

Excellence is the Standard

Mathematics Professor Sally Sestini Is Right on the Numbers

"Challenge and Intrigue Students" Key in Setting Standard of Excellence

Walking across campus, Sally Sestini is greeted happily by a few of her students. "Sally!" they call and wave. "See you Thursday!"

Sestini's students are eager for their next class with her because they can't wait to dive back into the ratios, quotients, exponents and theorems that she's taught them to love. Department chair for the math department at Cerritos College's Science Engineering and Math Division, Sestini holds a bachelor's degree from UCLA and a master's degree from California State University at Northridge. She first joined the college's faculty in 1986.

Since then, Sestini says she's changed and adjusted along with the changes she's seen in both teaching methods and at the college on the whole. "I've seen a huge shift in the methods for teaching mathematics over the last several years," Sestini says.

"Rather than just lecturing about mathematics, as was the traditional style years ago, we faculty strive to engage the students more—get them working in groups on projects and interactive problem-solving. It's actually harder to do this—it takes more planning on the instructor's part—than delivering a lecture. But it allows students to grasp the concepts more firmly."

Sestini, whose teaching assignments range from basic math through upper-level calculus, has been instrumental in recent years in securing grant funding to recruit and assist students entering Cerritos College who have low math test scores. Recently, Sestini led a team in securing the "Gateways" grant, a federally-funded, Title V program that serves to improve student success by providing tutors to supplement faculty instruction in basic math classes.

"Many of the students who enroll at Cerritos College are just not at the level they need to be to take college-level math courses," says Sestini. "Most test in at below basic math, while others are at a pre-algebra level."

Through grants, improved teaching methods and other targeted interventions, Sestini says that she has seen remarkable turnarounds among students who entered the program performing at a low mathematical level.

One such success story is Lara Carmon, a former Cerritos College student who entered the college with a less-than-enthusiastic attitude toward math, but went on to attain her bachelor's and master's degrees in mathematics at CSULB. Carmon excelled under Sestini and other math faculty's direction. This fall, Carmon joined Sestini as a full-time faculty member in the SEM division—teaching none other than algebra and calculus.

Sestini has mentored a number of high-achieving mathematics students at Cerritos College, and now has even recruited a few to serve as teaching assistants (funded through the "Gateways" grant) in the basic mathematics courses. For several years, Sestini served as advisor to the math club on campus, which sponsored a number of Cerritos College students in participating in the American Mathematical Association of Two-Year Colleges' (AMATYC) Student Mathematics League (SML) annual math competition.

While there are still highly-skilled mathematics students who come through her department, Sestini says she has seen a decline in the number of students reaching for higher-level math courses.

"Our mathematics courses provide foundational principles for all of the hard sciences like biology, physics and chemistry," said Sestini.

"As long as careers in medicine, nursing, engineering and teaching remain in demand, we will need to offer high-level math courses. But I've noticed a shift in college degree programs directing other students who only need one college-level math course toward statistics classes, which are much more applicable and fundamental in careers that involve research and analysis—a growing sector in our informational age."

Sestini says that she first became interested in mathematics when her fifth-grade teacher began illustrating concepts that were much broader, and more complex than typical fifth-grade math.

"Come to find out, he had a master's degree in mathematics," Sestini remembers.

"It was just the abstraction and challenge numbers offered that intrigued me. I learned that anything is possible."

It's that same fascination and sense of "mastery of the complex" that Sestini seeks to foster within her students—helping them to achieve success while upholding excellence as the standard at Cerritos College.

Surviving the First Year of College

Cerritos College First Year Experience Students Describe Program's Benefits

Cerritos College students Karla Caparoso, of Lakewood, Victoria Padilla of Norwalk, and Elizabeth Ramos, of Norwalk, Hengel Bonilla of Bell, and Sara Hernandez of La Mirada have each completed either their first semester or first year as part of the First-Year Experience (FYE) program. They provided some insights into how the program helped them adjust to college, make friends, and develop study skills. English Professor Suzanne Ashe, who coordinates the FYE program, also provided a faculty member's view of the benefits of the program.

"I took classes with the same people every day, and that helped the transition to college. It seems a bit smaller and less intimidating," said Caparoso, who is currently an undecided major, but is considering entering the nursing program.

"All of us who entered at the same time still attend many of the same classes," explained Hernandez, who wants to go into education. "We talk about different things related to class, and I have more confidence and am not timid anymore about discussing my class questions with professors."

Bonilla, a sociology major, commented that he was able to develop a relationship with his professors, and "that allowed me to go through the learning process," he said. "They helped me towards my goals and counseled me."

Each of the students recommended that incoming students get involved in activities and with study groups as soon as possible, once they began at the school.

"Get involved," said Ramos. "It really helped me out. Approach a counselor and get on track as far as classes."

"It also helps to get together with other students as role models and mentors," added Angel.

Professor Ashe agreed.

"Having the students travel through classes together helps them to know they're not alone," she said. "They learn, for example, that asking questions in class shouldn't make them feel awkward. They can be open about not understanding. They can feel free to get involved in talking in class and interacting."

The students also mentioned that the FYE cohorts helped them to become more familiar with people on campus.

Professor Ashe added, "For new college students, it's easy to feel that they aren't as intelligent, 'with it,' or knowledgeable as their peers. But once they begin interacting, learning and growing together, they see that they all are really in the same boat."

"Get involved with positive people and stay away from negative people," offered Padilla. "FYE staff is helpful as role models, mentors. I know that teachers can help out. They're people too."

Hernandez told the group how the FYE professors helped her to overcome her urge to give up at times during her first year.

"Often, the workload gets overwhelming," she described.

"There's a lot of work, and with family responsibilities, friends calling all the time, it's easy to want to say, 'Forget it. School's too hard. It's not for me.'"

"But our professors are always there for us," she said. "They really help us to succeed. Instead of giving up, I can say, 'This is my home now.'"

Padilla, who returned to college after being out of school for several years, said that through FYE, she realized that age doesn't matter when it comes to learning.

"No matter what obstacles you have at home, you can do it," she said. "Even now, I'm not sure how I'm doing it, but I am. I know no matter what, you can hang in there and succeed."

ASSESSMENT

WHAT IS “ASSESSMENT?”

“Assessment” means the process of gathering information about an individual student to facilitate his or her success. At Cerritos College, assessment testing includes, but is not limited to, the collection of information regarding a student’s study skills, English language proficiency, computational skills, high school and/or college transcript review, evidence of an A.A. degree or higher from an accredited institution, learning skills, academic performance, and need for special services. In addition, career assessment is the opportunity to explore career aspirations, goals, skills, interests, aptitudes and values.

DO I NEED TO TAKE AN ASSESSMENT TEST?

All new students need to be assessed. If you plan to enroll in a math, English, or reading class or if you plan to earn an A.A. degree, it is strongly recommended that you take assessment tests prior to enrollment. A student number and photo ID are required to take the test.

