History

Cerritos College was established on June 10, 1955 when citizens of the Bellflower, Norwalk, Artesia, Carmenita, and Bloomfield elementary districts voted four to one in favor of forming a junior college district. On September 27, 1955, a ballot measure calling for a six-million-dollar bond issue with which to build the junior college passed, again by a four-to-one margin. Title to the proposed college site was acquired on December 5, 1956, and the college Board turned its attention to securing favorable zoning so that construction could begin.

Credit for the birth of Cerritos College lies chiefly with Dr. Ralph Burnight, first president of the institution. Superintendent of the Excelsior Union High School District for 27 years before the College was born, Burnight had seen the need for the extension of educational opportunities offered at his high school and fought the State Board of Education for the establishment of a college in 1953, when the State Board indicated it was doubtful that the District could attract a minimum enrollment of 400 students.

Dr. Burnight, however, was convinced that the area would continue to grow, and three years later the Board of Trustees—Leslie Nottingham, Walter Van Alstine, Dale Donnell, Al Sommer, and Arthur Kulzer—authorized the College to offer instruction. On September 11, 1956, in classrooms rented from the Excelsior High School District, 197 students enrolled in classes and made the college a reality. That first semester, ten certified teachers offered 15 subjects, with Dr. Burnight at the helm. Beginning with the 1957-58 school year, the College operated out of Artesia High School, awaiting the completion of the new campus.

By the end of 1959, eight buildings (Field House, 3-25-58; Business Education, Lecture Hall, Science, Shower and Locker, 10-6-59; Liberal Arts, Technology, Electronics, 9-15-59) had been completed on campus, and funds were made available to provide the remaining facilities to accommodate a student body of 3,500 students.

By 1961 the campus was beginning to look like a college with the completion of four more buildings (Library and Gymnasium, 7-1-61; Metal Trades Shop Building, 7-17-61; Student Center, 3-8-60) and an enrollment of 4,000 students. The campus included 95 acres in 1964, and its 15 permanent buildings brought the value of the College to 16 million dollars; it now served a District with an assessed valuation of 271 million dollars.

Effective July 1, 1965, the district included the ABC Unified School District, the Bellflower Unified School District, the Downey Unified School District, and the Norwalk-La Mirada Unified School District. District population was 400,000 and the assessed valuation had jumped to more than \$500,000,000. This would be the year that, beyond the bravest expectations of everyone connected with Cerritos College, enrollment would exceed 10,000 students.

The College acquired the "South 40" acres by 1966, enlarging the campus to 135 acres. The purchase proved to be an excellent investment by the Board; land values in the College's district have since skyrocketed. The property today supports the Health Sciences Building, the largest parking lot on campus, the Auto Technology Building, and the Community Education Center.

The campus grew to 18 buildings by the 1968-69 school year, with a student enrollment of more than 11,000. The District, too, was growing and now included more than half a million people and an assessed valuation of \$543,000,000. The 18 buildings were complemented by a weight lifting facility in 1971 and a Student Activities/Bookstore complex in 1974.

With the campus thus complete for the time being, the administration and Board of Trustees turned to building the excellence of

the academic program, which had a strong foundation. Innovation in satellite courses, televised instruction, open entry/exit classes, and the move into audio-visual instruction marked the coming decade.

In 1972 the student population reached 17,000. The next year, 18,000 students attended classes, and the assessed valuation of the district had grown to more than \$800,000,000.

The early 1970's were marked by spiraling inflation and tighter money; yet the College was able to finance a new, modern Bookstore (3-19-74), the Health Sciences Building (2-1-78), and the Auto Technology Building (9-1-78) to cope with the growing demands of students.

The Bicentennial Year was a special time for Cerritos, as well as for millions of other Americans. Twenty years earlier, the 135-acre campus had been in its infancy, and educational visionaries had predicted that by 1975 more than 15,000 students would be attending classes in the many buildings depicted only on the architect's drawing boards. That modest forecast failed to foresee an even greater need in the community by 1975, when nearly 23,000 students enrolled in courses. In 1970-71 the predicted 15,000 had already been exceeded, and growing pains brought expansion to the campus, which continues to grow to meet the demands of the surrounding communities.

By its twenty-fifth anniversary, Cerritos College had educated nearly 250,000 students since it first opened its doors at Excelsior High School. Course offerings had expanded, a satellite campus program had been implemented, and the faculty and staff had grown as the community needs increased. Cerritos College received its first ever Federal Title III grant in 1986. The grant was in the amount of \$500,000 renewable for five years totaling \$2.5 million dollars.

Over the last few years, the College has undergone five major renovations. In 1994, the Library and Learning Resource Center (LRC) underwent another major renovation and expansion. The library expanded from 22,000 square feet to over 40,000 square feet. And the old card catalog was replaced with an automated on line system as a result of a major financial gift by the Associated Students of Cerritos College (ASCC). A modern teleconference center and learning assistance lab were added to the east wing of the Learning Resource Center.

The Student Center was renovated in 1995, funded by a three-way partnership between the ASCC, the College District and the State. Unchanged since its doors first opened, The Student Center was completely remodeled from the main floor to the adjacent Culinary Arts food service. The renovation also included a four-restaurant food court with both indoor and outdoor casual dining for students.

In fall of 1998 Cerritos College opened the doors to the "One-Stop" Student Services Center. The new center houses a full spectrum of student resources including admissions and records, academic counseling, financial aid, the Scholars' Honors Program, veteran's affairs, EOPS (Extended Opportunities Programs and Services) and university transfer assistance. Each department is equipped with high-speed Pentium computers, designed to provide immediate access to the College's network. In addition, the College's Career Services and Job Placement Centers have been moved within a short distance of the "One Stop" Student Services Center making it the central hub of all Student Services and enrollment activities.

Also in the fall of 1998, the second phase of the Learning Resource Center (LRC) opened, with more than 500 high-speed personal computers and 699 data ports. The dual-level computer labs provide students with access to the latest software, the Internet for students and tutorial programs. In addition, there are dedicated labs for reading, math, English and foreign languages. This renovation of the LRC was part of a \$12 million investment in a technology infra-

structure that also included the "wiring" of the entire campus and the placement of a networked PC on the desk of each employee. As a result, Cerritos College became "the most technologically advanced community college in the state" for teaching and learning.

And in 1999, the ASCC underwrote the development of Falcon Square, formerly a cement quad situated at the heart of the campus. Falcon Square is a wonderful area for students to relax or study in front of a split face block waterfall with concrete seat caps and slate covering. As part of the renovation, a 300-seat outdoor amphitheater is built in front of the College's music building.

Cerritos College takes pride in the quality of their outstanding faculty. In 1995, Economics Professor Dianne Keenan was selected as the "Community College Professor of the Year" by the National Carnegie Foundation for the Advancement of Teaching. And in 1999, Mathematics Professor Susan Parsons was recognized as the nation's "Outstanding Community College Faculty Member of the Year" by the Association of Community College Trustees (ACCT).

Cerritos College is highly diverse. Across the nation, it is the fourth largest Hispanic serving community college. Furthermore, it is home to more than 300 international students representing 34 countries.

With the turn of the millennium, expansion began to take on a new face at Cerritos College. Instead of adding onto the campus as in the past, Cerritos College began to develop global partnerships with the aid of technology. This became extremely beneficial to education in the aftermath of Sept. 11, 2001 when pursuing cross-cultural educational opportunities became more difficult.

In late 1999, a partnership began between Cerritos College and the University of Wisconsin-Stout (UW-Stout). The two colleges began to hold joint class sessions in real time with the use of a TV screen and the Internet. Not only did this allow for Cerritos College students to exchange ideas with students in another part of the country, but it also allowed Cerritos' ethnically diverse student body to exchange points of view on United States history with the predominately Caucasian population at UW-Stout.

In 2003, the concept of the virtual classroom once again expanded, and Cerritos College entered into a similar partnership with International Pacific College (IPC) in New Zealand. For the first time ever at Cerritos College, two hemispheres were connected in real time and students were able to participate in multi-national approaches to world history.

Both the partnership with UW-Stout and IPC also allowed for a handful of Cerritos students to visit their partner campuses and experience "hands on" what they had been experiencing via technology.

In 2002, the groundwork was set for Cerritos College to launch into the world of tribal technology with the Indian community. In 2003, the college began offering online courses offering custom training for American tribal governments. Cerritos College was awarded a \$50,000 Verizon Foundation Grant for the pilot phase of their program, and their first workshop to promote the program was attended by over 15 tribes from California, Arizona, Oklahoma, Idaho and Nevada. Currently, three online courses are being offered to tribal governments.

So now, not only is Cerritos College serving the communities of Artesia, Bellflower, Cerritos, Downey, Hawaiian Gardens, Lakewood, La Mirada and Norwalk, but it is also serving locations in Wisconsin, New Zealand, Bolivia and America's Indian Country.

With technology on the rise, Cerritos College is also raising the bar on global partnerships and is making a direct impact on globalization in education by forging ahead into the previously unthread waters of international education right here at home.

Vision

Driven by the pursuit of unparalleled student success, Cerritos College will provide access to innovative learning opportunities that promote the power of learning.

Mission

The Cerritos College mission is to serve the community by building futures through learning.

Philosophy and Objectives

Cerritos College is a community-oriented institution that embraces diversity, innovation, and active learning. We strive for high academic and ethical standards, as well as academic freedom. We believe in the worth and dignity of our learners, regardless of age, gender, ethnicity, or disability. In educating, we consider the learner's cognitive growth, and seek to foster emotional and physical well-being. The College prepares individuals for full participation in a complex democratic society, as citizens and leaders, for the fulfillment of personal goals and the future of the region. We believe that the purpose of education is to enlighten and enhance the quality of life.

Academic Information

Admission to the College

Admission to Cerritos College is open to any high school graduate or equivalent or persons eighteen years of age or older and shows evidence of being able to benefit from instruction. Students entering any of the public community colleges of California are subject to the residence requirements as determined by the State of California. A student is eligible to attend Cerritos College whose legal residence is within the state of California. Residents of any other state or foreign country may be subject to non-resident tuition.

The legal residence of any unmarried student under 18 years of age is considered to be that of the parent or guardian. The student should be prepared to present proof of residence.

Cerritos College does not discriminate against any person in employment or college participation because of race, color, religion, sexual orientation, sex, handicap or age.

Further inquiries may be directed to the Office of Admissions and Records at (562) 860-2451, Ext. 2211 or the Cerritos College website at <http://www3.cerritos.edu/student-services/admissions/>.

APPLICATION

All students requesting admission to Cerritos College must file an application for admission in the Admissions and Records Office (Early submission of admission applications is recommended). It is the responsibility of applicants to submit honest and true information; any deliberate falsification of information on the application or residence verification may be grounds for dismissal from the College.

Upon receipt of admission application, Admissions and Records will issue Falcon Phone enrollment appointments. Additionally, a student identification number will be issued to applicants. A student identification number is necessary to complete the matriculation process: assessment testing, counseling appointment, and enrollment.

TRANSCRIPTS

It may be necessary to submit transcripts from previous schools, colleges and universities for the establishment of prerequisite eligibility. Transcripts verifying units from other institutions may be used to complete CSU General Education requirements, IGETC requirements, Certificates of Achievement and Associate of Arts Degrees.

ADMISSION OF HIGH SCHOOL STUDENTS (VEYSEY PROGRAM)

The Veysey program represents a cooperative venture between Cerritos College and its neighboring high schools. Under the terms of this program, juniors and seniors at least 16 years of age may take college courses to achieve three important purposes:

1. Advanced academic work: High school students can get a headstart in their college major or in completing college graduation requirements.
2. Vocational-technical career courses: Students can take courses not available in a high school or can obtain advanced work beyond the scope of a high school's vocational program.

Upon recommendation of the high school and with parental consent, high school juniors and seniors may take classes at Cerritos College. High school students may enroll in courses and possibly receive both high school and or college credit, but must also attend a minimum day at the high school. Enrollment in the summer session immediately prior to the junior year is also open to high school students. No enrollment fee (with the exception of health and student ID fees) will be charged to concurrently enrolled high school students.

Veysey students will not be eligible for continuing student enrollment dates. Interested students should contact their high school counseling office or the Cerritos College School Relations Office at (562) 860-2451, Ext. 2130 for more information.

Students who need accommodations due to a disability should make arrangements for these through their K-12 school district, in consultation with the DSP&S office at Cerritos College.

ADMISSION OF MINORS

The College may admit as a part-time or full-time student in grades kindergarten through 10 (K-10) an advanced student who, in the opinion of the Dean of Academic Affairs and designated faculty, may benefit from instruction offered. These students may only take college credit courses which are designated as associate in arts degree applicable. No exceptions will be made.

This is not a remediation program. For example, if a student fails or does poorly in a particular course(s) at his/her school, Cerritos College is not an alternative institution through which deficiencies can be made up. The minors program for under-aged students is for advanced students who desire to take courses that are not available at their schools.

Students applying for admittance must meet the following criteria:

1. Submit an application for admission to Cerritos College, and;
2. Submit a completed special minors application form;
3. Enroll in 12 units or fewer, and;
4. Demonstrate the ability to benefit from more advanced scholastic or vocational work than is available in the K-10 setting as determined by the Dean of Academic Affairs and designated faculty and staff, and;
5. Be authorized to attend Cerritos College by the Public School District if the student attends public school;
6. Undertake courses of instruction of a scope and duration sufficient to satisfy the requirement of law.
7. Minor student must submit a completed Permission Letter for Special Minor Students (application only) each term or semester they wish to attend Cerritos College.

Minor students are not eligible for continuing student enrollment dates but are exempt from per unit fees.

Students who need accommodations due to a disability should make arrangements for these through their K-12 school district, in consultation with the DSP&S office at Cerritos College..

ADMISSION OF INTERNATIONAL STUDENTS

The International Student Center welcomes F-1 international students to attend Cerritos College. The Center provides international students assistance with admissions, counseling, immigration advisement, cultural adjustment and educational support while they pursue their academic goals. We assist international students in their relations with the United States Citizenship and Immigration Services (USCIS) under the Department of Homeland Security and other U.S. and foreign governmental agencies while they maintain proper immigration status at Cerritos College. Mandatory medical insurance is required for all F-1 students attending Cerritos College. Visit our website at www.cerritos.edu/isp or call us at (562) 860-2451, ext. 2133, for further information or for an international student application package.

STUDENT FEES

1. Enrollment fees for the community college student is \$26 per unit. FEES ARE SUBJECT TO CHANGE WITHOUT NOTICE DUE TO STATE LEGISLATION.
2. Students who are non-residents of California will also be subject to non-resident tuition fee of \$157 per unit. International student fee is \$177 per unit, PAYABLE AT TIME OF REGISTRATION. Active military personnel and their dependents are exempt for one year from this out-of-state tuition charge. Non-resident students who have been admitted to a class or classes without payment of the fee because of falsification of information submitted by or for them, shall be subject to dismissal from college. If the above fees are not paid during the same day of registration, your complete program will be dropped and you will have to re-register.

3. Student Health Fee is \$13.00 per semester, \$10.00 for Summer Session.
4. College Services I.D. Fee is \$10.00 per semester, \$4.00 for Summer Session.
5. Parking fees provide security and maintenance of parking lots. On-campus parking for automobiles is \$20.00 per semester and \$10.00 for Summer Session for students. Mopeds and motorcycles may use designated areas at no charge.

REQUIRED INSTRUCTIONAL AND OTHER MATERIALS POLICY

Students may be required to purchase instructional and other materials required for a credit or noncredit course. Such materials shall be of continuing value to a student outside of the classroom setting and shall not be solely or exclusively available from the District. (Title 5 Cal. Admin. Code Sec. 59400)

Any questions with respect to the interpretation of this regulation shall be in writing and addressed to the College's Vice President of Academic Affairs.

REFUND POLICIES AND PROCEDURES

It is the student's responsibility to apply for a refund. A student is eligible for a refund after classes have been officially dropped. Classes must be dropped by the appropriate deadline for the session in order to be eligible for a refund. A student is eligible for a refund if:

- a. classes are dropped by the required deadline;
- b. the program change is the result of action taken by the district to cancel or reschedule a class;
- c. the student is dropped for failure to meet a prerequisite(s) or corequisite(s); and/or,
- d. the student is active or reserve U.S. military personnel who withdraw due to military orders.

The above listed eligible students may file a petition with the district requesting refund of their registration fee(s). A refund will not be processed if academic credit has been awarded for the class. Refunds will be mailed after your application is filed at the Payroll/Fee Station in the Administration Building. Be sure your address is correct at the time you file. To an officially withdrawn student, the following refund guidelines apply:

1. **Enrollment Fee, Non-Resident Tuition, and International Student Tuition** - Fall and Spring Semester, Summer Session and Short-Term Classes - A student will be fully refunded if classes are dropped within the drop dates published in the Schedule of Classes. There are no exceptions to the published drop dates.
2. **Student Health Fee** - A student will be fully refunded if all classes are dropped within the drop dates published in the Schedule of Classes. There are no exceptions to the published drop dates.
3. **College Services I.D. Fee and Parking Fees** - A student will be fully refunded if all classes are dropped within the drop dates published in the Schedule of Classes. If the student paid for but did not receive their Student I.D. Card or parking sticker, he/she must pick them up before applying for the refund. The Student I.D. Card and parking sticker must be surrendered at the time the student applies for the refund. There are no exceptions to this requirement.

Refunds are made pursuant to Title 5, Section 58501 or 58501.1, for program changes made during the first two weeks of instruction for a primary term-length course (18 weeks) or by the ten percent point of the length of a short-term course (15 weeks, 9 weeks, 6 weeks, etc.).

Example: 15 weeks class x 5 working days 75 x 10% 7.5. The result is rounded to allow 8 days to drop a class and be eligible for a refund.

ONE YEAR LIMIT ON REFUNDS - Classes must be dropped before filing for a refund. Students seeking refunds must meet the requirements listed above to be eligible. Students must have dropped the class(es) and met the appropriate deadlines before filing for a refund. If these conditions have been met, students have one year from the beginning of the semester in which fees were paid to apply for their refund. Beyond the one year limit, students will no longer be eligible.

Bad Check Regulations

A \$10.00 fee will be charged for all returned and stop payment checks. All fees are subject to change without notice in accordance with any action taken by the Board of Trustees. Under Assembly Bill 1226, any person who writes a check on or after January 1, 1984, which is dishonored for lack of funds is civilly liable, and under the law, is liable for three times the amount of the check, plus the face value of the check.

Failure to Pay College Financial Obligations

Failure to pay college financial obligations may result in the withholding of grades, transcripts, diplomas, or registration privileges.

- a. The failure by a student to pay a proper financial obligation due to the college or district may result in the withholding of grades, transcripts, diplomas, or registration privileges or any combination thereof.
- b. Prior to instituting any such hold, a written notice of a student's failure to pay a financial obligation due the college or district shall be given to the student.
- c. The decision to withhold any of the above may be appealed to the president/superintendent or his/her designee.
- d. The item or items being withheld shall be released when the student pays the financial obligation. (Education Code Section 72237)

Incidental

Students are expected to furnish all textbooks, supplies, and uniforms as needed for instruction. The materials may be purchased through the student store which is operated by the Associated Students. In laboratory courses, students are charged actual cost of items lost or broken. Fines are assessed in the library for lost or overdue books.

Matriculation

Matriculation is a process designed to help students in planning, choosing, and achieving educational goals. The process brings the college and a student into an agreement for the purpose of realizing the student's educational goal using the college's established programs, policies, and requirements. The agreement acknowledges responsibilities of both the college and the student to attain those objectives. The main purpose of matriculation is student success.

Listed below are the basic components of the matriculation partnership shared between the college and the student.

The college agrees to provide:

- An admissions application process.
- An orientation to the College's programs and services.
- An assessment of the student's study skills, English language proficiency, computational skills, aptitudes, goals, learning skills, career aspirations, academic performance, and need for special services.
- Counseling and advisement to develop an educational plan.
- Follow-up evaluation of each student's progress in achieving an educational goal.

The student agrees to:

- Express at least a broad educational intent upon admission.
- Declare an educational goal before or during the term after which the student completes 15 units.
- Attend class.
- Work diligently to complete course assignments.
- Demonstrate an effort to attain an educational goal.
- All new students are required to participate in the matriculation partnership activities. Students who have completed an associate degree or higher at an accredited post-secondary institution are exempt from the partnership. However, exempt students may choose to participate in any portion of the matriculation process.
- Alternate arrangements are available for students with physical, communication or learning disabilities, or who are on financial aid and are determined as EOPS eligible students. Contact the Counseling Center for details. Outlined below are guidelines designed to help you complete the matriculation process.
- Failure to comply with matriculation regulations, declaring an educational goal and developing an educational plan may result in the termination of matriculation services to the student.

For additional information, visit the matriculation website at <http://www3.cerritos.edu/student-services/counseling/cg-matric.html>.

ADMISSIONS

Complete and submit the Cerritos College admissions application to the Admissions and Records Office, located in the Administration Building or on the college web site. Transcripts from other institutions will be required to prove prerequisite eligibility which is strictly enforced at enrollment.

ORIENTATION

After completing assessment testing, sign up for an orientation workshop at the appointment desk in the Counseling Office or make an appointment by calling (562) 860-2451, extension 2231. There are both day and evening orientation workshops.

Day workshop includes: campus information, preparation for registration, and a campus tour.

The evening workshop is designed for adults returning to school. It includes campus information and preparation for registration.

Students are encouraged to receive assessment PRIOR to attending an orientation workshop.

Orientation and Educational Planning classes are available throughout the semester. Online orientation is available on the college website at www.cerritos.edu/counseling.

EXEMPTIONS: Re-admit and transfer students.

ASSESSMENT

The Career Services Center offers the following services to assist students in exploring and planning their academic and vocational futures:

- (1) Assessment Testing,
- (2) CalWORKs,
- (3) Career Planning,
- (4) Student Employment-Job Placement, and
- (5) Re-entry Program

The Career Services Center is located in the Administration Building.

"ASSESSMENT" means the process of gathering information about an individual student to facilitate his or her success. At Cerritos College, assessment includes, but is not limited to, the collection of information regarding student's study skills, English language proficiency, computational skills, high school and/or college transcript review, evidence of A.A. degree or higher from an accredited institution, learning skills, academic performance, and need for special services. In addition, career assessment is the opportunity to explore career aspirations, goals, skills, interests, aptitudes and values.

Do I Need to Take an Assessment Test?

If you plan to enroll in a math, English, ESL (English as a Second Language), or reading class or if you plan to earn an A.A. degree, it is strongly recommended that you take assessment/placement tests prior to enrollment.

Please note: The exceptions listed are assessment options for clearance or placement. To meet the required reading, math, and English proficiencies necessary to qualify for the Associate in Arts Degree, check your catalog or ask a counselor.

Assessment Testing Schedule

Copies are available at the Admissions and Records Office, Counseling Office, Career Services Center, and the college web site; or call (562) 860-2451, Ext. 2355 for dates and times.

Assessment Test Exemptions

Students who already possess an A.A. degree or higher are not required to take assessment/placement tests, but will be required to verify the degree by presenting official documents to the Admissions and Records Office at least one week prior to enrollment.

Individual Assessment Exceptions for Course Placement

English

If you have completed English 100 (formerly English 1) or an equivalent three or four unit college-level composition course with a "C" grade or higher at an accredited college, you are exempt from the English Assessment/Placement. Please submit official proof (grade reports or transcripts) to a counselor prior to enrollment.

Basic Math

If you have completed Algebra 1 or higher with a "B" grade or higher at a high school or an accredited college, you are exempt from the Basic Math Assessment. Please submit official proof (grade reports or transcripts) to a counselor prior to enrollment.

Advanced Math

Students who achieve MATH 60 (formerly MATH 30) clearance on the Basic Math Readiness Test may take one of the appropriate Advanced Math Tests to determine their math level.

Students may be placed in advanced math courses based on a "B" grade or higher in recently completed high school or college algebra courses. It is strongly recommended that these math courses have been completed within the past three years. Proof of high school or college grades is required.

Advanced Placement Courses

Students who participate in advanced placement courses at their high schools and score 3, 4, or 5 on the College Board Advanced Placement Examination will be granted units toward the A.A. degree.

Chemistry

Please read the prerequisites and recommendations section with each Chemistry class listing. Be sure that the prerequisites are satisfied before enrolling into a course.

Accommodations for English as a Second Language

Students planning to take ESL (English as a Second Language) courses need to take the CELSA and ESL writing placement exam.

May I Retake a Test?

Students are allowed to retake tests using the following schedule:

Basic Math Readiness	May be repeated one time AFTER one semester waiting period.
Intermediate Algebra Readiness.....	May be repeated one time AFTER one semester waiting period.
Advanced Math Readiness.	May be repeated one time AFTER one semester waiting period.
Calculus	May be repeated one time AFTER one semester waiting period.
Reading.. . . .	May be repeated once per semester.
English.....	ay be repeated one time AFTER one semester waiting period.
ESL Writing and CELSA.	May be repeated one time AFTER one semester waiting period.

Accommodation for Special Needs

Any student with a verified disability may arrange an appointment for alternative administration of English, reading, mathematics, and ESL placement tests by contacting Disabled Student Programs and Services, (562) 860-2451, Ext. 2333. Alternative administration may include extended time, large print, readers or writers.

COUNSELING

All new students are advised to see a counselor for course approval prior to enrollment. Students who are on academic or progress probation are required to complete a contract with a counselor prior to enrollment. Students who have not declared an educational goal and students who are enrolled in pre-collegiate basic skills courses are highly encouraged to meet with a counselor to develop an educational plan. Readmit and transfer students are also advised to see a counselor.

All students are encouraged to meet with a counselor every semester to ensure that their educational plan accurately reflects their educational goal.

Follow-up

Counseling and teaching faculty provide a number of follow-up services to matriculated students. These services are designed to provide information regarding the students' academic progress. Special services are provided to students on academic and/or progress probation, students in basic skills courses, and students who are undecided about their educational goal. Referrals are made to on and off campus services when appropriate.

What are Prerequisites, Corequisites and Recommendations?

It is the intent of Cerritos Community College to guide students into courses in which they will have the greatest chance for academic success. Therefore, the student will find courses which have prerequisites, corequisites and/or recommendations in their descriptions. This is the case when a specific body of knowledge or skill(s) must be learned or demonstrated before the student can be expected to successfully progress to the second-level course. For example, ENGL 52 (formerly ENGL 50.2) must be taken before ENGL 100. This is an example of courses that must be taken in sequence. Students are encouraged to consult the course descriptions found in the current college catalog for the identification of the prerequisites for a course.

Automated prerequisite checking will stop you from enrolling in a class that has a required prerequisite you have not yet met. To avoid denied enrollment, please complete the Cerritos College placement tests or submit transcripts* if prerequisite coursework was completed at another institution. *Transcripts and or grade cards accepted in the Admissions and Records Office. Complete the Requisite Clearance Request Form available from Counseling, Admissions and Records, or download from www.cerritos.edu/pre-requisite.

Following are the definitions for prerequisites, corequisites and/or recommendations for course preparation:

1. A prerequisite is any requirement which must be satisfied before a student may enroll into a course. In other words, "prerequisite" means a course that a student is required to complete in order to demonstrate current readiness for enrollment in a course or educational program. The prerequisites offered at Cerritos College are listed with course titles in the "Announcement of Courses" section of the catalog and in the current Schedule of Classes.
2. "Corequisite" means a course that a student is required to take at the same time with another course. For example, if a student enrolls in PHAR 40L, he/she must take PHAR 60 at the same time.

3. "Recommendation" for course preparation means a condition of enrollment that a student is strongly suggested to meet before or along with enrollment in a course or educational program but is not required to do so.
4. "Credit grade" is at least a grade of "C" (satisfactory). Credit will not be granted for substandard course work ("D" or "F").
5. "Satisfactory grade" means that, for the course in question, the student's academic record has been annotated with the symbol A, B, C, or "CR".

What is the Prerequisite Challenge Procedure for Students?

A prerequisite may be waived by the institution for students who have presented the appropriate reasons and who have the appropriate experience.

If you believe that you meet the requirements, then you may challenge a prerequisite. A Requisite Clearance Request Form can be obtained upon request from the Admissions and Records Office, Counseling Center or download from www.cerritos.edu/prerequisite.

It is the student's responsibility to provide information to support the clearance. The petition must be filed and resolved prior to the student's enrollment appointment time.

Criteria for challenging a course are:

1. You have the knowledge or the ability to succeed in the course without the prerequisite. **OR**
2. The course which provides the prerequisite is not available. **OR**
3. You believe that the prerequisite is discriminatory or is being applied in a discriminatory manner. **OR**
4. You believe that the prerequisite was established in violation of regulations and/or the established District-approved policy and procedures.

Students must bring transcripts from other colleges/universities or high schools with them to their counseling appointment to establish that prerequisites have been met. The counselor will review the college/university catalog published the year the course was taken.

Once you have completed the Requisite Clearance Request Form, your challenge will be reviewed by a Prerequisite Challenge Committee, which consists of a member of the appropriate department and the instructional dean. You will be informed in writing or by mail of the committee's determination within five (5) working days. If you are dissatisfied with the decision rendered by this body, you may appeal that decision to the by completing the Cerritos college Requisite challenge and Waiver Form.

Retention Awards Program

The Retention Awards Program recognizes students who have successfully completed a semester of course work at Cerritos College. Successful completion is based on: Receiving no "W" grades in any course, earning a "C" or better in each CREDIT course of at least 3 units, enrolled in at least one pre-collegiate basic skills course (as defined by Title 5), and enrolled in a minimum of nine semester units.

Students meeting the aforementioned criteria qualify for a congratulatory letter from the Vice President of Academic Affairs/Provost, the Vice President of Student Services/Assistant Superintendent, and the Retention Awards Program Coordinator

Enrollment Information

COUNSELING

Of major importance to every student enrolled at Cerritos College is the comprehensive counseling service that is provided to assist students in achieving their educational goals as fully, smoothly, and as efficiently as possible. The constant change of requirements and prerequisites for institutions and occupations make continuing contact with the Counseling staff a vital part of the student's successful academic experience.

The counseling service consists of four major functions:

- (1) assistance in planning academic programs;
- (2) assistance in exploring career possibilities;
- (3) consultation and referral regarding personal problems; and
- (4) provision of additional auxiliary services, such as personal development classes, articulation with transfer institutions, referrals to outside agencies, orientation classes, and placement interpretation.

These various services are offered by a professional staff of credentialed counselors trained to help students in the appropriate areas of their concerns. The counseling staff works closely with all divisions of the College and keeps abreast of the educational programs both here and at the four-year institutions.

Although the use of counseling services is on a voluntary basis, all entering freshmen, students on probation, students transferring in from other schools, F-1 VISA students, and students on financial aid are required to meet with a counselor for program planning and approval before enrollment. Generally, students should schedule conferences each semester. Counseling appointments may be made in person at the Counseling Center located in the Administration Building or by telephoning (562) 860-2451, Ext. 2231. Limited walk-in counseling is also available. General academic counseling is available online at www.cerritos.edu/counseling.

Due to the high volume of students seeking counseling before the start of each semester, appointments are not made during the four weeks prior to each semester. Only walk-in counseling is available during this time. Contact the Counseling Center for hours scheduled for walk-in counseling.

ENROLLMENT

Students are considered officially enrolled when all fees have been paid in full. Grades and/or credit will not be given to students who are not officially enrolled.

Enrollment dates, procedures and policies can be found in the Class Schedule. The Class Schedule is published for each term.

ADMISSION TO CLASS

Students must be officially enrolled before attending any class. Students must attend the first class meeting in order to avoid being dropped as a "no show." If students are unable to attend the first class meeting, every effort should be made to contact the instructor(s).

Students seeking admission into a "closed" class must attend the first day of class. Instructors may add students depending on seat availability and students' completion of prerequisites, if applicable. Students may use Falcon Phone or Falcon Web to complete official enrollment or submit availability card with add number to the Admissions and Records office.

It is the policy of Cerritos Community College District that, unless specifically exempted by statute, every course, course section or class, the average daily attendance of which is to be reported for state aid, wherever offered and maintained by the district, shall be fully open to enrollment and participation by any person who has been admitted to the college and who meets such prerequisites as may be established.

AUDITING COURSES

Auditing courses is permitted at Cerritos College. An auditor is a student who attends a course or courses for no credit or notation on an official transcript. Auditing may be available, pending instructor's signed permission, for any student who wishes to attend a course for information, review purposes or skill building. Students wishing to audit should be aware that audited courses will NOT appear on an official transcript.

1. Students may not audit a course unless he/she has exhausted all possibilities to take the course for credit.
2. Permission to audit a course is granted at the discretion of the instructor and with the instructor's signed permission.
3. With the instructor's signed permission a student may enroll for audit status anytime during the semester after the first day of the course. (The first day of the course refers to the actual first course meeting.)
4. An auditor may be allowed to elect credit in lieu of audit prior to end of the 5th week of school for a semester length course or prior to 30% of a course for a short-term course, with instructor written permission. No refund of audit fees will be available and all credit fees must be paid in full at the time of credit election.
5. A credit student may be allowed to elect audit status in lieu of credit prior to end of the 5th week of school for a semester length course or prior to 30% of a course for a short-term course, with instructor written permission. No refund of credit fees will be available after refund deadline and all audit fees must be paid in full at the time of audit election.
6. Credit students have priority over auditing students.
7. The fee to audit a class is \$15.00 per unit (in addition to the student fees). Students enrolled in 10 or more units can audit 3 units free (may be 3 one unit classes). The \$15.00 per unit audit fee will automatically be charged if the student drops below 10 units.

ADD/DROP PROCEDURES

ADD

If changes to enrolled class schedule become necessary place follow the steps below:

1. To ADD a class, complete an ADD/DROP card, which is available in the Admissions and Records office located in the Administration Building.
2. Submit the completed ADD/DROP card to an Admissions and Records Assistant for OFFICIAL entry. You will receive an updated receipt with validation.

If the class is closed, see the instructor on the first day the class meets.

DROP

Pursuant to Title 5, section 58004 and Cerritos College Board Policy 4104, it is the student's responsibility to participate fully in class(es), once enrollment is complete. However, should it become necessary to withdraw from a class, it is the student's responsibility to present to the Admissions and Records office, a student signed drop card.

It is the responsibility of the instructor to withdraw student(s) based on "no show" or lack of participation

It is recommended that students take the initiative to officially withdraw themselves.

Failure to officially withdraw from class(es) may result in an "F" grade for each class(es).

How to officially withdraw from class after registration ends:

1. Complete an ADD/DROP card (available in the Admissions and Records office).
2. Be sure to submit the ADD/DROP card to an Admissions and Records Assistant.
3. Report to the Payroll/Fees Station in the Administration Building for a printout.

or

4. Drop course via "My Cerritos" at www.cerritos.edu.

Deadlines for withdrawal from a class or classes shall be authorized through the last day of the 14th week of an 18-week term or 75% of a shorter than 18-week term, whichever is less. The academic records of a student who remains in a class beyond the date allowed for withdrawal must reflect an authorized symbol, other than a "W."

"W's" are considered honorable withdrawals and shall not be used in calculating grade point averages. However, excessive "W's" shall be used as factors for probation and dismissal procedures. Additionally, a student who has a withdrawal ("W") in the same course two or more times, loses the privilege of priority registration for that course. Students may submit a Petition for Course Repetition, which is subject to approval or denial, to the Academic Records and Standards Committee for exceptions to the Excessive "W" policy for course repetition.

DROPPING A CLASS(S) AFTER THE DROP DEADLINE

Students must have documented, circumstances beyond his/her control to initiate a drop after the listed deadline. Examples of circumstances beyond the control of the student include, but are not limited to, the following: accident, illness, change in work schedule, or other documented circumstances.

PETITION PROCESS

1. Student requests an Extenuating Circumstance Petition (ECP) in the Admissions and Records Office.
2. Student completes the form and attaches the documentation verifying circumstances beyond his/her control. The form is then submitted to the Admissions and Records Office for approval or denial.
3. The student will be notified, by mail, of the result of the Extenuating Circumstance Petition.

STUDY LOAD

In order to meet graduation requirements in four semesters, students must carry an average of 16 units of credit each semester. Students desiring to enroll in more than 18 units must have the approval of a counselor. Other unit limitations are:

Foreign Visa Students not less than 12 units.

Intercollegiate athletes not less than 12 units.

REPETITION OF COURSES

Course repetition allows such courses for which substandard work has been recorded, to be repeated only once. The previous grade and units will be disregarded in the computation of Cerritos College grade point average. When course repetition occurs, permanent academic work shall be annotated in such a manner that all work remains legible ensuring a true and complete academic history. The following policies apply to course repetition.

Students may use equivalent course work from an accredited college or university to replace a Cerritos College course in which substandard work was recorded.

Courses designated as repeatable are indicated following this section.

Exceptions to the Course Repetition Policy

Students may petition the Academic Records and Standards Committee for consideration of exceptions to the policy.

Examples of Exceptions:

1. Student received two, substandard grades or "W's," or any combination.
2. Student's previous grades are a result of documented circumstances beyond his/her control.
3. Curriculum changes have occurred.
4. Repetition is necessary for legally mandated training. *Such courses may be repeated any number of times, regardless of whether or not substandard work was previously recorded, and the grade received each time shall be included for purposes of calculating the student's grade point average. (*Title 5, Division 6, Ch. 6 Subchapter 9, §55763*)

Cerritos College has identified the courses listed below as repeatable under the above guidelines for the maximum number of units listed.

PLEASE NOTE

The computer system checks for course repetition at the time of enrollment. A program to check for course repetition is run before the semester begins and again at check points during the first part of the semester. A student attempting to repeat a course which is nonrepeatable under the above guidelines is automatically dropped from the course

PROGRAM PLANNING

Students are expected to take courses on a consecutive basis. Students are not to receive credit for courses which are considered lower in degree of advancement than those already taken. Courses are to be taken in accordance with the student's ultimate objective and major.

CHANGE OF ADDRESS

Changes in address must be reported immediately to the Office of Admissions and Records. Failure to do so may result in a delay of enrollment appointment or other important notifications. Address changes may be made online at www.cerritos.edu, "My Cerritos", "My Portfolio."

COLLEGE UNITS

Each college course is worth a certain number of "units". This number is determined by the type of class it is and the number of hours per week it meets. For example, a three (3) unit lecture class (English or Health) meets three hours per week during a regular eighteen week semester, but a one (1) unit laboratory course meets three hours per week.

UNIT CREDIT FOR MILITARY SERVICE

Veterans who have served on active duty a period of one year or longer and who have received other than a dishonorable discharge may be granted four (4) units credit. The units will be designated as "Military Credit" on the transcript. To apply for these units the veteran must present the D.D. Form 214 to the Admissions and Records Office. Credits are elective credits for the A.A. Degree only and do not apply to certificate programs.

MILITARY WITHDRAWAL

Pursuant to Education Code 66023, the Board of Trustees of Cerritos College makes provisions for non-punitive withdrawals of students from class who are members of an active or reserve United States military service unit and who are compelled to withdraw from courses. Any such military orders must be verified. After such time, a student will be administratively dropped from all classes by the Dean of Academic Affairs. There will be no notation made for withdrawals. Military withdrawal shall not be counted in progress probation and dismissal calculations.

CLASSIFICATION OF STUDENTS

<i>Freshman</i>	One who has earned fewer than 30 units.
<i>Sophomore</i>	One who has earned 30 or more units but fewer than 60 units, or has completed 60 units but does not hold a degree.
<i>Graduate-</i>	One who has been awarded the Associate in Arts Degree or higher degree.
<i>Full-time-</i>	One who is enrolled in 12 or more units.
<i>Part-time-</i>	One who is enrolled in less than 12 units.
<i>Special (Veysey)</i>	One currently enrolled in the 11th or 12th grade in high school (may include summer session prior to 12th grade) and who desires to enroll for college credit. Such a student must have a letter of approval from either the high school principal or high school counselor and parental consent.

PARKING REGULATIONS

Parking on campus is by permit only. Any motorized vehicle (except mopeds and motorcycles) requiring registration with the California Department of Motor Vehicles must have a current parking permit each semester. On vehicles, PERMITS ARE TO BE HUNG FROM REAR VIEW MIRROR OR PLACED ON DASHBOARD. THE PERMIT NUMBER MUST BE READABLE FROM THE OUTSIDE OF THE VEHICLE. NO OTHER LOCATION IS ACCEPTABLE. Vehicles not properly displaying or having no permit may be cited. Vehicles may be parked only in spaces or areas designed for vehicle parking. All vehicles must be parked with the front of the vehicle heading into the parking stall. Students may not park in areas designated for staff parking.

A one-semester parking permit may be purchased at Registration, or anytime during the semester at the Admissions Office or Campus Police Department, for \$20.00 for fall or spring semesters and \$10.00 for the summer session. A daily permit may be obtained for a \$1.00 from the yellow Park-Ur-Self meters located on the sidewalks in the student parking lots. The meters accept four quarters or a \$1.00 bill (meter does not dispense change). Students may not park in staff parking lots or stalls unless they are disabled and have a "DP" plate or placard AND a student parking permit displayed. During the "open registration" period listed in the class schedule, parking is free in student stalls in

lots C-1 and C-2. VEHICLES NOT DISPLAYING A VALID PERMIT OR INCORRECTLY PARKED IN STAFF, METERED, OR HANDICAPPED STALLS, ETC., WILL BE ISSUED A PARKING CITATION.

PARKING AREAS

Vehicles authorized to park on the Cerritos College campus shall be parked head in only in areas that have been painted with lines indicating parking stalls. Park only in the area designated by your permit except for handicapped students with DMV permit and Cerritos College permit.

DESIGNATED PARKING AREAS ARE COLOR CODED:

WHITE	Student parking, student parking permit required.
YELLOW	Faculty and staff, permit required
GREEN.....	Timed coin-operated meters.
BLUE	Handicapped-DMV permit and Cerritos College permit required.
WHITE GRID MARKED	Motorcycle parking only.
PINK.....	Cosmetology patron parking-located in Lot C-11. Pink cosmetology patron parking permit required.
DARK BLUE	Student Health Services

Bicycles must park in designated areas only. All designated student and staff parking areas will be enforced Monday through Friday, 7:30 a.m. to 10:00 p.m.

PARKING ON THE INTERIOR CAMPUS

Bicycles are to park in District provided racks. Violators will be cited. Only those vehicles with approval from college's Campus Police Office are permitted to drive and park on the interior and sidewalks of the campus. Violators will be cited and/or the vehicle taken and put into storage.

OFF-CAMPUS PARKING

Off-campus parking is extremely restricted. Parking in surrounding residential areas is by City-issued permit only. The City will cite student vehicles. The property owners also prohibit parking in the shopping centers adjacent to campus. The property managers, at the student's expense, impound student vehicles parking in these lots.

RESPONSIBILITIES FOR PENALTIES

The registered owner of any vehicle on campus may be held responsible for liability or damage claims including parking or other traffic violation penalties arising in connection with the possession and/or operation of the vehicles on the Cerritos College campus.

LOST, STOLEN, OR DAMAGED PERMITS

Replacements for lost, stolen, or damaged permits may be purchased at the Campus Police Department or Payroll Office in accordance with the fees indicated.

REFUNDS

Parking permit refunds will be given through the Payroll Office. Before classes begin, a 100 percent refund will be given. After classes begin, no refund will be given.

LIABILITY

Cerritos College is not responsible and assumes no liability for damage or theft of any vehicle or its contents

Scholars' Honors Program

The Scholars' Honors Program (SHP) at Cerritos College provides transfer-bound students with the opportunity to enrich themselves through participation in unique, challenging and interactive educational experiences. The SHP promotes this goal by providing an office that supports and assists students, by offering special Honors course sections taught by outstanding professors, and by offering opportunities for students to work one-on-one and in class with these faculty members through honors research contracts.

Honors courses build skills in speaking, writing, analytical thinking, problem solving and task-management. They fulfill basic general education requirements for graduation and transfer to a four-year college or university.

ADVANTAGES OF HONORS

Honors programs in the community college are the least expensive and one of the most efficient ways to get a good education and prepare for admission to the 4-year university or college of your choice.

Major universities that reject most of those who apply as freshmen will often accept most of the community college honors program students who apply for junior year transfer.

The Scholars' Honors Program at Cerritos is an effective way to develop your reading, writing, critical thinking and research skills and to learn to work directly with faculty members. This helps you to get good letters of recommendation that can be used for transferring to a four-year college or university, or applying for a job, internship or special program.

BENEFITS FOR SHP STUDENTS

- Working one-on-one with professors
- Small SHP course sizes
- Library privileges at UCLA and UCI
- Participation in regional and national honors conferences
- Guaranteed acceptance into several CSU honors programs offering priority registration
- Guaranteed admission or priority consideration for admission at:

UC Irvine	Chapman University
UCLA	La Sierra University
UC Riverside	Whitman College (WA)
UC Santa Cruz	
And others	

REQUIREMENTS OF THE PROGRAM

SHP students must maintain a cumulative GPA of at least 3.0 in all their transferable courses and complete a total of six honors courses from the two options below:

1. SHP Courses — Many typical general education courses have honors sections. These have smaller enrollments than other courses. They offer different teaching approaches, more opportunity for hands-on experience and direct communication with the professors
2. SHP Contracts — Each semester the schedule of classes lists courses which are available for SHP contracts. Students undertaking a contract work closely with the instructor to design and complete a special honors project connected with the regular course. On completion of the project, the student earns honors credit for the course.

CRITERIA FOR ADMISSION TO THE SHP

- All students must demonstrate (through placements tests or other means) readiness to start English 100 (freshman composition)
- Accepted students must achieve eligibility for Math 80 (second year algebra) within one year.
- High School students must have a cumulative GPA of 3.25 or above.
- Current college students must have a cumulative GPA of 3.0 on at least 12 transferable units.

Learning Communities Program

The Learning Communities Program (LCP) of Cerritos College is founded on the principle that acquiring knowledge demands social interaction. For this reason, the LCP seeks to nurture students within a community of learners and to engender a new culture of learning at Cerritos College. Specifically, the Learning Communities Program commits to three interdependent objectives. First, LCP validates that students' experiences and ideas are essential components to true learning. Second, this program illustrates that collaboration and sharing increases exponentially the process of true teaching. Third, the Learning Community Program of Cerritos College demonstrates that an interdisciplinary approach to teaching and learning best prepares individuals for the complexities of living successfully in the 21st century.

WHAT IS A LEARNING COMMUNITY?

Enrolling in a Learning Community at Cerritos College means that you can complete your education program by linking two or more courses. Those who teach these courses assure that they combine the content so that learning becomes more relevant and easier for you. For example, you can be part of a learning community that combines English and history or math and economics. Equally important, by becoming part of the Learning Communities Program, you will have a great support network provided by your teachers, a counselor, and opportunities for various workshops and field trips. By combining learning, counseling, and social events, we want to increase your confidence and friendships. Each semester, the Learning Communities Program includes many linked or paired courses, courses that increase your fundamental skills and add to completion of your general education requirements. By registering for a Learning Community, you will be on the "Fast Track to Success."

WHAT ARE THE BENEFITS OF JOINING A LEARNING COMMUNITY?

- Complete recommended basic skills courses
- Complete most of the transfer courses requirements
- Build a convenient class schedule
- Make friends in multiple classes with the same group of students
- Enjoy small group interaction
- Hear different points of view from more than one instructor
- Reinforce learning in one class while working on projects in the other
- Earn better grades

FREQUENTLY ASKED QUESTIONS

What is different about a Learning Community?

A Learning Community is a group of two or more classes where students and faculty address simultaneously the needs for greater intellectual interaction:

STUDENT ↔ STUDENT

STUDENT ↔ FACULTY

FACULTY ↔ FACULTY

Are the Learning Communities courses transferable?

Many are transferable to the CSU and UC. See the schedule of classes or college catalog to check on specific courses.

What are the requirements to enroll?

You must enroll in all courses. The prerequisites are the same for each course separately. Check the Schedule of Classes.

Are Learning Community courses more difficult?

No, you will be required to do no more work than you would in two separate classes. In fact, by connecting courses, it may actually be easier to understand the material.

How will Learning Community course be listed on my transcript?

No, you will be required to do no more work than you would in two

HOW DO I REGISTER?

Learning Community courses are identified in the Schedule of Classes by an instruction after the class listing. Follow the instruction and register for both courses. For help, check with your counselor or the Learning Communities Program Coordinator.

LEARNING COMMUNITIES PROGRAM WITHDRAWAL POLICY

Student enrolls in a group of two or more courses as part of a learning community, he or she **MUST MEET THE PREREQUISITE(S)**, if there are any, for **EACH** course in the combination. Students enrolled in one section of a course that is part of a learning community must be enrolled in all other courses in that group. If one course is dropped, the student **MUST** and **WILL BE DISENROLLED** from all other courses in that learning community. **THERE ARE NO EXCEPTIONS TO THIS POLICY.**

Scholarship Regulations

FINAL EXAMINATIONS

Instructors at Cerritos College have established their course requirements within the framework of the College's philosophy and requirements.

Final examinations are required in all courses. A schedule for final examinations is posted two (2) weeks in advance of each semester's examination period. Students are expected to take examinations when scheduled; but in the event of an emergency or severe illness, the instructor should be notified.

GRADING

Accomplishment in course work is indicated by the following symbols:

Symbol	Definition	Grade	Point
A	Excellent		4
B	Good		3
C	Satisfactory		2
D	Passing, less than satisfactory		1
F	Failing		0
CR	Credit (at least satisfactory, the equivalent of a "C"; units awarded not counted in GPA)		0
NC	No credit (less than satisfactory or failing - units not counted in GPA)		0
I	Incomplete		0
W	Withdrawal		0
*RD	Report Delayed		0

*RD - The RD symbol is used when there is a delay in reporting the grade of a student due to circumstances beyond the control of the student. It is a temporary notation to be replaced by a permanent symbol as soon as possible. RD shall not be used in calculating grade point averages.

GRADE CHANGES

The determination of the student's grade by the instructor shall be final in the absence of mistake, fraud, bad faith, or incompetence. The correction of a grade given shall only be allowed for a request initiated within one year following the end of the term in which it was assigned.

Exceptions to the one-year limit on grade changes may be requested by petition of the student in extenuating circumstances. A formal petition must be submitted to the Academic Standards Committee. Extenuating circumstances are verified cases of accident, illnesses, or other circumstances beyond the control of the student. (Title 5, Section 55760. Board of Trustees Policy 12/8/1992).

INCOMPLETE

Students are not to re-enroll for a course in which a grade of "I" has been recorded. Incomplete academic work for unforeseeable, emergency and justifiable reasons at the end of the term may result in an "I" symbol being entered in the student's record. The condition for removal of the "I" shall be stated by instructor in a written record. This record shall contain the conditions for removal of the "I" and the grade assigned in lieu of its removal. This record must be given to the student with a copy on file with the Admissions and Records Office until the "I" is made up or the time limit has passed. A final grade shall be assigned when the work stipulated has been completed and evaluated, or when the time limit for completing the work has passed. The "I" must be made up no later than one year following the end of

the term in which it was assigned. The "I" symbol shall not be used in calculating units attempted nor for grade points.

WITHDRAWAL

Once students are enrolled it is their responsibility to attend class and complete the course requirements. Instructors may withdraw a student who is no longer participating due to excessive unexcused absences in the class. {Title 5, Section 58004 (C) (3)}. **But, the ultimate responsibility to withdraw from a course in which they are no longer participating falls to the student.**

Withdrawal from a class or classes shall be authorized through the last day of the 14th week of the semester (or 75% of a term, whichever is less). The academic record of a student who remains in a class beyond the date allowed for withdrawal must reflect a symbol authorized in Title 5, Section 55757, other than a "W", "Ws" shall not be used in calculating grade point averages, but excessive "Ws" shall be used as factors for probation and dismissal procedures. A student who has a withdrawal ("W") in the same course two or more times, loses the privilege of enrolling into that course. Students may petition the Academic Records and Standards Committee for exceptions to the Withdrawal Policy. Failure to withdraw may result in an "F" grade for each of the classes not dropped.

TRANSCRIPTS OF RECORD

A transcript of all college work completed at Cerritos College may be obtained by submitting a written request in the Office of Admissions and Records. Students requiring an official transcript that bears the college seal must file a written request. Students may obtain an unofficial copy of their transcript for their own personal reference. The first two (2) transcripts (whether official or unofficial) are free. For subsequent copies, a fee of \$2 is charged for each regular transcript; a \$5 fee is charged for each rush transcript (copy needed sooner than three (3) days). The failure by a student to pay proper financial obligation due to the college or district may result in the withholding of grades, transcripts, diplomas, or registration privileges or any combination thereof. (Education Code, section 72237).

VERIFICATION OF STUDENT STATUS FEES

The following are the fees for verification of enrollment:

\$2.00 per verification of status.

\$7.00 additional rush fee per verification to be completed within 48 hours.

Exemptions for these fees are for verification of enrollment and grade point average for the California Student Aid Commission for financial aid purposes.

GOOD STANDING

Students are considered to be in good academic standing with a cumulative grade point average of 2.0 or higher for all course work attempted.

PROBATION

A. Academic Probation

Students who have attempted at least twelve (12) semester units as shown by the official academic record shall be placed on academic probation if the students have earned a grade point average below 2.0 in all units undertaken at Cerritos College.

B. Progress Probation

Students who have been placed on progress probation shall be subject to dismissal if the percentage of units in which the students have been enrolled and for which entries of "W," "I," or "NC" are recorded in at least two (2) consecutive semesters reaches or exceeds fifty percent. Students subject to progress dismissal shall be placed on continued probation when for their latest semester no "W," "I," or "NC" entries are recorded.

Probation is entered on the student's permanent records and transcripts of record. Students placed on academic or progress probation will be notified by mail at the address listed on the official college record.

PROBATION CLEARANCE

A. Academic Probation Clearance

Students may clear academic probation by earning sufficient grade points to raise the cumulative grade point average to 2.0 or higher in the next semester of attendance. Probation status is not cleared by one semester of 2.0 GPA if it does not raise the cumulative GPA to 2.0 or higher.

B. Progress Probation Clearance

Students may clear progress probation by decreasing the percentage of "W," "I," or "NC" entries to less than 50 percent of all units in which the students have enrolled.

STANDARDS FOR DISMISSAL

A. Academic Dismissal

Students are subject to academic dismissal when their GPA is less than 2.0 in 12 units or more for two consecutive semesters on academic probation. Students subject to academic dismissal shall be placed on continued probation when their latest semester's GPA is 2.0 or better.

B. Progress Dismissal

Students who have been placed on progress probation shall be subject to dismissal if the percentage of units in which the students have been enrolled and for which entries of "W," "I," or "NC" are recorded in at least two (2) consecutive semesters reaches or exceeds fifty percent. Students subject to progress dismissal shall be placed on continued probation when for their latest semester no "W," "I," or "NC" entries are recorded.

Students are notified they have been placed on probation shortly after the beginning of the subsequent semester. Dismissal notices are issued before the start of the Fall Semester. Dismissed students may attend Summer Session to improve academic deficiencies for readmission.

REINSTATEMENT AFTER DISMISSAL

A. Academic Reinstatement

Students may re-enter the semester following academic dismissal through successful petition to the Academic Records and Standards Committee. However, such students will remain on probation until the accumulated GPA is 2.0 or higher.

B. Progress Reinstatement

Students may re-enter the semester following progress dismissal through successful petition to the Academic Records and Standards Committee. However, such students will remain on probation until the percentage of "W," "I," or "NC" entries is less than 50 percent of all units in which the students have enrolled.

Petitions must be filed prior to the stated deadline for Fall registration.

DISMISSAL FROM CLASS OR COLLEGE

Excessive absences, unsatisfactory academic or progress achievement, undesirable citizenship, or falsification of information supplied to the Office of Admissions and Records shall serve as a basis for dismissal from a class or from the college.

ATTENDANCE

It is the responsibility of students to attend classes regularly and apply themselves to the college studies in which they are enrolled. When students have been absent due to illness, they should report to the instructor in charge to explain the absence. When the hours of absence exceed one more than twice the number of class hours per week, the students are considered to be excessively absent and are subject to exclusion from class.

For summer school, a student is considered excessively absent and subject to exclusion from class when the hours of absence exceed ten percent (10%) of the total class hours.

Listed below are two types of absences which permit the making up of work missed, provided that the work is of such a nature that it can be made up.

1. **AUTHORIZED ABSENCE:** For an approved educational field trip or school activity..
2. **EXCUSED ABSENCE:** For illness, injury, or quarantine.
3. **JURY DUTY:** Serving on jury duty is a civic and expected responsibility. Typically, courts tend to be lenient with students who are pursuing their education. If, however, an active student is required to serve on jury duty, an arrangement must be worked out in such a way that the student, upon presentation of proper documentation will not be penalized with a substandard grade in a course. Should an impasse develop between a faculty member and student, a decision can be appealed to the Dean of Academic Affairs before the final grade is assigned.

NO CREDIT WILL BE GIVEN FOR A CLASS IN WHICH A STUDENT IS NOT OFFICIALLY ENROLLED.

Students must attend the first class meeting or their names may be removed from the roll to allow another student seeking admission on an availability card to enter. If a student is unable to attend the first class meeting, the instructor must be notified.

BASIC SKILLS COURSE LIMITATIONS

No more than a total of thirty (30) units from the remedial courses listed below are allowed:

BCOM 46
ENGL 15, 20, 22, 32
MATH 20, 40, 42
READ 41T, 42, 43, 44, 46

"Remedial course work" refers to pre-collegiate basic skills courses (i.e. courses in reading, writing, computation, learning skills, study skills) which are designated as non-degree applicable courses, the purpose of which is to prepare students for successful completion of associate in arts degrees, transfer, or certificate courses.

As students near this thirty (30) unit limit, they will be notified by the Dean of Academic Affairs and referred to a counselor for educational planning.

Students enrolled in one or more courses of English as a Second Language (ESL) or students identified as having a learning disability are exempt from the thirty (30) unit limitation. A student who has completed thirty (30) units of remedial course work, shall be barred from registering in pre-collegiate basic skills classes and referred to other appropriate agencies to develop the skills necessary to enter college-level course work.

ACADEMIC RENEWAL REGULATIONS

An Academic Renewal procedure permits alleviation of previously recorded sub-standard ("D," "F," and "NC") academic performance which is not reflective of a student's present demonstrated ability and level of performance. The permanent academic record shall be annotated in such a manner that all work remains legible, ensuring a true and complete academic history.

1. A student may request that substandard course work attempted in up to two semesters be annotated and disregarded in the computation of the student's grade point average or requirements for a degree. Only those requested courses with substandard grades will be disregarded.
2. At least twenty-four (24) units of college work from an accredited institution with a grade point average of 2.0 must be completed. The twenty-four (24) units with the 2.0 ("C") grade point average must be completed after the semester(s) from which course work is to be alleviated.
3. A student may be granted academic renewal only once.
4. No alleviated course work shall apply toward degree requirements.
5. In the petition, the student must specify course(s) to be considered under the academic renewal policy as well as the term in which the course work was attempted.
6. Some senior-level institutions and, possibly, certain out-of-state community colleges do not honor academic renewal. It is the student's responsibility to insure that his/her transfer institution will approve of academic renewal from Cerritos College.

A student may petition for academic renewal at the Office of Admissions and Records.

GRADE REPORTS

Semester grade reports are available to students at the Admissions and Records Office approximately 3 weeks after the conclusion of the term.

CREDIT BY EXAMINATION

"Credit by Examination" may be granted for proficiency previously accomplished in other than an accredited institution, for experience, study, travel, or for formal service-connected courses essentially equivalent to a course for which credit is being requested. Credit attempted by this method shall be so marked on the student's permanent record on an A-F grading system.

Units and grade points earned shall be counted toward the Associate in Arts Degree.

Units earned by "Credit by Examination" are not considered as part of the student's official program and will not be used for reports to Social Security, Veterans Administration, or similar agencies. Non-resident students will not be required to pay a tuition fee.

Students shall petition for "Credit by Examination" through a counselor. Petitioner is to take signed petition to his/her counselor for approval. If counselor approves, the petition must be submitted to the appropriate Instructional Dean for approval. It is the student's responsibility to obtain such approval by the designated deadline. (Deadline dates may vary from department to department. Student should see counselor for deadline dates). Results are forwarded to the Instructional Dean and to the Office of Academic Affairs for approval, then to the Office of Admissions and Records for recording.

ELIGIBILITY GOVERNING "CREDIT BY EXAMINATION"

1. The student is currently enrolled at Cerritos College.
2. The student's overall GPA in all college units attempted at Cerritos College is 2.0 (This requirement is waived for new entering students.)
3. The course is approved for "Credit by Examination." (See Schedule of Classes for list of approved courses.)
4. Student has met prerequisite(s) for the course.
5. The student has not already received credit for a more advanced course which follows this course in sequence.
6. The student has not previously challenged this course.
7. The course is one for which high school or college credit has not been previously granted, unless there is a course articulation agreement between Cerritos College and an educational institution or agency.

A student may earn up to a maximum of 12 units through "Credit by Examination."

Those students planning to transfer to the University of Southern California should be advised that credit by exam grades are not accepted at USC.

CREDIT/NO-CREDIT COURSES

Title 5, California Administrative Code, permits the granting of credit toward a degree or certificate for courses completed on a credit/no-credit basis.

A. Non-Optional:

The courses are graded entirely on a Credit/No Credit basis. These courses are indicated in the Schedule of Classes. Units earned in such courses shall not be considered as part of the 15 unit limit in the Optional Credit/No Credit policy.

B. Optional:

The option to enroll with the Credit/No Credit grading option is designed to encourage students to explore courses in which they might have an interest. Only those courses specifically listed by each department may be taken on this basis. Units thus earned may be counted toward the A.A. Degree, but will be disregarded in determining grade point average.

Courses with the Credit/No Credit grade option will be indicated on the student's permanent record as "CR" with units earned and no grade points or "NC" with no units earned and no grade points. Units attempted for which "NC" is recorded shall be considered in probation and dismissal procedures. The student is required to take all tests, complete all assignments, and shall be subject to withdrawal and attendance regulations. Standards of evaluation are identical for all students. The student shall petition for a Credit/No Credit grading option through the Admissions and Records Office. The Credit/No Credit grading option is available only within the first 30% of the course. Students wishing to change Credit/No Credit to a letter grade may do so only within the first 30% of courses. See the Schedule of Classes for details and deadlines.

Only courses which are A.A. Degree applicable may be placed on the optional course list by the departments. Also, "CR" or "NC" grades cannot be converted to a letter grade once the approval form has been filed in the Admissions and Records Office.

ELIGIBILITY GOVERNING "CREDIT/NO-CREDIT COURSES"

1. The course must be on an approved list of credit/no-credit courses.
2. No more than fifteen (15) units of credit/no-credit courses may be completed at Cerritos College, nor may more than fifteen (15) units earned on a credit/no-credit basis be applied toward the Associate in Arts degree. Some courses are graded entirely on a credit/no-credit basis. These courses are indicated in the Schedule of Classes. Units earned in such courses shall not be considered as part of the 15 unit limit in the optional credit/no-credit policy.
3. The petition for Credit/No credit must be submitted within the first 30% of the course.

ACCEPTANCE OF TRANSFER COLLEGE CREDIT

A student who presents an official transcript of previous college or university work (other than non-degree applicable course work) in courses comparable to those of Cerritos College may receive credit towards the associate in arts degree from Cerritos College. Before credit can be granted, the course work must have been completed at a college or university that is a member of one of the six regional accrediting associations. Official transcripts must be on file with the Admissions and Records Office. Hand-delivered copies of transcripts are accepted provided they are received in a sealed envelope.

