Getting to know my textbook

Name four features of your textbook and briefly explain how it will help you be more successful in this course:

Example: *The Index*

How will this help me be more successful?

The index contains all the topics covered in the book. Thus, if you are working on something and need to look up a term or a concept from another section, this is a good place to go. You do not need to know where in the book to find the topic (as you do, if you go to the Table of Contents.)
