

MESSAGE FROM THE PRESIDENT

Spring is often a time of new growth and development. Whether you are a first-time student at Cerritos or returning to complete another semester, I trust you will find this spring semester a time of growth and development.

This is my first time welcoming you to a new semester as president of the college, and I hope that you find the Spring 2003 semester to be your best yet. It is my goal to help you attain the goals you have set for yourself here at Cerritos College.

May this spring find you excited for a new semester as you strive to excel in your classes. Thank you for giving us the privilege of equipping you to have an impact in your community.

Good luck this semester,

PROJECT HOPE AT CERRITOS

Cerritos College was recently awarded one of only 33 Department of Education Title V Grants aimed at developing institutions where at least 25 percent of the population is Hispanic. The grant amount is over \$2.1 million (\$2,126,774) for a five-year period.

The Grant will be used to fund Project HOPE (Health Opportunities and Pipeline to Education), a program aimed at reversing the under representation of Latinos in health professions. The Project, led by the Director of Adult Education and Diversity Programs, Graciela Vasquez, aims to create an academic pipeline making it easier for minority students to succeed in such a competitive field. This pipeline would include expanded student services, targeted counseling, family involvement, peer and professional mentoring, as well as an academic road map.

“Project HOPE will provide additional opportunities to examine the issue of student success – particularly as it relates to Latinos and other under represented populations,” said Graciela Vasquez, Title V Grant director. “Student success has always been a priority at Cerritos College.”

In 1998 only 4.8 percent of physicians were Latino, whereas 30.4 percent of the population was Latino. In an article entitled “Latinos Lag in Earning College Degrees,” the Los Angeles Times reported that:

- Only 46.4 percent of Latino college students who were enrolled in higher education attended four-year bachelors or graduate programs as opposed to 58.2 percent of African-Americans, 63.3 percent of whites and 72.4 percent of Pacific Islanders and Asians.
- The high school dropout rate for Latinos is 27.8 percent as opposed to only 6.9 percent of whites.
- Only 16.4 percent of Latino high school graduates 25 to 29-years-old hold bachelors or graduate degrees, compared to 36.5 percent of whites.

The goal of Project HOPE is to change these statistics and to allow Latino students to become leaders in academic excellence. The Project will also benefit the local community by increasing the number of students entering the health field. It will also raise community awareness of community health professionals sensitive to community needs.

Project HOPE will give Cerritos College the opportunity to make a difference in both the lives of students and in the community at large. For more information about Project Hope, please contact Graciela Vasquez at (562) 860-2451 extension 2490.

GENERAL INFORMATION

REPEATING A COURSE

A student may repeat the same course ONLY ONCE for purposes of improving a substandard grade ("D," "F," or "NC"). Only the highest grade and grade points will be counted in computing the students GPA. For any course repetition in what is otherwise a non-repeatable course, credit and grade points will be counted only once. Students may petition the Academic Records and Standards Committee for exceptions to this policy. Other courses which are designated in the catalog may be repeated as many times as the catalog indicates.

Exception: Certain classes are designated in the catalog and may be repeated for the maximum units indicated. See your counselor before repeating any class.

Please check the list of repeatable courses available at the Counseling station during registration. If you have an individual problem, check with one of the counselors on duty.

CREDIT/NO CREDIT CLASSES

Classes offered on a Non-Optional credit/no-credit basis only will be indicated on the students permanent record as a "CR" grade (with unit credit) or an "NC" grade (and no units earned). This will not affect the students grade point and SHALL NOT be considered as part of the 15 unit limit policy for the Optional credit/no-credit courses that are designed to encourage students to explore courses in areas they feel they may have an interest.

See page 21 for guidelines and a list of approved courses in each department.

OPEN ENTRY/OPEN EXIT CLASSES

All students should meet with the instructor as soon as possible after the start of the session to inquire about enrollment (unless otherwise noted). A student may enter these classes at any time during the session prior to the specific cut-off date for the individual classes. The courses may be completed within the session in whatever time is necessary for the student to finish the course requirements.

"HOLD" CLASSES

Some classes listed in the class schedule will be offered on a "hold" basis. This means that the class may be opened only if the other sections of the class are filled.

DIRECTED STUDIES

Any student interested in pursuing independent projects on an individual basis for one or two units should contact a faculty member to determine if he/she is available to sponsor a directed studies project. Students may enroll in these classes only through the second week and with the authorization to enroll in Directed Studies. Form must be signed by both the instructional dean and the faculty member conducting the Directed Studies.

WAITING LIST

As you register for classes, you may find that some are listed as "closed." That means that these classes have a maximum number of students already enrolled and cannot accommodate more. In that event, you may add your name to a waiting list for that class. Students are added to classes to fill open spots. The waiting list provides guidance to the faculty member.

For many classes, seats become available as students change their schedules prior to the starting date of the class. This waiting list will go to the instructors to assist them in allocating open seats on the first day of class. You must appear on the first day of class to get one of these open seats. If accepted into the class, the instructor will give you a class availability card. Follow the directions printed on the card.

Students are limited to no more than four (4) wait lists. For example, a student may be on the wait list for:

TICKET #	COURSE		TICKET #	COURSE
2747	English 100	OR	2930	History 101
1441	Physics 102		2931	History 101
2088	Art 101		2932	History 101
2683	Electronics 110		2933	History 101

CLASS AVAILABILITY CARDS

Availability cards are required to enroll in a closed class.