Transfer credit from institutions using the quarter system shall be evaluated as follows:

The number of quarter units shall be multiplied by two and divided by three to arrive at the approximate number of semester units. (i.e., 4 quarter units equal approximately 3 semester units.)

Cerritos College is authorized to enroll international students and welcomes applications from such persons. All records of any previous schooling (mark sheets, transcripts, diplomas, certificates, etc.) must be submitted as original documents. These records must show courses taken and grades earned, and must be translated into English if the original records are in another language. If a translation is supplied, it should be certified as accurate and correct by an appropriate public or school official, or sponsoring agency or government. The original record should also be included.

Prior to the application of credit towards the Associate in Arts degree (A.A.), the international transcript must be submitted to evaluation agencies acceptable to Cerritos College. The college may then choose to accept or not accept the agency's recommendations to award credit towards the Associate in Arts degree.

Since the four-year universities maintain their own individual evaluation staffs, credit from foreign institutions towards the baccalaureate degree is subject to the universities' review.

International students also refer to Admissions of International Students in this catalog and contact the International Student Center at (562) 860-2451, ext. 2133; FAX (562) 467-5086, or e-mail: dkurtz@cerritos.edu.

ADVANCED PLACEMENT EXAM CREDIT

Cerritos College will grant credit for College Board Advanced Placement Examinations. A score of 3, 4, or 5 is required in order to receive units toward the A.A. degree. The number of units earned through Advanced Placement Exams will be noted on the student's transcript. Credit granted can be used to satisfy Cerritos College general education requirements for the A.A. degree as follows:

AP Subject	Number of Units	Cerritos College A.A. G.E. Area
Art: History of Art	3 semester units	6 c. (1)
Art: Studio	3 semester units	Elective credit only
Biology	4 semester units	6 a. (2)
Chemistry	5 semester units	6 a. (1)
Computer Science A	3 semester units	6 d. (2)

Students planning to use AP credits toward transfer requirements should consult the transfer institution regarding its policy. Policies do differ at the various colleges and universities. Universities tend to grant credit for all College Board Advanced Placement Tests on which a student scores 3 or higher. The credit may be subject credit, graduation credit, or credit toward general education or breath requirements, as determined by evaluators at each campus. A Cerritos College counselor can help you with your inquiries.

COLLEGE LEVEL EXAMINATION PROGRAM (CLEP)

The College Entrance Examination Board (CEEB) offers General and Subject Examinations through the College Level Examination Program (CLEP). The General Examinations measure college-level achievement in five general areas and the material covered is comparable to general education courses at the college freshman and sophomore levels. You may satisfy a significant portion of your general education requirements towards the Associate in Arts degree through CLEP General Examinations. Cerritos College will grant a corresponding number of units of credit for each general examination on which a student scores 500 or higher.

The College Level Examination Program is designed to be a means through which recognition, academic credit, and placement may be given for less conventional forms of educational experience. Those who may have reached a college-level of education through home or correspondence study, on-the-job training, telecourses, military service or other means may take the CLEP examinations which are offered by the College Entrance Examination Board.

A residency of 12 units of satisfactory work must be completed at Cerritos College prior to granting of credit under this program. A maximum of 30 units of credit via CLEP may be credited toward the Associate in Arts degree.

Credit for CLEP exams is granted as follows:

General Examination	Units	A.A. GE Area
*English Composition	6	5 d. (1)
**Mathematics	6	5 d. (2)
Natural Sciences	6	5 a.
Social Sciences	6	5 b. (3)
Humanities	6	5 c.

**Also satisfies the Writing Proficiency Requirement for the A.A. degree only if the English Composition with Essay is taken.*

***Also satisfies the Mathematics Proficiency Requirement for the A.A. degree*

You may not use CLEP to improve a previous grade earned in a course. No credit may be earned by CLEP for any course in which the student has already received a grade.

CLEP credit posted to another institution's transcript is reevaluated based on Cerritos College's standards. Evaluations made and credit allowed by Cerritos College are subject to review and evaluations by any college or university to which the student may later transfer. CLEP credit granted at Cerritos College will not be used to certify general education requirements for transfer. The University of California will not accept CLEP for transfer credit.

Repeating a CLEP examination is governed by a six-month waiting period.

Credit for Subject Examinations may be granted by Cerritos College for scores of 50 or more. The units may be applied in an area of general education and/or the major at the discretion of the college. Requests for general education credit should be submitted to the Admissions and Records Office on a Petition to the Academic Records and Standards Committee. Requests for major credit should be discussed with a counselor.

ACADEMIC HONESTY/DISHONESTY POLICY

Your instructors are eager to help you succeed in your studies at Cerritos College. But success means more than just receiving a passing grade in a course. Success means that you have mastered the course content so that you may use that knowledge in the future, either to be successful on a job, or to continue on with your education in advanced classes.

Your success depends on a combination of the skill and knowledge of your instructors, and your own hard work. You will reach your future goals only if you gain new knowledge from every course you take. That knowledge becomes yours, and can be used by you, only if it is gained through your own personal efforts. Receiving a grade in a course, without acquiring the knowledge that goes with it, diminishes your chances for future success.

While in college, you are also shaping the principles which will guide you throughout the rest of your life. Ethical behavior and integrity are a vital part of those principles. A reputation for honesty says more about you, and is more highly prized, than simply your academic skills.

For that reason, academic honesty is taken very seriously by the Cerritos College faculty. The following guidelines have been prepared so that you will understand what is expected of you in maintaining academic honesty.

Academic Dishonesty is normally to be dealt with as an academic action by the instructor, reflected in the student's grade in the particular course, rather than through college disciplinary procedures.

No specific departmental, divisional or institutional procedures are established for academic dishonesty other than the normal process for review and appeal of an instructor's grading procedures.

Academic Dishonesty is defined as the act of obtaining or attempting to obtain credit for work by the use of any dishonest, deceptive or fraudulent means. Examples of academic dishonesty would include, but not be limited to the following:

- Copying, either in part or in whole, from another's test or examination;
- Discussion of answers or ideas relating to the answers, on examination or test when the instructor prohibits such discussion;
- Obtaining copies of an exam without the permission of the instructor;
- Using notes, "Cheat sheets," or otherwise utilizing information or devices not considered appropriate under the prescribed test conditions;
- Altering a grade or interfering with the grading procedures in any course;
- Allowing someone other than the officially enrolled student to represent the same;
- Plagiarism, which is defined as the act of taking the ideas, words or specific substantive material of another and offering them as one's own without giving credit to the source.
- The faculty member may take options to the extent that the faculty member considers the cheating or plagiarism to manifest the student's lack of scholarship or to reflect on the student's lack of academic performance in the course. One or more of the following actions are available to the faculty member who suspects a student has been cheating or plagiarizing:

The faculty member may take options to the extent that the faculty member considers the cheating or plagiarism to manifest the student's lack of scholarship or to reflect on the student's lack of academic performance in the course. One or more of the following actions are available to the faculty member who suspects a student has been cheating or plagiarizing:

1. Review-no action.
2. An oral reprimand with emphasis on counseling toward prevention of further occurrences.
3. A requirement that work be repeated.
4. A reduction of the grade earned on the specific work in question, including the possibility of no credit for the work.
5. A reduction of the course grade as a result of item 4 above, including the possibility of a failing grade for the course.
6. Referral to the Office of Judicial Affairs for further administrative action, such as suspension or expulsion.

Student Services

ASSOCIATED STUDENTS

The Associated Students of Cerritos College (ASCC) provides the governing body that finances, organizes, and directs many programs for the student population. It co-sponsors with the district such activities as touchtone registration, athletics, choir, band, forensics, drama, and student newspaper.

The ASCC student government includes legislative, executive, and judicial branches. Participation in these programs and other campus activities has been a significant part of many students' college experience.

STATEMENT OF STUDENT RIGHTS AND RESPONSIBILITIES

PREAMBLE

The community college exists for the transmission of knowledge, the pursuit of truth, the development of students and the general well being of society. Free inquiry and free expression are indispensable to the attainment of these goals. As members of the academic community students should be encouraged to develop the capacity for critical judgment and to engage in a sustained and independent search for truth and knowledge.

Freedom to teach and freedom to learn are inseparable facets of academic freedom. The freedom to learn depends upon appropriate opportunities and conditions in the classroom, on the campus and in the larger community.

Students should exercise their freedom with responsibility so as not to endanger the rights, goals and beliefs of other students. Cerritos College should be open to all qualified students regardless of race, creed, national origin, disability or sex.

CLASSROOM RIGHTS AND RESPONSIBILITIES

The professor in the classroom and in conference should permit free discussion, inquiry and expression of thought by the student. Student performance should be evaluated solely on an academic basis, not on opinions or willingness to accept professors' personal beliefs, or conduct unrelated to academic standards. Student should be free to take reasoned exception to the data or views offered in any course of study for which they are enrolled and for maintaining standards of academic performance established for each course in which they are enrolled. The student has the right to have the course taught in a systematic, meaningful manner and of knowing at the beginning of the course those academic standards required of the student in the course. Administrative staff and faculty members should respect confidential information about students such as student views, beliefs and political associations, which is acquired in the course of their work. Transcripts of academic records should contain only information about academic status.

ON THE CAMPUS RIGHTS AND RESPONSIBILITIES

Students should be free to examine and discuss all questions of interest to them, and express opinions publicly and privately. They should be free to organize and join associations to promote their common interests. The membership, policies and actions of a student organization will be determined by vote of only those persons who hold bona fide membership in that college organization. Campus advisors shall advise organizations in the exercise of their rights and responsibilities.

Student organizations shall be required to submit a statement of purpose, criteria for membership, rules of procedures, a current list of officers and the advisor shall certify the list of verified members. Campus organizations should be open to all students.

Student and student organizations should be free to support causes by orderly means which do not disrupt the regular and essential operation of the college. Student organizations shall have the right to recommend, invite and to hear any person of their own choosing as long as such speakers and topics are in accordance with federal, state and local laws, and guarantee the safety of students and protection of public property. Guest speakers invited by students or student organizations should be subjected only to those policies, requirements, and regulations as established by the Board of Trustees in order to insure an appropriate and meaningful contribution to the academic community. It should be made clear to the academic community and the larger community that the public expressions of students, student organizations and guest speakers speak only for themselves.

As constituents of the academic community, students should be free, individually and collectively, to express their views on issues of institutional policy, instruction, the evaluation of professors as it pertains to their course content and on matters of general interest to the student body.

IN THE LARGER COMMUNITY

College students are both citizens and members of the academic community. As citizens, students should enjoy the same freedom of speech, peaceful assembly and right of petition that other citizens enjoy. As citizens they should be subject to civil law as others and may incur penalties prescribed by civil authorities when violating these laws. Only where the college's interests as an academic community are distinct and clearly involved should the special authority of the college be asserted.

STUDENT PUBLICATIONS

Student publications and the student press perform the traditional roles of informing, entertaining and influencing. They are both instructional and informational, and as such should meet the highest academic and professional standards in serving the broad college community and should set forth as the primary goal of the student newspaper the coverage of news events, happenings and experiences on the college campus.

Associated Student Body, administrative and academic authorities, in consultation with students and advisors have the responsibility to define and clarify the role of student publications, and the standards to be used in their evaluation.

They must also assure that both academic freedom and editorial freedom are protected and exercised so that the integrity of the student publications program and the free press will not be compromised.

It is incumbent upon student editors and managers to act according to the highest ethics of responsible journalism. This corollary responsibility includes careful adherence to the laws of libel and good taste, and such considerations as the avoidance of indecency, undocumented allegations, attacks on personal integrity, and the techniques of harassment and innuendo and should allow adequate space for rebuttal and differing views in regard to articles in which there is some controversy.

Safeguards to assure freedom of the student press with responsibility should include freedom from censorship or arbitrary control of the press, and protection of editors and managers from arbitrary attack, suspension, or removal because of disapproval of editorial policy or content by any external influence.

STUDENT GRIEVANCE POLICY

In accordance with the Statement of Student Rights and Responsibilities, this policy describes the procedures by which a student(s) of Cerritos College may air his or her grievances as applied to and regarding academic, administrative, and instructional matters relating to students, and including, but not limited to, any grievance dealing with any certificated or management employee of Cerritos College.

A grievance shall herein be defined as any act depriving a student of any of the rights set forth in the statement of "Student Rights and Responsibility," or any State, Federal, or local codes. Grades and grading grievances are not covered by this policy. Student should refer to "Grades or Grading Grievance Policy."

GRIEVANCE PROCEDURE: STEP I - INFORMAL ACTION

- A. The student (or group of students), who believe that an injustice has been done to him (them), shall first attempt to resolve the complaint by informal discussion with the employee(s) involved.
- B. If the problem is not resolved in step I-A, an informal discussion should take place with the person at the lowest level of authority directly above the person(s) at which the complaint is directed, where authority exists to take corrective action.
- C. If the grievant still believes the issue has not been resolved satisfactorily, they may obtain a student grievance form from the Office of Judicial Affairs. After completion of this form, specifying the time, place, nature of the complaint and remedy or correction requested, it should be submitted to the Coordinator of Judicial Affairs who will send a copy of the written statement to the ASCC Supreme Court Chief Justice and the Vice President of Academic Affairs. This statement must be submitted within 30 school days after the grievant has become aware of the act or condition on which the complaint is based. A school day is defined as any day Monday through Friday that all normal college business is conducted, both in the classroom and in the administrative offices. All weekend and college holidays are excluded.
- D. The ASCC Supreme Court Chief Justice or Court designee shall attempt to resolve the problem through informal meeting and discussion among the pertinent parties while remaining neutral on all issues involved. This informal meeting and discussion will attempt to involve the levels of administration concerned with the problem and should be completed within ten (10) school days (a school day is defined as a day when classes are held). In the event the informal procedure fails, then the formal procedure would be implemented.

STEP II - FORMAL ACTION

A. PRELIMINARY

1. If the grievant does not believe the grievance has been resolved, then the grievant must request through the Chief Justice Step II-Formal Action. The Chief Justice upon receiving the request of the grievant shall call a meeting of the Student Grievance Hearing Committee. The Hearing Committee will be composed in the following manner:
 - (a) ASCC Chief Court Justice and two (2) Court Justices or designees. Vice President of Academic Affairs or administrative designee. Faculty Senate President or Senate designee. One (1) Faculty Senate member, chosen by the Faculty Senate.
2. The Chief Justice or designee shall serve as the Hearing Committee Chairman, but shall have no vote in committee

decisions. The five voting members of the Hearing Committee shall be selected within the first six weeks of the school year. Names selected by the Faculty Senate, ASCC Senate, and ASCC Cabinet are to be submitted to the Chief Justice. Members of the Committee will serve for a school year.

3. The Vice President of Academic Affairs or administrative designee shall serve as Hearing Committee Executive Secretary. The Executive Secretary, a voting member of the committee, shall be responsible for keeping necessary records of committee hearings and assist the ASCC Chief Court Justice in the conduct of the hearing.
4. Grievance Committee members are to deal with all grievances in a confidential manner, except when both parties agree to a public hearing.

B. FORMAL HEARING

The Hearing Committee shall conduct its proceedings according to the following procedures:

1. The Hearing Committee must meet within ten (10) school days after informal action has been completed and grievant has requested formal hearing.
2. The Chairman must notify both parties involved within five (5) school days before the hearing along with the written complaint, a copy of Statement of Student Rights and Responsibilities, and copy of the Grievance Policy.
3. Four (4) members shall constitute a quorum by which business may proceed. The quorum must include at least one student member, one faculty member, and one administrative member.
4. Both parties shall have the right to present personal statements, testimony, evidence, and witnesses. Each party shall have the right to be present, to be accompanied by the person of his choice, and to question witnesses who are present.
5. The Hearing Committee shall discuss the charge, hear the testimony, examine the witnesses, and receive all available evidence to the charge.
6. The hearing shall be closed to the public unless otherwise agreed upon in writing by both parties.
7. The Hearing Committee shall make decisions in private. The Hearing Committee shall write up findings and decisions. Copies of findings and decisions, including majority and minority reports, are to be sent to each party and the College President. The Hearing Committee's decision shall be final unless appealed.
8. A recording of the proceedings shall be kept in a confidential file in the Office of Judicial Affairs and shall be available at all times to parties directly involved. All documents, communications, and records dealing with the processing of a grievance will be filed separately from the personnel files of the participants. After a period of four years, the grievance file shall be destroyed.
9. Reprisals of any kind will not be taken by the Board of Trustees or any of its agents against any party of interest or any other participant in the grievance procedure by reason of such participation.
10. Evidence and testimony given in each case presented shall not be the sole cause of initiating or filing further grievances.
11. If the grieved party does not respond within the time limits defined herein, the grievance is considered terminated and no further action will be taken.

12. The number of working days indicated at each step herein should be considered a maximum and every effort must be made to expedite the process. Time limits may be extended by mutual consent in writing or by decision of the Hearing Committee.
13. The Hearing Committee should attempt to reach a decision by discussion and consensus on a workable solution. Voting should be a last course of action.
14. If in the course of the proceedings, a student graduates before a solution is found, the student shall not be denied full consideration under this policy. A student may also submit a grievance after graduation if the grievance did not become known until that time. However, it must be submitted within thirty (30) school days after the grievant should have reasonably become aware of the act or condition on which the complaint is based.

STEP III - APPEALS PROCESS

1. If either party is dissatisfied with the recommendation of the Hearing Committee, he may appeal within ten (10) school days to the College President/Superintendent provided the President is not a party to the grievance. If the President is a party to the grievance, and either party is dissatisfied with the recommendation of the Hearing Committee, an appeal may be submitted directly to the Board of Trustees.
2. Upon receiving the findings and recommendations of the Hearing Committee, and after examination of the appeal as requested by either party, the President may accept or reject the Committee's decision.
3. If the President rejects the Committee's decision, he shall submit his decision with the stated reasons for his objections to the Hearing Committee within ten (10) school days. The Hearing Committee shall within five (5) school days reconsider its decisions and re-submit them to the President for his final decision.
4. The President shall transmit his final decision to both parties and the Faculty Senate vice chairman or designee within five (5) school days.
5. An appeal of the President's decision may be submitted to the Board of Trustees by either party. If unresolved, the appeal must be submitted within ten (10) school days after the President's decision. The Board may review an appeal for two (2) consecutive Board meetings before making a final determination of the matter at the college level.
6. The President or Board of Trustees may change the Committee's decision only after reviewing a transcription of the hearing.

STUDENT GRADES OR GRADING GRIEVANCE POLICY

In accordance with the Statement of Student rights and Responsibilities, Section: "Classroom Rights and Responsibilities," this policy describes the procedure by which a student of Cerritos College may present his/her grievance on grades or grading practices.

The California Education Code, Section 76224, quoted below, states clearly the conditions upon which grades or grading can be questioned.

"When grades are given for any courses of instruction taught in a community college district, the grade given to each student shall be determined by the instructor of the course and the determination of the student's grade by the instructor, in the absence of mistake, fraud, bad faith, or incompetency, shall be final"

GRIEVANCE PROCEDURE STEP I

A student who believes the grade received was due to mistake, fraud, bad faith, or incompetency shall meet with the faculty member to resolve his/her concern.

STEP II

1. The student will obtain grade/grievance forms from the Office of Judicial Affairs.
2. The student must return the grade grievance form to the Office of Judicial Affairs within thirty (30) school days after the completion of the course for which the grievance was filed. A school day is defined as any day Monday through Friday that all normal college business is conducted, both in the classroom and in the administrative offices. All weekend and college holidays are excluded.
3. The Coordinator of Judicial Affairs will meet with the student and review the grade grievance form. If the student wishes to pursue the grievance, the Coordinator of Judicial Affairs will sign and date the form.
4. The student will present a copy of the grievance to the Division Instructional Dean. The Instructional Dean may schedule a meeting of all concerned if appropriate. The Instructional Dean should schedule a meeting only if the form has the signature of the Coordinator of Judicial Affairs and is dated. The Division Instructional Dean shall make a recommendation to the parties within five (5) school days.

STEP III

If either party is dissatisfied with the recommendation of the Instructional Dean, he/she may appeal the matter to the Vice President of Academic Affairs or designee within ten (10) school days of each recommendation. The Vice President of Academic Affairs or designee shall call a meeting with the student, the ASCC Chief Court Justice, Division Instructional Dean, and if needed, the faculty member. The Vice President of Academic Affairs or designee shall make a recommendation to the parties within five (5) school days.

STEP IV

If either party is dissatisfied with the recommendation of the Vice President of Academic Affairs, he/she may appeal the matter to the President of the College within ten (10) school days of such recommendation. If a faculty member is dissatisfied with a recommendation and neither acts on it, nor appeals it, the Vice President of Academic Affairs will forward the matter to the President. The President will review the Recommendation Report and if needed, request persons involved in the grievance to meet.

The President shall make a recommendation within five (5) school days. If either party is dissatisfied with the recommendation of the President, an appeal of the President's recommendation may be submitted to the Board of Trustees by either party. The appeal must be submitted within ten (10) school days after the President's recommendation. The Board may review an appeal for two consecutive Board meetings, and if needed, request persons involved in the grievance to appear before making a final determination of the matter at the college level.

STUDENT CONDUCT POLICY

INTRODUCTION

The California Education Code requires every community college governing board to adopt specific rules governing student behavior along with applicable penalties for violation of such rules.

Students enrolling in Cerritos College assume an obligation to abide by all college regulations.

DISCIPLINARY PROCEEDING

In all disciplinary actions the student should be informed of the nature of the charges against him/her, that he/she is given a fair opportunity to refute them, and that the institution not be arbitrary in its actions.

GROUND FOR DISCIPLINARY ACTION

A student may be disciplined for one or more of the following causes which must be District related. These categories of behavior are not intended to be an exhaustive list, but are examples of causes and are good and sufficient cause for disciplinary action.

1. The Use, Sale or Possession of Dangerous Drugs, as defined in the California Penal Code, on campus.
2. Forgery, alteration, or misuse of college documents, records, or identification.
3. Misrepresentation of oneself or of an organization to be an agent of the college.
4. Continued Disruption on or off college property of the college's educational process, administrative process or other college functions.
5. Abuse of Any Person on college owned or controlled property in the possession of, or owned by, a member of the college community.
6. Theft, of or willful damage to college property, or property in the possession of, or owned by, a member of the college community.
7. Violation of College Policies or campus regulations including campus regulations concerning the registration of student organizations, the use of college facilities, or the time, place, and manner of public expression.
8. Willful or Persistent Smoking in any area where smoking has been prohibited by lawful authority.
9. Disorderly Conduct or lewd, indecent, or obscene conduct or expression on college owned or controlled property or at college sponsored or supervised functions.
10. Possession or Use of Explosives, dangerous chemicals, or deadly weapons on college property or at a college function without prior authorization of the college president or designee.
11. Assault, Battery or any threat of force or violence upon a student or college personnel.
12. Abusive Behavior directed toward, or hazing of, a member of the college community.
13. Continual Willful Disobedience and/or persistent defiance of authority.
14. Sexual Assault Battery Acquaintance Rape. Physical abuse of a member of the college community.
15. Violation of college policies governing the use of student user accounts.
16. Any Other Cause not listed above which is identified as "Good Cause" by the Education Code.

DISCIPLINARY ACTIONS AND PROCEDURES

1. **Official Reprimand** – An admonishment or warning that becomes part of a student's file and is considered in the event of future violations.
 1. May be initiated by any faculty or college manager and sent in writing to the Office of Judicial Affairs.
 2. The Coordinator of Judicial Affairs shall determine if there exists good and sufficient reason to initiate disciplinary action and student should be notified of such actions.
2. **Disciplinary Probation** – Disciplinary action which may include exclusion of the individual from designated co-curricular activities of the college community.
 1. Shall be initiated by the Office of Judicial Affairs.
 2. The nature of the misconduct, dates, time and place, and length of probation shall be placed in writing. Written copies shall be sent to the student, and copies filed with the Office of Judicial Affairs.
3. **Instructor Removal** – Instructor may remove a student from his or her class when the student has interfered with the instructional process. Duration will be for the day of the removal and the next class meeting.
 1. The instructor or Instructional Dean shall immediately report the removal to the Office of Judicial Affairs for appropriate action such as official reprimand, suspension, or recommendation of expulsion.
4. **Suspension** – Is an action defined as exclusion from college for a specified period of time.
 1. Suspensions shall be initiated by the President or designee.
 2. The duration of the suspension from one or more classes shall be for a period of up to ten days of instruction, for the remainder of the school term, or from all classes and activities of the community college for one or more terms.
 3. There may be an immediate suspension when necessary to protect lives or property and to
5. **Expulsion** – Is defined as the removal of a student from any and all classes of the college.
 1. Only the Governing Board of the college may expel students for "Good Cause" or when other means of correction fail to bring about proper conduct of a student.
 2. The duration of the expulsion may be indefinitely.
 3. The expulsion is noted in the permanent file of the student.
 4. Readmittance after expulsion requires Governing Board action.

HEARING PROCEDURES

According to the Education Code, the suspension or expulsion of a student shall be accompanied by a hearing

1. **A Hearing Board** shall be responsible to the President for reviewing and making recommendation to the President.
2. **Membership of the Hearing Board** shall include the following:
 1. A Hearing Board - Two members of the instructional staff appointed by the Faculty Senate.
 2. Students - Two Court Justices appointed by the ASCC Chief Court Justice.
3. **Management** - The Coordinator of Judicial Affairs or a member of the management staff of the college appointed by the President. The manager shall serve as the Chairperson of the

Hearing Board, but will not vote except to break a tie.

4. Procedures For a Hearing—

1. Written notice of a hearing shall be mailed or delivered to the student. A hearing must be held within ten (10) days of the suspension if the suspension is an immediate suspension. A school day is defined as any day Monday through Friday that all normal college business is conducted, both in the classroom and in the administrative offices. All weekend and college holidays are excluded.
2. Notice shall include date and place of hearing, a statement of all charges, a copy of Governing Board policies pertaining to suspension and expulsion, opportunity of student to appear in person, or to employ and be accompanied by counsel, at their own expense, and the opportunity to present evidence, oral and documentary.
3. Hearings shall be conducted in the manner consistent with the orderly conduct of the affairs of the college, which seems to the Hearing Board most conducive to the determination of the truth.
4. All hearings shall be tape recorded. Transcriptions and a transcript shall be available at all times to parties directly involved, at their own expense.
5. Immediately following the hearing, the Hearing Board shall submit the recommendation to the President. The President and/or Governing Board will make the final decision.
6. The decision of the President to suspend shall be given to the student in writing within a five (5) school day period; the decision of the Governing Board to impose expulsion shall be given to the student in writing within two regular Board meetings

THE OFFICE OF JUDICIAL AFFAIRS

The Office of Judicial Affairs is responsible for student conduct and disciplinary procedures of the college. Inquiries should be directed to the Coordinator of Judicial Affairs, Mr. Patrick Callahan, in the Office of Student Activities or by calling (562) 860-2451, Ext. 2472

TITLE IX POLICY

No person shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any "...education program of activity which. . ." benefits from Federal financial assistance. (Title IX of the Education Amendments of 1972.)

It is the policy of the State of California to afford all persons, regardless of their sex, equal rights and opportunities in the educational institutions of the state. (Education Code sections 200-264.)

In compliance with Title IX, Cerritos College's educational programs and activities are offered to the total Community without regard to sex. Questions regarding Title IX policies affecting the educational program should be directed to the Dean of Academic Affairs, Dr. Adolph Johnson, Jr., in the Office of Academic Affairs or by calling (562) 860-2451, Ext. 2228.

EQUAL OPPORTUNITY POLICY

Cerritos College believes in a close relationship among students, faculty, staff, and community. The District is strongly committed to achieving staff diversity and the principles of equal opportunity employment. The District encourages a diverse pool of applicants and does not discriminate on the basis of race, color, national origin, ances-

try, sex, age, religion, marital status, disability, or sexual orientation in any of its policies, procedures or practices. In fact, the college encourages applications from all segments of qualified people. Questions concerning the application of the policy may be addressed to the Human Resources Office by calling (562) 860-2451, Ext 2284.

SECTION 504/AMERICANS WITH DISABILITIES ACT POLICY

Cerritos College supports the idea that no person shall, on the basis of a physical or mental disability, be unlawfully subjected to discrimination under any program or activity offered under the control of the college. Any student, applicant for admission, employee or applicant for employment who believes he or she has been subject to a discriminatory action on the basis of a physical or mental disability may file a complaint through the following procedures. An individual may also file a complaint directly with the Office of Civil Rights.

COMPLAINT PROCEDURE

The complaining party should first discuss the complaint regarding discrimination due to a disability with the individual(s) involved or with the Cerritos College Section 504/508 ADA Coordinator. The 504/508 ADA Coordinator will contact all parties concerned and attempt to reach some resolution of the problem. If the complaint cannot be formally resolved within ten working days, the complaining party may then proceed to file a formal complaint. The informal complaint procedure is optional.

STUDENT ORGANIZATIONS

Students are encouraged to participate in campus organizations. Cerritos College offers a variety of campus clubs and organizations for every phase of campus life. They provide opportunities for students in social, service, curricular, and special interest programs.

The club program consists of approximately 60 clubs on campus. Every year new clubs are chartered as they are requested by students.

Every club on campus is a part of the Inter Club Council which meets regularly to discuss activities, projects and problems pertaining to its members.

Students with a 2.0 G.P.A. and currently enrolled may join a club. Information concerning clubs may be obtained in the Office of Student Activities.

The Associated Students also co-sponsors with the District such activities as Athletics, Choir, Band, Forensics, Drama, and Talon Marks.

ATHLETICS

Cerritos College is a member of the South Coast Conference. Cerritos men's teams are represented in: Baseball, Basketball, Cross Country, Football, Golf, Soccer, Swimming, Tennis, Track & Field, Water Polo, and Wrestling.

Cerritos women's teams are represented in: Basketball, Cross Country, Soccer, Softball, Swimming, Tennis, Track & Field, and Volleyball.

DISABLED STUDENT PROGRAMS AND SERVICES POLICY

Cerritos Community College District affirms its programs and activities are available to all qualified persons without regard to disability. The College is also subject to Sections 504 and 508 of the Rehabilitation Act of 1973, and the Americans with Disabilities Act.

The primary objective of the Disabled Student Programs is accommodations for disabled students in campus programs and activities to the greatest extent feasible. The ability of each disabled student to function independently in the collegiate environment is the ultimate goal.

Inquiries regarding the Disabled Students Program or the District's non-discrimination policy relative to Sections 504 and 508 should be directed to the Director of Disabled Student Programs and Services.

DISABLED STUDENT PROGRAMS AND SERVICES

Individuals with limitations due to a disability may receive support services and instruction from one or more of six programs at Cerritos. Those with mobility, visual, hearing, speech, psychological and other health impairments as well as learning and developmental disabilities are served. All students are provided with an initial interview, counseling and referral as needed through Central Intake and Services (C.I.S.). Additional non-classroom related assistance for all qualified students includes: registration, campus orientation, placement tests, elevator pass, parking, matriculation and support with disability management issues. Special instruction and services which are classroom related are provided through the Centers described below. For further information or an initial appointment contact C.I.S. at (562) 860-2451, Ext. 2333, or visit our website at http://www3.cerritos.edu/student_services/dsps/index.html.

RESOURCE CENTER: The Resource Center assists students with mobility, vision, psychological or other health limitations. The services available include: In-class aides, note taking assistance, tutoring referral, test-taking, disability management, textbooks on tape, liaison with instructors and other campus offices, community agency resource information, referral for special instruction, wheelchair loan and storage, calculator and tape recorder loan, use of modified typewriters and specialized equipment, liaison with the Department of Rehabilitation and other agencies, information and referral to Counseling and Guidance and adaptive physical education classes.

INSTRUCTIONAL SUPPORT CENTER: The Instructional Support Center primarily serves students who are learning disabled, developmentally delayed and those with acquired brain injuries. Services available include: learning disability eligibility assessment, pre-registration, disability management, textbooks on tape, liaison with instructors and other campus offices, tape recorder and calculator loan, liaison with Regional Center and other agencies. An Independent Mediation Lab providing specialized instruction in approaches to accommodate the limitations of a cognitive disability is also available. The ISC also houses the Assistive Training and Information Center and Alternate Media Production Center for those students in need of alternative text or adapted access to computers. Brailled and large print texts and instruction in screen reader programs such as JAWS and voice activation software such as Dragon Dictate are present at this location. Adapted equipment and software is also located throughout the campus.

SPEECH, LANGUAGE, AND HEARING CENTER: The Speech, Language and Hearing Center offers assistance to those individuals with communication difficulties due to speech, language or hearing impairments. Individual and small group instruction is provided to students having difficulty with articulation, voice, language, aphasia, hearing impairments, and stuttering. Interpreters, notetakers, referral to appropriate services and specialized instruction in the basic skills are also available for the hearing impaired.

RANCHO LOS AMIGOS MEDICAL CENTER: Patients of Rancho Los Amigos Medical Center in Downey may attend college courses at the facility. In addition to assistance in the basic skills of reading, writing and computation, instruction in multi-clerical skills is available. The sessions are held four days per week throughout the year and may be entered at any time. The satellite campus at Rancho is

designed for students who are inpatients or outpatients of Rancho..

ACCIDENT INSURANCE

Accident insurance is provided by Cerritos College to registered students in the event of an accident or injury during college sponsored and supervised activities. It may assist in covering medical bills incurred by students and athletes. There are benefit limitations and some exclusions in the policy, so it is important to work with the Student Health Services Staff to insure optimum coverage. Students enrolled at Cerritos College, whose children are injured while using the officially designated childcare facility on campus, are covered by Accident Insurance. If you have any questions contact Student Health Services at (562) 860-2451, extension 2321.

HEALTH INSURANCE

Supplemental insurance is available on a voluntary basis for health and hospitalization coverage. Students must contact the Student Activities Office or Student Health Services for insurance information and application.

HEALTH SERVICES

Health services are available to all students currently enrolled at Cerritos College upon proof of enrollment. First aid and referrals are available to all faculty, staff and visitors at no cost. The Student Health Services is staffed by a group of professionals that include physicians, nurse practitioners, registered nurses, medical assistants, and clerical support. They are all dedicated to your health and wellness. The SHS is able to provide basic outpatient services for the diagnosis and treatment of acute and sub-acute illnesses and injuries. A brief overview of services includes urgent care, preventive care, women's and men's health care, as well as, psychological, chiropractic, and optometric services, and a variety of support services (pharmacy, laboratory, health education, etc.). Accident, International student, and supplemental insurances are also available through the SHS. We invite you to visit our website at www.cerritos.edu/health or call (562) 860-2451, extension 2321. We are located on the southeast corner of campus and would like to extend an invitation for you to stop in and visit us anytime.

PSYCHOLOGICAL SERVICES

Psychological services and crisis intervention are available to students experiencing emotional problems or concerns. These services are a benefit of your student health fee and are provided by specially trained mental health professionals. Please contact the Student Health Services at extension 2321 for assistance or visit our website at www.cerritos.edu/health.

FOSTER AND KINSHIP CARE EDUCATION PROGRAMS

Foster and Kinship Care Education programs provide foster parents and relative caregivers with educational workshops to enhance and develop parenting skills related to caring for the children in their care. Emancipating foster youth also have the opportunity to take classes to learn independent living skills.

There are four programs under the Foster and Kinship Care Education umbrella: 1) The Model Approach to Partnership in Parenting (MAPP) is a 36-hour training conducted for prospective foster parents, as is required by the Department of Child and Family Services (DCFS), 2) Foster & Kinship Care Renewal Courses, which give foster parents the opportunity to take topical courses, which are required in order to

keep the foster parent license, 3) Kinship Education, Preparation and Support (KEPS) is designed to help care providers who are raising a relative's child. This training is required of all Kinship providers who are working with the Department of Family and Social Services, but is open to all kinship providers in the community, and 4) Independent Living Skills Program (ILP), is offered to 16-18 year-olds to teach basic living skills. This gives the teenagers the chance to learn the knowledge and skills that they will need in order to live on their own once they leave the foster care system.

All of the classes are free to participants. Classes are mainly held on site in Research and Development, Room Nine. Foster Care renewal courses are also held at Faith Church in Norwalk. To obtain more information or to register for classes, please contact 562-860-2451 ext. 2548.

LIBRARY/LEARNING RESOURCE CENTER

The Cerritos College Library/Learning Resource Center (LRC), located near the center of the campus, provides a wide range of materials and services. Both students and district residents are invited to use the Center and apply for a library card. Disabled students have easy access throughout the building via ramps and elevators.

Patrons enjoy ready access to over 90,000 books, 2,000 pamphlets, 400 magazine and newspaper subscriptions, and 3,500 microfilm reels in an open stack arrangement. The automated catalog provides access to the Internet and online access to thousands of periodicals and journals. All library materials are carefully selected by classroom faculty and library faculty as integral resources to the Cerritos College instructional program. The Reserve Book Area, at the circulation desk, permits students to check out high-demand

materials for limited periods of time.

A wide range of informational brochures on such topics as using the online catalog, periodical indexes, and reference materials are available without charge. Copies of Library produced bibliographies and pamphlets are also provided to faculty.

The Library provides typewriters for patron use. Computers available for student use can be found on the lower level of the LRC in LC 102. Photocopiers are located in the Library for self-service copying.

Instructional Media Services, also located on the lower level, provides instructional support for the entire campus as well as satellite locations. Included in this area are graphic art and photography production studios, an audio-video production studio, a film booking and video tape center, facilities for maintenance and repair of audio-visual equipment, and an equipment booking and delivery center.

Instructional Media also maintains and supervises several video production and closed circuit video systems on the campus, including Speech, Cosmetology, Dental Assisting, and Health Occupations.

The Independent Study Center (LC-114), located on the lower level of the LRC, houses several thousand audio and videotapes, filmstrips, slides, and other media materials for student use. A computer assisted attendance system permits rapid check-in and checkout by students.

All areas of the Library/LRC are staffed with qualified personnel eager to help you. The library is open during the regular school year Monday through Thursday, 7:30 a.m. to 10 p.m., Friday, 7:30 a.m. to 3:00 p.m. The Library is also open 9 a.m. to 3 p.m. on Saturday.

ACADEMIC SUPPORT CENTER

The Academic Support Center (formerly the Learning Assistance Program) has been established to serve the needs of faculty and students across the campus. ASC has set out to provide academic support for all levels of students. This is being done by offering tutoring in virtually any subject; by working with instructors to enhance course offerings, including involving instructors with supplemental

instruction; by offering a variety of educational measurements to determine specific needs of students; by providing skills-specific workshops designed to help student succeed in their classes; and by providing a wide range of web-based assistance that can help students and instructors.

All services are free to Cerritos College students. The Academic Support Center is located on the lower level of the Learning Resource Center. Call (562) 860-2451, Ext. 2407 for additional information.

DIRECTORY INFORMATION

Cerritos College will not release personally identifiable data about students without their prior written consent except to persons and agencies authorized by law. The College may make an exception to this, in response to legitimate inquiries, by providing general directory information to include: Name, Date and Place of Birth, Major Field of Study, Class Level, Dates of Attendance, Degrees and Awards Received, Previous Educational Institutions Attended, Participation in Officially Recognized Activities and Sports, Weight and Height of Members of Athletic Teams.

CONSENT

Cerritos College may permit access to student records to any person for whom the student has executed written consent specifying the records to be released and identifying the party or parties to whom the records may be released. Such consent must be signed and dated by the student. The recipient must be notified that the transmission of the information to others is prohibited. Title 5 (California Administrative Regulations) Section 54616.

SEXUAL ASSAULT AND ACQUAINTANCE RAPE POLICY

Cerritos College is committed to providing a safe and secure environment for all members of the campus community. The Sexual Assault and Acquaintance Rape policy is in accordance with Assembly Bill 3098 and Section 201, Public Law 101-542 as amended by Public Law 102-26. Sexual assault and acquaintance rape are crimes and will be treated as such. Students and employees who become victims of sexual assault or acquaintance rape are encouraged to report the crime immediately to the Campus Police. The college is dedicated to providing prompt and compassionate services to all crime victims. In the event of a sexual assault on campus, the chief of Campus Police will notify the President/Superintendent.

SEXUAL HARASSMENT

It is the policy of the Cerritos Community College District to provide an educational, employment and business environment free of unwelcome sexual advances, requests or offers for sexual favors, and other verbal or physical conduct or communications constituting sexual harassment, as defined and otherwise prohibited by federal and state statutes.

The President/Superintendent shall provide regulations and procedures for implementation of this policy and such regulations and procedures shall be included as a part of the District's Affirmative Action/Staff Diversity Program.

It shall be a violation of this policy for anyone who is authorized to recommend or take personnel or academic actions affecting an employee or student, or who is otherwise authorized to transact business or perform other acts or services on behalf of the Cerritos Community College District, to engage in sexual harassment as defined below.

Sexual harassment occurs when unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct of a sexual nature takes place and:

1. Is made explicitly or implicitly a term or condition of an individual's educational status or employment; or
2. Is used as a basis for educational or employment decisions affecting such individual; or
3. Has the purpose or effect of unreasonably interfering with an individual's work performance or creating an intimidating, hostile, or offensive educational or working environment; or
4. Is used as the basis for any decision affecting the individual regarding benefits and services, honors, programs, or activities available at or through the District.

For the purpose of further clarification, sexual harassment includes but is not limited to:

1. Making written, verbal, physical and/or visual contact with sexual overtones:
 - a. written examples include but are not limited to suggestive or obscene letters, notes, or invitations.
 - b. verbal examples include but are not limited to derogatory comments, slurs, jokes, epithets and/or promulgating sexual rumors.
 - c. physical examples include but are not limited to assault, touching, impeding or blocking movement.
 - d. visual examples include but are not limited to leering, gestures, or display of sexually suggestive objects, pictures, cartoons or posters.
2. Continuing to express sexual interest after being informed that the interest is unwelcome. (Reciprocal attraction is not considered sexual harassment.)
3. Making reprisals, threats of reprisals, or implied threats of reprisals following a negative response. For example:
 - a. within the work environment - either implying or actually withholding support for an appointment, promotion, or change of assignment, suggesting a poor performance report will be prepared, or suggesting probation will be failed.
 - b. within the educational environment - either implying or actually withholding grades earned or deserved, suggesting a poor performance evaluation will be prepared, or suggesting a scholarship recommendation or college application will be denied.
4. Within the work environment, engaging in implicit or explicit coercive sexual behavior which is used to control, influence, or affect the career, salary, and/or work environment of another employee. Within the educational environment, engaging in implicit or explicit coercive sexual behavior which is used to control, influence, or affect the educational opportunities, grades, and/or learning environment of a student.
5. Offering favors or educational or employment benefits, such as grades or promotions, favorable performance evaluations, favorable assignments, favorable duties or shifts, recommendations, reclassifications, etc. in exchange for sexual favors.

It shall also be a violation of this policy for any employee to sexually harass another employee.

Formal complaints under this policy shall be processed through the District's Investigation and Resolution of Complaints of Unlawful Discrimination procedure through the Manager of Employment Services/Faculty and Staff Diversity Officer and the President/Superintendent.

Honors and Awards

The Associated Students offers a number of honors and awards to students for outstanding leadership, service, and academic achievements..

ALPHA GAMMA SIGMA

Alpha Gamma Sigma is a statewide honor scholarship society. The fundamental purpose of the organization is to promote and maintain scholastic and social leadership. The following types of membership are available:

INITIAL MEMBERSHIP A person may attain initial membership if he/she has completed 12 semester (or quarter equivalent) units in a maximum of 3 semesters or 5 quarters at any recognized institution of higher education and has a cumulative grade point average of 3.0. No units acquired more than two years prior to application for initial membership shall be used prohibitively.

TEMPORARY MEMBERSHIP All life members of the California Scholarship Federation and those who graduated with a minimum G.P.A. of 3.5 at the high school level shall be invited to become temporary members during their first semester in a community college and shall have, upon payment of dues, all the privileges of membership except that of holding a state elective office.

CONTINUING MEMBERSHIP An initial member may attain continuing membership by:

- Achieving for the previous semester or quarter not less than a 3.0 G.P.A. in courses of recognized college standing, OR
- Maintaining a cumulative G.P.A. of 3.0 or better in courses of recognized college standing.
- Continuing members will receive one semester or quarter's grace for every semester or quarter of earned continuing membership if the member's G.P.A. falls below 3.0. There shall be no two consecutive grace periods.

PERMANENT MEMBER A permanent member is any person who has completed a minimum of 60 semester units or quarter equivalent units of college courses, with a minimum 30 units completed at a community college. A member must apply for permanent membership and meet either of the following requirements:

- A person who has maintained a cumulative G.P.A. of 3.5 or better in all recognized college work and has been a member of AGS, Inc., for at least one term.
- Any continuing member who has maintained a cumulative G.P.A. of 3.25 or better in all recognized college work and has been a member of AGS, Inc., for at least two terms.

Any courses completed two years or more prior to application for permanent membership, whether at a community college or other institution, shall not be used to prohibit any person from becoming a permanent member, provided that these units not be used to meet the minimum requirement of 60 semester units.

DEAN'S LIST

Full-time students with 12 units earned or more of college-level courses in a single semester and who achieve a 3.5 grade point average or higher within those units earned will qualify for the Dean's List.

HONOR GRADUATES

The honor graduates are identified by the silver tassel they wear on their cap. Graduates who achieved a 3.3 to 3.69 grade point average will graduate "With Honors." Those receiving a 3.70 to 4.0 will graduate "With Highest Honors."

Only units earned at Cerritos College may be used in computing the grade point average for honor graduates. To be considered for honor status a minimum of 24 units must be earned at Cerritos College. If you

are a Spring or Summer graduate, your honors for Commencement are based on your GPA up to and including the previous Fall semester.

SERVICE AND LEADERSHIP AWARDS

The Gold and Silver Falcons are the highest and most prestigious awards that are given to students for service, leadership and scholarship each semester.

Bronze Falcons are awarded to students who excel in leadership and participation in programs sponsored by the Associated Students of Cerritos College.

Service Certificates are awarded in recognition of service and participation in programs sponsored by the Associated Students of Cerritos College.

CLUB/ORGANIZATION AWARDS

Club and organizations are recognized and honored for their service and participation in various programs. The Associated Students also recognizes and rewards various activity groups on campus, such as Intercollegiate Athletics, Band, Forensics, Talon Marks, Theatre, Choir, Pep Squad, and Honor Society.

ATHLETIC AWARDS

The Associated Students of Cerritos College has an excellent athletic awards system for all intercollegiate athletics. This recognition is in the form of banquets, letters, certificates, key chains, plaques, and lifetime passes.

ACADEMIC EXCELLENCE AWARDS

The Cerritos College Foundation annually sponsors an awards program for those students selected for outstanding academic achievement from the various subject matter areas on campus.

Academic honors are awarded to students who do outstanding work in their major field of study. Students must show promise, possess a current Associated Student Body card, have above average grades, and be recommended by the instructors in their major field.

RETENTION AWARDS PROGRAM

For details see page 15.

Student Financial Aid

Cerritos College administers comprehensive student financial aid programs to assist students in meeting college costs. The amount of financial aid awarded varies from student to student, depending on the individual's need and resources.

Financial aid awards are based on calculated financial need as determined by the Free Application for Federal Student Aid (FAFSA).

The Financial Aid Office is part of the Student Affairs department and is located in the Administration building. Office hours are Monday and Tuesday, 10 a.m. – 2 p.m., Wednesday and Thursday, 10 a.m. – 6:30 p.m., and Friday, from 9:00 a.m. – 12 noon.

Financial aid applications are available year round. The Cerritos College Student Financial Aid Title IV Institutional Code is 001161. Students applying for Federal financial aid must have a high school diploma, GED, or pass the "Ability to Benefit" test.

When applying for financial aid, students may be required to submit official academic transcripts from ALL colleges/universities attended. These transcripts will be forwarded to the Office of Admissions and Records. Without this information, a delay may occur in the completion of a student's file, or be cause to close a student's file.

The Financial Aid Office will pay for units enrolled up to 70 degree-applicable units. Once a student reaches the 70 unit level, a student is no longer eligible for financial aid. However, a student may appeal and submit a "lock-in-list" to the Financial Aid Advisory Committee (FAAC). If the "lock-in-list" is approved, Financial Aid will only pay for courses once. Again, it is important to have ALL academic transcripts sent to the college and evaluated as soon as possible because it may affect a student's financial aid eligibility.

It is suggested that students take the Assessment Test, complete the financial aid supplemental forms, and schedule an appointment with an academic counselor to prepare a pre-plan each semester. Students must also enroll in courses recommended by their counselor, which lead to a certificate, associate degree, or transfer major. A 2.0 cumulative grade point average must be maintained for all college work to be eligible for financial aid. Students must also complete 75% of all courses enrolled. All students on financial aid are given a satisfactory academic standards booklet. It is the students' responsibility to read and understand information in the Financial Aid Satisfactory Academic Progress (SAP) Standard booklet.

Since the application process is a lengthy one, students should plan ahead to have sufficient funds to cover fees, books, and supplies.

Pell Grant checks are mailed three times a semester to students. Disbursements will take place (approximately) on the first, fourth, and fifteenth week of the fall and spring terms.

For additional information on financial aid, students are encouraged to visit the financial aid website at www.cerritos.edu/finaid or contact the Financial Aid Office at (562) 860-2451, extension 2397.

FEDERAL PROGRAMS

Federal Pell Grants are awarded to eligible undergraduate students. The amount of money awarded is based upon a student's Expected Family Contribution (EFC), the number of units enrolled, and the cost of attendance.

Approximately four weeks after a student has mailed his/her application, a Student Aid Report (SAR) should arrive at your home. Students must contact the Financial Aid Office to initiate their file.

Federal Supplemental Educational Opportunity Grant (FSEOG) is a campus-based program with limited funding. This program is awarded by the school on a "first-come, first-served" basis. Student must have a zero EFC and be enrolled in six units in order to be considered for this grant.

Federal Work Study (FWS) is a campus-based program with limited funding which provides employment to help pay for part of a student's educational costs. This program is based on financial need and, if awarded, is part of a student's award package. Students on FWS may work up to 15 hours per week on or off campus. Students are assigned to a work site by the FWS coordinator.

Federal Subsidized and Unsubsidized Stafford Loans must be repaid. Although these loans are made through lending institutions such as a bank, a student must apply for financial aid first. Once a student receives a financial aid award letter, the student may apply for a student loan. The amount of loans range from \$2,625 to \$3,500 per academic year.

To be eligible for the \$3,500, a student must have at least 30 units completed and these units MUST appear on the student's official academic transcript at Cerritos College. Loan amounts will be determined at the time the Financial Aid Office certifies a loan application.

Both entrance/exit counseling are requirements of the Federal Family Educational Loan Program (FFELP). Students must maintain at least half-time enrollment status to receive a loan. Once a student receives loan funds, the student must maintain reasonable progress toward a certificate or degree.

Any student who is interested in the second loan, the Stafford Additional Unsubsidized loan (\$4,000), must be an independent student and appeal to the Financial Aid Advisory Committee (FAAC). Appeal forms are available at the Financial Aid Office or on the financial aid website. In reviewing a request for any loan, the FAAC may use "professional judgment" to deny a student a loan on a case-by-case basis. If denied a loan, a student will receive a letter from the Financial Aid Office indicating the reason(s) for the loan denial.

Bureau of Indian Affairs (BIA) is a grant provided to eligible American Indian students. To be eligible a student must be at least one-fourth American Indian, Eskimo, or Aleut as certified by tribal agencies served by the Bureau of Indian Affairs. A student must be enrolled or plan to enroll as an undergraduate student on a full-time basis, or meet the enrollment requirements established by your tribe.

BIA grants are not awarded automatically. It is important that a student apply early to meet the deadlines set by the BIA. Students cannot apply through the Financial Aid Office. All BIA applicants must also complete the FAFSA. Students must request the BIA Grant Application from their tribe.

RETURN OF TITLE IV FUNDS

Federal aid recipients who withdraw or are dropped from ALL classes by the instructor are subject to new regulations regarding the Return of Title IV funds. Students who withdraw or are dropped from all classes prior to completing more than 60% of the enrollment period are subject to these rules. Based on the date of the complete withdrawal or drop, the Financial Aid Office will determine the amount, if any, of "unearned" federal financial aid received by the student. The calculation will begin by determining the percentage of the enrollment period completed by the students as follows:

- Number of days completed
- Total number of days in the semester

The result will equal the percentage of the enrollment period completed. The amount of federal financial aid that was paid or could have been paid to the student will be based on this percentage. If the student received more financial aid than the amount earned, the student will be billed for the overpayment. Financial aid recipients should be cautioned to (1) avoid total withdrawal from all classes, (2) successfully complete at least one class during the semester, and (3) repay any "unearned" financial aid as soon as possible to regain eligibility for financial aid.

In cases where a student receives all "F" grades, the student will be billed up to 50% of their aid until the student can provide documentation that the "F" grade was earned.

Any aid recipient who needs to withdraw from all classes should contact the Admissions and Records Office and the Financial Aid Office. Recipients are encouraged to discuss alternatives to withdrawing from class(es) with their instructor(s) or a counselor before making a final decision.

Title IV funds are awarded to a student under the assumption that the student will attend school for the entire period for which the assistance is awarded.

GRANT OVERAWARDS

There are occasions when students receive financial aid payments based upon misreported information. This results in a grant overaward. Examples of misreported information include inaccurate or omitted income, prior loan defaults or grant overpayments, having a B.A. degree, not having a high school diploma or GED, forged signatures, and unsatisfactory academic progress, just to name a few.

Students who receive grant funds due to misinformation as noted above are required to repay THE ENTIRE SUM RECEIVED.

STATE PROGRAMS

The Cal Grant Program is a state funded educational opportunity program to assist students in paying for a college education. There are entitlement awards as well as competitive awards. Application deadlines are in early March and September for community college students.

All basic Cal Grant eligibility requirements are as follows: a) be a California resident, b) be a U.S. citizen or eligible non-citizen, c) meet U.S. Selective Service requirements, d) attend a qualifying California postsecondary institution, e) be enrolled at least half-time, f) maintain satisfactory academic progress as defined at the school of attendance, g) have family income and assets below the established ceilings, h) not be in default on any student loan, and i) not owe any federal or state grant refund.

Cal Grant A Entitlement Awards are for students who plan to attend a four-year college or university and are based on academic achievement as well as financial aid need. You may apply for a Cal Grant A while you are attending Cerritos College. If you are awarded one, you may place it on reserve until you transfer to a four-year college. This grant is renewable for up to three years, provided you remain eligible. Cal Grant A pays all or a portion of tuition and fees at your designated four-year institution. Cal Grant A provides no funds for books, living costs, transportation expenses and provides no funds for fees at the community college.

Cal Grant B Entitlement Awards requirements include financial and basic eligibility, a minimum 2.0 GPA, and graduation from high school in 2000-01 or later. This Entitlement Award provides up to \$1,551 for books and living expenses for the first year. Beginning with the second year of Cal Grant B benefits, this award also helps pay for tuition and fees at public or private four-year colleges or other qualifying institutions.

Cal Grant C Awards are available to assist students with tuition, fee, and training costs for occupational or vocational programs. The \$576 Cal Grant C award provides for books, tools, and equipment. To qualify for Cal Grant C awards, students must meet basic eligibility requirements and be enrolled in a vocational program that is at least four months in length. For more information, visit the California Student Aid commission website at www.casc.ca.gov.

California Community College Transfer Entitlement Awards: Students who meet financial and basic eligibility requirements, have a minimum 2.4 GPA from a California Community College, and graduated from high school in 2000-01 or later are eligible for this award when transferring from a community college to a four-year institution. This

Entitlement award is offered to California Community College students who were not awarded a Cal Grant within a year of graduating from high school, but meet certain requirements at the time of transfer from a California Community College to a qualifying institution offering baccalaureate degree programs.

Extended Opportunity Program and Services (EOPS) is a State funded program to provide educationally and economically disadvantaged students assistance, which includes grants, EOP nomination waivers, admission waivers to UC and CSU, and transfer assistance. Moreover, the EOPS Program provides a number of retention programs such as Supplemental Instruction (SI), and learning communities in the Achievement in Mathematics (AIM) program, and Summer Bridge program. All three programs involve social and academic integration activities for students outside of the classroom. Courses in these programs are taught by a faculty member and faculty counselor.

Admission into the EOPS Program requires that a student meet either BOGG A or B standards, complete a FAFSA application, enroll in 12 units, and meet with an EOPS counselor three times during each semester, and have earned less than 70 degree applicable units from ALL colleges/universities attended.

EOPS/CARE Grant is available to students who are current recipients of TANF, CalWORKs, single, head of household, have at least one child under the age of 14, enrolled in 12 units or more, and have been admitted into the EOPS Program. Students wishing to enter the program must attend a Mini-Conference/Orientation and workshops and may be eligible for a grant and/or service.

Board of Governors Grant (BOGG) is a program that provides assistance to cover community college enrollment fees. To be eligible, a student must be a California resident and must qualify under one of the following conditions:

1. Student or parent must currently be receiving Aid to Families with Dependent Children (AFDC), Supplemental Security Income (SSI) or General Relief. Documentation is required; or
2. Student must meet income standards based on family size. Documentation is required; or
3. Student must have already applied for FAFSA and demonstrated financial need.

SCHOLARSHIPS

Scholarships are like grants; they do not have to be repaid. The Financial Aid Office is the steward of a number of scholarships that may or may not require financial need. Applications are available in the Financial Aid Office. For information on scholarships, visit www.cerritos.edu/scholarship.htm.

OFFICE OF VETERANS AFFAIRS

The Office of Veteran Affairs offers information regarding applications and certification for benefits for those eligible for Montgomery G.I. Bill, Selected Reserve, VEAP, Vocational Rehabilitation, or Survivors and Dependents of deceased or disabled veterans.

Staff is available to provide help with processing applications and to do check inquiries to the Veteran Administration. Veterans must maintain district academic progress as outlined in the college catalog. In order to receive benefits, veterans must declare a major and will only be paid for classes required for that major as designated by the veteran academic counselor.

Veteran Affairs Office service hours are Monday, 12:00 to 2:00 p.m., Tuesday, 3:00 to 5:00 p.m., and Wednesday, 5:00 to 7:00 p.m. Veterans can call (562) 860-2451, extension 2104, for information or use the website: www.cerritos.edu/finaid/vets. The Veteran Affairs Office is located within the Financial Aid Office area in the Administration Building.

Associate in Arts Degree Graduation Requirements

The California Community College Board of Governors has authorized the Cerritos College Board of Trustees to confer the Associate in Arts Degree. A candidate does not automatically receive the Associate in Arts Degree upon completion of unit and course requirements, but is required to file a petition for the degree.

College education is usually thought of as consisting of two parts, specialized education and general education. Specialized education is that which prepares the student for vocational competence or for scholastic attainment in a particular field. This the student accomplishes through the department major.

General education, on the other hand, is that which meets the common goals of all students for personal enrichment and cultural development. Work in this area helps the student increase individual ability as a citizen and improve community, home, and family living.

Although courses may be designed with one or the other of these purposes as the primary gain, all courses are presented with the values of general education in mind. College education then becomes the sum total of all the student's experience in college, and the student's education may be completed in both these areas and be granted the degree of Associate in Arts.

STATEMENT OF PHILOSOPHY FOR GENERAL EDUCATION COURSEWORK

Cerritos College offers an array of general education coursework to students so that they may learn concepts and methods of inquiry that have breadth, depth and relevance to their lives. The general education curriculum includes coursework from the liberal arts, humanities, science, mathematics, arts and social sciences disciplines. Possession of knowledge from these disciplines will contribute to personal growth, professional development and citizenship by increasing students' awareness of the past and present by developing their creative, adaptive and critical thinking abilities. The general education curriculum will provide students with opportunities to

- Develop a lifestyle that will enhance physical and mental health and wellness
- Develop logical and cogent arguments, reaching conclusions that are based on comprehensive inquiry
- Adapt and apply technology to facilitate the acquisition and effective use of information
- Communicate clearly and proficiently through both oral and written expression
- Enhance the appreciation of artistic offerings
- Become informed citizens and problem-solvers to deal with current and future societal issues
- Appreciate the contributions of different cultures, eras and traditions to the human experience
- Develop an appreciation for the value of ethics, integrity, honesty, self-management and the welfare of others

REQUIREMENTS FOR THE ASSOCIATE IN ARTS DEGREE:

SCHOLARSHIP AND RESIDENCE

- A. A student must complete 60 units of degree applicable work with an overall grade point average of "C" or better (2.0) in all courses.
- B. A student must achieve a grade point average of "C" or better (2.0) in all course work attempted that is counted for the major.

- C. A minimum of 12 units of degree applicable work must be completed at Cerritos College.
- D. The student must be in attendance for the semester in which the degree is earned. Exception to this requirement is by petition only.

PETITION FOR ASSOCIATE IN ARTS DEGREE

1. Students desiring an Associate in Arts Degree must file a "Petition for Associate in Arts Degree" form. The petition may be obtained in the Counseling Center and must be submitted before the deadline posted in the College schedule of classes. The petition must be approved and validated by a counselor and the Admissions and Records Office before the degree will be granted.
2. The date on the degree will correspond to the year the degree is earned.
3. Students not in continuous attendance at Cerritos College must meet degree requirements for graduation in effect at the time of readmission.
4. A student is considered in continuous attendance if he/she receives a grade (A,B,C,D,E,CR,NC,I or W) in any semester, fall or spring, during each academic year. Continuous attendance is not broken at Cerritos College if a student transfers to another accredited institution, maintains his/her continuous attendance at that institution, and returns to Cerritos College to complete his/her degree. (Designated programs may require students to return to Cerritos College in good standing. Please check with the Counseling Center regarding these programs.)
5. Credit toward the Associate in Arts Degree is not granted for non-degree applicable units or classes taken as part of the Adult Education Program.
6. There will be a fee charged for any degree granted when the petition is filed after the established deadline.

STUDENTS WITH BACCALAUREATE DEGREES

Those students who have been awarded a bachelor's degree from an accredited college or university in the United States will be exempt from the Cerritos College general education breadth requirements and the proficiency requirements, should they pursue an associate in arts degree at this institution. Please see your counselor or the Dean of Academic Affairs if additional information or clarification is desired.

ADDITIONAL ASSOCIATE IN ARTS DEGREES

Once an AA degree has been obtained an additional AA degree may be obtained by meeting the following conditions:

1. Complete a minimum of seventy-eight (78) units - eighteen (18) degree applicable units beyond the minimum required for the first A.A. Degree. The minimum 78 units must meet the requirements in a different major curriculum. All general education requirements in effect at the time continuous attendance began must be met.
2. If some or all of the major curriculum requirements for the second A.A. Degree were met in the first A.A. Degree and the minimum seventy-eight (78) degree applicable units is not achieved, then additional courses will be planned with a counselor to make-up the difference as described in the procedures. The general education requirements must be met which were in effect at the time continuous attendance began.

3. Upon completion of the required course work, follow the "Petition for Graduation" procedures as detailed for the first A.A.
4. Additional A.A. Degrees may be granted for each eighteen (18) degree applicable additional units completed. For example a third A.A. degree may be earned upon the completion of a minimum of ninety-six (96) units. The requirements to obtain additional degrees are the same as those stated above for a second A.A. Degree.

