

MESSAGE FROM THE PRESIDENT

Welcome to the Fall 2001 semester and the start of another academic year!

The beginning of a new school year is always exciting, full of hope and anticipation, and expectations of things to come. And with that excitement there is always a bit of anxiety. If you are a new student you may be nervous about what college is going to be like, if you've chosen the right college and about whether or not you will be able to succeed. If you are a continuing student you may be concerned about getting the classes you need and the professors you want.

Well, with the start of the 2001-2002 school year, you and I share a lot. I am incredibly excited by the start of my first academic year as president of Cerritos College. I'm filled with anticipation and expectations of things to come. And like you I am anxious as well. I, too, wonder what Cerritos College will be like and I too want to be successful. I will tell you this though. I have no doubt about having chosen Cerritos College... and neither should you.

Whether you are a returning student or a new student, you need to know that you are attending one of the country's *great* community colleges, a college where students come first, where teaching and learning and student success matter most of all. You are coming to a college that values and honors its faculty, that respects its staff and that believes in creativity and innovation. You are coming to a college committed to being on the leading edge of technology and to being responsive to the needs of its community. What a great place to be going to school; what a great place to be working.

I hope you have a wonderful semester; I know that I plan to.

Jane M. Harmon, Ph.D.
President

MENSAJE DE LA PRESIDENTE

¡Bienvenidos al semestre de otoño del año 2001 y al comienzo de un nuevo año académico!

La iniciación de un nuevo año escolar siempre es emocionante, está llena de anhelos y aspiraciones así como de expectativas, y como resultado existe un poco de ansiedad. Si Ud. es un estudiante recién ingresado puede estar nervioso tratando de predecir cómo será el ambiente escolar; posiblemente se preguntará si Ud. habrá escogido el plantel educativo adecuado, y si Ud. tendrá éxito. Si Ud. está prosiguiendo sus estudios en este plantel, quizá esté preocupado por obtener las clases que Ud. necesita y por escoger a los profesores que Ud. prefiere.

En fin, con el comienzo del año escolar 2001-2002, Ud. y yo tenemos mucho en común. Yo estoy increíblemente emocionada al emprender mi primer año académico como la Presidente de Cerritos College. Estoy repleta de expectativas y aspiraciones; y yo como Ud. siento una gran ansiedad por los acontecimientos que vendrán. Yo también me pregunto cómo será Cerritos College; y yo al igual que usted deseo tener éxito. Le diré, sin embargo, que no he dudado al haber escogido Cerritos College... y Ud. tampoco debe tener duda alguna al respecto.

Ya sea que Ud. es un estudiante que regresa a las clases o un estudiante recién ingresado, Ud. necesita saber que está matriculado en uno de los **mejores** colegios comunitarios del país donde el estudiante es primero y donde la enseñanza, el aprendizaje y el éxito del estudiante es lo más importante. Ud. está asistiendo a un plantel educativo que valora y honra a su facultad; que respeta su personal y que cree en la creatividad y la innovación. Ud. está educándose en un colegio comunitario cometido a las últimas innovaciones tecnológicas y siempre listo a responder a las necesidades de la comunidad.

¡Qué lugar tan magnífico para asistir a clases; y qué lugar tan magnífico para trabajar!

Les deseo que tengan un semestre maravilloso; yo sé que el mío lo será.

Dra. Jane M. Harmon
Presidente

TEACHER TRAC TEAM

The faculty leadership of the Cerritos College Teacher TRaining ACademy (Teacher TRAC) was recently given the "Outstanding Leadership Award" at the Chair Academy's 10th Annual International Conference. The Teacher TRAC program at Cerritos College includes a partnership with California State University Long Beach that affords students the opportunity to complete a Bachelor's degree and multi-subject teaching credential in four calendar years. The students spend two years in the program at Cerritos, with a space waiting for them in the Integrated Teacher Education Program (ITEP) at CSULB. They complete their last two years in ITEP.

Seven Cerritos College professors from the Teacher TRAC program were sent to Tampa, Florida to receive the award earlier this year. Cerritos College was proud to have them receive such an honor.

KAREN WELLIVER

Cerritos College Women's Head Basketball Coach Karen Welliver recently earned her 400th career win. With the 400 career wins, Welliver moves into a very elite group of coaches who have led California Community College women's basketball teams reach this mark. This is a great accomplishment to the coach and the team.

Welliver, who has spent over 19 years coaching at Cerritos College, fondly remembers some classic games in the College's history. Welliver has seen seven former players go on to become coaches, while three of her previous assistant coaches have gone on to become coaches elsewhere. She has been approached about jobs at the four-year level, but has respectfully declined each time. She is happy at Cerritos College and enjoys working with the players and helping them advance in their education. As her coaching career continues, she could very well reach the 500 game-win mark and beyond.

KELLY KANG

Cerritos College student Kelly Kang was selected to the Phi Kappa All-California Academic Team. She will receive a full scholarship of \$5,000 per year for two years if she chooses to attend a CSU campus. This award covers fees, books, supplies and personal expenses.