Please note: The exceptions listed are assessment options for course clearance or placement. To meet the required reading, math, and English proficiencies necessary to qualify for the Associate in Arts degree, check your catalog or ask a counselor.

MATRICULATION SERVICES WAIVER

Cerritos Community College offers Matriculation Services to all new students prior to their enrollment in classes. These services include: admission to the college, orientation, assessment and counseling. A student can elect to waive any or all Matriculation services. Should you decide, at a later date, to participate or utilize a previously waived service, you may do so by requesting the service through the Counseling Office. If you have special needs for completing assessment, orientation or counseling, please contact the Counseling Office.

ASSESSMENT TEST EXEMPTIONS

Students who already possess an A.A. degree or higher are not required to take assessment tests, but will be required to verify the degree by presenting official documents to the Admissions Office at least one week prior to enrollment.

INDIVIDUAL ASSESSMENT TEST Exceptions for Course Placement

English– If you have completed English 100 or an equivalent three or four unit college-level composition course with a “C” grade or higher at an accredited college, you are exempt from the English Assessment. Please submit official proof (grade reports or transcripts) to a counselor prior to enrollment.

Basic Math– If you have completed Algebra 1 or higher with a “B” grade or higher at a high school or an accredited college, you are exempt from the Basic Math Assessment. Please submit official proof (grade reports or transcripts) to a counselor.

Advanced Math– Students who achieve Math 60 clearance on the Basic Math Readiness Test may take one of the appropriate Advanced Math Tests to determine their suitable math level.

OR Students may be placed in advanced math courses based on “B” grade or higher in recently completed high school or college algebra courses. It is strongly recommended that these math courses have been completed within the past three years. Proof of high school or college grades is required.

Advanced Placement Courses–Students who participate in advanced placement courses at their high schools and earn required scores on tests can earn college credit for those courses when they come to Cerritos College. A student who scores 3, 4 or 5 on the College Board Advanced Placement Test in the areas of Biology, Chemistry, English, Mathematics, Physics, Spanish, Economics, Government/Politics and History may be eligible to receive college credit for selected classes. For further details, ask a counselor.

GENERAL INFORMATION

REPEATING A COURSE

A student may repeat the same course **ONLY ONCE** for purposes of improving a substandard grade (“D,” “E” or “NC”). Only the highest grade and grade points will be counted in computing the students GPA. For any course repetition in what is otherwise a non-repeatable course, credit and grade points will be counted only once. Other courses which are designated in the catalog may be repeated as many times as the catalog indicates.

Exception: Certain classes are designated in the catalog and may be repeated for the maximum units indicated. See your counselor before repeating any class.

Please check the list of repeatable courses available at the Counseling station during registration. If you have an individual problem, check with one of the counselors on duty.

CREDIT/NO CREDIT CLASSES

Classes offered on a **Non-Optional** credit/no-credit basis only will be indicated on the students permanent record as a “**CR**” grade (with unit credit) or an “**NC**” grade (and no units earned). This will not affect the students grade point and **SHALL NOT** be considered as part of the 15 unit limit policy for the **Optional** credit/no-credit courses that are designed to encourage students to explore courses in areas they feel they may have an interest.

See page 18 for guidelines and a list of approved courses in each department.

OPEN ENTRY/OPEN EXIT CLASSES

All students should meet with the instructor as soon as possible after the start of the session to inquire about enrollment (unless otherwise noted). A student may enter these classes at any time during the session prior to the specific cut-off date for the individual classes. The courses may be completed within the session in whatever time is necessary for the student to finish the course requirements.

DIRECTED STUDIES

Any student interested in pursuing independent projects on an individual basis for one or two units should contact a faculty member to determine if he/she is available to sponsor a directed studies project. Students may enroll in these classes only through the second week and with the authorization to enroll in Directed Studies. Form must be signed by both the instructional dean and the faculty member conducting the Directed Studies.

WAIT LIST

As you enroll in classes, you may find that some are “closed.” This means that these classes have reached maximum enrollment. In this event you may choose to add your name to the wait list. The number of additions to wait lists is limited to 10 units. Please listen to instructions on Falcon Phone or follow the instructions on Falcon Web (**MyCerritos**).

Cerritos College has implemented a “paid” wait list. What this means is that once you have added your name to the wait list, you must pay all applicable fees for that class. Payment must be received within 5 business days. Additionally, “auto-enroll” will be in operation. Auto-enroll will automatically enroll students from the wait list to the official roster when space becomes available. Auto-enrollment will continue through the first week of the 18-week semester and the first day of class for shorter sessions. View your enrollment status on **MyCerritos** (<http://my.cerritos.edu>).

Prompt attendance on the first day is mandatory for all wait listed students. Failure to attend will jeopardize your enrollment status.

WORK EXPERIENCE

Students may register for Cooperative Work Experience only through the second week of classes. Only a reduction of hours may be made after the first week.

DISCLAIMER

Cerritos College has made every reasonable effort to determine that everything stated in the class schedule is accurate. Class sections offered together with other matters contained herein, are subject to change without notice by the administration of Cerritos College for reasons related to student enrollment, level of financial support or for any reason, at the discretion of the College. The college further reserves the right to add, amend, or repeal any of the rules, regulations, policies and procedures, consistent with applicable laws. With some programs, portions of some classes may be assigned to instructors other than those identified in this schedule. Fees are subject to change by the Board of Trustees or the State of California.

ATTENDANCE AND GRADING

ATTENDANCE

It is the responsibility of students to attend classes regularly and apply themselves to the college studies in which they are enrolled. When students have been absent due to illness, they should report to their instructor to explain the absence. When the hours of absence exceed one more than twice the number of class hours per week, the students are considered to be excessively absent and are subject to exclusion from class. Listed below are two types of absences which permit the making up of work missed, provided that the work is of such a nature that it can be made up.

1. **AUTHORIZED ABSENCE:** For an approved educational field trip or school activity.
2. **EXCUSED ABSENCE:** For illness, injury, or quarantine. NO CREDIT WILL BE GIVEN FOR A CLASS IN WHICH A STUDENT IS NOT OFFICIALLY ENROLLED. Students must attend the first class meeting or their names may be removed from the roll to allow another student seeking admission on an availability card to enter. If a student is unable to attend the first class meeting, the instructor must be notified.

DISMISSAL FROM CLASS OR COLLEGE

Excessive absences, unsatisfactory academic or progress achievement, undesirable citizenship, or falsification of information supplied to the Office of Admissions and Records shall serve as a basis for dismissal from a class or from the college.