1. If a student wishes to enroll in a closed class he/she must report to the class during the first half-hour of class and petition an availability card from the instructor. It must have the instructor's signature and ADD number which activates the card (number can only be used once).
2. Follow the directions printed on both sides of the Class Availability Card.
3. After you have added the class through the Touchtone system, keep your ADD card as receipt of this transaction.
4. All availability cards must be issued, activated, and processed by the last day of registration for the session.
5. You have five working days from the date of transaction to pay your fees or you will be dropped from the class.

WORK EXPERIENCE

Students may register for Cooperative Work Experience only through the second week of classes. Only a reduction of hours may be made after the first week.

DISCLAIMER

Cerritos College has made every reasonable effort to determine that everything stated in the class schedule is accurate. Class sections offered together with other matters contained herein, are subject to change without notice by the administration of Cerritos College for reasons related to student enrollment, level of financial support or for any reason, at the discretion of the College. The college further reserves the right to add, amend, or repeal any of the rules, regulations, policies and procedures, consistent with applicable laws. With some programs, portions of some classes may be assigned to instructors other than those identified in this schedule. Fees are subject to change by the Board of Trustees or the State of California.

ATTENDANCE AND GRADING

ATTENDANCE

It is the responsibility of students to attend classes regularly and apply themselves to the college studies in which they are enrolled. When students have been absent due to illness, they should report to their instructor to explain the absence. When the hours of absence exceed one more than twice the number of class hours per week, the students are considered to be excessively absent and are subject to exclusion from class. Listed below are two types of absences which permit the making up of work missed, provided that the work is of such a nature that it can be made up.

1. **AUTHORIZED ABSENCE:** For an approved educational field trip or school activity.
2. **EXCUSED ABSENCE:** For illness, injury, or quarantine. **NO CREDIT WILL BE GIVEN FOR A CLASS IN WHICH A STUDENT IS NOT OFFICIALLY ENROLLED.** Students must attend the first class meeting or their names may be removed from the roll to allow another student seeking admission on an availability card to enter. If a student is unable to attend the first class meeting, the instructor must be notified.

DISMISSAL FROM CLASS OR COLLEGE

Excessive absences, unsatisfactory academic or progress achievement, undesirable citizenship, or falsification of information supplied to the Office of Admissions and Records shall serve as a basis for dismissal from a class or from the college.

GRADING

Accomplishment in course work is indicated by the following symbols:

Symbol	Definition	Grade Point
A	Excellent	4
B	Good	3
C	Satisfactory	2
D	Passing, less than satisfactory	1
F	Failing	0
CR	Credit (at least satisfactory, the equivalent of a "C;" units awarded not counted in GPA)	0
NC	No Credit (less than satisfactory or failing units not counted in GPA)	0
I	Incomplete	0
W	Withdrawal	0
RD*	Report Delayed	0

* The RD symbol is used when there is a delay in reporting the grade of a student due to circumstances beyond the control of the student. It is a temporary notation to be replaced by a permanent symbol as soon as possible. RD shall not be used in calculating grade point averages.

GRADE CHANGES

The determination of the student's grade by the instructor shall be final in the absence of mistake, fraud, bad faith, or incompetency. The correction of a grade given shall only be allowed for a request initiated within one year following the end of the term in which it was assigned.

Exceptions to the one-year limit on grade changes may be requested by petition of the student in extenuating circumstances. A formal petition must be submitted to the Academic Standards Committee. Extenuating circumstances are verified cases of accident, illness, or other circumstances beyond the control of the students (Title 5, Section 55760, Board of Trustees policy 12/8/92).

INCOMPLETE

Students are not to re-enroll for a course in which a grade of "I" has been recorded. Incomplete academic work for unforeseeable, emergency, and justifiable reasons at the end of the term may result in an "I" symbol being entered in the student's record. The condition for removal of the "I" shall be stated by the instructor in a written record. This record shall contain the conditions for removal of the "I" and the grade assigned in lieu of its removal. This record must be given to the student with a copy on file with the Admissions and Records Office until the "I" is made up or the time limit has passed. A final grade shall be assigned when the work stipulated has been completed and evaluated, or when the time limit for completing the work has passed. The "I" may be made up no later than one year following the end of the term in which it was assigned. The "I" symbol shall not be used in calculating units attempted nor for grade points. A student may petition for a time extension due to unusual circumstances by completing a petition form from the Admissions and Records Office.

CREDIT/NO-CREDIT CLASSES

The option to enroll in a credit/no-credit class is designed to encourage students to explore courses in areas they may feel they have an interest. Only these courses listed specifically for credit/no-credit may be taken on this basis. Units thus earned will be counted toward the A.A. degree, but will be disregarded in determining the student's grade point average.

Courses approved for credit/no-credit will be indicated on the student's permanent records as "CR" with units earned and no grade points; or "NC" with no units earned and no grade points. Units attempted for which "NC" is recorded shall be considered in probation and dismissal procedures. The student is required to take all tests, complete all assignments, and shall be subject to all withdrawal and attendance regulations. Standards of evaluation are identical for all students.

Optional Credit/No-Credit Classes

The student shall petition for an optional credit/no-credit course through the Admissions and Records Office. The student may take no more than two courses per semester on a credit/no-credit basis. The approval for such a class must be no later than the end of the first 30% of the term. There is no provision for rescinding an approved petition for credit/ no credit.

CREDIT BY EXAM CLASSES

Occasionally a student may feel that he/she can earn credit for a certain course by taking a special examination. The student may have gained proficiency through work experience, travel, or independent study. In these cases, a student may petition to receive unit credit by taking an exam prepared by the department. For more information, contact your counselor.

