Why consider transfer to In-State-Private and Out-of-State Colleges and Universities?

Independent and Private colleges and universities in California (see complete list of AICCU schools on page 7) Private colleges and universities function independently of Federal and State funding. These schools are privately owned and operated, and they maintain their faculty and campuses through private endowments.

AFFORDABILITY

Many private Universities, like Amherst and even Harvard, have set aside their student loan programs in favor of offering more grant and scholarship programs.

Generous Financial Aid

More than 70 percent of AICCU students receive financial assistance directly from the colleges and/or state and federal grants.

Average institutional grant award to a Cal Grant student \$19,208. The majority of private institutions offer Merit-Based Scholarships.

SUCCESS

High Graduation Rates

California's independent colleges have some of the states highest four-year graduation rates.

Personal Attention

That is what California's independent colleges and universities are all about—small class sizes, high quality academics, opportunities for involvement, and leadership in campus activities, and strong learning and living communities.

ACCESS

AICCU institutions enroll over 32,000 adult learners in Fall 2019.

OUT-OF-STATE UNIVERSITIES

- ◆ Many out-of-state colleges and universities offer Transfer Admissions Guarantee (TAG) to California Students
- ◆ Western Undergraduate Exchange (WUE) program offers a reduced tuition rate to California students who select to enroll in schools in the Western States. Tuition is less than paying as a non-resident.
- ◆ Some IVY LEAGUE schools offer non-traditional programs (see page 13)
- ◆ Experience a different environment/state.

General Transfer Requirements

Transfer Requirements

There are many choices for transfer students when deciding to earn a bachelor's degree and beyond. In addition to the California State University and University of California systems, there are many California independent institutions. There are also many colleges, private and public, located throughout the United States to which Cerritos College students can transfer. Each of these institutions has its own unique requirements for admission. In order to determine eligibility, students should refer to the school's catalog or website and consult with a counselor at Cerritos College and/or the university of choice.

General Education Requirements for Independent and Out-of-State Colleges and Universities

In planning for transfer, students should consider the general education requirements for all institutions of interest. Many in-state independent institutions accept CSU General Education (Plan B) and IGETC (Plan C). Students transferring to independent or out-of-state institutions should refer to the school's catalog or website and meet with a counselor in order to determine appropriate general education requirements. Cerritos College has articulated general education requirements with a number of independent institutions. You can visit the Transfer Center's website at www.cerritos.edu/transfer for a complete list of articulation agreements.

Selecting the courses that matter when an articulation agreement is not available. Here are some tips:

- ◆ Take subjects such as: (Mathematics, Writing/Communications, History and Philosophy, Science and Major-related courses)
- ◆ For major-related courses, start at the 100 or 101 level and continue with the next level in the sequence to show rigor and progression
- ◆ Your grades, type of course and rigor of that course are important
- ◆ Stick with generic courses (universal courses) listed on the general education to help when no articulation agreement is available. Cerritos College offers many specific courses in which most schools won't have such as Anth 203-Anthropology of Magic, Witchcraft and Religion. When this occurs, the school may award elective transfer credit versus general education transfer credit. For further assistance, please consult with a counselor.

Other Tips:

- ◆ Pay attention to the mission statement for your school of choice
- ◆ Research the school — link interest to what the school has to offer
- ◆ Extracurricular activities — leadership role
- ◆ Apply early — although many schools offer an application deadline well into the late Spring/early Summer, many schools allow transfer students to register for classes in early Spring

Breakdown of Private Colleges and Universities

Private colleges and universities rely mainly on tuition, fees and private sources of funding. Private donations can sometimes provide generous financial aid packages for students.

Many students ask if a university is better than a college. A college and university generally are academic equals. Depending on the student's needs, one type of institution may be a better choice. If you are a student considering getting a bachelor's or graduate degree, your school's name is less important than whether or not the school is a good fit. Think about what you want your college experience to be like, and choose the college or university that meets your expectations.

Liberal Arts Colleges

These colleges offer a broad base of courses in the liberal arts, which includes areas such as literature, history, languages, mathematics and life sciences. Most are private and offer four-year programs that lead to a bachelor's degree. These colleges can prepare you for a variety of careers or for graduate study.

Universities

Universities often are larger and offer more majors and degree options-bachelor's, master's and doctoral degrees-than colleges. Most universities contain several smaller colleges, such as colleges of liberal arts, engineering or health sciences. These colleges can prepare you for a variety of careers or for graduate study.