GRADING

Accomplishment in course work is indicated by the following symbols:

Symbol	Definition	Grade Point
A	Excellent	4
B	Good	3
C	Satisfactory	2
D	Passing, less than satisfactory	1
F	Failing	0
CR	Credit (at least satisfactory, the equivalent of a "C;" units awarded not counted in GPA)	0
NC	No Credit (less than satisfactory or failing units not counted in GPA)	0
I	Incomplete	0
W	Withdrawal	0
RD*	Report Delayed	0

* The RD symbol is used when there is a delay in reporting the grade of a student due to circumstances beyond the control of the student. It is a temporary notation to be replaced by a permanent symbol as soon as possible. RD shall not be used in calculating grade point averages.

GRADE CHANGES

The determination of the student's grade by the instructor shall be final in the absence of mistake, fraud, bad faith, or incompetency. The correction of a grade given shall only be allowed for a request initiated within one year following the end of the term in which it was assigned.

Exceptions to the one-year limit on grade changes may be requested by petition of the student in extenuating circumstances. A formal petition must be submitted to the Academic Standards Committee. Extenuating circumstances are verified cases of accident, illness, or other circumstances beyond the control of the students (Title 5, Section 55760, Board of Trustees policy 12/8/92).

INCOMPLETE

Students are not to re-enroll for a course in which a grade of "I" has been recorded. Incomplete academic work for unforeseeable, emergency, and justifiable reasons at the end of the term may result in an "I" symbol being entered in the student's record. The condition for removal of the "I" shall be stated by the instructor in a written record. This record shall contain the conditions for removal of the "I" and the grade assigned in lieu of its removal. This record must be given to the student with a copy on file with the Admissions and Records Office until the "I" is made up or the time limit has passed. A final grade shall be assigned when the work stipulated has been completed and evaluated, or when the time limit for completing the work has passed. The "I" may be made up no later than one year following the end of the term in which it was assigned. The "I" symbol shall not be used in calculating units attempted nor for grade points. A student may petition for a time extension due to unusual circumstances by completing a petition form from the Admissions and Records Office.

RETURN OF TITLE IV FUNDS

Federal aid recipients who withdraw or are dropped from all classes by the instructor are subject to new regulations regarding the Return of Title IV funds. Students who withdraw or are dropped from all classes prior to completing more than 60% of the enrollment period are subject to these rules. Based on the date of the complete withdrawal or drop, the Financial Aid Office will determine the amount, if any, of "unearned" federal financial aid received by the student. The calculation will begin by determining the percentage of the enrollment period completed by the student as follows:

Number of days completed
Total number of days in the semester

The result will equal the percentage of the enrollment period completed. The amount of federal financial aid that was paid or could have

been paid to the student will be based on this percentage. If the student received more financial aid than the amount earned, the student will be billed for the overpayment. Financial aid recipients should be cautioned to (1) avoid total withdrawal from all classes, (2) successfully complete at least one class during the semester, and (3) repay any "unearned" financial aid as soon as possible to regain eligibility for financial aid.

Any aid recipient who needs to withdraw from all classes should contact the Admissions and Records Office and the Financial Aid Office. Recipients are encouraged to discuss alternatives to withdrawing from a class(es) with their instructor(s) or a counselor before making a final decision.

Title IV funds are awarded to a student under the assumption that the student will attend school for the entire period for which the assistance is awarded.

VEYSEY PROGRAM/MINORS

COLLEGE COURSES FOR HIGH SCHOOL STUDENTS

The Veysey program represents a cooperative venture between Cerritos College and its neighboring high schools. Under the terms of this program, juniors and seniors at least 16 years of age may take college courses to supplement their high school education. Veysey is not intended as a remediation program for those who need to retake a high school course. For example, if a student fails or does poorly in a particular course(s) at his/her school, Cerritos College is not an alternative institution through which deficiencies can be made up.

Taking these courses allows you to get a headstart on a four-year college degree; get a headstart on a two-year occupational program; become familiar with college life and work before entering college full-time; and, explore the courses in a variety of majors.

To participate in the Veysey program, a high school student must be at least 16 years of age and have completed his/her sophomore year by the first day of class offered at Cerritos College. You may enroll in courses and receive college credit, but you also must attend a minimum day at your high school. If the high school and postsecondary institution agree, the credit may be counted for both. Students enrolled as part of the Veysey Program pay no enrollment fee (with the exception of health and student I.D. fees). Veysey students are not eligible for continuing student enrollment dates.

Students who need accommodations due to a disability should make arrangements for these through their K-12 school district, in consultation with the DSP&S office at Cerritos College.

TO ATTEND CERRITOS COLLEGE AS A VEYSEY STUDENT, YOU MUST TAKE THE FOLLOWING STEPS:

1. Complete and submit the Veysey form and admissions application to the college's Admissions Office.
2. Meet with a Cerritos College academic counselor and bring your high school transcripts if you are interested in taking a math course. An appointment can be made or walk-in counseling is available. The Counseling Center is located in the Administration Building.
3. If recommended by the counselor, take the English, reading and/or math test(s). You are strongly encouraged to call the Counseling Center to schedule a New Student Orientation Workshop.
4. Once you've met with a Cerritos College counselor and/or completed the Orientation Workshop, you will receive a Touchtone registration appointment.

For more information regarding the Veysey program or to request a Veysey form and application for admission, please call (562) 860-2451, x2211.

With opportunities to simultaneously earn high school and college credit through the Veysey Program, local high school students are able to get an early start on their college career at Cerritos College.

ADMISSION OF MINORS (Non-Veysey Eligible)

The College may admit as a part-time or full-time student in grades kindergarten through 10 (K-10) an advanced student who, in the opinion of the Dean of Academic Affairs and designated faculty, may benefit from instruction offered. These students may only take college credit courses which are designated as associate in arts degree applicable. No exceptions will be made.

This is not a remediation program. For example, if a student fails or does poorly in a particular course(s) at his/her school, Cerritos College is not an alternative institution through which deficiencies can be made up. The minors program for under-aged students is for advanced students who desire to take courses that are not available at their schools.

Students applying for admittance must meet the following criteria:

1. Submit an application for admission to Cerritos College, and;
2. Submit a completed special minors application form;
3. Enroll in 12 units or fewer, and;
4. Demonstrate the ability to benefit from more advanced scholastic or vocational work than is available in the K-10 setting as determined by the Dean of Academic Affairs and designated faculty and staff, and;
5. Be authorized to attend Cerritos College by the Public School District if the student attends public school;
6. Undertake courses of instruction of a scope and duration sufficient to satisfy the requirement of law.
7. Minor student must submit a completed Permission Letter for Special Minor Students (application only) each term or semester they wish to attend Cerritos College.

Minor students are not eligible for continuing student enrollment dates but are exempt from per unit fees.

Students who need accommodations due to a disability should make arrangements for these through their K-12 school district, in consultation with the DSP&S office at Cerritos College.

PACE PROGRAM

(Program for Adult College Education)

Continuing in the Fall 2006 semester, Cerritos College will offer a PACE Program (Program for Adult College Education). The purpose of this program is to make earning an Associate in Arts degree or transferring to a university more accessible to adults who have family, work, and other responsibilities. Classes are taught in an accelerated educational format so working adults can achieve their academic goals while meeting the demands of their busy schedules. Classes will meet one evening per week, (Fridays) and all day on Saturdays.