COMMENCEMENT

Commencement exercises are held once a year at the end of the Spring Semester for all students-for those who were graduated at midyear, those graduating at the end of the Spring Semester, and those who expect to complete requirements for graduation in the Summer Session.

All graduating students are encouraged to participate in the Commencement ceremony which honors their industry and achievement.

Cerritos College Associate in Arts Degree

Requirements for the Associate in Arts Degree at Cerritos College can be met in one of three different ways: Plan A, B or C.

PLAN A is designed primarily for those students interested in preparing for a vocational career upon graduation. Plan A may also be used by university transfer students and for students in vocational majors who may possibly wish to transfer in the future. However, there are courses listed under Plan A that are not transferable for general education credit to the four-year universities. Therefore, students wishing to use this option should see a Cerritos College counselor for advice in selecting the AA General Education plan that in combination with a major will best match their educational and career goals. Please see the Plan A degree description page for further details.

PLAN B is designed primarily for students who will transfer to a CSU campus and are not interested in attending a University of California campus. Students may use this plan to combine completion of both the Associate in Arts general education requirements, and the California State University (CSU) General Education Certification pattern. Students should see a counselor for advice on selecting the AA General Education plan that in combination with a major will best match their educational and career goals. Please see the Plan B degree description page for further details.

PLAN C is designed primarily for students who intend to transfer to the University of California, or who are undecided between transferring to the University of California or the California State University. Students may use this plan to combine completion of both the AA degree general education requirements and the Intersegmental General Education Transfer Curriculum (IGETC) requirements. Plan C may not be recommended for some majors at certain CSU or UC campuses. Please see the Plan C description page for further details.

The significant differences between Plan A, Plan B and Plan C are:

Plan A requires the completion of a minimum of 18 units of identified general education courses and a minimum of 18 units of specified "major" courses, proficiency requirements and electives, if necessary, to total a minimum of 60 degree applicable units.

Plan B requires a minimum of 39 units of identified CSU general education courses plus specified lower-division major preparation, the health and wellness proficiency requirement, and elective courses, if necessary, for a minimum of 60 degree applicable units.

If a student only wishes to transfer at an upper division level and is not seeking an A.A. degree, a minimum of 60 CSU transferable units is required. (See transfer requirements for CSU)

Plan C requires a minimum of 35 (UC) or 38 (CSU) units of identified general education courses plus specified lower-division major preparation courses, the health and wellness proficiency requirement, and electives, if necessary, to total a minimum of 60 degree applicable units.

If a student only wishes to transfer at an upper division level and is not seeking an A.A. degree, a minimum of 60 UC transferable units is required. (See IGETC and UC transfer requirements.)

There are important differences among the three plans. In order to select the plan that best meets each individual's AA and transfer goals, students should see a Cerritos College counselor.

Associate in Arts Degree General Education 2005-06 Plan A Degree and /or Career Option

A total of 60 degree applicable units including the following requirements must be completed to qualify for the A.A. degree:

1. MAJOR PROGRAM REQUIREMENTS:
Complete all requirements for the chosen major program under "Major Requirements" in the Cerritos College Catalog.

e. Select an additional course from general education courses from those listed above or a course from Plan B or Plan C so

that the earned general education units total at least 18.

* These courses appear in more than one category, but may only be counted once.

** These courses do not meet the General Education Requirements for CSU or IGETC.

NOTE: The preceding graduation requirements apply to students who were in attendance during the 2005-06 school year and thereafter. Students who enrolled prior to Fall 2005 and who have maintained continuous attendance at Cerritos College have the option of meeting the current requirements or those in effect at the time continuous attendance began.

Associate in Arts Degree

General Education

2005-06

Plan B

CSU General Education Requirements

Plan B is designed primarily for students who will transfer to a California State University (CSU) campus and are not interested in attending a University of California campus. Students may use this plan to combine completion of both the Associate in Arts general education requirements and the CSU General Education Certification pattern. Students should see a counselor for advice on selecting the AA General Education plan that in combination with a major will best match their educational and career goals.

To earn an Associate in Arts Degree using Plan B, students must complete a minimum of 60 degree applicable units with an overall grade point average of "C" (2.0) or better counted for the degree which must include the specified general education requirements and designated courses for a major. The Health and Wellness Proficiency requirement must be completed.

If a student wishes only to transfer and is not seeking an A.A. degree, there are no proficiencies required for CSUGE certification.

It should be noted that completion of the CSU General Education Certification is not required for admission to the CSU nor is it the only way to fulfill the lower division general education requirements. Depending upon the student's major, it may be advantageous to complete the requirements of the specific campus the student plans to attend.

STATE UNIVERSITY GENERAL EDUCATION CERTIFICATION REQUIREMENTS

A maximum of 39 units is required to fulfill the CSU lower division general education requirements, with the units to be distributed as follows: Nine (9) units in Area A; nine (9) units in Areas B, C and D, with no more than 30 units total in areas B through D combined; and three (3) units in Area E.

A letter grade of "C" or better is required in Oral Communication, Written Communication, Critical Thinking, and Mathematical Concepts.

Note: Courses appearing in more than one category may be used to satisfy only one category. Such courses are marked with an *.

A) Communications: 9 units minimum.

Must take one course from category 1, 2, and 3

1. Oral Communication
Speech 100, 120, 130, 132, 150
2. Written Communication
English 100
3. Critical Thinking
English 103, Philosophy 106, 202, Psychology 103, Speech 235

B) Natural Science and Mathematics: 9 units minimum.

Take a course from category 1, 2 and 3. AT LEAST ONE LABORATORY (LAB) MUST BE INCLUDED IN CATEGORY 1 or CATEGORY 2.

1. Physical Sciences

Astronomy 101, 102, 103, 104, 105L (lab), 106
Chemistry 100 (lab), 110 (lab), 111 (lab)

ASSOCIATE IN ARTS DEGREE

General Education

2005-06

Intersegmental General Education

Transfer Curriculum (IGETC)

For Transfer to UC and CSU

Plan C is designed primarily for students who intend to transfer to the University of California (UC) or are undecided between transferring to the UC or the California State University (CSU). Students may use this plan to combine completion of both the AA Degree general education requirements and the IGETC General Education requirements.

The purpose of IGETC is to provide an option for students to fulfill lower division general education requirements prior to transferring to a UC or CSU campus.

Depending upon the student's major and campus choice, it may be advantageous to complete the requirements of the specific campus the student plans to attend. In general, it is not advisable for transfer students preparing for majors at any UC campus requiring a high number of units, such as engineering and science, to use IGETC.

Plan C can be fulfilled by completing the IGETC requirements specified for either the UC or CSU.

A letter grade of "C" or better is required in all Plan C courses.

To earn an Associate in Arts degree using Plan C, students must complete a minimum of 60 degree applicable units with a grade point average of "C" (2.0) or better in all courses counted for the degree which must include the specified general education requirements and designated courses for a major. The Health and Wellness Proficiency requirement must be completed.

If a student wishes only to transfer and is not seeking an A.A. degree, there are no proficiencies required for IGETC certification.

It should be noted that completion of IGETC is not required for admission to the UC or CSU.

Further information and other regulations pertaining to IGETC and the Associate in Arts Degree are found in the catalog.

* These courses appear in more than one category, but may be used only to satisfy one category .

Additional Requirements

A) UC ONLY: Language other than English

There are several ways to satisfy this requirement. They include:

- Complete two years of the same foreign language in high school with a grade of "C" or better.
- Complete first college course in any foreign language or SL 101.
- Earn a minimum score of 500 on an appropriate College Board Achievement Test in a foreign language.
- For other options, see your counselor.

B) CSU ONLY: The CSU has a specific American Institutions requirement that is separate from the general education requirements. Courses used to meet the American Institutions requirement may NOT be used to satisfy requirements for the IGETC. It is recommended that this requirement be met prior to transfer. The following will meet the CSU American Institutions requirement.

6 units, one course from Group 1 and one course from Group 2.

Group 1: History 101+, 201+, 202+

Group 2: Political Science 101+, 201+

C) The UC-bound student should be aware of the American history and institutions requirements at the campus of choice. Requirements do vary. See your counselor for details.

+Credit limitation. UC credit limitations may apply for certain courses in IGETC, as well as other UC transferable courses which are not in IGETC. An explanation for each course which has credit limitations appears in the college catalog course description. For details, see your counselor.

Transfer Requirements

Students planning to transfer to a four-year college or university should bear in mind that admission and subject requirements will vary from school to school. Consequently, students planning to transfer should study carefully the requirements set forth in the catalogs and brochures of the institutions which interest them. Such publications may be obtained directly from the colleges and universities. A large number of websites allow students to access such information via the Internet Career and Transfer Center in Career Services. Many of these links are available at www.cerritos.edu/transfer. In addition to offering transfer information to public and private colleges and universities statewide and national, we are continuing our efforts to obtain articulation agreements for transferring to Historically Black Colleges and Universities (HBCU's). To assure that appropriate transfer course work is being undertaken at Cerritos College, students should plan to communicate regularly with the counseling staff.

TRANSFER REQUIREMENTS THE CALIFORNIA STATE UNIVERSITY

Lower Division Transfer Requirements—If you have completed fewer than 60 transferable semester (90 quarter) units, you will qualify for admission if you have a grade point average of 2.0 (C) or better in all transferable units attempted, are in good standing at the last college or university attended, and meet the admission requirements for first-time freshmen, i.e., you have completed with a grade of "C" or better each of the courses in the comprehensive pattern of college preparatory subject requirements and have a qualifiable eligibility index. If you did not complete all the subject requirements in high school, appropriate college courses may be used to make up the missing subjects. Nonresidents must meet the eligibility index for nonresidents.

TRANSFER REQUIREMENTS

Upper Division Transfer Requirements – If you have completed at least 60 transferable semester (90 quarter) units, have a grade point average of 2.0 (C) or better in all transferable units attempted (nonresidents must have a grade point average of 2.4), and are in good standing at the last college or university attended. In addition, you must have completed at least 30 semester (45 quarter) units of college courses with a grade of C or better in each course to be selected from courses in English, arts and humanities, social science, science and mathematics at a level at least equivalent to courses that meet general education requirements. The 30 semester (45 quarter) units must include all of the general education requirements in communication in the English language (at least 9 semester or 12 quarter units to include written communication, oral communication, and critical thinking) and mathematics (at least 3 semester or 4 quarter units) or, if completing the Intersegmental General Education Transfer Curriculum, English communication (at least 9 semester or 12 quarter units in English composition, oral communication, and critical thinking) and the requirement in mathematics (at least 3 semester or 4 quarter units).

Test Scores – Freshman and transfer applicants who have fewer than 60 semester or 90 quarter units of transferable college credit must submit scores, unless exempt, from either the Scholastic Aptitude Test (SAT) of the College Board or the American College Testing Program (ACT). If you are applying to an impacted program and are required to submit test scores, you should take the test no later than December if applying for fall admission.

Registration forms and dates for the SAT or ACT are available from school or college counselors or from a campus testing office. Or you may write to:

The College Board (SAT)
Registration Unit, Box 592
Princeton, New Jersey 08541

American College Testing Program (ACT)
Registration Unit, P.O. Box 168
Iowa City, Iowa 52240

TOEFL Requirement – All undergraduate applicants, regardless of citizenship, who have not attended schools at the secondary level or above for at least three years where English is the principal language of instruction must present a minimum score of 500 or above on the Test of English as a Foreign Language. Some campuses may require a score higher than 500.

Transcripts – Final official transcripts must be submitted prior to enrollment to verify that all required coursework has been completed successfully. CSU campuses will either delay admission or not permit registration or attendance until receipt of final transcripts.

Freshman: The campus to which you are applying will provide information about when to submit your official high school transcript. Transcripts must be received in sealed envelopes directly from the high school from which you graduated.

Transfers: Request that official transcripts be sent directly from all colleges or universities previously attended even if no coursework was completed. Transcripts must be received in sealed envelopes from each institution attended. You should keep personal copies of all transcripts and test scores to complete the admission application and for academic advising sessions.

Starting Fall 2005 CSU applications will only be able to apply online.

GENERAL EDUCATION REQUIREMENTS FOR THE BACHELOR'S DEGREE AT THE CALIFORNIA STATE UNIVERSITY

The California Administrative Code, Title 5, relating to the State University general education-breadth requirements authorizes Cerritos College to present to the students a maximum 39-unit pattern of general education courses which is acceptable for the Bachelor Degree requirements at the State University.

Cerritos College is further authorized to certify the partial or complete fulfillment of these requirements. Cerritos College Level Examination Program (CLEP) credit granted at Cerritos College will not be used to certify general education requirements for transfer. Credits from International Transcripts granted at Cerritos College will not be used to certify general education requirements for transfer.

Cerritos College is further authorized to certify the partial or complete fulfillment of these requirements.

Students may elect to fulfill the general education requirements by following the Cerritos College pattern or the pattern specified by the State University of their choice.

Students in all major fields of study must complete the same pattern of general education requirements. It is strongly recommended that students complete as many units of these requirements as possible during their freshman and sophomore years at Cerritos College so that they can concentrate on major specialization in the upper division.

In general, four-year colleges accept at full unit value approved transfer courses completed with satisfactory grades in the public Community Colleges of the state. However, in most instances a maximum of 70 community college semester units (105 quarter units) can be transferred for credit toward a degree at the senior institution.

UNIVERSITY OF CALIFORNIA TRANSFER REQUIREMENTS

Starting Fall 2005 UC applicants will only be able to apply online.

Admission as a Transfer for Students Entering UC in Fall 1998 and after.

The University considers you a transfer applicant if you graduated from high school and enrolled in a regular session at another college or university. You can't disregard your college record and apply as a freshman.

If you plan to attend a California community college before applying to the University, you should take courses that are transferable, that satisfy University and college requirements, and that fulfill prerequisites in your major. Advisors in the Admissions Office at the campus you wish to attend and community college counselors can help you with your planning.

The University publishes a booklet especially for transfer applicants called *Answers for Transfers*. It is available from your community college counselor.

CALIFORNIA RESIDENTS*

There are basically three ways in which you can meet the University's minimum admission requirements for transfer students. These requirements are described below. In all cases, you must have at least a "C" (2.0) average in all transferable coursework.

***Residency Status:** The requirements for bonafide California residents also apply to dependents of University of California graduates and employees. The manner in which legal residence is defined for tuition purposes is different. If you have questions about your residency status, contact the Admissions or Registrar's Office at the campus you wish to attend.

1. If you were eligible for admission to the University when you graduated from high school—meaning you satisfied the Subject,* Scholarship, and Examination Requirements—you are eligible to transfer if you have a "C" (2.0) average in your transferable college coursework.
2. If you met the Scholarship Requirement, but did not satisfy the Subject Requirement,* you must take transferable courses in the subjects you are missing to be eligible to transfer. You will need to earn a grade of C or better in each of these required courses, and an overall "C" (2.0) average in all U.C. transferable college

coursework. If you completed less than 18 quarter or 12 semester units of U.C. transferable college coursework, you must satisfy the Examination Requirement for freshman applicants.

3. If you were not eligible for admission to the University when you graduated from high school because you did not meet the Scholarship Requirement, or you did not meet the Scholarship Requirement and did not complete all the required "a-f" subjects,* you must:

- a. Complete 90 quarter units or 60 semester units of U.C. transferable college credit with a grade point average of at least 2.4, and
- b. Complete a course pattern requirement to include:
 1. Two transferable college courses (3 semester or 4-5 quarter units each) in English composition; and
 2. One transferable college course (3 semester or 4-5 quarter units) in Mathematical Concepts and Quantitative Reasoning; and
 3. Four transferable college courses (3 semester or 4-5 quarter units each) chosen from at least two of the following subject areas: the arts and humanities, the social and behavioral sciences, the physical and biological sciences.

*If you graduated from high school before June 1986, your "c" and "f" subject requirements are different from those described previously. Please contact the Admissions Officer at any U.C. campus for more information.

NONRESIDENTS

The minimum admission requirements for nonresident transfer applicants are the same as those for residents except that nonresidents must have a grade point average of 2.8 or higher in all transferable college coursework.

TRANSFERABLE COURSES TO UNIVERSITY OF CALIFORNIA

Please see your counselor or the Transfer Center Coordinator for all courses that have been accepted by any campus of the University of California as transferable for the 2005-06 school year.

**If you graduated from high school before June 1986, your "c" and "f" subject requirements are different from those described previously. Please contact the Admissions Officer at any U.C. campus for more information.*

NONRESIDENTS

The minimum admission requirements for nonresident transfer applicants are the same as the those for residents except that nonresidents must have a grade point average of 2.8 or higher in all transferable college coursework..

INTERSEGMENTAL GENERAL EDUCATION TRANSFER CURRICULUM

The Intersegmental Committee of the Academic Senates approved the Intersegmental General Education Transfer Curriculum (IGETC) which was implemented Fall 1991. The IGETC is a series of courses that community college students can use to satisfy lower divisions general education requirements at any CSU or UC campus. The IGETC is intended to facilitate course planning and should appeal to students who want to keep their options open before making a final decision about transferring to a particular segment or campus. The IGETC will provide an option to the California State University General Education Requirements and has replaced the University of California Transfer Core Curriculum.

FOR STUDENTS TRANSFERRING TO A UC CAMPUS

In general, it is not advisable for transfers to engineering majors at any UC campus to use the IGETC. The IGETC option may also be inappropriate for transfers entering "high unit" majors such as those in the sciences having substantial lower division science and math prerequisites. It may be more appropriate to take courses that are a part of the general education or breadth requirements for the school or college on the UC campus to which a transfer is planned.

FOR STUDENTS TRANSFERRING TO A CSU CAMPUS

It is important to note that IGETC is an option for CSU bound students. The General Education Certification Requirements are still in effect and may be followed by both continuing and new students who plan to transfer to a California State University.

The Intersegmental General Education Transfer Curriculum will permit a student to transfer from a California community college to a campus in either the California State University or the University of California system without the need, after transfer, to take additional lower-division, general education courses to satisfy campus G.E. requirements.

Completion of the IGETC is not a requirement for transfer to a CSU or UC, nor is it the only way to fulfill the lower-division, general education requirements of the CSU or UC prior to transfer. Students may find it advantageous to take courses fulfilling CSU's general education requirements or those of a particular UC campus.

The course requirements for ALL areas must be completed PRIOR to transferring to the CSU or UC in order for the IGETC to be certified. However, beginning Fall 2000 a student may be partially certified if they are missing no more than 2 courses and they are able to show good cause for not having the missing courses completed. The missing courses may only be from areas 3, 4, 5, or language other than English. Areas 1 and 2 must be completed in all cases. See your counselor to determine eligibility for partial certification. All courses must be completed with a grade of "C" or better. A student who has completed IGETC may have an official certification sent to a four-year institution upon written request by the student through the Office of Admissions and Records.

ADDITIONAL REQUIREMENTS

A) UC ONLY: Language other than English

There are several ways to satisfy this requirement. They include:

- Complete two years of the same foreign language in high school with a grade of "C" or better.
- Complete first college course in any foreign language, or Sign Language 101.
- Earn a minimum score of 500 on an appropriate College Board Achievement Test in a foreign language.
- For other options, see your counselor.

B) CSU ONLY: The CSU has a specific American Institutions requirement that is separate from the general education requirements. Courses used to meet the American Institutions requirement may NOT be used to satisfy requirements for the IGETC. It is recommended that this requirement be met prior to transfer. The following will meet the CSU American Institutions requirement.

6 units, one course from Group 1 and one course from Group 2.

Group 1: History 101+, 201+, 202+

Group 2: Political Science 101+, 201+

C) The UC-bound student should be aware of the American history and institutions requirements at the campus of choice. Requirements do vary. See your counselor for details.

+Credit limitation. UC credit limitations may apply for certain courses in IGETC, as well as other UC transferable courses which are not in IGETC. An explanation for each course which has credit limitations appears in the college catalog course description. See a counselor for details.

Community, Industry & Technology Education — *Bringing it all together for Business!*

OFFICE OF ECONOMIC DEVELOPMENT

The Office of Economic Development (OED) has been established by Cerritos Community College to meet the specific educational needs of business and industry. The OED provides quality controlled, customized programs and services that go beyond the traditional academic curriculum. All programs and services are developed with input from the corporate client and can be provided at the work-site or on campus at times convenient to the program participants.

The OED serves numerous local companies, among them, aerospace companies, banking institutions, health care agencies, utility and public work companies, communication firms, hotels, restaurants, supermarkets and others.

Services and programs provided by the OED include management training, high-tech training, leadership development, computer technology, banking and finance training, executive fitness training, language training, as well as seminars, conferences and forums on current business issues and concerns. Consultant and technical assistance services are available to work with businesses in developing any program that is not already offered.

For further information please call the Office of Economic Development at (562) 860-2451, extension 2510.

APPLIED TECHNOLOGY EDUCATION CENTER (ATEC)

The Applied Technology Education Center (ATEC) at Cerritos College offers fee-based, short-term courses and programs designed for serious technology users at all levels, and brings together professional information technology and a state-of-the-art facility to meet the stringent training demands of today's high-tech environment. From desktop applications training to networking certification programs, ATEC provides the right learning environment for professionals requiring information technology training.

ATEC's comprehensive courses in popular desktop applications take participants step-by-step through the process of proficiency in applications including: operating systems, presentation packages, desktop office management, web site development, spreadsheet development, word processing and database management.

For more information or course schedules, contact ATEC at 562/467-5050, extension 2511.

COMMUNITY EDUCATION

Cerritos College Foundation

The Cerritos College Foundation, a non-profit organization organized in 1979, serves as a charitable vehicle for the community, individuals and alumni, to assist with financial support to Cerritos College beyond that which cannot be met through state funding. It is the belief of the Foundation that the growth of Cerritos College must be fostered and supported for the institution to keep its rightful place as one of the finest community colleges in California and in the nation.

The Foundation's commitment is to cultivate and solicit private financial support for the faculty staff and programs of Cerritos College whose goal is to continue the tradition of producing high-caliber professionals, leaders and artisans who enrich our community. We are committed to strengthening the pursuit of quality education while meeting the diverse needs of the students and community. The Foundation offers a variety of scholarships in various disciplines to assist students in their educational pursuits.

Over 25 community leaders volunteer generously of their time, talent and resources to support Cerritos College and its students by serving on the Foundation Board of Directors.

We invite you to visit our web-site at www.cerritos.edu/ccf or you may contact the Foundation Office at (562) 860-2451, ext. 2526 for more information or to make a donation.

CHILD DEVELOPMENT/EARLY CHILDHOOD—965

This program welcomes students from diverse cultural and ethnic backgrounds. Male students are encouraged to investigate career opportunities in Child Development.

The Child Development Department offers several different options for the student interested in working with young children. All full-time Child Development Instructors are available to advise students in all of the following areas:

- A. Child Development Department Specializations** – The specializations are designed to meet the minimum requirements of the Department of Social Services to teach in licensed private preschools and childcare programs. This is an entry-level career choice. The student is encouraged to pursue additional units in Child Development to advance in the field. Applications for the following Verifications of Completion must be made at the Health Occupations Division office anytime after the completion of courses.
- Associate Teacher Certificate of Completion
 - Preschool Director Certificate of Completion
 - Infant/Toddler Teacher
 - Family Child Care Certificate of Completion
- B. The Child Development Permit** – The permit is granted by the California Commission on Teacher Credentialing and entitles the holder to teach in state and federally funded programs. This is an expanded career choice and has levels of advancement. The Department recommends that all Child Development students aspire to the Child Development Permit. Application for the permit is made through the California Commission on Teacher Credentialing.
- Assistant Teacher
 - Associate Teacher
 - Teacher
 - Master Teacher
 - Site Supervisor
- C. Certificates of Achievement** – This is a carefully planned course of classes that will meet requirements of The Department of Social Services and The Child Development Permit as well as when combined with the required general studies classes will lead to an AA Degree in Child Development. This offers even greater career options. Application for the Certificate of Achievement must be made through the Cerritos College Office of Admissions and Records by March 1 of the year you intend to graduate.

See Cerritos College Graduation Requirements.

DENTAL ASSISTING—952

Curriculum leading to Certificate of Achievement and eligibility to write both the California State Board Examination as a Registered Dental Assistant and the National Certifying Board Examination as a Certified Dental Assistant.

LENGTH AND KIND OF PROGRAM

The program is three semesters in length (Fall, Spring, and Summer Session-6 wks). However, students may enter in the Spring Semester by taking selected courses. See the Dental Assisting Counselor.

General education and Dental Assisting classes are scheduled on the College campus and correlated clinical experiences in patient care are obtained at selected dental schools and private dental offices.

Employment in this field requires applicants to have good vision, hearing, and the ability to communicate orally. In addition, applicants must have the ability to comprehend and interpret written information. Applicants must have the dexterity to use small dental instruments to provide dental health care.

ADMISSION REQUIREMENTS

- Academic Requirements
 - High school graduate or satisfactory scores on the General Education Development Examination (given at most Adult Education Centers).
 - Submit transcripts indicating a 2.0 Grade Point Average in all High School and College courses or consent of the Dental Assisting Department.
 - Take college assessment test and achieve a satisfactory score in English or all deficiencies can be cleared while enrolled in the Dental Assisting Program.
- Health
 - Applicant must present evidence of physical fitness. Lab and immunizations records must be completed after acceptance into the program. The student is responsible for all costs incurred.

EXPENSES

Enrollment fee, project fees, uniforms and books will cost approximately \$1200. Students are responsible for their own living accommodations, including uniform laundry and transportation to extended campuses. In the first semester of the program, immunization for Hepatitis B and other infectious diseases is required. Immunization expenses are the student's responsibility.

ATTENDANCE, SCHOLARSHIP, PROMOTION

Attendance: All students will be expected to observe the attendance requirements as set by the Dental Assisting Department at Cerritos College.

Scholarship and Promotion: In order to remain enrolled in the Program, the student must maintain "C" or better in both theory and clinical courses.

ACCEPTANCE OF STUDENTS AT ADVANCED STANDING

Requests for acceptance into the Program at an advanced level will be evaluated on an individual basis after the applicant has met all College requirements.

PROCEDURE FOR APPLICATION (To be completed in order as listed)

1. Complete application for admission to Cerritos College.
 - a. Request two copies of your high school and/or college transcripts. Send one copy to the Health Occupations Division Office and one copy to the Admissions Office.
 - b. Call for an application to the Dental Assisting Program, (562) 860-2451, extension 2550.
2. Return completed application to the Health Occupations Division, 11110 Alondra Blvd., Norwalk, California 90650.
3. As soon as requested materials are received, the student will be notified in writing regarding eligibility to enroll in the dental assisting program.

ASSOCIATE IN ARTS DEGREE REQUIREMENTS:

Meet all the requirements as listed for a Certificate of Achievement in Dental Assisting. For an A.A. Degree, a student must also take electives and General Education to achieve a minimum of 60 units. Recommended electives for students interested in Dental Hygiene Program: CHEM 100 MICRO 200 A&P 200, 201, HO 152

DENTAL HYGIENE

A dental hygienist is a preventive oral health professional licensed in dental hygiene who provides educational, clinical and therapeutic services supporting total health through the promotion of optimal oral health.

The Dental Hygiene Program is a two-year degree program and includes one six-week summer session and one six-week optional session. Upon completion of the program, graduating students will receive an Associate in Arts Degree in Dental Hygiene and will qualify to take the National and State Board Dental Hygiene Examinations. Successful passage of the examinations qualifies the graduate to practice dental hygiene in the State of California.

A dental hygienist may work in such practice settings as: private dental offices and dental clinics; federal, state and local health departments or associated institutions; hospitals and nursing homes; school districts or departments of education; educational programs for dental, dental hygiene and dental assisting students; private business/industry; correctional facilities; private and public centers for pediatric, geriatric and other

individuals/groups with special needs; or health maintenance organizations.

Applicants desiring employment in this field are required to have good vision and the ability to communicate orally. In addition, they must have the capacity to comprehend, analyze, evaluate and record in clients' charts, and have the dexterity to use small dental instruments to provide dental hygiene care.

Applicants for examination of licensure in the state of California must be fingerprinted and report information related to illegal use of controlled substances, infectious or contagious diseases and any convictions or pleas of nolo contendere even if charges are dismissed. In addition, the application requires specific information related to convictions, misdemeanor or felony, associated with state or federal action. If there is any concern that may prevent licensure after graduation, direct inquiries to the State Board of Dental Examiners, Committee on Auxiliaries, 1428 Howe Avenue, Sacramento, CA 95825.

DENTAL HYGIENE PROGRAM REQUIREMENTS

I. Prerequisites

- A. High School graduation or equivalent.
- B. Introductory Chemistry 100, Anatomy and Physiology 200, 201, HO 152 and Microbiology 200 or equivalent with a grade of "C" or higher. The acceptance of college work previously completed is at the discretion of Cerritos College and the Dental Hygiene Department. Factors such as elapsed time since the course was completed and grades will be used in determining whether a previously completed course can be accepted towards fulfillment of the graduation requirement. Five years is usually considered maximum elapsed time.
- C. A valid adult, child, and infant CPR card including two person CPR is required prior to enrolling in the Dental Hygiene classes and must be kept current. CPR courses approved by the state board are given through the American Heart Association and the American Red Cross.

II. Required Tests and Information

- A. Cerritos College Assessment Tests Battery
 1. Receive satisfactory scores on the Cerritos College Assessment/Placement Tests or achieve clearance by taking the appropriate college courses. A 12th grade reading level is required for admission into the program.
- B. Preliminary Transcript Evaluation

It is the student's responsibility to make an appointment with the Counseling Department at Cerritos College to verify equivalent prerequisites and other courses required in the program. The Preliminary Transcript Evaluation must be filled out and signed by a Cerritos College counselor and then submitted to the Health Occupations Division Office along with your DH Application. To complete this procedure, the student must have a student copy of all transcripts from previously attended colleges.

C. Transcripts

1. Send one (1) copy of high school transcript to the Admissions and Records Office.
2. If college work has been completed at Cerritos College, request one (1) official copy of your transcript from the Admissions and Records Office to be sent to the Health Occupations Division Office. Also obtain one (1) copy of current work-in-progress.
3. If applicant is transferring from another college, request three (3) copies of transcripts: one (1) official copy to be sent to the Health Occupations Division, one (1) official copy to the Admissions and Records Office, and one (1) student copy of your transcript to be used during the counseling session. Request two (2) copies of your current work-in-progress: one (1) to be sent to the Health Occupations Division Office, and one (1) to be used during the counseling session.

D. Application forms

Along with the Dental Hygiene application, the applicant must complete a Cerritos College application. This form can be obtained from the Admissions and Records Office.

E. Work Experience

For every related work experience listed, a Verification of Dental Employment form must be completed and mailed to the Health Occupations Division Office. Additional forms are available upon request in the Health Occupations Division Office. Letters of recommendation are not considered.

III. Selection Procedures

A. Academic evaluation

1. All required documents, including Dental Hygiene application, preliminary transcript evaluation, verification of dental employment forms, copy of RDA or RDAEF License and registration, official college transcripts, and work-in-progress must be in our possession by April 1.
2. Criteria for selection will be based on the following:
 - a. GPA in pre-requisites
 - b. Overall GPA for all college courses
 - c. Additional biological sciences
 - d. Related work experience
3. Selection will be based upon academic evaluation and data obtained from the application forms. Candidates will be notified by mail during the month of May.

B. Health Forms

Present evidence of physical fitness is necessary to succeed in the program. Immunizations and TB testing are required for extended facilities prior to patient care. Health and immunization forms will be issued to those applicants who are accepted in the program. Dental health professionals may be exposed to contagious diseases therefore strict compliance with CDC and OSHA standards are maintained. Policies on blood borne and infectious diseases are available upon request from the Dental Hygiene Department.

IV. Expenses

- A. See Cerritos College catalog for enrollment and out-of-state resident fees.

- B. The student may expect to spend approximately \$4000 for books and instruments, \$250 for uniforms, and another \$2700 for miscellaneous fees and immunizations. Membership in the Associated Students of Cerritos College is recommended. Students will be encouraged to join the Student American Dental Hygienists' Association (SADHA) with membership fee of about \$45 annually.

V. Scholarship, Attendance, Promotion, Graduation

- A. Attendance: all students are required to observe the attendance requirements of the college. During the program, some of the classes are held at various county dental health facilities. Some classes may be scheduled in the evenings or on Saturdays.
- B. Scholarship and Promotion: Students are required to maintain a grade of "C" or better in each dental hygiene and dental education course in order to progress in the program. Grade requirements of the college are to be met for all other courses.
- C. Graduation: Petition for graduation will be permitted if the student meets both the college and the Dental Hygiene Program requirements for graduation. Upon completion of the program the graduate will be qualified to take the California State Board and the National Board Examinations in Dental Hygiene.

VI. Criminal Background Checks

- A. Clinical placements are a mandatory component of the curriculum and may require clearance of a criminal background check. Students who do not clear agency requirements are not eligible for clinical placement and will, consequently, be ineligible to continue in the program. If there is any concern regarding clearance of a criminal background check, please contact the Health Occupations Division for additional information.
- B. Applicants for examination of licensure in the state of California must be fingerprinted and report information related to illegal use of controlled substances, infectious or contagious diseases and any convictions or pleas of nolo contendere even if charges are dismissed. In addition, the application requires specific information related to convictions, misdemeanor or felony, associated with state or federal action. If there is any concern that may prevent licensure after graduation, direct inquiries to the State Board of Dental Examiners, Committee on Auxiliaries, 1428 Howe Avenue, Sacramento, CA 95825.

This major is highly selective. Except for the courses in foreign language, ALL preparatory courses should be completed by the spring term just prior to transfer. All courses must be taken for a letter grade. The mathematics course requirements should be met as early as possible. After transfer to UCLA, students may not change their major to Economics/International Area Studies if they were originally admitted to a major outside the Department of Economics.

Contact a Cerritos engineering counselor for the specific requirements of the school and option you have selected in order to optimize preparation for transfer or www.ASSIST.ORG for lower division major requirements for most California public universities.

California State University – Long Beach

(CSULB) Offers nine BS degrees: aerospace, chemical, civil, computer, computer science, electrical, manufacturing, mechanical, and general engineer with options in: industrial management, ocean materials, biomedical and clinical, audio, and theme park.

California State University – Fullerton

(CSUF) Has a common core of courses for the first two and one-half years. During the last two years the student selects engineering courses appropriate to one of the three options available: Electrical, Civil, and Mechanical.

California State University – Los Angeles

(CSULA) Offer programs leading to the Bachelor of Science degree in Engineering with option in Civil, Electrical, and Mechanical Engineering.

California State University – Pomona

(CSUP) Engineering school departments: Aerospace, Chemical, Materials, Civil, Electrical and Computer, Industrial, Manufacturing, and Mechanical. This institution combines technical applied courses with the sciences throughout the entire program. Due to the fact that many of technical courses required cannot be duplicated at the community college level, it is wise to plan on attending Cal Poly during the summer quarter following graduation from Cerritos College.

University of California – Los Angeles

(UCLA) Offers Bachelor's Degree in the following: Aerospace, Chemical, Civil, Computer Science, Computer Science and Engineering, Electrical, Materials, and Mechanical.

University of California – Irvine

(UCI) Offers Bachelor's Degree in the following: Aerospace, Chemical, Civil, and Computer Engineering, Electrical, Environmental, Material Science and Mechanical.

University of California – Riverside

(UCR) Offers Bachelor's Degree in the following: Chemical, Computer, Electrical, Environmental, and Mechanical.

ASSOCIATE IN ARTS DEGREE REQUIREMENTS:

Complete 60 units to include (1) the Engineering core, (2) ENGR 112 OR ENGT 131, (3) CIS 177 or 178 or 180 or 280, (4) the Associate in Arts General Education Requirements.

CAREER OPPORTUNITIES: Career opportunities in engineering vary widely depending upon the area of specialization. The Cerritos Career Center provides current and comprehensive career information concerning each engineering discipline. Because engineering is a high unit professional major, the schools of engineering may require special general education classes. Contact a Cerritos engineering counselor for specific information.

Students who have completed sufficient high school French may take upper-division courses as soon as lower-division requirements have been met.

Two years of a second foreign language at the college level or equivalent is also required.

Departmental Recommendation: Students specializing in French should include the following courses in their program of study: HIST 241 and HIST 242.

University of California – Irvine

FREN 101	Elementary French	5
and FREN 102	Elementary French	5
FREN 201	Intermediate French	5
and FREN 202	Intermediate French	4

At least one course is required from four different areas (writing, literature, history, and philosophy). An approved list of courses is available from www.assist.org. Please consult a counselor, if necessary, for these additional classes.

University of California – Riverside

FREN 101	Elementary French	5
and FREN 102	Elementary French	5
FREN 201	Intermediate French	5
and FREN 202	Intermediate French	4

NOTE: Students may either take the courses listed above or demonstrate equivalent proficiency (as measured by a placement exam at UCR).

ASSOCIATE IN ARTS DEGREE REQUIREMENTS:

(1) Meet the above requirements as listed for a state university, (2) complete the A.A. Degree general education requirements, and (3) take electives to achieve a minimum of 60 units.

CAREER OPPORTUNITIES: Employment with the government, international firms, airline hostess, travel agent, librarian, linguistic reporter, teacher interpreter, translator.

Broadcast Journalism Concentration, Communications Major

TH 258	Writing for Movies and Television	3

Other Communication major concentrations are: Advertising; Photo-Communications;

Public Relations; Television and Film.

Note: Double counting of Journalism courses for general education is not permitted.

California State University – Long Beach

Broadcast Journalism Concentration, Journalism Major

SPCH 271	Voice and Articulation	3

Other Journalism options: Print Journalism, Journalism Education, and Public Relations.

NOTE: All students entering journalism production classes at CSULB must be familiar with at least one established word-processing program, and be able to type at a rate of at least 40 words a minute.

San Diego State University

ECON 201	Principles of Macroeconomics	3
POL 101	American Political Institutions	3
POL 201	Introduction to Political Science and American Government	3

NOTE: All prerequisites must be taken for a grade and completed with a minimum GPA of 2.85. Journalism is an impacted major and will require a personal statement, letters of recommendation and a cumulative GPA of 2.75 or higher. For additional information see a counselor.

The University Of California

There is no Journalism major at any campus of the University of California.

NOTE: The ability to word process and use the Internet are prerequisites for all students majoring in Journalism. See the Fine Arts Counselor for lower division preparation for other California State University Broadcast Journalism programs.

ASSOCIATE IN ARTS DEGREE REQUIREMENTS:

Complete a minimum of 60 units to include: (1) the above required courses plus electives in Journalism and Photography for a minimum of 18 units, (2) AA Degree general education requirements and (3) electives as needed.

See Cerritos College Graduation Requirements.

See State University General Education List.

KINESIOLOGY TRANSFER PROGRAM (SEE PHYSICAL EDUCATION)

LIBERAL ARTS AND SCIENCES — 159

In order to qualify for an A.A. degree in Liberal Arts and Sciences, the following requirements must be met:

1. Completion of the A.A. degree general education and proficiency requirements;
2. Completion of a minimum of 60 degree applicable units;
3. Completion of at least 18 units minimum including at least one course from category a, b, c, and d, below;
4. Additional units to complete the 18 units minimum must be selected from categories a, b, c, d, or e;
5. Courses counted toward the major may not be counted again for A.A. general education credit.

STATISTICS OPTION

One of the following sequences is required:

ECON 201 and ECON 202 or BIOL 120 and A&P 120 or six units in a field other than ECON or BIOL in which CSULB approved upper division statistics courses are also taken.

MATHEMATICS EDUCATION OPTION

One of the following sequences is required:

PHYS 201 and PHYS 202 or PHIL 106 and lower division Symbolic Logic or eight units of a foreign language.

California State University - Los Angeles

MATH 240	Calculus and Differential Equations	4
PHYS 201	Engineering Physics	4
PHYS 202	Engineering Physics	4
PHYS 203	Engineering Physics	4

Beside the B.S. in Mathematics, CSULA also offers the B.A. in Mathematics

which requires the additional major preparation courses: CHEM 111, 112, CIS 101 and PHIL 106.

Required university general education course: ENGL 103 for B.A. or B.S. degree.

California State Polytechnic University - Pomona

BIOL 200	Principles of Biology	5
BIOL 201	Principles of Biology	5

B.S. IN APPLIED MATH TRACK, CHEMISTRY OPTION

CHEM 111	General Chemistry	5
CHEM 112	General Chemistry	5
PHYS 201	Engineering Physics	4
PHYS 202	Engineering Physics	4

B.S. IN APPLIED MATH TRACK, ECONOMICS OPTION

ECON 202	Principles of Microeconomics	3

B.S. IN APPLIED MATH TRACK, ENVIRONMENTAL SCIENCE OPTION

CHEM 111	General Chemistry	5
CHEM 112	General Chemistry	5
GEOL 101	The Earth Environment	4

The Applied Math Track, Physics Option and the Applied Math Track, Statistics Option do not have any additional lower division course requirements.

Students intending to meet lower division requirements for any school or division of the University of California should consult the catalog of that institution in addition to checking the ASSIST.ORG Articulation website.

ASSOCIATES IN ARTS DEGREE:

Complete the above common lower division requirements and all AA degree general education requirements for a total of at least 60 units.

CAREER OPPORTUNITIES: Upon completion of the bachelor's degree program, graduates qualify for graduate study in accounting, computer information systems, engineering, physics, economics and other related fields. Baccalaureate graduates also qualify for positions

as an actuary and statisticians, appraisers, and estimators, financial analysts, financial planners, loan officers, marketing researchers, methods analyst, operations analyst, mathematicians in government and industry, secondary teaching and career opportunities in computer science.

MEDICAL ASSISTANT CERTIFICATE OF COMPLETION

FRONT OFFICE		UNITS
MA 60	Introduction to Medical Assisting	2
MA 62	Medical Insurance and Liability	3
MA 161	Medical Terminology	3
CIS 102	Introduction to Microcomputer Hardware and Applications Software	3

Total Verification Requirements 11

Employment in this field requires good vision, hearing, and the ability to communicate orally. In addition, the student must have the ability to comprehend and interpret written communication.

CAREER OPPORTUNITIES: Upon completion of the program, employment is available in a variety of settings: office clinics, hospitals, insurance companies, government agencies, pharmaceutical companies, and educational institutions. Job duties can entail front office (administrative) duties such as receptionist and insurance clerk to back office (clinical) duties such as assisting the provider of care or lab duties.

MEDICAL ASSISTANT—911

Length and Kind of Program

Multiple options are available to those interested in working in the Ambulatory Care environment:

1. Medical Assistant Certificate of Achievement
This Medical Assistant program may be completed in two semesters. The focus is on both front office (administrative) and back office (clinical) responsibilities. The medical assistant program culminates in a clinical lab experience completed through an internship or occupational work experience.
2. Medical Assistant Associate in Arts Degree
The student must complete the requirements for a Certificate of Achievement in Medical Assisting. In addition, the student must take A&P 120, electives, and general education requirements to achieve a minimum of 60 units. The length of time to complete this depends on the student's curriculum load.

Full time students can complete this program in two semesters (8 months) when starting with the fall semester. Discussion with the department chair regarding questions on course selection is encouraged. Course selection for a full time student is recommended as follows:

FALL: MA 60, MA 62, MA 64, MA 161, HO 53, HO 54, HO 55, HO 150 (elective).

SPRING: MA 66, MA 67, MA 68 or MA 73 or MA 74, Either HO 151 or HO 152 OR SPAN 223 (if chosen elective), PSYC 101 or PSYC 150.

Full time students can start in the Spring semester. It is advised to consult with the program chairperson regarding course selection(s).

The program is designed to help meet the needs of the part-time student as well. Course selection in numeral order is advised. Again,

consult with the program chair regarding specific course selection questions. Some classes are offered in specific semesters and efficient planning is necessary.

PROGRAM REQUIREMENTS

Academic Requirement

The student may obtain a Certificate of Achievement or an Associate in Arts in Medical Assisting and/or a Verification of Completion. The student must achieve a grade of "C" or better in required medical assisting and general education course work. (Twelve units of the Medical Assistant program must have been taken within the last five (5) years.) MA 67 and MA 68 have prerequisite courses, which must be completed with a grade of "C" or better.

Expenses

- A. See the college catalog for enrollment fees
- B. The student may expect to spend approximately \$600 for books, equipment (including watch with a second hand), and uniforms. Health screening including immunizations and CPR/First Aid training will be at the student's expense. Students are responsible for their own living accommodations, uniform laundry, and transportation to selected clinics.

Health

Employment in this field requires good vision, hearing, and the ability to communicate verbally, nonverbally and through written word. In addition, students must have the ability to comprehend, analyze, and evaluate patients' charts in order to provide appropriate treatment. Students must be able to record in the patients' charts and have the manual dexterity to use small instruments to provide patient care. The student must be able to work as a team player and demonstrate efficient customer service skills.

Internship and Occupational Work Experience

Health clearance requirements will vary depending on where clinical lab experiences will be completed (MA 68, MA 73, MA 74). To be placed in a health care facility where direct patient contact will occur (MA 68, MA 73, MA 74), the student must present evidence of compliance with facility health standards and current certification in CPR and First Aid training. The health standards will include, but are not limited to, T.B. testing and immunization. The Medical Assistant Program Record of Immunizations, Vaccination, and Test forms (located in HS room 106) must be completed before the first class session and prior to placement in the health care facility. Health clearance, CPR and First Aid requirements must be valid for the duration of the clinical affiliation. Student placements are predominately during the day hours.

CPR certification is also required for HO 53 and may be obtained through American Health Association Health Care Provider training (industry preferred) or American Red Cross Professional Rescuer training. Standard First Aid training is available through the American Red Cross.

CRIMINAL BACKGROUND CHECKS

Clearance of a criminal background check may be required prior to internship/work experience placement. Students who do not clear agency requirements are not eligible for clinical placement and will, consequently, be ineligible to continue in the course. If there is any concern regarding clearance of a criminal background check, please contact the Health Occupations Division for additional information.

NURSING

The Cerritos College Nursing Program, approved by the Board of Registered Nursing and accredited by the National League for Nursing Accrediting Commission, Inc., offers an opportunity to prepare for a nursing career through mastery of a specific body of knowledge and skills. To qualify for the program, students must successfully complete prerequisite courses and other requirements as stated below. The generic program (Option A) consists of four semesters of sequenced courses. Students may receive credit for prior nursing courses to facilitate advanced placement. These students include Licensed Psychiatric Technicians, Licensed Vocational Nurses, students transferring from other accredited programs, and foreign-educated nurses.

For successful completion of the nursing program, the student is required to achieve a minimum 75% in all nursing and nursing-related courses. This is consistent with the Board of Registered Nursing's standard of competency for nursing practice. Completion of the program meets qualifications for the NCLEX-RN licensing exam.

PHILOSOPHY

Nursing is defined as a science, discipline and health care practice that focuses on the assessment, diagnosis and treatment of clients having health programs within the domain of nursing. The goals of nursing practice focus on health promotion, illness prevention, rehabilitation, and supporting the resources of the person who is ill or threatened with illness in adapting to changes within the environment.

In addition to implementing the philosophy of the College, the purpose of the Nursing Department is to provide the community with registered nurses who are capable of functioning in a variety of health care settings. To accomplish this, the Roy Adaptation Model has been selected as the primary conceptual framework. Within this framework, nurses recognize their clients as biopsychosocial beings in constant interaction with the environment. In periods of health, individuals have both innate and learned behavioral mechanisms which enable them to cope with their complex internal and external environments. In times of stress, the client's coping mechanisms may be disrupted and the individual is defined as ill. The client's health status is defined on a continuum from wellness to illness.

Nursing practice focuses on adaptation of the client in four major modes: physiological, self-concept, role function, interdependence. The program prepares students to understand individuals as total beings and to recognize and respect a diversity of spiritual and cultural/ethnic values.

ROLE OF THE ASSOCIATE DEGREE NURSE

The Associate Degree Nurse (ADN) graduate is prepared to function as a Provider of Care, Manager of Care and Member of the Discipline of Nursing. As Provider of Care, the ADN utilizes the nursing process as a basis for decisions regarding delivery of care. As a Manager of Care, the ADN collaborates with other health care providers in organization and delegation of care. As a Member of the Discipline of Nursing, the graduate is committed to professional growth, continuous learning and self-development. In fulfilling these roles, the ADN graduate utilizes critical thinking, demonstrates clinical competence, and is accountable for and committed to the value of caring.

Nursing graduates are employed in a health care delivery system that continues to grow and change. The ADN graduate is an entry-level practitioner and is competent to practice as a direct caregiver in a variety of structured settings in which service is provided to diverse client populations. ADN graduates may subsequently pursue bachelor's, master's and doctoral degrees in nursing in preparation for advanced levels of practice.

CONCEPT OF EDUCATION

Nursing faculty believe that the purpose of education is to enlighten and enhance the quality of life for the student, the community and clients for whom students and graduates provide care. Education based on mastery learning is viewed by the nursing faculty as a collaborative process involving college administrators and staff, nursing faculty and nursing students. Each student enters the nursing program with unique characteristics, capabilities, learning styles, and motivation for learning. To address these differences, learning experiences are structured from simple to complex.

The goal of the program is to promote students' creative and critical thinking and personal growth based on successful learning experiences. Achievement of this goal is fostered by encouraging self-direction and by providing a variety of individual and group learning experiences. Students are expected to participate actively in the learning process.

ADMISSION REQUIREMENTS

The nursing program welcomes all applicants. To be considered for acceptance into the program, the applicant must meet the following requirements:

1. High school graduation or the equivalent.
2. Satisfactory completion of READ 54, MATH 60 and ENGL 52 or equivalent with grades of Credit or "C" or higher or the college placement test process. LVN applicants selecting the 30-unit option are required to complete the placement test process for advisement purposes but are not required to complete these courses.
3. Completion of or current enrollment in prerequisite courses with grades of "C" or higher. In-progress prerequisite courses must be completed with grades of "C" or higher during semester of application to maintain eligibility to enter program.
4. 2.5 gpa in prerequisite courses: A&P 150, A&P 151, MICR 200, and ENGL 100.
5. Overall minimum of 2.0 Grade Point Average for all college work.

***Effective Fall 2005, nursing applicants will be required to meet the following program prerequisites:**

- Option A:** A&P 150, A&P 151, MICR 200, and ENGL 100
- Option B:** Same as Option A plus NRSG 25, NRSG 211, NRSG 213A, NRSG 251, PSYC 251, and possession of a valid California LPT license
- Option C:** Same as Option A plus NRSG 26, NRSG 215, NRSG 251, PSYC 251, pass a departmental math competency exam, and possession of a valid California LVN license
- Option D:** A&P 151, MICR 200, NRSG 215, pass a departmental math competency exam, and possession of a valid California LVN license
- Option E:** Same as Option A plus NRSG 25 or NRSG 26, NRSG 200, NRSG 215, NRSG 251, and PSYC 251
- Option F:** NRSG 26 and NRSG 215. Applicants must meet with the Director of Nursing and submit valid letter of referral from the California Board of Registered Nursing

All applicants must complete the prerequisites listed above or equivalents with grades of Credit or "C" or higher.

Option A, B, C, and E applicants must show successful completion of READ 54, ENGL 52, and MATH 60 equivalents with grades of Credit or "C" or higher or satisfactory completion of the college placement test process. Option D applicants are required to complete the placement test process for advisement purposes but are not required to complete these courses.

Option D, E, and F applications will be notified individually for additional requirements relative to their entry point in the program

For more information on updated program, prerequisites, please call the Health Occupations Division (562)

860-2451, ext 2550.

APPLICATION PROCESS:

- Step 1: If not previously enrolled at Cerritos College, the applicant should go to Admissions and Records (in Administration Building on Alondra Boulevard) and complete an application for admission.
- Step 2: The applicant should then complete the College's assessment test process. Test schedules are available in the Counseling Department. If assessment test requirements may already have been met by equivalent measures, the applicant should see a counselor for options.
- Step 3: The applicant should arrange to submit transcripts to both the Nursing Department and Admissions and Records Department.
 - a. Official high school transcript or GED score and transcripts of any college work completed or in progress at colleges other than Cerritos College should be sent to: Cerritos College, Admissions and Records Office, 11110 Alondra Blvd., Norwalk, CA 90650.
 - b. Transcripts (official or unofficial) for the above coursework and for work completed or in progress at Cerritos College to: Cerritos College, Health Occupations Division, Nursing Department, 11110 Alondra Blvd., Norwalk, CA 90650.
- Step 4: After assessment tests have been completed and transcripts sent, the applicant should make an appointment with a counselor by calling 562-860-2451, ext. 2231; specifying that this is for completion of a nursing application. If transcripts have not been submitted prior to appointment, sealed official copies of transcripts may be hand-carried to the appointment.
- Step 5: When the applicant has completed the first page of the application and the counselor has completed the second page of the application, the applicant must bring or send the application to: Cerritos College, Health Occupations Division, Nursing Department, 11110 Alondra Blvd., Norwalk, CA 90650.

Although applications may be submitted at any time, all applications and required documentation must be in the Health Occupations Division Office not later than October 1 for January admission and March 1 for August admission. To be considered for lottery, applicants can have no more than two (2) prerequisite courses in progress. It is the applicant's responsibility to make sure that all materials are submitted by the deadline.

After the application deadline, all applications are reviewed. For each option, 75% of available spaces will be filled by waiting list (applicants who qualified in prior semesters but were not admitted) and 25% by lottery. All new and waiting list applicants are eligible for selection by lottery. A lottery is scheduled approximately six weeks following the application deadline.

Applicants for Options B-F are selected on a space available basis. When applications are reviewed and lottery selection has been completed, applicants will be informed of their priorities for admission but it may not be possible at that time to project what openings will be available during the following semester.

SELECTION PROCEDURES AND STANDARDS

1. No application materials will be considered after the specified deadline (March 1 for Fall applicants and October 1 for Spring applicants).
2. The applicant must submit to the Health Occupations Division Office the following items:
 - a. A completed application signed by the applicant and a Cerritos College counselor
 - b. Verification of high school graduation or GED completion
 - c. Transcripts and work-in-progress verification
 - d. Assessment test results or indication by counselor that this requirement has been met
 - e. Any additional items required for specific option (see below)
3. LVN applicants and transfer students seeking entry at NRSG 222 will be scheduled for a medication calculation examination. Information regarding this examination will be provided prior to the testing date.
4. Option A applicants will be notified as to whether or not they were accepted into the nursing program approximately two weeks after the completion of the lottery process. Alternates for lottery acceptance will also be notified. Applicants seeking advanced placement will be informed of priority for admission based on lottery selection.
5. Students accepted into the nursing program and those identified as alternates are required to attend an orientation meeting. During the meeting, information will be given regarding textbooks, uniforms, registration procedures, and other content.
6. Applicants who are not admitted will receive notification indicating waiting list position. In order to maintain waiting list position, they must complete with a grade of "C" or higher any prerequisites that were in progress at time of application.
7. Student Rights: The nursing student has certain rights in addition to those reflected in the College Student Handbook. These include:
 - a. The right to contact professional nursing boards regarding concerns about the educational program.
 - b. The right to know of the existence of a policy giving credit for previous nursing education and/or experience.

LENGTH OF PROGRAM AND ANTICIPATED EXPENSES

The core nursing program consists of sequenced courses over a four-semester period. Prerequisite courses are completed prior to these four semesters. In addition general education courses are required for completion of the Associate in Arts degree in nursing (Associate Degree in Nursing – ADN). Some students may need to take additional courses to meet English, reading and mathematics requirements.

Each unit costs \$26 for California residents, \$151 for non-residents of California and \$177 for international students. A College Services ID fee (\$10) and Health Services Fee (\$13) are assessed each semester.

During the four core semesters, lab material fees total approximately \$400, textbooks approximately \$1500, and additional supplies and uniforms approximately \$350. Students are responsible for their own living arrangements, uniform laundry and transportation to clinical agencies. Application fees for licensure as a registered nurse range from \$330 to \$370.

Information about costs of NLN-accredited nursing programs is available from the National League for Nursing Accrediting Commission, Inc., 61 Broadway – 33rd Floor; New York, NY 10006; telephone (800) 669-1656, ext 153 or www.nlnac.org.

ATTENDANCE

All students are expected to observe the attendance requirements of the Nursing Program as stated in the Nursing Program Student Handbook.

PROMOTION/PROGRESSION

In order to remain enrolled in and complete the program, the student must maintain a "C" grade or higher in all nursing courses and those general education courses specified by the California Board of Registered Nursing for completion of the nursing program. These courses include: PHIL 104, PSYC 251, and SPCH 110, SPCH 120, SPCH 130, SPCH 132, or SPCH 150. In combined nursing lecture/lab courses, the student must receive a minimum of "C" in lecture and a satisfactory grade in lab in order to successfully complete the course.

CRIMINAL BACKGROUND CHECK

Clinical placements are a mandatory component of the curriculum and may require clearance of a criminal background check. Students who do not clear agency requirements are not eligible for clinical placement and will, consequently, be ineligible to continue in the program. If there is any concern regarding clearance of a criminal background check, please contact the Health Occupations Division for additional information.

REGISTERED NURSE LICENSE APPLICATION

At the completion of the fourth semester of the Nursing Program, the nursing student files an application for licensure (NCLEX-RN) with the Board of Registered Nursing. The application and examination registration fee is \$275. In addition, the student may apply for an interim permit for \$30. These fees are subject to change by the Board of Registered Nursing.

As stated in the Board of Registered Nursing's application for licensure:

Applicants are required under law to report all misdemeanor and felony convictions. "Driving under the influence" convictions must be reported. Convictions must be reported even if they have been expunged under Penal Code 1203.4 or even if court ordered diversion program has been completed under the Penal Code or under Article 5 of the Vehicle Code. Also, all disciplinary action against an applicant's registered nurse, practical nurse, vocational nurse, or other professional must be reported. Failure to report prior convictions or disciplinary action is considered falsification of application and is grounds for denial of licensure or revocation of license. To make a determination [regarding eligibility for licensure] the Board considers the nature and severity of the offense, additional subsequent acts, recency of acts or crimes, compliance with court sanctions, and evidence of rehabilitation.

NURSING PROGRAM OPTIONS

There are six enrollment options in the Nursing Program:

- Associate in Arts Degree (also referred to as the "generic" option or Associate Degree in Nursing) – 914
- LPT-ADN (Licensed Psychiatric Technician to Associate Degree in Nursing) – 914
- LVN-ADN (Licensed Vocational Nurse to Associate Degree in Nursing) – 914
- LVN-30 Unit Option (LVN + 30 units qualifying for NCLEX-RN, non-degree)
- Transfer and Challenge
- Board of Registered Nursing Referral

For Options A, B, C, and E – To graduate with an Associate in Arts Degree in Nursing, the student is required to complete, in addition to the nursing core courses and nursing-related courses, the following general education courses: PSYC 251, PHIL 104, and SPCH 100, SPCH 120, SPCH 130, SPCH 132, or SPCH 150 and one (1) 3-unit course from U.S. History or American Government (U.S. History or American Government courses chosen from Plan A, Sections B1 or B2) as listed in the College's General Education Requirements found in the College General Catalog and Schedule of Classes. Option A students desiring to matriculate to the CSU or UC system should also take PSYC 101 and SOC 101 or ANTH 100. for additional information, please refer to CSU or UC program requirements.

CREDIT GRANTING POLICY:

Students who have successfully completed academic courses and/or have relevant knowledge and/or skills acquired in other than an accredited institution will be given advanced standing in the nursing program upon verification of such knowledge and/or skills.

TRANSFER CREDIT

- Credit will be granted for related previous education completed in:
 - Accredited Vocational or Practical Nursing courses
 - Accredited Registered Nursing courses
 - Accredited Psychiatric Technician courses
 - Other related courses (e.g. Anatomy and Physiology, Nutrition)
- Official transcripts and/or copies of certificates of completion must be submitted for credit to be granted.
- Credit will be granted based upon the content and hours of transferring courses and must be equivalent to courses in the Cerritos College Nursing Program.

CHALLENGE CREDIT (Competency-based)

- Credit may be granted for relevant knowledge and/or skills acquired through prior experience, courses in non-accredited institutions, and individual study which are essentially equivalent to a course for which credit is being requested.
- Credit shall be determined by successful completion of a comprehensive written examination and/or practical evaluation.
- Objectives for both the written and/or practical examinations are made available to the student prior to evaluation.
- Student must meet the requirements which govern credit by examination as stated in the college catalog.
- A minimum of twelve (12) units of the nursing curriculum must be in residency at Cerritos College in order to receive the Associate Degree in Nursing.

OPTION F —**BOARD OF REGISTERED NURSING REFERRAL**

Applicants for California licensure as registered nurses may be referred by the Board of Registered Nursing to complete specific areas of nursing content prior to taking the NCLEX-RN examination. PHARMACY TECHNOLOGY

PHARMACY CLERK PROGRAM

The pharmacy clerk is a non-registered, technical worker who performs the minimum non-discretionary tasks as allowed by the Board of Pharmacy of the State of California, under the direct supervision of a registered pharmacist. Employment in this field requires applicants to have good vision, hearing, the ability to communicate orally and the physical ability to perform tasks required of a pharmacy clerk. A Certificate of Completion shall be awarded to the student who completes with a grade of "C" or better the following courses:

	UNITS
PHAR 40L Pharmacy Clerk Lab	1
PHAR 45 Retail Products for Pharmacy Clerks	2
PHAR 47 Pharmacy Clerk Clinical Experience	2
PHAR 60 Pharmacy Introduction and Skills	2
MATH 20 Basic Mathematics	3
*BCOT 62 Microcomputer Keyboarding	1
or *BCOT 135 Typewriting Speed/Control Building	1
Total Units Required	11

*Students who provide documented ability to type 35 wpm or more may choose to waive the keyboarding requirement.

PHARMACY TECHNICIAN—920

The pharmacy technician is a skilled technical health worker who performs a wide variety of non-discretionary pharmacy related tasks under the direct supervision of a registered pharmacist. Successful completion of the pharmacy technician program qualifies one for registration with the California State Board of Pharmacy. Graduates are also encouraged to complete the Pharmacy Technician Certification Exam, the nationally recognized certification exam for pharmacy technicians.

LENGTH AND KIND OF PROGRAM

General education and Pharmacy technician classes are scheduled on the college campus. Correlated clinical experiences take place in selected hospitals and community pharmacies throughout the area. This broad-based program is especially suited for those students who may later choose to pursue higher education in health care areas. Courses are taught by practicing registered pharmacists and pharmacy technicians and are offered during the day and evening.

WRITING PROFICIENCY REQUIREMENT:

Completion of ENGL 50A and ENGL 50B with grades of Credit or "C" or higher, or earning a score on the Writing Proficiency Test sufficient for placement in ENGL 52.

MATHEMATICS PROFICIENCY REQUIREMENTS:

This requirement can be met by one of the following options:

- (1) Earn a score on the Basic Math Readiness test sufficient for placement in a course above the level of MATH 40 or
- (2) Completion of MATH 40 with a grade of Credit or "C" or higher, or
- (3) For other options see your counselor.

READING PROFICIENCY REQUIREMENTS

The requirement can be met by one of the following options:

- (1) Successfully complete the Reading Proficiency Test at the 12th grade level. The Reading Proficiency Test may be taken no more than once each semester.
- (2) Completion of READ 54 with a grade of Credit or "C" or higher.
- (3) For other options see your counselor.

HEALTH

Employment in this field requires applicants to have good vision, hearing, and the ability to communicate orally. Applicants must present evidence of physical fitness and ability to perform tasks required of a pharmacy technician. Lab, x-ray and immunization records meeting the standards of the clinical site must be completed after acceptance into the program.