Kang enrolled in three classes at Cerritos College after taking some time off to pursue her dream of becoming a fashion designer. She was tired of the cutthroat industry, and was adamant about pursuing her bachelor's degree. Now a business/accounting major, Kang hopes to eventually attend USC. She believes that perhaps one day she may open her own business, integrating her knowledge of fashion design with the newly acquired accounting skills. She is honored to have been selected to the Phi Theta Kappa All-California Academic Team.

ELIZABETH QUINTERO

Each year the Norwalk Woman's Club awards a scholarship to an outstanding female student who has recently re-entered college. This year's \$500 scholarship was awarded to Cerritos College student Elizabeth Quintero who was selected based upon her merits, future career goals, and an essay which she wrote explaining how the award could help her to achieve educational goals.

After graduating high school, Quintero enrolled in a trade school to become a medical assistant and worked for various specialty donors. The need to contribute to her parents' household income prevented her from returning to school for a few years. In 1996, however, she decided to return to school and study court reporting. She believes this change will benefit both her family and herself. The Norwalk Women's Club scholarship is greatly appreciated by Quintero and will be of assistance to her as she continues to strive toward her career goals.

GENERAL INFORMATION

REPEATING A COURSE

A student may repeat the same course **ONLY ONCE** for purposes of improving a substandard grade (“D,” “F,” or “NC”). Only the highest grade and grade points will be counted in computing the student's GPA. For any course repetition in what is otherwise a non-repeatable course, credit and grade points will be counted only once. Students may petition the Academic Records and Standards Committee for exceptions to this policy. Other courses which are designated in the catalog may be repeated as many times as the catalog indicates.

Exception: Certain classes are designated in the catalog and may be repeated for the maximum units indicated. See your counselor before repeating any class.

Please check the list of repeatable courses available at the Counseling station during registration. If you have an individual problem, check with one of the counselors on duty.

CREDIT/NO CREDIT CLASSES

Classes offered on a **Non-Optional** credit/no-credit basis only will be indicated on the student's permanent record as a “CR” grade (with unit credit) or an “NC” grade (and no units earned). This will not affect the student's grade point and **SHALL NOT** be considered as part of the 15 unit limit policy for the **Optional** credit/no-credit courses that are designed to encourage students to explore courses in areas they feel they may have an interest.

See page 128 for guidelines and a list of approved courses in each department.

OPEN ENTRY/OPEN EXIT CLASSES

All students should meet with the instructor as soon as possible after the start of the session to inquire about enrollment (unless otherwise noted). A student may enter these classes at any time during the session prior to the specific cut-off date for the individual classes. The courses may be completed within the session in whatever time is necessary for the student to finish the course requirements.

“HOLD” CLASSES

Some classes listed in the class schedule will be offered on a “hold” basis. This means that the class may be opened only if the other sections of the class are filled.

DIRECTED STUDIES

Any student interested in pursuing independent projects on an individual basis for one or two units should contact a faculty member to determine if he/she is available to sponsor a directed studies project. Students may enroll in these classes only through the second week and with the authorization to enroll in Directed Studies. Form must be signed by both the instructional dean and the faculty member conducting the Directed Studies.

WAITING LIST

As you register for classes, you may find that some are listed as “closed.” That means that these classes have a maximum number of students already enrolled and cannot accommodate more. In that event, you may add your name to a waiting list for that class. Students are added to classes to fill open spots. The waiting list provides guidance to the faculty member.

For many classes, seats become available as students change their schedules prior to the starting date of the class. This waiting list will go to the instructors to assist them in allocating open seats on the first day of class. You must appear on the first day of class to get one of these open seats. If accepted into the class, the instructor will give you a class availability card. Follow the directions printed on the card.

Students are limited to no more than four (4) wait lists. For example, a student may be on the wait list for:

TICKET #	COURSE		TICKET #	COURSE
2456	English	OR	2301	History 50
2506	Physics 2.2		2302	History 50
2411	Art 1		2303	History 50
2451	Electronics 10		2304	History 50

CLASS AVAILABILITY CARDS

Availability cards are required to enroll in a closed class.

1. If a student wishes to enroll in a closed class he/she must report to the class during the first half-hour of class and petition an availability card from the instructor. It must have the instructor's signature and ADD number which activates the card (number can only be used once).
2. Follow the directions printed on both sides of the Class Availability Card.
3. After you have added the class through the Touchtone system, keep your ADD card as receipt of this transaction.
4. All availability cards must be issued, activated, and processed by the last day of registration for the session.
5. You have five working days from the date of transaction to pay your fees or you will be dropped from the class.

WORK EXPERIENCE

Students may register for Cooperative Work Experience only through the second week of classes. Only a reduction of hours may be made after the first week.

ACADEMIC INFORMATION

WITHDRAWALS [TITLE V, SECTION 58004 (C) (3)]

Once students are enrolled, it is their responsibility to attend class and complete the course requirements. If it becomes necessary to withdraw, such students should petition for withdrawal by presenting a signed petition for withdrawal to the Admissions and Records Office. It is the responsibility of the instructor to withdraw a student who is no longer participating in a course. Cerritos Community College Board Policy 4104 (Attendance and Withdrawal)

Withdrawal from a class or classes shall be authorized through the last day of the 14th week of the semester (or 75% of a term, whichever is less). The academic record of a student who remains in a class beyond the date allowed for withdrawal must reflect a symbol as authorized in Title 5, Section 55757, other than a "W." A student who has a withdrawal ("W") in the same course two or more times, loses the privilege of priority registration for that course. Students may petition the Academic Records and Standards Committee for exemptions to this policy.