While the traditional semester lasts for 18 weeks, you can complete most PACE classes in nine-week modules. When you enroll in two classes every nine weeks, you can complete 12 units per semester!

What if you haven't been to college before or you have been out of school for a long time?

- ❖ Cerritos College offers a variety of support services.
- ❖ The PACE program is designed so that students can work together in Study Circles.

Still, many returning students find that math and English courses pose a special challenge. Cerritos College offers preparatory math and English every semester and during the first and second summer sessions. *The minimum requirement for enrollment in the PACE Program is English 100 and Math 40.* In addition, you must not have taken any of the courses listed on the PACE curriculum unless you have earned a substandard grade (D or F) or you are willing to retake the class. (No more than three classes may be repeated.)

If you are interested in enrolling in the PACE Program you must attend one of the **PACE orientations** scheduled from 6-7:30 p.m. in the Teleconference Center on **Tuesday, April 24; Tuesday, May 23; or Monday, June 26.** Applications will only be available at these sessions. The application priority-filing deadline is Thursday, June 8, 2006. The final application deadline is Thursday, July 6, 2006.

Program enrollment is limited and begins each Fall semester. For more information about the Cerritos College PACE Program, please contact Renée DeLong Chomiak, CalWORKs/PACE Coordinator, at (562) 860-2451, extension 2597.

LEARNING COMMUNITIES CLASSES

Learning communities involve the intentional creation of class pairs or clusters around a common theme or concept. Typically, the same group of students is co-enrolled in two or more courses, usually from different disciplines—for instance, history and art, English and career guidance, political science and philosophy. Students enroll in both courses but receive a separate grade for each one.

Course instructors integrate their syllabi, encouraging students to gain a deeper understanding of each course, even as they discover connections between the two. Classroom activities, tests, assignments, field trips, research projects, and educational technology are used to engage students in their own learning, as well as provide them with valuable “real-world” skills.

Perhaps more importantly, the learning community model promotes student-centered learning, with an emphasis on an enriched classroom environment. It promotes greater intellectual growth and genuine mastery of course content through collaborative activities, frequent feedback, and increased student-teacher and student-student interactions. Traditional lecturing is minimized; active learning and thoughtful integration of content are maximized.

Research indicates learning communities promote student achievement, retention, and progress toward degree completion. Faculty benefit from professional development and training, fresh approaches to teaching, and collaboration with colleagues. Finally, the college profits from institutional research and development that is intimately tied to teaching/learning outcomes.

LEARNING COMMUNITIES PROGRAM WITHDRAWAL POLICY

When a student enrolls in a group of two or more courses as part of a learning community, he or she **MUST MEET THE PREREQUISITE(S)**, if there are any, for **EACH** course in the combination. Students enrolled in one section of a course that is part of a learning community must be enrolled in all other courses in that group. Labs must be taken with lecture. If one course is dropped, the student **MUST** and **WILL BE DISENROLLED** from all other courses in the learning community. **THERE ARE NO EXCEPTIONS TO THIS POLICY.**

If you have questions about the Learning Communities Program (LCP), please call (562) 860-2451, ext. 2782, or stop by the LCP Center in the Admissions Building.

SEMI-INDEPENDENT SECTION MATH CLASSES (See *)

All mathematics classes in LC111 are SEMI-INDEPENDENT CLASSES. These classes cover the same content as other mathematics courses, but use an entirely different method of instruction. Instead of attending regular lectures, students read and learn the material on their own. Tutorial assistance is provided Monday through Thursday 8:30 am - 9:00 pm and Friday 9:00 am - 4:00 pm. Students take exams according to a schedule given out the first day of class.

There may also be mandatory sessions.

These classes are recommended ONLY for students with a strong background in mathematics who are independent learners. For students who experience math anxiety or whose background in mathematics is not strong, we recommend enrolling in a traditional lecture class.

GENERAL EDUCATION REQUIREMENTS FOR THE ASSOCIATE DEGREE AND FOR TRANSFER TO THE CALIFORNIA STATE UNIVERSITY AND UNIVERSITY OF CALIFORNIA

Significant changes were made in the 2005-2006 options and requirements for obtaining an associate in arts degree. Three plans were developed and appear below. The general education requirements for transferring without an associate degree to the California State University and the University of California remain substantially the same except for the addition of a few new courses.

Requirements for the Associate in Arts (A.A.) Degree at Cerritos College can be met in one of three different ways: Plan A, B or C.

PLAN A is designed primarily for those students interested in preparing for a vocational career upon graduation. Plan A may also be used by university transfer students and for students in vocational majors who may possibly wish to transfer in the future. However, there are courses listed under Plan A that are not transferable for general education credit to the four-year universities. Therefore, students wishing to use this option should see a Cerritos College counselor for advice in selecting the A.A. General Education plan that in combination with a major will best match their educational and career goals. Please see the Plan A degree description page for further details.

PLAN B is designed primarily for students who will transfer to a California State University (CSU) campus and are not interested in attending a University of California campus. Students may use this plan to combine completion of both the Associate in Arts general education requirements, and the California State University (CSU) General Education Certification pattern. Students should see a counselor for advice on selecting the A.A. General Education plan that in combination with a major will best match their educational and career goals. Please see the Plan B degree description page for further details.

PLAN C is designed primarily for students who intend to transfer to the University of California (UC), or who are undecided between transferring to the University of California or the California State University. Students may use this plan to combine completion of both the A.A. degree general education requirements and the Intersegmental General Education Transfer Curriculum (IGETC) requirements. Plan C may not be recommended for some majors at certain CSU or UC campuses. Please see the Plan C description page for further details.

The significant differences between Plan A, Plan B and Plan C are:

Plan A requires the completion of a minimum of 18 units of identified general education courses and a minimum of 18 units of specified "major" courses, proficiency requirements and electives, if necessary, to total a minimum of 60 degree applicable units.

Plan B requires a minimum of 39 units of identified CSU general education courses plus specified lower-division major preparation, the health and wellness proficiency requirement, and elective courses, if necessary, for a minimum of 60 degree applicable units.

If a student only wishes to transfer at an upper division level and is not seeking an A.A. degree, a minimum of 60 CSU transferable units is required. (See transfer requirements for CSU and your counselor)

Plan C requires a minimum of 35 (UC) or 38 (CSU) units of identified general education courses plus specified lower-division major preparation

courses, the health and wellness proficiency requirement, and electives, if necessary, to total a minimum of 60 degree applicable units.

If a student only wishes to transfer at an upper division level and is not seeking an A.A. degree, a minimum of 60 UC transferable units is required. (See IGETC, UC transfer requirements, and your counselor.)

