

Dr. Jose Fierro
President's Message
July 5, 2019

Dear Colleagues,

With the series of earthquakes we've experienced this weekend, I'm just checking to make sure everyone is okay. This is a scary reminder that it is important to double check your earthquake list at home. If you don't have a kit or an emergency plan for your family, I would strongly encourage you to put one together. FEMA has a good guide to start a home earthquake kit: <https://www.ready.gov/build-a-kit>

Also, if an earthquake occurs while we are on campus, please remember to follow our earthquake evacuation and emergency response plans, and listen to the directions of Campus Police and our leadership team: [https://www.cerritos.edu/police/ includes/docs/Cerritos College emergency Procedures ua.pdf](https://www.cerritos.edu/police/includes/docs/Cerritos_College_emergency_Procedures_ua.pdf)

Stay safe,

Jose

Jose Fierro, D.V.M., Ph.D.