The Foreign Language Department will give all Credit by Examination petitioners the exam for first and second semester Foreign Language courses on Friday, January 31,2003. Photo ID is required. The review for the Spanish exam will take place on Friday, February 7, 2003. No petitions will be accepted after January 31, 2003. VEYSEY PROGRAM/MINORS

COLLEGE COURSES FOR HIGH SCHOOL STUDENTS

The Veysey program represents a cooperative venture between Cerritos College and its neighboring high schools. Under the terms of this program, juniors and seniors at least 16 years of age may take college courses to supplement their high school education.

Taking these courses allows you to get a headstart on a four-year college degree; get a headstart on a two-year occupational program; become familiar with college life and work before entering college full-time; and, explore the courses in a variety of majors.

To participate in the Veysey program, a high school student must be at least 16 years of age and have completed his/her sophomore year by the first day of class offered at Cerritos College. You may enroll in courses and receive college credit, but you also must attend a minimum day at your high school. If the high school and postsecondary institution agree, the credit may be counted for both. Students enrolled as part of the Veysey Program pay no enrollment fee (with the exception of health and student I.D. fees). In addition, several local high schools offer Cerritos College courses at the high school. Check with your counselor for the courses that may be offered at your school.

Students who need accommodations due to a disability should make arrangements for these through their K-12 school district, in consultation with the DSP&S office at Cerritos College.

TO ATTEND CERRITOS COLLEGE ASA VEYSEY STUDENT, YOU MUST TAKE THE FOLLOWING STEPS:

1. Complete and submit the Veysey form and admissions application to the college's Admissions Office.
2. Meet with a Cerritos College academic counselor and bring your high school transcripts if you are interested in taking a math course. An appointment can be made or walk-in counseling is available. The Counseling Center is located in the Administration Building.
3. If recommended by the counselor, take the English, reading and/or math test(s). You are strongly encouraged to call the Counseling Center to schedule a New Student Orientation Workshop.
4. Once you've met with a Cerritos College counselor and/or completed the Orientation Workshop, you will receive a Touchtone registration appointment.

For more information regarding the Veysey program, contact the School Relations Office at x2130. To request a Veysey form and application for admission, please call (562) 653-7878.

With opportunities to simultaneously earn high school and college credit through the Veysey Program, local high school students are able to get an early start on their college career at Cerritos College.

ADMISSION OF MINORS

(Non-Veysey Eligible)

The College may admit as a part-time or full-time student in grades kindergarten through 10 (K-10) an advanced student who, in the opinion of the Dean of Academic Affairs and designated faculty and staff, may benefit from instruction to be taken.

This is not a remediation program. For example, if a student fails or does poorly in a particular course(s) at his/her school, Cerritos College is not an alternative institution through which deficiencies can be made up. The minors program for under-aged students is for advanced students who desire to take courses that are not available at their schools.

Students applying for admittance must meet the following criteria:

1. Submit an application for admission to Cerritos College, and;
2. Submit a completed special minors application form;
3. Enroll in 12 units or fewer, and;
4. Demonstrate the ability to benefit from more advanced scholastic or vocational work than is available in the K-10 setting as determined by the Dean of Academic Affairs and designated faculty and staff, and;
5. Be authorized to attend Cerritos College by the Public School District if the student attends public school;
6. Undertake courses of instruction of a scope and duration sufficient to satisfy the requirement of law.
7. Minor student must submit a completed Permission Letter for Special Minor Students (application only) each term or semester they wish to attend Cerritos College.
8. Veysey students and under-aged minors are exempt from per unit fees.

Students who need accommodations due to a disability should make arrangements for these through their K-12 school district, in consultation with the DSP&S office at Cerritos College.

DIAMOND IN THE ROUGH

The Diamond In The Rough Program is designed to assist students that intend to transfer to a four-year college or university. Critical thinking and problem solving are key skills that students must develop to achieve success in college. With this in mind, the program will help students achieve mastery in critical thinking and problem solving so they can meet the English and mathematics requirements for transfer. Instructional materials in both classes will provide students with information that will reduce their anxiety about writing and math. Emphasis will be placed on helping students develop and maintain collaborative working groups as one way of reducing their anxiety and improving their skills in math and writing. Additional instructional materials, in the English class, will include a focus on literature by and about authors from diverse ethnic backgrounds. A counseling component is also part of the program. Students must meet with the Dean of Academic Affairs prior to their acceptance in the program and routinely during their participation in the program. This is a two-semester program that requires successful completion of English 100, Math 60, English 103, and Math 80.

Another goal of the program is to help students develop a strong foundation in math so that they can successfully complete Math 114. Math 114 is the course that transfer students can complete if they are not majoring in Mathematics or Physical Science.

The Diamond In The Rough Program is open to all students who meet the program prerequisites. The English and mathematics courses will be paired, and students must be enrolled concurrently during the two-semester program. If it becomes necessary to drop the English course, students will also be dropped from the math course.

The course sequence for the program is described below:

SPRING 2003

English 103 (Critical and Argumentative Writing)

Math 80 (Intermediate Algebra)

FALL 2003

Math 114 – College Algebra

In order to participate in *The Diamond In The Rough Program* students must submit an application to the Dean of Academic Affairs. Thirty (30) students will be selected to participate in the program as it continues in the Spring 2003 semester.

The deadline for applying for the program is Monday, January 6, 2003. For more information about *The Diamond In The Rough Program*, please contact Dr. Adolph Johnson Jr., Dean of Academic Affairs at (562) 860-2451, extension 2228.

PACE PROGRAM

Continuing in the Fall 2003 semester, Cerritos College will offer a PACE Program (Program for Adult College Education). The purpose of this program is to make earning an Associate in Arts degree or transfer to a university more accessible to adults who have family, work, and other responsibilities. Classes are taught in an accelerated educational format so working adults can achieve their academic goals while meeting the demands of their busy schedules. Classes will meet one evening per week, (Fridays) and all day on Saturdays.