There are important differences among the three plans. In order to select the plan that best meets each individual's AA and transfer goals, students should see a Cerritos College counselor.

GENERAL EDUCATION REQUIREMENTS FOR THE ASSOCIATE DEGREE AND FOR TRANSFER TO THE CALIFORNIA STATE UNIVERSITY

Associate in Arts Degree General Education 2005-06 Plan B and/or The General Education Certification Requirements For The Bachelor's Degree At The California State University

Plan B is designed primarily for students who will transfer to a California State University (CSU) campus and are not interested in attending a University of California campus. Students may use this plan to combine completion of both the Associate in Arts general education requirements and the CSU General Education Certification pattern. Students should see a counselor for advice on selecting the AA General Education plan that in combination with a major will best match their educational and career goals.

To earn an Associate in Arts Degree using Plan B, students must complete a minimum of 60 degree applicable units with an overall grade point average of "C" (2.0) or better counted for the degree which must include the specified general education requirements and designated courses for a major. The Health and Wellness Proficiency requirement must be completed (See description in Plan A).

If a student wishes only to transfer and is not seeking an A.A. degree, they can follow the requirements below. However, there are no proficiencies required for CSUGE certification.

It should be noted that completion of the CSU General Education Certification is not required for admission to the CSU nor is it the only way to fulfill the lower division general education requirements. Depending upon the student's major, it may be advantageous to complete the requirements of the specific campus the student plans to attend.

STATE UNIVERSITY GENERAL EDUCATION CERTIFICATION REQUIREMENTS

A maximum of 39 units is required to fulfill the CSU lower division general education requirements, with the units to be distributed as follows: Nine (9) units in Area A; nine (9) units in Areas B, C and D, with no more than 30 units total in areas B through D combined; and three (3) units in Area E.

GENERAL EDUCATION REQUIREMENTS FOR THE ASSOCIATE DEGREE AND FOR TRANSFER TO THE CALIFORNIA STATE UNIVERSITY AND UNIVERSITY OF CALIFORNIA

Associate in Arts Degree General Education 2005-06 Plan C and/or The Intersegmental General Education Transfer Curriculum (IGETC) For Transfer To UC And CSU

Plan C is designed primarily for students who intend to transfer to the University of California (UC) or are undecided between transferring to the UC or the California State University (CSU). Students may use this plan to combine completion of both the AA Degree general education requirements and the IGETC General Education requirements.

The purpose of IGETC is to provide an option for students to fulfill lower division general education requirements prior to transferring to a UC or CSU campus.

Depending upon the student's major and campus choice, it may be advantageous to complete the requirements of the specific campus the student plans to attend. In general, it is not advisable for transfer students preparing for majors at any UC campus requiring a high number of units, such as engineering and science, to use IGETC.

Plan C can be fulfilled by completing the IGETC requirements specified for either the UC or CSU.

A letter grade of "C" or better is required in all Plan C courses.

To earn an Associate in Arts degree using Plan C, students must complete a minimum of 60 degree applicable units with a grade point average of "C" (2.0) or better in all courses counted for the degree which must include the specified general education requirements and designated courses for a major. The Health and Wellness Proficiency requirement must be completed (See description in Plan A).

If a student wishes only to transfer and is not seeking an A.A. degree, they can follow the requirements below. However, there are no proficiencies required for IGETC certification.

It should be noted that completion of IGETC is not required for admission to the UC or CSU.

Further information and other regulations pertaining to IGETC and the Associate in Arts Degree are found in the catalog.

Continuing students will be awarded points toward an enrollment appointment on the following basis:

2. In addition, points will be awarded for the following conditions:

A. One point for each unit enrolled in after the last day to drop.

B. Bonus points are awarded based on current load (after last day to drop).

0 – 3 units	0 points
3.5 – 6 units	2 points
6.5 – 9 units	4 points
9.5 – 15 units	6 points
15.5 or more units	10 points

C. A ten point bonus is given to students with a 2.0 or higher grade point average. Grade points are awarded in this manner. Note: GPA is computed by adding grade points (as shown below) and dividing by units attempted.

A	4 grade points
B	3 grade points
C	2 grade points
D	1 grade points
E, W	0 grade points

D. Student numbers are used to separate students with the same total points.

STUDENT SERVICES/POLICIES

ASSOCIATED STUDENTS

The Associated Students of Cerritos College (ASCC) provides the governing body that finances, organizes, and directs many programs for the student population. It “cosponsors” with the district such activities as touchtone registration, athletics, choir, band, forensics, drama, and student newspaper. Students are encouraged to participate in campus clubs and organizations. The club program is an ever-growing phase of campus life, with new clubs forming every year. With more than 60 clubs, students are provided the opportunity to become involved in curricular, special interest, and social programs. The Inter-Club Council meets regularly to give all clubs and organizations the chance to share their activities collectively. For additional information about the ASCC and campus clubs, please stop by the Student Activities Office, or call (562) 860-2451, ext. 2473.

STATEMENT OF STUDENT RIGHTS AND RESPONSIBILITIES PREAMBLE

The community college exists for the transmission of knowledge, the pursuit of truth, the development of students and the general well-being of society. Free inquiry and free expression are indispensable to the attainment of these goals. As members of the academic community, students should be encouraged to develop the capacity for critical judgment and to engage in a sustained and independent search for truth and knowledge.

Freedom to teach and freedom to learn are inseparable facets of academic freedom. The freedom to learn depends upon appropriate opportunities and conditions in the classroom, on the campus and in the larger community. Students should exercise their freedom with responsibility so as not to endanger the rights, goals and beliefs of other students.

Cerritos College should be open to all qualified students regardless of race, creed, national origin, disability or sex.

CLASSROOM RIGHTS AND RESPONSIBILITIES

The professor in the classroom and in conference should permit free discussion, inquiry and expression of thought by the student. Student performance should be evaluated solely on an academic basis, not on opinions or willingness to accept professors’ personal beliefs, or conduct unrelated to academic standards. Students should be free to take reasoned exception to the data or views offered in any course of study for which they are enrolled and for maintaining standards of academic performance established for each course in which they are enrolled. The student has the right to have the course taught in a systematic, meaningful manner and of knowing at the beginning of the course those academic standards required of the student in the course.

Administrative staff and faculty members should respect confidential information about students such as student views, beliefs and political associations, which is acquired in the course of their work. Transcripts of academic records should contain only information about academic status.

ON THE CAMPUS RIGHTS AND RESPONSIBILITIES

Students should be free to examine and discuss all questions of interest to them, and express opinions publicly and privately. They should be free to organize and join associations to promote their common interests. The membership, policies and actions of a student organization will be determined by vote of only those persons who hold bona fide membership in that college organization. Campus advisors shall advise organizations in the exercise of their rights and responsibilities.

Student organizations shall be required to submit a statement of purpose, criteria for membership, rules of procedures, a current list of officers and the advisor shall certify the list of verified members. Campus organizations should be open to all students.

