes, the ADN graduate utilizes critical thinking and demonstrates clinical competence and accountability as an adaptable generalist who is committed to caring for others and valuing the profession of nursing.

The Associate Degree Nurse is an entry level practitioner and is competent to practice as a direct caregiver in a variety of health care settings which include diverse patient populations. ADN graduates are employed in a health care delivery system that continues to grow and change. Consequently, ADN graduates may pursue bachelors, masters and doctoral degrees in preparation for advanced levels of practice.

### **CONCEPT OF EDUCATION**

Nursing faculty believe that nursing education is driven by the application of critical thinking and development/improvement of teaching/learning strategies using innovative approaches and evidence-based research. Nursing faculty also believe that the purpose of education is to enlighten and enhance the quality of life for the student, the community and patients for whom students and graduates provide care. Education based on mastery learning is viewed by nursing faculty as a collaborative process involving college administrators and staff, nursing faculty and nursing students. Each student enters the nursing program with unique characteristics, capabilities, learning styles, and motivation for learning. To address these individual differences, learning experiences are structured from simple to complex.

The program embraces the diversity of cultural, linguistic, and philosophical differences represented in the student body. Course experiences are designed to encourage discussion, sharing and application of cultural practices that are unique to the individuals and groups represented in the campus and the community.

The goal of the program is to promote students' creative and critical thinking and personal growth based on successful learning experiences. Achievement of this goal is fostered by encouraging self-direction and by providing a variety of individual and group learning experiences. Students are expected to participate actively in the learning process.

### **CURRICULUM OVERVIEW**

The nursing curriculum is currently based on the Nursing Process and the Roy Adaptation Model. The Nursing Process provides the framework for the application of the Roy Adaptation Model. The Roy Adaptation Model for Nursing was adopted by the Cerritos College nursing faculty in 1981. Currently, the program utilizes essential elements of the Roy Model to describe our beliefs about man, the environment, health and illness and to design the goals of nursing care and to organize the collection of assessment data related to the patient's health status. Cerritos College faculty use the Educational Competencies for Graduates of Associate Degree Nursing Programs, as identified by the National Council of Associate Degree Nursing Competencies Task Force in 2000, as the reference to guide and to structure curriculum development, define and level competencies within the Major Requirements and to identify competencies expected at graduation. There are five steps to the Nursing Process: assessment, diagnosis, planning, implementation and evaluation. The Cerritos College nursing student utilizes the Roy Model to collect and organize patient data during the assessment stage of the Nursing Process.

The Roy Adaptation Model views the person/patient/client as a biopsychosocial being in constant interaction with the environment. As an adaptive organism, the person copes with changes in the internal and external environments. In this model, the person is also perceived as having four adaptive modes that identify patient behavior in response to illness or wellness. Behavior is assessed in each of the four modes: the Physiologic Mode, Self-Concept Mode, Role Function Mode and Interdependence Mode. The latter three modes are referred to as the Psychosocial Mode. The underlying needs of the Physiologic Mode is physiological integrity. Components/Concepts of this mode are: Oxygenation, Nutrition, Elimination, Activity and Rest, Protection, Senses, Fluid and Electrolytes, Neurological Function, and Endocrine Function. The curriculum addresses normal (adaptive/effective) and abnormal (maladaptive/ineffective) behaviors in each of these Physiologic Mode components, including wellness and disease prevention elements along with disease processes. The goal of nursing, as expressed in the Roy Adaptation Model, is to promote adaptation. Once a comprehensive, holistic assessment is completed, the nurse identifies actual and potential health alternations and designs a nursing diagnosis. A plan to treat the nursing diagnosis is developed by establishing patient outcomes which are measurable and based on patient behaviors. Nursing interventions are formulated and implemented so that the outcomes can be accomplished. The nursing plan of care is aligned with the medical plan of care. Evaluation of effectiveness of the plan is determined by whether the outcomes have or have not been achieved. If outcomes have not been met, reassessment occurs to determine whether outcomes and/or interventions must be modified.

To develop the cognitive, psychomotor and affective abilities necessary to function as a competent caregiver, the nursing student gains knowledge in nursing concepts, principles, processes, and skills. To support acquisition of this knowledge, the Cerritos College curriculum includes understanding of health, acute and chronic health deviations, nutrition, pharmacology, communication, human development, teaching-learning principles, current technology, humanities, and biological, social and behavioral sciences. Anatomy, physiology, microbiology, and English are prerequisite to the core nursing courses. To meet graduation requirements, students may concurrently study pharmacology, communication, fine arts and humanities courses.