EXPENSES

Students are expected to purchase a student body card. Enrollment fees, project fees, uniforms, books, and supplies will cost approximately \$1,000.00. Students are responsible for their own living accommodations, uniform laundry, and transportation to selected hospitals and clinics.

ATTENDANCE AND SCHOLARSHIP

All students are expected to observe the attendance requirements of the college and of the Pharmacy Technician Program. To remain in the program, the student must maintain a "C" or higher in each required course.

CRIMINAL BACKGROUND CHECKS

Clearance of a criminal background check may be required prior to clinical placement. Students who do not clear agency requirements are not eligible for clinical placement and will, consequently, be ineligible to continue in the course. If there is any concern regarding clearance of a criminal background check, please contact the Health Occupations Division for additional information.

REQUIRED DOCUMENTATION

1. Submit proof of High School graduation or equivalent.
2. Submit an official transcript of all college work to the Admissions and Records Office and a copy to the Health Occupations Division.
3. Submit assessment test scores for English, Reading, and Math prior to enrolling in PHAR 62. If you have not taken these tests, proof of clearance by course work must appear on your college transcript. If you do not have course work or test scores to submit, apply to Cerritos College, obtain a student number, take the assessment/placement test at the Assessment Center.
4. It is advised that you make an appointment with a counselor to review test scores and college work. To make an appointment with a counselor, call (562) 860-2451, extension 2231.
5. Prior to enrolling in PHAR 90 and PHAR 95, you must obtain a valid CPR card for Basic Life Support (Course Level "C" or C.P.R. for Health Care Providers), offered through the Heart Association or the American Red Cross prior to the first clinical experience.

**The program has made every reasonable effort to determine that everything stated in the information sheet is accurate. Matters contained herein are subject to change without notice by the admin-

istration of the department for reasons related to student enrollment, level of financial support, or for any reason at the discretion of the Program. The Program further reserves the right to add, amend, or repeal any of the rules, regulations, policies, and procedures, consistent with applicable laws.

PHYSICAL THERAPIST ASSISTANT PROGRAM--930 ASSOCIATE IN ARTS DEGREE

ADMISSION PROCEDURES AND REQUIREMENTS

1. Academic Requirements
 - a. Acceptable scores on College Placement Tests for English and Mathematics and Reading clearance or deficiencies removed
 - b. A&P 150, A&P 151 with grades of "C" or higher
 - c. All deficiencies in academic requirements must be removed. An overall Grade Point Average of 2.0 must be attained prior to admission to the Physical Therapist Assistant Program, and a grade of "C" or higher must be attained for each general education and required course. Applicants who have not completed 1b and 1c will not be considered for admission.
2. Health
 - a. Applicants must present evidence of physical fitness and ability to perform tasks required of a Physical Therapist Assistant. Lab, x-rays and immunization records meeting hospital standards must be completed after acceptance into the program.

SELECTION PROCEDURES

1. Academic Evaluation
 - a. All required documents, including progress reports, transcripts, and work verification from Physical Therapist employer must be in the Health Occupations Division Office by April 15.
 - b. No student whose college grade point average is below 2.0, or who has not cleared English, Math, or Reading deficiencies can be considered. These are considered minimum standards of academic preparation.
 - c. Additional consideration will be given for work experience in the field of physical therapy or related areas, and for students who have completed additional medical or science related classes.

EXPENSES

Students are expected to purchase a student body card. Enrollment fees, project fees, uniforms, books, and supplies which will cost approximately \$1200.

Students are responsible for their own living accommodations, uniform laundry, and transportation to selected hospitals and clinics.

ATTENDANCE AND SCHOLARSHIP

All students are expected to observe the attendance requirements of the College and of the Physical Therapist Assistant Program. To remain in the Program, the student must maintain a "C" or higher in each required and general education course. Lab coats are required in all hospital lab classes (PTA 126L, 236L, 246L).

CRIMINAL BACKGROUND CHECK

Clinical placements are a mandatory component of the curriculum and may require clearance of a criminal background check. Students who do not clear agency requirements are not eligible for clinical placement and will, consequently, be ineligible to continue in the program. If there is any concern regarding clearance of a criminal background check, please contact the Health Occupations Division for additional information.

PROCEDURE FOR APPLICATION

(To be completed in order as listed)

1. Complete application to the program. This can be obtained in either the Health Occupations Division (562) 860-2451, Ext. 2550, or Counseling Office, Ext. 2231. The application must be returned by April 15.
2. Submit two official transcripts of all college work. Submit one copy to the Health Occupations Division and one copy to the Admissions and Records Office.
3. Submit assessment test scores for English, Reading, and Math with your application by April 15. If you have not taken these tests, proof of clearance by course work must appear on your college transcript. If you do not have course work or test scores to submit, apply to Cerritos College, obtain a student number, take the assessment/placement test at the Assessment Center and record your test date on your program application by April 15. Students are accepted only in the Fall semester.
4. It is advised that you make an appointment with a counselor to review test scores and college work. To make an appointment with a counselor, call (562) 860-2451, Ext. 2231.
5. As soon as all of the above material is received and reviewed, you will be notified of acceptance or non-acceptance after May 1. If you are completing admission requirements during the spring session, a "work-in-progress" report must be submitted to the Health Occupations Division at the end of the first four weeks of the course.
6. If you are accepted into the Physical Therapist Assistant Program, you must present a valid CPR card for the Healthcare Provider offered through the Heart Association prior to the first hospital experience (PTA 126). Card must be valid throughout the program.

PRE-CHIROPRACTIC—650

CAREER PATHWAY

(The following curriculum does not lead to an Associate in Arts Degree. However students could fulfill requirements for a Natural Sciences Degree by completing 18 units including 2 Biological Sciences, 2 Physical Sciences and a math course beyond Intermediate Algebra).

Admission to most chiropractic colleges is based primarily on the candidates' academic achievement in a college program. Each prospective candidate must have completed course work, which could transfer to an accredited four-year college.

COMMON COURSE REQUIREMENTS

FOR MOST CHIROPRACTIC SCHOOLS:

FOR MOST UNDERGRADUATE STUDENTS:		UNITS
CHEM 111	General Chemistry	5
CHEM 112	General Chemistry	5
CHEM 211	Organic Chemistry	5
CHEM 212	Organic Chemistry	5
ENGL 100	Freshman Composition	4
ENGL 102	Freshman Composition and Literature	3
PHYS 101	General Physics	4
PHYS 102	General Physics	4
PSYC 101	General Introductory	3
SPCH 100	Fundamentals of Speech	3

ADDITIONAL REQUIREMENTS FOR SPECIFIC INSTITUTIONS:

Cleveland Chiropractic College of Los Angeles
www.clevelandchiropractic.edu

Applicants must have completed a minimum of 90 semester units. A minimum of 48 semester units must be the specified science and general education requirements. Students who hold a baccalaureate degree in a health science discipline with a grade point average of 2.50, or who hold a non-health science baccalaureate degree with an earned grade point average of at least 3.25 receive preference for admission.

BIOL 200	Principles of Biology	5
BIOL 201	Principles of Biology	5
Additional Social Sciences and Humanities		15

Southern California University of Health and Sciences
www.scuhs.edu

Formerly Los Angeles College of Chiropractic.

Applicants must have completed a minimum of 90 semester units. A baccalaureate degree is preferred, although not required. A grade of "C" or higher in all science and general education prerequisite courses is obligatory. The minimum grade point average is 2.50.

A&P 200	Human Anatomy	5
A&P 201	Human Physiology	5
or BIOL 200	Principles of Biology	(5)
and BIOL 201	Principles of Biology	(5)
or MICRO 200	Principles of Microbiology	(5)
and ZOOL 120	Introduction to Animal Biology	(4)
Additional Social Sciences, Fine Arts and Humanities		15

Spanish language classes are strongly recommended and can apply towards humanities.

THE REQUIREMENTS FOR CHIROPRACTIC SCHOOLS ARE SUBJECT TO CHANGE WITHOUT NOTICE.

CAREER OPPORTUNITIES: Job prospects are expected to be good for persons who enter the practice of chiropractic. Employment of chiropractors is expected to grow faster than the average for all occupations, through the year 2010 as consumer demand for alternative healthcare grows. The rapidly expanding older population, with their increased likelihood of mechanical and structural problems, also will increase demand. Demand for chiropractic treatment is also related to the ability of patients to pay, either directly or through health insurance.

PRE-DENTAL—651
CAREER PATHWAY

(The following curriculum does not lead to an Associate in Arts Degree. However students could fulfill requirements for a Natural Sciences Degree by completing 18 units including 2 Biological Sciences, 2 Physical Sciences and a math course beyond Intermediate Algebra).

Admission to most schools of dentistry is based primarily on the candidates' academic achievement in a college program and performance in the Dental Admissions Test (DAT). Because most of the applicants being admitted to dental schools possess a bachelor's degree, students are advised to integrate the dental school requirements into a program that will lead to a bachelor's degree in a major of their choice.

COMMON COURSE REQUIREMENTS
FOR MOST DENTAL SCHOOLS

		UNITS
BIOL 200	Principles of Biology	5
BIOL 201	Principles of Biology	5
CHEM 111	General Chemistry	5
CHEM 112	General Chemistry	5
CHEM 211	Organic Chemistry	5
CHEM 212	Organic Chemistry	5
ENGL 100	Freshman Composition	4
ENGL 102	Freshman Composition and Literature	3
PHYS 101	General Physics	4
or PHYS 201	Engineering Physics	(4)
PHYS 102	General Physics	4
or PHYS 202	Engineering Physics	(4)
PSYC 101, General Introductory Psychology: required by many dental schools.		

MATHEMATICS: The amount of mathematics beyond trigonometry needed will be determined by the major course of study the student elects to pursue.

RECOMMENDED ELECTIVES COURSEWORK: Anatomy/Physiology/Human Biology, Botany, Microbiology, Histology, Biochemistry, Genetics, Embryology, Cellular & Molecular Biology, College Algebra/Calculus/Statistics, Business Management, Accounting/Economics, Technical Writing Speech, Sociology/Anthropology, Foreign Language and Ceramics/Sculpture.

For information about specific dental school requirements, students are encouraged to consult "Admission Requirements of American Dental Schools," a catalog available from the American Association of Dental Schools, 1625 Massachusetts Ave., N.W. Washington, D.C. 20036 (Attn: Publications Assistant) or order from their website: www.aads.org.

THE REQUIREMENTS FOR DENTAL SCHOOLS ARE SUBJECT TO CHANGE WITHOUT NOTICE.

CAREER OPPORTUNITIES: Employment of dentists is expected to grow more slowly than the average for all occupations through 2010. Although employment growth will provide some job opportunities, most jobs will result from the need to replace the large number of dentists projected to retire. Job prospects should be good if the number of dental school graduates does not grow significantly, thus keeping the supply of newly qualified dentists near current levels. The dental profession offers a variety of career options – General Dentistry or one of eight recognized specialties: Dental Public Health, Endodontics, Oral Pathology, Oral Surgery, Orthodontics, Pediatric, Periodontics and Prosthodontics.

PRE-MEDICAL—652

CAREER PATHWAY

(The following curriculum does not lead to an Associate in Arts Degree. However students could fulfill requirements for a Natural Sciences Degree by completing 18 units including 2 Biological Sciences, 2 Physical Sciences and a math course beyond Intermediate Algebra).

Admission to medical school is highly competitive. Admittance is usually based primarily on the candidate's academic achievement in a college program and performance on the Medical College Admission Test (MCAT). Educational philosophies and goals, specific undergraduate course requirements, academic commitment beyond required course work, honors, extracurricular activities, leadership, application, essay, research, clinical experience, community service, volunteerism, and other qualifications for admission vary among the nation's medical schools. However, they all stress the importance of a strong foundation in the natural sciences (biology, chemistry and physics.), highly developed competence in English communication skills, both written and spoken; capacity for quantitative thinking, represented by mastery of mathematics, and the scientific method; a foundation for an ever-increasing insight into human behavior, thought and aspiration, through study of man and his society, as revealed by a breadth of social sciences, fine arts and humanities. Knowledge of a modern foreign language, specifically Spanish is strongly recommended. Computer literacy is now very necessary for almost all medical schools. Many schools recommend computer science courses and require entering students to have a computer.

Medical schools do not require you to major in a particular field. It is possible to major in any one of a large number of disciplines, integrating the course requirements for medical school. In choosing an undergraduate major the student should give careful consideration to select a major area of study that interests them and that will provide a foundation necessary for the pursuit of an alternative career, if necessary. "Pre-Med" is not a major at the University for an Undergraduate Degree. While many successful applicants major in one of the natural sciences, a science major is NOT required for admission to medical school.

LOWER DIVISION COMMON COURSE REQUIREMENTS FOR MOST MEDICAL SCHOOLS

		UNITS
BIOL 200	Principles of Biology	5
BIOL 201	Principles of Biology	5
BIOL 202	Molecular Biology/Genetics (highly recommended)	4
CHEM 111	General Chemistry	5
CHEM 112	General Chemistry	5
CHEM 205	Quantitative Analysis (highly recommended)	4
CHEM 211	Organic Chemistry	5
CHEM 212	Organic Chemistry	5
ENGL 100	Freshman Composition	4
ENGL 102	Freshman Composition & Literature	3
PHYS 101	General Physics	4
or PHYS 201	Engineering Physics	(4)
PHYS 102	General Physics	4
or PHYS 202	Engineering Physics	(4)

AP/CLEP credit will not be accepted for completion of required courses.

Community college pre-med students who plan to transfer to a university need to complete the general education required of the transfer institution, complete the requirements of the undergraduate major and may complete the lower division courses required by the medical school.

MATHEMATICS: Trends in medical education require the medical student to be adequately trained in mathematics. Almost all schools recommend one year of mathematics. Since calculus is recommended in several medical schools, and in some instances required, it is advantageous to complete one year of calculus or at least one semester of calculus. The second semester course may be math statistics or computer science, depending on the specific medical school requirement. Your undergraduate major will help further define your choice of mathematics requirements.

ELECTIVES: Additional science course work in biochemistry, cellular biology, genetics, molecular biology, quantitative analysis chemistry and upper division biological science courses is considered part of the academic commitment beyond the minimum required course work. Spanish is strongly recommended and computer literacy is mandatory.

For further programming and more detailed information about specific medical school programs and requirements you are encouraged to consult The Medical School Admission Requirements (MSAR), published annually by the Association of American Medical Colleges. It is an excellent resource book to help students approach their goals realistically. Each medical school's specific requirements are detailed in the MSAR. Copies are \$25.00 and may be purchased via the Association of American Medical Colleges (AAMC) web site: www.aamc.org. Another recommended web site you may want to consider is The Princeton Online Review (www.review.com/medical/) which provides comprehensive information for researching the complexities of medical school admissions.

THE REQUIREMENTS FOR MEDICAL SCHOOL ARE SUBJECT TO CHANGE WITHOUT NOTICE.

CAREER OPPORTUNITIES: Employment of physicians and surgeons will grow about as fast as the average for all occupations through the year 2010 due to the continued expansion of health career industries. The growing and aging population will drive overall growth in the demand for physician services. Future physicians may be more likely to work fewer hours, retire earlier, have lower earnings, or need to practice

in underserved areas. Opportunities should be very good in rural and low-income areas, because some physicians find these areas unattractive due to lower earnings potential. Unlike their predecessors, newly trained physicians face radically different choices of where and how to practice. New physicians are much less likely to enter solo practice and more likely to take salaried jobs in group medical practices, clinics and integrated healthcare systems.

PRE-OPTOMETRY — 648 CAREER PATHWAY

(The following curriculum does not lead to an Associate in Arts Degree. However students could fulfill requirements for a Natural Sciences Degree by completing 18 units including 2 Biological Sciences, 2 Physical Sciences and a math course beyond Intermediate Algebra).

Admission to school of optometry offering the Doctor of Optometry is competitive. College grades (GPA) and the Optometry Admission Test (OAT) scores are used in preliminary screening. The OAT tests the following: biology, chemistry, organic chemistry, mathematical ability, physics, writing and reading comprehension. The test bulletin describes the test in detail, application procedures, and test dates. A copy of this bulletin can be obtained by writing to the Optometry Admission Testing Program, 211 E. Chicago Ave., Chicago, IL 60611. Another booklet of interest to applicants is "Optometry: A Career with Vision", giving descriptions and comparisons of individual school programs, entering class profiles, costs, etc. This booklet may be obtained by writing the American Optometric Association, 243 N. Lindbergh Blvd., St. Louis, MO 63141. Because admission has become increasingly more difficult, having completed the equivalent of a bachelor's degree is now required in California Schools of Optometry. The bachelor's degree may be in any major of the student's choice. A volunteer experience with an optometrist is highly appropriate in your preparation for optometry school. First, as a prospective optometry professional, you gain valuable insight into your decision whether optometry is the career path for you. Second, you develop the opportunity to receive a letter of support from an optometry professional, a vital element of your application.

Besides the bachelor's degree and the Optometry Admission Test results, all applications must submit three letters of recommendation from non-relatives. Your work within the community, student government, or other service organizations is considered to be important and should be included in your application. Volunteer experience with an optometrist is highly recommended in your preparation for optometry school. For the academic year Fall 2004 /Spring 2005, ninety-eight students were admitted from an applicant pool of three hundred and seventy-two. The average G.P.A. of the ninety-eight students admitted was 3.32 G.P.A. The OAT scores ranged from 318 - 332.

Biochemistry is required as of Fall 2003/Spring 2004. It is taught at most universities and preferred as an upper division course.

ADDITIONAL COURSES STRONGLY RECOMMENDED for application to the School of Optometry: Genetics, Physiology of the Aging Process, Cell Biology of the Eye, Mechanisms of Ocular Disease, Molecular & Cell Biology, and Integrative Biology. These courses are found at universities and tend to be upper division coursework.

The minimum of a bachelor's degree or its equivalent is now required for admission to UCBSO. Besides the additional science classes, the grade point average is extremely important. This last academic year, Fall 2004/Spring 2005 there were 225 applicants, of which sixty students were admitted with an average G.P.A. of 3.50 - 3.95. The average OAT score was 300 - 390. In addition to the academic requirements, professional letters of recommendation are critical to the U.C. Berkeley School of Optometry application process.

THE REQUIREMENTS FOR SCHOOLS OF OPTOMETRY ARE SUBJECT TO CHANGE WITHOUT NOTICE.

CAREER OPPORTUNITIES: An optometrist or Doctor of Optometry (O.D.) are primary health care providers who are specifically trained and state licensed to examine, diagnose, manage, and treat conditions and diseases of the human eye and visual system. They prescribe treatment such as corrective lenses, contact lenses or vision therapy. Job opportunities for the employment of optometrists is expected to grow about as fast as the average for all occupations through 2010 in response to the vision care needs of a growing and aging population. Employment of optometrists would grow more rapidly were it not for anticipated productivity gains that will allow each optometrist to see more patients. These expected gains stem from greater use of optometry assistants and other support personnel, who will reduce the amount of time optometrists need with each patient. Also, new surgical procedures using lasers are available that can correct some vision problems, but they remain expensive. Optometrists will still be needed to perform pre-operative and post-operative care for laser surgery.

PRE-PHARMACY — 649 CAREER PATHWAY

(The following curriculum does not lead to an Associate in Arts Degree. However students could fulfill requirements for a Natural Sciences Degree by completing 18 units including 2 Biological Sciences, 2 Physical Sciences and a math course beyond Intermediate Algebra).

Admission to schools of pharmacy is highly competitive. Schools of Pharmacy offering the Doctor of Pharmacy generally require the

completion of a minimum of 60 semester units of pre-pharmacy coursework. Applicants who have received a baccalaureate degree will be considered more favorably than applicants who have fulfilled only minimum requirements. A solid understanding of the fundamental sciences is essential for the study of the pharmaceutical and biochemical sciences. A discipline in the natural sciences is often the popular major selected.

Preferably, applicants will have successfully completed a baccalaureate degree in chemistry, biology, physics, or a related scientific field. The minimum requirement for acceptance without a BS degree is completion of the 72 semester units of a pre-pharmacy program of study. An introductory computer class (e.g., proficiency in a word processing program, spreadsheet, and Power Point; ability to send and receive emails with attachments and ability to search and retrieve information from the World Wide Web) and a speech communication class are required along with the following general education:

PHYS 101	General Physics	4
PHYS 102	General Physics	4

Humanities 12 units
Fine Arts, literature, philosophy, religion, ethics, foreign language, preferably Spanish, cultural diversity, performing arts or visual arts

Social Sciences/Behavioral Sciences 12 units
Include one semester of economics and one semester of psychology. The remaining units can be from sociology, anthropology, political science, geography or cultural diversity.

It is strongly recommended that students complete the requirements for a bachelor's degree. The absolute, minimum requirement is 63 semester units taken at an accredited college or university in the United States and completion of the prerequisites for this school. Students who have only completed the minimum coursework and who do not obtain a bachelor's degree may be at a competitive disadvantage in the application process. Applicants who have not earned a bachelor's degree prior to the start of classes in the Fall, will only be considered if they have exceptional academic performance and evidence of outstanding leadership potential. There were 1,038 applications received. Number of applicants invited to interview was 214 of which 99% had a bachelor's degree. Sixty students were admitted to the Class of 2005. The average overall G.P.A. of the students admitted was 3.72.

The minimum requirement is 62 semester units. Although this is the absolute minimum requirement, about 95% of the students accepted to U.C.S.F. PharmD program have completed a bachelor's degree – usually in biology, biochemistry, or chemistry. The average grade point average of all accepted students is about 3.70. Each year, less than about 5% of admitted students enter directly from a California Community College. Last year U.C.S.F. PharmD program accepted 122 students from 1,200 applicants.

Although a bachelor's degree is not required, a degree can make an applicant more competitive, in recent years a strong majority of the successful applicants have had degrees. There is no absolute G.P.A. cutoff. Admission is competitive and is based on a number of factors in addition to G.P.A. including science grades, recommendations, essay, interview results, and demonstration of your ability to succeed in 17 units or more per semester. Competition can vary from year to year depending upon the size and strength of the applicant pool. The average G.P.A. over the past four years has ranged from a 3.1 to 3.4. Check UOP PharmD website for specifically listed general education coursework. Recommended electives include anatomy, genetics, physiology, microbiology, biochemistry, analytical chemistry and physical chemistry.

A minimum of 90 semester or 135 quarter units must be completed prior to entrance, with a minimum 3.0 cumulative G.P.A. and 2.75 Math and Science G.P.A. Sometimes a lower cumulative G.P.A. might be considered if grades in mathematics and science are stronger. It is highly recommended that Math and Science courses be completed during the regular academic year and not during a summer term. Priority is given to those who have completed the Math and Science requirements at the time of the application and to those applicants who have completed more than the minimum amount of coursework. Candidates who have received or will receive a Baccalaureate degree or who have completed units in excess of the minimum required would be considered more favorably than applicants who have fulfilled only minimum requirements. The School of Pharmacy Office of Admissions uses an interview process to make determinations on admissions. The interview consists of two parts: an oral interview and a writing test. The purpose of the interview is to assess your oral communication skills, writing skills, leadership ability, and your motivation or potential to be a pharmacist.

THE REQUIREMENTS FOR PHARMACY SCHOOLS ARE SUBJECT TO CHANGE WITHOUT NOTICE.

CAREER OPPORTUNITIES: Changes in health care delivery are giving the role of pharmacist a new dimension: significant responsibility as a member of the health team with direct patient care. Hospital pharmacists work on educating patients on safe use of drugs, advising prescribers about the appropriate dosing and following patient's response to usage. Career advancement exists in administration and research. In addition to dispensing medications, community pharmacists guide patients in non-prescription drugs and being alert to adverse pharmacies. Industrial Pharmacists may work in research and development including the formulation, evaluation, packaging and quality control of drugs. Some pharmacists are employed by governmental agencies such as narcotic divisions, food and drug evaluation and regulation, and public health.

The department of Physical Therapy offers an undergraduate pre-physical therapy option and Master of Physical Therapy program which meet pre-professional and professional education requirements to become a licensed physical therapist in all 50 states.

CAREER OPPORTUNITIES: Physical therapists help persons with various diseases or injuries to overcome their disabilities. They are members of a rehabilitation team, which is directed by a physician. Although qualified physical therapists may treat many types of patients, some specialize in caring for children or for patients with arthritis, amputations or paralysis. Successful completion of a Bachelor or Master's Degree qualifies one to take the State of California examination to practice as a Physical Therapist.

Students are required to complete a minimum of 72 semester units. This coursework must include 21 units of general education classes besides the prerequisite science classes. All of the required science courses must be completed at the time of application. The majority of students entering the school have completed 3 or more years of pre-professional coursework or possess a bachelor's degree. An applicant may study in any major provided the prerequisite courses are taken. The life/health sciences: biology, animal science, zoology, and chemistry are the most common and popular majors. Most successful applicants have their coursework with a grade point average of 3.5 – 4.0. Admission is very competitive and grades are 30% in the evaluation process. Scores from the Graduate Record Examination (GRE, must be taken by October) also weigh 30%. Combined, the school believes they are the best predictors of how successful an applicant will be in completing the veterinary curriculum. Substantial experience with animals, which should include working or volunteer experience with veterinarians, a minimum of 180 hours is required. California residents are given priority in the admissions process.

The College of Veterinary Medicine at Western University of Health Sciences was recently founded on August 8, 1998. The college admitting its charter class of 85 students in the Fall of 2003. Of those students admitted the average overall G.P.A. was 3.15 and the average prerequisite G.P.A. was 3.25. The class entering Fall 2005 consists of 100 students from 413 applications received. The cumulative grade point average was 3.25 and prerequisite grade point average was 3.29. All applicants must take either the Medical College Admissions Test (MCAT) or the General Graduate Record Examination (GRE). Animal-related experience must total at least 500 hours of hands-on experience that goes beyond observation. Supervisors should be able to assess applicant's interest in animal well being, work habits and personal integrity. Appropriate venues include, but are not limited to the following: veterinary practices, animal medical environments, commercial animal production operations, regulatory animal control, humane shelters, animal entertainment (zoos etc.) and animal research institutions.

Applications for entry Fall 2005 will be available online by June 1, 2005. Annual tuition will be approximately \$30,750.

THE REQUIREMENTS FOR VETERINARY SCHOOLS ARE SUBJECT TO CHANGE WITHOUT NOTICE.

CAREER OPPORTUNITIES: Employment of veterinarians is expected to increase faster than the average for all occupations through the year 2012. New graduates continue to be attracted to small-animal medicine because they prefer to deal with pets and to live and work near heavily populated areas. Beginning veterinarians may take positions requiring evening or weekend work to accommodate the extended hours of operation that many practices are offering. Some veterinarians take salaried positions in retail stores offering veterinary services. Self-employed veterinarians usually have to work hard and long to build a sufficient client base. Job prospects may be better for veterinarians who specialize in farm animals than for small animal practitioners because of low earnings in the former specialty and because many veterinarians do not want to work in rural or isolated areas. Continued support for public health and food safety, national disease control programs, and biological research on human health problems will contribute to the demand for veterinarians, although positions in these areas of interest are few in number.

The following Security Management Associate in Arts Degree program meets guidelines established by the California Community Colleges Chancellor's Office.

ASSOCIATE IN ARTS DEGREE REQUIREMENTS:

Complete a minimum of 60 units, including (1) the Security Management Core requirements and (2) A.A. degree general education requirements.

SECURITY MANAGEMENT CORE		UNITS
AJ 101	Introduction to Administration of Justice	3
AJ 112	Introduction to Security Management	3
AJ 210	Legal Aspects of Security Management	3
AJ 211	Investigative Techniques for Security Management	3
AJ 212	Public Safety and Security Management	3
AJ 213	Public Safety Communications	3
AJ 214	Information Security	3

CAREER OPPORTUNITIES: Upon completion of the Security Management Associate in Arts Degree program employment within the public and private security sector is available. The security industry encompasses a wide range of services from standard guard duties to complex responsibilities ranging from public safety to major corporate security activities. Those students who are existing employees within the security industry will have the advantage of a quality education, which can be applied towards promotional, and assignment responsibilities. These opportunities range from supervision of a relatively few security personnel to management of both public and private security agencies. The career opportunities within the security industry consist of positions in loss prevention, risk management asset protection, health care, government, entertainment, sports, retail and corporate settings.

TOTAL VERIFICATION REQUIREMENTS 21

Career Opportunities: Upon completion of the courses, employment is available in educational settings where the aide will be supervised by a licensed Speech-Language Pathologist.

SPEECH-LANGUAGE PATHOLOGY ASSISTANT — 940

The Speech-Language Pathology Assistant curriculum prepares graduates to work under the supervision of a licensed Speech-Language Pathologist, who evaluates, diagnoses, and treats individuals with various communication disorders. The program provides a concentration of speech-language classes, related courses, and supervised field experiences that will prepare students to assist speech-language pathologists in treating disorders related to articulation and phonology, anomalies and hearing. In addition, students will be trained in the use of alternative and augmentative communication.

Courses provide instruction in methods of screening for speech, language, and hearing disorders and in following written protocols designed to remediate individual communication problems. Students are placed in supervised field experiences in school, hospital, and rehabilitation settings to work with different types and ages of clients.

Graduates will be eligible to apply for licensure with the California Speech-Language Pathology and Audiology Board. Employment opportunities exist in health care and education settings where the Speech-Language Pathology Assistant must be supervised by a licensed Speech-Language Pathologist.

CRIMINAL BACKGROUND CHECK

Clearance of a criminal background check may be required prior to field experience. Students who do not clear agency requirements are not eligible for clinical placement and will, consequently, be ineligible to continue in the course. If there is any concern regarding clearance of a criminal background check, please contact the Health Occupations Division for additional information.

TEACHING CREDENTIAL PREPARATION

The State of California provides for a two-step, five-year program leading to the Professional Clear Teaching Credential. A student may complete the requirements for a Preliminary Clear Credential within an approved professional preparation program including student teaching and may be employed at that point, providing all requirements have been met (except the fifth year). Within five years, the student must complete an additional year of study. At that point, a Professional Clear Teaching Credential is granted. The required lower division courses may be completed at Cerritos College. For more information, log on to the California Commission on Teaching Credentialing website at www.ctc.ca.gov and the TEACH California Website at www.calteach.com

SINGLE SUBJECT INSTRUCTION CREDENTIAL

(Primarily for Secondary Schools)

A teacher authorized for Single Subject instruction may be assigned to teach this subject at any grade level--pre-school through classes for adults. In practice, most teachers with Single Subject authorization teach in junior or senior high schools, grades 7-12.

A candidate lacking this major background may validate competency by passing an examination in a specified subject matter category. No minor is required.

MULTIPLE-SUBJECT INSTRUCTION CREDENTIAL (Liberal Studies/Elementary School Teaching)

A teacher authorized for Multiple Subject instruction may be assigned to teach in any self-contained, multiple subject classroom—pre-school through classes for adults. In practice, most teachers with Multiple Subject authorization teach in Early Childhood and Elementary Education, pre-school through grade six.

Completion of the courses recommended below will partially satisfy requirements for the Liberal Studies elementary school teaching option offered at the indicated CSU's and UCR. The courses are part of a curriculum that can be started at a community college and completed at the CSU or UCR. The entire curriculum is designed for individuals who seek the pre-professional subject matter preparation for elementary school teaching consistent with the standards established by the California Commission on Teacher Credentialing.

According to California law, any major can be selected to partially satisfy elementary school teacher preparation requirements. A Liberal Studies major however, is recommended because it provides the best preparation for future elementary school teachers. At most universities, the Liberal Studies major incorporates professional and subject matter content included in the California Teaching Standards for elementary school instruction.

With the recent enactment of the No Child Left Behind federal regulations, school districts are now requiring a passing score on the California Subject Examination for Teachers (CSET) for all new teachers hired. It is recommended that students take the CSET after transfer, per the advice of university department or credential advisors. The CSET is administered by the National Evaluation System, Inc. It is a five-hour test consisting of three separate subtests, each containing both multiple-choice and essay questions. Subtest I measures knowledge in reading, language and literature, history and social science; Subtest II covers science and mathematics; and Subtest III includes physical education, human development; visual and performing arts. Once a subtest has been passed, it does not have to be taken again, as long as the score is used toward certification within five years of the testing date. For further information on the CSET, visit the CSET website at www.cset.nesinc.com.

Students who wish to choose an academic major other than Liberal Studies in order to prepare for elementary school teaching should schedule an appointment with a counselor.

Students who choose a liberal arts major in order to benefit from a broad interdisciplinary liberal arts education and do not wish to pursue elementary school teaching should see a Cerritos College counselor for advisement. Requirements may vary from those listed below.

An Associate in Arts Degree in liberal studies is not available at Cerritos College. Students may however, declare Liberal Arts & Science-General, as a major.

CBEST

It is recommended that students seeking a teaching credential take the CBEST (California Basic Educational Skills Test) the semester before transferring to a university. The CBEST is an entrance requirement for most university credential programs. The CBEST verifies proficiency in reading, mathematics, and writing. Passing the CBEST is a requirement for obtaining a teaching credential issued by the California Commission on Teacher Credentialing and is required prior to student teaching. A test fee is required. For more information, log onto www.cbest.nesinc.com

WELDING—861

CERTIFICATE OF ACHIEVEMENT

Welding Technology Certificates of Achievement are available under three options: Arc Welding, Gas Tungsten Arc Welding, and Pipe Welding. The basic core courses must be taken for all three certificate options.

WELDING BASIC CORE COURSES

WELD 39	Welding Shop Math	2
WELD 50	Blue Print Reading for the Welding Trades	3
WELD 100	Fundamentals of Welding	2
WELD 120	Beginning Arc Welding	4
WELD 170	Structural Fabrication	2
or WELD 53	Pipe Layout	(2)
		13

NOTE: The WELD 39 requirement for a Certificate of Achievement may be met with a satisfactory score on the Math Placement Test.

ARC WELDING OPTION—857

WELD 200	Intermediate Arc Welding	4
WELD 210L	Arc Welding Applications	2
WELD 220	Certification and Licensing for Welders	2
		21

NOTE: The student must also pass the L.A. City or AWS certification for structural steel with both the SMAW and FCAW processes. These certifications may be obtained through the Welding Department.

INERT GAS WELDING OPTION—858

WELD 130	Gas Tungsten Arc Welding Fundamentals	4
WELD 240	Advanced Gas Tungsten Arc Welding Lab (2 labs required)	4
WELD 250L	Gas Tungsten Arc Welding Applications (2 labs required)	4
		25

PIPE WELDING OPTION—859

WELD 52	Pipe Welding Fundamentals	4
WELD 54L	Advanced Pipe Welding	2
WELD 130	Gas Tungsten Arc Welding Fundamentals	4
WELD 200	Intermediate Arc Welding	4
WELD 210L	Arc Welding Applications	2
		29

NOTE: The student must also pass the ASME section IX6G performance exam available through the Welding Department.

ASSOCIATE IN ARTS DEGREE REQUIREMENTS:

The student must complete one of the certificate options and electives and general education to achieve a minimum of 60 units.

RECOMMENDED ELECTIVES: MTT 100, ENGT 131, WELD 55

CAREER OPPORTUNITIES: Welder, welding inspector, welding technician or fitter, pipe fitter, sheet metal mechanic, and maintenance mechanic. Welders are employed in aircraft industries, shipyards, job shops, pipeline construction, and building construction.

WOMEN'S STUDIES

The A.A. degree in Women's Studies is a two-year academic program geared for transferring students. Its emphasis is to explore the role of gender as it influences culture, politics, economics and women's history.

The underlying academic objectives of our program are captured in the mission statement: "Women's Studies believes that the attitudes that shape a society's treatment of gender influence its economic, social and cultural politics. As such, we hold that women's rights should be studied in the broader context of human rights. Since we are committed to meeting the needs of all our students, we promote an inclusive curriculum."

Announcement of Courses

This section of the catalog provides the course description for all courses approved by the Cerritos College Curriculum Committee.

All courses, unless otherwise indicated, apply for credit toward an A.A. Degree in accordance with California Administrative Code, Title V, Section 55805.5.

Courses that do not meet the A.A. Degree requirements are indicated with a statement “(Not degree applicable)” beside the course title.

Students are advised to see a counselor for clarification if they have any questions regarding the appropriateness of a course to meet their educational goal.

Please check with your counselor and the department for new developments in curriculum that have not been included in the catalog.

CALIFORNIA ARTICULATION NUMBERS (CAN)

The California Articulation Number System, known as CAN, is a means of identifying comparable courses offered at Cerritos College and other colleges in California. CAN is a system that uses the same prefix and number to identify a course on every participating campus. Each campus has its own number; the CAN is added to denote courses that can be used in lieu of each other at participating colleges. For example, if CAN BUS 2 (BUSA 101) is completed at Cerritos College, that course will be accepted as a course that is designated as CAN BUS 2 at another college campus.

A CAN-identified course assures that a course is not only transferable, but will be used on the receiving campus in the same way as its own CAN-identified course. Over 100 campuses in California are using the CAN System to assist their students in the transfer process. More than 80 Cerritos College courses carry a CAN designation. The CAN designation for Cerritos College courses is listed in the catalog with course descriptions. (See BUSA 101). Additional information is available in the CAN Catalog of Courses in the Counseling Office and online at www.can.csus.edu.

ADMINISTRATION OF JUSTICE

(Humanities/Social Sciences Division)

The following courses have been developed by an Area Advisory Committee and are uniform in content with the offerings of most colleges and in conformance with guidelines from the California Community College Chancellor's office.

AJ 71

FIRST AID—

ADMINISTRATION OF JUSTICE 2 UNITS

Class hours: 2 lecture

Prerequisite: None.

This basic course in emergency first aid and cardiopulmonary resuscitation emphasizes how to recognize and render assistance to the ill or injured where there is an airway obstruction, respiratory arrest, cardiac arrest, severe bleeding, shock, actual or suspected fractures, head injuries, or other life-threatening environmental circumstances. This course meets the California Department of Health requirements as described in the California Administrative Code. A basic Red Cross Certificate will be issued to those students who successfully complete the course.

AJ 91

REPORT WRITING PROCEDURES 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

This course includes the procedures and practices commonly used to gather data and prepare a variety of police records. Emphasis will be placed upon the need to use correct spelling, sentence structure, punctuation and vocabulary in criminal justice reports to meet statistical, legal and prosecution requirements of the criminal justice system.

AJ 101

(CAN AJ 2)

INTRODUCTION TO

ADMINISTRATION OF JUSTICE 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

This course provides a study of the history and philosophy of the system of administration of criminal justice in the United States. It examines the various sub-systems; role expectations and their interrelationships; theories of crime, punishment, and rehabilitation; ethics; education and training for professionalism in the system; and legal words and phrases as an aid in the communication process.

Transfer Credit: CSU; UC

AJ 102

CONCEPTS OF CRIMINAL LAW

(CAN AJ 4)

3 UNITS

Class hours: 3 lecture

Prerequisite: None.

This course provides an introduction to the historical development and philosophy of law and constitutional provisions; as well as crime definitions, classifications of crime, legal research, legal methodology, and concepts of law as a social force. A brief analysis of criminal intent, parties to a crime, elements of crime, corpus delicti, defenses to crimes and an introduction to laws of arrest will also be undertaken in this class.

Transfer Credit: CSU; UC

AJ 103

CRIMINAL PROCEDURES

3 UNITS

Class hours: 3 lecture

Prerequisite: None.

This course provides a detailed examination of California criminal procedure, including the California court system, jurisdiction and venue, laws of arrest, grand jury proceedings, extradition, pre-trial procedures, conduct of criminal trials, rights of the defendant, post-trial motions and appeals, probation and parole.

Transfer Credit: CSU;

AJ 104

CRIMINAL EVIDENCE

3 UNITS

Class hours: 3 lecture

Prerequisite: None.

This course stresses the origin, development, philosophy, and constitutional basis of evidence; constitutional and procedural considerations which affect arrest, search and seizure; kinds and degrees of evidence; the rules governing the admissibility of evidence; and judicial decisions relating to individual rights.

Transfer Credit: CSU

AJ 105

COMMUNITY RELATIONS

3 UNITS

Class hours: 3 lecture

Prerequisite: None.

This course provides a study of the relationship between law enforcement agencies and the changing communities they serve. The student will compare various approaches to preventing crime and limiting the effects of crime on the individual and the community. The course will also focus on the ethics, politics and the professional image necessary to maintain positive rapport between law enforcement agencies and their communities.

Transfer Credit: CSU; UC

AJ 110

CONCEPTS OF ENFORCEMENT SERVICES

3 UNITS

Class hours: 3 lecture

Prerequisite: None.

This course explores the theories, philosophies and operational concepts of Law Enforcement Field Services, and examines the role expectations of the police field officer. Emphasis is placed upon patrol, traffic and public service responsibilities and their relationship to the total criminal justice system.

Transfer Credit: CSU

AJ 112

INTRODUCTION TO SECURITY MANAGEMENT

3 UNITS

Class hours: 3 lecture

Prerequisite: None

Corequisite: None

Recommendation: None

This course is an introduction to private as well as public security management. The historical, philosophical, and legal basis for security services is examined. Emphasis is placed on the role of the security organization and security personnel in modern society, concepts of professionalism and ethics, types and functions of security operations, and career pathways in security management.

Transfer Credit: CSU

AJ 130

TRAFFIC CONTROL AND INVESTIGATION

3 UNITS

Class hours: 3 lecture

Prerequisite: None.

This course is an in-depth study of the California Vehicle Code, the enforcement of basic traffic laws, selective enforcement, public relations, highway safety engineering, and violator contact. Also included are accident investigation, skid mark analysis, preservation of evidence, hit and run investigation, the intoxicated driver, enforcement methods and psychology, and specialized traffic enforcement units.

Transfer Credit: CSU

AJ 150

INTRODUCTION TO CORRECTIONS

3 UNITS

Class hours: 3 lecture

Prerequisite: None.

This course introduces the student to the philosophy, history, functions and objectives of the system of corrections in the United States. It includes a study of correctional institutions, community based corrections, parole and probation. An overview of special problems and clientele, custody practices and procedures, and treatment technique will be stressed.

Transfer Credit: CSU

AJ 173

ADMINISTRATIVE OF JUSTICE OCCUPATIONAL WORK EXPERIENCE

3-4 UNITS

Class hours: One (1) hour control class each week plus 15 hours of employment per week for Administration of Justice work experience 173 or 20 hours of employment per week for Administration of Justice work experience 174. The employment must be in a job related to the student's educational goal.

Prerequisite: (1) Concurrent enrollment in the Administration of Justice vocational program with 7 or more UNITS including occupational work experience. (2) Consent of the department.

Occupational Work Experience is a supervised employment program in an approved work station related to the student's declared major. Students meet with their instructor for a minimum of one hour per week and will receive credit for on-the-job learning experiences that are new or are an expansion of their regular responsibilities. Student who are not employed but wish to gain work experience may be placed in a non-paying position if such opportunities are available. This course may be taken a maximum of 16 units.

Transfer Credit: CSU

3 UNITS

Class hours: 3 lecture

Prerequisite: None

Corequisite: None

Recommendation: Satisfactory completion of the English Placement Process or ENGL 20 or equivalent with a grade of Credit or "C" or higher.

This course deals with all aspects of public safety communications. It will cover the techniques of effectively communicating facts, information, and ideas in a clear and logical manner for a variety of public safety reports, such as crime/violation/incident reports, letters, memoranda, directives, and administrative reports. Students will gain practical experience in interviewing, note taking, report writing, and testifying.

INFORMATION SECURITY 3 UNITS

Class hours: 3 lecture
Prerequisite: None
Corequisite: None
Recommendation: None
This course focuses on procedures, policies, and equipment designed to protect private and government proprietary and intellectual information. Emphasis is placed on physical and technical security, security management responsibilities, and countermeasures designed to protect information collection, storage, processing, and transmission in hard copy, electronic, and Internet mediums.

CRIMINAL INVESTIGATION 3 UNITS

Class hours: 3 lecture
Prerequisite: None.
This course stresses the fundamentals of investigation: crime scene search and recording, collection and preservation of physical evidence, scientific aids to investigation, modus operandi, sources of information, interviews and interrogation, follow-up investigation and case preparation.
Transfer Credit: CSU

AJ 221
NARCOTICS AND VICE CONTROL 3 UNITS

Class hours: 3 lecture
Prerequisite: None.
This course is an introduction to the fields of narcotics and vice investigation. It examines the detection, suppression, apprehension and prosecution of narcotic and vice law violators. Field identification of controlled substances and their effects on the body are stressed. Laws relating to bookmaking, gambling, prostitution and morals offenses are also covered.
Transfer Credit: CSU

AJ 222
JUVENILE PROCEDURES 3 UNITS

Class hours: 3 lecture
Prerequisite: None.
This course emphasizes the organization, functions, and jurisdiction of juvenile agencies; the processing and detention of juveniles; juvenile case disposition; juvenile statutes and court procedures relative to juvenile offenders.

ANATOMY AND PHYSIOLOGY

(Science/Engineering/Math Division)

A&P 120
INTRODUCTION TO HUMAN ANATOMY AND PHYSIOLOGY 4 UNITS

Class hours: 3 lecture/1 quiz/2 lab
Prerequisite: Satisfactory completion of the English Placement Process or ENGL 52 or equivalent with a grade of Credit or "C" or higher.
Corequisite: None.
Recommendation: None.
This course is designed as a survey of human anatomy and physiology. It covers the basic principles of human anatomy and physiology including a survey of the tissues, organ systems, and principal anatomical features. Emphasis is also placed on integrated organ system physiology, human genetics and development. (This course is designed primarily for non-biology majors.)
*Transfer Credit: CSU; UC**
**UC credit limits may apply. A&P 120, A&P 130, A&P 150 and A&P 151 combined: maximum credit, one course. A&P 120, A&P 130, A&P 150, A&P 151, A&P 200 and A&P 201 combined: maximum credit, 2 courses.*

A&P 130
HUMAN ANATOMY AND PHYSIOLOGY 5 UNITS

Class hours: 4 lecture/1 quiz/2 lab
Prerequisite: Satisfactory completion of the English Placement Process or ENGL 52 or equivalent with a grade of Credit or "C" or higher, satisfactory completion of the Reading Placement Process or READ 54 or equivalent with a grade of Credit or "C" or higher, and CHEM 100 or equivalent with a grade of Credit or "C" or higher.
Corequisite: None.
Recommendation: None.
This course examines the gross and microscopic structures of the human body using a systematic approach. Emphasis is placed on the normal function and integration of the organ systems. Homeostatic imbalances of many systems are examined. The laboratory utilizes models, human cadaver, skeletal materials, dissection and selected physiological exercises. This course is designed for students entering the nursing program at Cerritos College; however, it also meets the needs of other allied health programs. This course is strongly recommended for students who plan on taking A&P 200 and A&P 201.

ANTHROPOLOGY

(Humanities/Social Sciences Division)

ANTH 100 (CAN ANTH 4) CULTURAL ANTHROPOLOGY 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

This course traces the social behavior of present societies exploring various cultures on earth. The class will study those societies in terms of culture growth, through a survey of the basic, learned behavior patterns. Thus the class will study a wide range of cultural phenomena, including material culture, social organization, customs, religions, languages, family life, economics, the arts and literature. (This course is not open to students who are currently enrolled in or who have received credit for Anthropology 101.)

Transfer Credit: CSU; UC

ANTH 101 FACES OF CULTURE 2 UNITS

Class hours: 2 lecture

Prerequisite: None.

This is an introductory study of the structures and process of culture. The basic concepts of culture are presented including subsistence patterns, organizing devices, patterns

for transmission of culture, economics, political organizations, social control, and culture change. The methods of anthropological research and major theoretical orientations are also described. (This course is not open to students who are currently enrolled in or who have received credit for Anthropology 100.)

ANTH 120 (CAN ANTH 6) INTRODUCTION TO ARCHAEOLOGY 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

Archaeology is the study of mankind's past. This course will cover the history of archaeology, and explore the objectives and methods of modern archaeology. Today's archaeological curiosity is tempered by the scientific method; a combination of sciences in order to get a better grasp on a total understanding of people. This course will explore the world of the archaeologist in order to appreciate the impact that the study of antiquities has had in understanding modern human cultures.

ANTH 170 INTRODUCTION TO LANGUAGE AND CULTURE 3 UNITS

Class hours: 3 lecture

Prerequisite: None

Corequisite: None

Recommendation: Satisfactory completion of English Placement Process or ENGL 52 or equivalent with a grade of Credit or "C" or higher, and satisfactory completion of the Reading Placement Process or READ 54 with a grade of Credit or "C" or higher.

This course introduces the student to the study of language from an anthropological perspective. Methodology, language and cultural meaning, status and language variation, acquisition of language, multilingualism, and language and institutions will be explored within a cross-cultural perspective.

Transfer Course: CSU; UC

ANTH 200 NATIVE PEOPLES OF NORTH AMERICA 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

The course is a study of the origins, culture areas, and sociocultural patterns of the native Americans, north of Mexico. This will include a study of the historic spectrum, from prehistory to contemporary times. Emphasis will be on the culture change after contact with Europeans, and the impact of the Western expansion.

Transfer Credit: CSU; UC

ANTH 201 NATIVE PEOPLES OF CALIFORNIA 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

This course is a survey of California Indian cultures including their prehistory and social, political, and religious beliefs. The effects of European, Middle American, and Asian contact, and the resultant adaptations on current life situations of contemporary American native Americans will be examined.

Transfer Credit: CSU; UC

ANTH 202 THE MAYA, INCA AND AZTECS: ANCIENT CIVILIZATIONS OF THE AMERICAS 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

This course is a survey of ancient Indian culture of Northern, Middle and South America, including their prehistory and social, political, and religious beliefs. The impact of European contact and resultant adaptations, as well as current life situations of tribal descendants in contemporary society will be examined.

ANTH 204 THE ANTHROPOLOGY OF SEXUALITY AND GENDER 3 UNITS

Class hours: 3 lecture

Prerequisite: None

Corequisite: None

Recommendation: Satisfactory completion of English Placement Process or ENGL 52 or equivalent with a grade of Credit or "C" or higher, and satisfactory completion of the Reading Placement Process or READ 54 with a grade of Credit or "C" or higher.

This course examines the cultural construction of human sexuality and gender in an anthropological framework. Biological and cultural bases for the multiple expressions of sexuality and gender found around the world will be presented. Case studies will include food foraging, horticultural, agricultural, industrial, and post-industrial societies. A central concern is the interaction between subsistence practices, cultural economies, and status in the construction of "normal" and "abnormal" sexualities and genders.

ARCH 43/44 (Not degree applicable)

ARCHITECTURAL DRAWING OCCUPATIONAL WORK EXPERIENCE 3-4 UNITS

Class hours: One (1) hour control class each week plus 15 hours of employment per week for Architectural Drawing work experience 73 or 20 hours of employment per week for Architectural Drawing work experience 74. The employment must be in a job related to the student's educational goal.

Corequisite: (1) Concurrent enrollment in the Architectural Drawing vocational program with 7 or more units including occupational work experience.

Work experience/career internship provides the opportunity for Architectural Drawing students to apply skills and knowledge learned in the classroom to related experiences on the job/training site. The aim of the course is to assist students in expanding specific job skills. In the process of doing so, it creates greater communication with increased understanding between the student/workers, the college, and the employer/trainers. Students also pursue a program of self-evaluation to determine individual job weaknesses and strengths. Semester projects that relate to the major and job skills must be completed on the job/training site. These courses may be taken for a maximum of 4 times.

ARCH 110 INTRODUCTION TO ARCHITECTURE AND ENVIRONMENTAL DESIGN 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

This course provides an overview of the architectural profession allowing the student to make an informed career choice. Topics include professional ethics, licensing and educational requirements, career opportunities in related fields, typical organizational structure of architectural firms, legal requirements, and a review of contemporary issues facing the profession.

*Transfer Credit: CSU; UC**

**UC credit limits may apply: Any or all of the following architecture courses - ARCH 110, 122, 212 - combined with ART 120 and ART 121: maximum credit, 18 units.*

ARCH 111 ARCHITECTURAL DRAFTING AND DESIGN I 3 UNITS

Class hours: 2 lecture/4 lab

Prerequisite: None.

This course is an introduction to the preparation of architectural working drawings. The course includes drawing conventions, design considerations, and the relationship between different types of architectural drawings, specifications, and construction techniques. Emphasis is placed on residential construction and commercial buildings. The theory of computer-aided drafting is included.

Transfer Credit: CSU

ARCH 112 HISTORY OF ARCHITECTURE 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

This course is a survey of the history of architecture from the birth of civilization to the present. Emphasis is placed upon the understanding of the technological, sociological, aesthetic, and artistic influences which determine our built environment. This course will familiarize students with the different architectural periods as well as their characteristic design elements and significant architects.

Transfer Credit: CSU; UC

ARCH 113 BUILDING CODES 4 UNITS

Class hours: 4 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course is an in-depth study of the statutes and regulations which have been established by law to protect the public health, safety, and welfare. Analysis of the construction of buildings, their use, and accessibility requirements in compliance with applicable laws will be stressed.

Transfer Credit: CSU

ARCH 121 ARCHITECTURAL DRAFTING AND DESIGN II 3 UNITS

Class hours: 2 lecture/4 lab

Prerequisite: ARCH 111 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Corequisite: None.

Recommendation: None.

This course is a continuation of the study of methods utilized in the preparation of architectural working drawings. This course includes advanced drawing conventions, design considerations, construction specifications, and structural requirements. Analysis

of the materials and construction specifications, and structural requirements. Analysis of the materials and construction details of commercial and industrial buildings is given. Emphasis on the purpose and presentation of working drawings and their relationship to building codes is provided.

ARCH 123 INTRODUCTION TO 2-D COMPUTER AIDED DRAFTING 4 UNITS

Class hours: 3 lecture/3 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course provides an introduction to two-dimensional computer aided drafting and design using AutoCAD software. Students will learn the fundamentals of creating and modifying objects, the placing of text and dimensions, working with blocks and hatches, and creating professional quality output. Hands-on exercises will be used to reinforce the functions of AutoCAD. Students who repeat this course will improve skills through further practice and remain current with latest software updates. This course may be taken a maximum of 2 times.

ARCH 212 ARCHITECTURAL DESIGN THEORY I 3 UNITS

Class hours: 2 lecture/4 lab

Prerequisite: ARCH 111 or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This course is an introduction to the creative thinking process and its application to basic architectural design theory. Exercises emphasize the development of basic skills and presentation techniques used in the design of simplified architectural projects. Focus on the investigation of the relationship between theoretical concepts, color, space, form, and texture is emphasized.

*Transfer Credit: CSU; UC**

Class hours: 3 lecture/3 lab

Prerequisite: ARCH 123 or ENGT 138 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Corequisite: None.

Recommendation: None.

This course provides an introduction to three-dimensional computer aided drafting and design using AutoCAD, Architectural Desktop and VIZ Render software. Students will learn the fundamentals of creating and modifying three-dimensional objects, the placing of cameras and lights, the creation and application of materials, computer rendering techniques, and creating professional quality output. Hands-on exercises will be used to reinforce the functions of the applicable software. Students who repeat this course will improve skills through further practice and remain current with latest software updates. This course may be taken a maximum of 2 times.

CHINESE BRUSH PAINTING 3 UNITS

Class hours: 2 lecture/4 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course provides the basic introduction to oriental brush, ink and colors. The student learns concepts in design and composition, as well as the philosophy that is the basis of Chinese brush painting. Subjects include traditional floral and animal studies, and abstract expressions. Techniques for mounting of art work are also studied. This course may be taken a maximum of 2 times.

ART 100

INTRODUCTION TO WORLD ART 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: ENGL 52 and READ 54 or equivalent with grades of Credit or "C" or higher.

This course is an overview of world art from prehistoric times to the present. It is an introduction to the ideas that prompt art making and the search for "beauty" and "truth" (aesthetics) in various cultural contexts. It includes an analysis of the language of the visual arts using examples from throughout the world. It also includes an investigation of the artistic techniques and materials used in painting, printmaking, photography, film, ceramics, sculpture and architecture.

ART 116

BEGINNING PRINTMAKING

(CAN ART 20)

3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: None.

This is an introductory course in the theory and practice of printmaking that will expose the student to the historical development and contemporary practice of printmaking as an original art form. The student will explore the processes of relief printmaking (linocut and woodcut) intaglio printmaking (etching, drypoint, and softground), and screenprinting and their contemporary interaction with photo-

graphics and digital imagemaking through application and appreciation. Recommended for drawing and painting majors, graphic design majors, and photography majors.

Transfer Credit: CSU; UC

ART 117

INTERMEDIATE PRINTMAKING

3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: ART 116 or equivalent with a grade of Credit or "C" or higher.

This is a course designed to further the student's investigation into the aesthetics and techniques of screenprinting, intaglio (aquatint etching softground, whiteground, sugarlift,) multiple color relief printmaking, and collagraphy. Related photographic and digital image-making techniques will be studied and applied further, such as photo-screenprinting, photo-etching, halftoning, posterization technique, and use of the enlarger, digital camera, flatbed scanner, and slide scanner. This course may be taken a maximum of 2 times.

Transfer Credit: CSU; UC

ART 120

TWO-DIMENSIONAL DESIGN

3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: None.

ART 120 is an intensive studio course that introduces the practical and the conceptual aspects of two-dimensional design. Working in both color and black and white, students will use the materials, tools, and techniques of design to create a portfolio. They will study the aesthetic functions and formal concerns of line, shape, value, texture, and surface and develop the understanding and vocabulary of the two-dimensional design.

Transfer Credit: CSU; UC

ART 121

THREE-DIMENSIONAL DESIGN

(CAN ART 16)

3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: ART 120 or equivalent with a grade of Credit or "C" or higher.

This course will serve as an introduction to organization and problem solving in three-dimensions with an emphasis on formal concerns. It will also serve as an introduction to the materials, techniques and tools used in the making of three-dimensional forms. This course will emphasize the use and comprehension of the vocabulary of three-dimensional design and its application to the visual image.

Announcement of Courses

ART 130A (CAN ART 10) **FUNDAMENTALS OF PAINTING** 3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: None.

This course is an introduction to the material and creative processes of painting. Students learn how to think about pictorial space, how to structure composition, the characteristics and handling of paint, and the application of color theory. Painting is primarily from still life, with the students' personal interpretation and use of imagination encouraged.

Transfer Credit: CSU; UC

ART 130B **FUNDAMENTALS OF PAINTING** 3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: ART 130A or equivalent with a grade of Credit or "C" or higher.

This course is a continuation of ART 130A. The student works more deliberately with the expressive properties of color, value, and the organization of pictorial space. A variety of still life painting problems provide the student opportunity to discover his or her strengths and artistic persuasion. Lecture and critiques open the student to a deeper sensibility as well as an increased theoretical understanding of painting.

Transfer Credit: CSU; UC

ART 133A **WATERCOLOR PAINTING** 3 UNITS

Class hours: 1 lecture/5 studio

Prerequisite: None.

This introductory course pursues the study of the various techniques and methods of watercolor as used by artists today: transparent, opaque, dry brush, glazing, mixed media, egg tempera, air brush, and colored pencils. Emphasis is placed on traditional, modern, and oriental approaches as relative to other art studies, such as drawing, design, calligraphy, oil painting, and history. The student will be directed towards developing skills in the painting of still life, landscape, figure, portrait, and abstraction.

Transfer Credit: CSU; UC

ART 133B **WATERCOLOR PAINTING** 3 UNITS

Class hours: 1 lecture/5 studio

Prerequisite: ART 133A or equivalent with a grade of Credit or "C" or higher.

This course is a continuation of the procedures and studies begun in ART 133A. Emphasis is on acquiring further skills and experiences in various watercolor techniques and practices. Students are expected to learn how to properly mat, glass, and frame paintings for exhibition and display.

Transfer Credit: CSU; UC

ART 134 **WATERCOLOR** **LANDSCAPE PAINTING I** 2 UNITS

Class hours: 1 lecture/3 studio

Prerequisite: None.

This course emphasizes the traditional use of materials and techniques related to watercolor painting. The course will analyze color theory, various paint applications, light logic and perspectives as they relate specifically to watercolor and nature, with landscape as a major focus of subject matter.

Transfer Credit: CSU; UC

ART 135 **WATERCOLOR** **LANDSCAPE PAINTING II** 2 UNITS

Class hours: 1 lecture/3 studio

Prerequisite: None.

Recommendation: ART 134 or equivalent with a grade of Credit or "C" or higher.

This course emphasizes new methods and technical approaches to watercolor painting. The course will analyze color theory, various paint applications, light logic and perspective as they relate specifically to watercolor and nature with landscape as a major focus of subject matter. Beginning with the traditional use of materials and techniques related to watercolor painting, the course is designed to further develop the students' understanding of techniques and personal investigation of watercolor and the landscape.

ART 136 **PAINTING FOR ART MAJORS** 3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: ART 110 or equivalent with a grade of Credit or "C" or higher.

Recommendation: ART 120 or equivalent with a grade of Credit or "C" or higher.

This is a course in painting designed specifically for art majors. Topics include use and manipulation of painting materials and color; depicting mood and sensation; expression of form, edge, and negative space; and devices in composition. Projects include creative thinking as applied to non-objective painting, formal invention, and symbolic imagery. Knowledge of art history is expanded through gallery and museum visits and assigned reading. This course may be taken a maximum of 2 times.

Transfer Credit: CSU; UC

ART 144 **JEWELRY/METALSMITHING** 3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: None.

Recommendation: None.

This is an introductory course covering the design and technical processes of jewelry and metalsmithing. This course also explores three-dimensional (3-D) concepts, forms, space manipulation, and issues of wearability. The implication and effects of the history and culture of jewelry and body ornamentation are learned through audio/visual lectures and museum visits. Students will be assisted with the production of their own original jewelry design projects. This course may be taken a maximum of 2 times.

Transfer Credit: CSU

ART 145 **JEWELRY CASTING** **AND MOLDS** 3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: ART 144 or equivalent with a grade of Credit or "C" or higher.

This is the second course in a sequential program covering the design and technical processes of jewelry and metalsmithing. Emphasis will be placed on the continued development of skills in designing and fabrication of jewelry and metalsmithing. The techniques and projects covered are forging/smithing, hollow constructions and casting processes. The study of the history and culture of jewelry and body ornamentation is continued through audio/visual lectures and museum and gallery visits. This class may be taken a maximum of 2 times.

ART 150 (CAN ART 6) **INTRODUCTION TO CERAMICS** 3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: None.

Recommendation: None.

This course is designed as an introduction to the ideas, techniques, history, and traditional of the art of ceramics.

Transfer Credit: CSU; UC

ART 151 **CERAMICS – BEGINNING** **WHEELTHROWING** 3 UNITS

Class hours: 2 lecture/4 lab

Prerequisite: ART 150 or equivalent with a grade of Credit or "C" or higher.

Corequisite: None

Recommendation: None.

This course builds on the knowledge and skills learned in ART 150, Introduction to Ceramics. Emphasis is on the use of the potter's wheel. This course may be taken a maximum of 2 times.

ART 153
CERAMICS-INTERMEDIATE
WHEELTHROWING **3 UNITS**

Class hours: 2 lecture/4 lab
 Prerequisite: ART 151 or equivalent with a grade of Credit or “C” or higher
 Corequisite: None

Recommendation: None
 This course builds on techniques learned in ART 151, Ceramics-Beginning Wheelthrowing. Emphasis is on the use of the potter’s wheel. Glaze technology is introduced. This course may be taken a maximum of 2 times.