Deadline dates for students and instructor-initiated withdrawals are:

First nine-week session	September 28, 2001
Second nine-week session	December 4, 2001
Full session (18 weeks)	November 16, 2001
15-week intrasession	November 21, 2001

How to withdraw after registration ends:

1. Complete Change of Program form in the Admissions Office.
2. Submit form to Admissions clerk.
3. Report to Payroll/Fees Station in the Administration Building for printout.

Failure to withdraw may result in an "F" grade for each of the classes not dropped.

DIRECTORY INFORMATION

Cerritos College will not release personal data about students without their prior written consent except to persons and agencies authorized by law. The college may make an exception to legitimate inquiries, by providing general directory information to include: name • date and place of birth • major field of study • class level • dates of attendance • degrees and awards received • previous educational institutions attended • participation in officially recognized activities and sports • weight and height of members of athletic teams.

Currently enrolled students may withhold directory information by notifying the Vice President of Student Services in writing each term, within two weeks after the first day of instruction.

PROGRAM CHANGE PROCEDURES

Once the student's official program has been approved and a change in the program is necessary, the student must complete the following steps during registration:

1. Report to the Administration Building for Change of Program form.
2. Present completed form to the terminal operator for entry and validation. You will receive a new official program and receipt.
3. If the class is available, the terminal operator will enter the ticket number. If closed, an availability card must be obtained during the first week of the classes.

LEVEL/SECTION CHANGES

1. Program changes which involve level changes in skill and performance classes such as shorthand, typing, math, music, etc. may be made during the first week of the session.
2. The English Department, at its own discretion, will allow students to make level adjustments during the first week of day classes and during the first two weeks for extended day classes.
3. No level changes will be allowed in the Mathematics Department after the first two weeks of classes.
4. Students may make level change in Work Experience classes during the first week. Only a reduction of hours may be made after the first week.

NOTE: Level changes after the first week may be allowed with the consent of both instructors and approval by the instructional dean.

NOTE: Section changes may not be made between terms or semesters. A student may not drop a first six/eight week course and then enroll in a second six/eight week course by executing a section change. The student is required to officially drop the first six/eight week class and then pay the appropriate fees to be enrolled in the second six/eight week class. The money does not transfer from one term to the another.

LEARNING COMMUNITIES CLASSES

The Learning Communities Program (LCP) of Cerritos College is founded on the principle that acquiring knowledge demands social interaction. For this reason, the LCP seeks to nurture students within a community of learners and to engender a new culture of learning at Cerritos College. Specifically, the Learning Communities Program commits to three interdependent objectives. First, LCP validates that students' experiences and ideas are essential components to true learning. Second, this program illustrates that collaboration and sharing increases exponentially the process of true teaching. Third, the Learning Community Program of Cerritos College demonstrates that an interdisciplinary approach to teaching and learning best prepares individuals for the complexities of living successfully in the 21st century.

What is a Learning Community?

Enrolling in a Learning Community at Cerritos College means that you can complete your education program by linking two or more courses. Those who teach these courses assure that they combine the content so that learning becomes more relevant and easier for you. For example, you can be part of a learning community that combines English and history or math and economics. Equally important, by becoming part of the Learning Communities Program, you will have a great support network provided by your teachers, a counselor, and opportunities for various workshops and field trips. By combining learning, counseling, and social events, we want to increase your confidence and friendships. Each semester, the Learning Communities Program includes many linked or paired courses, courses that increase your fundamental skills and add to completion of your general education requirements. By registering for a Learning Community, you will be on the "Fast Track to Success."

What are the benefits of joining a Learning Community?

- Complete recommended basic skills courses
- Complete most of the transfer courses requirements
- Build a convenient class schedule
- Make friends in multiple classes with the same group of students
- Enjoy small group interaction
- Hear different points of view from more than one instructor
- Reinforce learning in one class while working on projects in the other
- Earn better grades

Learning Communities Program Withdrawal Policy

When a student enrolls in a group of two or more courses as part of a learning community, he or she **MUST MEET THE PREREQUISITE(S)**, if there are any, for **EACH** course in the combination. Students enrolled in one section of a course that is part of a learning community must be enrolled in all other courses in that group. If one course is dropped, the student **MUST** and **WILL BE DISENROLLED** from all other courses in that learning community. **THERE ARE NO EXCEPTIONS TO THIS POLICY.**

For more information contact the Learning Communities Program Coordinator at (562) 860-2451, extension 2778, or visit our web site at www.cerritos.edu/lcp/.

ATTENDANCE AND GRADING

ATTENDANCE

It is the responsibility of students to attend classes regularly and apply themselves to the college studies in which they are enrolled. When students have been absent due to illness, they should report to their instructor to explain the absence. When the hours of absence exceed one more than twice the number of class hours per week, the students are considered to be excessively absent and are subject to exclusion from class. Listed below are two types of absences which permit the making up of work missed, provided that the work is of such a nature that it can be made up.