The Nursing Program is currently enduring a major Curriculum Revision centered on Concept Based Learning. A concept-based curriculum embraces core curriculum concepts that are centered on biophysical and psychosocial foundations, professional nursing concepts, health care system concepts, QSEN standards, and National Patient Safety Goals. During the course of study, students focus on key, prevalent exemplars of these concepts and delve into their interconnected relationships. Students learn to recognize significant features of a condition and begin to apply what they have learned to a variety of

## Curriculum and Requirements for Majors and Certificates

clinical situations. Concept based curriculum challenges students to think more critically, apply prior and current knowledge and experiences, identify patterns across concepts, draw on conceptual significance and relevance, and transfer concepts from one patient's bedside to the next. By doing this, the student will facilitate early identification of risk potential to patients and will take active measures to reduce these risks and improve patient outcomes. This revised curriculum will be completed and submitted for approval in mid-2020.

Graduates of the Associate Degree Nursing Program will meet Program Student Learning Outcomes:

**STUDENT LEARNING OUTCOME #1:** The graduate will integrate physiological and psychosocial concepts, along with critical thinking and clinical reasoning to apply nursing process to promote quality, safe, patient centered care.

**STUDENT LEARNING OUTCOME #2:** The graduate will promote and maintain a safe environment by integrating current evidence based practice, information technology, and skill competency to deliver quality health care.

**STUDENT LEARNING OUTCOME #3:** The graduate will therapeutically communicate and collaborate with culturally diverse patients, families, and the interprofessional health care team to achieve quality patient centered care.

**STUDENT LEARNING OUTCOME #4:** The graduate will demonstrate the knowledge, skills, and attitude required of the professional nurse, embracing lifelong learning to improve the quality of health care.

The Associate Degree Nurse is prepared to apply for and take the state licensure exam NCLEX-RN to practice as an entry level RN. In this role, the graduate will provide care to patients with acute and chronic health care needs, and to individuals and families, groups and communities. The nurse uses an interdisciplinary, collaborative approach in working with the patient and with other health care providers. The graduate of an Associate Degree program plays a significant role in management of patient care. Managing care is characterized by planning, implementing, organizing, coordinating, delegating and facilitating the continuity of patient care. The graduate of an Associate Degree Nursing Program adheres to standards of professional practice, is accountable for her/his own actions and behaviors, and practices within ethical, legal, and regulatory frameworks of nursing. Professional behaviors include the concern for others that is demonstrated by caring, valuing the profession of nursing, and participating in ongoing professional development.

### NURSING APPLICANT ELIGIBILITY/ADMISSION REQUIREMENTS

The Cerritos College Nursing Program welcomes all applicants. The nursing program has six options of entry (Option A-F) into the program depending on the applicant's needs and current training status. ### LENGTH OF PROGRAM AND ANTICIPATED EXPENSES

The core nursing program consists of sequenced courses over a four semester period. Prerequisite courses are completed prior to these four semesters. In addition, General Education courses are required for completion of the Associate of Arts Degree in Nursing (Associate Degree in Nursing – ADN). Some students may need to take additional courses to meet English, reading and mathematics requirements.

Each unit costs \$46 for California residents and \$263 for non-residents of California or international students.

A Student Activity Fee is \$10 per semester and the Student Health Services Fee is \$19 per semester.

During the four core semesters, Lab material fees total approximately \$200; textbooks/resources cost approximately \$2500; and uniforms and additional supplies and equipment cost approximately \$350. Fees are subject to change. Students are responsible for their own living arrangements, uniform laundry and transportation to clinical agencies.

Upon completion of the program, application fees for licensure range ~ \$500-\$600.

### ATTENDANCE

All students are expected to observe the attendance requirements of the Nursing Program as stated in the Nursing Program Student Handbook.

### PROGRAM PROGRESSION/COMPLETION

In order to remain enrolled in, progress in, and complete the program, the student must maintain a "C" grade or higher in all nursing courses and those General Education courses specified by the California Board of Registered Nursing for completion of the nursing program. These courses include: PHIL 104, PSYC 275, COMM 100, COMM 120, COMM 130, COMM 132, OR COMM 150. In combined nursing lecture/lab courses, the student must receive a minimum of "C" in lecture and a satisfactory grade in lab in order to successfully complete the course.

Successful completion of all levels of course work is necessary for completion of and graduation from the program of study. In order to complete the program, the student must maintain a grade of "C" or higher whether enrolled in combined lecture/lab courses, practicums, or clinical experiences. When content is tiered, each level must be completed according to identified criteria.

Upon successful completion of all program requirements, students are eligible to receive the Associate of Arts degree.