Transfer Credit: CSU; UC

ART 154
CERAMICS-INTERMEDIATE
HANDBUILDING **3 UNITS**

Class hours: 2 lecture/4 lab
 Prerequisite: ART 152 or equivalent with a grade of Credit or “C” or higher
 Corequisite: None

Recommendation: None
 This course builds on techniques learned in ART 152 Ceramics-Beginning Handbuilding. Emphasis is on the use of complex hand-forming techniques. Glaze technology is introduced. This course may be taken a maximum of 2 times.

ART 156L
CERAMICS LAB **1 UNIT**
(17 weeks)

Class hours: 4 lab
 Open entry/open exit
 Prerequisite: None.

Corequisite: One or more of the following courses: ART 150, ART 151, ART 152, ART 155, ART 252, ART 253 or ART 255

Recommendation: None.

This lab course is intended to complement the other courses in the ceramics curriculum. It is designed to give practical experience in the techniques and technology of ceramics, including handbuilding, wheel-throwing, sculpture, surface treatments, and glazing. The course will improve the skills and creativity of students enrolled in the ceramics courses. This course may be taken a maximum of 4 times.

ART 160
LIFE SCULPTURE **3 UNITS**

Class hours: 2 lecture/4 studio
 Prerequisite: None
 Corequisite: None.

Recommendation: None

This is a course designed to introduce the student to the art and technique of sculpting the human figure from observation of a live model. Instruction will include structural analysis of the human figure, human anatomy, the use of the elements and principles of sculpture, and techniques of sculpting the figure in modeling materials. This course may be taken a maximum of 4 times.

Transfer Credit: CSU; UC

ART 162 (CAN ART 12)
INTRODUCTION TO SCULPTURE **3 UNITS**

Class hours: 2 lecture/4 studio
 Prerequisite: None.

Recommendation: ART 121 or equivalent with a grade of Credit or “C” or higher.

This course is designed as an introduction to the ideas, techniques, and materials involved in the making of sculptural forms.

Transfer Credit: CSU; UC

ART 163
THE TECHNIQUES
OF SCULPTURE **3 UNITS**

Class hours: 2 lecture/4 studio
 Prerequisite: None.

Corequisite: None.

Recommendation: ART 162 or equivalent with a grade of Credit or “C” or higher strongly recommended.

This course is a continuation of ART 162, Sculpture I. New ideas, techniques, and materials for making sculpture are introduced. This course may be taken a maximum of 2 times.

Transfer Credit: CSU; UC

ART 170A
BEGINNING WOOD
SCULPTURE I **2 UNITS**

Class hours: 1 lecture/3 lab
 Prerequisite: None.

This course covers the selection, preparation and use of hand tools as related to wood sculpture. The student investigates the properties and characteristics of wood as a basic three-dimensional design medium. Techniques such as knife carving, gouging, chiseling, rasping, texturing, sanding and finishing will be covered. This course may be taken a maximum of 2 times.

Transfer Credit: CSU

ART 170B
BEGINNING WOOD
SCULPTURE II **2 UNITS**

Class hours: 1 lecture/3 lab

Prerequisite: ART 170A or equivalent with a grade of Credit or “C” or higher.

This course covers the use of hand tools and power equipment as related to creating wood objects. The designing of both traditional and contemporary wood-sculpture items will be studied. The areas of lamination, fabrication, and subtractive techniques in advanced projects will be learned. This course may be taken a maximum of 2 times.

Transfer Credit: CSU

ART 171
OCCUPATIONAL WORK
EXPERIENCE IN ART **1 UNIT**

Class hours: 1 lecture

Prerequisite: None.

Corequisite: Enrollment in 7 or more units, including Occupational Work Experience in Art, in a declared Art major. One unit of Occupational Work Experience in Art requires 60 non-paid hours or 75 paid hours of work per semester.

Recommendation: None.

Work Experience/Career Internship provides the opportunity for students to apply skills and knowledge learned in the classroom to related experiences on the job/training site. The aim of the course is to assist students in expanding specific job skills. This creates greater communication with increased understanding between the students/workers, the college, and the employers/trainers. First semester students meet with their instructors for a minimum of one hour per week. Students also pursue a program of self-evaluation to determine individual job weaknesses and strengths. Semester projects that relate to

their major and job skills must be completed on the job/training site. Students will meet weekly with the instructor until their approved projects are completed. This course may be taken a maximum of 4 times.

ART 180 CALLIGRAPHY I 3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: None.

This foundation course explores the history, theory, and techniques which shape letterforms, past and present. Emphasis will be on developing skill and knowledge through the historical study of calligraphy and the manipulation of tools and materials. The Roman style will be studied through a modular approach beginning with linear forms, then broad pen sans serif forms, and finally Humanist Bookhand. An appreciation for color, design, and the aesthetic qualities of letter forms will be stressed in their contemporary usage. This course may be taken a maximum of 2 times.

Transfer Credit: CSU

ART 181 CALLIGRAPHY II 3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: ART 180 or equivalent with a grade of Credit or "C" or higher.

This course focuses on the development of the Italic letterforms in addition to the continued study of the historical development of letterforms, past and present. Emphasis will be on the continued in-depth development and refinement of calligraphic skills and knowledge. Various styles of Italic will be studied in conjunction with a review of the Roman styles of the previous semester. Calligraphy II will continue to stress an appreciation for the color, design, and aesthetic properties of quality letterforms in their contemporary usage. This course may be taken a maximum of 2 times.

Transfer Credit: CSU

ART 182A LETTERING AND TYPOGRAPHY 3 UNITS

Class hours: 2 lecture/ 4 studio

Prerequisite: None.

The exploration of lettering and typography, its creation, use and function in printing, packaging, publishing, and advertising constitute the basis for this course. Skills will be developed through practical studio exercises using both hand skills and computer typography. The classification of type styles will be learned and the basic elements of typography will be explored.

Transfer Credit: CSU

ART 182B LETTERING AND TYPOGRAPHY II 3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: ART 182A or equivalent with a grade of Credit or "C" or higher.

The design and application of letterforms requiring increased technical skills and intensive experience in the use of current and computer graphics programs provide the basis for this second semester of lettering and typography. Topics include illustrative lettering, experimental typography, computer-designed letterforms, digital typography and type design.

Transfer Credit: CSU

ART 183 INTRODUCTION TO ILLUSTRATION 3 UNITS

Class hours: 2 lecture/4 lab

Prerequisite: ART 110 or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

In this course students learn the principles and practices of illustration through the examination of artists and illustrators as well as the understanding of materials, techniques, and practical assignments faced by the illustrator. This course may be taken a maximum of 2 times.

Transfer Credit: CSU

ART 183A COMMERCIAL BRUSH LETTERING 1 UNIT

Class hours: 1 lecture/3 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course explores the history, theory and techniques of brush lettering with an emphasis on designing for commercial applications. The class will focus on hand lettering techniques with manipulation of traditional flat and pointed brushes. This course may be taken a maximum of 2 times.

Transfer Credit: CSU

ART 183B COPPERPLATE CALLIGRAPHY 1 UNIT

Class hours: 1 lecture/3 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This foundational course explores the history, theory, and techniques which shape letterforms, past and present. Emphasis will be on developing skill and knowledge through

the historical study of calligraphy and the manipulation of tools and materials. The Copperplate style will be studied through a modular approach beginning with linear forms, then flexible pointed pen forms. An appreciation for color, design, and the aesthetic qualities of letterforms will be stressed in their contemporary usage. This course may be taken a maximum of 2 times.

Transfer Credit: CSU

ART 184 GRAPHIC DESIGN I 3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: ART 182A or equivalent with a grade of Credit or "C" or higher.

Fundamental studies are conducted in the history, theories, techniques, and practices of graphic design. Emphasis will be placed on the application of basic design principles to graphic design problems in visual communications. Design solutions will explore the potential of layout and design, utilizing illustration, photography, typography, and symbology.

Transfer Credit: CSU

ART 185 RENDERING I 3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: ART 110 or equivalent with a grade of Credit or "C" or higher.

Beginning techniques in the delineation of representational subject matter are explored. Emphasis is on sharp focus drawing using black and white media such as pencils, ink, felt tips, as well as colored felt tips and Prismacolor pencils. This course is important to those interested in graphic design, industrial design, and technical illustration.

Transfer Credit: CSU

ART 186 COMPUTER GRAPHICS IN ART AND DESIGN 3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: None.

This course covers the basic concepts and techniques of computer graphics. The principles of art and design are taught in a studio setting emphasizing hands-on experience. Students create original illustrations using vector-based graphics software. This course may be taken a maximum of 2 times.

Transfer Credit: CSU

ART 188 DESIGN FOR DESKTOP PUBLISHING 3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: None.

This course covers page design and layout systems for desktop publishing. The principles and terminology of typography are stressed. The scanning of graphic material such as illustrations and photographs will be covered with regard to the requirements of the publishing industry. Hands-on experience is emphasized. This course may be taken a maximum of 2 times.

Transfer Credit: CSU

ART 189L COMPUTER GRAPHICS LAB 1 UNIT

Class hours: 3 lab

Prerequisite: None.

Corequisite: One of the following courses: ART 182A, ART 182B, ART 184, ART 186, ART 188, ART 192, ART 195, ART 196, ART 284, PHOT 110 or PHOT 112.

Recommendation: None.

This course is designed to increase skills in computer graphics systems. Students will receive individual help with on-going projects assigned in corequisite graphics and multimedia classes. Work may be assigned in the following areas; presentation techniques and hand-on software tutorials. This course may be taken a maximum of 4 times.

Transfer Credit: CSU

ART 190 ANIMATION PRINCIPLES 3 UNITS

Class hours: 2 lecture/4 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This class demonstrates the theory of animation principles through practical exercises in hand-drawn cel animation. Students explore the use of animation techniques in contemporary character-based animated narratives. Students will apply concepts of timing, weight, personality and balance to hand drawn animation projects. This class may be taken for a maximum of 2 times.

Transfer Credit: CSU

ART 191A 3D COMPUTER ANIMATION 3 UNITS

Class hours: 2 lecture/4 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course will serve as an introduction to 3D computer animation by taking animation principles developed in classical animation and applying those techniques using computer

animation software. Particular emphasis will be placed on character modeling, anthropomorphic techniques, and character modeling. Topics will also include lighting composition, and rendering. Students will animate and render a short narrative as the final project. This course may be taken a maximum of 2 times.

Transfer Credit: CSU

ART 191B 3D COMPUTER ANIMATION PROJECT 3 UNITS

Class hours: 2 lecture/4 lab

Prerequisite: ART 191A or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This course will provide students with the opportunity to continue their exploration of 3D computer animation by writing, modeling, storyboarding, and animating an original animation short. Topics will include storyboard creation, shot development, editing, and sound design. This course may be taken a maximum of 2 times.

Transfer Credit: CSU

ART 192 PHOTOSHOP/DIGITAL IMAGING 3 UNITS

Class hours: 2 lecture/4 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course covers image editing of photographic media for commercial art direction using Adobe Photoshop and other image editing programs. Topics include scanning basics, image conversion, painting and editing tools, manipulation selections, photographic compositing, masks and layers, color corrections and making color separations. This course may be taken a maximum of 2 times.

Transfer Credit: CSU

ART 192B ADVANCED PHOTOSHOP 3 UNITS

Class hours: 2 lecture/4 lab

Prerequisite: None

Corequisite: None

Recommendation: None

This course covers advanced image editing of photographic media for commercial art direction using Adobe Photoshop. Emphasis is on more advanced Photoshop techniques as well as more involved design projects that will further enhance the student's portfolio. This course may be taken a maximum of 2 times.

Transfer Credit: CSU

ART 193 MOTION PICTURE EDITING 3 UNITS

Class hours: 2 lecture/4 lab

Prerequisite: None

Corequisite: None

Recommendation: None

This course serves as an introduction to motion picture editing by taking students through the history of editing and analyzing specific techniques using examples of significant work. Students will apply their knowledge of editing techniques through exercises on non-linear editing tools where they will edit their own versions of scenes from common footage.

Transfer Credit: CSU

ART 194 MULTIMEDIA DESIGN 3 UNITS

Class hours: 2 lecture/4 lab

Prerequisite: None.

Corequisite: None.

This course acquaints students with the use of multimedia programs and the tools they provide to create full featured interactive multimedia prototypes, applications, and presentations for commercial distribution. Class work and lab assignments provide hands-on experience for the students. This course may be taken a maximum of 2 times.

Transfer Credit: CSU

ART 195 3D MODELING FOR ANIMATION 3 UNITS

Class hours: 2 lecture/4 lab

Prerequisite: None.

Corequisite: None.

This course is an overview of interactive three-dimensional modeling and rendering techniques on the Macintosh. The course involves assignments emphasizing and understanding of modeling and rendering software tools, and animation concepts. This course may be taken a maximum of 2 times.

Transfer Credit: CSU

ART 196 WEB DESIGN WITH FLASH AND DREAMWEAVER 3 UNITS

Class hours: 2 lecture/4 lab

Prerequisite: None.

Corequisite: None.

Recommendation: CIS 205 or equivalent with a grade of Credit or "C" or higher.

The course introduces students to the principles and design skills essential to designing web pages. The students will use web page creation software and the tools they provide to create full-featured-interactive web sites. This class may be taken for a maximum of 2 times.

Transfer Credit: CSU

ART 197

DIGITAL PAINTING

3 UNITS

Class hours: 2 lecture/4 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course is a bridge connecting conventional drawing and painting tools and techniques with their computer counterparts. Specifically, this course explores color theory, art history and conventional media, and demonstrates how to translate foundational art theory using digital painting tools. It addresses the needs of students making the transition from traditional to digital media. This course may be taken a maximum of 2 times.

Transfer Credit: CSU

ART 198

MOTION GRAPHICS

3 UNITS

Class hours: 2 lecture/4 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course addresses the process of communication through typographic animation and visual effects. Emphasis is placed on creating emotional expression and identity through composites of video and text. Topics include the combination of on-screen text and imagery in feature films, broadcast applications, video poetry, and fine art videos. This course may be taken a maximum of 2 times.

ART 213

INTERMEDIATE LIFE DRAWING

3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: ART 112 or equivalent with a grade of Credit or "C" or higher. Student must be at least 18 years of age or have parental consent in order to take this course.

In this course students continue the process of learning to draw the live model. Students practice exploring the rhythm and design inherent in the human figure, seeing and understanding the space a form occupies, understanding the kinesthetics of anatomy, and learning the economy of good drawing technique. The history and evolution of drawing as an art form and contemporary purposes in figure drawing are discussed in lectures. This course may be taken a maximum of 2 times.

Transfer Credit: CSU; UC

ART 214

SPECIAL STUDIES IN LIFE DRAWING

3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: ART 213 or equivalent with a grade of Credit or "C" or higher.

This course offers advanced work in figure drawing. Emphasis is placed on the student's

development of personal style. The pictorial space of the drawing is given the same importance as in a painting, and the student seeks to elevate the classroom sketch to a well designed and effective work of art. The course considers the relationship between the student's intentions in drawing to his or her work in other media, such as painting or sculpture. Focus is placed on the personal and creative aspects of drawing, how and what a drawing communicates, developing an advanced technique, and using professional materials. This course may be taken a maximum of 2 times.

ART 217L

ADVANCED SCREENPRINTING/ ADVANCED ETCHING LAB

1 UNIT

Class hours: 3 lab

Prerequisite: None.

Corequisite: Concurrent enrollment in or prior completion of ART 218 or ART 219 or equivalent with a grade of Credit or "C" or higher.

Recommendation: None.

This is a lab course intended to complement advanced courses in the Printmaking curriculum. It is designed to give practical experience in working with the techniques of relief printing, intaglio (etching, aquatint, drypoint, softground, viscosity, and photoetching), screenprinting and photo-screenprinting, collagraphy, embossing, monotype and digital imagemaking in conjunction with the traditional printmaking techniques. The course will increase the skill and creative output of the student in areas of his/her choice. This course may be taken a maximum of 4 times.

Transfer Credit: CSU

ART 218

SCREENPRINTING

3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: ART 117 or equivalent with a grade of Credit or "C" or higher.

This course emphasizes advanced practice, technique, and historical knowledge of screenprinting as a fine art medium. An important feature of the course will be the study of the materials, stencils, films, block-outs, photomechanical processes, and inks of the screenprinting process. Photographic and digital image-making techniques related to photoscreenprinting will be studied and applied further, including use of the enlarger, stat camera, digital camera, flatbed scanner, and slide scanner. Instruction will cover serigraphic flatbed printing as well as use of the rotary press for textile printing. Students will be required to complete particular aesthetic and technical assignments through their prints. This course may be taken a maximum of 2 times.

Transfer Credit: CSU; UC

ART 219

ADVANCED ETCHING

3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: ART 117 or equivalent with a grade of Credit or "C" or higher.

This course is designed to explore the artistic possibilities and various techniques of advanced etching, including grounds, aquatints, photoetching, multiple plate color etching, viscosity printing, collagraphy, and embossing. Related digital imaging and photographic techniques will be presented for integration into the etching process. Students will be required to deal with particular aesthetic issues and techniques. This course may be taken a maximum of 2 times.

Transfer Credit: CSU; UC

ART 231

INTERMEDIATE PAINTING

3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: ART 130B or equivalent with a grade of Credit or "C" or higher.

This course is designed for students who want a deeper understanding of painting: its history, theories, creative purposes, and technical skills. Through lectures, discussions, and studio work, students discover, articulate, and bring into being their own artistic identity and style. Practical assistance is given on an individual basis. Emphasis is placed on the student's progression from idea to technical means and visual accomplishment. Students may initiate their own painting projects, or use what subject matter is presented to the class. This course may be taken a maximum of 2 times.

Transfer Credit: CSU; UC

ART 232

PORTRAITURE: DRAWING/ PAINTING THE HEAD

3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: ART 112 or equivalent with a grade of Credit or "C" or higher.

This course is an introduction to portraiture: its techniques, history, and social uses. Many genres of portraiture will be surveyed to analyze how they give expression to cultural and societal values. Formal portraiture, character stereotypes, images from popular culture, African and Asian masks, the face of the nude, expressionistic psychological portraiture, commercial portrait styles, and the self-portrait, all will be discussed and explored. Live models will pose. This course may be taken a maximum of 2 times.

3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: ART 136 or ART 237 or equivalent with a grade of Credit or "C" or higher.

This is an advanced course designed for individualized study by the experienced painter. The student is expected to research the historical and contemporary trends in art and the criticism which relate to his or her work. Discussion centers on how the student's work communicates specific meaning and functions within the art world. Projects may be in traditional, transitional, or new forms of painting. This course may be taken a maximum of 2 times.

ART 239

PORTRAIT PAINTING

3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: ART 130A or ART 232, or ART 237 or equivalent with a grade of Credit or "C" or higher. Student must be at least 18 years of age or have parental consent in order to take this course.

This is a course in the history, theories, techniques, and practice of portrait painting. Creative imagination, color, space, and pictorial structure are included in the study of the portrait. Live models will be used. The student has the option of working in any drawing or painting medium. This course may be taken a maximum of 2 times.

Transfer Credit: CSU; UC

ART 246

JEWELRY DESIGN FABRICATION

3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: ART 145 or equivalent with a grade of Credit or "C" or higher.

This is the third course in a sequential program covering the design and technical processes of jewelry and metalsmithing. The techniques and

projects covered are fabricating a die-formed container, stone setting, mold making, and lost wax casting of multiples. The study of the history and culture of jewelry and body ornamentation is continued through audio/visual lectures and museum and gallery visits. This class may be taken a maximum of 2 times.

Transfer Credit: CSU

ART 248

HOLLOW FORMING

JEWELRY PROCESSES

3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: ART 246 or equivalent with a grade of Credit or "C" or higher.

This is the fourth and most advanced course in a sequential program covering the design and technical processes of jewelry and metalsmithing. The techniques and projects covered in this course include designing a suite/set of wearable objects and a set of flatware. Specialized advanced techniques and processes will be taught to match the student's specific artistic objectives and projects. The study of the history and culture of jewelry and metalsmithing is continued through audio/visual lectures and museum, gallery, commercial and industrial site visits. This class may be taken a maximum of 2 times.

ART 252

CERAMICS - FORM

AND TECHNIQUE

3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: ART 151 or ART 152 or equivalent with a grade of Credit or "C" or higher.

This course continues the exploration and development of forms and techniques encountered in ART 151 and ART 152. The student is expected to determine some of the projects for the semester's work. This course may be taken a maximum of 2 times.

Transfer Credit: CSU; UC

ART 253

CERAMICS - FORM

AND CONTENT

3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: ART 252 or equivalent with a grade of Credit or "C" or higher.

This course is designed for individualized study by the ceramist with at least three semesters of prior experience at the college level. Students will be expected to write a proposal for work to be accomplished during the semester. Clay technology and kiln firing technique will be introduced. This course may be taken a maximum of 2 times.

Transfer Credit: CSU; UC

ART 255

INTERMEDIATE

CERAMIC SCULPTURE

3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: ART 155 or equivalent with a grade of Credit or "C" or higher.

This course is a continuation of ART 155. New ideas, techniques and approaches to making ceramic sculpture are introduced. This course may be taken a maximum of 2 times.

Transfer Credit: CSU; UC

ART 264

SCULPTURE - STONECARVING

3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: None.

Corequisite: None.

Recommendation: ART 163 or equivalent with a grade of Credit or "C" or higher strongly recommended.

This course is designed to extend the student's knowledge and skill in the specific discipline of subtractive sculpture. The student will learn how to make sculpture by traditional stonecarving techniques. This course may be taken a maximum of 3 times.

Transfer Credit: CSU; UC

ART 270

WOOD LATHE ART

2 UNITS

Class hours: 1 lecture/3 lab

Prerequisite: ART 171 or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: ART 120 or equivalent with a grade of Credit or "C" or higher.

This course covers wood lathe processes as applied to creating art objects. The student learns the two main methods of lathe turning: scraping and shear cutting. Project design, aesthetics, wood selection and finishing are studied. This course may be taken a maximum of 2 times.

Transfer Credit: CSU

ART 271

CARVING TOOL MAKING

2 UNITS

Class hours: 1 lecture/3 lab

Prerequisite: ART 171 or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This course involves techniques in designing and making wood carving tools. Types covered include knives, chisels, and gouges. Steel selection and heat treating are also covered. This course may be taken a maximum of 2 times.

Transfer Credit: CSU

Announcement of Courses

ART 284

GRAPHIC DESIGN II

3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: ART 184 or equivalent with a grade of Credit or "C" or higher.

Continued studies in the theories, techniques, and practices of graphic design for visual communications are undertaken. Emphasis is on more advanced techniques and studies of problems in visual communications. Design solutions will be taken from the initial concept through refinement to camera-ready art for print production. Students acquire expertise in the use of process cameras, phototypesetters, and additional equipment.

Transfer Credit: CSU

ART 285

RENDERING II

3 UNITS

Class hours: 2 lecture/4 studio

Prerequisite: ART 185 or equivalent with a grade of Credit or "C" or higher.

Experimental and advanced techniques in the delineation of representational subject matter emphasize the use of color in creating sharp focus drawing. Pencils, colored inks, felt tips, watercolor, gouache, and acrylic will be used. This class is important for those interested in graphic design, industrial design, and technical illustration.

Transfer Credit: CSU

ART 287A

LETTER ARTS

2 UNITS

Class hours: 1 lecture/3 studio

Prerequisite: ART 181 or equivalent with a grade of Credit or "C" or higher.

This intermediate course of study focuses on the artistic and aesthetic uses of letterforms as cultural and communicative forces in society. Students will progress toward the development of professional skills and techniques in the application of lettering, calligraphy and typography to creative and expressive concepts. Historical and contemporary methods, materials and usage will be explored through a variety of projects. This course may be taken a maximum of 2 times.

Transfer Credit: CSU

ART 287B

ROMAN CALLIGRAPHY

2 UNITS

Class hours: 1 lecture/3 studio

Prerequisite: ART 287A or equivalent with a grade of Credit or "C" or higher.

This course is designed to develop analytical methods and to increase performance skills in the evaluation of letter structure and the shaping of historical letterform styles. Students will develop the ability to modify historical styles of letterforms for contemporary applications in aesthetic and communicative areas.

Expertise and knowledge will be expanded through the exploration of tools, materials, and techniques. This course may be taken a maximum of 3 times.

ASTRONOMY

(Science/Engineering/Math Division)

ASTR 101

ELEMENTARY ASTRONOMY

3 UNITS

Class hours: 3 lecture

Prerequisite: None.

This is an introductory survey course in the general principles and fundamentals of astronomy. It is designed primarily for non-science majors, physical science general education credit at transfer institutions.

Transfer Credit: CSU; UC

ASTR 102

INTRODUCTORY ASTRONOMY:

STARS AND THE UNIVERSE

3 UNITS

Class hours: 3 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course is a non-technical introduction to astronomy, with emphasis on stars, galaxies, and the origin and evolution of the universe. Topics include the nature of light, the atom, and telescopes; the birth, evolution, and death of stars; the Milky Way Galaxy; normal, active, and cannibal galaxies; and the Big Bang model. This course is not open to students with credit in ASTR 101.

*Transfer Credit: CSU; UC**

**UC credit limits may apply: ASTR 102 and ASTR 103 combined: maximum credit, one course. No credit for ASTR 102 or ASTR 103 if taken after ASTR 101.*

ASTR 103

INTRODUCTORY ASTRONOMY:

THE SOLAR SYSTEM

3 UNITS

Class hours: 3 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course is a non-technical introduction to astronomy, with emphasis on the Sun, planets, moons, and smaller bodies which make up the solar system. Topics include the nature of light, the atom, telescopes, an examination of the planets and their moons and rings, the origin of the solar system, comets, asteroids, and meteors, catastrophic events, and the search for planets around other stars. This course is not open to students with credit in ASTR 101.

*Transfer Credit: CSU; UC**

**UC credit limits may apply. ASTR 102 and ASTR 103 combined: maximum credit, one course. No credit for ASTR 102 or ASTR 103 if taken after ASTR 101.*

ASTR 104

LIFE IN THE UNIVERSE

3 UNITS

Class hours: 3 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course is a non-technical introduction to the theory of the origin of life in the universe with emphasis on the origin of terrestrial life in the solar system. Topics include the laws of nature, the double helix of life, the origin of the DNA (Deoxyribonucleic Acid) strand, the proliferation of carbon based life forms, speculation on the nature of non-carbon based life, the evolution of intelligence, and the search for extraterrestrial life.

Transfer Credit: CSU; UC

ASTR 105L

OBSERVATIONAL ASTRONOMY

1 UNIT

Class hours: 3 lab

Prerequisite: ASTR 101, ASTR 102, ASTR 103, or ASTR 106 or equivalent with a grade of Credit or "C" or higher, or concurrent enrollment.

Corequisite: None

Recommendation: None.

This is a laboratory course in practical astronomical observations and studies designed for the student with an interest in the use of telescopes and instruments. An opportunity will be provided for additional study as a supplement to the lecture course. Occasional evening observing sessions are required.

Transfer Credit: CSU; UC

ASTR 106

HISTORY OF ASTRONOMY

3 UNITS

Class hours: 3 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course explores humanity's changing view of the cosmos and its place in that cosmos from the earliest times to the present. Topics include comparative cosmologies of ancient culture, the Copernican revolution, the Enlightenment, and the modern view of the universe developed over the last two centuries. Course work includes readings about figures and projects using models of historic instruments.

AUTOMOTIVE COLLISION REPAIR (AUTOBODY)

(Technology Division)

AB 50A BODY TRIM AND MINOR REPAIRS

1 UNIT

Class hours: 0.75 lecture/1.25 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This is one in a series of hands-on short courses which prepares students for employment as a collision repair technician apprentice. Major emphasis will be placed on removal and replacement of external panels, bumpers, lights, and trim. Repair of minor body panel dents and the use of power and hand tools will be covered. This course may be taken a maximum of 2 times.

AB 50B PANEL REPLACEMENT

1 UNIT

Class hours: 0.75 lecture/1.25 lab

Prerequisite: AB 50A or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Corequisite: None.

Recommendation: None.

This is one in a series of hands-on short courses which prepares students for employment as a collision repair technician apprentice. Major emphasis will be placed on removal and replacement of more complex external panel assemblies, doors, tailgates, rear hatches etc. Content will also include repair of more complex non-structural body panels, introduction of additional power and hand tools, water leak and wind noise detection and correction. This course may be taken a maximum of 2 times.

AB 50C STRUCTURAL REPAIR SET-UP

1 UNIT

Class hours: 0.75 lecture/1.25 lab

Prerequisite: AB 50A or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

This is one in a series of hands-on short courses which prepares students for employment as a collision repair technician apprentice. Major emphasis will be placed on diagnosis and repair of structural damage and welding. A variety of methods of measuring structural damage will be utilized including trams, gauges and laser measuring devices. This course may be taken a maximum of 2 times.

AB 51 NON-STRUCTURAL DAMAGE REPAIR

4.5 UNITS

Class hours: 3 lecture/5 lab

Prerequisite: None.

This course covers basic aspects of the automotive collision repair trade. Major emphasis is placed on orienting the student to safe use of specific automotive welding procedures, uses of basic power and hand tools, use of fillers, and metal straightening techniques. It also includes discussion of automotive design, nomenclature, and non-structural damage analysis.

AB 52 STRUCTURE DAMAGE REPAIR

4.5 UNITS

Class hours: 3 lecture/5 lab

Prerequisite: None

Corequisite: AB 51 or equivalent with a grade of Credit or "C" or higher or prior completion. This course is part of an instructional package for the student who wishes additional knowledge in automotive collision repair. It introduces the student to unitized and space-frame construction, high-strength steel components, chassis design, sheet metal straightening techniques, alignment, and installation of body parts. Also included is safety related to electrical problems introduction of plastic components, and continued welding and metallurgical experience. This course may be taken a maximum of 2 times.

AB 53 SUSPENSION, ALIGNMENT AND POWER TRAIN DAMAGE

4.5 UNITS

Class hours: 3 lecture/5 lab

Prerequisite: None

Corequisite: AB 51 or equivalent with a grade of Credit or "C" or higher or prior completion. This course introduces students to suspension control point alignment, suspension systems, and power train problems related to automotive collisions. Related topics include frame-straightening systems, measurement and gauging for damage, cooling and electrical components, and continued welding and metallurgical experience. This course may be taken a maximum of 2 times.

AB 54 ADVANCED DESIGN AUTOMOTIVE PANEL REPAIR

4.5 UNITS

Class hours: 3 lecture/5 lab

Prerequisite: None

Corequisite: AB 51 or equivalent with a grade of Credit or "C" or higher or prior completion. This course emphasizes alignment and repair of advanced design automotive body panels, such as tempered sheet metal, aluminum, plastics, fiberglass, and composites. Additional

topics include repair and installation of structural members, removal and replacement of electrical and electronic components, and related interior parts. This course may be taken a maximum 2 times.

AB 55 STRUCTURAL PANEL REPLACEMENT

4.5 UNITS

Class hours: 3 lecture/5 lab

Prerequisite: None

Corequisite: AB 51 or equivalent with a grade of Credit or "C" or higher or prior completion. This course emphasizes frame and structural repair. Instruction includes repair and replacement of structural body panels, remove and replacement of power train and supports, gauging and analysis of major structural damage, plus the measurement and alignment of strut towers. Appropriate safety related instructions will be included in each segment. This course may be taken a maximum of 2 times.

AB 56 NON-STRUCTURAL AUTOMOTIVE WELDING

2 UNITS

Class hours: 1.5 lecture/2.5 lab

Prerequisite: None.

This course introduces students to oxy-acetylene, Gas Metal Arc Welding (GMAW), stick arc, and pressure resistance welding. It is designed for the student who is presently employed in the automotive field. Related technical subjects include safety, testing of weld joints, design, strength of materials, process selection, cutting methods and metals identification. A major focus of this course is to prepare students to complete the I-CAR GMAW Certification Test.

AB 57 STRUCTURAL AUTOMOTIVE WELDING

2 UNITS

Class hours: 1.5 lecture/2.5 lab

Prerequisite: AB 56 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

This course further develops student skills in the use of Gas Metal Arc Welding (GMAW) equipment and methods related to the repair, maintenance and alteration of the automobile structure. Special emphasis will be placed upon GMAW of structural high strength steel, aluminum welding, plasma arc and oxyacetylene cutting. A major focus of this course is to prepare students to complete the I-CAR GMAW Certification Test. Appropriate safety related instructions are included in each segment. This course may be taken a maximum of 3 times.

AB 58 COLLISION REPAIR UPDATE 4.5 UNITS

Class hours: 3 lecture/5 lab
Prerequisite: AB 51, AB 52, and AB 53 or equivalent courses with grades of Credit or "C" or higher, or appropriate work experience. AB 54 may be substituted for AB 53.
This course increases skills and knowledge by updating the student in areas of their choice. Update areas would include refinishing of plastics, advanced design automotive components, metal finishing, complex frame and structural repair, and advanced welding. This course may be taken a maximum of 3 times.
Transfer Credit: CSU

AB 59A COMPUTERIZED MEASURING TRAINING 1 UNIT

Class hours: 1 lecture/1 lab
Prerequisite: None
Corequisite: AB 51 or equivalent, with a grade of Credit or "C" or higher or prior completion
Recommendation: Proficient in MS Windows software applications.
The focus of this course is for students to become proficient in the operation and use of Computerized Measuring Training (CMT). Students will learn to properly identify vehicles, components and systems, select and install the appropriate scan targets and attachments onto various vehicles, and provide digital measuring with the Genesis computerized measuring system. Topics include basic collision theory, damage analysis fundamentals, maintenance, and operation of the Genesis2 and Velocity laser measuring systems. The processes and methods used within the software program and laser scanners will be reviewed extensively. This course may be taken a maximum of 2 times.

AB 59B UNITIZED BODY ANALYSIS AND REPAIR PLANNING 1 UNIT

Class hours: 1 lecture/1 lab
Prerequisite: AB 51 or AB 59A or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.
Corequisite: None.
Recommendation: Current or previous employment in collision repair facility.
This course introduces students to the concepts of damage analysis and repair planning for unitized body vehicles. It is designed for structural repair technicians and students with limited training in structural repair. The course presents case studies that give students the information needed to measure, analyze, and develop repair plans for damaged unitized structures. It provides foundation information for intermediate and advanced analysis and repair courses. This course may be taken a maximum of 2 times.

AB 59C FULL FRAME ANALYSIS AND REPAIR PLANNING 1 UNIT

Class hours: 1 lecture/1 lab
Prerequisite: AB 51, AB 59A or AB 59B or equivalent with grades of Credit or "C" or higher, or appropriate work experience.
Corequisite: None.
Recommendation: Current or previous employment in collision repair facility.
This course expands student learning of damage analysis and repair planning to include full-frame vehicles (pickups and sport utility vehicles). Additional case studies of damaged full-frame vehicles will be presented that give technicians the information needed to measure, analyze, and develop appropriate repair plans. The additional information in this course is fundamental for success in more advanced damage analysis and repair courses. This course may be taken a maximum of 2 times.

AB 59E FULL FRAME REPAIR-GAUGES 1 UNIT

Class hours: 1 lecture/1 lab
Prerequisite: AB 51 or AB 59B or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.
Corequisite: None.
Recommendation: None.
This course furthers student learning in full-frame damage analysis and repair with universal measuring gauges. Included topics are full-frame vehicle design analysis, effects of collisions on various full-frame designs, full-frame damage assessment using universal measuring gauges, full-frame vehicle hook-up and repair options, and methods of determining repair completion with universal measuring gauges. This course may be taken a maximum of 2 times.

AB 60A SANDING AND PAINT PREPARATION 1 UNIT

Class hours: 0.75 lecture/1.25 lab
Prerequisite: None.
Corequisite: None.
Recommendation: None.
This is one in a series of hands-on short courses which prepares students for employment as an automotive refinishing apprentice. Major emphasis will be placed on removal and installation of moldings and trim, sanding and preparation of substrate finish, and the use of two-component putty. This course may be taken a maximum of 2 times.

AB 60B MIXING AND APPLICATION OF PAINT 1 UNIT

Class hours: 0.75 lecture/1.25 lab
Prerequisite: None.
Corequisite: None.
Recommendation: None.
This is one in a series of hands-on short courses which prepares students for employment as an automotive refinishing apprentice. Major emphasis will be placed on bare metal preparation, mixing and application of primers and topcoats, and blending of paint finishes. This course may be taken a maximum of 2 times.

AB 60C PAINT DEFECTS: CAUSES AND CURES 1 UNIT

Class hours: 0.75 lecture/1.25 lab
Prerequisite: AB 60A and AB 60B or equivalent with grades of Credit or "C" or higher, or appropriate work experience.
Corequisite: None.
Recommendation: None.
This is one in a series of hands-on short courses which prepares students for employment as an automotive refinishing apprentice. Major emphasis will be placed on solving paint application problems and finish defects, causes and cures. This course may be taken a maximum of 2 times.

AB 61 PREPARATION AND SPOT REFINISHING 4.5 UNITS

Class hours: 3 lecture/5 lab
Prerequisite: None
Corequisite: AB 51 or equivalent, with a grade of Credit or "C" or higher or prior completion.
This course introduces beginning techniques for automotive refinishing preparation and spot painting techniques. This course includes basic use of abrasives, primers, fillers, and sealers. Students are instructed in the use of solvents, pre-coats, and basic material problems encountered in today's refinishing market. This course may be taken a maximum of 2 times.

AB 62 OVERALL AND MULTI-COAT REFINISHING 4.5 UNITS

Class hours: 3 lecture/5 lab
Prerequisite: None
Corequisite: AB 51 or equivalent with a grade of Credit or "C" or higher or prior completion.
This course develops the skills of the professional automotive refinisher in overall and multi-coat refinishing. Students will be instructed in the art of tinting colors, spot repair of factory and after-market multi-coat finishes, overall refinishing, interior/exterior

care and maintenance, and the refinishing of plastic components. The course includes the testing, research and development of current refinishing materials. I-CAR certification criteria will be incorporated in the training and discussions. This course may be taken a maximum of 2 times.

AB 63 PRODUCTION REFINISHING 4.5 UNITS

Class hours: 3 lecture/5 lab
Prerequisite: None
Corequisite: AB 51 or equivalent with a grade of Credit or "C" or higher or prior completion.
Recommendation: None.

In this course, students learn to prepare and refinish several vehicles, simultaneously. Areas covered include repair of minor body dings, paint preparation, mixing of multiple colors, plus the masking and painting of up to three separate vehicles of varying models, colors, and types. This course provides students with hands-on techniques for increasing the volume of vehicles processed in the professional automotive refinishing environment. This course may be taken a maximum of 2 times.

AB 65 MIXING AND ADJUSTING COLOR 2 UNITS

Class hours: 1.5 lecture/2.5 lab
Prerequisite: None.
This course increases the marketable skills for the automotive refinisher in the trade. Emphasis is on color and texture duplication, the use of automotive toners to scratch paint mix and to mix specific colors using formulas and tintometers. It also includes spray-blending techniques, compatibility, troubleshooting of materials, and paint chemistry. This course may be taken a maximum of 2 times.

AB 66 LETTERING, STRIPING AND DESIGN 2.5 UNITS

Class hours: 2 lecture/2 lab
Prerequisite: None.
This course trains students in the arts of automotive lettering, graphic design, and pin-striping. Students work with lines, colors, and harmonizing/contrasting concepts to create special effects on commercial and passenger vehicles using a wide range of materials and techniques. Included in this course are the use of computer-generated graphics, stencil making, hand pin-striping, and air-brushing. This course may be taken a maximum of 2 times.

AB 68 REFINISHING UPDATE 4.5 UNITS

Class hours: 3 lecture/5 lab
Prerequisite: AB 61, AB 62, and AB 63 or equivalent with grades of Credit or "C" or higher, or appropriate work experience.
This course is designed to increase skill and knowledge as well as update students in automotive refinishing areas of their choice. It will emphasize automotive refinishing and plastic repair techniques, panel and spot painting, sanding and preparation techniques, and overall and multi-coat painting. This course may be taken a maximum of 4 times.

AB 73/74 AUTOMOTIVE COLLISION REPAIR OCCUPATIONAL WORK EXPERIENCE 3-4 UNITS

Class hours: One (1) hour control class each week plus 15 hours of employment per week for Automotive Collision Repair work experience 73 or 20 hours of employment per week for Automotive Collision Repair work experience 74. The employment must be in a job related to the student's educational goal.

Corequisite: (1) Concurrent enrollment in the Automotive Collision Repair vocational program with 7 or more units including occupational work experience.

Work experience/career internship provides the opportunity for Automotive Collision Repair students to apply skills and knowledge learned in the classroom to related experiences on the job/training site. The aim of the course is to assist students in expanding specific job skills. In the process of doing so, it creates greater communication with increased understanding between the student/workers, the college, and the employer/trainers. Students also pursue a program of self-evaluation to determine individual job weaknesses and strengths. Semester projects that relate to the major and job skills must be completed on the job/training site. These courses may be taken a maximum of 4 times.

AB 75 BODY PANEL MODIFICATION 4.5 UNITS

Class hours: 3 lecture/5 lab
Prerequisite: AB 51 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.
Corequisite: None.
Recommendation: None.
This course emphasizes design and fabrication of automotive body panels. Additional topics include customization of existing body panels, partial-panel fabrication, metal finishing, fabrication welding techniques and the application and use of the sheet metal brake, sheer, shrinker/stretcher, and bead roller. This course may be taken a maximum of 2 times.

AB 76 PARTIAL-PANEL FABRICATION 4.5 UNITS

Class hours: 3 lecture/5 lab
Prerequisite: None
Corequisite: None
Recommendation: AB 75 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.
This course furthers student learning in the area of automotive sheet metal design and fabrication. Students will learn to design and fabricate portions of sheet metal panels to be replaced on vehicles. Reproduction of more complex angles and shapes will be introduced. Use of specific sheet metal design and fabrication tools and equipment with appropriate techniques will be included. This course may be taken a maximum of 2 times.

AB 77 FULL-PANEL FABRICATION 4.5 UNITS

Class hours: 3 lecture/5 lab
Prerequisite: AB 51 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.
Corequisite: None
Recommendation: AB 75 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

In this course student learning is elevated to the level of full-panel sheet metal design and fabrication. Complete sheet metal panel fabrication will be demonstrated using predetermined shapes and forms. Formation of compound angles and complex shapes encompassing an entire panel will be addressed. Included are the continued application and use of advanced sheet metal fabrication tools and equipment. This course may be taken a maximum of 2 times.

AB 79 AUTOMOTIVE FABRICATION PROJECTS 4.5 UNITS

Class hours: 3 lecture/5 lab
Prerequisite: None
Corequisite: None
Recommendation: AB 51 or AB 75 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.
This course allows students to hone hands-on skills while completing automotive body panel fabrication projects. Students will identify and select specific projects that are relevant to the subject matter being taught. This course may be taken a maximum of 2 times.

AB 80

AUTOBODY CUSTOMER SERVICE 2 UNITS

Class hours: 2 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course focuses on effective customer service in an automotive collision repair facility. Students learn appropriate use of collision repair industry terminology, measuring and improving levels of customer service, interpreting body language, conflict resolution, telephone and in-person communication skills, personal conduct and business ethics, and the completion of paperwork related to autobody customer service positions. This course may be taken a maximum of 4 times.

AB 80A

VEHICLE STAGING

1 UNIT

Class hours: 0.75 lecture/1.25 lab

Prerequisite: None.

Corequisite: None.

Limitation of Enrollment: Students must have valid and current drivers' license and proof of appropriate automobile insurance.

This is one in a series of hands-on short courses which prepare students for employment as a porter in an automotive shop operation. Major emphasis will be placed on safe driving and parking, vehicle clean up, customer contact, and the staging of vehicles within an automotive repair facility at the start and end of each day. This course may be taken a maximum of 2 times.

AB 80B

DAMAGE ANALYSIS

AND AUTOMOTIVE SYSTEMS

1 UNIT

Class hours: 0.75 lecture/1.25 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This is one in a series of hands-on short courses which prepares students for employment as an automotive office assistant. Major emphasis will be placed on damage analysis, estimating the cost of repair, legal and environmental practices, and vehicle systems knowledge. This course may be taken a maximum of 2 times.

AB 80C

VEHICLE TYPES AND CUSTOMER RELATIONS

1 UNIT

Class hours: 0.75 lecture/1.25 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This is one in a series of hands-on short courses which prepares students for employment as an automotive office assistant. Major

emphasis will be placed on vehicle construction types, fasteners and materials, parts acquisition sources and customer relations. This course may be taken a maximum of 2 times.

AB 83A

COMPUTERIZED DAMAGE

ESTIMATING-ADP

1.5 UNITS

Class hours: 1.5 lecture/.5 lab

Prerequisite: None.

Corequisite: None.

Recommendation: Proficient in MS Windows software applications.

The focus of this course is for students to become proficient in Automated Data Processing (ADP) collision damage estimating program. Students will learn to properly identify vehicles, components and systems, and to select and input the appropriate replacement parts and labor costs into a computerized damage report. Topics include development of customer and insurance company profiles, maintenance of user accounts, the generation of supplemental damage reports and the use of software-specific part codes, as currently used in the collision repair industry. The processes and methods used within the ADP software program will be reviewed extensively. This course may be taken a maximum of 2 times.

AB 83C

COMPUTERIZED DAMAGE

ESTIMATING-CCC

1.5 UNITS

Class hours: 1.5 lecture/.5 lab

Prerequisite: None.

Corequisite: None.

Recommendation: Proficient in MS Windows software application.

The focus of this course is for students to become proficient in CCC collision damage estimating program. Students will learn to properly identify vehicles, components and systems, and to select and input the appropriate replacement parts and labor costs into a computerized damage report. Topics include development of customer and insurance company profiles, maintenance of user accounts, the generation of supplemental damage reports and the use of software-specific part codes, as currently used in the collision repair industry. The processes and methods used with the CCC software program will be reviewed extensively. This course may be taken a maximum of 2 times.

AB 83M

COMPUTERIZED DAMAGE

ESTIMATING-MITCHELL

1.5 UNITS

Class hours: 1.5 lecture/.5 lab

Prerequisite: None.

Corequisite: None.

Recommendation: Proficient in MS Windows software applications.

The focus of this course is for students to become proficient in Mitchell Information Systems (Mitchell) collision damage estimating program. Students will learn to properly identify vehicles, components and systems, and to select and input the appropriate replacement parts and labor costs into a computerized damage report. Topics include development of customer and insurance company profiles, maintenance of user accounts, the generation of supplemental damage reports and the use of software-specific part codes, as currently used in the collision repair industry. The processes and methods used within the Mitchell software program will be reviewed extensively. This course may be taken a maximum of 2 times.

AB 86

PRODUCTION MANAGEMENT

2 UNITS

Class hours: 2 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course focuses on production management and improving workflow in automotive repair facilities. The course includes job analysis, task prioritizing, job descriptions, flow-charting, capacity planning, parts and material procurement, production controls, cycle-time analysis, and development of key controls for management. This course may be taken a maximum of 2 times.

AB 88

ESTIMATING AND

MANAGEMENT UPDATE

3 UNITS

Class hours: 2.5 lecture/1.5 lab

Prerequisite: Nine units of collision repair estimating and/or management or equivalent with grades of Credit or "C" or higher, or appropriate work experience.

Corequisite: None.

Recommendation: None.

This course increases skills and knowledge in collision repair estimating, management, and customer relations for students considering a career in the auto body repair industry. It includes computerized automotive damage estimating, shop management, customer relations, and communications. This course may be taken a maximum of 4 times.

AB 181
NON-STRUCTURAL
DAMAGE ESTIMATING **3 UNITS**

Class hours: 3 lecture/1 lab
 Prerequisite: None.
 Corequisite: None.
 Recommendation: Proficient in MS Windows software applications.
 This is an entry-level course for students wanting to learn to estimate non-structural (minor) automotive damage from collisions. Emphasis is on vehicle construction and structural design, repair methodology, vehicle component and systems identification, and in developing appropriate "judgement repair times" (estimated repair times for damage). Students learn to properly format hand-written estimates identifying the cost of parts, labor, materials, and sublet and other charges required to return damaged vehicles to factory specifications. Hands-on demonstration of repair techniques helps students increase their knowledge of repair processes recommended in their damage estimates. Students use collision estimating guides to establish parts prices and industry standard labor times for replacement and refinishing of damaged parts; additionally, students learn to use "Procedure Pages" in the estimating guides for processes not included in the standard times listed in the guide. Computerized estimating is introduced as students demonstrate proficiency in developing concise hand-written estimates. This course may be taken a maximum of 2 times.

AB 182
STRUCTURAL
DAMAGE ESTIMATING **3 UNITS**

Class hours: 2.5 lecture/1.5 lab
 Prerequisite: None
 Recommendation: Proficient in MS Windows software applications.
 This course extends student skills in collision damage estimating of more complex areas of structural, mechanical, and electrical damage to vehicles. Areas of study include expanded understanding of collision theory, damage analysis fundamentals, visual inspection process, measuring and analyzing structural damage, suspension and mechanical systems damage estimating, build tolerances, and safety systems as related to severely damaged vehicles. Other topics include estimator job functions, methods of determining customer satisfaction, regulatory compliance issues, and ethics within the collision repair industry. This course may be taken a maximum of 2 times.
Transfer Credit: CSU

AB 183
COMPUTERIZED
DAMAGE ESTIMATING **1.5 UNITS**

Class hours: 1.5 lecture/.5 lab
 Prerequisite: None.
 Corequisite: None.
 Recommendation: None.
 The focus of this course is for students to become proficient in software-specific collision damage estimating program. Students will learn to properly identify vehicles, components and systems, and to select and input the appropriate replacement parts and labor costs into a computerized damage report. Topics include development of customer and insurance company profiles, maintenance of user accounts, the generation of supplemental damage reports and the use of software-specific part codes, as currently used in the collision repair industry. The processes and methods used within the software program will be reviewed extensively. This course may be taken a maximum of 4 times.

STRUCTURAL DAMAGE
ANALYSIS FOR ESTIMATORS **1 UNIT**

Class hours: 1 lecture/1 lab
 Prerequisite: AB 51, AB 181, or AB 182 or equivalent with grades of Credit or "C" or higher, or appropriate work experience.
 Corequisite: None.
 Recommendation: Current or previous employment in collision repair facility.
 This course is designed to help the collision damage estimator, appraiser and student better understand the process of analyzing structural and suspension damage. Collision theory, industry terminology, structural design, the visual inspection process and measuring and repair equipment are covered in the course. Anchoring and pulling concepts are described in detail. This course may be taken a maximum of 2 times.

STEERING AND SUSPENSION
FOR DAMAGE ESTIMATORS **1 UNIT**

Class hours: 1 lecture/1 lab
 Prerequisite: AB 281 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.
 Corequisite: None.
 Recommendation: Current or previous employment in collision repair facility.
 This course is designed to assist the collision damage estimator, appraiser and student to better understand the process of analyzing steering and suspension damage from collisions.

It builds on student knowledge gained from the prerequisite course and assists in mastery of steering and suspension damage analysis. Specialized procedures to verify steering and suspension alignment are practiced herein.

AB 283
ADVANCED FRAME
ANALYSIS FOR ESTIMATORS **1 UNIT**

Class hours: 1 lecture/1 lab
 Prerequisite: AB 52, AB 281 or AB 282 or equivalent with grades of Credit or "C" or higher, or appropriate work experience.
 Corequisite: None.
 Recommendation: Current or previous employment in collision repair facility.
 This course is designed to build on student knowledge gained from the prerequisite course and to assist in mastery of collision damage analysis. The focus of this course expands damage analysis specifically for pickup trucks and sport utility vehicles.

AB 285
COLLISION REPAIR
MANAGEMENT **3 UNITS**

Class hours: 2 1/2 lecture/1 1/2 lab
 Prerequisite: None.
 Recommendation: Proficient in MS Windows software applications.
 This course focuses on effective management and operation of automotive repair facilities. Students are introduced to skills required for effective management and promotion of an automotive repair facility. Areas of training include development of policies, rules and regulations, job-costing, equipment and material procurement, facility cost analysis, safety, employee and right-to-know issues, and warranties. Other topics include department operations, job functions, compensation packages, production controls, capacity planning, cycle-time analysis, customer satisfaction, licensing and certification, effective communication skills, process improvement, and time management. This course may be taken a maximum of 2 times.

AUTOMOTIVE MECHANICAL REPAIR TECHNOLOGY

(Technology Division)

AUTO 1 ENGINE MAINTENANCE 0.5 UNIT

Class hours: 5 lecture/1 lab (3 weeks)
Prerequisite: None.
Corequisite: None.
Recommendation: None.
This is a fundamental course in automotive engines, dealing with maintenance of the modern automobile. Emphasis is on the elementary operating principles and beginning skill development. This three-week section is designed to allow students to become familiar with automotive engines and enter the work environment with basic skills.

AUTO 2 FUEL SYSTEMS 0.5 UNIT

Class hours: 5 lecture/1 lab (3 weeks)
Prerequisite: None.
Corequisite: None.
Recommendation: None.
This is a fundamental course in automotive fuel systems, dealing with maintenance of the modern automobile. Emphasis is on the elementary operating principles and beginning skill development. This three-week section is designed to allow students to become familiar with automotive fuel systems and enter the work environment with basic skills.

AUTO 3 LUBRICATION AND COOLING 0.5 UNIT

Class hours: 5 lecture/1 lab (3 weeks)
Prerequisite: None.
Corequisite: None.
Recommendation: None.
This is a fundamental course in automotive lubrication and cooling systems, dealing with maintenance of the modern automobile. Emphasis is on the elementary operating principles and beginning skill development. This three-week section is designed to allow

students to become familiar with automotive lubrication and cooling systems and enter the work environment with basic skills.

AUTO 4 ELECTRICAL SYSTEMS 0.5 UNIT

Class hours: 5 lecture/1 lab (3 weeks)
Prerequisite: None.
Corequisite: None.
Recommendation: None.
This is a fundamental course in automotive electrical systems, dealing with maintenance of the modern automobile. Emphasis is on the elementary operating principles and beginning skill development. This three-week section is designed to allow students to become familiar with automotive electrical systems and enter the work environment with basic skills.

AUTO 5 BRAKES AND SUSPENSION 0.5 UNIT

Class hours: 5 lecture/1 lab (3 weeks)
Prerequisite: None.
Corequisite: None.
Recommendation: None.
This is a fundamental course in automotive brake and suspension systems, dealing with maintenance of the modern automobile. Emphasis is on the elementary operating principles and beginning skill development. This three-week section is designed to allow students to become familiar with automotive brake and suspension systems and enter the work environment with basic skills.

AUTO 6 TRANSMISSION AND DRIVE TRAIN 0.5 UNIT

Class hours: 5 lecture/1 lab (3 weeks)
Prerequisite: None.
Corequisite: None.
Recommendation: None.
This is a fundamental course in automotive transmission and drive train systems dealing with maintenance of the modern automobile. Emphasis is on the elementary operating principles and beginning skill development. This three-week section is designed to allow students to become familiar with automotive transmission and drive train systems and enter the work environment with basic skills.

AUTO 7 AIR CONDITIONING AND HEATING 0.5 UNIT

Class hours: 5 lecture/1 lab
Prerequisite: None
Corequisite: None
Recommendation: None
This is a fundamental course in automotive air conditioning dealing with maintenance of the modern automobile. Emphasis is on the

elementary operating principles and beginning skill development. The course is designed to allow students to become familiar with automotive heating and air conditioning and enter the work environment with basic skills.

AUTO 8 (Not degree applicable) FORD ELECTRONIC ENGINE CONTROLS EEC 3 & 4 1 UNIT

Class hours: 1 lecture
Prerequisite: None.
A theory/practical course in the operation and diagnosing of Ford electronic engine controls, including driveability problem areas such as electronic ignition, feedback carburetion, onboard diagnostic systems, and electronic fuel injection.

AUTO 9 (Not degree applicable) CHRYSLER ELECTRONIC FUEL INJECTION 1 UNIT

Class hours: 1 lecture
Prerequisite: None.
A theory/practical course in the operation and diagnosing of Chrysler electronic engine controls, including driveability problem areas such as electronic ignition, feedback carburetion, onboard diagnostic systems, and electronic fuel injection.

AUTO 10 (Not degree applicable) GENERAL MOTORS FUEL INJECTION 1 UNIT

Class hours: 1 lecture
Prerequisite: None.
A theory/practical course in the operation and diagnosing of General Motors electronic engine controls, including driveability problem areas such as electronic ignition, feedback carburetion, onboard diagnostic systems, and electronic fuel injection.

AUTO 11 (Not degree applicable) FOUR WHEEL ALIGNMENT 1 UNIT

Class hours: 1 lecture/demonstration
Prerequisite: None.
Theory/practical course on the principles of four wheel alignment. Computerized equipment will be used to demonstrate advanced shop procedures.

AUTO 12 (Not degree applicable) GENERAL MOTORS CLIMATE CONTROL 1 UNIT

Class hours: 1 lecture
Prerequisite: None.
A theory/practical course in the operation and diagnosis of General Motors Control Systems; trouble shooting, testing and repair techniques will be included.

All courses on this page are Title V Associate Degree applicable/credit courses unless otherwise noted.

AUTO 13 (Not degree applicable)

SPECIALIZED

ELECTRONICS TRAINING 2.5 UNITS

Class hours: 2.25 lecture/2.25 lab

Prerequisite: None.

This course is a study of the principles of automotive electronics to include fundamentals, circuits, meter use, repair, and microprocessors.

AUTO 14 (Not degree applicable)

IMPORT FUEL

INJECTION SYSTEMS 1 UNIT

Class hours: 1 lecture

Prerequisite: None.

A theory/practical course in the operation and diagnosing of Nissan, Toyota, and Bosch electronic engine controls, including driveability problem areas such as electronic ignition, feedback carburetion, onboard diagnostic systems, and electronic fuel injection.

AUTO 34

FORD MAINTENANCE AND LIGHT REPAIR FOR ELECTRICAL AND ELECTRONIC SYSTEMS 2.5 UNITS

Class hours: 2 lecture/2 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This is a theory/practical course in electricity and automotive electronic systems, such as batteries, Ford audio systems, and supplemental restraints. The content will be presented on a single manufacturer's product line. This course may be taken a maximum of 2 times.

AUTO 35

FORD MAINTENANCE AND LIGHT REPAIR FOR STEERING AND SUSPENSION SYSTEMS 2.5 UNITS

Class hours: 2 lecture/2 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This is a theory/practical course in basic steering and suspension on a single manufacturer's car line. Included are operating principles, component description, diagnosis, repair and service adjustments. This course may be taken a maximum of 2 times.

AUTO 36

FORD MAINTENANCE AND LIGHT REPAIR FOR BRAKE SYSTEMS 2.5 UNITS

Class hours: 2 lecture/2 lab.

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This is a theory/practical course in basic brake and anti-lock brakes on a single manufacturer's car line. Included are operating principles, component description, diagnosis, repair, and service adjustments. This course may be taken a maximum of 2 times.

AUTO 37

FORD MAINTENANCE AND LIGHT REPAIR FOR CLIMATE CONTROL SYSTEMS 2.5 UNITS

Class hours: 2 lecture/2 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course is a study of the principles of automotive air conditioning systems. The tools, skills, and processes necessary to perform the most common and essential air conditioning service procedures are studied and demonstrated in the shop. All instruction will be done on a single manufacturer's units. This course may be taken a maximum of 2 times.

AUTO 50

INTRODUCTION TO AUTOMOTIVE 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This introductory course deals with the basic systems of the modern automobile with emphasis on operating principles. Major areas of instruction will include electrical, engine, transmission, brake and accessory systems. The course is designed as an entry level automotive offering so students may survey the automotive service industry.

AUTO 53

AUTOMOTIVE GM/ADVANCED CONSULTATIVE SELLING 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: AUTO 73/74 or equivalent student internship with GM dealership, and BA 121 or equivalent with grades of Credit or "C" or higher.

This course is one in a series of GM PASS courses designed to bring the student to an entry-level position as a sales consultant within the General Motors dealership organization. It introduces the participants to the advanced skills necessary to begin selling automobiles through more pro-active customer-oriented sales efforts. Emphasis is placed on the development and practice of advanced professional sales techniques in the area of consultative value selling.

AUTO 54

INTRODUCTION TO ELECTRIC VEHICLES 4 UNITS

Class hours: 3 lecture/3 lab

Prerequisite: None.

Corequisite: None.

This course introduces the student to the world of Electric Vehicle Conversions. Students will be instructed with alternatives to gasoline powered vehicular travel and to the specific advantages of Electric Powered Automobiles. Topics to be included are: the process of conversion of a gas-powered vehicle to electric power, including the testing, assembly, operation and maintenance of EV's, the disassembly and re-assembly of an EV, introduction to battery and charging systems, optional power accessories and EV drive systems. Appropriate safety related instructions will be included in each segment. This course may be repeated a total of 2 times.

AUTO 55

ADVANCED TECHNOLOGY ELECTRIC VEHICLES 4 UNITS

Class hours: 3 lecture/3 lab

Prerequisite: None.

Corequisite: None.

This course develops students skills in electric vehicle conversions and introduces them to advanced technology EV's and purpose-built EV's. Students will work with hybrid electric vehicles and advanced design EV's. Topics included are the conversion process of kit cars to electric power, including the testing, assembly, operation and maintenance of EV's; the benefits of aerodynamic designs for EV's; introduction to advanced technology batteries and intelligent charging systems; optional hydrogen fuel cell technology; and alternative EV drive systems. Appropriate safety related instructions will be included in each segment. This course may be taken a maximum of 2 times.

AUTO 60

INTRODUCTION TO INTELLIGENT TRANSPORTATION SYSTEMS (ITS AND TELEMATICS) 3 UNITS

Class hours: 3 lecture

Prerequisite: None

Corequisite: None.

Recommendation: None.

This survey course introduces the student to Intelligent Transportation Systems (ITS) and telematics. Topics discussed include the history of ITS, government and industry organizations and standards, recent technological advances, navigation, wireless communication, telecommunications, traffic safety, and traffic management. The material focuses on current trends and opportunities in the field of Intelligent Transportation Systems (Formerly AUTO 81)

AUTO 73/74

AUTOMOTIVE MECHANICAL REPAIR OCCUPATIONAL WORK EXPERIENCE

3-4 UNITS

Class hours: One (1) hour control class each week plus 15 hours of employment per week for Automotive Mechanical Repair work experience 73 or 20 hours of employment per week for Automotive Mechanical Repair work experience 74. The employment must be in a job related to the student's educational goal. Corequisite: (1) Enrollment in the Automotive Mechanical Repair vocational program with 7 or more units including occupational work experience.

Work experience/career internship provides the opportunity for Automotive Mechanical Repair students to apply skills and knowledge learned in the classroom to related experiences on the job/training site. The aim of the course is to assist students in expanding specific job skills. In the process of doing so, it creates greater communication with increased understanding between the student/workers, the college, and the employer/trainers. Students also pursue a program of self-evaluation to determine individual job weaknesses and strengths. Semester projects that relate to the major and job skills must be completed on the job/training site. These courses may be taken a maximum of 4 times.

AUTO 80

BUREAU OF AUTOMOTIVE REPAIR (BAR) ASE ALTERNATIVE COURSES FOR ADVANCED EMISSIONS SPECIALIST

5 UNITS

Class hours: 4 lecture/4 lab

Prerequisite: None

Corequisite: None.