1. **AUTHORIZED ABSENCE:** For an approved educational field trip or school activity.
2. **EXCUSED ABSENCE:** For illness, injury, or quarantine. **NO CREDIT WILL BE GIVEN FOR A CLASS IN WHICH A STUDENT IS NOT OFFICIALLY ENROLLED.** Students must attend the first class meeting or their names may be removed from the roll to allow another student seeking admission on an availability card to enter. If a student is unable to attend the first class meeting, the instructor must be notified.

DISMISSAL FROM CLASS OR COLLEGE

Excessive absences, unsatisfactory academic or progress achievement, undesirable citizenship, or falsification of information supplied to the Office of Admissions and Records shall serve as a basis for dismissal from a class or from the college.

GRADING

Accomplishment in course work is indicated by the following symbols:

Symbol	Definition	Grade Point
A	Excellent	4
B	Good	3
C	Satisfactory	2
D	Passing, less than satisfactory	1
F	Failing	0
CR	Credit (at least satisfactory, the equivalent of a "C;" units awarded not counted in GPA)	0
NC	No Credit (less than satisfactory or failing units not counted in GPA)	0
I	Incomplete	0
W	Withdrawal	0
RD*	Report Delayed	0

* The RD symbol is used when there is a delay in reporting the grade of a student due to circumstances beyond the control of the student. It is a temporary notation to be replaced by a permanent symbol as soon as possible. RD shall not be used in calculating grade point averages.

GRADE CHANGES

The determination of the student's grade by the instructor shall be final in the absence of mistake, fraud, bad faith, or incompetency. The correction of a grade given shall only be allowed for a request initiated within one year following the end of the term in which it was assigned.

Exceptions to the one-year limit on grade changes may be requested by petition of the student in extenuating circumstances. A formal petition must be submitted to the Academic Standards Committee. Extenuating circumstances are verified cases of accident, illness, or other circumstances beyond the control of the students (Title 5, Section 55760, Board of Trustees policy 12/8/92).

GRADING DEADLINES

Last day to apply for CR/NC grading option:

Full-term classes: September 19, 2001

Short-term classes: Before 30% of class has elapsed.

Last day to withdraw from class without notation on permanent record:

Full-term classes: September 7, 2001

Short-term classes: Before 30% of class has elapsed.

Withdrawal from class or college will result in a "W" grade recorded on permanent record beginning:

Full-term classes: September 10, 2001

Short-term classes: After 30% of class has elapsed.

Last day to withdraw from class or college:

Full-term classes: November 16, 2001 (Withdrawal after this date for extenuating circumstances only)*

Short-term classes: Before 75% of class has elapsed.

Deadlines are calculated from class beginning dates.

* See your instructor and instructional dean.

INCOMPLETE

Students are not to re-enroll for a course in which a grade of "I" has been recorded. Incomplete academic work for unforeseeable, emergency, and justifiable reasons at the end of the term may result in an "I" symbol being entered in the student's record. The condition for removal of the "I" shall be stated by the instructor in a written record. This record shall contain the conditions for removal of the "I" and the grade assigned in lieu of its removal. This record must be given to the student with a copy on file with the Admissions and Records Office until the "I" is made up or the time limit has passed. A final grade shall be assigned when the work stipulated has been completed and evaluated, or when the time limit for completing the work has passed. The "I" may be made up no later than one year following the end of the term in which it was assigned. The "I" symbol shall not be used in calculating units attempted nor for grade points. A student may petition for a time extension due to unusual circumstances by completing a petition form from the Admissions and Records Office.

TO ATTEND CERRITOS COLLEGE AS A VEYSEY STUDENT, YOU MUST TAKE THE FOLLOWING STEPS:

1. Complete and submit the Veysey form and admissions application to the college's Admissions Office.
2. Meet with a Cerritos College academic counselor and bring your high school transcripts if you are interested in taking a math course. An appointment can be made or walk-in counseling is available. The Counseling Center is located in the Administration Building.
3. If recommended by the counselor, take the English, reading and/or math test(s). You are strongly encouraged to call the Counseling Center to schedule a New Student Orientation Workshop.
4. Once you've met with a Cerritos College counselor and/or completed the Orientation Workshop, you will receive a Touchtone registration appointment.

ADMISSION OF MINORS

(Non-Veysey Eligible)

The College may admit as a part-time or full-time student in grades kindergarten through 10 (K-10) an advanced student who, in the opinion of the Dean of Academic Affairs and designated faculty and staff, may benefit from instruction to be taken.

This is not a remediation program. For example, if a student fails or does poorly in a particular course(s) at his/her school, Cerritos College is not an alternative institution through which deficiencies can be made up. The minors program for under-aged students is for advanced students who desire to take courses that are not available at their schools.

Students applying for admittance must meet the following criteria:

1. Submit an application for admission to Cerritos College, and;
2. Submit a completed special minors application form;
3. Enroll in 12 units or fewer, and;
4. Demonstrate the ability to benefit from more advanced scholastic or vocational work than is available in the K-10 setting as determined by the Dean of Academic Affairs and designated faculty and staff, and;
5. Be authorized to attend Cerritos College by the Public School District if the student attends public school;
6. Undertake courses of instruction of a scope and duration sufficient to satisfy the requirement of law.
7. Minor student must submit a completed Permission Letter for Special Minor Students (application only) each term or semester they wish to attend Cerritos College.
8. Veysey students and under-aged minors are exempt from per unit fees. Students who need accommodations due to a disability should make arrangements for these through their K-12 school district, in consultation with the DSP&S office at Cerritos College.