Student and student organizations should be free to support causes by orderly means which do not disrupt the regular and essential operation of the college. Student organizations shall have the right to recommend, invite and to hear any person of their own choosing as long as such speakers and topics are in accordance with federal, state and local laws, and guarantee the safety of students and protection of public property. Guest speakers invited by students or student organizations should be subjected only to those policies, requirements, and regulations as established by the Board of Trustees in order to insure an appropriate and meaningful contribution to the academic community. It should be made clear to the academic community and the larger community that the public expressions of students, student organizations and guest speakers speak only for themselves.

As constituents of the academic community, students should be free, individually and collectively, to express their views on issues of institutional policy, instruction, the evaluation of professors as it pertains to their course content and on matters of general interest to the student body.

IN THE LARGER COMMUNITY

College students are both citizens and members of the academic community. As citizens, students should enjoy the same freedom of speech, peaceful assembly and right of petition that other citizens enjoy. As citizens, they should be subject to civil law as others and may incur penalties prescribed by civil authorities when violating these laws. Only where the college’s interest as an academic community are distinct and clearly involved should the special authority of the college be asserted.

STUDENT PUBLICATIONS

Student publications and the student press perform the traditional roles of informing, entertaining and influencing. They are both instructional and informational, and as such should meet the highest academic and professional standards in serving the broad college community and should set forth as the primary goal of the student newspaper the coverage of news events, happenings and experiences on the college campus.

Associated Student Body, administrative and academic authorities, in consultation with students and advisors have the responsibility to define and clarify the role of student publications, and the standards to be used in their evaluation.

They must also assure that both academic freedom and editorial freedom are protected and exercised so that the integrity of the student publications program and the free press will not be compromised.

It is incumbent upon student editors and managers to act according to the highest ethics of responsible journalism. This corollary responsibility includes careful adherence to the laws of libel and good taste, and such considerations as the avoidance of indecency, undocumented allegations, attacks on personal integrity, and the techniques of harassment and innuendo and should allow adequate space for rebuttal and differing views in regard to articles in which there is some controversy.

Safeguards to assure freedom of the student press with responsibility should include freedom from censorship or arbitrary control of the press, and protection of editors and managers from arbitrary attack, suspension, or removal because of disapproval of editorial policy or content by any external influence.

STUDENT SERVICES/POLICIES

STUDENT GRIEVANCE POLICY

In accordance with the Statement of Student Rights and Responsibilities, this policy describes the procedures by which a student(s) of Cerritos College may air his or her grievances as applied to and regarding academic, administrative, and instructional matters relating to students, and including, but not limited to, any grievance dealing with any certificated or management employee of Cerritos College.

A grievance shall herein be defined as any act depriving a student of any of the rights set forth in the statement of "Student Rights and Responsibilities," or any State, Federal, or local codes. Grades and grading grievances are not covered by this policy. Students should refer to "Grades or Grading Grievance Policy."

GRIEVANCE PROCEDURE: STEP I – INFORMAL ACTION

- A. The student (or group of students), who believe that an injustice has been done to him (them), shall first attempt to resolve the complaint by informal discussion with the employee(s) involved.
- B. If the problem is not resolved in step I-A, an informal discussion should take place with the person at the lowest level of authority directly above the person(s) at which the complaint is directed, where authority exists to take corrective action.
- C. If the grievant still believes the issue has not been resolved satisfactorily, they may obtain a student grievance form from the Office of Judicial Affairs. After completion of this form, specifying the time, place, nature of the complaint and remedy or correction requested, it should be submitted to the Coordinator of Judicial Affairs who will send a copy of the written statement to the ASCC Supreme Court Chief Justice and the Vice President of Academic Affairs. This statement must be submitted within thirty (30) school days after the grievant has become aware of the act or condition on which the complaint is based. A school day is defined as any day Monday through Friday that all normal college business is conducted, both in the classroom and in the administrative offices. All weekend and college holidays are excluded.
- D. The ASCC Supreme Court Chief Justice or Court designee shall attempt to resolve the problem through informal meeting and discussion among the pertinent parties while remaining neutral on all issues involved. This informal meeting and discussion will attempt to involve the levels of administration concerned with the problem and should be completed within ten (10) school days (school days is defined as a day when classes are held). In the event the informal procedure fails, then the formal procedure would be implemented.

STEP II – FORMAL ACTION

A. Preliminary

1. If the grievant does not believe the grievance has been resolved, then the grievant must request through the Chief Justice Step II-Formal Action. The Chief Justice upon receiving the request of the grievant shall call a meeting of the Student Grievance Hearing Committee. The Hearing Committee will be composed in the following manner:
 - (a) ASCC Chief Court Justice and two (2) Court Justices or designees, Vice President of Academic Affairs or administrative designee, Faculty Senate President or Senate designee. One (1) Faculty Senate member, chosen by the Faculty Senate.

2. The Chief Justice or designee shall serve as the Hearing Committee Chairman, but shall have no vote in committee decisions. The five voting members of the Hearing Committee shall be selected within the first six weeks of the school year. Names selected by the Faculty Senate, ASCC Senate, and ASCC Cabinet are to be submitted to the Chief Justice. Members of the Committee will serve for a school year.
3. The Vice President of Academic Affairs or Administrative designee shall serve as Hearing Committee Executive Secretary. The Executive Secretary, a voting member of the committee, shall be responsible for keeping necessary records of committee hearings and assist the ASCC Chief Court Justice in the conduct of the hearing.
4. Grievance Committee members are to deal with all grievances in a confidential manner, except when both parties agree to a public hearing.

B. Formal Hearing

The Hearing Committee shall conduct its proceedings according to the following procedures:

1. The Hearing Committee must meet within ten (10) school days after informal action has been completed and grievant has requested formal hearing.
2. The Chairman must notify both parties involved within five (5) school days before the hearing along with the written complaint, a copy of Statement of Student Rights and Responsibilities, and copy of the Grievance Policy.
3. Four (4) members shall constitute a quorum by which business may proceed. The quorum must include at least one student member, one faculty member, and one administrative member.
4. Both parties shall have the right to present personal statements, testimony, evidence, and witnesses. Each party shall have the right to be present, to be accompanied by the person of his choice, and to question witnesses who are present.
5. The Hearing Committee shall discuss the charge, hear the testimony, examine the witnesses, and receive all available evidence to the charge.
6. The hearing shall be closed to the public unless otherwise agreed upon in writing by both parties.
7. The Hearing Committee shall make decisions in private. The Hearing Committee shall write up findings and decisions. Copies of findings and decisions, including majority and minority reports, are to be sent to each party and the College President. The Hearing Committee's decision shall be final unless appealed.
8. A recording of the proceedings shall be kept in a confidential file in the Office of Judicial Affairs and shall be available at all times to parties directly involved. All documents, communications, and records dealing with the processing of a grievance will be filed separately from the personnel files of the participants. After a period of four years, the grievance file shall be destroyed.
9. Reprisals of any kind will not be taken by the Board of Trustees or any of its agents against any party of interest or any other participant in the grievance procedure by reason of such participation.
10. Evidence and testimony given in each case presented shall not be the sole cause of initiating or filing further grievances.