### CRIMINAL BACKGROUND CHECK

Clinical placements are a mandatory component of the curriculum and require clearance of a criminal background check and drug screen. While marijuana is now legal in California, applicants must drug screen negative to enter the program. This is required by all clinical sites. Students who do not clear agency requirements are not eligible for clinical placement and will, consequently, be ineligible to continue in the program. If there is any concern regarding clearance of a criminal background check or drug screen, please contact the Health Occupations Division for additional information.

### REGISTERED NURSE LICENSE APPLICATION

At the completion of the fourth semester of the Nursing Program, the nursing student files an application for licensure (NCLEX-RN) with the Board of Registered Nursing. The application and examination registration fee is \$300. In addition, the student may apply for an interim permit for \$100. These fees are subject to change by the Board of Registered Nursing.

As stated in the Board of Registered Nursing's application for licensure:

Applicants are required under law to report all misdemeanor and felony convictions. "Driving under the influence" convictions must be reported. Convictions must be reported even if they have been expunged, adjudicated, or dismissed or even if court ordered diversion program has been completed under the Penal Code or under Article 5 of the Vehicle Code. Also, all disciplinary action against an applicant's registered nurse, practical nurse, vocational nurse, or other professional license must be reported. Failure to report prior convictions or disciplinary action is considered falsification of application and is grounds for denial of licensure or revocation of license. To make a determination [regarding eligibility for licensure] the Board considers the nature and severity of the offense, additional subsequent acts, regency of acts or crimes, compliance with court sanctions, and evidence of rehabilitation.

### NURSING PROGRAM OPTIONS

## PHILOSOPHY ASSOCIATE IN ARTS DEGREE FOR TRANSFER (AA-T)

Students who take philosophy courses at Cerritos College—whether or not as a major—will better appreciate Socrates' famous declaration that "the unexamined life is not worth living." They will learn how to read primary sources in all disciplines more carefully and critically; how to write well-reasoned argumentative essays and research papers; and how to defend their own positions on important issues concerning art and beauty, ethics and justice, and science and technology. Acquiring these philosophical skills will prepare students to become responsible participants in complex democratic societies and to tackle the many challenges they will face as "citizens of the world." Moreover, a solid background in philosophy will help students to prepare for, and obtain success in, such professional careers as education, law, health care, economics, and public administration.

Licensed SLPAs have the opportunity to apply for work settings such as: in-home health; public, non-public, and charter schools; and, medical settings such as rehabilitation centers and private clinics.

### TECHNICAL STANDARDS/ESSENTIAL FUNCTIONS

Technical standards/Essential Functions have been prepared to assist you in understanding the technical standards of the Speech Language Pathology Assistant program in order to affiliate in the clinical agencies and ultimately practice the profession. The technical standards as stated herewith are not conditions of admission to a program of study.

## Curriculum and Requirements for Majors and Certificates

Rather, they reflect performance abilities that are necessary for a student to successfully complete the requirements of the specified Health Occupations program.

The complete scope of practice for this occupation can be found in the Speech-Language Pathology Assistant handbook on the program's website at <https://www.cerritos.edu/slpa>. This information will be helpful to assist you in deciding on your career path.

The delivery of safe, effective speech and language intervention requires that students be able to perform functions related to the technical standards outlined here. The inability of a student to perform these functions may result in the student being unable to meet course objectives and to progress in the Speech Language Pathology Assistant program. Additionally, if a student is unable to perform these required competencies, the student may pose a risk of harm to the client(s) for whom care is provided.

All applicants meeting the appropriate academic requirements shall be considered equally for admission to Cerritos College or any academic program regardless of race, color, religion, sex, marital status, beliefs, sexual orientation, national origin, age, or physical or mental disability.

### PROGRAM MISSION

The mission of the Cerritos College Speech-Language Pathology Assistant Program is to prepare future Speech-Language Pathology Assistants to meet the needs of diverse populations in a variety of therapeutic environments. The Speech-Language Pathology Assistant Program was developed to align with the educational philosophy, mission, and values of Cerritos College. Specific goals, competencies, and student learning outcomes can be found in the program handbook on the website at: <https://www.cerritos.edu/slpa>.

### ACCREDITATION

This program is accredited by the Speech-Language Pathology, Audiology, and Hearing Aid Dispenser's Board of California: 2005 Evergreen Street, Suite 2100, Sacramento, California, 95815; telephone: (916)263-2666; website: [www.speechandhearing.ca.gov](http://www.speechandhearing.ca.gov).

### LENGTH AND KIND OF PROGRAM

Once admitted, the program is three semesters in length (excluding summer), beginning in the Fall semester. Speech-Language Pathology Assistant classes and any required general education units are scheduled on the college campus. Correlated clinical experiences are completed in the second and third semesters. These experiences may take place at selected schools and clinics in the Los Angeles and Orange county areas.