While the traditional semester lasts for 18 weeks, you can complete most PACE classes in nine-week modules. When you enroll in two classes every nine weeks, you can complete 12 units per semester!

What if you haven't been to college before or have been out of school for a long time?

Applications will only be available at these sessions. The application priority-filing deadline is Friday, June 6, 2003, and the final application deadline is Thursday, July 31, 2003.

You must not have taken any of the courses listed on the PACE curriculum, unless you have earned a substandard grade (D or F) or you are willing to retake the class. (No more than three classes may be repeated.) If you have not taken any of the required courses in the PACE curriculum you are eligible to apply for the program.

Program enrollment is limited and begins each Fall semester. For more information about the Cerritos College PACE Program, please contact Renée DeLong Chomiak, CalWORKs/PACE Coordinator, at (562) 860-2451, extension 2597.

LEARNING COMMUNITIES CLASSES

The Learning Communities Program (LCP) of Cerritos College is founded on the principle that acquiring knowledge demands social interaction. The Learning Communities program is open to all students, providing that they meet the individual course prerequisites. The LCP seeks to nurture students within a community of learners and to engender a new culture of learning at Cerritos College. Specifically, the Learning Communities Program commits to three interdependent objectives. First, LCP validates that students' experiences and ideas are essential components to true learning. Second, this program illustrates that collaboration and sharing increases exponentially the process of true teaching. Third, the Learning Community Program of Cerritos College demonstrates that an interdisciplinary approach to teaching and learning best prepares individuals for the complexities of living successfully in the 21st century.

What is a Learning Community?

Enrolling in a Learning Community at Cerritos College means that you can complete your education program by linking two or more courses. Those who teach these courses assure that they combine the content so that learning becomes more relevant and easier for you. For example, you can be part of a learning community that combines English and history or math and economics. Equally important, by becoming part of the Learning Communities Program, you will have a great support network provided by your teachers, a counselor, and opportunities for various workshops and field trips. By combining learning, counseling, and social events, we want to increase your confidence, friendships, and academic success. Each semester, the Learning Communities Program includes many linked or paired courses, courses that increase your fundamental

skills and add to completion of your general education requirements. By registering for a Learning Community, you will be on the "Fast Track to Success."

What are the benefits of joining a Learning Community?

- Complete recommended basic skills courses.
- Complete most of the transfer courses requirements.
- Build a convenient class schedule.
- Get to know people in multiple classes.
- Enjoy and benefit from small group interaction.
- Hear different points of view and course content links from more than one instructor.
- Reinforce learning in one class while working on projects in the other.
- Earn better grades.

Learning Communities Program Withdrawal Policy

When a student enrolls in a group of two or more courses as part of a learning community, he or she **MUST MEET THE PREREQUISITE(S)**, if there are any, for **EACH** course in the combination. Students enrolled in one section of a course that is part of a learning community must be enrolled in all other courses in that group. Labs must be taken with lecture. If one course is dropped, the student **MUST** and **WILL BE DISENROLLED** from all other courses in that learning community. **THERE ARE NO EXCEPTIONS TO THIS POLICY.**

For more information contact the Learning Communities Program Coordinator at (562) 860-2451, extension 2600, or visit our web site at www.cerritos.edu/lcp/.

DISTANCE EDUCATION PROGRAM

Distance education courses at Cerritos College give you the opportunity to complete most of your work outside the traditional classroom. You set your own hours! These distance education courses offer the same quality of instruction and content that you will find in on campus courses. The very latest technologies are used in course delivery and interaction: telephone, fax, email, Internet World Wide Web. Keep in mind, though, that if you are going to succeed in a distance education course, you have to be self-motivated! Will you keep up with your work when you don't have regular weekly hours in a classroom?

Each distance education course has an on campus orientation during the first week of class, unless listed otherwise. Be sure you attend. Any student who misses this orientation MUST contact the instructor prior to the first week of class or be dropped from the course! All classes will be 18 weeks and begin the week of January 13, 2003 (unless otherwise listed). Do you need to know the very basics about computers and learning online? Take some of our courses such as EdT 50-Preparation for Online Learning, CIS-101-Intro Business Computer Info Systems, or BCOT-52-Data Entry.

General Orientation for First 9-Week and 18-Week classes will be on January 11, 2003 in LC-155 from 9:00 am-12:00 pm, every hour on the hour. Students are welcome to come any of these hours. SEMI-INDEPENDENT SECTION MATH CLASSES (See *)
 All mathematics classes in LC111 are SEMI-INDEPENDENT CLASSES. These classes cover the same content as other mathematics courses, but use an entirely different method of instruction. Instead of attending regular lectures, students read and learn the material on their own. Tutorial assistance is provided Monday through >Thursday 8:30 am - 9:00 pm and Friday 9:00 am - 4:00 pm. Students take exams according to a schedule given out the first day of class. There may also be mandatory sessions. These classes are recommended ONLY for students with a strong background in mathematics who are independent learners. For students who experience math anxiety or whose background in mathematics is not strong, we recommend enrolling in a traditional lecture class.

INTERSEGMENTAL GENERAL EDUCATION TRANSFER CURRICULUM For Transfer to CSU and UC 2002-03

Completion of all of the requirements in the Intersegmental General Education Transfer Curriculum (IGETC) will permit a student to transfer from a community college to a campus in either the California State University or University of California system without the need, after transfer, to take additional lower-division general education courses.