STUDENT SERVICES/POLICIES

11. If the grievated party does not respond within the time limits defined herein, the grievance is considered terminated and no further action will be taken.
12. The number of working days indicated at each step here in should be considered a maximum and every effort must be made to expedite the process. Time limits may be extended by mutual consent in writing or by decision of the Hearing Committee.
13. The Hearing Committee should attempt to reach a decision by discussion and consensus on a workable solution. Voting should be a last course of action.
14. If in the course of the proceedings, a student graduates before a solution is found, the student shall not be denied full consideration under this policy. A student may also submit a grievance after graduation if the grievance did not become known until that time. However, it must be submitted within thirty (30) school days after the grievant should have reasonably become aware of the act or condition on which the complaint is based.

STEP III – APPEALS PROCESS

1. If either party is dissatisfied with the recommendation of the Hearing Committee, he/she may appeal within ten (10) school days to the College President/Superintendent provided the President is not a party to the grievance. If the President is a party to the grievance, and either party is dissatisfied with the recommendation of the Hearing Committee, an appeal may be submitted directly to the Board of Trustees.
2. Upon receiving the findings and recommendations of the Hearing Committee, and after examination of the appeal as requested by either party, the President may accept or reject the Committee's decision.
3. If the President rejects the Committee's decision, he shall submit his decision with the stated reasons for his objections to the Hearing Committee within ten (10) school days. The Hearing Committee shall within five (5) school days reconsider its decisions and resubmit them to the President for his final decision.
4. The President shall transmit his final decision to both parties and the Faculty Senate vice chairman or designee within five (5) school days.
5. An appeal of the President's decision may be submitted to the Board of Trustees by either party. If unresolved, the appeal must be submitted within ten (10) school days after the President's decision. The Board may review an appeal for two (2) consecutive Board meetings before making a final determination of the matter at the college level.
6. The President or Board of Trustees may change the Committee's decision only after reviewing a transcription of the hearing.

STUDENT GRADES OR GRADING GRIEVANCE POLICY

In accordance with the Statement of Student rights and Responsibilities, Section: "Classroom Rights and Responsibilities," this policy describes the procedure by which a student of Cerritos College may present his/her grievance on grades or grading practices.

The California Education Code, Section 76224, quoted below, states clearly the conditions upon which grades or grading can be questioned.

"When grades are given for any courses of instruction taught in a community college district, the grade given to each student shall be determined by the instructor of the course and the determination of the

student's grade by the instructor, in the absence of mistake, fraud, bad faith, or incompetence, shall be final."

GRIEVANCE PROCEDURE

STEP I

A student who believes the grade received was due to mistake, fraud, bad faith, or incompetence shall meet with the faculty member to resolve his/her concern.

STEP II

1. The student will obtain grade/grievance forms from the Office of Judicial Affairs.
2. The student must return the grade grievance form to the Office of Judicial Affairs within thirty (30) school days after the completion of the course for which the grievance was filed. A school day is defined as any day Monday through Friday that all normal college business is conducted, both in the classroom and in the administrative offices. All weekend and college holidays are excluded.
3. The Coordinator of Judicial Affairs will meet with the student and review the grade grievance form. If the student wishes to pursue the grievance, the Coordinator of Judicial Affairs will sign and date the form.
4. The student will present a copy of the grievance to the Division Instructional Dean. The Instructional Dean may schedule a meeting of all concerned if appropriate. The Instructional Dean should schedule a meeting only if the form has the signature of the Coordinator of Judicial Affairs and is dated. The Division Instructional Dean shall make a recommendation to the parties within five (5) school days.

STEP III

If either party is dissatisfied with the recommendation of the Instructional Dean, he/she may appeal the matter to the Vice President of Academic Affairs or designee within ten (10) school days of each recommendation. The Vice President of Academic Affairs or designee shall call a meeting with the student, the ASCC Chief Court Justice, Division Instructional Dean, and if needed, the faculty member. The Vice President of Academic Affairs or designee shall make a recommendation to the parties within five (5) school days.

STEP IV

If either party is dissatisfied with the recommendation of the Vice President of Academic Affairs, he/she may appeal the matter to the President of the College within ten (10) school days of such recommendation. If a faculty member is dissatisfied with a recommendation and neither acts on it, nor appeals it, the Vice President of Academic Affairs will forward the matter to the President. The President will review the Recommendation Report and if needed, request persons involved in the grievance to meet.

The President shall make a recommendation within five (5) school days. If either party is dissatisfied with the recommendation of the President, an appeal of the President's recommendation may be submitted to the Board of Trustees by either party. The appeal must be submitted within ten (10) school days after the President's recommendation. The Board may review an appeal for two consecutive Board meetings, and if needed, request persons involved in the grievance to appear before making a final determination of the matter at the college level.

Inquiries should be directed to the Coordinator of Judicial Affairs, Mr. Patrick Callahan, in the Office of Student Activities or by calling (562) 860-2451, ext. 2472.

TITLE IX POLICY

No person shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any “...education program of activity which...” benefits from Federal financial assistance. (Title IX of the Education Amendments of 1972).

It is the policy of the State of California to afford all persons, regardless of their sex, equal rights and opportunities in the educational institutions of the state. (Educational Code sections 200 – 264.)

In compliance with Title IX, Cerritos College’s educational programs and activities are offered to the total Community without regard to sex. Questions regarding Title IX policies affecting the educational program should be directed to the Dean of Academic Affairs, Dr. Adolph Johnson, Jr., in the Office of Academic Affairs or by calling (562) 860-2451, ext. 2228.

Cerritos College believes in a close relationship among students, faculty, staff, and community. The District is strongly committed to achieving staff diversity and the principles of equal opportunity employment. The District encourages a diverse pool of applicants and does not discriminate on the basis of race, color, national origin, ancestry, sex, age, religion, marital status, disability, or sexual orientation, in any of its policies, procedures, or practices. In fact, the college encourages applications from all segments of qualified people.

Questions concerning the application of the policy may be addressed to the Human Resources Office by calling: (562) 860-2451, ext. 2284.

SECTION 504/508/AMERICANS WITH DISABILITIES ACT POLICY

Under Section 504/508/ADA of the Rehabilitation Act of 1973 and Title II of the Americans with Disabilities Act of 1990, Cerritos College will take all necessary steps to ensure that no student with a verified disability is denied the benefits of, excluded from participation in, or otherwise subjected to discrimination because of the absence of auxiliary aids or academic accommodations. The decision to authorize such aids or accommodations is the responsibility of the Disabled Student Programs and Services (DSPS) director, disability specialist, or DSPS counselor after a review of documentation verifying the disability and any resulting educational limitations.