For more information regarding the Veysey program, contact the School Relations Office at x2130. To request a Veysey form and application for admission, please call (562) 653-7878.

With opportunities to simultaneously earn high school and college credit through the Veysey Program, local high school students are able to get an early start on their college career at Cerritos College. Shown at right, high school students enjoy yet another chance to visit Cerritos College, during Senior Preview Day. High School seniors were treated to workshops, demonstrations and a campus tour led by College Peer Counselors.

COURSE NUMBERING SYSTEM

Students who registered for the Fall 2000 semester discovered an easier method to identify, select and register for the right courses to fit their educational plan.

Beginning with the Fall 2000 Class Schedule, students found that all college courses have been renumbered. The renumbering system was adopted after studying other southland colleges who have participated in a similar process.

The following section will help returning students identify those classes that they have already taken, as well as those still necessary to achieve their individual educational goals.

COURSE DESIGNATION:1 - 49

These are renumbered on departmental courses which do not apply toward the Associates in Arts (A.A.) degree and which will not transfer as degree applicable to another community college or four-year college or university.

COURSE DESIGNATION:50 - 99

These courses apply toward the Associate in Arts (A.A.) degree, but are not intended for transfer to a four-year college or university.

COURSE DESIGNATION:100-299

These courses count toward the Associate in Arts (A.A.) degree and are intended for transfer to a four-year college or university. Freshman-level courses are generally given numbers from 100-199, and sophomore-level courses are generally given numbers from 200-299. Courses numbered 100 through 299 are intended as lower division transferable course work. The final decision in regards to transferability rest with the institution to which the credits are transferable.

Special Studies:	49	(non-degree Special Studies)
	69	(A.A. degree Special Studies)
	98	(1 unit Directed Studies)
	99	(2 units Directed Studies)
Directed Studies:	109	(transferable Special Studies)
	298	(1 unit Directed Studies)

Work Experience:	171	(1 unit Work Experience)
	172	(2 units Work Experience)
	273	(3 units Work Experience)

SEMI-INDEPENDENT SECTION MATH CLASSES (See *)					1073	2:00- 4:00 PM	MW	Baley	PS 14
All mathematics classes in LC110 are SEMI-INDEPENDENT CLASSES. These classes cover the same content as other mathematics courses, but use an entirely different method of instruction. Instead of attending regular lectures, students read and learn the material on their own. Tutorial assistance is provided Monday through Thursday 8:30 am - 9:00 pm and Friday 9:00 am - 4:00 pm. Students take exams according to a schedule given out the first day of class. There may also be mandatory sessions. These classes are recommended ONLY for students with a strong background in mathematics who are independent learners. For students who experience math anxiety or whose background in mathematics is not strong, we recommend enrolling in a traditional lecture class.					1074	3:00- 5:00 PM	MW	O'Neil	LH 3

INTERSEGMENTAL GENERAL EDUCATION TRANSFER CURRICULUM For Transfer to CSU and UC 2001-02

Completion of all of the requirements in the Intersegmental General Education Transfer Curriculum (IGETC) will permit a student to transfer from a community college to a campus in either the California State University or University of California system without the need, after transfer, to take additional lower-division general education courses.

It should be noted that completion of the IGETC is not a requirement for transfer to CSU or UC, nor is it the only way to fulfill the lower-division, general education requirements of the CSU or UC prior to transfer. Depending on a student's major or field of interest, the student may find it advantageous to take courses fulfilling the CSU's general education requirements or those of the UC campus or college to which the student plans to transfer.

The course requirements for ALL areas must be completed PRIOR to transferring to the CSU or UC in order for the IGETC to be certified. All courses must be completed with a grade of "C" or better. A student who has completed IGETC may have an official certification sent to a four-year institution upon written request by the student through the Office of Admissions and Records.

Note: Courses appearing in more than one category may be used to satisfy only one category. Such courses are marked with an *.

STATEMENT OF STUDENT RIGHTS AND RESPONSIBILITIES

PREAMBLE

The community college exists for the transmission of knowledge, the pursuit of truth, the development of students and the general well-being of society. Free inquiry and free expression are indispensable to the attainment of these goals. As members of the academic community, students should be encouraged to develop the capacity for critical judgment and to engage in a sustained and independent search for truth and knowledge.

Freedom to teach and freedom to learn are inseparable facets of academic freedom. The freedom to learn depends upon appropriate opportunities and conditions in the classroom, on the campus and in the larger community. Students should exercise their freedom with responsibility so as not to endanger the rights, goals and beliefs of other students.

Cerritos College should be open to all qualified students regardless of race, creed, national origin, disability or sex.