It should be noted that completion of the IGETC is not a requirement for transfer to CSU or UC, nor is it the only way to fulfill the lower-division, general education requirements of the CSU or UC prior to transfer. Depending on a student's major or field of interest, the student may find it advantageous to take courses fulfilling the CSU's general education requirements or those of the UC campus or college to which the student plans to transfer.

The course requirements for ALL areas must be completed PRIOR to transferring to the CSU or UC in order for the IGETC to be certified. All courses must be completed with a grade of "C" or better. A student who has completed IGETC may have an official certification sent to a four-year institution upon written request by the student through the Office of Admissions and Records.

Note: Courses appearing in more than one category may be used to satisfy only one category. Such courses are marked with an *.

STATEMENT OF STUDENT RIGHTS AND RESPONSIBILITIES

PREAMBLE

The community college exists for the transmission of knowledge, the pursuit of truth, the development of students and the general well-being of society. Free inquiry and free expression are indispensable to the attainment of these goals. As members of the academic community, students should be encouraged to develop the capacity for critical judgment and to engage in a sustained and independent search for truth and knowledge.

Freedom to teach and freedom to learn are inseparable facets of academic freedom. The freedom to learn depends upon appropriate opportunities and conditions in the classroom, on the campus and in the larger community. Students should exercise their freedom with responsibility so as not to endanger the rights, goals and beliefs of other students.

Cerritos College should be open to all qualified students regardless of race, creed, national origin, disability or sex.

CLASSROOM RIGHTS AND RESPONSIBILITIES

The professor in the classroom and in conference should permit free discussion, inquiry and expression of thought by the student. Student performance should be evaluated solely on an academic basis, not on opinions or willingness to accept professors' personal beliefs, or conduct unrelated to academic standards. Students should be free to take reasoned exception to the data or views offered in any course of study for which they are enrolled and for maintaining standards of academic performance established for each course in which they are enrolled. The student has the right to have the course taught in a systematic, meaningful manner and of knowing at the beginning of the course those academic standards required of the student in the course.

Administrative staff and faculty members should respect confidential information about students such as student views, beliefs and political associations, which is acquired in the course of their work. Transcripts of academic records should contain only information about academic status.

ON THE CAMPUS RIGHTS AND RESPONSIBILITIES

Students should be free to examine and discuss all questions of interest to them, and express opinions publicly and privately. They should be free to organize and join associations to promote their common interests. The membership, policies and actions of a student organization will be determined by vote of only those persons who hold bona fide membership in that college organization. Campus advisors shall advise organizations in the exercise of their rights and responsibilities.

Student organizations shall be required to submit a statement of purpose, criteria for membership, rules of procedures, a current list of officers and the advisor shall certify the list of verified members. Campus organizations should be open to all students.

Student and student organizations should be free to support causes by orderly means which do not disrupt the regular and essential operation of the college. Student organizations shall have the right to recommend, invite and to hear any person of their own choosing as long as such speakers and topics are in accordance with federal, state and local laws, and guarantee the safety of students and protection of public property. Guest speakers invited by students or student organizations should be subjected only to those policies, requirements, and regulations as established by the Board of Trustees in order to insure an appropriate and meaningful contribution to the academic community. It should be made clear to the academic community and the larger community that the public expressions of students, student organizations and guest speakers speak only for themselves.

As constituents of the academic community, students should be free, individually and collectively, to express their views on issues of institutional policy, instruction, the evaluation of professors as it pertains to their course content and on matters of general interest to the student body.

IN THE LARGER COMMUNITY

College students are both citizens and members of the academic community. As citizens, students should enjoy the same freedom of speech, peaceful assembly and right of petition that other citizens enjoy. As citizens, they should be subject to civil law as others and may incur penalties prescribed by civil authorities when violating these laws. Only where the college's interest as an academic community are distinct and clearly involved should the special authority of the college be asserted.

STUDENT PUBLICATIONS

Student publications and the student press perform the traditional roles of informing, entertaining and influencing. They are both instructional and informational, and as such should meet the highest academic and professional standards in serving the broad college community and should set forth as the primary goal of the student newspaper the coverage of news events, happenings and experiences on the college campus.

Associated Student Body, administrative and academic authorities, in consultation with students and advisors have the responsibility to define and clarify the role of student publications, and the standards to be used in their evaluation.

They must also assure that both academic freedom and editorial freedom are protected and exercised so that the integrity of the student publications program and the free press will not be compromised.

It is incumbent upon student editors and managers to act according to the highest ethics of responsible journalism. This corollary responsibility includes careful adherence to the laws of libel and good taste, and such considerations as the avoidance of indecency, undocumented allegations, attacks on personal integrity, and the techniques of harassment and innuendo and should allow adequate space for rebuttal and differing views in regard to articles in which there is some controversy.

Safeguards to assure freedom of the student press with responsibility should include freedom from censorship or arbitrary control of the press, and protection of editors and managers from arbitrary attack, suspension, or removal because of disapproval of editorial policy or content by any external influence.

STUDENT SERVICES/POLICIES

STUDENT GRIEVANCE POLICY

In accordance with the Statement of Student Rights and Responsibilities, this policy describes the procedures by which a student(s) of Cerritos College may air his or her grievances as applied to and regarding academic, administrative, and instructional matters relating to students, and including, but not limited to, any grievance dealing with any certificated or management employee of Cerritos College.

A grievance shall herein be defined as any act depriving a student of any of the rights set forth in the statement of "Student Rights and Responsibilities," or any State, Federal, or local codes. Grades and grading grievances are not covered by this policy. Students should refer to "Grades or Grading Grievance Policy."