Recommendation: Appropriate work experience.

This alternative course will meet and exceed the Bureau of Automotive Repair (BAR) for Automotive Service Excellence (ASE) certifications for the following areas: Electrical, Engine Performance, and Advanced Engine Performance. This course meets theory/practical requirements for obtaining the state license for Advanced Smog Technician.

AUTO 81

POWERTRAIN CONTROL MANAGEMENT SCOPE TESTING

2 UNITS

Class hours: 2 lecture/.5 lab

Prerequisite: None

Corequisite: None

Recommendation: None

This is a course in the theory and practice of powertrain control management (PCM) scope testing. Hand-held oscilloscopes and scanners

will be used to analyze PCM input and output signals to various actuators while comparing this data to manufacturers' specifications.

AUTO 100

AUTOMOTIVE MAINTENANCE AND OPERATION

Class hours: 3 lecture/3 lab

Prerequisite: None.

Basic class dealing with the selection and maintenance of the modern automobile. Emphasis is on the basic operating principles.

Transfer Credit: CSU

AUTO 110

AUTOMOTIVE ENGINES

5 UNITS

Class hours: 4 lecture/4 lab

Prerequisite: None

Recommendation: AUTO 100 or equivalent with a grade of Credit or "C" or higher.

This is a theory/practical course in Automotive Engine Repair to include operating principles and descriptions of all components. The emphasis is on diagnosis and measurement of internal engine components. Complete disassembly and reassembly of engines will be accomplished with the emphasis on manufacturer's specialty tools and techniques of overhead cam engines. (Formerly AUTO 140)

AUTO 120

AUTOMATIC TRANSMISSIONS/ TRANSAXLES

5 UNITS

Class hours: 4 lecture/4 lab

Prerequisite: None

Recommendation: AUTO 110 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

This course is focused on the principles of automatic transmissions and transaxles. Procedures for diagnosing troubles, adjusting,

and overhauling the automatic transmission and transaxles are studied and applied in the shop. This course may be taken a maximum of 2 times. (Formerly AUTO 226)

Transfer Credit: CSU

AUTO 121

DRIVETRAIN TRANSMISSIONS AND AXLES

6 UNITS

Class hours: 5 lecture/5 lab

Prerequisite: None

Corequisite: AUTO 73/74.

Recommendation: AUTO 181 or equivalent with a grade of Credit or "C" or higher.

This course is a study of the principles of the automotive power systems-clutch, manual and automatic transmission, transaxle, transfer case, driveline, drive-axle, differential, including diagnosis and service. This course is taught using specified manufacturer's components and materials. (Formerly AUTO 161)

Transfer Credit: CSU

AUTO 130

MANUAL DRIVETRAIN AND AXLES

5 UNITS

Class hours: 4 lecture/4 lab

Prerequisite: None

Recommendation: AUTO 100 or equivalent with a grade of Credit or "C" or higher.

This is a study of the principles of the automotive power systems-clutch, manual and automatic transmission, transaxles, transfer cases, drive line, drive-axle, differential, and all-wheel drive systems and service, including diagnosis and service. This course may be taken a maximum of 2 times. (Formerly AUTO 160)

AUTO 150

AUTOMOTIVE BRAKES

5 UNITS

Class hours: 4 lecture/4lab

Prerequisite: None

Recommendation: AUTO 100 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

This is a theoretical and practical course in braking systems. It includes operating principles, component description, diagnosis, and service. Brake service includes antilock braking systems. This course may be taken a maximum of 2 times. (Formerly AUTO 120)

Transfer Credit: CSU

AUTO 151

AUTOMOTIVE ALIGNMENT BRAKE AND SUSPENSION

6 UNITS

Class hours: 5 lecture/5 lab

Prerequisite: None.

Corequisite: None.

Recommendation: Concurrent enrollment in AUTO 73/74.

This is a theoretical and practical course in basic alignment, brakes, steering, and suspension on a single manufacturer's car line. Included are operating principles, component description, diagnosis, repair, and service adjustments. This course is designed to accompany work experience in the trade. (Formerly AUTO 121)

Transfer Credit: CSU

AUTO 160

AUTOMOTIVE ELECTRICITY

5 UNITS

Class hours: 4 lecture/4 lab

Prerequisite: None

Recommendation: AUTO 100 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

This is a theory/practical course in basic electricity and automotive electrical systems such as battery, starting, charging, and electronic ignition. Test equipment and computer systems will also be covered. (Formerly AUTO 130)

Transfer Credit: CSU

AUTO 161

AUTOMOTIVE ELECTRICITY

7 UNITS

Class hours: 6 lecture/4 lab

Prerequisite: None

Corequisite: AUTO 73/74.

Recommendation: AUTO 100 or AUTO 151 or equivalent with a grade of Credit or "C" or higher.

This is a theory/practical course in basic electricity and automotive electrical systems, such as battery, starting, charging, and electronic ignition systems. The content will be presented on a single manufacturer's product line. (Formerly AUTO 131)

AUTO 170

AUTOMOTIVE

AIR CONDITIONING

4 UNITS

Class hours: 3 lecture/3 lab

Prerequisite: AUTO 160 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

This theory and shop course is designed to teach basic automotive air conditioning; tools, skills and processes associated with the modern automobile; related information for developing knowledge and skills necessary to perform the most common and essential air conditioning service procedures. This course may be taken a maximum of 2 times. (Formerly AUTO 180)

Transfer Credit: CSU

AUTO 179

AUTOMOTIVE

AIR CONDITIONING

4 UNITS

Class hours: 10 lecture/10 lab (6 weeks)

Prerequisite: AUTO 81 or equivalent with a grade of Credit or "C" or higher.

This course is a study of the principles of automotive air conditioning systems. The tools, skills, and processes necessary to perform the most common and essential air conditioning service procedures are studied and demonstrated in the shop. All instruction will be done on a single manufacturer's unit. (Formerly AUTO 51)

Transfer Credit: CSU

AUTO 180

ELECTRONIC ENGINE MANAGEMENT SYSTEMS

5 UNITS

Class hours: 4 lecture/4 lab

Prerequisite: None

Recommendation: AUTO 100 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

This is a theoretical/practical course pertaining to the operation, individual components, and the overall logic by which fuel systems components work together. Feedback carburetion, fuel injection and electronic controls will be included along with OBD-I and OBD-II systems operation and comparisons. This course may be taken a maximum of 2 times. (Formerly AUTO 233)

Transfer Credit: CSU

AUTO 181

ELECTRONIC ENGINE MANAGEMENT SYSTEMS - CORPORATE

6 UNITS

Class hours: 5 lecture/5 lab

Prerequisite: None

Corequisite: AUTO 73/74.

Recommendation: AUTO 100 or equivalent with a grade of Credit or "C" or higher.

This is a theory/practical course in diagnosing

automotive driveability problems. Areas such as ignition, carburetion, automotive computers, electronic engine controls and on-board diagnostic systems will be included. The course will be presented using a single manufacturer's product line. (Formerly AUTO 231)

Transfer Credit: CSU

AUTO 182

INTRODUCTION TO ALTERNATIVE FUELS

3 UNITS

Class hours: 3 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course introduces students to the role, function, and practical application of Compressed Natural Gas (CNG) as an alternative fuel for the internal combustion engine. Propane, methanol, and hydrogen are also discussed. (Formerly AUTO 192)

AUTO 193 AUTOMOTIVE SERVICE INFORMATION MANAGEMENT 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: Automotive major or employment in an automotive repair facility. This course will cover customer satisfaction, understanding new car warranties, service contracts and operating policies. A review of California common laws and BAR regulations will be included. Emphasis is based on computerized and electronic information systems including, All Data, Mitchell on Demand, ADP Automotive Management Systems.

Transfer Credit: CSU

AUTO 194 RETAILING AUTOMOTIVE SERVICE 3 UNITS

Class hours: 3 lecture

Prerequisite: None

Recommendation: Current automotive student or employed as an automotive service professional.

This course deals with issues related to the automotive repair facility's management, productivity, and operation of vehicle fleets. Taking into account the facility infrastructure, the focus will be on scheduling work to effectively utilize facilities and staff to improve production and profitability. Cost effective techniques for equipment procurement, management, and maintenance will also be covered. Shop organization and workflow will be discussed including safety and regulatory issues.

AUTO 195 AUTOMOTIVE CUSTOMER RELATIONS 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: Employment in an automotive repair facility or full-time automotive student.

This course deals with the selling of automotive services to the general public and automotive fleet managers. All aspects of customer relations and developing skills necessary to properly communicate with customers are covered. Special emphasis will be given to interpersonal relationship development and customer confidence building. Cultural differences will be discussed as they affect sales techniques. This course provides participants with the necessary knowledge

and skills to effectively handle situations that occur when dealing with unusual, complex or ethical problems.

BIOL 105
MAN AND ENVIRONMENT **3 UNITS**

Class hours: 3 lecture
Recommendation: Satisfactory completion of the English Placement Process for ENGL 100 clearance or ENGL 52 or equivalent with a grade of Credit or "C" or higher.
This course is designed to help both science and nonscience majors to develop a better understanding of some of the important environmental problems facing mankind. The nature and implications of subjects such as loss of genetic variability, pollution problems, overpopulation, and the use and abuse of natural resources, will be studied. There will be an emphasis on the interrelatedness of these problems and how an understanding of environmental principles can help us to live on this planet more intelligently and more successfully.

BIOL 110
CALIFORNIA ANIMALS
AND PLANTS **3 UNITS**

Class hours: 2 lecture, 3 lab or field work.
Prerequisite: BIOL 120 or equivalent with a grade of Credit or "C" or higher.
Recommendation: None.

The common plants and animals of California are studied with emphasis upon those local forms which can be readily collected or observed. The lecture is designed to familiarize the student with the life history and identification of local species of plants and animals and to aid in the understanding of the relationship of these organisms to their environment. The laboratory and field work emphasize ecological principles and taxonomic identification.

*Transfer Credit: CSU; UC**

**UC credit limits may apply. No credit for BIOL 110 if taken after BOT 120.*

BIOL 115
MARINE BIOLOGY **3 UNITS**

Class hours: 2 lecture/3 lab
Prerequisite: None.
Corequisite: None.
Recommendation: None.

This introductory course in marine biology is concerned with the adaptations, ecological relationships, economic importance, and identification of marine animals and plants. Emphasis is on the intertidal and offshore communities of California with frequent field trips to observe live specimens and study the marine environment.

BIOL 120
INTRODUCTION TO
BIOLOGICAL SCIENCE **4 UNITS**

Class hours: 3 lecture/3 lab
Prerequisite: Satisfactory completion of the English Placement Process or ENGL 52 or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This course is designed for non-biological science majors. It covers basic principles of life science, including cellular biology, the plant and animal kingdoms, ecology, genetics, and evolution. Emphasis is also placed on human biology as it relates to everyday living.

*Transfer Credit: CSU; UC**

**UC credit limits may apply. No credit for BIOL 120 if taken after 200.*

BIOL 180L
LIFE SCIENCE PREPARATIONS **1 UNIT**

Class hours: 3 lab

Prerequisite: BIOL 120 or equivalent with a grade of Credit or "C" or higher.

This course is designed for pre-teaching, life science majors. The student will learn the use and care of laboratory apparatus through actual experience in the classroom. The student will assist the instructor in the laboratory by performing such jobs as helping to prepare demonstrations, designing displays, and aiding individuals in the class. This course may be taken a maximum of 2 times.

CHEM 100 (CAN CHEM 6) INTRODUCTORY CHEMISTRY 4 UNITS

Class hours: 3 lecture/2 lab/1 quiz

Prerequisite: MATH 40 or equivalent with a grade of Credit or "C" or higher or satisfactory completion of Math Placement Process.

Recommendation: It is strongly recommended that the preceding prerequisite be completed within four years prior to the date of enrollment in CHEM 100.

This course is an introduction to the basic principles of inorganic and organic chemistry and biochemistry with their application to problems encountered in our everyday lives. The course includes the metric system, atomic structure, bonding, solutions, chemical reactions, hydrocarbons, functional groups, carbohydrates, lipids, and proteins. It is designed to give a general introduction to fundamental concepts and to prepare students for majors in nursing, dental hygiene, physi-

cian assistant, physical therapy assistant, liberal arts, and technical fields. (Not open to those with credit in more advanced courses.)

Transfer Credit: CSU; UC*

*UC credit limits may apply: CHEM 110 and CHEM 100 combined: maximum credit, one course. No credit for CHEM 110 or CHEM 100 if taken after CHEM 111.

CDEC 113 THE CHILD, FAMILY, AND COMMUNITY 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

This is a course for anyone who deals with children: parents, teachers, and professionals in human services. Topics discussed are the influences on children's growth and development by the family, the school, child-care facilities, the peer group, the mass media, and the community. Also examined are how these forces interact to socialize and produce the child's values, morals, attitudes, behavior, and self-esteem. This course meets the Department of Social Services Classification Indicator DS 2.

Transfer Credit: CSU

CDEC 133 EARLY CHILDHOOD EXPERIENCES IN MATHEMATICS AND SCIENCE 2 UNITS

Class hours: 2 lecture/1 lab

Prerequisite: CDEC 112 or equivalent with a grade of Credit or "C" or higher.

This course will acquaint the student with developmentally appropriate mathematics and science activities for pre-kindergarten children. Activities for this age group in counting, sets, earth and life sciences, classification of objects, and cooking experiences will be presented. This course meets the Department of Social Service Classification Indicator DS 3.

CDEC 134A HEADS UP! READING- EARLY STEPS TO READING SUCCESS COMPONENT A 1 UNIT

Class hours; 1 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: CDEC 112 or equivalent with a grade of Credit or "C" or higher.

This course will acquaint the students with research based principles and practices for providing children birth through age five with a strong foundation in early reading and writing within a developmentally appropriate approach. Component A emphasizes language acquisition and the developmental continuum for listening, speaking, reading and writing.

Students will be introduced to the concepts of goal setting for literacy. Completion of any two of three components of this course sequence meets the Department of Social Services Classification DS 3 Indicator. Any two of the three components of this course sequence in combination are equivalent to CDEC 63 – Early Childhood Experiences in Language Arts and Social Studies.

Transfer Credit: CSU

CDEC 134B HEADS UP! READING- EARLY STEPS TO READING SUCCESS COMPONENT B 1 UNIT

Class hours: 1 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: CDEC 112 or equivalent with a grade of Credit or "C" or higher.

This course will acquaint the students with research based principles and practices for providing children birth through age five with a strong foundation in early reading and writing within a developmentally appropriate approach. Component B emphasizes language development and how children's books can add vocabulary and comprehension skills. Dramatic play situations will be introduced as well as field trips to increase language opportunities. Use of pre-writing and writing skills will also be included. Completion of any two of three components of this course sequence meets the Department of Social Services Classification DS 3 Indicator. Any two of the three components of this course sequence in combination are equivalent to CDEC 63 – Early Childhood Experiences in Language Arts and Social Studies.

Transfer Credit: CSU

CDEC 134C HEADS UP! READING – EARLY STEPS TO READING SUCCESS COMPONENT C 1 UNIT

Class hours: 1 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: CDEC 112 or equivalent with a grade of Credit or "C" or higher.

This course will acquaint the students with research based principles and practices for providing children birth through age five with a strong foundation in early reading and writing within a developmentally appropriate approach. Component C emphasizes the importance of the home school connection. Diversity issues involved in both receptive and expressive language are introduced. Students will develop and use materials that meet the children's reading needs in a variety of ways. Completion of any two of three components of this course sequence meets the

Department of Social Services Classification DS 3 Indicator. Any two of the three components of this course sequence in combination are equivalent to CDEC 63 – Early Childhood Experiences in Language Arts and Social Studies.

CDEC 161 NUTRITION, HEALTH AND SAFETY IN CHILDREN'S PROGRAMS 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

This course offers an opportunity to study the attitudes and habits essential for the general physical health, mental health, and safety of teacher, parent, and child. Topics covered are the following: nutrition; school menus; common childhood diseases; federal, state, and local nutrition and safety regulations; and other special health problems of Early Childhood Education Programs. Instruction includes health-protection resources provided by home, school, and community. This course meets the Department of Social Services Classification Indicator DS 7. (Formerly CDEC 61)

Transfer credit: CSU

CDEC 164 EARLY CHILDHOOD EDUCATION PRACTICUM 3 UNITS

Class hours: 2 lecture, 3 lab

Prerequisite: CDEC 111 and CDEC 112 or equivalent with grades of Credit or "C" or higher.

This course is designed to provide an opportunity for students placed in the Cerritos College Child Development Center and off-site practica to explore the relationship between theory and practice in programs for young children. The course includes both lecture and laboratory experiences during which students will examine developmental issues, the role of the teacher/caregiver in early childhood programs, and the relationship between programs and families. Students will explore and practice techniques for the observation and recording of behavior; examine environments for young children; and plan, implement, and evaluate developmentally appropriate, culturally relevant experiences for young children. Students spend 3 hours/week in placement for a total of 54 hours/semester. TB clearance and good health are required to participate in this course. This course meets the Department of Social Service Classification Indicator DS 3.

CDEC 173/174 EARLY CHILDHOOD EDUCATION OCCUPATIONAL WORK EXPERIENCE 3-4 UNITS

Class hours: One (1) hour control class each week plus 15 hours of employment per week for Early Childhood Education work experience 173 or 20 hours of employment per week for Early Childhood Education work experience 174. The employment must be in a job related to the student's educational goal.

Prerequisite: None.

Corequisite: Enrollment in Child Development vocational program of 7 or more units in major including Occupational Work Experience.

Occupational Work Experience is a supervised employment program in an approved work station related to the student's declared major. Students meet with their instructor for a minimum of one hour per week and will receive credit for on-the-job learning experience that are new or are an expansion of their regular responsibilities. This course may be taken a maximum of 4 times based on the number of hours on the job. This course meets the Department of Social Service Classification Indicator DS 3.

CDEC 230 ADULT SUPERVISION IN CHILD CARE PROGRAMS 3 UNITS

Class hours: 3 lecture

Prerequisite: CD 110, CDEC 111, CDEC 112, and CDEC 113 or equivalent with grades of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This course is a study of the methods and principles of supervising student teachers, assistant teachers, parents and volunteers in early childhood education/child development classrooms. Emphasis is on the role of the classroom teachers who function as mentors to new teachers while simultaneously addressing the needs of children, parents, and other staff. This course meets the requirement for a course in adult supervision for the California Child Development Permit.

CHILD DEVELOPMENT/ FAMILY CHILD CARE

(Health Occupations Division)

CDFC 10 (Not degree applicable) FAMILY CHILD CARE PROVIDERS 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

This course is designed for a person interested

in or already managing a child care business in the home. Licensing procedures, appropriate standards, recruitment of children, cultural issues, provision and maintenance of a safe and stimulating environment, nutrition programs, community resources, record keeping and other business aspects are covered. Emphasis is on nurturing children, working cooperatively with parents, and the importance of a good self-concept for the child and the family child care provider.

CHILD DEVELOPMENT/ INSTRUCTIONAL AIDE

(Health Occupations Division)

CDIA 73/74 EDUCATIONAL PARAPROFESSIONAL OCCUPATIONAL WORK EXPERIENCE 3-4 UNITS

Class hours: One (1) hours control class each week plus 15 hours of employment per week for Instructional Aide work experience 73 or 20 hours of employment per week for Instructional Aide work experience 74. The employment must be in a job related to the student's educational goal.

Corequisite: Enrollment in the Instructional Aide vocational program with 7 or more units including occupational work experience.

Occupational Work Experience is a supervised employment program in an approved workstation related to the student's declared major. Students meet with their instructor for a minimum of one hour per week and will receive credit for on-the-job learning experiences that are new or are an expansion of their regular responsibilities. Students who are not employed but wish to gain work experience may be placed in a non-paying position if such opportunities are available. These courses may be taken for a maximum of 2 times based on the number of hours on the job.

CDIA 90 INTRODUCTION TO ELEMENTARY AND SECONDARY CLASSROOM EXPERIENCES 3 UNITS

Class hours: 3 lecture

Prerequisite: None

This course is designed to introduce students to principles of classroom experiences. In addition to the dynamics of grade level instruction, emphasis is placed on how children learn, the curriculum of the classroom, discipline and guidance techniques and the role of the paraprofessional or volunteer within a school setting. Attention will be placed on bilingual, multicultural instruction, and special education.

CDIA 99

EDUCATIONAL PARAPROFESSIONAL PRACTICUM 3 UNITS

Class hours: 1 lecture/6 lab

Prerequisite: None

This course offers the student the opportunity to work as an instructional aide under the supervision of professional staff in an elementary or secondary school setting. Content will include developing skills, techniques, and strategies for working in the multilingual/multiethnic classroom. Classroom placement will be arranged for those students not employed by a school district. This course may be taken a maximum of 2 times.

CHILD DEVELOPMENT/INFANT TODDLER

(Health Occupations Division)

CDIT 50

INFANT/TODDLER CARE GIVING 3 UNITS

Class hours: 3 lecture

Prerequisite: CD 110 or equivalent with a grade of Credit or "C" or higher.

The principles of a sound infant/toddler care program are explored. The course content includes roles of the director, teacher and aide, laws and regulations, and considerations relating to learning objectives, developmental needs and other key factors. This course meets the Department of Social Service Classification Indicator DS 4.

CDIT 151

INFANT AND TODDLER DEVELOPMENT 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: CD 110 or equivalent with a grade of Credit or "C" or higher.

This course is an in-depth investigation of the social, emotional, physical, and cognitive development patterns of infants and toddlers, both theoretically and through direct observation. This course meets the Department of Social Service Classification Indicator DS4. (Formerly CDIT 51)

CDIT 152

INFANT AND TODDLER PROGRAMS 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

Corequisite: None

Recommendation: CD 110 and CDIT 51 or equivalent with grades of Credit or "C" or higher.

This course explores program models for chil-

dren from birth to three years of age, addressing program goals, philosophies, curriculum, building relationships with infants, toddlers and families, safety routines, physical space and equipment, as well as infant and family needs especially in a group setting. This course meets the Department of Social Service Classification Indicator DS 4. (Formerly CDIT 52)

CHILD DEVELOPMENT/SCHOOL AGE

(Health Occupations)

CDSA 152

SCHOOL-AGE CHILD CARE SUPERVISION AND ADMINISTRATION 3 UNITS

Class hours: 3 lecture

Prerequisite: CD 110 or equivalent with a grade of Credit or "C" or higher.

This course presents the principles of administration and supervision of school-age child care programs. Emphasized are the role of the director, teacher, and aide; laws and regulations; and a study of objectives, curricula, developmental needs, and other key factors for operating such programs. The unique features of before-and-after-school care as opposed to the regular school day will be stressed. This course meets the Department of Social Service Classification Indicator DS 6.

Transfer Credit: CSU

CDSA 155

SCHOOL-AGE CHILD CARE ACTIVITIES 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

This course presents activities for the 6-12 year-old child in an extended day care setting. Focus is on cognitive, physical, psychosocial, and creative aspects of development, as well as positive approaches to guidance. This course meets the Department of Social Service Classification Indicator DS 5.

Transfer Credit: CSU

CDSA 259

SCHOOL-AGE CHILD CARE PRACTICUM 3 UNITS

Class hours: 2 lecture/3 lab

Prerequisite: CDSA 155 or equivalent with a grade of Credit or "C" or higher.

This course provides practical experiences in an extended child care program. It provides the opportunity to assist the teacher in the Center by planning, preparing, and implementing activities with school-age children. Students will also explore guidance techniques, room environment, tutoring, record keeping, and other extended child care responsibilities. This

course meets the Department of Social Service Classification Indicator DS 5.

Transfer Credit: CSU

CHILD DEVELOPMENT/PARENT EDUCATION

(Health Occupations Division)

CDPE 10 (Not degree applicable)

INTRODUCTION TO FAMILY DEVELOPMENT 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

This course offers the student a comprehensive introduction to the process of parenting from conception through adolescence. It offers an appreciation of challenges and pleasures of parenting as well as practical solutions to common problems.

CHILD DEVELOPMENT/SPECIAL EDUCATION

(Health Occupations Division)

CDSE 50

SURVEY OF SPECIAL EDUCATION 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

This course surveys the field of special education emphasizing the role of the Special Education Assistant in the training of the exceptional individuals. It includes an introduction to the types of special need children and adults, the function of the assistant, and the vocational opportunities available.

CDSE 52

SPECIAL EDUCATION INCLUSION IN EARLY CHILDHOOD PROGRAMS 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course is a comprehensive overview of early childhood inclusion as it applies to children from birth to age eight. It offers a broad study of early childhood special education as it relates to inclusion. The course will cover federal and state laws and regulations, terminology and definitions, appropriate practices and interventions, behavioral issues, family support and guidance and "whole child/whole family" approach to inclusion success.

CDSE 73/74

SPECIAL EDUCATION ASSISTANT OCCUPATIONAL WORK EXPERIENCE

3-4 UNITS

Class hours: One (1) hour control class each week plus 15 hours of employment per week for Special Education Assistant work experience 73 or 20 hours of employment per week for Special Education Assistant work experience 74. The employment must be in a job related to the student's educational goal.

Prerequisite: None.

Corequisite: Enrollment in the Special Education Assistant vocational program with 7 or more units including occupational work experience.

Occupational Work Experience is a supervised employment program in an approved work station related to the student's declared major. Students meet with their instructor for a minimum of one hour per week and will receive credit for on-the-job learning experiences that are new or are an expansion of their regular responsibilities. This course may be taken a maximum of 4 times based on the number of hours on the job. This course meets the Department of Social Service Classification Indicator DS 3.

COMPUTER AND INFORMATION SCIENCES

(Science, Engineering and Math Division)

CIS 5C (Not degree applicable)

BUSINESS COMPUTER INFORMATION SYSTEMS DATABASE MODULE

0.5 UNIT

Class hours: 1.5 lecture/2.5 lab

Prerequisite: None.

Corequisite: None.

Recommendation: Fluency in Spanish is strongly recommended.

This course instructs the students, in a bilingual mode (Spanish), in the use of microcomputers within the business environment using the Microsoft Window interface and the Microsoft Office Professional application suite (Word, Excel, Access, and Powerpoint). Students learn basic aspects of microcomputer software applications using a modular approach. The module will include topics in file management, creation/maintenance of backups, formatting disks, and the basic concepts and use of a database application. This course may be taken a maximum of 2 times. (Not open to students with credit in CIS 102).

CIS 50

BASIC COMPUTER LITERACY

0.5 UNIT

Class hours: 4 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course provides the student with a basic overview of the components of a computer and application software. This course is for the student who is not familiar with the use of the computer and its applications. Topics will include a basic introduction to computer systems hardware, Windows, Word, Excel, and PowerPoint. The class stresses hands-on use of the computer with its applications.

CIS 52

DATA PROCESSING MATHEMATICS

3 UNITS

Class hours: 3 lecture

Prerequisite: Satisfactory completion of the Math Placement Process or MATH 40 or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

This course will provide students with an understanding of basic mathematical concepts, as used in computer applications. Students will solve problems in fundamental algebra using linear and nonlinear functions, study inventory statistics and probability and their relationships to each other, and learn to set up and solve formula relationships, including direct and indirect proportions. Other topics will include number systems, logic, mathematics of elementary finance, table structures, Boolean algebra, and basic geometric concepts, including some coordinate geometry.

CIS 54A

EXCEL FOR WINDOWS - PART 1

1.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: None.

Corequisite: None.

Recommendation: CIS 105 or equivalent with a grade of Credit or "C" or higher.

This course provides an introduction to the functions of Microsoft Excel for Windows spreadsheet. The fundamentals of building worksheets include creating worksheets, cell formatting, functions, formulas, Wizards, and the creation of basic charts. Techniques to deal with large worksheets are covered. Templates, macros and database functions are previewed. Hands-on exercises are used to reinforce the functions of Excel.

CIS 54B

EXCEL FOR WINDOWS - PART 2

1.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: CIS 54A or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This course continues to explore the functions of the Microsoft Excel for Windows spreadsheet. The fundamentals of building worksheets will include creating worksheets, formatting, functions, formulas, macros, data tables, analysis tools, and the creation of charts. Techniques to deal with multiple worksheets and large worksheets will be covered. The database functions of Excel will include: sorting, filtering, queries, macros, and record retrieval. Hands-on exercises will be used to reinforce the functions of Excel.

CIS 56

MICRO DISK OPERATING SYSTEMS

1.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: None.

Recommendation: CIS 101 or CIS 102 or equivalent with a grade of Credit of "C" or higher.

This course is designed to acquaint students with the functions of the MS-DOS operating system. Students will learn the basics of the MS-DOS operating system required to prepare them for the MS-DOS portion of the MS-DOS/Windows exam for the A+ and Network+ certifications.

CIS 58

WINDOWS FOR COMPTIA A+ CERTIFICATION EXAMS

1.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: None.

Corequisite: None.

Recommendation: Student should be familiar with any Windows environment, version 3.0 or higher. The student preparing for this exam should also enroll in CIS 56.

This course is designed to help the student prepare for the Windows portion of the DOS/Windows certification test for the CompTIA A+ certification exam. The A+ certification consists of two exams: (1) a basic knowledge of PC hardware; (2) familiarity with installing and maintaining DOS, Windows 3.x, and Windows 95/98. The hardware portion is covered in EL 54.

CIS 58A

PC OPERATING SYSTEMS A+ CERTIFICATION

3.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: None

Corequisite: None

Recommendation: CIS 101 or CIS 102 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

This course is designed to cover the subject matter required for the operating systems technologies component of CompTIA's A+

Certification. Topics to be discussed include operating system installation, configuration, upgrading, troubleshooting, and networking. This course may be taken a maximum of 3 times.

CIS 58B

PC CORE HARDWARE

A+ CERTIFICATION

3.5 UNITS

Prerequisite: None

Corequisite: None

Recommendation: CIS 101 or CIS 102 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

This course is designed to cover the subject matter required for the core hardware component of CompTIA's A+ Certification. Topics to be discussed include computer hardware installation, construction, upgrading, troubleshooting, repair, networking, Internet connectivity and wireless technologies. This course may be taken a maximum of 3 times.

CIS 70A

NETWORKING

FUNDAMENTALS

3.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: None.

Corequisite: None.

Recommendation: CIS 101 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

This is a survey course about the computer networking and telecommunications industry. Topics covered include the seven layers of the Open Systems Interconnection Model (OSI), network architectures, internetworking, and telecommunications.

CIS 70B

LOCAL AREA NETWORKS

3.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: CIS 70A or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This course introduces the concepts, technologies, components and protocols inherent in today's local area networking environments. Students will learn how computers are connected together to form peer-to-peer and server-based networks, and discover the functionality and uses of a router, bridge, switch, hub and repeater. The three most commonly used network operating systems for LANs today, Microsoft Windows-based operating system, Unix, and Novell NetWare, are also covered in this course. In addition, it explains the latest LAN technologies such as VLANs, fast Ethernet, and other new technical developments in the LAN area.

CIS 70D

INTRODUCTION TO TCP/IP

1.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: CIS 70G or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This course offers an overview of the most widely used networking architecture in the networking industry – Transport Control Protocol/Internet Protocol (TCP/IP). Students will learn the underlying applications, components and protocols of TCP/IP and its necessary link to the Internet, and how to identify TCP/IP layers, components and functions. Navigation tools, TCP/IP applications, structure of TCP/IP and IP routing, TCP/IP addressing and subnetting, how TCP/IP addresses are discovered and used in computer networks, IP routing and router usage, and troubleshooting a TCP/IP network.

CIS 70E

ROUTER CONFIGURATIONS AND PROTOCOL

3.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: CIS 70A or equivalent with a grade of Credit or "C" or higher or appropriate work experience.

Corequisite: None.

Recommendation: None.

This is the second course of four on Cisco networking technologies. It covers the OSI reference model, routers and their use, router components, router start-up and set-up, configurations, and the Cisco Internetworking Operating Systems (IOS).

CIS 70F

ADVANCED SWITCHING AND ROUTING

3.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: CIS 70E or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Corequisite: None.

Recommendation: None.

This is the third in a series of courses that prepares students for certification as a Cisco Certified Network Associate (CCNA). This class covers LAN (Local Area Network) Switching, VLANs (Virtual Local Area Networks), LAN design, IGRP (Interior Gateway Routing Protocol), Access lists, and Novell IPX.

CIS 70G

WIDE AREA NETWORKS

3.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: CIS 70E or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This is the fourth in a series of courses that

prepare students for certification as a Cisco Certified Network Associate (CCNA). It covers Wide Area Network (WAN) design, Point-to-Point Protocol (PPP), Integrated Services Digital Network (ISDN), Frame Relay, and CCNA exam review.

CIS 70H

NETWORKING ANALYSIS AND DESIGN

2.5 UNITS

Class hours: 5 lecture

Prerequisite: CIS 70F or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This course focuses on the design process for computer networking. Concepts and skills developed in previous courses in this series form the foundation for approaching the task of defining network requirements, writing specifications, designing, and implementing a computer network.

CIS 70J

CISCO CCNA CERTIFICATION EXAM REVIEW

1.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: None

Corequisite: None

Recommendation: CIS 70G or equivalent with a grade of Credit or "C" or higher.

This course is designed to enhance student readiness for the Cisco Certified Network Associate (CCNA) exam. It reviews all key concepts and skills required in the CCNA exam as well as exam question types and test-taking strategies.

CIS 70K

INTRODUCTION TO WIRELESS NETWORKING

3 UNITS

Class hours: 3 lecture

Prerequisite: None

Corequisite: None

Recommendation: CIS 70A or equivalent with a grade of Credit or "C" or higher.

This is an introductory course on the fundamental concepts of wireless networking. It covers the technical foundation of wireless communications and various, protocols used in the current wireless applications. Topics include Wireless Application Protocol (WAP), Bluetooth, cellular telephony, Wireless Local Area Networks (WLANs), satellite communications, Global Positioning System (GPS).

CIS 70L

NETWORK SECURITY FUNDAMENTALS

3.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: None

Corequisite: None

Recommendation: CIS 70A or equivalent with a grade of Credit or "C" or higher.

This is an introductory course on fundamentals of network security. It provides a comprehensive overview of network security and covers communication security, infrastructure security, cryptography, operational, organizational security, disaster recovery, business continuity, as well as computer forensics. The course content also maps to the Security+ certification exam by Computing Technology Industry Association (CompTIA).

CIS 75

SQL ADMINISTRATION AND IMPLEMENTATION

3 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: None.

Corequisite: None.

Recommendation: CIS 212 or equivalent with a grade of Credit or "C" or higher is strongly recommended.

This course provides students with the knowledge and skills required to install, configure, administer, trouble-shoot, and implement the Microsoft SQL server database management system.

CIS 80

PROGRAMMING IN ACCESS

3 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: None.

Corequisite: None.

Recommendation: CIS 155 and CIS 171 or equivalent with grades of Credit or "C" or higher are strongly recommended.

This course provides students with the knowledge and skills required to program Access applications using Visual Basic for Application. The students will design and create real-world business applications.

CIS 84

MICROSOFT INTERNET INFORMATION SERVER

1.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: None.

Corequisite: None.

Recommendation: Strongly recommend CIS 212 or CIS 212B and CIS 121 or equivalent with grades of Credit or "C" or higher.

This course covers the support of the various features of Microsoft Internet Information Server (IIS). Students will learn how to install, configure, and implement the key components that comprise IIS. They will also have hands-on experience setting up a Web site.

The course is intended for those who support or administer Microsoft Internet Information Server. The course uses a combination of lectures, demonstrations, discussions, online assignments, and hand-on labs. This course is compliant with current industry certification.

CIS 85

UNIX PRODUCTIVITY TOOLS

3.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: None.

Corequisite: None.

Recommendation: CIS 56 with a grade of Credit or "C" or higher is strongly recommended.

This course is designed for students in computer science to introduce them to basic productivity tools that are available on the UNIX platform. These tools include the basic command-line and menu-driven utilities such as vi, emacs, mail and pine; the GUI (Graphical User Interface) tools such as GNUwrite and GNUMERIC; and the advanced, integrated productivity suites such as StarOffice, which will be discussed in detail. Other advanced tools such as the GIMP (GNU Image Manipulation Program) will be presented so that students will be able to use, configure and support these applications.

CIS 101

(CAN BUS 6)

INTRODUCTION TO COMPUTER INFORMATION SYSTEMS

3 UNITS

Class hours: 3 lecture +1 hr. lab. arr.

Prerequisite: None.

Corequisite: None.

This course provides the student with the essential knowledge required for a well-rounded understanding of the use of the computer as a tool to produce useful information in small and large work environments. The course allows the student to achieve an understanding of computer technology, computer hardware, computer software and how computers can be used to produce meaningful information. The student will solve applied problems in spreadsheet preparation and analysis using Microsoft EXCEL and in database programming using Access.

*Transfer Credit: CSU; UC**

**UC credit limits may apply. CIS 101 and 102 combined: maximum credit, one course.*

CIS 102

INTRODUCTION TO MICROCOMPUTER HARDWARE AND APPLICATIONS SOFTWARE

3 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: None.

This course instructs the students in the use of microcomputers within an organizational environment using the Microsoft Windows interface and current applications software.

Software topics include file management, elementary word processing, applications in spreadsheet use, database management, and presentation graphics.

*Transfer Credit: CSU; UC**

**UC credit limits may apply: CIS 101 and 102 combined: maximum credit, one course.*

CIS 103

COMPUTER PROGRAMMING LOGIC

3.5 UNITS

Class hours: 3 lecture /2 lab

Prerequisite: None.

Corequisite: None.

Recommendation: Concurrent enrollment in or completion of CIS 101 or CIS 102 or equivalent with a grade of Credit or "C" or higher.

This is an introductory course in computer programming logic. The student will learn concepts applicable to all programming languages, including; identifiers, data types, arrays, control structures, algorithms, modular programming, generating reports, and computer memory concepts. The student will learn to use charts commonly used in business and information processing. Program logic will be developed using flowcharts and pseudocode. Programs will be written using a programming language. The student will be introduced to the following additional topics: graphical user interface design, object-oriented and event-driven programming, searching, sorting, and file processing concepts.

Transfer Credit: CSU; UC

CIS 105

USING MICROSOFT WINDOWS

1.5 UNITS

Class hours: 3 lecture +1 hr. lab. arr.

Prerequisite: None.

Corequisite: None.

Recommendation: CIS 102 or equivalent with a grade of Credit or "C" or higher.

This course covers the use of Microsoft Windows. Currently available Windows Operating Systems will be explored, including Windows 95, 98, NT, Millennium Edition, and Windows 2000. Topics include file and application management, personalizing the system, using the productivity tools, connecting to the Internet, and exchanging data. Current topics of interest relating to Windows will also be discussed.

CIS 105B

MICROSOFT WINDOWS MOBILE

3 UNITS

Class hours: 1.5 lecture/0.5 lab arr.

Prerequisite: None

Corequisite: None

Recommendation: None

This course offers technical training in the Microsoft Windows Mobile (WM) technology. Students will learn the technical background of the WM operating systems, various communication protocols used on the WM-based devices, and their applications. Troubleshooting techniques and software development tools will be discussed. This course is designed for students interested in the technical support on the WM operations in an enterprise environment. This course may be taken a maximum of 2 times.

Transfer Credit: CSU

CIS 120

WEB DESIGN WITH MICROSOFT FRONTPAGE

1.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: CIS 121 or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This course covers the features and capabilities of FrontPage. Students learn how to create Web pages with FrontPage. The Web designing projects provide a practical application of Web developments with a real world environment.

Transfer Credit: CSU

CIS 121

INTERNET FOR INFORMATION SYSTEM/INFORMATION TECHNOLOGY

1.5 UNITS

Class hours: 3 lecture +1 hr. lab. arr.

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course will cover the fundamental features of the Internet and represents a foundation class for Information Technology. Students will learn how to access and use the Internet. Topics covered will include electronic mail, File Transfer Protocols, Telnet, Search tools for various Internet resources, World Wide Webs, newsgroups, Listserv, BBS (Bulletin Board Service) and other resources. The Internet as a Wide Area Network will be reviewed.

JAVASCRIPT FOR PROGRAMMERS

1.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: CIS 205 and a knowledge in one

programming language or equivalent with grades of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This course covers the JavaScript programming language. Students learn how to enhance the Web pages to be interactive, intelligent, and exciting with JavaScript. The course projects provide a practical application of Web page developments with a real world environment. (This course is not open to students who have taken CIS 126.)

3.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: CIS 205 or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This is a course in programming Web pages on the client-side using the JavaScript programming language. It is for beginning to intermediate level students who know how to create Web pages and now want to add interactivity to their Web pages. This course is designed for the students who are not familiar with programming language. Programming concepts and terminology will be taught using the JavaScript programming language. (This course is not open to students with credit in CIS 125).

1.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: None.

Corequisite: None.

Recommendation: CIS 141 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

This course will introduce the student to operating an iSeries 400 (AS/400) through the graphical interface Operations Navigator (ON). Operations Navigator will be used to configure, monitor, and manage the iSeries 400 (AS/400). Topics include basic operations, printing, job management, device configuration, security, database management, file systems, backup, and user/groups. This course is primarily for Information Technology professionals with some background in the AS/400 operations.

MICROSOFT EXCEL FOR INFORMATION SYSTEMS/ INFORMATION TECHNOLOGY 3.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course provides the skill and concepts needed to use the functions of the spreadsheet Microsoft EXCEL for Windows. This course is a foundation class for Information Technology. The fundamentals of building worksheets include: creating worksheets, formatting, functions, formulas, macros, data tables, analysis tools, templates, Wizards, and the creation of charts. Techniques to deal with multiple worksheets and large worksheets are covered. The database functions of EXCEL will include sorting, filtering, queries, macros, and record retrieval. This course covers the topics required in industry certifications. Hands-on exercises are used to reinforce the function of EXCEL. This course is not open to students who have taken both CIS 54A and CIS 54B.

COBOL PROGRAMMING 3 UNITS

Class hours: 3 lecture + 1 hr. lab. arr.
Prerequisite: CIS 103 or equivalent with a grade of Credit or "C" or higher.
Corequisite: None.

This is an introductory course in computer programming, utilizing the most frequently used procedural language for business applications--COBOL. COBOL is a "near English" language which provides for thorough documentation of the program, and enables programmers to program on all major manufacturers' equipment with minimum of adjustment. The purpose, structure, content and specific rules of the language will be considered in detail. Business applications will be analyzed, flowcharted, coded and debugged using the computer. Structured programming concepts will be introduced. COBOL lab problems will be assigned.

MICROSOFT WINDOWS ACTIVE DIRECTORY SERVICES 3.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: None.

Corequisite: None.

Recommendation: CIS 212 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

This course provides an overview of Microsoft Windows Active Directory Services, used in the latest Microsoft network operating systems. It helps students develop knowledge and skills to install, configure, and administer Windows 2000 Active Directory Services, implement Group Policy, and perform the Group Policy-related tasks that are required to centrally manage users and computers. Students learn to set up and administer domain user accounts and groups, delegate administrative control of Active Directory objects in Windows 2000, create and manage trees and forests in a Windows 2000 network, administer forest-wide resources, manage Active Directory replication and operation master, manage and restore the Active Directory database, and implement an Active Directory infrastructure. The course also prepares students for the Microsoft Certified Professional (MCP) Exam 70-217-a core requirement on the Windows 2000 Microsoft Certified Systems Engineer (MCSE) track.

3.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: CIS 175 or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

This is a second course in the use of the RPG programming language in which emphasis is placed on using the more advanced features of the language. Students are introduced to modular programming, static and dynamic binding, and the use of service programs in the Integrated Language Environment (ILE). Students are also introduced to coding

using IBM's CODE/400, a client-server pc-based application development environment. Other topics include Operations Navigator, a Graphical User Interface (GUI), used to create, change, and maintain iSeries/400 objects and traditional iSeries/400 application development tools such as Source Entry Utility (SEU), Screen Design Aid (SDA), and Data File Utility (DFU). The emphasis is on the creation of interactive programs versus batch programs. Advanced topics include the use of subfiles for interactive programs and an introduction to SQL's Data Definition Language (DDL) and Data Manipulation Language (DML). Programming is done both on a stand-alone pc-compatible workstation and on an iSeries midrange computer.

This is a second course in the use of the RPG programming language. Students are introduced to modular programming in procedural and event-driven programs. They are also introduced to static and dynamic binding, and the use of service programs in the Integrated Language Environment (ILE) and dynamic link libraries (DLLs) for pc-based standalone applications. VisualAge RPG is part of a suite of application development tools called WebSphere Development Tools/400.

BUILDING ISERIES/400 WEB

APPLICATIONS WITH ILE RPG

3.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: CIS 175 and CIS 205 or equivalent with grades of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This is a course on designing web applications on an IBM (International Business Machines) iSeries/400 midrange computer using knowledge of HTML (Hyper Text Markup Language) and ILE RPG (Integrated Language Environment Report Program Generator). The course topics include configuring the HTTP (Hyper Text Transfer Protocol) server on the iSeries/400 and declaring HTTP server instances, JavaScript, TCP/IP (Transport Control Protocol/Internet Protocol), the iSeries/400 IFS (Integrated File System) and the use of APTs (Application Program Interfaces). The language RPG is used to create CGI (Common Gateway Interface) programs

that “web enable” existing RPG programs that produce output to terminal screens or spooled files for later printing.

ADVANCED COBOL PROGRAMMING

3 UNITS

Class hours: 3 lecture +1 hr. lab. arr.

Prerequisite: CIS 176 or equivalent with a grade of Credit or “C” or higher.

Corequisite: None.

This course is designed to extend both the students’ skills in computer programming and their knowledge of the most frequently used language in business data processing. The emphasis will be on file processing and the advanced features of a high level implementation of COBOL including: COBOL Sort, Report Writer, Subroutine and Subprogram Linkage, COBOL Library, etc.

ASSEMBLY PROGRAMMING FOR MICROCOMPUTERS

4 UNITS

Class hours: 3 lecture/3 lab

Prerequisite: CIS 177 (Pascal) and CIS 180 (“C” Language), or CIS 178 (Fortran) or equivalent with grades of Credit or “C” or higher.

This course is a detailed coverage of micro-computer architecture and instruction sets and how to use them to design and write assembly language programs. Topics will cover principles of assembly programming including functions, stacks, recursion, macros, input/output devices, precision arithmetic and logic design.

ISERIES 400 CONTROL LANGUAGE PROGRAMMING

3 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: None.

Corequisite: None.

Recommendation: CIS 141 or equivalent with a grade of Credit or “C” or higher is strongly recommended.

This course covers the fundamental concepts required to develop control language programs for use on an IBM iSeries 400. Topics include: structured programming, program control, error handling, OS/400 concepts, and when to use CL programs.

CIS 251

ADVANCED SYSTEMS ANALYSIS AND DESIGN

3 UNITS

Class hours: 3 lecture +1 hr. lab. arr.

Prerequisite: CIS 201 or equivalent with a grade of Credit or “C” or higher.

This course is a study of theory and application of business data processing systems including the use of administrative tools and techniques. Emphasis is placed on planning practical computer information systems for information retrieval, business applications, operations research, and management control.

WORK EXPERIENCE

1 UNIT

Class hours: 1 hr/wk coordination class

Prerequisite: None.

Corequisite: Enrollment in 7 or more units, including Computer and Information Sciences Occupational Work Experience or at least one other course during summer, in a computer-related major. One unit of Computer and Information Sciences Occupational Work Experience requires 60 non-paid hours of work or 75 paid hours of work per semester.

Recommendation: None.

Work Experience/Career Internship provides the opportunity for students to apply skills and knowledge learned in the classroom to related experiences on the job/training site. The aim of the course is to assist students in expanding specific job skills. In the process of doing so, it creates greater communication with increased understanding between the student/workers, the college, and the employer/trainers. First-semester students meet with their instructors for a minimum of one hour per week. Students also pursue a program of self-evaluation to determine individual job weaknesses and strengths. Semester projects that relate to their major and job skills must be completed on the job/training site. Second-, third-, and fourth-semester students must secure departmental approval before enrolling. Students will meet weekly with the instructor until their participatory assignments and semester work projects have been approved. This course may be taken a maximum of 3 times.

EDT 19 **FUNDAMENTALS OF TELECONFERENCING** 1 UNIT

Class hours: 1 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course introduces students to teleconferencing - the interactive transmission of images, sound, data, and control between two or more sites using digital lines. Emphasis will be placed on teleconferencing as a research and training tool in fields such as finance, health care, education, criminal justice, child care, and entertainment. Students will participate in live teleconferences and employ electronic technologies. This course may be taken a maximum of 4 times.

EDT 20 **TELECONFERENCING FOR SMALL GROUPS** 2 UNITS

Class hours: 2 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course introduces students to the concepts and vocabulary of teleconferencing in small rooms and seminars. Emphasis is placed on safety, scheduling, event planning, wrap-around activities, audio and video fundamentals, audiographics, and networking. Students will critically review videos of professional, small-group encounters. This course may be taken a maximum of 2 times.

EDT 21 **TELECONFERENCE TELEMATICS** 1 UNIT

Class hours: 1 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course develops students' facility in developing telematics media, which employ both analog and digital technologies. Emphasis is placed on those production elements necessary to teleconferencing, including stage and set design, visual and audio media, meeting and conference protocols, and information gathering and distribution. This course may be taken a maximum of 4 times.

EDT 22 **TELECONFERENCE REVIEW AND EVALUATION** 1 UNIT

Class hours: 1 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course introduces students to the evaluation criteria of teleconferenced events. Students will attend events at the Teleconference Center and the local area and produce written evaluations that employ objective and subjective measurements, audience feedback, and principles of quality control. This course may be taken a maximum of 4 times.

EDT 23 **TELECONFERENCE PRODUCTION** 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course provides students with direct experience in producing, directing, and evaluating live, interactive teleconferences, including auditorium, small group, and classroom site events. Emphasis is placed on safety, scheduling, event planning, "wrap-around" activities, audio and video fundamentals, audiographics, and networking. Students will co-produce and critically review live teleconference events. This course may be taken a maximum of 3 times.

FUNDAMENTALS OF INSTRUCTIONAL MULTI-MEDIA PRODUCTION 2 UNITS

Class hours: 2 lecture/1 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

The Fundamentals of Instructional Multi-Media Production course focuses on the multi-media skills needed to work within today's educational environments. The course provides a foundation in the use of multi-media production equipment, computer software applications, and other resources to support educators and educational programs. This course may be taken a maximum of 2 times.

EDT 43

EDUCATIONAL OCCUPATION/WORK EXPERIENCE 3 UNITS

Class hours: 1 lecture

Prerequisite: None.

Corequisite: Enrollment in 7 or more units, including Educational Occupation Work Experience in a declared educational major. Three units of Educational Occupation Work Experience require 180 non-paid hours or 225 paid hours of work per semester.

Work experience provides the opportunity for students to apply skills and knowledge learned in the classroom to related experiences in the educational work place. The goal of the program is to assist students in expanding specific job skills. First semester students meet with their instructors for a minimum of one hour per week. Students also pursue a program of self-evaluation to determine individual job weaknesses and strengths. Semester projects that relate to a career in education must be completed at the training site. Second semester students must secure departmental approval before enrolling. Students will meet weekly with the instructor until their participatory assignments and semester work projects have been approved. Three units of Educational Occupation Work Experience

requires 180 non-paid hours of work or 225 paid hours of work per semester. This course may be taken a maximum of 2 times.

Work experience/career internship provides the opportunity for Electronics students to apply skills and knowledge learned in the classroom to related experiences on the job/training site. The aim of the course is to assist students in expanding specific job skills. In the process of doing so, it creates greater communication with increased understanding between the student/workers, the college, and the employer/trainers. Students also pursue a program of self-evaluation to determine individual job weaknesses and strengths. Semester projects that relate to the major and job skills must be completed on the job/training site. These courses may be taken a maximum of 4 times.

EL 50 ELECTRONIC TESTS AND MEASUREMENTS 1.5 UNITS

Class hours: 1 lecture/2 lab

Prerequisite: None.

Corequisite: None.

Recommendation: EL 100 or equivalent with a grade of Credit or "C" or higher.

This is a course in the use of electronic testing equipment. Topics include measurement theory, techniques, limitations of test equipment, and interpretation of test results. This course may be taken a maximum of 2 times.

Announcement of Courses

EL 52

BASIC VCR SERVICING

3 UNITS

Class hours: 2 lecture/4 lab

Prerequisite: EL 202 or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This course is an introduction to the theory, operation and servicing of home video cassette recorders using either BETA or VHS format. The major emphasis is on understanding circuits and service techniques.

EL 53A

INTRODUCTION TO MICROPROCESSORS

3 UNITS

Class hours: 2 lecture/3 lab

Prerequisite: EL 114 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Corequisite: None.

Recommendation: None.

This is an introduction to microprocessor hardware and software. Topics discussed include the history of the microprocessor and microcontroller families, hardware and software tools, assembly language programming, data structures, subroutine calls, interrupts, and parallel Input/Output (I/O). This course may be taken a maximum of 2 times.

EL 53B

ADVANCED MICROPROCESSORS

2 UNITS

Class hours: 1 lecture/3 lab

Prerequisite: EL 53A or equivalent with a grade of Credit of "C" or higher, or appropriate work experience.

Corequisite: None.

Recommendation: None.

This course builds on the principles learned in EL 53A as embedded control applications are investigated. Topics discussed include counter-timer applications, serial communication techniques, analog signal conversion, and embedded control. This course may be taken a maximum of 3 times.

EL 54

A+ CERTIFICATION MICROCOMPUTER REPAIR AND SERVICING

3 UNITS

Class hours: 2 lecture/3 lab

Prerequisites: None.

Corequisite: None.

Recommendation: EL 100, EL 134 or EL 114 and EL 124, and TM 50.

This course instructs the student in fundamentals of troubleshooting and repair of microcomputers using both hardware and software testing techniques. Different types and sizes of microprocessor systems will be discussed. This course prepares the student for the hardware portion of A+ Certification.

Laboratory assignments will accompany the lecture material. Some familiarity with a high-level programming language is recommended.

EL 55

NETWORK CABLING TECHNOLOGY

2 UNITS

Class hours: 1 lecture/3 lab

Prerequisites: None.

Corequisite: None.

Recommendation: None.

This course will prepare the student for the network cabling specialist certification. Topics will include identification, description, application and configurations of various cables and terminations. Troubleshooting cables for shorts and opens, transposals and reversals, and understanding pin configurations will also be covered. This course may be taken a maximum of 3 times.

EL 56

PROGRAMMABLE LOGIC CONTROLLERS

3.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: EL 100 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Corequisite: None.

Recommendation: None.

This course introduces the student to programmable logic controllers (PLC). Topics to be discussed include history of the PLC, ladder diagrams, programming techniques, programming languages, installation, troubleshooting, and maintenance of the PLC.

EL 57

ELECTRONIC PROJECT DESIGN AND FABRICATION

1.5 UNITS

Class hours: 1 lecture/2 lab

Prerequisite: None.

Corequisite: None.

Recommendation: EL 100.

This course is an introduction to the methods and techniques of electronic prototype design, layout, fabrication and packaging. Topics covered in this course include component identification, basic shop tools, basic breadboarding, chassis construction, printed circuit fabrication, and assembly. Skills gained shall include parts and component procurement using catalogs and the Internet (search, soldering, wiring and prototyping. This course may be taken a maximum of 3 times.

EL 60

COMPUTER AIDED CIRCUIT ANALYSIS

1.5 UNITS

Class hours: 1 lecture/2 lab

Prerequisite: EL 100 or equivalent with a grade

of Credit or "C" or higher, or appropriate work experience.

Corequisite: None.

Recommendation: None.

This course is an introduction to the fundamentals of computer-aided circuit simulation and electronic design automation (EDA). The emphasis is on the use of the computer in designing and testing electronic circuits for more productive hardware construction. This course may be taken a maximum of 3 units.

EL 62

OPTOELECTRONICS

3 UNITS

Class hours: 3 lecture/1 lab

Prerequisite: EL 100 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience, and satisfactory completion of the Math Placement Process or TM 50 or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This is a course in the fundamentals of optoelectronics. Topics to be covered include the behavior of light, optics, light sources, lasers, displays, detectors, optical sensors, optocouplers, and fiber optics.

EL 64A

FUNDAMENTALS OF TELECOMMUNICATION ELECTRONICS

3 UNITS

Class hours: 3 lecture/1 lab

Prerequisite: EL 120 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Corequisite: None.

Recommendation: EL 134 or EL 114 and EL 124 or equivalent with grades of Credit or "C" or higher.

This is an introductory course about the electronic principles of computer and communication networks. Course content includes an introduction to networking. Presentation and exploration of the basic aspects of telecommunications and telecommunication systems, spectra, modulation, transmission media, multiplexing techniques, circuit switching, error detection and correction, and circuit testing will also be included.

EL 64B

ADVANCED TELECOMMUNICATION ELECTRONICS

3 UNITS

Class hours: 3 lecture/1 lab

Prerequisite: EL 64A or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Corequisite: None.

Recommendation: None.

This is an advanced course in electronic data communications generally covering the

All courses on this page are Title V Associate Degree applicable/credit courses unless otherwise noted.

Announcement of Courses

electronic principles of Wide and Local Area Networks. The open system interconnection (OSI) reference model is used for comparison of different WAN and LAN implementation and their corresponding technical issues. The transport control protocol/internet protocol (TCP/IP), asynchronous transfer mode (ATM), Frame Relay, integrated services digital network (ISDN), and broadband (BISDN) are among the cases to be studied.

EL 66 FUNDAMENTALS OF ELECTRICITY 3 UNITS

Class hours: 3 lecture/1 lab

Prerequisite: None.

Corequisite: None.

Recommendation: EL 100 and TM 50 or equivalent with grades of Credit or "C" or higher.

This course introduces the student to the principles of electrical power. Topics to be discussed include electrical safety, generators, motors, wiring, National Electrical Code (NEC), installation, and maintenance.

EL 76 INDUSTRIAL ELECTRONIC CONTROL 3.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: EL 124 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Corequisite: EL 200 or equivalent.

Recommendation: None.

This is a course in the application of electronic circuitry to industrial process control. Topics to be discussed include mechanical systems, sensors, motors, actuators, feedback control, switching circuits, relay control, power-control semiconductors and interfacing of electronic circuits to mechanical, hydraulic and pneumatic systems.

EL 86 ELECTRIC MOTOR CONTROL 3 UNITS

Class hours: 3 lecture/1 lab

Prerequisite: EL 100 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Corequisite: None.

Recommendation: None.

This course presents the principles of motor control. Topics to be discussed include safety, classifications of motors, speed control, and motor applications.

EL 94 INTRODUCTION TO DIGITAL SIGNAL PROCESSING 3.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: EL 200 and EL 244 or equivalent with grades of Credit or "C" or higher, or

appropriate work experience.

Corequisite: None.

Recommendation: EL 210 or equivalent with a grade of Credit or "C" or higher.

This course introduces the student to the concepts of digital signal processing (DSP). Topics to be covered include DSP chip architecture, interfacing, programming, digital filtering, voice recognition, and telecommunications applications. Laboratory experiments will demonstrate the application of DSP devices.

EL 96A INTRODUCTION TO AUTOMATED MANUFACTURING (ROBOTICS) 4 UNITS

Class hours: 3 lecture/3 lab

Prerequisites: EL 134 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Corequisite: None.

Recommendation: None.

This course provides an overview of the current robotics industry starting with a brief history which is followed by a review of the basic terms used in the field. The robots are classified by geometry, power source, application, path control and intelligence. The operation of different types of end effectors is covered along with robot controllers and the basic system sensors. Basic programming techniques are covered.

EL 96B AUTOMATED MANUFACTURING (ADVANCED ROBOTICS) 4 UNITS

Class hours: 3 lecture/3 lab

Prerequisite: EL 96A or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Corequisite: None.

Recommendation: None.

This course is designed to prepare technicians in robotics design and research, robot applications, installations, programming, "start-up" procedures, customer service, troubleshooting and maintenance. The technician will have an understanding in integrated systems. The course covers the operation of work cells including vision systems, tactile sensing, offline programming, interfacing to external computers, and voice input and output. Use of vision and touch sensing will be emphasized.

EL 100 BASIC ELECTRONICS 4 UNITS

Class hours: 4 lecture

Prerequisite: None.

This is a survey course intended for non-electronics majors. It satisfies the general requirements in electronics for Industrial Arts Teacher Training at state universities. It is also an acceptable substitute for the electronics background required as a prerequisite to enter

the electronics program. The course will cover DC and AC electrical theory, magnetism, transistors, and integrated circuits. Basic concepts of electronic devices, circuits, and systems will be demonstrated.

Transfer Credit: CSU

EL 110 PRINCIPLES OF DC ELECTRONICS 4 UNITS

Class hours: 4 lecture

Prerequisite: None.

Corequisite: TM 50 or equivalent.

Recommendation: EL 100 or equivalent with a grade of Credit or "C" or higher.

This course covers atomic structure and the electron theory, Ohm's and Kirchhoff's laws for DC circuits, magnetism, inductance, capacitance, DC measurements, and DC network analysis.

Transfer Credit: CSU

EL 110L DC ELECTRONICS LABORATORY 1 UNIT

Class hours: 3 lab

Prerequisite: None.

Corequisite: Concurrent enrollment or completion of EL 110 or equivalent with a grade of credit or "C" or higher.

Recommendation: EL 100.

Experiments performed in this course are planned to accompany the lectures in EL 110. The student learns to use instrumentation in the measurement and analysis of DC circuits. Color code, symbols, schematics and assembly techniques are introduced.

Transfer Credit: CSU

EL 114 FUNDAMENTALS OF DIGITAL ELECTRONICS 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: EL 100 or equivalent with a grade of Credit or "C" or higher and satisfactory completion of the Math Placement Process or MATH 20 or equivalent with a grade of Credit or "C" or higher.

This course is an introduction to the fundamentals of digital electronics. The material includes number systems, Boolean algebra, logic symbols, computer codes, combinational logic circuits, and programmable logic devices.