CLASSROOM RIGHTS AND RESPONSIBILITIES

The professor in the classroom and in conference should permit free discussion, inquiry and expression of thought by the student. Student performance should be evaluated solely on an academic basis, not on opinions or willingness to accept professors' personal beliefs, or conduct unrelated to academic standards. Students should be free to take reasoned exception to the data or views offered in any course of study for which they are enrolled and for maintaining standards of academic performance established for each course in which they are enrolled. The student has the right to have the course taught in a systematic, meaningful manner and of knowing at the beginning of the course those academic standards required of the student in the course.

Administrative staff and faculty members should respect confidential information about students such as student views, beliefs and political associations, which is acquired in the course of their work. Transcripts of academic records should contain only information about academic status.

ON THE CAMPUS RIGHTS AND RESPONSIBILITIES

Students should be free to examine and discuss all questions of interest to them, and express opinions publicly and privately. They should be free to organize and join associations to promote their common interests. The membership, policies and actions of a student organization will be determined by vote of only those persons who hold bona fide membership in that college organization. Campus advisors shall advise organizations in the exercise of their rights and responsibilities.

Student organizations shall be required to submit a statement of purpose, criteria for membership, rules of procedures, a current list of officers and the advisor shall certify the list of verified members. Campus organizations should be open to all students.

Student and student organizations should be free to support causes by orderly means which do not disrupt the regular and essential operation of the college. Student organizations shall have the right to recommend, invite and to hear any person of their own choosing as long as such speakers and topics are in accordance with federal, state and local laws, and guarantee the safety of students and protection of public property. Guest speakers invited by students or student organizations should be subjected only to those policies, requirements, and regulations as established by the Board of Trustees in order to insure an appropriate and meaningful contribution to the academic community. It should be made clear to the academic community and the larger community that the public expressions of students, student organizations and guest speakers speak only for themselves.

As constituents of the academic community, students should be free, individually and collectively, to express their views on issues of institutional policy, instruction, the evaluation of professors as it pertains to their course content and on matters of general interest to the student body.

IN THE LARGER COMMUNITY

College students are both citizens and members of the academic community. As citizens, students should enjoy the same freedom of speech, peaceful assembly and right of petition that other citizens enjoy. As citizens, they should be subject to civil law as others and may incur penalties prescribed by civil authorities when violating these laws. Only where the college's interest as an academic community are distinct and clearly involved should the special authority of the college be asserted.

STUDENT PUBLICATIONS

Student publications and the student press perform the traditional roles of informing, entertaining and influencing. They are both instructional and informational, and as such should meet the highest academic and professional standards in serving the broad college community and should set forth as the primary goal of the student newspaper the coverage of news events, happenings and experiences on the college campus.

Associated Student Body, administrative and academic authorities, in consultation with students and advisors have the responsibility to define and clarify the role of student publications, and the standards to be used in their evaluation.

They must also assure that both academic freedom and editorial freedom are protected and exercised so that the integrity of the student publications program and the free press will not be compromised.

It is incumbent upon student editors and managers to act according to the highest ethics of responsible journalism. This corollary responsibility includes careful adherence to the laws of libel and good taste, and such considerations as the avoidance of indecency, undocumented allegations, attacks on personal integrity, and the techniques of harassment and innuendo and should allow adequate space for rebuttal and differing views in regard to articles in which there is some controversy.

Safeguards to assure freedom of the student press with responsibility should include freedom from censorship or arbitrary control of the press, and protection of editors and managers from arbitrary attack, suspension, or removal because of disapproval of editorial policy or content by any external influence.

STUDENT SERVICES/POLICIES

STUDENT GRIEVANCE POLICY

In accordance with the Statement of Student Rights and Responsibilities, this policy describes the procedures by which a student(s) of Cerritos College may air his or her grievances as applied to and regarding academic, administrative, and instructional matters relating to students, and including, but not limited to, any grievance dealing with any certificated or management employee of Cerritos College.

A grievance shall herein be defined as any act depriving a student of any of the rights set forth in the statement of "Student Rights and Responsibilities," or any State, Federal, or local codes. Grades and grading grievances are not covered by this policy. Students should refer to "Grades or Grading Grievance Policy."

GRIEVANCE PROCEDURE:

STEP I – INFORMAL ACTION

- A. The student (or group of students), who believe that an injustice has been done to him (them), shall first attempt to resolve the complaint by informal discussion with the employee(s) involved.
- B. If the problem is not resolved in step 1-A, an informal discussion should take place with the person at the lowest level of authority directly above the person(s) at which the complaint is directed, where authority exists to take corrective action.
- C. If the grievant still believes the issue has not been resolved satisfactorily, they may obtain a student grievance form from the Office of Judicial Affairs. After completion of this form, specifying the time, place, nature of the complaint and remedy or correction requested, it should be submitted to the Coordinator of Judicial Affairs who will send a copy of the written statement to the ASCC Supreme Court Chief Justice and the Vice President of Academic Affairs. This statement must be submitted within thirty (30) school days after the grievant has become aware of the act or condition on which the complaint is based. A school day is defined as any day Monday through Friday that all normal college business is conducted, both in the classroom and in the administrative offices. All weekend and college holidays are excluded.
- D. The ASCC Supreme Court Chief Justice or Court designee shall attempt to resolve the problem through informal meeting and discussion among the pertinent parties while remaining neutral on all issues involved. This informal meeting and discussion will attempt to involve the levels of administration concerned with the problem and should be completed within ten (10) school days (school days is defined as a day when classes are held). In the event the informal procedure fails, then the formal procedure would be implemented.