GRIEVANCE PROCEDURE:

STEP I – INFORMAL ACTION

- A. The student (or group of students), who believe that an injustice has been done to him (them), shall first attempt to resolve the complaint by informal discussion with the employee(s) involved.
- B. If the problem is not resolved in step 1-A, an informal discussion should take place with the person at the lowest level of authority directly above the person(s) at which the complaint is directed, where authority exists to take corrective action.
- C. If the grievant still believes the issue has not been resolved satisfactorily, they may obtain a student grievance form from the Office of Judicial Affairs. After completion of this form, specifying the time, place, nature of the complaint and remedy or correction requested, it should be submitted to the Coordinator of Judicial Affairs who will send a copy of the written statement to the ASCC Supreme Court Chief Justice and the Vice President of Academic Affairs. This statement must be submitted within thirty (30) school days after the grievant has become aware of the act or condition on which the complaint is based. A school day is defined as any day Monday through Friday that all normal college business is conducted, both in the classroom and in the administrative offices. All weekend and college holidays are excluded.
- D. The ASCC Supreme Court Chief Justice or Court designee shall attempt to resolve the problem through informal meeting and discussion among the pertinent parties while remaining neutral on all issues involved. This informal meeting and discussion will attempt to involve the levels of administration concerned with the problem and should be completed within ten (10) school days (school days is defined as a day when classes are held). In the event the informal procedure fails, then the formal procedure would be implemented.

STEP II – FORMAL ACTION

A. Preliminary

1. If the grievant does not believe the grievance has been resolved, then the grievant must request through the Chief Justice Step II-Formal Action. The Chief Justice upon receiving the request of the grievant shall call a meeting of the Student Grievance Hearing Committee. The Hearing Committee will be composed in the following manner:
 - (a) ASCC Chief Court Justice and two (2) Court Justices or designees. Vice President of Academic Affairs or administrative designee. Faculty Senate President or Senate designee. One (1) Faculty Senate member, chosen by the Faculty Senate.

2. The Chief Justice or designee shall serve as the Hearing Committee Chairman, but shall have no vote in committee decisions. The five voting members of the Hearing Committee shall be selected within the first six weeks of the school year. Names selected by the Faculty Senate, ASCC Senate, and ASCC Cabinet are to be submitted to the Chief Justice. Members of the Committee will serve for a school year.

3. The Vice President of Academic Affairs or Administrative designee shall serve as Hearing Committee Executive Secretary. The Executive Secretary, a voting member of the committee, shall be responsible for keeping necessary records of committee hearings and assist the ASCC Chief Court Justice in the conduct of the hearing.

4. Grievance Committee members are to deal with all grievances in a confidential manner, except when both parties agree to a public hearing.

B. Formal Hearing

The Hearing Committee shall conduct its proceedings according to the following procedures:

1. The Hearing Committee must meet within ten (10) school days after informal action has been completed and grievant has requested formal hearing.
2. The Chairman must notify both parties involved within five (5) school days before the hearing along with the written complaint, a copy of Statement of Student Rights and Responsibilities, and copy of the Grievance Policy.
3. Four (4) members shall constitute a quorum by which business may proceed. The quorum must include at least one student member, one faculty member, and one administrative member.
4. Both parties shall have the right to present personal statements, testimony, evidence, and witnesses. Each party shall have the right to be present, to be accompanied by the person of his choice, and to question witnesses who are present.
5. The Hearing Committee shall discuss the charge, hear the testimony, examine the witnesses, and receive all available evidence to the charge.
6. The hearing shall be closed to the public unless otherwise agreed upon in writing by both parties.
7. The Hearing Committee shall make decisions in private. The Hearing Committee shall write up findings and decisions. Copies of findings and decisions, including majority and minority reports, are to be sent to each party and the College President. The Hearing Committee's decision shall be final unless appealed.
8. A recording of the proceedings shall be kept in a confidential file in the Office of Judicial Affairs and shall be available at all times to parties directly involved. All documents, communications, and records dealing with the processing of a grievance will be filed separately from the personnel files of the participants. After a period of four years, the grievance file shall be destroyed.
9. Reprisals of any kind will not be taken by the Board of Trustees or any of its agents against any party of interest or any other participant in the grievance procedure by reason of such participation.
10. Evidence and testimony given in each case presented shall not be the sole cause of initiating or filing further grievances.

STUDENT SERVICES/POLICIES

- 11.If the grieved party does not respond within the time limits defined herein, the grievance is considered terminated and no further action will be taken.
- 12.The number of working days indicated at each step here in should be considered a maximum and every effort must be made to expedite the process. Time limits may be extended by mutual consent in writing or by decision of the Hearing Committee.
- 13.The Hearing Committee should attempt to reach a decision by discussion and consensus on a workable solution. Voting should be a last course of action.
- 14.If in the course of the proceedings,a student graduates before a solution is found, the student shall not be denied full consideration under this policy. A student may also submit a grievance after graduation if the grievance did not become known until that time. However, it must be submitted within thirty (30) school days after the grievant should have reasonably become aware of the act or condition on which the complaint is based.

STEP III – APPEALS PROCESS

1. If either party is dissatisfied with the recommendation of the Hearing Committee, he/she may appeal within ten (10) school days to the College President/Superintendent provided the President is not a party to the grievance. If the President is a party to the grievance, and either party is dissatisfied with the recommendation of the Hearing Committee, an appeal may be submitted directly to the Board of Trustees.
2. Upon receiving the findings and recommendations of the Hearing Committee, and after examination of the appeal as requested by either party, the President may accept or reject the Committee's decision.
3. If the President rejects the Committee's decision, he shall submit his decision with the stated reasons for his objections to the Hearing Committee within ten (10) school days. The Hearing Committee shall within five (5) school days reconsider its decisions and resubmit them to the President for his final decision.
4. The President shall transmit his final decision to both parties and the Faculty Senate vice chairman or designee within five (5) school days.
5. An appeal of the President's decision may be submitted to the Board of Trustees by either party. If unresolved, the appeal must be submitted within ten (10) school days after the President's decision. The Board may review an appeal for two (2) consecutive Board meetings before making a final determination of the matter at the college level.
6. The President or Board of Trustees may change the Committee's decision only after reviewing a transcription of the hearing.