Transfer Credit: CSU

EL 114L
FUNDAMENTALS OF
DIGITAL ELECTRONICS LAB **1 UNIT**

Class hours: 3 lab
 Prerequisite: None.
 Corequisite: EL 114 or equivalent.
 Recommendation: None.
 This is a laboratory course designed to support the concepts learned in EL 114. Fundamentals of Digital Electronics. Experiments are used to verify the applications of number systems, Boolean algebra, logic symbols, and computer codes. Design projects are assigned to be constructed using integrated circuits and computer simulations. This course may be taken a maximum of 2 times.
Transfer Credit: CSU

EL 120
PRINCIPLES OF
AC ELECTRONICS **4 UNITS**

Class hours: 4 lecture
 Prerequisites: EL 110 or equivalent with a grade of Credit or "C" or higher.
 Corequisite: None.
 Recommendation: None.
 This course covers the analysis of AC circuits using both resistive and reactive components. The concept of resonance and filter circuits is introduced and network theorems are studied.
Transfer Credit: CSU

EL 120L
AC ELECTRONICS LABORATORY **1 UNIT**

Class hours: 3 lab
 Prerequisites: EL 110L or equivalent with a grade of Credit or "C" or higher or concurrent enrollment.
 Corequisite: Concurrent enrollment or completion of EL 120 with a grade of Credit or "C" or higher.
 Recommendation: EL 50, EL 60, TM 50.
 Experiments performed in this course are planned to accompany the lectures in EL 120 (Principles of AC Electronics). The student learns to use electronic laboratory instruments in the measurement and analysis of AC circuits.
Transfer Credit: CSU

EL 124
ADVANCED
DIGITAL ELECTRONICS **3 UNITS**

Class hours: 3 lecture
 Prerequisite: EL 114 or equivalent with a grade of Credit or "C" or higher.
 Corequisite: None.
 Recommendation: None.
 This course is a continuation of the principles learned in EL 114. The material includes flip-flops, multivibrator circuits, sequential logic

circuits, memory systems interfacing, and an introduction to microprocessors.
Transfer Credit: CSU

EL 124L
ADVANCED DIGITAL
ELECTRONICS LABORATORY **1 UNIT**

Class hours: 3 lab
 Prerequisite: EL 114L or equivalent with a grade of Credit or "C" or higher.
 Corequisite: EL 124 or equivalent.
 Recommendation: None.
 This is a laboratory course designed to support the concepts learned in EL 124. Experiments are used to verify the applications of flip-flops, multivibrator circuits, sequential logic circuits, memory systems, interfacing, and microprocessors. Design projects are assigned to be constructed using integrated circuits and computer simulations.
Transfer Credit: CSU

EL 134
DIGITAL CIRCUITS
AND COMPUTER LOGIC **3 UNITS**

Class hours: 3 lecture
 Prerequisite: EL 100 or equivalent with a grade of Credit or "C" or higher.
 Corequisite: EL 134L
 Recommendation: TM 54
 This course introduces the student to the fundamentals of digital electronics. The content includes number systems, Boolean algebra, combinational and sequential logic circuits, memory systems, and programmable logic devices that include GALs, PALs, FPGA, VHDL, CPLD, and interfacing techniques. TTL integrated circuits are used in the laboratory to implement student-designed projects.
Transfer Credit: CSU

EL 134L
DIGITAL CIRCUITS
AND COMPUTER
LOGIC LABORATORY **1 UNIT**

Class hours: 3 lab
 Prerequisite: EL 134 or equivalent with a grade of Credit or "C" or higher or concurrent enrollment.
 Corequisite: None.
 Recommendation: TM 50, EL 60 and EL 100.
 This is a laboratory course designed to support the concepts learned in EL 134, Digital Circuits and Computer Logic. Experiments are used to apply the use of number systems, Boolean algebra, and logic symbols to the design and construction of combinational and sequential digital electronic circuits. Basic multivibrator, memory, microprocessor, and programmable logic devices including GALs, PALs, FPGAs, and CPLD and interfacing techniques will also be covered. Students will use hardware

description languages such as CUPL and VHDL. Design projects will be constructed using integrated circuits and computer simulations.
Transfer Credit: CSU

EL 200
SEMICONDUCTOR
ELECTRONICS **3 UNITS**

Class hours: 3 lecture
 Prerequisites: EL 120 or equivalent with a grade of Credit or "C" or higher or concurrent enrollment.
 Corequisite: None.
 Recommendation: EL 100 or equivalent with a grade of Credit or "C" or higher.
 This course covers the theory of operation of semiconductor devices and development and analysis of the basic circuits employed in analog electronic systems.
Transfer Credit: CSU

EL 200L
SEMICONDUCTOR
ELECTRONICS LABORATORY **1 UNIT**

Class hours: 3 lab
 Prerequisite: EL 120L or equivalent with a grade of Credit or "C" or higher or concurrent enrollment.
 Corequisite: Concurrent enrollment or completion of EL 200 or equivalent with a grade of Credit or "C" or higher.
 Recommendation: EL 50, EL 60
 Experiments planned to accompany the lectures in EL 200 covering semiconductor diodes, transistors and transistor amplifiers are included in this course.
Transfer Credit: CSU

EL 202
RADIO AND TV
THEORY AND SERVICING **3 UNITS**

Class hours: 2 lecture/4 lab
 Prerequisite: EL 200 or equivalent with a grade of Credit or "C" or higher or concurrent enrollment, or appropriate work experience.
 Theory of superheterodyne receivers and practice in servicing of electronic circuits with special emphasis on commercial radio and television receivers will be explored.
Transfer Credit: CSU

EL 205
BIO-MEDICAL
ELECTRONICS **4 UNITS**

Class hours: 3 lecture/3 lab
 Prerequisite: EL 200 or equivalent with a grade of Credit or "C" or higher or concurrent enrollment, or appropriate work experience.
 Corequisite: None.
 Recommendation: None.

Announcement of Courses

The source and nature of electrophysical phenomenon, as it relates to instrumentation, will be explored. The principles of laboratory and therapeutic equipment will be discussed. This will be followed by a study of the practical application of technology to the maintenance, repair and calibration of analysis and patient monitoring equipment. Hospital safety and the problems peculiar to the Intensive Care Unit will also be covered.

Transfer Credit: CSU

EL 210 ELECTRONIC SYSTEMS ANALYSIS 3 UNITS

Class hours: 3 lecture

Prerequisite: EL 200 or equivalent with a grade of Credit or "C" or higher, or concurrent enrollment.

Corequisite: None.

Recommendation: EL 210L or equivalent with a grade of Credit or "C" or higher or concurrent enrollment.

This is an advanced course which covers the theory of operation of various electronic systems; the analysis of switching and logic circuits; the theory of regulation and control systems, power supplies, and phase locked loops.

Transfer Credit: CSU

EL 210L SYSTEMS ANALYSIS LABORATORY 1 UNIT

Class hours: 3 lab

Prerequisite: EL 200L or equivalent with a grade of Credit or "C" or higher or concurrent enrollment.

Corequisite: Concurrent enrollment or completion of EL 210 with a grade of Credit or "C" or higher.

Recommendation: None.

Experiments planned to accompany the lectures in EL 210 covering power supplies, oscillators, switching and logic circuits, and phase locked loops are included in this course.

Transfer Credit: CSU

EL 212 ELECTRONIC COMMUNICATIONS 3 UNITS

Class hours: 3 lecture

Prerequisite: EL 200 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Corequisite: None.

Recommendation: None.

This course covers the principles of electronic communications with particular emphasis on transmitters, receivers, antennas, and transmission lines. Applications in commercial,

military and amateur equipment are discussed. FCC rules and regulations are included.

Transfer Credit: CSU

EL 212L ELECTRONIC COMMUNICATIONS LAB 1 UNIT

Class hours: 3 lab

Prerequisite: EL 200 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Corequisite: EL 212.

Recommendation: None.

This course is designed to provide laboratory experiences in communications circuits and devices. The experiments correlate with the lecture material in EL 212 - Electronic Communications.

Transfer Credit: CSU

EL 215 BIO-MEDICAL INSTRUMENTS 4 UNITS

Class hours: 3 lecture/3 lab

Prerequisite: EL 200 or equivalent with a grade of Credit or "C" or higher, or concurrent enrollment.

This course is a study of the theory, application, operation, calibration and troubleshooting of Bio-Medical Electronics Instrumentation. It will also include practice in servicing of electronic circuits with special emphasis on Commercial Medical Electronics.

Transfer Credit: CSU

EL 220 LINEAR INTEGRATED CIRCUITS 3 UNITS

Class hours: 3 lecture

Prerequisite: EL 200 or equivalent with a grade of Credit or "C" or higher or concurrent enrollment.

Corequisite: None.

Recommendation: EL 220L or equivalent with a grade of Credit or "C" or higher or concurrent enrollment.

This course is an introduction to the basics of linear circuits in integrated form. Emphasis is on the operational amplifier, how it functions in theory and practice, its wide range of applications, and its limitations.

Transfer Credit: CSU

EL 220L LINEAR INTEGRATED CIRCUITS LABORATORY 1 UNIT

Class hours: 3 lab

Prerequisite: EL 210 or equivalent with a grade of Credit or "C" or higher or concurrent enrollment.

Corequisite: None.

This is a laboratory course. Experiments performed in this course are planned to

accompany the lectures in EL 220 (Linear Integrated Circuits). In this course the student will construct, test and make measurements verifying common characteristics of various linear integrated circuits.

Transfer Credit: CSU

EL 222 ADVANCED RADIO AND TV SERVICING 3 UNITS

Class hours: 2 lecture, 4 lab

Prerequisite: EL 202 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Corequisite: None.

Recommendation: None.

This course is a study of the special types of circuitry employed in radio and television receivers, including deflection oscillators and amplifiers, high voltage circuits, pulse amplification, high frequency tuners, color circuitry, and multiplex circuits.

Transfer Credit: CSU

EL 244 INTRODUCTION TO MICROCOMPUTERS 4 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: EL 134 or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This course is an introduction to the fundamental operations of a general purpose microcomputer. The course will include a study of the memory system, the microprocessor, and input/output circuits. The basic instruction/execute cycle will be discussed and microprocessor machine level programming will be introduced.

Transfer Credit: CSU

ENERGY

(Science/Engineering/Math Division)

ENGY 110 ENERGY AND THE WAY WE LIVE 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: Satisfactory completion of the English Placement Process or ENGL 52 or equivalent with a grade of Credit or "C" or higher and satisfactory completion of the Math Placement Process or MATH 40 or equivalent with a grade of Credit or "C" or higher.

This introductory course describes the importance of energy in natural systems, energy resources, and utilization of energy by Man in

modern economies. The potential for conservation and use of alternatives to the fossil fuels is studied.

Transfer Credit: CSU; UC

ENGINEERING

(Science/Engineering/Math Division)

ENGR 112 ENGINEERING GRAPHICS 3 UNITS

Class hours: 6 lecture/lab

Prerequisite: None.

Recommendation: MATH 140 or equivalent with a grade of Credit or "C" or higher.

The principles of the graphic language of the engineer expressed through sketching and instrument drawings covering orthographic projection, primary and secondary auxiliary views, dimensioning, and the working drawing. The descriptive geometry methods applied to points, lines, planes, intersections, warped surfaces, developments, and graphical mathematics. Required of all engineering students.

Transfer Credit: CSU; UC

ENGR 123 DESCRIPTIVE GEOMETRY 3 UNITS

Class hours: 6 lecture/lab

Prerequisite: MATH 140 or TM 50 and ENGT 153 or equivalent with grades of Credit or "C" or higher.

This course covers the fundamental principles of descriptive geometry. The course emphasizes applications of these principles to solutions of three dimensional engineering and design technology problems.

Transfer Credit: CSU; UC

ENGR 215 (CAN ENGR 12) ENGINEERING ELECTRIC CIRCUITS 3 UNITS

Class hours: 3 lecture

Prerequisite: PHYS 202 or equivalent with a grade of Credit or "C" or higher.

This course includes the study of the fundamental principles essential to understanding electric circuits. These include Kirchhoff's Laws, Ohm's Law, network theorems, Mesh and Nodal analysis, Thevenin and Norton equivalent, inductors and capacitors, resistor capacitor and resistor coil circuits, and sinusoidal steady-state analysis and calculations.

Transfer Credit: CSU; UC

ENGR 235 (CAN ENGR 8) STATICS 3 UNITS

Class hours: 3 lecture

Prerequisite: MATH 170 and PHYS 101 or PHYS 201 or equivalent with grades of Credit

or "C" or higher.

This course covers the part of the science of mechanics that deals with external force systems and equilibrium conditions on bodies.

Transfer Credit: CSU; UC

ENGINEERING DESIGN TECHNOLOGY

(Technology Division)

ENGT 16 BLUEPRINT READING FOR MACHINE TRADES 2 UNITS

Class hours: 1.5 lecture, 1.5 lab

Prerequisite: None.

This course is a study of working drawings and blueprints used in manufacturing. Emphasis is placed on the ability to visualize and interpret typical drawings. Research is required into standards, specifications, procedures, bulletins, and techniques, which are a parallel part of the shop drawing system. It is intended to prepare the student for accurate interpretation of drawings in order to carry out the applications required or use them as appropriate reference.

ENGT 117 GEOMETRICAL DIMENSIONING AND TOLERANCING 2 UNITS

Class hours: 2 lecture

Prerequisite: ENGT 131 or equivalent with a grade of Credit or "C" or higher.

This is a basic course in datums, modifiers, form tolerancing, positional tolerance, and coordinate tolerance conversion. It will introduce students to the state of the art in dimensioning and tolerancing used in industry.

Transfer Credit: CSU

ENGT 131 FUNDAMENTALS OF DESIGN INCLUDING AUTOCAD 3 UNITS

Class hours: 2 lecture/4 lab

Prerequisite: None.

This course, for students who have had no high school mechanical drafting, stresses proper use of manual drafting instruments and computer aided design (CAD) using AutoCAD software for lettering text, geometric construction, isometric drawing, orthographic projection, dimensions, single auxiliary views, sectioning and conventional practices.

Transfer Credit: CSU

ENGT 133 SHEET METAL LAYOUT AND APPLICATIONS WITH INVENTOR 2 UNITS

Class hours: 1 lecture, 3 lab

Prerequisite: ENGT 138 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

This course will familiarize students with sheet metal layout involving triangulation, bend allowances for pattern development, and manufacturing processes for sheet metal. It will also include practical modern day applications in architecture, automotive, advertising displays and other areas affected by this technology.

Transfer Credit: CSU

ENGT 138 FUNDAMENTALS OF COMPUTER AIDED DESIGN WITH AUTOCAD 4 UNITS

Class hours: 3 lecture/3 lab

Prerequisite: ENGT 131 or ARCH 111 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

This is an introduction to computer aided design using AutoCAD software. It will prepare students to operate the systems and understand the applications of computer graphics utilizing industry standards. Students will learn to use an interactive computer graphics system to prepare drawings on personal computers. Drawings will be stored and retrieved from regular or hard disks, enabling students to produce commercial quality copies using computer driven-plotter and printer.

Transfer Credit: CSU; UC

ENGT 151 ADVANCED APPLICATIONS OF COMPUTER AIDED DESIGN W/AUTOCAD 4 UNITS

Class hours: 3 lecture/3 lab

Prerequisite: ENGT 138 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

This course will assist students in the advanced applications of Computer Aided Design. They will utilize the AutoCAD system for customization, symbol libraries, menu development, and general applications in their particular fields.

Transfer Credit: CSU

ENGT 153 MACHINE DESIGN WITH AUTOCAD 3 UNITS

Class hours: 2 lecture/4 lab

Prerequisite: ENGT 138 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Announcement of Courses

Corequisite: None.

Recommendation: TM 50 or one year of mechanical drawing or verifiable work experience and or satisfactory score on Math Placement Test or equivalent.

This course covers auxiliary projections, sections, dimensions, threads and fasteners, working drawings of machine parts including details and assemblies, basic gear and cam layout, and simple mechanisms.

Transfer Credit: CSU

ENGT 160 AUTODESK MAP 4 UNITS

Class hours: 3 lecture/3 lab

Prerequisite: ENGT 138 or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This course introduces students to AutoCAD Map software which delivers all of the power, fluency, and connectivity of AutoCAD software. Content will include analysis and productivity tools to create, maintain, and produce maps in a precise graphical environment. Students will use AutoCAD Map software features to enhance productivity of comprehensive automated mapping tools built in it for engineers, planners, utility managers, and anyone who creates and maintains maps.

Transfer Credit: CSU

ENGT 237 GRAPHICAL STATICS AND STRENGTH OF MATERIALS 3 UNITS

Class hours: 2 lecture, 4 lab

Prerequisite: TM 50 and ENGT 138 or equivalent with grades of Credit or "C" or higher, or appropriate work experience.

Corequisite: None.

Recommendation: None.

This is a course in the fundamental principles of graphical statics and strength of materials and their applications to the solutions of typical force systems and equilibrium problems. Applications are made in the fields of drafting, tool engineering, and similar areas using elementary algebra and right angle trigonometry in problem solving.

Transfer Credit: CSU

ENGT 255 AUTODESK VIZ RENDERING AND SOLID MODELING APPLICATIONS 4 UNITS

Class hours: 3 lecture/3 lab

Prerequisite: ENGT 138 and ENGT 153 or equivalent with grades of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This course will assist students in creating

advanced applications of solid modeling and applying shading and rendering techniques utilizing AutoDesk VIZ. They will use the AutoDesk VIZ system for basic theory as well as applications to their particular fields.

Transfer Credit: CSU

ENGT 256 INTRODUCTION TO AUTOCAD MECHANICAL DESKTOP 4 UNITS

Class hours: 3 lecture/3 lab

Prerequisite: ENGT 138 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Corequisite: None.

Recommendation: MTT 100 and MFGT 100 or equivalent with grades of Credit or "C" or higher.

This course assists students in creating three-dimensional parametric part modeling, assembly modeling and surface modeling designs. Students receive instruction utilizing the most recent release of AutoCAD interfacing with Mechanical Desktop.

Transfer Credit: CSU

ENGT 257 AUTODESK INVENTOR 4 UNITS

Class hours: 3 lecture/3 lab

Prerequisite: ENGT 256 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Corequisite: None.

Recommendation: None.

This course assists students in advanced applications of three-dimensional parametric part modeling, assembly modeling, surface modeling, and bills of materials. Students receive instruction utilizing the most recent release of Autodesk Inventor.

Transfer Credit: CSU

ENGT 258 DESIGN AND PRODUCTION TECHNOLOGY WITH AUTOCAD 4 UNITS

Class hours: 3 lecture/3 lab +2 hrs. arr.

Prerequisite: ENGT 153 or equivalent with grade of Credit or "C" or higher, or appropriate work experience.

This course is a study of modern techniques of design using AutoCAD software. Instruction includes the production, operation and process materials selection for AutoCAD plan. Planning, scheduling and cost performance are used to implement design solutions.

Transfer Credit: CSU

ENGLISH

(Liberal Arts Division)

ENGL 15 (Not degree applicable) BEGINNING WRITING 3 UNITS

Class hours: 3 lecture

Prerequisite: Satisfactory completion of the English Placement Process.

Corequisite: None.

Recommendation: None.

This course is designed to reduce beginning writing students' fear and anxiety about writing. It develops writing fluency through written activities and assignments designed to teach and reinforce conventions of standard English. This course focuses on sentence structure and development and sentence combining. Students will work toward developing short paragraphs.

ENGL 20 (Not degree applicable) BASIC WRITING 3 UNITS

Class hours: 3 lecture/1 lab

Prerequisite: Satisfactory completion of the English Placement Process or ESL 200 or equivalent with a grade of Credit or "C" or higher.

This course introduces students to the writing process as a means of developing ideas into clear, correct, and effective writing. The course concentrates on short essay writing in accord with the conventions of standard English.

ENGL 22 (Not degree applicable) SPELLING BASICS 1 UNIT

Class hours: 1 lecture

HIST 265 SELECTED PROBLEMS IN CONTEMPORARY ASIAN HISTORY 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

Recommendation: Satisfactory completion of the English Placement Process or ENGL 20 or equivalent with a grade of Credit or "C" or higher and satisfactory completion of the Reading Placement Process or READ 43 with a grade of Credit or "C" or higher.

This course consists of a study of topical issues and problems concerning 20th century Asian history. Emphasis will be placed upon political, economic, social and cultural institutions, western imperialism, Asian nationalism, the emergence of modern Asian states, international relations, and contemporary Asian societies.

Transfer Credit: CSU; UC

HIST 270 SPECIAL TOPICS IN HISTORY 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course will expand on subjects and themes introduced in the core history curriculum offerings. Each topic will focus on themes, perspectives and issues of special interest to students. The specific focus of a particular offering will be decided by the course instructor and announced in the Schedule of Classes. This course may be taken a maximum of 2 times.

HUMANITIES

(Fine Arts/Communications Division)

HUM 100

THE ART OF BEING HUMAN 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

This is an introductory humanities course which considers the great works of humanity through the ages in painting, music, architecture, sculpture, dance, literature and philosophy as they relate to the universal problems of humankind and today's students. Everyone will be encouraged to develop his/her own doctrine of humanity.

HUM 108

BLACK IMAGES IN POPULAR CULTURE 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: ENGL 52 and READ 54 or equivalent with grades of Credit or "C" or higher, is strongly recommended.

This course surveys the depiction and development of images of Blacks and the stereotypes created in Western culture. The various means artists have used to counter those stereotypes by using techniques of resistance and counter narratives will be examined. Students will study fine art, comic books, comic strips, cartoons, advertising, literature, music, dance, theatre, cinema, broadcasting and television. This course is not open to students who are enrolled in or who have received credit in ART 108.

HUM 109

GENDER AND SEXUALITY IN ART 3 UNITS

Class hours: 3 lecture

Prerequisite: Student must be at least 18 years of age or have parental consent in order to take this course.

Corequisite: None.

Recommendation: ENGL 52 and READ 54 or equivalent with grades of Credit or "C" or higher, is strongly recommended.

This class will investigate the relationship between gender and sexuality through an examination of visual art, cinema, television, video, and advertising. Close attention will be given to how popular and artistic cultures shape identity and representation. This course is not open to students who are enrolled in or who have received credit in ART 109.

INST 100

PRINCIPLES AND STRATEGIES FOR PROBLEM SOLVING 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: Satisfactory completion of the English Placement Process or ENGL 52 or equivalent with a grade of Credit or "C" or higher.

Students will study problem-solving concepts and strategies from an interdisciplinary perspective needed to succeed as a life-long learner. Various theories and models for learning and intellectual development of adults and college students will be addressed. Emphasis is placed on the application of metacognitive strategies and problem-solving concepts to issues and problems associated with mastering the college experience.

JAPANESE

(Liberal Arts Division)

JAPN 101

ELEMENTARY JAPANESE 5 UNITS

Class hours: 5 lecture + 1 hr. lab. arr.

Prerequisite: None.

This beginning Japanese course emphasizes listening, reading, writing, and speaking and helps to develop the appreciation of cultural diversity through the study of differences and similarities between cultures.

Transfer Credit: CSU; UC

JAPN 102

ELEMENTARY JAPANESE 5 UNITS

Class hours: 5 lecture + 1 hr. lab. arr.

Prerequisite: JAPN 101 or equivalent with a grade of Credit or "C" or higher.

This beginning course continues to emphasize listening, reading, and writing, and speaking and helps to continue to develop the cultural diversity through the study of differences and similarities between cultures.

Transfer Credit: CSU; UC

JAPN 201 (CAN JAPN 8)

INTERMEDIATE JAPANESE 5 UNITS

Class hours: 5 lecture, 1 lab

Prerequisite: JAPN 102 or equivalent with a grade of Credit or "C" or higher.

This course provides a review and in-depth study of Japanese grammatical concepts.

Reading and interpretation of literary works by Japanese writers and guided and original compositions are included. This course will further develop the appreciation of cultural diversity. This class is primarily conducted in Japanese.

Transfer Credit: CSU; UC

JAPN 202

INTERMEDIATE JAPANESE 4 UNITS

Class hours: 4 lecture

Prerequisite: JAPN 201 or equivalent with a grade of Credit or "C" or higher.

This is a course with emphasis on reading modern Japanese. It continues the review of grammatical concepts, and requires written composition and oral discussion. This course, conducted primarily in Japanese, completes the study of all aspects of the Japanese language at the intermediate level.

Transfer Credit: CSU; UC

JAPN 281

BEGINNING CONVERSATIONAL JAPANESE 3 UNITS

Class hours: 3 lecture

Prerequisite: JAPN 102 or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This course gives the student practice in speaking and understanding Japanese as used in travel, in the home, in school, and in everyday life. Emphasis is placed on vocabulary, idioms and language patterns fundamental to an active and practical use of Japanese. This course develops the appreciation of the Japanese culture. It is recommended for all Japanese majors.

JAPN 282

INTERMEDIATE CONVERSATIONAL JAPANESE 3 UNITS

Class hours: 3 lecture

Prerequisite: JAPN 281 or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This course provides intensive oral practice in the discussion of current topics, including multiculturalism in Japanese-speaking countries. Emphasis is on the acquisition of special idioms and vocabulary suitable for conversation about the family, the world of work, business, sports, public transportation and ecology. This course, conducted primarily in Japanese, is recommended for all Japanese majors.

JOURNALISM

(Fine Arts/Communications Division)

JOUR 50L
EDITORIAL BOARD 1 UNIT

Class hours: 3 lab
 Prerequisite: None.
 Corequisite: JOUR 103 or JOUR 105 or JOUR 160L.
 Limitation of enrollment: editors of campus media.
 Recommendation: None.
 This course focuses on leadership aspects using the school newspaper, Talon Marks; the online newspaper, talonmarks.com; and the school magazine, Wings, as practical laboratories. Enrollments are limited to those named to editor positions of these campus media. This course may be taken a maximum of 4 times.

JOUR 100 (CAN JOUR 4)
MASS COMMUNICATIONS
AND SOCIETY 3 UNITS

Class hours: 3 lecture
 Prerequisite: None.
 Corequisite: None.
 The course examines the impact of mass media in national and international political, economic, cultural and behavioral contexts. It assesses contemporary trends in media-society relations; historical facts that have shaped the structures, practices and products of the mass media industries and trends in media-society relations.

JOUR 101
BEGINNING NEWSWRITING
AND REPORTING 3 UNITS

Class hours: 3 lecture
 Prerequisite: Satisfactory completion of the English Placement Process or ENGL 52 or

equivalent with a grade of Credit or "C" or higher and typing ability.
 Corequisite: None.

This course focuses on the principles of news-gathering and newswriting, with emphasis on journalistic writing. Basic news story structure and development, news evaluation, newsgathering methods, interviewing, craftsmanship, and reporting techniques in general are explored. Newspaper and other news and information media are analyzed. The course is particularly recommended for English and communications majors and those planning careers in news media, public relations, communications, corporate communications and news and informational media.

*Transfer Credit: CSU; UC**

**UC credit limits may apply. JOUR 101 and JOUR 201 combined: maximum credit, one course.*

JOUR 103
NEWSPAPER ARTICLE WRITING 2 UNITS

Class hours: 1 lecture/3 lab
 Prerequisite: None.
 Corequisite: None.
 Recommendation: JOUR 101 or equivalent with a grade of Credit or "C" or higher or concurrent enrollment, and satisfactory completion of the English Placement Process or ENGL 52 or equivalent with a grade of Credit or "C" or higher.
 This course focuses on media article writing using the school newspaper, Talon Marks, as a practical laboratory. Student research, write, and edit articles for the school paper as they practice the skills of gathering information from a variety of sources, synthesizing a story and preparing it for dissemination to others. Ethics and legal aspects of communication are also covered. This course may be taken a maximum of 4 times. Credit/No Credit option available for non-journalism majors.
Transfer Credit: CSU

JOUR 105
NEWSPAPER PRODUCTION 2 UNITS

Class hours: 1 lecture/3 lab
 Prerequisite: None.
 Corequisite: None.
 Recommendation: ART 188 or CIS 205 or JOUR 120 or equivalent with a grade of Credit or "C" or higher.
 This course uses desktop publishing. World Wide Web publishing and photojournalistic techniques for publishing of information. The school newspaper, Talon Marks, is used as a practical laboratory. Presentation of information in a visual form is emphasized. This course is for page designers, graphic artists, cartoonists and photographers. This course may be taken a maximum of 4 times. Credit/No Credit option available for non-journalism majors.

JOUR 106
TALONMARKS.COM 1 UNIT

Class hours: 0.5 lecture/2 lab
 Prerequisite: None
 Corequisite: None
 Recommendation: JOUR 101 and ENGL 52 or equivalent with grades of Credit or "C" or higher, or concurrent enrollment. JOUR 103 or equivalent with grades of Credit or "C" or higher, or concurrent enrollment.
 This course focuses on media article writing and digital story telling using the online school newspaper, talonmarks.com as a practical laboratory. Students research, write, and edit articles for the online school paper as they practice the skills of gathering information from a variety of sources. Students synthesize and edit the stories and prepare them for dissemination. Ethical and legal aspects of communication are also covered. This course may be taken a maximum of 4 times.

JOUR 110
PRINCIPLES OF
PUBLIC RELATIONS 3 UNITS

Class hours: 3 lecture
 Prerequisite: None.
 This class explores the basic theories and principles of communicating information and concepts. Emphasis is on techniques and methods, with attention given to identifying audiences, using public relations tools, planning public relations programs and campaigns, promoting favorable relations with various segments of the public, and dealing with problem solving. The effective use of public information, publicity, and advertising is covered.

JOUR 111
INTRODUCTION
TO NEWSLETTERS 1 UNIT

Class hours: 1 lecture
 Prerequisite: None.
 Corequisite: None.
 Recommendation: ENGL 52 or JOUR 101 or equivalent with a grade of Credit or "C" or higher.
 This course focuses on the preparation of content for newsletters of all professions and special interests. Students will discuss news values in selecting and writing content, writing and editing techniques, and careers in newsletter journalism. Students will gain hands-on experience in choosing, writing and editing content for publication in preparation for the newsletter design.
Transfer Credit: CSU

JOUR 112 **COPY EDITING SKILLS** **1 UNITS**

Class hours: 1 lecture/0.5 lab

Prerequisite: None

Corequisite: None

Recommendation: Concurrent enrollment or completion of JOUR 101 with a grade of "C" or higher.

This course focuses on copy editing and word skills for journalists. Students will practice applying Associated Press style rules to stories and improving sentences structure, spelling, and general grammar skills commonly found in news stories. This course is recommended for journalism students who wish to improve copy editing skills. Skills acquired will be useable in various job markets, including newsletter, newspaper, magazine, book, and online publishing.

JOUR 120 **INTERNET FOR JOURNALISTS** **2 UNITS**

Class hours: 2 lecture

Prerequisite: None

Corequisite: None.

Recommendation: CIS 121 or equivalent with a grade of Credit or "C" or higher.

This course will provide a basic introduction to resources found on the Internet and the World Wide Web. Students will access the Internet to research trends in media use of the World Wide Web and learn to create on-line news and journalistic web pages. This course may be taken a maximum of 4 times.

Transfer Credit: CSU

JOUR 130 **PHOTO JOURNALISM** **3 UNITS**

Class hours: 3 lecture

Prerequisite: PHOT 100 or equivalent with a grade of Credit or "C" or higher.

This course deals with the photographer as a journalist, focusing on theory and practice in press and publications photography, with an emphasis on using the camera as a reporting and communications tool. Topics include news and feature photography and photographic essays, including composition, impact, and creativity, for newspapers, magazines, Internet and other mass communications media. Students must have access to a 35 mm camera. This course is not open to students who are enrolled in or who have received credit in PHOT 130.

Transfer Credit: CSU

JOUR 160L **COLLEGE MAGAZINE** **PRODUCTION** **1 UNIT**

Class hours: 3 lab

Prerequisite: None

Corequisite: JOUR 103 or JOUR 105 or PHOT 102 or PHOT 112 or ENGL 240 or ART 188.

This course offers study and practical experience in planning content and layout and in editing the college magazine. It provides a format for the application of photojournalism, feature article and page design skills, and writing skills. This course may be taken a maximum of 4 times.

Transfer Credit: CSU

JOUR 170 **BROADCAST NEWS** **1 UNIT**

Class hours: 1 lecture/3 lab

Prerequisite: Concurrent enrollment or completion of JOUR 101 with a grade of Credit or "C" or higher.

Recommendation: Concurrent enrollment or completion of JOUR 103 and/or concurrent enrollment or completion of TH 152.

This nine-week course focuses on broadcast newswriting and production techniques using the college radio station, WPMD, as a practical laboratory. Students will develop and research story ideas for regular news broadcasts on WPMD. Newsgathering and reporting for broadcast will be emphasized, along with ethics and legal aspects of communication. This course may be taken a maximum of 4 times.

Transfer Credit: CSU

JOUR 171 **OCCUPATIONAL WORK** **EXPERIENCE IN JOURNALISM** **1 UNIT**

Class hours: 1 lecture

Prerequisite: JOUR 101 or equivalent with a grade of Credit or "C" or higher.

Corequisite: Enrollment in 7 or more units, including Occupational Work Experience in Journalism, in a declared Journalism major. One unit of Occupational Work Experience in Journalism requires 60 non-paid hours or 75 paid hours of work per semester.

Recommendation: None.

Work Experience/Career Internship provides the opportunity for students to apply skills and knowledge learned in the classroom to related experiences on the job/training site. The aim of the course is to assist students in expanding specific job skills. This creates greater communication with increased understanding between the students/workers, the college, and the employers/trainers. First semester students meet with their instructors for a minimum of one hour per week. Students also pursue a program of self-evaluation to determine individual job weaknesses and strengths. Semester projects that relate to their major and job skills must be completed on the job/training site. Students will meet weekly with the instructor until their approved projects are completed. This course may be taken a maximum of 4 times.

Transfer Credit: CSU

JOUR 201 **ADVANCED** **REPORTING AND EDITING** **3 UNITS**

Class hours: 3 lecture

Prerequisite: JOUR 101 or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

This course covers advanced theory and practice in news writing and reporting with emphasis on handling of news, editing complex stories, copy reading, headline writing, opinion writing, news release writing, sports feature writing, news release writing, and writing news for World Wide Web presentation.

*Transfer Credit: CSU; UC**

**UC credit limits may apply. JOUR 101 and JOUR 201 combined: maximum credit, one course.*

JOUR 220 **FEATURE ARTICLE WRITING** **3 UNITS**

Class hours: 3 lecture

Prerequisite: Satisfactory completion of the English Placement Process or ENGL 52 or equivalent with a grade of Credit or "C" or higher, and typing ability.

This course covers non-fiction writing for newspapers and magazines, including a study of story types, sources, methods, and markets. Individualized styles and approaches will be studied.

MACHINE TOOL TECHNOLOGY

(Technology Division)

MTT 1L (Not degree applicable)

NUMERICAL CONTROL SPECIALTY 1 UNIT

Class hours: 3 lab

Prerequisite: MTT 51 or MTT 76 and MTT 52 or equivalent with grades of Credit or "C" or higher.

This course is an independent study on an experimental and research basis, using CAM software or CNC programming skill and knowledge in specialized areas of the student's choice with the approval and guidance of the department chairperson. The course may be taken a maximum of 4 times.

MTT 2L

MASTERCAM LABORATORY 1 UNIT

Class hours: 3 lab

Prerequisite: MTT 51 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Corequisite: None

Recommendation: None

This lab course is intended to complement MasterCam classes. It is designed to give practical experience in working with the current release of the software program. The course will increase the skill and output of the student in areas of his/her choice. This course may be taken a maximum of 4 times.

MTT 3L

VIRTUAL GIBBS LABORATORY 1 UNIT

Class hours: 3 lab

Prerequisite: MTT 76 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Corequisite: None

Recommendation: None

This lab course is intended to complement Virtual Gibbs classes. It is designed to give practical experience in working with the current release of the software program. The course will increase the skill and output of the student in areas of his/her choice. This course may be taken a maximum of 4 times.

MTT 50

CNC SHOP MATH 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course is designed to teach the student how to solve typical and practical mathematical shop problems using a calculator and The Machinery's Handbook. Particular emphasis will be placed on solving problems of ratio and

proportion, measurement system conversion, plane geometry, and right triangles as applied to machine fabricated parts.

MTT 51

MASTERCAM INTRODUCTION 3.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: None

This course will prepare students to operate the MasterCAM Programming Systems in conjunction with various multi axis computer numerical control simulators. Students will learn to create and import CAD geometry, create proper job plans, and input the resultant data into virtual CNC machinery.

MTT 52

SETUP AND OPERATION OF CNC MILLING MACHINES 3 UNITS

Class hours: 2 lecture/3 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course instructs students in the safe and accurate setup and production operation of CNC milling machines of up to 4 axes. Students will learn how to load programs, align fixtures, select offsets, select cutter radius compensation, and run first article parts.

MTT 53L

MACHINIST LABORATORY 0.5 UNIT

Class hours: 2 lab

Prerequisite: MTT 100, MTT 60, or MTT 62 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience

Corequisite: None.

Recommendation: None.

This course is designed to apply acquired skills and knowledge in machining with the lathe, mill, drill press, grinder and inspection devices and other machines and devices associated with the machine shop environment.

MTT 54

CNC BLUEPRINT READING 2.5 UNITS

Class hours: 2 lecture/2 lab

Prerequisite: None

Corequisite: None.

Recommendation: None.

This course is designed to familiarize the student with blueprints and the conversion of blueprint data to workable fabrication data unique to the CNC machine shop. It will cover tool offset conversion, location, and identification of missing and pertinent coordinates, ANSI Y-14.5, visualization, and identification of attributes important to CNC programming.

MTT 55

SUPPLEMENTAL MACHINE SHOP STUDIES 2 UNITS

Class hours: 2 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course is designed to broaden the knowledge of the student machinist with a survey of blueprint reading, metallurgy, metrology, tooling, and use of the Machinery's Handbook.

MTT 56

CNC SHOP INSPECTION 2.5 UNITS

Class hours: 2 lecture/2 lab

Prerequisite:

Corequisite: None.

Recommendation: None.

This course is designed to give students a complete understanding of metrology and to develop skills using shop instruments for validation of part geometry. Students will be generating inspection reports from their findings.

MTT 57

SETUP AND OPERATION OF CNC LATHES 3 UNITS

Class hours: 2 lecture/3 lab

Prerequisite: None

Corequisite: None

Recommendation: None

This course instructs students in the safe and accurate set up and production operation of CNC lathes. Students will learn how to create programs using MasterCam, load programs, select offsets, select cutter radius compensation, and will run first article parts. This course may be taken a maximum of 2 times.

MTT 60

ADVANCED MACHINE TOOL CONCEPTS 2.5 UNITS

Class hours: 2 lecture/2 lab

Prerequisite: None.

Corequisite: None.

Recommendation: MTT 100 or equivalent with grades of Credit or "C" or higher or equivalent. This course is designed to extend the students' skills in modern machine tool operation and set up as well as to augment their knowledge of conventional and automated process techniques. Coursework includes refining complex geometric inspection techniques, developing advanced skills in lathe and mill setup, materials science, and learning Computer Aided Process Planning (CAPP).

Announcement of Courses

MTT 62

FIXTURE TOOLING

2.5 UNITS

Class hours: 2 lecture/2 lab

Prerequisite: MTT 54 and MTT 60 or equivalent with grades of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This course teaches planning, design, and fabrication of fixturing for the CNC shop. It includes decision making, machine planning, cutter selection, tolerancing, rest areas, clamping, blueprint interpretation, and design.

MTT 76

GIBBSCAM INTRODUCTION

2.5 UNITS

Class hours: 2 lecture/2 lab

Prerequisite: None

Corequisite: None.

Recommendation: None.

This course prepares students to operate the Gibbsscam Programming System in conjunction with various multi-axis Computer Numerical Control (CNC) simulators. Students will learn to create and import computer aided drafting (CAD) geometry, create proper job plans, and input the resultant data into virtual CNC machinery.

MTT 80

CAD/CAM MOLD MACHINING

2.5 UNITS

Class hours: 2 lecture/2 lab

Prerequisite: MTT 100 or equivalent with a grade of Credit or "C" or higher or appropriate work experience.

Corequisite: None.

Recommendation: None.

This course is designed to instruct the student in the use of Computer Numerical Control (CNC) and Computer Aided Drafting/Computer Assisted Manufacturing (CAD/CAM) to produce various types of molds for the metal, packaging, sealing, plastic, forging, and diecasting industries. The students will create and verify toolpaths by using computer simulation and will then send the data to a CNC machine tool for first article machining.

MTT 100

MACHINE TOOL INTRODUCTION

2.5 UNITS

Class hours: 2 lecture/2 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course is designed as a survey of machine tool technology and introduction to computerized controls. It will include the computer as a control mechanism in the modern machine shop and also stress traditional machine tool technologies. It includes set-up and operation of basic machine tools, speeds and feeds, measurements, and introduction to the theory

of computer numerical control. This course is required for Computer Numerical Control majors and other designated technology programs.

Transfer Credit: CSU

MTT 154

CNC PROGRAM OPTIMIZATION

2 UNITS

Class hours: 2 lecture

Prerequisite: None

Corequisite: None

Recommendation: MTT 51 or MTT 76 and MTT 170 or appropriate work experience.

This course is designed to provide the student with the skills required to optimize Computer Numerical Control (CNC) programs and operations. The student will learn how to get the most out of CNC machine tools by increasing equipment utilization and decreasing equipment downtime. Course work also includes CNC program verification, optimization, and related service and maintenance issues.

Transfer Credit: CSU

MTT 170

COMPUTER NUMERICAL CONTROL PROGRAMMING

2.5 UNITS

Class hours: 2 lecture/2 lab

Prerequisite: None

This course includes numerical control programming as applied to machine tools including a description of control systems and the capabilities of each. Students will develop CNC machine tool programs used to make manufactured parts. Computers will be used to input, develop and proof CNC programs. This course is for the student who desires to be a machine tool operator, programmer, or who will be employed in related fields.

Transfer Credit: CSU

MTT 177

ADVANCED

GIBBSCAM CAD/CAM

2.5 UNITS

Class hours: 2 lecture/2 lab

Prerequisite: MTT 76 or equivalent with a grade of Credit or "C" or higher or appropriate work experience.

Corequisite: None.

Recommendation: None.

This course prepares students to operate the Gibbsscam Programming System in conjunction with various multi-axis Computer Numerical Control (CNC) machinery. Students learn how to construct and import 3D models and create surface and solid models from engineering geometry. Other topics include tool paths from 3D models, post processing data for specific CNC machinery, and mold cores and cavities.

Transfer Credit: CSU

MTT 278

MASTERCAM ADVANCED

3.5 UNITS

Class hours: 3 lecture/2 lab

Prerequisite: MTT 51 with a grade of Credit or "C" or higher or appropriate work experience.

This course advances the student's skill in the development of 3D surface models, solids and tool paths using MasterCAM. Students learn to create swept, ruled, revolved, Coons, draft, trimmed, and lofted surfaces using parametric and NURBS methodology. Basic and advanced solids modeling is fully incorporated into this class. Modification of geometry/toolpath using parametric hooks will be emphasized.

MANUFACTURING TECHNOLOGY

(Technology Division)

MFGT 50

HAZ-MAT

1.5 UNITS

Class hours: 1.5 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course is a survey of the knowledge and skills that allow a person to work with hazardous materials in compliance with governmental regulations while at the same time to protect human health and the environment. Specific examples will include industry specific compliance, regulations, and controls. This includes an introduction to Material Safety Data Sheets (MSDS) and basic materials handling as is typical in local industries.

MFGT 43/44 (Not degree applicable)

MANUFACTURING TECHNOLOGY OCCUPATIONAL

WORK EXPERIENCE

3-4 UNITS

Class hours: One (1) hour control class each week plus 15 hours of employment per week for Manufacturing Technology work experience 73 or 20 hours of employment per week for Manufacturing Technology work experience 74. The employment must be in a job related to the student's educational goal.

Corequisite: (1) Enrollment in the Manufacturing Technology vocational program with 7 or more units including occupational work experience.

Work experience/career internship provides the opportunity for Manufacturing Technology students to apply skills and knowledge learned in the classroom to related experiences on the job/training site. The aim of the course is to assist students in expanding specific job skills. In the process of doing so, it creates greater communication with increased understanding between the student/workers, the college, and the employer/trainers. Students

also pursue a program of self-evaluation to determine individual job weaknesses and strengths. Semester projects that relate to the major and job skills must be completed on the job/training site. These courses may be taken for a maximum of 4 times.

MFGT 51
INTRODUCTION TO
COMPUTER INTEGRATED
MANUFACTURING (CIM) **3 UNITS**

Class hours: 3 lecture
 Prerequisite: None.

This course examines the relationships between management, design, and manufacturing of a product. Students will be introduced to the multi-faceted operations of the manufacturing industry. Case studies and demonstrations will be used to explore the development and implementation of an automated factory. This course is not open to students who have received credit in BCIS 46.

MFGT 52
INTRODUCTION TO
LASER CUTTING TECHNOLOGY **2 UNITS**

Class hours: 2 lecture
 Prerequisite: None.

This introductory laser cutting technology class will cover a variety of subjects, starting with an explanation of the laser itself and its history. Discussions will be held on the interface of a laser with material movement system, the different types of systems in the field, and the process required to process materials. Demonstrations and visitation(s) to local industry sites are included.

MFGT 53
STATISTICAL PROCESS
CONTROL (SPC) **1.5 UNITS**

Class hours: 1.5 lecture
 Prerequisite: None.
 Corequisite: None.

Recommendation: TM 50 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

This technical course is for quality assurance personnel interested in applying statistical process control concepts. Materials covered include statistical methods for use in quantitative approaches to quality assurance and reliability including basic algebraic notation and formulation, functions, graphical analysis, probability laws, measures of central tendency and dispersion, frequency distributions, sampling plans and risks, control charts, and process capability studies.

MFGT 54
ULTRASONIC LEVEL I TESTING **1.5 UNITS**

Class hours: 1.8 lecture/.5 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course provides students with background knowledge in the operation of basic ultrasonic testing equipment. Skill development required in understanding and operating basic ultrasonic testing equipment for the inspection of composite and metallic components is emphasized.

MFGT 55
QUALITY CONTROL (QC) **1.5 UNITS**

Class hours: 1.5 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course provides basic and comprehensive details of quality control concepts for those new to or already in the manufacturing field. Areas covered include quality costs, product liability, reliability and acceptance sampling. Techniques of using production charts, graphs and tables are covered to emphasize quality improvement with manufacturing sampling. Actual case studies and current manufacturing quality issues and concerns will be studied. Related terms and methods of Quality Assurance (QA), Total Quality Management (TQM), International Standards Organization (ISO) 9000 quality standards, Statistical Process Control (SPC), just in time (JIT) as well as other quality tools will be outlined and identified.

MFGT 56
ISO 9000 QUALITY
STANDARDS **1.5 UNITS**

Class hours: 1.5 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This survey course is a study of ISO 9000, the quality standard established by the International Standard Organization, as it applies to the manufacturing industry. Materials covered will include the ISO 9000 documents and selected references on the topic. Special emphasis will be placed on the advantages of implementing an ISO 9000 Quality System in an industrial manufacturing environment.

MFGT 57
TOTAL QUALITY
MANAGEMENT (TQM) **1.5 UNITS**

Class hours: 1.5 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This survey course examines the nature and application in manufacturing of Total Quality Management (TQM) in today's competitive environment. Students will be introduced to basic concepts of quality and why its philosophy of continuous improvement will provide the framework for production systems. The "team" approach to all facets in quality of production within industry is examined.

MFGT 58
BENCHMARKING **1.5 UNITS**

Class hours: 1.5 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This survey course is for those interested in learning about Benchmarking as a strategic tool in manufacturing environment for continuous quality improvement. Topics will include a definition of Benchmarking, resources available to help in the manufacturing Benchmarking process, case studies and examples of companies that have used Benchmarking methods in production.

MFGT 59
DESIGN OF
EXPERIMENTS (DOE) **1.5 UNITS**

Class hours: 1.5 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This survey course is designed for manufacturing individuals interested or actively involved in designing and conducting experiments. The course will help production and engineering personnel analyze a process and determine process variables that effect product characteristics. The development of efficient and economical test methods will cause reduction in variations of a product or process thus improving the production efficiency. Emphasis will be place on Design of Experiments fundamentals.

MFGT 60
QUALITY
ASSURANCE PRINCIPLES **1.5 UNITS**

Class hours: 1.5 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course is an overview of quality control systems, organizational structure, quality costs, vendor relations, acceptance sampling, and customer relations. Emphasis will be placed on the importance of adequate product requirements.

MATHEMATICS LEARNING STRATEGIES 1 UNIT

Class hours: 1 lecture

Prerequisite: None

Corequisite: Concurrent enrolment in MATH 20, MATH 40, MATH 60, MATH 80, MATH 80A, or MATH 80B.

Recommendation: None

This course is designed to assist the student in developing learning skills and study habits that are important for all college level course work. Emphasis will be placed on those learning skills and study habits that are unique to the study of mathematics. This student will develop quantitative literacy by practicing arithmetic and algebraic structures including but not limited to "mathematical facts," number sense and number theory, proportional reasoning including rational expressions and equations, and the real number system and its properties. Additional topics related to the development of learning skills and study habits may include affective factors influencing learning styles and the study of mathematics, effective management of classroom learning and personal study habits, problem-solving and reasoning skills, test preparation and test-taking strategies, appropriate use of technology, and support services for students of mathematics. This course is offered on a credit/no credit basis only. This course may be taken a maximum of 3 times.

MATH 20 (Not degree applicable)

BASIC MATHEMATICS 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

This course includes a review of the basic mathematics skills and fundamental operations as applied to whole numbers, common fractions, decimal fractions, percentage, and ratios. This course is offered on a Credit/No Credit basis.

This class may be taken in Programmed Learning Sections. See your counselor for details.

MATH 40 (Not degree applicable)

PRE-ALGEBRA 4 UNITS

Class hours: 4 lecture

Prerequisite: MATH 20 or equivalent with a grade of Credit or "C" or higher or satisfactory completion of the Math Placement Process.

This course covers topics in pre algebra, informal geometry, and applied arithmetic including but not limited to percent, rates, scientific notation, tables, graphs, the real number line, an introduction to the Cartesian Coordinate system, problem solving techniques, signed numbers, simplifying and evaluating expressions and formulas, solving simple equations, numerical relationships involving lines, angles and polygons. This course is offered on a Credit/No Credit basis.

MATH 42 (Not degree applicable)

FOUNDATIONS IN APPLIED MATHEMATICS 4 UNITS

Class hours: 4 lecture/1 lab

Prerequisite: MATH 20 or equivalent with a grade of Credit or "C" or higher or satisfactory completion of the Math Placement Process.

Corequisite: None.

Recommendation: None.

This course investigates topics in pre-algebra and informal geometry from an applications perspective. It emphasizes the use of calculators, problem solving techniques, measurement, formulas, graphs, charts and tables, data collection, probability and statistics, ratios and proportions, scale drawing, as they apply to various careers and technical occupations in business and industry. It will include hands-on lab activities. This course will satisfy the prerequisite for entry into MATH 60. (This course is not open to students with credit in MATH 40.)

MATH 60

ELEMENTARY ALGEBRA 4 UNITS

Class hours: 4 lecture

Prerequisite: MATH 40 or MATH 42 or equivalent with a grade of Credit or "C" or higher or satisfactory completion of the Math Placement Process.

This course is designed for students with a deficiency in high school algebra. Topics included are: real numbers, polynomials, rational expressions, first-degree equations and inequalities, graphs of equations, linear systems of equations, exponents and radicals, and quadratic equations.

MATH 70

PLANE GEOMETRY 4 UNITS

Class hours: 4 lecture

Prerequisite: MATH 60 or equivalent with a grade of Credit or "C" or higher or a satisfactory score on Intermediate Algebra Readiness Test. May be taken concurrently with MATH

80, MATH 80A or MATH 80B.

This course includes the study of triangles, quadrilaterals, circles, parallels, and similar figures. Skill development involving equalities, proportions, and areas of the above figures is included. Logical thinking is stressed in problem solutions. This course is designed for students who have not taken high school plane geometry.

MATH 80

INTERMEDIATE ALGEBRA 4 UNITS

Class hours: 4 lecture

Prerequisite: MATH 60 or equivalent with a grade of Credit or "C" or higher, or satisfactory completion of the Math Placement Process.

This course explores the representation of functions and relations as graphs, formulas, and tables. The types of functions studied will include linear, quadratic, polynomial, rational, exponential, and logarithmic. These functions will be used in solving a variety of equations, systems of equations and application problems. Other topics include: the algebra of real and complex numbers, inequalities, and an introduction to conic sections. (This course is not open to students with credit in MATH 80A or MATH 80B)

MATH 80A

INTERMEDIATE ALGEBRA I 3 UNITS

Class hours: 3 lecture

Prerequisite: MATH 60 or equivalent with a grade of Credit or "C" or higher.

Students who have not taken MATH 60 must attain a satisfactory score on the Intermediate Algebra Readiness Test.

This course is the first half of Intermediate Algebra. Topics include: the real number system, linear and quadratic equations, inequalities, exponents and polynomials, rational expressions, rational exponents and radicals, and graphing linear equations.

MATH 80B

INTERMEDIATE ALGEBRA II 3 UNITS

Class hours: 3 lecture

Prerequisite: MATH 80A or equivalent with a grade of Credit or "C" or higher.

This course is the second half of Intermediate Algebra. Topics include: systems of equations, relations and functions, exponential and logarithmic functions, conic sections, and sequences and series.

MATH 90A

TRAINING FOR TUTORS OF MATHEMATICS I 2 UNITS

any mathematics course.

This course is intended to prepare students to be individual and/or group tutors and to be mentor tutors in a program of supervised mathematics tutoring. Course topics include an introduction to learning theory, communication skills useful to mathematics tutors, attitudinal and cognitive roadblocks to student learning, and student success strategies to assist tutees to improve their study habits and time management skills. This course is offered on a credit/no credit basis only. This course may be taken a maximum of 2 times.

MATH 90B TRAINING FOR TUTORS OF MATHEMATICS II 2 UNITS

Class hours 2 lecture

Prerequisite: MATH 90A or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: Concurrent enrollment in any mathematics course.

This course is a continuation of MATH 90A. It prepares students to be individual and/or group tutors in mathematics and to be mentor tutors in a program of supervised mathematics tutoring. Students will focus on the methods of tutoring mathematics students enrolled in lower division mathematics courses. Course topics include tutoring responsibilities and ethics, principles of tutoring, appropriate tutoring techniques, and a discussion of common mathematical structures found in lower division mathematics courses. This course is offered on a credit/no credit basis only. This course may be taken a maximum of 2 times.

MATH 100 (CAN MATH 2) LIBERAL ARTS MATHEMATICS 3 UNITS

Class hours: 3 lecture

Prerequisite: MATH 80 (or MATH 80B) and MATH 70 or equivalent with grades of Credit or "C" or higher.

This is a nontechnical course surveying a variety of concepts in mathematics. Topics will include: elementary logic, algebra of sets, rational and real numbers, informal geometry, elementary combinatorics and probability, and elementary statistics. It is not open to student with credit in any transfer level math course.

Transfer Credit: CSU; UC

MATH 105 ACTIVITY-BASED PROBABILITY AND STATISTICS FOR ELEMENTARY AND MIDDLE SCHOOL TEACHERS 3 UNITS

Class hours: 3 lecture/1 lab

Prerequisite: MATH 70, MATH 80 OR MATH 80B or equivalent with grades of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This course will emphasize activities-based explorations of randomization, data representation, measures of central tendency, and dispersion. Coursework includes combinations, basic probability, and analysis of experiments requiring hypothesizing, experimental design and data gathering. Algebraic thinking will be used throughout the course.

MATH 110A (CAN MATH 4) MATHEMATICS FOR ELEMENTARY TEACHERS 3 UNITS

Class hours: 3 lecture/1 lab

Prerequisite: MATH 80 (or MATH 80B) and MATH 70 or equivalent with grades of Credit or "C" or higher.

This course is an introduction to problem solving processes and strategies. Topics will include the development and analysis of the structure of and operations on the real number system and concept and process development using appropriate models, technology, manipulatives and activities. It meets elementary education credential requirements. It is not open for credit to math majors.

MATH 110B MATHEMATICS FOR ELEMENTARY TEACHERS 3 UNITS

Class hours: 3 lecture/1 lab

Prerequisite: MATH 110A or equivalent with a grade of Credit or "C" or higher.

This course is a continuation of MATH 110A. Emphasis will be problem solving with a focus on making tables and patterning, informal geometry, congruence similarity, constructions, transformations, tessellations, and measurement involving both English and Metric units in 1, 2, and 3 dimensions. Computer explorations will be integrated into the course. The course will also emphasize hands-on modeling of real-world geometric situations. It meets elementary education credential requirements. It is not open for credit to math majors.

*Transfer Credit: CSU, UC**

**UC credit limits may apply. MATH 110A and MATH 110B combined: maximum credit, one course.*

MATH 112 (CAN STAT 2) ELEMENTARY STATISTICS 4 UNITS

Class hours: 4 lecture

Prerequisite: MATH 80 or MATH 80B or equivalent with a grade of Credit of "C" or higher or

satisfactory completion of the Math Placement Process.

This course provides an introduction to descriptive and inferential statistics. Topics included are mean, standard deviation, variance, probability, random variables, binomial probability distribution, normal probability distribution, central limit theorem, testing hypotheses, confidence intervals, t-distribution, chi-square distribution, F-distribution, linear regression, and linear correlation. This course is a beginning statistics course designed for all majors. A graphing calculator is required.

*Transfer Credit: CSU; UC**

**UC credit limits may apply. MATH 112 combined with PSYC 210: maximum credit, one course.*

MATH 114 COLLEGE ALGEBRA 4 UNITS

Class hours: 4 lecture

Prerequisite: MATH 80 or MATH 80B or equivalent with a grade of Credit or "C" or higher.

This course is designed for students majoring in life or social sciences. The main topics to be covered include linear and quadratic equations and inequalities, polynomial, rational, exponential, and logarithmic functions and their graphs, systems of linear equations, matrices, sequences and series, combinatorics, and the Binomial Theorem.

*Transfer Credit: CSU; UC**

**UC credit limits may apply. MATH 150 and MATH 114 combined: maximum credit, one course.*

MATH 115 (CAN MATH 12) FINITE MATHEMATICS 4 UNITS

Class hours: 4 lecture

Prerequisite: MATH 80 or MATH 80B or equivalent with a grade of Credit or "C" or higher. Students who have not taken MATH 80 or MATH 80B must attain a satisfactory score on the Advanced Math Readiness Test.

This course includes sets, matrices, system of equations and inequities, linear programming, permutations and combinations probability and topics from statistics. Applications of various topics from business, social and behavioral sciences are included.

Transfer Credit: CSU; UC

MATH 116 (CAN MATH 34) CALCULUS FOR MANAGERIAL, BIOLOGICAL AND SOCIAL SCIENCES 4 UNITS

Class hours: 4 lecture

Prerequisite: MATH 114 or equivalent with a grade of Credit or "C" or higher.

This course is a survey of calculus designed to meet lower division university and four-year college requirements for the management,

Announcement of Courses

biology or social science major student. Topics included are differentiation and integration of algebraic, logarithmic and exponential functions of single and multi-variables, related rates, areas, and curve sketching. This course is not open to students with credit in MATH 170. The class does not meet the prerequisite for Mathematics 190.

Transfer Credit: CSU; UC*

*UC credit limits may apply. MATH 170 and MATH 116 combined: maximum credit, one course.

MATH 140 (CAN MATH 8) TRIGONOMETRY 3 UNITS

Class hours: 3 lecture

Prerequisite: MATH 80 (or MATH 80B) and MATH 70 or equivalent with grades of Credit or "C" or higher. Students who have not taken MATH 80 or MATH 80B must attain a satisfactory score on the Advanced Math Readiness Test.

This course includes circular functions, inverses, graphs, angles and trigonometric functions, solutions of right and oblique triangles, identities, solution of equations, and complex numbers. This class may be taken in Programmed Learning Sections. See your counselor for details.

Transfer Credit: CSU

MATH 150 (CAN MATH 16) PRECALCULUS MATHEMATICS 4 UNITS

Class hours: 4 lecture

Prerequisite: MATH 140 or equivalent with a grade of Credit or "C" or higher.

Entering students must attain a satisfactory score on the Calculus Readiness Test.

This course is a critical study of the algebra of real and complex numbers which includes selected topics such as the number system, inequalities, and the binomial theorem, sets, matrices, sequences and series. Exponential, logarithmic, polynomial and inverse functions are included.

Transfer Credit: CSU; UC*

*UC credit limits may apply. MATH 150 and MATH 114 combined: maximum credit, one course.

MATH 150A COMPUTER APPLICATIONS FOR PRECALCULUS 1 UNIT

Class hours: 3 lab

Prerequisite: MATH 150 or equivalent with a grade of Credit or "C" or higher, or concurrent enrollment.

Corequisite: None.

Recommendation: None.

This course is an introduction to modern mathematical software commonly used in universities and industry. The topics will be

specifically selected to enhance and augment MATH 150 Precalculus Mathematics course using the powerful numeric, symbolic, and graphical capabilities of the mathematical software and will better prepare students for calculus.

Transfer Credit: CSU

MATH 170(CAN MATH SEQ B) (CAN MATH SEQ C) (CAN MATH 18) ANALYTIC GEOMETRY AND CALCULUS I 4 UNITS

Class hours: 4 lecture

Prerequisite: MATH 150 or equivalent with a grade of Credit or "C" or higher.

Students who have not taken MATH 150 must attain a satisfactory score on the Calculus Readiness Test.

This course is the first semester of calculus, designed to meet lower division university and four-year college requirements. Topics included are differentiation and integration of algebraic, and trigonometric functions with applications. The necessary topics of analytic geometry are presented as needed to proceed with the principles of calculus.

Transfer Credit: CSU; UC*

*UC credit limits may apply. MATH 170 and MATH 116 combined: maximum credit, one course.

MATH 170A COMPUTER APPLICATIONS FOR CALCULUS I 1 UNIT

Class hours: 3 lab

Prerequisite: MATH 170 or equivalent with a grade of Credit or "C" or higher or concurrent enrollment.

Corequisite: None.

Recommendation: None.

This course is an introduction to modern mathematical software as used in most universities and in industrial applications where scientific research is commonplace. The topics will be specifically selected to enhance Calculus I using the powerful numeric, symbolic and graphical capabilities of mathematical software that is currently available.

Transfer Credit: CSU

MATH 190(CAN MATH SEQ B)(CAN MATH SEQ C) (CAN MATH 20) ANALYTIC GEOMETRY AND CALCULUS II 4 UNITS

Class hours: 4 lecture

Prerequisite: MATH 170 or equivalent with a grade of Credit or "C" or higher.

This course is a continuation of MATH 170. Topics include analytic geometry of the plane, differentiation and integration of trigonometric, logarithmic, and exponential functions,

techniques of integration with applications, sequences, series, and improper integrals.

MATH 220 (CAN MATH 22) (CAN MATH SEQ C) ANALYTIC GEOMETRY AND CALCULUS III 4 UNITS

Class hours: 4 lecture

Prerequisite: MATH 190 or equivalent with a grade of Credit or "C" or higher.

This course is a continuation of Math 190. Topics include vectors and vector calculus, solid analytic geometry, functions of two or more variables, partial derivatives and multiple integration.

Transfer Credit: CSU; UC

MATH 240 (CAN MATH 24) CALCULUS AND DIFFERENTIAL EQUATIONS 4 UNITS

Class hours: 4 lecture

Prerequisite: MATH 190 or equivalent with a grade of Credit or "C" or higher.

Recommendation: MATH 220 or equivalent with a grade of Credit or "C" or higher.

Topics in the course are standard methods of solving ordinary linear differential equations with applications. Laplace transforms including techniques of solving differential equations with Laplace transforms, matrices, and determinants including solving systems of linear equations with the Gauss elimination technique and Cramer's Rule. This course is designed for engineering majors.

MEDICAL ASSISTANT

(Health Occupations Division)

MA 60

INTRODUCTION TO MEDICAL ASSISTING

2 UNITS

Class hours: 2 lecture

Prerequisite: None.

This is an introductory course to study the history of medicine and paramedical professions. Generalized and specialized careers in medical assisting, personal and professional responsibilities, medical ethics and law, communications and records are discussed. The focus is on front office responsibilities, customer service philosophy, and basic communication skills.

MA 62

MEDICAL INSURANCE AND LIABILITY

3 UNITS

Class hours: 3 lecture.

Prerequisite: None.

Recommendation: MA 161 or equivalent with a grade of Credit or "C" or higher.