STEP II – FORMAL ACTION

A. Preliminary

1. If the grievant does not believe the grievance has been resolved, then the grievant must request through the Chief Justice Step II-Formal Action. The Chief Justice upon receiving the request of the grievant shall call a meeting of the Student Grievance Hearing Committee. The Hearing Committee will be composed in the following manner:
 - (a) ASCC Chief Court Justice and two (2) Court Justices or designees. Vice President of Academic Affairs or administrative designee. Faculty Senate President or Senate designee. One (1) Faculty Senate member, chosen by the Faculty Senate.

2. The Chief Justice or designee shall serve as the Hearing Committee Chairman, but shall have no vote in committee decisions. The five voting members of the Hearing Committee shall be selected within the first six weeks of the school year. Names selected by the Faculty Senate, ASCC Senate, and ASCC Cabinet are to be submitted to the Chief Justice. Members of the Committee will serve for a school year.

3. The Vice President of Academic Affairs or Administrative designee shall serve as Hearing Committee Executive Secretary. The Executive Secretary, a voting member of the committee, shall be responsible for keeping necessary records of committee hearings and assist the ASCC Chief Court Justice in the conduct of the hearing.

4. Grievance Committee members are to deal with all grievances in a confidential manner, except when both parties agree to a public hearing.

B. Formal Hearing

The Hearing Committee shall conduct its proceedings according to the following procedures:

1. The Hearing Committee must meet within ten (10) school days after informal action has been completed and grievant has requested formal hearing.
2. The Chairman must notify both parties involved within five (5) school days before the hearing along with the written complaint, a copy of Statement of Student Rights and Responsibilities, and copy of the Grievance Policy.
3. Four (4) members shall constitute a quorum by which business may proceed. The quorum must include at least one student member, one faculty member, and one administrative member.
4. Both parties shall have the right to present personal statements, testimony, evidence, and witnesses. Each party shall have the right to be present, to be accompanied by the person of his choice, and to question witnesses who are present.
5. The Hearing Committee shall discuss the charge, hear the testimony, examine the witnesses, and receive all available evidence to the charge.
6. The hearing shall be closed to the public unless otherwise agreed upon in writing by both parties.
7. The Hearing Committee shall make decisions in private. The Hearing Committee shall write up findings and decisions. Copies of findings and decisions, including majority and minority reports, are to be sent to each party and the College President. The Hearing Committee's decision shall be final unless appealed.
8. A recording of the proceedings shall be kept in a confidential file in the Office of Judicial Affairs and shall be available at all times to parties directly involved. All documents, communications, and records dealing with the processing of a grievance will be filed separately from the personnel files of the participants. After a period of four years, the grievance file shall be destroyed.
9. Reprisals of any kind will not be taken by the Board of Trustees or any of its agents against any party of interest or any other participant in the grievance procedure by reason of such participation.
10. Evidence and testimony given in each case presented shall not be the sole cause of initiating or filing further grievances.

STUDENT SERVICES/POLICIES

11. If the grieved party does not respond within the time limits defined herein, the grievance is considered terminated and no further action will be taken.
12. The number of working days indicated at each step here in should be considered a maximum and every effort must be made to expedite the process. Time limits may be extended by mutual consent in writing or by decision of the Hearing Committee.
13. The Hearing Committee should attempt to reach a decision by discussion and consensus on a workable solution. Voting should be a last course of action.
14. If in the course of the proceedings, a student graduates before a solution is found, the student shall not be denied full consideration under this policy. A student may also submit a grievance after graduation if the grievance did not become known until that time.

STEP III - APPEALS PROCESS

1. If either party is dissatisfied with the recommendation of the Hearing Committee, he/she may appeal within ten (10) school days to the College President/Superintendent provided the President is not a party to the grievance. If the President is a party to the grievance, and either party is dissatisfied with the recommendation of the Hearing Committee, an appeal may be submitted directly to the Board of Trustees.
2. Upon receiving the findings and recommendations of the Hearing Committee, and after examination of the appeal as requested by either party, the President may accept or reject the Committee's decision.
3. If the President rejects the Committee's decision, he shall submit his decision with the stated reasons for his objections to the Hearing Committee within ten (10) school days. The Hearing Committee shall within five (5) school days reconsider its decisions and resubmit them to the President for his final decision.
4. The President shall transmit his final decision to both parties and the Faculty Senate vice chairman or designee within five (5) school days.
5. An appeal of the President's decision may be submitted to the Board of Trustees by either party. If unresolved, the appeal must be submitted within ten (10) school days after the President's decision. The Board may review an appeal for two (2) consecutive Board meetings before making a final determination of the matter at the college level.
6. The President or Board of Trustees may change the Committee's decision only after reviewing a transcription of the hearing.

The California Education Code, Section 76224, quoted below, states clearly the conditions upon which grades or grading can be questioned.

"When grades are given for any courses of instruction taught in a community college district, the grade given to each student shall be determined by the instructor of the course and the determination of the student's grade by the instructor, in the absence of mistake, fraud, bad faith, or incompetence, shall be final."