STUDENT GRADES OR GRADING GRIEVANCE POLICY

In accordance with the Statement of Student rights and Responsibilities, Section: "Classroom Rights and Responsibilities," this policy describes the procedure by which a student of Cerritos College may present his/her grievance on grades or grading practices.

The California Education Code, Section 76224, quoted below, states clearly the conditions upon which grades or grading can be questioned.

"When grades are given for any courses of instruction taught in a community college district, the grade given to each student shall be determined by the instructor of the course and the determination of the

student's grade by the instructor, in the absence of mistake, fraud, bad faith, or incompetence, shall be final."

GRIEVANCE PROCEDURE

STEP I

A student who believes the grade received was due to mistake, fraud, bad faith, or incompetence shall meet with the faculty member to resolve his/her concern.

STEP II

1. The student will obtain grade/grievance forms from the Office of Judicial Affairs.
2. The student must return the grade grievance form to the Office of Judicial Affairs within thirty (30) school days after the completion of the course for which the grievance was filed. A school day is defined as any day Monday through Friday that all normal college business is conducted, both in the classroom and in the administrative offices. All weekend and college holidays are excluded.
3. The Coordinator of Judicial Affairs will meet with the student and review the grade grievance form. If the student wishes to pursue the grievance, the Coordinator of Judicial Affairs will sign and date the form.
4. The student will present a copy of the grievance to the Division Instructional Dean. The Instructional Dean may schedule a meeting of all concerned if appropriate. The Instructional Dean should schedule a meeting only if the form has the signature of the Coordinator of Judicial Affairs and is dated. The Division Instructional Dean shall make a recommendation to the parties within five (5) school days.

STEP III

If either party is dissatisfied with the recommendation of the Instructional Dean, he/she may appeal the matter to the Vice President of Academic Affairs or designee within ten (10) school days of each recommendation. The Vice President of Academic Affairs or designee shall call a meeting with the student, the ASCC Chief Court Justice, Division Instructional Dean, and if needed, the faculty member. The Vice President of Academic Affairs or designee shall make a recommendation to the parties within five (5) school days.

STEP IV

If either party is dissatisfied with the recommendation of the Vice President of Academic Affairs, he/she may appeal the matter to the President of the College within ten (10) school days of such recommendation. If a faculty member is dissatisfied with a recommendation and neither acts on it, nor appeals it, the Vice President of Academic Affairs will forward the matter to the President. The President will review the Recommendation Report and if needed, request persons involved in the grievance to meet.

The President shall make a recommendation within five (5) school days. If either party is dissatisfied with the recommendation of the President, an appeal of the President's recommendation may be submitted to the Board of Trustees by either party. The appeal must be submitted within ten (10) school days after the President's recommendation. The Board may review an appeal for two consecutive Board meetings, and if needed, request persons involved in the grievance to appear before making a final determination of the matter at the college level.

Inquiries should be directed to the Coordinator of Judicial Affairs, Mr. Patrick Callahan, in the Office of Student Activities or by calling (562) 860-2451, ext.2472.

TITLE IX POLICY

No person shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any "...education program of activity which..." benefits from Federal financial assistance. (Title IX of the Education Amendments of 1972).

It is the policy of the State of California to afford all persons, regardless of their sex, equal rights and opportunities in the educational institutions of the state. (Educational Code sections 200 – 264.)

In compliance with Title IX, Cerritos College's educational programs and activities are offered to the total Community without regard to sex. Questions regarding Title IX policies affecting the educational program should be directed to the Dean of Academic Affairs, Dr. Adolph Johnson, Jr., in the Office of Academic Affairs or by calling (562) 860-2451, ext.2228.

SECTION 504/ AMERICANS WITH DISABILITIES ACT POLICY

Under Section 504 of the Rehabilitation Act of 1973 and Title II of the Americans with Disabilities Act of 1990, Cerritos College will take all necessary steps to ensure that no student with a verified disability is denied the benefits of, excluded from participation in, or otherwise subjected to discrimination because of the absence of auxiliary aids or academic accommodations. The decision to authorize such aids or accommodations is the responsibility of the Disabled Student Programs and Services (DSPS) director, disability specialist, or DSPS counselor after a review of documentation verifying the disability and any resulting educational limitations.

It is the responsibility of the student with a verified disability and resultant educational limitation to apply for DSPS assistance in the Santa Barbara Building and to file a request for accommodations with DSPS via the college form entitled "Disabled Student Programs and Services – Application for Services". The request should be completed with adequate notice provided for an effective response. Classroom related requests will be reviewed for approval on the "Service Request Form" and, upon approval by DSPS, notification will be sent within 3 days to any involved instructor by DSPS staff. The instructor will respond to the request in writing in a timely manner. Non-return will be construed as agreement.

If the instructor denies the classroom related request(s) the DSPS director, or designee, will intervene with the appropriate academic staff and attempt to resolve the matter. In the event of continued denial of an accommodation request or request for course substitution or waiver DSPS will provide the student with the policy, procedures and form entitled "Academic Accommodation Request Form". The DSPS director or designee will concurrently inform the student that he/she has the right to file a grievance under the college's discrimination grievance procedure and/or the Office for Civil Rights and will provide the student with the information necessary to do so.