Church -and Faith -related institutions

Some private colleges are connected to religious faith. The connection maybe historic only, or it may affect day-to-day student life. In most cases, you do not need to be a member of particular church or religious group to attend a religious affiliated college and enrollment of these institutions will not usually interfere with your own religious views. To view a complete list of schools in California, visit www.collegesimply.com/colleges/california/religious-colleges/.

Historically Black Colleges and Universities

Historically Black Colleges and Universities focus on educating African American students. (see pages 14-15 for complete list)

Although these institutions emphasize educating African American students, they are open to all students.

Hispanic Serving Institutions (HSI)

Hispanic Serving Institutions (HSIs) are colleges where at least 25 percent of the full-time undergraduate students are Hispanic.

Single Sex Institutions

But there are some private colleges that are specifically for men or for women. Below are some examples:

Bennett College (HBCU)

Mount St. Mary's University

Scripps College

Mills College

Art Colleges

Art colleges and conservatories focus on the arts. In addition to regular coursework, these colleges provide training in areas such as photography, music, theater or fashion design. Most of these colleges offer associate or bachelor's degrees in the fine arts or a specialized field.

Types of Art Colleges

Liberal Arts Colleges and Universities

- ◆ Broad based liberal arts curriculum
- ◆ Opportunity to double major or minor in non-art areas.
- ◆ Ability to switch majors.
- ◆ Collegiate campus experience

Common IVY LEAGUE SCHOOL Requirements:

- ◆ Use of Common Application or campus specific application
- ◆ Standardized tests (ACT Plus Writing or SAT)

IVY LEAGUE Transfer Tips:

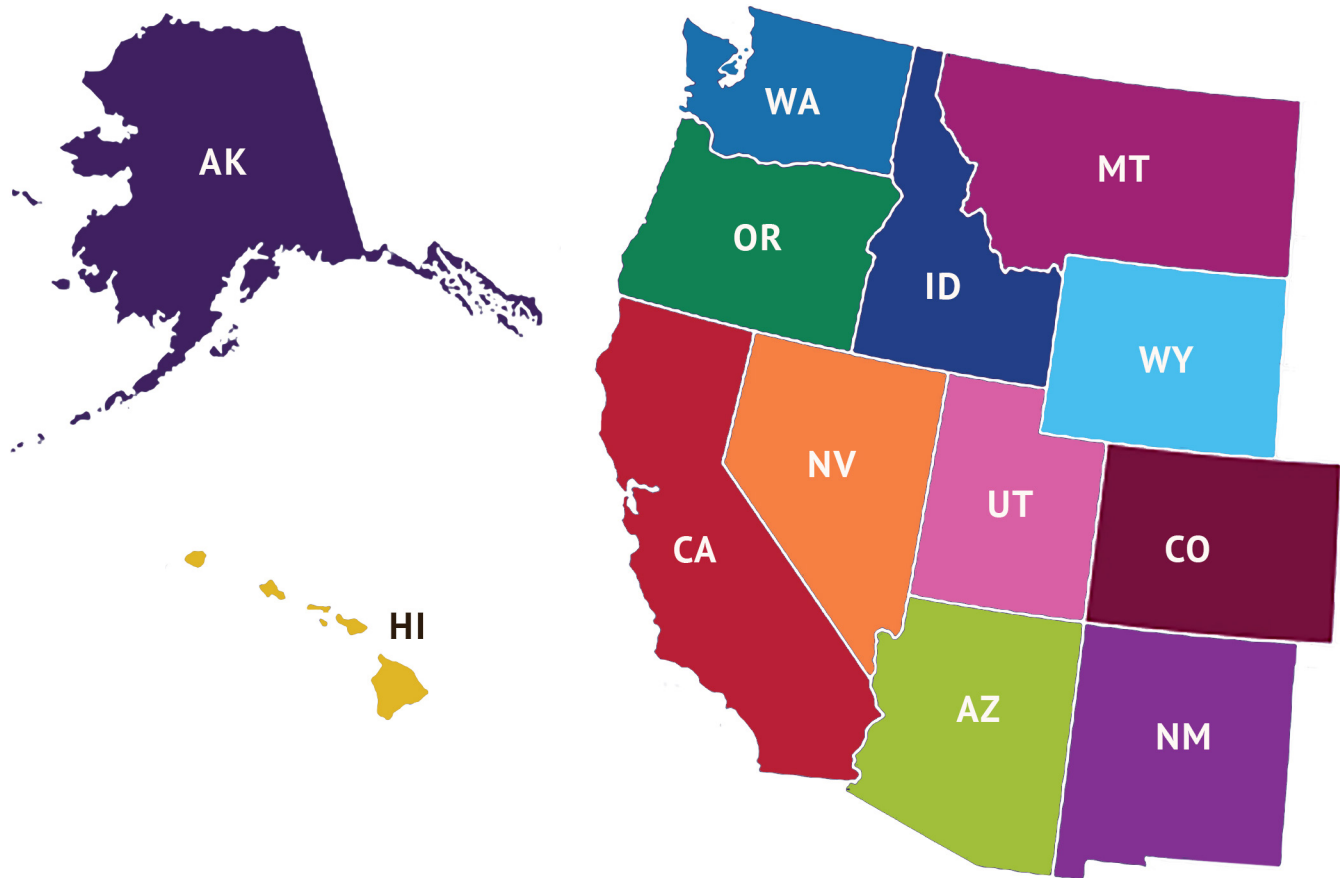

- ◆ Aim for a GPA of 3.5 or higher and carry a full-time load (in many cases more than 12 units)
- ◆ Take challenging courses – A letter grade of B or C will look better in a rigorous class than a grade of A in an easier class
- ◆ Take the right courses – work with a counselor to better assist you in aligning your courses with your major and general education
- ◆ Have valid SAT and ACT scores (if applicable)
- ◆ Get involved – align your extracurricular activities with your career goals or major
- ◆ Apply for Scholarships – scholarship awards is another way to highlight yourself in a resume and application, of course, you get cash too!
- ◆ Build relationships for those Letters of Recommendation
- ◆ Transfer applicants only compete with the transfer pool.

*Princeton was the first university in the country to eliminate loans from its financial aid package.

Western Undergraduate Exchange (WUE)

Western Undergraduate Exchange (WUE) wuesavingsfinder.wiche.edu

WUE (pronounced “woo-wee”) is the Western Undergraduate Exchange, a program of the Western Interstate Commission for Higher Education (WICHE). Through WUE, students in western states may enroll in more than 150 two-year and four-year college institutions at a reduced tuition level: 150 percent of the institution’s regular resident tuition. Students from all WICHE member states are eligible to request the WUE tuition discount.

WICHE member states: Alaska, Arizona, California, Colorado, Hawaii, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington, Wyoming, and the Commonwealth of the Northern Mariana Islands.

Below are some examples of schools offering WUE to transfer students:

CSS Financial Aid Profile

WHAT IS THE PROFILE?

The College Board's CSS/Financial Aid **PROFILE** is an online application that collects information used by almost 400 colleges and scholarship programs to award financial aid from sources outside of the federal government. After you fill out the application, the College Board sends it to the colleges and scholarship programs you have chosen.

Who Must File?

Not all scholarships and colleges require the **PROFILE**. Check with the ones you are interested in to see if they require it.

When do I file the PROFILE?

You may PROFILE as early as October 1st. However, you should file no later than two weeks before the earliest priority filing date specified by your colleges and programs. <https://cssprofile.collegeboard.org>

How Much it Costs?

Sending your PROFILE report to one college or scholarship costs \$25. Additional reports are \$16 each. Students who are from low income families with limited assets will automatically receive fee waivers.

For more information about PROFILE, call 800-927-4302 or send an email to enrollmentsolutions@collegeboard.org.

How to File?

1. Register
 - ◆ Create a College Board online account. (www.collegeboard.org)
 - ◆ Go to CSS **PROFILE** and follow the instructions. <https://cssprofile.collegeboard.org>
2. Complete the application
 - ◆ Have tax records and financial documents handy
 - ◆ Use the preapplication worksheet to save time
 - ◆ Enter the required information
3. Submit the application
 - ◆ Enter your payment information and press Submit

After You File

After you submit your application, print the acknowledgement. This includes the data you entered on your application and your college and scholarship list. You can use the acknowledgement to make changes to your **PROFILE**. It also provides information about the next steps in the process.

The data on your **PROFILE** are analyzed and reported to the colleges and scholarship programs you have specified. They then use the report to help determine your financial aid award.