This course presents principles of insurance, general health and accident insurance programs and billing procedures, (ICD-9-CM, CPT) government medical care programs with specialized billing procedures, role of the insurance officer, and aspects of related medical professional liability.

MA 64

MEDICAL OFFICE ASSISTING

3 UNITS

Class hours: 2 lecture/3 lab

Prerequisite: None.

This course includes instruction in developing skills and techniques in the assisting of physical examinations, naming, care and setting-up of instruments, sterilization, and operating room procedures.

MA 66

MEDICATIONS AND SPECIALITIES

3 UNITS

Class hours: 2 lecture/3 lab

Prerequisite: None.

This course prepares the student to prepare and administer medications, maintain narcotic control records, and assist the specialist with examinations. This course meets the requirements as set forth in the laws relating to the utilization of medical assistants within the Medical Practice Act.

MA 67

MEDICAL OFFICE ADMINISTRATION

3 UNITS

Class hours: 3 lecture

Prerequisite: MA 60

Recommendation: BCOT 62, and BCOT 3T, or equivalent with grades of Credit or "C" or higher.

This course is designed to develop skills in administrative procedures in the medical office. Topics include telecommunications; bookkeeping, billing and collections; payroll; policy and procedure development; medical records; verbal and written communication for the medical office; counseling employees, and additional office management techniques. Focus is placed on the manager's perspective.

MA 68

MEDICAL ASSISTING INTERNSHIP EXPERIENCE

4 UNITS

Class hours: 1 lecture/180 variable semester hours

Prerequisite: MA 60, 62, 64, 161, HO 53, 54 and HO 55 or equivalent with grades of Credit or "C" or higher.

Corequisite: MA 66 and MA 67 or prior completion with a grade of Credit or "C" or higher.

This course is designed to provide opportunities for the student to intern a medical facility while receiving supervised instruction in direct patient care.

MA 73/74

MEDICAL ASSISTANT OCCUPATIONAL

WORK EXPERIENCE

3-4 UNITS

Class hours: One (1) hour control class each week plus 15 hours of employment per week for Medical Assistant work experience 73 or 20 hours of employment per week for Medical Assistant work experience 74. The employment must be in a job related to the student's educational goal.

Prerequisite: MA 60, MA 62, MA 64, MA 161, HO 53, HO 54 and HO 55 or equivalent with grades of Credit or "C" or higher.

Corequisite: Enrollment in the Medical Assistant vocational program with 7 or more units including occupational work experience. MA 66 and MA 67 or prior completion with a

grade of Credit or "C" or higher.

Occupational Work Experience is a supervised employment program in an approved work station related to the student's declared major. Students meet with their instructor for a minimum of one hour per week and will receive credit for on-the-job learning experiences that are new or are an expansion of their regular responsibilities. These courses may be taken a maximum of 4 times based on the number of hours on the job.

MA 161

MEDICAL TERMINOLOGY

3 UNITS

Class hours: 3 lecture

Prerequisite: None.

This course will prepare the student in the correct use of medical terms, abbreviations, phraseology, and the understanding of word parts. It will include analyzing the terms by written and oral communication of the various systems of the body.

MET 50

NONFERROUS HEAT TREAT

2 UNITS

Class hours: 1 lecture/3 lab

Prerequisite: None.

Recommendation: MET 100A or equivalent with a grade of Credit or "C" or higher.

This course will cover the effects of heat treating related to the mechanical and physical properties of non-ferrous metals. Techniques, processes and equipment used in the industrial heat treating facility; relationship of metallic phases and precipitation hardening will be emphasized. In addition theory and application of thermocouples in pyrometry, photomicrography and photomacrography of the effects of heat treatment on microstructures are included.

WELDING METALLURGY

2 UNITS

Class hours: 2 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: WELD 100 or equivalent or employment in the metal joining industries. This course is an introduction to the study of metals with an emphasis on the effects of welding on metals. The course is applicable for those students seeking a career in welding inspection. The structure of matter, chemical, physical, and mechanical properties of metals, principles of alloying, solid state diffusion, plastic deformation, and heat treatment will be studied. The course will include demonstrations and exercises in the use of metallurgical testing equipment and tools found in the industry.

MET 52L

METALLURGY SPECIALTY LAB

0.5 UNIT

Class hours: 1.5 lab

Prerequisite: Concurrent enrollment in or completion of MET 100A or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This is a lab course to complement other courses in the metallurgy curriculum. It is designed to give the student practical laboratory experience in working with ferrous and nonferrous metals. This course may be taken a maximum of 2 times.

MET 53

FERROUS METALLURGY

3 UNITS

Class hours: 2.5 lecture/1.5 lab

Prerequisite: MET 100 or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This is the study of the entire spectrum of steel and alloy steels. Theory and application in the fields of automotive, construction, aircraft metals, manufacturing and their processes will be covered. In addition, high temperature, heat resistant, corrosion resisting, stainless steel, specialty steels and tool steel will be discussed. The course will also cover testing methods such as metallurgical processing affecting microstructure, physical and mechanical properties including selection of steel types for specific applications, toughness, hardness, strength and heat treatment.

MET 54

NONFERROUS METALLURGY

3 UNITS

Class hours: 2.5 lecture/1.5 lab

Prerequisite: MET 100A or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Corequisite: None.

Recommendation: None.

This course is the study of nonferrous metals and alloys. Theory and applications in the field of automotive, corrosion, manufacturing and aircraft metals and their processes will be covered. Materials covered will include titanium, aluminum, brass, bronze, copper, zinc, tin, lead, magnesium, tantalum, tungsten, niobium, molybdenum, platinum, gold and silver. Emphasis will be placed on the study of properties, fabrication, testing, castings, forgings, powder metals and the unique applications of each material. The metallurgical characteristics and selection of nonferrous types for specific applications will be emphasized.

MET 55

LABORATORY PROCEDURES

1 UNIT

Class hours: 1 lecture/1 lab

Prerequisite: MET 100A or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Corequisite: None.

Recommendation: None.

This course will provide instruction in the elements of laboratory procedures of metals. Instruction will include the laboratory procedures used to determine the interpretive concepts of the quality and properties of metals and their alloys, with emphasis placed on the proper use and care of laboratory equipment, hardness testers, abrasive cut-off wheels, mounting presses, tensile testers and polishing equipment used in industry.

MET 56

SURVEY OF

NONFERROUS HEAT TREAT

1.5 UNITS

Class hours: 1.5 lecture/.5 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course introduces the student to the effects of heat treating as related to the mechanical and physical properties of nonferrous metals. Laboratory testing, including the techniques, processes and equipment used in the industrial heat treating facility, relationship of metallic phases, and precipitation hardening will be emphasized. Theory and application of photomicrography, photomacrography, and the effects of heat treatment on microstructures are included.

MET 61

RADIOGRAPHY

LEVEL I TESTING

3 UNITS

Class hours: 3 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course provides students with background

knowledge in the theory and demonstration of basic radiography testing equipment. Skill development required in understanding and operating basic radiography testing equipment for the inspection of composite and metallic components is emphasized.

MET 73/74

METALLURGY OCCUPATIONAL

WORK EXPERIENCE

3-4 UNITS

Class hours: One (1) hour control class each week plus 15 hours of employment per week for Metallurgy work experience 73 or 20 hours of employment per week for Metallurgy work experience 74. The employment must be in a job related to the student's educational goal.

Corequisite: (1) Enrollment in the Metallurgy vocational program with 7 or more units including occupational work experience.

Work experience/career internship provides the opportunity for Metallurgy students to apply skills and knowledge learned in the classroom to related experiences on the job/training site. The aim of the course is to assist students in expanding specific job skills. In the process of doing so, it creates greater communication with increased understanding between the student/workers, the college, and the employer/trainers. Students also pursue a program of self-evaluation to determine individual job weaknesses and strengths. Semester projects that relate to the major and job skills must be completed on the job/training site. These courses may be taken for a maximum of 4 times.

MET 100A

METALLURGY I

3 UNITS

Class hours: 3 lecture/1 lab

Prerequisite: None.

This course is an introduction to the study of metals and non-metals; structure of matter; chemical, physical and mechanical properties of metals and alloys; and non-metals including polymers, ceramics and composite materials. Principles of alloying, solid state allotropy, plastic deformation and heat treatment will also be studied. The course will also include demonstrations and laboratory practice in the use of metallurgical testing equipment commonly used in industry.

ferrous and nonferrous alloys, such as steel, steel alloys, copper alloys, nickel alloys, titanium and aluminum. Emphasis will be placed on the application of metallurgy principles, properties and laboratory practices.

MET 120 **NON-DESTRUCTIVE TESTING** **3 UNITS**

Class hours: 3 lecture/1 lab
Prerequisite: None.

This is a survey course designed to familiarize the student with nondestructive testing theory and applications. The major emphasis is on the "basic five" nondestructive testing methods: liquid penetrant, magnetic particle, radiographic, ultrasonic, and eddy current. Students will learn to use these methods and to evaluate available NDT methods as they apply to quality control.

PE 121## ADAPTED CARDIOVASCULAR EXERCISE 1 UNIT

Class hours: 0.5 lecture/1.5 lab

Prerequisite: None.

Recommendation: Completed adapted physical education physician health clearance for participation, adapted physical education health history questionnaire, intake interview assessment procedure.

This course is designed to develop the general fitness level for the disabled students who may not be placed in a regular activity course. This course may be taken a maximum of 4 times.

*Transfer Credit: CSU; UC**

**UC credit limits may apply. Any or all of these PE courses with #'s combined; maximum credit, 4 units.*

PE 122## ADAPTED STRENGTH TRAINING 1 UNIT

Class hours: 0.5 lecture/1.5 lab

Prerequisite: None.

Recommendation: Completed adapted physical education physician health clearance for participation, adapted physical education health history questionnaire, intake interview assessment procedure.

This course is designed for the student who is not able to participate in the standard circuit weight-training program due to a disability. An individualized weight-training program will be tailored to the physical abilities and disabilities of the student. This course may be taken a maximum of 4 times.

PHYSICAL SCIENCE (Science/Engineering/Math Division)

PS 100 PHYSICAL SCIENCE OF MODERN TECHNOLOGY 3 UNITS

Class hours: 3 lecture

Prerequisite: MATH 40 or equivalent with a grade of Credit or "C" or higher or satisfactory completion of the Math Placement Process.

This is a lecture/demonstration course especially designed to develop an understanding of basic science facts and concepts for non-science majors. Study of the sciences that make our technological world possible will be stressed.

*Transfer Credit: CSU; UC**

**UC credit limits may apply. No credit for PS 100 if taken after a college course in Astronomy, Chemistry, Geology or Physics.*

PS 112 PHYSICAL SCIENCE FOR ELEMENTARY SCHOOL TEACHERS 3 UNITS

Class hours: 2 lecture/3 lab

Prerequisite: MATH 105 or MATH 110A or current enrollment or equivalent with a grade of Credit or "C" or higher, or satisfactory completion of the Math Placement Process.

Corequisite: None.

Recommendation: None.

This course is an introduction to basic physical science facts and concepts. The physical sciences that make our technological world possible will be studied. This course is designed to give a general introduction to fundamental concepts and to prepare students for teaching at the elementary school level.

PHYSICAL THERAPIST ASSISTANT (Health Occupations Division)

PTA 100 PREPARING FOR CAREERS IN PHYSICAL THERAPY 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course introduces students to the field of physical therapy in the rehabilitation setting. Topics covered include documentation in the medical record, interviewing patients, therapeutic interaction with patients and their caregivers, problem identification and helpful responses, assertive roles in rehabilitation, cultural sensitivity, working with persons with disabilities, and patient/family teaching.

Transfer Credit: CSU

PTA 110 INTRODUCTION TO PHYSICAL THERAPY 4 UNITS

Class hours: 3 lecture/3 lab

Prerequisite: Admission into Physical Therapist Assistant Program.

This course will introduce the student to the history and ethics of physical therapy as they relate to the health care system; the development of the team approach and the philosophy of rehabilitation; the use of physical agents and interventions; body mechanics and proper handling of patients; vital signs and their relationship to patient care.

Transfer Credit: CSU

PTA 120 KINESIOLOGY 4 UNITS

Class hours: 3 lecture/3 lab

Prerequisite: A&P 150 and A&P 151 or equivalent with grades of Credit or "C" or higher.

Corequisite: None

This course is the study of biomechanical principles of human movement and locomotion including specific kinesiological functions of muscles and muscle groups, characteristics of normal posture and gait, and an introduction to the clinical manifestations of muscle dysfunction. Laboratory hours will be used for

PTA 126

CLINICAL PRACTICUM I

4 UNITS

Class hours: 221 variable semester lab hours

Prerequisite: None.

Corequisite: None

This course is designed to give the student an initial exposure to physical therapy interventions. Students will practice application of heat and cold physical agents, gait and transfer training and medical record review under the direction of the physical therapy clinical instructor. The laboratory experience involves training in one or more physical therapy settings as designated by the instructor. Uniforms are required. This course is offered on a credit/no credit basis only.

PTA 127

SOFT TISSUE INTERVENTIONS

2 UNITS

Class hours: 2 lecture

Prerequisite: PTA 120 or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This course introduces students to interventions for the myofascial system. Content includes the philosophy of care, facilitation of mechanical, neurological and physiological changes and documentation of interventions. Specific topics covered are soft tissue injuries, treatment protocols, muscle adaptations, release, and scar tissue intervention.

Transfer Credit: CSU

PTA 128

PHYSICAL THERAPY

ASPECTS OF GROWTH, DEVELOPMENT AND AGING

3 UNITS

Class hours: 3 lecture.

Prerequisite: Acceptance into the Physical Therapist Assistant Program.

This course will introduce the student to concepts and physical therapy principles

applied to the developmental process from gestation through aging. Emphasis will be placed on neurodevelopment techniques used for abnormal development and for patients with neurological or musculoskeletal disorders.

Transfer Credit: CSU

PTA 230

THERAPEUTIC EXERCISE

4 UNITS

Class hours: 3 lecture/3 lab

Prerequisite: PTA 120 or equivalent with a grade of Credit or "C" or higher.

This course is for second year physical therapist assistant majors. Therapeutic exercise introduces the student to the use of exercise as a preventive and intervention mechanism for pathological conditions which influence strength, endurance and flexibility of the human body. Emphasis is placed upon design and application of exercise, developmental sequence of exercise, types of exercise, and the use of exercise equipment. Instruction includes the body's physiological response to exercise.

PTA 233

PROSTHETICS AND ORTHOTICS FOR ALLIED HEALTH PROFESSIONALS

2 UNITS

Class hours: 2 lecture

Prerequisite: A&P 150 and A&P 151 or equivalent with grades of Credit or "C" or higher.

This course is an introduction to the application of prosthetics and orthotic devices in the rehabilitation process of persons with disabilities. Included in the course is a survey of commonly used devices, principles of fitting and alignment, criteria for selection of various components, instruction in donning, removing and maintenance of prostheses and orthoses, patient education in use of devices, and development of skill in fabrication of plaster positioning splints for upper and lower extremities.

Transfer Credit: CSU

PTA 235

NEUROLOGY

3 UNITS

Class hours: 3 lecture

Prerequisite: PTA 120 or equivalent with a grade of Credit or "C" or higher.

This course is designed to increase the student's knowledge in the anatomy and physiology of the nervous system. Information regarding the central, peripheral and autonomic systems is provided. Emphasis will be placed on the clinical manifestations of disease or injury to the nervous system as it relates to clinical problems encountered in physical therapy.

Transfer Credit: CSU

PTA 236

CLINICAL PRACTICUM II

4 UNITS

Class hours: 221 variable semester lab hours

Prerequisite: PTA 125 or equivalent with a grade of Credit or "C" or higher.

Corequisite: None

This course is designed to teach the student the necessary intervention skills for physical therapy patient care. These skills will include active, passive and resistive exercise programs, as well as continued practice in physical agent application, gait and transfer training. Students will also learn fundamental procedures for clinical education from direct teaching and evaluation of learning. Laboratory experience involves training in one or more physical therapy settings as designated by the instructor. Student uniforms are required. This course is offered on a credit/no credit basis only.

Transfer Credit: CSU

PTA 240

ACTIVITIES OF DAILY LIVING

2 UNITS

Class hours: 2 lecture

Prerequisite: PTA 230 or equivalent with a grade of Credit or "C" or higher.

Corequisite: None

This course will present instruction in the functional rehabilitation of the disabled. Emphasis will be on understanding and utilization of the physical therapy evaluation for implementation of intervention programs. This course will present clinical instruction activities of daily living training techniques, wheelchair fitting, Jobst measurement and professional presentations.

Transfer Credit: CSU

PTA 245

ADVANCED MODALITIES

3 UNITS

Class hours: 2 lecture/3 lab

Prerequisite: PTA 235 or equivalent with a grade of Credit or "C" or higher.

This course is a study of the specific advanced physical therapy interventions and physical agents which are employed in the physical therapy clinic and which require greater expertise in their application.

PHYSICS

(Science/Engineering/Math Division)

PHYS 50 PRINCIPLES OF TECHNOLOGY 3 UNITS

Class hours: 2 lecture/2 lab/1 hr. lab arr.

Prerequisite: None.

Corequisite: None.

Recommendation: Satisfactory completion of the Math Placement Process or completion of MATH 40 or MATH 42 or equivalent with a grade of Credit or "C" or higher.

This is an introductory course in principles of physics and its applications in a technological world. It will include applications of physical, mechanical, fluid, electrical and thermal systems. The course includes integrated labwork. (This course is not open to students with credit in PHYS 100 or higher.)

PHYS 100 ELEMENTARY PHYSICS 4 UNITS

Class hours: 3 lecture/1 quiz/2 lab

Prerequisite: MATH 140 or equivalent with a grade of Credit or "C" or higher.

This course is a general survey of the basic principles of physics. It includes mechanics, heat, sound, electricity and magnetism, light, and modern physics with emphasis on mechanics. It is designed primarily as a prerequisite to courses in Engineering Physics.

*Transfer Credit: CSU; UC**

**UC credit limits may apply. No credit for PHYS 100 if taken after PHYS 101 or PHYS 201.*

PHYS 101 (CAN PHYS SEQ A) (CAN PHYS 2) GENERAL PHYSICS 4 UNITS

Class hours: 3 lecture/1 quiz/2 lab

Prerequisite: MATH 140 or equivalent with a grade of Credit or "C" or higher.

This course is designed to give students an understanding and appreciation of the basic principles governing the everyday happenings in the physical environment. The subjects covered are mechanics, heat and sound.

*Transfer Credit: CSU; UC**

**UC credit limits may apply. PHYS 101, PHYS 102 combined with PHYS 201, PHYS 202 and PHYS 203: maximum credit, one series, deduct credit for duplication of topics.*

PHYS 102 (CAN PHYS SEQ A) (CAN PHYS 4) GENERAL PHYSICS 4 UNITS

Class hours: 3 lecture/1 quiz/2 lab

Prerequisite: PHYS 101 or equivalent with a grade of Credit or "C" or higher.

This course is a continuation of PHYS 101. It includes electricity and magnetism, light, and modern physics.

*Transfer Credit: CSU; UC**

**UC credit limits may apply. PHYS 101, PHYS 102 combined with PHYS 201, PHYS 202 and PHYS 203: maximum credit, one series, deduct credit for duplication of topics.*

PHYS 201 (CAN PHYS 8) (CAN PHYS SEQ B) ENGINEERING PHYSICS 4 UNITS

Class hours: 3 lecture/1 quiz/2 lab

Prerequisite: PHYS 100 or PHYS 101 and MATH 170 or equivalent with grades of Credit or "C" or higher.

This is the first course in a three-semester sequence designed to meet the requirements for engineering and related majors. Topics to be covered are mechanics, wave motion and sound.

*Transfer Credit: CSU; UC**

**UC credit limits may apply. PHYS 101, PHYS 102 combined with PHYS 201, PHYS 202 and PHYS 203: maximum credit, one series, deduct credit for duplication of topics.*

PHYS 202 (CAN PHYS 12) (CAN PHYS SEQ B) ENGINEERING PHYSICS 4 UNITS

Class hours: 3 lecture/

1 quiz/2 lab

Prerequisite: PHYS 201 or equivalent with a grade of Credit or "C" or higher.

This course emphasizes the physics of electricity and magnetism. The units of study under electricity include electrostatics, DC circuits and capacitance. Magnetism will cover magnetic fields, force on conductors, torque on coils, motional electromagnetic force and induction, self and mutual inductance, magnetic properties of matter and some basic AC theory.

*Transfer Credit: CSU; UC**

**UC credit limits may apply. PHYS 101, PHYS 102 combined with PHYS 201, PHYS 202 and PHYS 203: maximum credit, one series, deduct credit for duplication of topics.*

PHYS 203 (CAN PHYS 14)(CAN PHYS SEQ B) ENGINEERING PHYSICS 4 UNITS

Class hours: 3 lecture/1 quiz/2 lab

Prerequisite: PHYS 201 or equivalent with a grade of Credit or "C" or higher.

This course is a study of heat, light and modern physics. The unit on heat covers such topics as thermometry, calorimetry, the gas laws, thermodynamics and kinetic theory. Optics include geometric and physical optics.

Modern physics touches on selected topics such as photoelectric effects, x-ray production and nuclear effects.

*Transfer Credit: CSU; UC**

**UC credit limits may apply. PHYS 101, PHYS 102 combined with PHYS 201, PHYS 202 and PHYS 203: maximum credit, one series, deduct credit for duplication of topics.*

PLASTICS/COMPOSITES MANUFACTURING TECHNOLOGY

(Technology Division)

PMT 1 (Not degree applicable) PLASTICS FUNDAMENTALS 1.5 UNITS

Class hours: 1.5 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course provides students with a basic understanding of occupations, manufacturing processes, and materials used within the plastics industry. Students seeking employment or employees wanting to enhance their skill level and knowledge of plastics will benefit from this course. The curriculum includes a variety of plastics facilities tours, guest speakers, and current industry information. Students have an opportunity to explore their own interest within the plastics manufacturing industry.

PMT 2 (Not degree applicable) INJECTION MOLDING FUNDAMENTALS 1.5 UNITS

Class hours: 1 lecture/1.5 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This class introduces students to basic fundamentals of set-up and operation of injection molding equipment in the plastics and composites industry. Safe handling of all machine operations and hands on training utilizing current industry equipment is emphasized. Students receive training that enables them to apply for entry-level positions in the plastics and composites industry. The course may be taken a maximum of 2 times.

PMT 3 (Not degree applicable) PLASTICS REPAIR 1 UNIT

Class hours: 1 lecture

Prerequisite: None.

This course will introduce students to the theory and practical application of repair for plastics and composites. The study of repair techniques as well as safety in handling hand tools, power tools, and special plastic repair equipment will be covered. It will prepare students for practical hands-on training to

Announcement of Courses

gain experience of plastic repairs. Related technical information and demonstrations are presented concerning plastic identification, materials, and processes of repair. The PMT 63L specialty lab class is recommended to perform the hands-on training and repairs.

PMT 4 PLASTICS III 2.5 UNITS

Class hours: 2 lecture/2 lab

Prerequisite: PMT 64 or equivalent with a grade of Credit or "C" or higher.

This is a specialty course for the advanced plastics student or individuals employed in the plastics industry that wish to further their skills and knowledge of plastics. Laboratory experience will continue to stress major areas of specialization selected by the student, including: materials, process applications, and equipment.

PMT 5 (Not degree applicable) SURVEY OF COMPOSITES 1.5 UNITS

Class hours: 1.5 lecture

Prerequisite: None.

This course provides an overview of manufacturing procedures, processing and materials used within the composites industry. The design, construction, and fabrication of laminated parts, as well as related terminology, will be covered. PMT 63L is recommended.

PMT 40 EXTRUSION FUNDAMENTALS 1.5 UNITS

Class hours: 1.5 lecture/.5 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This survey course introduces students to the fundamentals of the plastic extrusion process. Selection of equipment and materials are covered as well as current industry terminology. Material handling, safe machine operation and manufacturing processes are emphasized.

PMT 43/44 (Not degree applicable) PLASTICS MANUFACTURING TECHNOLOGY OCCUPATIONAL WORK EXPERIENCE 3-4 UNITS

Class hours: One (1) hour control class each week plus 15 hours of employment per week for Plastics work experience 73 or 20 hours of employment per week for Plastics work experience 74. The employment must be in a job related to the student's educational goal.

Corequisite: (1) Enrollment in the Plastics vocational program with 7 or more units including occupational work experience.

Work experience/career internship provides the opportunity for Plastics Manufacturing Technology students to apply skills and knowledge learned in the classroom to related

experiences on the job/training site. The aim of the course is to assist students in expanding specific job skills. In the process of doing so, it creates greater communication with increased understanding between the student/workers, the college, and the employer/trainers. Students also pursue a program of self-evaluation to determine individual job weaknesses and strengths. Semester projects that relate to the major and job skills must be completed on the job/training site. These courses may be taken a maximum of 4 times.

PMT 50 SURVEY OF HYDRAULICS AND PNEUMATICS 1.5 UNITS

Class hours: 1.5 lecture/.5 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course will introduce the student to the fundamentals and principles of hydraulics and pneumatics as they relate to industrial manufacturing and equipment. Applications of each will be explored. The design and understanding of simple circuits and systems in the laboratory will be examined.

PMT 51 COMPOSITES FABRICATION 2.5 UNITS

Class hours: 2 lecture/2 lab

Prerequisite: None.

Corequisite: None.

Recommendation: PMT 70 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

This course will provide students with theory and "hands-on" exposure to fabrication methods with "high-tech" materials. Areas of concentration will include composite structures, material choices, design of composite structures, surface bonding, fastener installation, inspection processes and approved repair methods. Fabrication, safety procedures, and material handling are also covered.

PMT 52 MOLDMAKING 11 3 UNITS

Class hours: 3 lecture/1 lab

Prerequisite: PMT 65 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Corequisite: None.

Recommendation: None.

This course is designed to further extend both the students' skills in plastic injection moldmaking and knowledge of the latest technologies used for mold designing and mold fabrication, including the use of computer programs. Definitions of complex types of plastic injection molds, mathematical solutions of plastic part requirements, computer-generated Electrical Discharge Machining (EDM)

electrodes and computer-generated template designs, and surface polishing will be covered.

PMT 53 COMPOSITES REPAIR 3 UNITS

Class hours: 3 lecture/1 lab

Prerequisite: None.

Corequisite: None.

Recommendation: PMT 70 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

This course provides students with "hands-on" exposure to composite structural repair techniques. Areas of emphasis include structural and nonstructural (cosmetic) evaluation, material handling, surface preparation, and common types of damages encountered within the composite industry.

PMT 55 PROTOTYPING 1 UNIT

Class hours: 1 lecture/1 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course provides insight into contemporary prototyping materials and methods used in industry. The focus is on preproduction consumer products from initial ideas through research and development concluding with manufacturing processes.

PMT 57 SURVEY OF PLASTICS 1.5 UNITS

Class hours: 1.5 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course introduces students to a basic understanding of occupations, manufacturing processes and materials used within the plastics industry. Students seeking employment and furthering their knowledge of plastics will benefit from a variety of plant tours, guest speakers, and information in areas of interest within the plastics manufacturing industry.

PMT 58 INDUSTRIAL DESIGN FOR PLASTICS 2.5 UNITS

Class hours: 2 lecture/2 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course is for students desiring knowledge of materials and processes used in the field of industrial design and applications. Content includes an overview of plastics technology and lecture/demonstrations in principle processes, including molding, reinforced materials, forming, moldmaking, casting, bonding, laminating, and fabrication.

All courses on this page are Title V Associate Degree applicable/credit courses unless otherwise noted.

Announcement of Courses

PMT 59

INJECTION MOLDING I

2.5 UNITS

Class hours: 2 lecture/2 lab

Prerequisite: None.

This course introduces the student to the fundamentals of set-up and operation of injection molding equipment as found in industry. Training on actual industrial equipment as well as safe material and machinery handling is stressed. This course may be taken a maximum of 2 times.

PMT 60

EXTRUSION

3 UNITS

Class hours: 2.5 lecture/1.5 lab

Prerequisite: None.

Recommendation: PMT 100 or equivalent with a grade of Credit or "C" or higher.

This course provides the student with details that apply to application of the extrusion process. The necessary equipment and materials and their selection are covered in depth. Current industry trends in materials handling, machine operation and how these relate to the manufacturing process are emphasized.

PMT 61

FIBERGLASS I

2.5 UNITS

Class hours: 2 lecture/2 lab

Prerequisite: None.

Recommendation: PMT 100 or equivalent with a grade of Credit or "C" or higher.

This is a course in the industrial use of fiberglass resins, cloth, mat and composite materials. The care and use of equipment (fiberglass chopper gun, gel-coat spray gun) is stressed. Other areas explored are mold laminating, repair, and proper use of resins and fillers. Mixing of resins and safety procedures are emphasized. This course may be taken a maximum of 2 times.

PMT 62

PLASTIC PACKAGING

2 UNITS

Class hours: 2 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course introduces students to the theory and practical methods of plastic packaging. Areas of concentration are on plastic materials, processing applications and equipment used in consumer and industrial packaging. Material identification and plastic material recycling are also covered.

PMT 63L

SPECIALTY PLASTICS LAB

0.5 UNIT

Class hours: 1.5 lab

Prerequisite: None.

This is a lab course to complement other courses in the Plastic/Composite curriculum.

It is designed to give practical experience in working with plastics and fiberglass materials. This course may be taken a maximum of 4 times.

PMT 64

PLASTICS II

2.5 UNITS

Class hours: 2 lecture/2 lab

Prerequisite: PMT 100 or equivalent with a grade of Credit or "C" or higher.

This is an intermediate course designed to further the student's knowledge of materials and processes. Laboratory work will stress the two major areas of specialization selected by the student from the following: Plastics Molding, Thermoforming Fabrication, Reinforced Plastics, Testing Equipment Set-Up and Maintenance, and Tooling.

PMT 65

MOLDMAKING I

3 UNITS

Class hours: 3 lecture/1 lab

Prerequisite: None.

This class introduces student to the fundamentals of plastic injection mold designs and fabrication. This course includes basic shop operation, demonstrations, safety and the technology of moldmaking in the plastic industry.

PMT 66

HYDRAULICS AND PNEUMATICS

3 UNITS

Class hours: 2.5 lecture/1.5 lab

Prerequisite: PMT 100 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

This course will introduce the student to the fundamentals and principles of hydraulics and pneumatics as they relate to plastics and machine tool equipment. Applications of each will be explored, as well as the design of simple circuits and systems in the laboratory.

PMT 67

FIBERGLASS II

2.5 UNITS

Class hours: 2 lecture/2 lab

Prerequisite: None.

This is a course in fiberglass/composites manufacturing technology. Areas of concentration include the processes and techniques of fiberglass composites as applied in industry. This course will place the student in production situations similar to those encountered in industry. The student may also have an opportunity to construct a project of his/her own with instructor approval.

PMT 68

PLASTICS MATERIALS AND PROCESSES

2.5 UNITS

Class hours: 2 lecture/2 lab

Prerequisite: None.

This course is directed toward the study of plastic materials used in processing areas. Proper selection and applications of various thermosetting and thermoplastics are studied. Testing of these materials is covered as specified in the ASTM Standards, including physical properties and chemical properties. Plastic material processing that is covered includes injection molding, compression molding and extrusion.

PMT 70

COMPOSITES TECHNOLOGY

2.5 UNITS

Class hours: 2 lecture/2 lab

Recommendation: PMT 67 or equivalent with a grade of Credit or "C" or higher.

This course is designed for students in the field of fiberglass/composites. Emphasis is on the lay-up, vacuum bagging, and cure processing of wet laminating techniques and preimpregnated materials. Also included are processes of resin transfer molding (RTM), filament winding, pultrusion, bonding, and fabrication of composite structures with honeycomb core materials. Laboratory experience will cover safety of handling resins, reinforcements, and related materials.

PMT 71

PLASTICS IV

2.5 UNITS

Class hours: 2 lecture/2 lab

Prerequisite: PMT 4 or equivalent with a grade of Credit or "C" or higher.

This is a specialty course for the advanced plastics student or one employed in the plastics industry. Emphasis will be placed on development of independent problem solving in the student's major area of specialization.

PMT 72

TH 146 MUSICAL THEATRE PRODUCTION FOR CHORUS 2 UNITS

Class hours: 1 lecture/3 lab
Prerequisite: By audition.
Corequisite: None.
Recommendation: None.
This course involves participation in a major Theatre Department musical production as a member of the chorus. Activities may include singing, dancing, acting and/or playing a musical instrument. This course may be taken a maximum of 4 times.
Transfer Credit: CSU; UC

TH 147 MUSICAL THEATRE PRODUCTION FOR LEADING ROLES 3 UNITS

Class hours: 1 lecture/7 lab
Prerequisite: By audition.
This course involves participation in a major Theatre Department musical production in a leading role. Activities will include singing, dancing, acting, and/or playing of musical instrument. This course may be taken a maximum of 4 times.
Transfer Credit: CSU; UC

TH 150 APPRECIATION AND HISTORY OF THE MOTION PICTURE 3 UNITS

Class hours: 3 lecture
Prerequisite: None.
This course examines the art of motion pictures and their impact upon society. It includes the viewing and critical analysis of feature films in various thematic categories.
Transfer Credit: CSU; UC

TH 151 MOTION PICTURES, RADIO AND TELEVISION 3 UNITS

Class hours: 3 lecture
Prerequisite: None.
This is a broad survey of the history, theory, and production techniques of motion pictures, radio, and television, with emphasis on the form, content, and social impact of each. Students will participate in at least one field trip to a motion picture, radio, or television studio.
Transfer Credit: CSU

TH 153 MOTION PICTURE PRODUCTION 3 UNITS

Class hours: 2 lecture/4 lab
Prerequisite: None.
This is an introductory course in the elements of motion picture production. Students create short films in the Super 8 mm. format.
Transfer Credit: CSU

TH 156 VIDEO PRODUCTION 3 UNITS

Class hours: 1 lecture/5 lab
Prerequisite: None.
This class provides practice in basic video production and editing. The focus will be on field video production and off-line digital editing. Students will create video projects, work in teams, and learn about producing, directing, camera operation, and post-production of video. This course may be taken a maximum of 4 times.
Transfer Credit: CSU

TH 159 WORLD FILM 3 UNITS

Class hours: 3 lecture
Prerequisite: None.
Corequisite: None.
Recommendation: ENGL 52 or ENGL 155 or equivalent with a grade of Credit or "C" or higher or satisfactory completion of the English Placement Process. This course examines the art of motion pictures and its international and global impact. It includes the critical analysis of feature films as a reflection of national, ethnic and cultural values.
Transfer Credit: CSU; UC

TH 160 GREAT FILM DIRECTORS 3 UNITS

Class hours: 3 lecture/1 lab
Prerequisite: None.
Corequisite: None.
Recommendation: None.
This is a survey course on the art and social impact of the film director. Through a series of collective film screenings, lectures, and discussions, students will analyze individual filmmakers. This course may be taken a maximum of 2 times.
Transfer Credit: CSU; UC

TH 193 MOTION PICTURE EDITING 3 UNITS

Class hours: 2 lecture/4 lab
Prerequisite: None
Corequisite: None
Recommendation: None
This course will serve as an introduction to motion picture editing by taking students through the history of editing and analysis

specific techniques through in class examples of significant works. Students will apply their knowledge of editing techniques through exercises on non-linear editing tools where they will edit their own versions of scenes from common footage.

TH 212 SCENE STUDY 3.5 UNITS

Class hours: 3 lecture/2 lab
Prerequisite: TH 110 or equivalent with a grade of Credit or "C" or higher.
This is an intensive acting course focusing on the study and performance of challenging scenes from Chekhov, Ibsen, Strindberg, Shaw, and Feydeau, as well as from Beckett, Pinter, Ionesco, Albee, and Mamet. Students will explore multiple objectives, acting between the lines, and techniques for absurdist plays and farce.

Transfer Credit: CSU; UC

TH 213 HISTORICAL STYLES OF ACTING 3.5 UNITS

Class hours: 3 lecture/2 lab
Prerequisite: TH 110 or equivalent with a grade of Credit or "C" or higher.
In this course students will learn acting methods and styles needed to perform in plays written before the 19th century. These may include plays from ancient Greece, Commedia dell'Arte, Shakespeare and his contemporaries, the Spanish Golden Age, English Restoration, French neoclassicism, Moliere, and 18th century authors of various nationalities. Students will also explore vocal production, movement patterns, costumes, and social modes and manners for each period study.

TH 221

COSTUMING FOR THE STAGE 3 UNITS

Class hours: 2 lecture/3 lab

Prerequisite: None.

This course introduces the student to the principles and methods of costume crafts for stage purposes. Although design and construction are accentuated, the approach to costuming for the stage is underscored by an historical perspective. This course may be taken a maximum of 2 times.

Transfer Credit: CSU; UC

TH 222

STAGE LIGHTING 3 UNITS

(CAN DRAM 10)

Class hours: 2 lecture/3 lab

Prerequisite: None.

This course introduces the student to the theory and practice of modern stage lighting. Emphasis is placed on the design and function of lighting equipment and control systems, as well as color theory, the historical perspective, and hands-on experience.

Transfer Credit: CSU; UC

TH 226

INTRODUCTION TO SCENIC DESIGN 2 UNITS

Class hours: 1 lecture/3 lab

Prerequisite: None.

This course introduces the student to the basic principles and techniques of scenic design for the theatre. The class will be involved in the conceptualization, analysis, and actual exploration of the design process. Emphasis will be placed on the development of the individual's design capabilities and knowledge of contemporary design approaches.

TH 254

ADVANCED MOTION PICTURE PRODUCTION 3 UNITS

Class hours: 2 lecture/4 lab

Prerequisite: TH 153 or equivalent with a grade of Credit or "C" or higher.

This is an advanced course in the elements and practice of motion picture production in super 8mm film. Students create and direct advanced motion picture projects.

Transfer Credit: CSU

TH 258

WRITING FOR MOVIES AND TELEVISION 3 UNITS

Class hours: 3 lecture

Prerequisite: ENGL 52 or equivalent with a grade of Credit or "C" or higher.

This course teaches the principles and practice of short-form writing for motion pictures and television. Feature length and short screenplays will be developed in class. Dramatic

films and television programs will be analyzed and evaluated for their story structure. This course may be taken a maximum of 2 times.

WELDING

(Technology Division)

WELD 39 (Not degree applicable)

WELDING SHOP MATH 2 UNITS

Class hours: 2 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course is designed to familiarize the student with the shop math typical to the welding industry. Emphasis will be placed on the practical applications of measuring, measuring instruments, area, volume, fractions, decimals and the metric system.

WELD 43/44 (Not degree applicable)

WELDING OCCUPATIONAL WORK EXPERIENCE 3-4 UNITS

Class hours: One (1) hour control class each week plus 15 hours of employment per week for Welding work experience 73 or 20 hours of employment per week for Welding work experience 74. The employment must be in a job related to the student's educational goal.

Corequisite: (1) enrollment in the Welding vocational program with 7 or more units including occupational work experience.

Work experience/career internship provides the opportunity for welding students to apply skills and knowledge learned in the classroom to related experiences on the job/training site. The aim of the course is to assist students in expanding specific job skills. In the process of doing so, it creates greater communication with increased understanding between the student/workers, the college, and the employer/trainers. Students also pursue a program of self-evaluation to determine individual job weaknesses and strengths. Semester projects that relate to the major and job skills must be completed on the job/training site. These courses may be taken for a maximum of 14 times.

WELD 50

BLUE PRINT READING FOR THE WELDING TRADES 3 UNITS

Class hours: 3 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course is designed to enable the student to read and interpret shop and structural drawings and prints. Emphasis is placed on structural shape identification, nomenclature, and symbols.

WELD 51L

ADVANCED ARC WELDING SPECIALTY LAB 1 UNIT

Class hours: 3 lab

Prerequisite: WELD 120 or equivalent with a grade of Credit or "C" or higher, or concurrent enrollment.

Corequisite: WELD 210L or prior completion with a grade of Credit or "C" or higher.

Recommendation: None.

This advanced level welding course is designed to further develop advanced specialized welding skills in the structural, piping, sheet metal, and construction industries. This course may be taken a maximum of 2 times.

WELD 52

PIPE WELDING FUNDAMENTALS 4 UNITS

Class hours: 2 lecture/6 lab

Prerequisite: WELD 210L or equivalent with a grade of Credit or "C" or higher and current Los Angeles City or AWS certification for structural steel.

This advanced welding course is designed to utilize previously acquired welding skills and techniques on ferrous pipe in the rotated and fixed positions. Emphasis is placed on the welding of open groove pipe joints using the shielded metal arc welding (SMAW) process. Subjects covered will include joint preparation, alignment techniques, pre-heat and inter-pass temperatures, and post-heat requirements. Pipe flanges and fittings will be identified as to alloy content and applicable welding procedures

WELD 53

PIPE LAYOUT 2 UNITS

Class hours: 1 lecture/3 lab

Prerequisite: WELD 120 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

This advanced welding course emphasizes practical techniques of pipe layout, terminology, use of layout tools, fittings, offset tie-ins, and rolled offset tie-in of parallel pipelines. Instruction in more advanced layout techniques will cover layout of calculated fittings involving pipelines of unequal sizes and compound offset tie-in fittings.

All courses on this page are Title V Associate Degree applicable/credit courses unless otherwise noted.

WELD 54L ADVANCED PIPE WELDING 2 UNITS

Class hours: 6 lab
Prerequisite: WELD 52 or equivalent with a grade of Credit or "C" or higher.
This is a course designed to refine the student's previously acquired pipe welding skills and prepare the student to pass a certification test in pipe welding. Emphasis is placed on welding ferrous pipe in the horizontal fixed (5G) and 45 degree inclined (6G) positions, using the shielded metal arc (SMAW), gas metal arc (GMAW), and gas tungsten arc (GTAW) welding processes. This course may be taken a maximum of 4 times.

WELD 55 MAINTENANCE WELDING 2 UNITS

Class hours: 1 lecture/3 lab
Prerequisite: WELD 100 and WELD 120 or equivalent with grades of Credit or "C" or higher, or appropriate work experience.
Corequisite: None.
Recommendation: None.
This advanced course develops the techniques of maintenance welding including terminology, metal identification, heat treating, and welding of dissimilar metals. Emphasis is placed on following welding procedures as they relate to the job.

WELD 100 WELDING FUNDAMENTALS 2 UNITS

Class hours: 1 lecture/3 lab
Prerequisite: None.
This introductory course is designed to familiarize the student with the principles and practices of the welding industry. Emphasis is placed on technical and practical applications of shielded metal arc, oxy-acetylene, gas metal arc, and gas tungsten arc welding processes as well as safety, weld testing, and the effects of heat on metals.
Transfer Credit: CSU

WELD 120 BEGINNING ARC WELDING 4 UNITS

Class hours: 2 lecture/6 lab
Prerequisite: None.
Corequisite: None.
Recommendation: WELD 100 with a grade of Credit or "C" or higher, or concurrent enrollment, or appropriate work experience.
This is a course designed for the beginning student welder covering the technical and practical aspects of the shielded metal arc welding (SMAW), gas metal arc welding (GMAW), and flux cored arc welding (FCAW) processes. Welding may be done in all positions on carbon steels. Emphasis is also placed on the safe operation of manual and semi-automatic oxyacetylene flame cutting equipment.
Transfer Credit: CSU

WELD 130 GAS TUNGSTEN ARC WELDING FUNDAMENTALS 4 UNITS

Class hours: 2 lecture/6 lab
Prerequisite: None.
Corequisite: None.
Recommendation: WELD 100 or WELD 120 or equivalent with a grade of Credit or "C" or higher or concurrent enrollment, or appropriate work experience.
This is a course designed to provide the student with technical and practical welding skills on ferrous and non-ferrous metals, using the gas tungsten arc welding process (GTAW) commonly known as TIG. Related classroom instruction covers technical data pertaining to this welding process.
Transfer Credit: CSU

WELD 170 STRUCTURAL FABRICATION 2 UNITS

Class hours: 1 lecture/3 lab
Prerequisite: WELD 100 or equivalent with a grade of Credit or "C" or higher.
Corequisite: None.
Recommendation: WELD 50 or equivalent with a grade of Credit or "C" or higher.
This is a course designed to develop welding skills and structural fabrication techniques on real or simulated metal construction projects. Emphasis will be on the safe operation of fabricating equipment as applied to structural steel components. This course may be taken a maximum of 4 times.
Transfer Credit: CSU

WELD 200 INTERMEDIATE ARC WELDING 4 UNITS

Class hours: 2 lecture/6 lab
Prerequisite: WELD 120 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.
Corequisite: None.
Recommendation: None.
This is a course designed to refine the student's previously acquired welding skills and prepare the student to pass welding certification tests. Emphasis is placed on welding in the vertical and overhead positions and the welding of alloy steels with compatible filler metals using the shielded metal arc (SMAW), gas metal arc (GMAW), and flux cored arc (FCAW) welding processes. Related classroom instruction is given in the technical data pertaining to these processes.
Transfer Credit: CSU

WELD 210L ARC WELDING APPLICATIONS 2 UNITS

Class hours: 6 lab
Prerequisite: WELD 200 or equivalent with a grade of Credit or "C" or higher.
This advanced welding course is designed

to prepare the student welder for structural steel welding certifications using the SMAW (Shielded Metal Arc Welding) and FCAW (Flux Cored Arc Welding) processes. This course may be taken a maximum of 3 times.
Transfer Credit: CSU

WELD 220 CERTIFICATION AND LICENSING FOR WELDERS 2 UNITS

Class hours: 2 lecture
Prerequisite: WELD 200 or equivalent with a grade of Credit or "C" or higher or concurrent enrollment, or appropriate work experience.
Corequisite: None.
Recommendation: None.
This is a technical course for the advanced welding student. Material covered will include data on all approved modern welding processes, welding filler metals, approved welded joint design, and welding procedures. Special emphasis will be placed on welding symbols and American Welding Society (AWS) Structural Code specifications leading to Los Angeles City and AWS welding certifications.
Transfer Credit: CSU

WELD 240 ADVANCED GAS TUNGSTEN ARC WELDING LABORATORY 2 UNITS

Class hours: 6 lab
Prerequisite: WELD 130 or equivalent with a grade of Credit or "C" or higher.
This is an advanced welding course using the gas tungsten arc welding (GTAW) process. This course is designed to further the skills of the student in this process. Special emphasis is placed on the welding of ferrous and non-ferrous metals in the vertical position. This course may be taken a maximum of 4 times.
Transfer Credit: CSU

WELD 250L GAS TUNGSTEN ARC WELDING APPLICATIONS 2 UNITS

Class hours: 6 lab
Prerequisite: WELD 240 or equivalent with a grade of Credit or "C" or higher.
This advanced course is designed to further increase the manipulative skills and technical knowledge of the student welder using the gas tungsten arc welding (GTAW) process on .020" to .030" thickness metals as well as welding the root bead on high pressure pipe. All welding samples will comply with standards set by the American Welding Society or industry. This course may be taken a maximum of 2 times.

ISSUES FOR WOMEN IN AMERICAN SOCIETY

3 UNITS

Class hours: 3 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: Satisfactory completion of the Reading Placement Process or READ 54 or equivalent with a grade of Credit or "C" or higher and satisfactory completion of the English Placement Process or ENGL 52 or equivalent with a grade of Credit or "C" or higher.

Issues for Women in American Society is a multidisciplinary course that provides a foundation for interpreting gender issues in America. It examines the essential components of women's studies as an academic discipline; delineates theories of feminism and history of women's movements; evaluates the social construction and politics of gender; analyzes the intersection of gender with race, ethnicity, social class and sexual orientation; and identifies the issues of feminism in a global context.

WS 103

WOMEN, THEIR BODIES AND HEALTH

3 UNITS

Class hours: 3 lecture

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course will examine contemporary

women's health issues and body image concerns. General topics will include images of women, lifespan changes, mental health, eating disorders, prevention of abuse and self-harm, social roles, sexual identity and sexuality, relationships, birth control and pregnancy. Current research on cardiovascular disease, cancer and other chronic conditions will be discussed as they pertain to women's issues. Students will develop the skills necessary to become wiser consumers of health and beauty-enhancing products. (This course is not open to students currently enrolled or who have completed HED 103)

OPEN ENTRY/EXIT WOODWORKING

0.5 UNIT

Class hours: 3 hrs. arr.

Open entry/open exit

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This open entry/exit course is designed to provide between semester access to the wood-working program for students to develop, enhance, and refine their woodworking skills. Students are accepted into existing courses

on a space-available basis dependent on the students' skills and needs and can exit when their individual goals have been met. This course is intended to facilitate basic fundamental skills for entry level employment.

WMT 101

INTRODUCTION TO WOODWORKING

3 UNITS

Class hours: 2.5 lecture/2 lab

Prerequisite: None.

This introductory woodworking course acquaints the student with the essential principles of woodworking. Topics include wood technology, use of hand tools, portable power tools, and basic machinery. Emphasis is placed on proper technique, safety, and shop policies for the woodworking facility.

Transfer Credit: CSU

WMT 102

INTRODUCTION TO SOLID WOOD CASEGOODS

4 UNITS

Class hours: 2.5 lecture/5.5 lab

Prerequisite: WMT 101 or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This intermediate course increases the student's skill in the use of hand tools, portable power tools, and machinery. Topics include project planning and implementation, wood technology, and hand and machine joinery as it pertains to solid wood construction in free-standing furniture casework. Emphasis is placed on proper technique, safety, and shop policies for the woodworking facility. This course may be taken a maximum of 2 times.

Transfer Credit: CSU

WMT 103 INTRODUCTION TO TABLES 4 UNITS

Class hours: 2.5 lecture/5.5 lab

Prerequisite: WMT 101 or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This intermediate course increases the student's skill in the use of hand tools, portable power tools, and machinery. Topics include project planning and implementation, wood technology, and hand and machine joinery as it pertains to table construction. Emphasis is placed on proper techniques, safety, and shop policies for the woodworking facility. This course may be taken a maximum of 2 times.

Transfer Credit: CSU

WMT 107 WOOD FINISHING 3 UNITS

Class hours: 2 lecture/4 lab

Prerequisite: None.

This course is designed to enable the student to understand the functions of equipment used in industrial finishing operations. The basic chemistry of lacquers, enamels, stains and glazes will be covered. Instruction and practice will include the use of brushes and the spray gun in coating various materials with emphasis on wood. This course may be taken a maximum of 2 times.

WMT 148 FURNITURE MAKING AND MANUFACTURING 4 UNITS

Class hours: 2 lecture/6 lab

Prerequisite: WMT 103 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Corequisite: None.

Recommendation: None.

This course teaches basic elements of production furniture design, prototype building, and product evaluation. The course acquaints the student with all phases of furniture production as a profession. Students design, build, and test market furniture samples from which items will be selected for manufacturing in the Production Furniture Making and Manufacturing course (WMT 24.8). This course may be taken a maximum of 4 times.

Transfer Credit: CSU

WMT 151 INTRODUCTION TO FACEFRAM CABINETMAKING 4 UNITS

Class hours: 2.5 lecture/5.5 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course introduces the student to the methods, materials, tools, and machinery used in the construction to traditional face-frame cabinetry. Classroom topics will include the history, design, fabrication, and safe use of woodworking machinery and materials involved in cabinet construction. This course may be taken a maximum of 4 times.

WMT 153 32MM SYSTEM OF CABINETMAKING 4 UNITS

Class hours: 2.5 lecture/5.5 lab

Prerequisite: WMT 151 or equivalent with a grade of Credit or "C" or higher.

In this course the student learns the foundational information and skills related to the 32mm system of cabinet manufacturing. It

includes review of the system with hands-on experience in product design and layout of boring patterns, including machine operation in building 32mm cabinets.
Transfer Credit: CSU

WMT 154 INTRODUCTION TO BACINET INSTALLATION **3 UNITS**

Class hours: 2 lecture/3 lab
Prerequisite: WMT 151 or WMT 153 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Corequisite: None

Recommendation: None

This course introduces the student to the methods, materials, fasteners, hardware and tools used to install residential, commercial and institutional cabinets. Classroom topics include reading of blueprints, layout, leveling, scribing, milling, fitting and fastening cabinets into place. A major emphasis will be on the safe use of tools and materials involved in cabinet installation. This course may be taken a maximum of 2 times.

Class hours: 3 lecture/1 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course introduces students to the CabinetWare® computer aided cabinet design and manufacturing program. Topics include utilization of the software to design and manufacture cabinets, details of design standards, variables, and parameters, as well as industry drawings, contract, proposals, materials, and cut lists. This course may be taken a maximum of 2 times.

Transfer Credit: CSU

WMT 201 WOODWORKING WITH HAND TOOLS **4 UNITS**

Class hours: 2.5 lecture/5.5 lab

Prerequisite: None.

Corequisite: None.

Recommendation: None.

This course introduces students to the hand tools used in woodworking. Topics include sharpening, tool identification, wood technology and hand plane adjustment for optimum performance. This course may be taken a maximum of 4 times.

WMT 202 ADVANCED SOLID WOOD CABINETRY **4 UNITS**

Class hours: 2.5 lecture/5.5 lab

Prerequisite: WMT 102, WMT 103 and WMT 201 or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This advanced course covers the design and building of museum quality solid wood cabinets. Topics include the aesthetics of design, making scale mockups, selection of grain and color to complement the design, and advanced joinery techniques. Coopering, bent laminating, and basic veneering are also covered. Emphasis is placed on the highest degree of workmanship and design. This course may be taken a maximum of 2 times.

Transfer Credit: CSU

WMT 203 WOOD VENEERING **3 UNITS**

Class hours: 2 lecture/4 lab

Prerequisite: WMT 102 or WMT 103 or equivalent with grades of credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This course introduces the student to the methods, materials, tools, and machinery used to process wood veneers. Topics include material identification, veneer selection, pattern layout, substrate selection, and clamping methods used to lay-up veneer on various types and shapes of substrates. This course may be taken a maximum of 2 times.

WMT 211 THE WORKBENCH CLASS **4 UNITS**

Class hours: 2 lecture/6 lab

Prerequisite: WMT 103 or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This course provides the student with the background and skills required to research, design, purchase materials, select hardware,

and manufacture a workbench. This course may be taken a maximum of 4 times.
Transfer Credit: CSU

WMT 212 ROUTERS AND ROUTER TABLES 4 UNITS

Class hours: 2 lecture/6 lab
Prerequisite: WMT 101 or WMT 151 or equivalent with a grade of Credit or "C" or higher.
Corequisite: None.
Recommendation: WMT 102 or WMT 103 or equivalent with a grade of Credit or "C" or higher.
In this course students will design and manufacture "The Ultimate Router Table." The router table is one of the most versatile and essential pieces of equipment for any woodworker. Course topics include comparison and evaluation of routers available on the market, design, construction, and use of jigs and fixtures. This course may be taken a maximum of 4 times.

WMT 218 POLYCHROMATIC AND CLOSED FORM TURNING 3 UNITS

Class hours: 1.5 lecture/4.5 lab
Prerequisite: WMT 101 and WMT 118 or equivalent with grades of Credit or "C" or higher.
Corequisite: None.
Recommendation: WMT 102 or WMT 103.
This advanced woodturning course is designed to enhance students' skills. Topics include polychromatic bowl construction, closed form vessel turning and other advanced skills. This course may be taken a total of 2 times.
Transfer Credit: CSU

WMT 219L WOODTURNING LAB 1 UNIT

Class hours: 4 lab
Prerequisite: WMT 101 and WMT 118 and WMT 218 or equivalent with grades of Credit or "C" or higher.
Corequisite: None.
Recommendation: WMT 102 or WMT 103.
This course allows students to perfect and hone skills acquired during previous woodturning courses. In this lab, students will design and construct woodturning projects of their choice that are relevant to the subject matter being taught during the same time period. This course may be taken a maximum of 6 times.
Transfer Credit: CSU

WMT 228L PROJECT COMPLETION LAB 2 UNITS

Class hours: 1 lecture/3 lab
Prerequisite: WMT 101 or WMT 151 and WMT 102 or WMT 103 or equivalent with grades of Credit or "C" or higher.
Corequisite: None.
Recommendation: None.
This course provides students with the necessary time and facility to continue working a project to completion. Instruction is project specific with emphasis on problem solving and detail. This course may be taken for a total of 4 times.
Transfer Credit: CSU

WMT 229L COMPREHENSIVE WOODWORKING MANUFACTURING SPECIALTY 2.5 UNITS

Class hours: 8 lab
Prerequisite: WMT 102 or WMT 103 or equivalent with a grade of Credit or "C" or higher.
Corequisite: None.
Recommendation: None.
This course allows students to perfect and hone skills acquired during previous comprehensive woodworking courses. In this lab, students will design and construct a project of their choice that is relevant to the subject matter being taught. This course may be taken a maximum of 4 times.

WMT 233 MORRIS CHAIR 4 UNITS

Class hours: 2.5 lecture/5.5 lab
Prerequisite: WMT 101, WMT 102 and WMT 103 or equivalent with grades of Credit or "C" or higher.
Corequisite: None.
Recommendation: None.
This course in furniture making will challenge and improve the student's skills through the manufacturing of a historical chair, the Morris chair. Hand tools, machinery and hand power tools are used in an advanced setting. Topics include planning, manufacturing, utilizing solid wood joinery, complex laminations, subassembly and final assembly as well as finishing. The class focuses on the history and design of the Morris Chair, the first recliner. This course may be taken a maximum of 4 times.
Transfer Credit: CSU

WMT 235 WINDSOR CHAIR 3 UNITS

Class hours: 2 lecture/3 lab
Prerequisite: WMT 118 and WMT 201 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience
Corequisite: None

Recommendation: None
This course will introduce the student to the materials, methods, and tools used to make and manufacture a reproduction of an eighteenth-century Windsor chair. Topics include layout, turning, bending, and shaping the various chair components, final assembly, and finishing of the chair. Emphasis is placed on the safe use of tools and materials used in the chair construction. This course may be taken a maximum of 2 times.

WMT 246 ROCKING CHAIR 4 UNITS

Class hours: 2.5 lecture/5.5 lab
Prerequisite: WMT 102, WMT 103, WMT 132 and WMT 201 or equivalent with grades of Credit or "C" or higher.
Corequisite: None.
Recommendation: WMT 130
This advanced furniture making course introduces the student to the methods, materials, tools and machinery used in the fabrication of a rocking chair. This course may be taken a maximum of 4 times.
Transfer Credit: CSU

WMT 248 PRODUCTION FURNITURE MAKING AND MANUFACTURING 4 UNITS

Class hours: 2 lecture/6 lab
Prerequisite: WMT 148 or equivalent with a grade of Credit or "C" or higher.
Corequisite: None.
Recommendation: None.
The course enables the students to work as a team in the manufacturing of a limited edition of student-designed furniture items for on-

campus use. The course includes all the steps from setting up a furniture plant to building a finished furniture product. This course may be taken a maximum of 4 times.

INTERMEDIATE FACEFRAME
CABINETMAKING 4 UNITS**

Class hours: 2.5 lecture/5.5 lab

Prerequisite: WMT 151 and WMT 181 or equivalent with grades of Credit or "C" or higher, or appropriate work experience.

Corequisite: None

Recommendation: None

In this course the student will review and learn additional methods, materials, tools, and machinery used in the design, manufacturing, and installation of face frame cabinetry. Classroom topics include the history, design, milling, assembly, and installation of face frame cabinetry. Students will work in teams to design, fabricate and install a complete set of kitchen cabinets. A major emphasis will be on production techniques and the safe use of woodworking machinery and materials involved in cabinetmaking and millwork. This course may be taken a maximum of 4 times.

Transfer Credit: CSU

**WMT 251
ADVANCED FACEFRAME
CABINETMAKING 4 UNITS**

Class hours: 2.5 lecture/5.5 lab

Prerequisite: WMT 250 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Corequisite: None.

Recommendation: None.

This course provides the student the opportunity to improve faceframe cabinetmaking skills by the use of tool and machinery specific to advanced faceframe cabinetmaking and millwork. Topics include inset door fabrica-

tion, coopered door construction, linen fold and other special panel detailing as well as applied mouldings, appliques and carvings. Students will fabricate a series of project samples for use in future advanced cabinet-making projects. This course may be taken a maximum of 4 times.

Transfer Credit: CSU

**WMT 252
INTERMEDIATE 32MM
SYSTEM CABINETMAKING 4 UNITS**

Class hours: 2.5 lecture/5.5 lab

Prerequisite: WMT 153 and WMT 181 or equivalent with grades of Credit or "C" or higher, or appropriate work experience.

Corequisite: None

Recommendation: WMT 281

In this course the student will review and learn additional methods, materials, tools, and machinery used in the design, manufacturing, and installation of European 32MM system cabinetry. Classroom topics include the history, design, milling, assembly, and installation of European 32MM system cabinetry. Students will work in teams to design, fabricate and install a complete set of European cabinets. A major emphasis will be on production techniques and the safe use of computerized numerical control panel processing machinery. This course may be taken a maximum of 4 times.

Transfer Credit: CSU

**WMT 253
ADVANCED 32MM SYSTEM
OF CABINETMAKING 4 UNITS**

Class hours: 2.5 lecture/5.5 lab

Prerequisite: WMT 252 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Corequisite: None.

Recommendation: None.

This course provides the student the opportunity to improve European 32MM system cabinetmaking skills by the use of tools and machinery specific to advanced 32MM system cabinetmaking and millwork. Topics include advanced boring patterns, inset door installation, coopered and radius door applications, and other special trim and filler detailing as well as applied mouldings, appliques and carvings. Students will fabricate a series of project samples for use with future advanced 32MM system cabinetmaking projects. This course may be taken a maximum of 4 times.

WMT 268C PRODUCTION CABINETMAKING AND MANUFACTURING (MASS PRODUCTION) 5 UNITS

Class hours: 4 lecture/4 lab

Prerequisite: WMT 151 or WMT 153 or equivalent with a grade of Credit or "C" or higher, or appropriate work experience.

Corequisite: WMT 250 or WMT 252

Recommendation: WMT 154, WMT 155, WMT 181

This course specializes in the fabrication and installation of mass production cabinetry, furniture products and millwork. Topics include material selection, product options, ergonomics, functionality and mass production construction applications. Students will also receive instruction in mass production systems, materials science, cost analysis, estimating, time management and building to industry standards. This course enables students to work as team in the design, manufacturing and installation of mass production cabinetry and fixtures for on-campus use. This class may be taken a maximum of 2 times.

Transfer Credit: CSU

WMT 269L CABINETMAKING MANUFACTURING SPECIALTY 2.5 UNITS

Class hours: 8 lab

Prerequisite: WMT 153 or WMT 155 or equivalent with a grade of Credit or "C" or higher.

This course allows students to perfect and hone skills acquired during previous cabinet-making courses. In this lab, students design and construct a cabinet project(s) that is relevant to the subject matter being taught during the same time period. This course may be taken a maximum of 4 times.

WMT 281 ADVANCED COMPUTER OPERATIONS FOR CABINETMAKING AND DESIGN 2.5 UNITS

Class hours: 2 lecture/2 lab

Prerequisite: WMT 181 or equivalent with a grade of Credit or "C" or higher.

Corequisite: None.

Recommendation: None.

This course provides the student with the advanced skills and knowledge required to better utilize cabinet manufacturing computer systems and software. Classroom topics will include cutting list development, panel opti-

mizing, job/cost estimating, and introduction to catalog writing for software customization. This course may be taken a maximum of 2 times.