Inquiries regarding DSPS or the district's non-discrimination policy relative to students, employees, or applicants with disabilities should contact Dr. Robert Hughlett, the 504 and ADA Coordinator, by calling (562) 860-2451, ext. 2334 or Mark Fisher of Human Resources at ext.2284.

Complaint Procedure

The complaining party should first discuss the complaint with the individual (s) involved or with the Cerritos College Section 504/ADA Coordinator, Robert Hughlett, (562) 860-2451, ext.2334 or by e-mail at hughlett@cerritos.edu, or Mark Fisher, Director of Human Resources, at ext.2284. The 504/ADA Coordinator will contact all parties concerned and attempt to reach some resolution of the problem. If the complaint cannot be formally resolved within ten working days, the complaining party may then proceed to file a formal complaint. The informal complaint procedure is optional.

ACADEMIC HONESTY/DISHONESTY POLICY

Your instructors are eager to help you succeed in your studies at Cerritos College. But success means more than just receiving a passing grade in a course. Success means that you have mastered the course content so that you may use that knowledge in the future, either to be successful on a job, or to continue on with your education in advanced classes.

Your success depends on a combination of the skill and knowledge of your instructors, and your own hard work. You will reach your future

STUDENT SERVICES/POLICIES

goals only if you gain new knowledge from every course you take. That knowledge becomes yours, and can be used by you, only if it is gained through your own personal efforts. Receiving a grade in a course, without acquiring the knowledge that goes with it, diminishes your chances for future success.

While in college, you are also shaping the principles which will guide you throughout the rest of your life. Ethical behavior and integrity are a vital part of those principles. A reputation for honesty says more about you, and is more highly prized, than simply your academic skills.

For that reason, academic honesty is taken very seriously by the Cerritos College faculty. The following guidelines have been prepared so that you will understand what is expected of you in maintaining academic honesty.

Academic Dishonesty is normally to be dealt with as an academic action by the instructor, reflected in the student's grade in the particular course, rather than through college disciplinary procedures. No specific departmental, divisional or institutional procedures are established for academic dishonesty other than the normal process for review and appeal of an instructor's grading procedures.

Academic Dishonesty is defined as the act of obtaining or attempting to obtain credit for work by the use of any dishonest, deceptive or fraudulent means. Examples of academic dishonesty would include, but not be limited to the following:

- Copying, either in part or in whole, from another's test or examination;
- Discussion of answers or ideas relating to the answers, on examination or test when such discussion is prohibited by the instructor;
- Obtaining copies of an exam without the permission of the instructor;
- Using notes, "Cheat sheets," or otherwise utilizing information or devices not considered appropriate under the prescribed test conditions;

- Altering a grade or interfering with the grading procedures in any course;
- Allowing someone other than the officially enrolled student to represent the same;
- Plagiarism, which is defined as the act of taking the ideas, words or specific substantive material of another and offering them as one's own without giving credit to the source.

Options may be taken by the faculty member to the extent that the faculty member considers the cheating or plagiarism to manifest the student's lack of scholarship or to reflect on the student's lack of academic performance in the course. One or more of the following actions are available to the faculty member who suspects a student has been cheating or plagiarizing:

1. Review-no action.
2. An oral reprimand with emphasis on counseling toward prevention of further occurrences.
3. A requirement that work be repeated.
4. A reduction of the grade earned on the specific work in question, including the possibility of no credit for the work.
5. A reduction of the course grade as a result of item 4 above, including the possibility of a failing grade for the course.
6. Referral to the Office of Judicial Affairs for further administrative action, such as suspension or expulsion.

TREKING ON IN TECHNOLOGY

A

s the most technologically advanced community college in California, Cerritos College has recently received much deserved recognition. Not only is the college now seen as a Cisco certified institution recognized by companies like Cisco, Microsoft, and Oracle, but it has also been selected to be a mentor in technology by the Southern Bell Corporation's (SBC) Excellerator Program.

The Cisco certified classes offered by Cerritos will allow students to attain Cisco certification while remaining on campus. The classes will feature stringent course requirements and testing, and the quality of certified students Cerritos will produce will be of the highest caliber.

"By spring 2003, we will be purchasing a number of Cisco products and equipment to better equip our students to meet industry needs and norms," said Norm Fujimoto, dean of science, engineering and math.

Cerritos hopes that by offering these certifications to students right here on campus, students will be able to enter the work force equally or more qualified than their competitors.

As for the SBC program, not only will Cerritos College be able to mentor other institutions, but they will also be able to improve the quality and fluency of their current technology and bring technology to the underserved populations in the local area.

Cerritos College will continue to equip its students to be leaders in the technological world, and in the surrounding community using a fast-track career ladder approach with goals of increasing long term career options ranging from entry level to advanced positions. The program aims at bridging the "digital-divide" that is encompassing local communities more and more each day.

"Cerritos College was selected as a mentor college due to our overall expertise in the computer science field," said Fujimoto. "We have had a long history of equipping our students with the computer skills necessary to be employable and successful in our local businesses." Because of this expertise and determination, Cerritos College will now serve as a mentor to Northwestern Connecticut Community College so that they can achieve common goals, share best practices and seek solutions to similar changes.

"The SBC Excellerator Program builds on our long term mission of keeping people and communities connected to each other and to the future," said Laura Sanford, president of the SBC Foundation. "The solid track record that community colleges have in IT workforce development training will help create a skilled workforce and provide greater opportunities to displaced workers or those in low-income communities."

Cerritos hopes to produce men and women equipped not just to enter the local workforce, but also those who can empower the local workforce. Cerritos is a proven provider of quality workforce training.