GRIEVANCE PROCEDURE

STEP I

A student who believes the grade received was due to mistake, fraud, bad faith, or incompetence shall meet with the faculty member to resolve his/her concern.

STEP II

1. The student will obtain grade/grievance forms from the Office of Judicial Affairs.

3. The Coordinator of Judicial Affairs will meet with the student and review the grade grievance form. If the student wishes to pursue the grievance, the Coordinator of Judicial Affairs will sign and date the form.
4. The student will present a copy of the grievance to the Division Instructional Dean. The Instructional Dean may schedule a meeting of all concerned if appropriate. The Instructional Dean should schedule a meeting only if the form has the signature of the Coordinator of Judicial Affairs and is dated. The Division Instructional Dean shall make a recommendation to the parties within five (5) school days.

STEP III

If either party is dissatisfied with the recommendation of the Instructional Dean, he/she may appeal the matter to the Vice President of Academic Affairs or designee within ten (10) school days of each recommendation. The Vice President of Academic Affairs or designee shall call a meeting with the student, the ASCC Chief Court Justice, Division Instructional Dean, and if needed, the faculty member. The Vice President of Academic Affairs or designee shall make a recommendation to the parties within five (5) school days.

STEP IV

If either party is dissatisfied with the recommendation of the Vice President of Academic Affairs, he/she may appeal the matter to the President of the College within ten (10) school days of such recommendation. If a faculty member is dissatisfied with a recommendation and neither acts on it, nor appeals it, the Vice President of Academic Affairs will forward the matter to the President. The President will review the Recommendation Report and if needed, request persons involved in the grievance to meet.

The President shall make a recommendation within five (5) school days. If either party is dissatisfied with the recommendation of the President, an appeal of the President's recommendation may be submitted to the Board of Trustees by either party. The appeal must be submitted within ten (10) school days after the President's recommendation. An individual may also file a complaint directly with the Office of Civil Rights.

Complaint Procedure

The complaining party should first discuss the complaint with the individual (s) involved or with the Cerritos College Section 504/ADA Coordinator, Robert Hughlett, (562) 860-2451, ext.2334 or by e-mail at hughlett@cerritos.edu, or Cynthia Convey, the Interim Director of Personnel Services at ext. 2283. The 504/ADA Coordinator will contact all parties concerned and attempt to reach some resolution of the problem. If the complaint cannot be formally resolved within ten working days, the complaining party may then proceed to file a formal complaint. The informal complaint procedure is optional.

ACADEMIC HONESTY/DISHONESTY POLICY

Your instructors are eager to help you succeed in your studies at Cerritos College. But success means more than just receiving a passing grade in a course. Success means that you have mastered the course content so that you may use that knowledge in the future, either to be successful on a job, or to continue on with your education in advanced classes.

Your success depends on a combination of the skill and knowledge of your instructors, and your own hard work. You will reach your future goals only if you gain new knowledge from every course you take. That knowledge becomes yours, and can be used by you, only if it is gained through your own personal efforts. Receiving a grade in a course, without acquiring the knowledge that goes with it, diminishes your chances for future success.

While in college, you are also shaping the principles which will guide you throughout the rest of your life. Ethical behavior and integrity are a vital part of those principles. A reputation for honesty says more about you, and is more highly prized, than simply your academic skills.

For that reason, academic honesty is taken very seriously by the Cerritos College faculty. The following guidelines have been prepared so that you will understand what is expected of you in maintaining academic honesty.

Academic Dishonesty is normally to be dealt with as an academic action by the instructor, reflected in the student's grade in the particular course, rather than through college disciplinary procedures. No specific

STUDENT SERVICES/POLICIES

departmental, divisional or institutional procedures are established for academic dishonesty other than the normal process for review and appeal of an instructor's grading procedures.

Academic Dishonesty is defined as the act of obtaining or attempting to obtain credit for work by the use of any dishonest, deceptive or fraudulent means. Examples of academic dishonesty would include, but not be limited to the following:

- Copying, either in part or in whole, from another's test or examination;
- Discussion of answers or ideas relating to the answers, on examination or test when such discussion is prohibited by the instructor;
- Obtaining copies of an exam without the permission of the instructor;
- Using notes, "Cheat sheets," or otherwise utilizing information or devices not considered appropriate under the prescribed test conditions;
- Altering a grade or interfering with the grading procedures in any course;
- Allowing someone other than the officially enrolled student to represent the same;
- Plagiarism, which is defined as the act of taking the ideas, words or specific substantive material of another and offering them as one's own without giving credit to the source.

Options may be taken by the faculty member to the extent that the faculty member considers the cheating or plagiarism to manifest the student's lack of scholarship or to reflect on the student's lack of academic performance in the course. One or more of the following actions are available to the faculty member who suspects a student has been cheating or plagiarizing:

1. Review-no action.
2. An oral reprimand with emphasis on counseling toward prevention of further occurrences.
3. A requirement that work be repeated.
4. A reduction of the grade earned on the specific work in question, including the possibility of no credit for the work.
5. A reduction of the course grade as a result of item 4 above, including the possibility of a failing grade for the course.
6. Referral to the Office of Judicial Affairs for further administrative action, such as suspension or expulsion.