It is the responsibility of the student with a verified disability and resultant educational limitation to apply for DSPS assistance in the Santa Barbara Building and to file a request for accommodations with DSPS via the college form entitled “Disabled Student Programs and Services – Application for Services”. The request should be completed with adequate notice provided for an effective response. Classroom related requests will be reviewed for approval on the “Service Request Form” and, upon approval by DSPS, notification will be sent within 3 days to any involved instructor by DSPS staff. The instructor will respond to the request in writing in a timely manner. Non-return will be construed as agreement.

If the instructor denies the classroom related request(s) the DSPS director, or designee, will intervene with the appropriate academic staff and attempt to resolve the matter. In the event of continued denial of an accommodation request or request for course substitution or waiver DSPS will provide the student with the policy, procedures and form entitled “Academic Accommodation Request Form”. The DSPS director or designee will concurrently inform the student that he/she has the right to file a grievance under the college’s discrimination grievance procedure and/or the Office for Civil Rights and will provide the student with the information necessary to do so.

Inquiries regarding DSPS or the district’s non-discrimination policy relative to students, employees, or applicants with disabilities should contact the 504/508 and ADA Coordinator or Human Resources at ext. 2284.

Complaint Procedure

The complaining party should first discuss the complaint regarding discrimination due to a disability with the individual (s) involved or with the Cerritos College Section 504/508/ADA Coordinator or the Director of Human Resources at ext. 2284. The 504/508/ADA Coordinator will contact all parties concerned and attempt to reach some resolution of the problem. If the complaint cannot be formally resolved within ten working days, the complaining party may then proceed to file a formal complaint. The informal complaint procedure is optional.

ACADEMIC HONESTY/DISHONESTY POLICY

Your instructors are eager to help you succeed in your studies at Cerritos College. But success means more than just receiving a passing grade in a course. Success means that you have mastered the course content so that you may use that knowledge in the future, either to be successful on a job, or to continue on with your education in advanced classes.

Your success depends on a combination of the skill and knowledge of your instructors, and your own hard work. You will reach your future goals only if you gain new knowledge from every course you take. That knowledge becomes yours, and can be used by you, only if it is gained

STUDENT SERVICES/POLICIES

through your own personal efforts. Receiving a grade in a course, without acquiring the knowledge that goes with it, diminishes your chances for future success.

While in college, you are also shaping the principles which will guide you throughout the rest of your life. Ethical behavior and integrity are a vital part of those principles. A reputation for honesty says more about you, and is more highly prized, than simply your academic skills.

For that reason, academic honesty is taken very seriously by the Cerritos College faculty. The following guidelines have been prepared so that you will understand what is expected of you in maintaining academic honesty.

Academic Dishonesty is normally to be dealt with as an academic action by the instructor, reflected in the student's grade in the particular course, rather than through college disciplinary procedures. No specific departmental, divisional or institutional procedures are established for academic dishonesty other than the normal process for review and appeal of an instructor's grading procedures.

Academic Dishonesty is defined as the act of obtaining or attempting to obtain credit for work by the use of any dishonest, deceptive or fraudulent means. Examples of academic dishonesty would include, but not be limited to the following:

- Copying, either in part or in whole, from another's test or examination;
- Discussion of answers or ideas relating to the answers, on examination or test when such discussion is prohibited by the instructor;
- Obtaining copies of an exam without the permission of the instructor;
- Using notes, "Cheat sheets," or otherwise utilizing information or devices not considered appropriate under the prescribed test conditions;
- Altering a grade or interfering with the grading procedures in any course;
- Allowing someone other than the officially enrolled student to represent the same;
- Plagiarism, which is defined as the act of taking the ideas, words or specific substantive material of another and offering them as one's own without giving credit to the source.

Cerritos College promotes a smoke-free environment. In compliance with AB846 and Education Codes 19994.30 and 19994.33, smoking is prohibited inside a public building and within 20 feet of a main exit, entrance, or operable window of a public building.

Options may be taken by the faculty member to the extent that the faculty member considers the cheating or plagiarism to manifest the student's lack of scholarship or to reflect on the student's lack of academic performance in the course. One or more of the following actions are available to the faculty member who suspects a student has been cheating or plagiarizing:

Cerritos College Kiosk Provides Convenient Way to Hunt and Apply for Jobs

Job seekers who visit Cerritos College can now search and apply for jobs online with the touch of a screen, thanks to a new myCareerSite kiosk installed in the Cerritos College Library on the Norwalk campus.

The free-standing kiosk is free and open to the community and provides several ways to search online through classified ads from local newspapers, including searching by job title, industry and location. Cerritos College's is one of 30 kiosks installed free of charge to the host sites by Jobview, a company that operates the kiosks to provide newspapers' classified ads more accessibility and higher visibility g potential respondents. The 30 kiosks are installed in various public locations throughout Ventura, Los Angeles, Riverside and San Bernardino counties.

Classified ads available in the myCareerSite network pull from those that appear daily in the Press-Telegram and its affiliates, which include the Pasadena Star News, the San Gabriel Valley Tribune, the Los Angeles Daily News, the Whittier Daily News and several others. Information in the myCareerSite job database is updated on a daily basis.

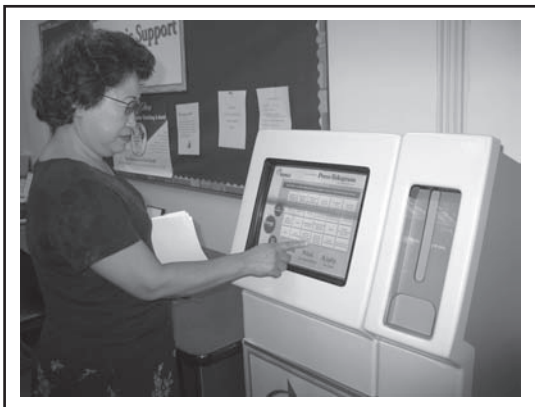

Cerritos College Career Center Job Placement Specialist Christina The said that the kiosk has been very popular since its installation on August 19.

"In less than a week, 96 kiosk users had already accessed 233 available jobs," she said.

The kiosk provides printouts of job listings and a "receipt" that a job search has been conducted. The interactivity of the kiosk allows users to create a virtual resume and to apply to many of the job announcements online.

The myCareerSite kiosk is located downstairs in the Cerritos College Library in the Academic Support Center and near the main computer lab.

For more information about the myCareerSite kiosk, please contact Christina The in the Cerritos College Career Center at (562) 860-2451 ext. 2367 or by email to the@cerritos.edu.

Cerritos College Student Awarded Scholarship to Psychology Conference

Cerritos College psychology student Lucy Sanchez, of Huntington Park, recently received a full-ride scholarship to attend the American Psychological Association's 113th Annual Convention in Washington D.C.

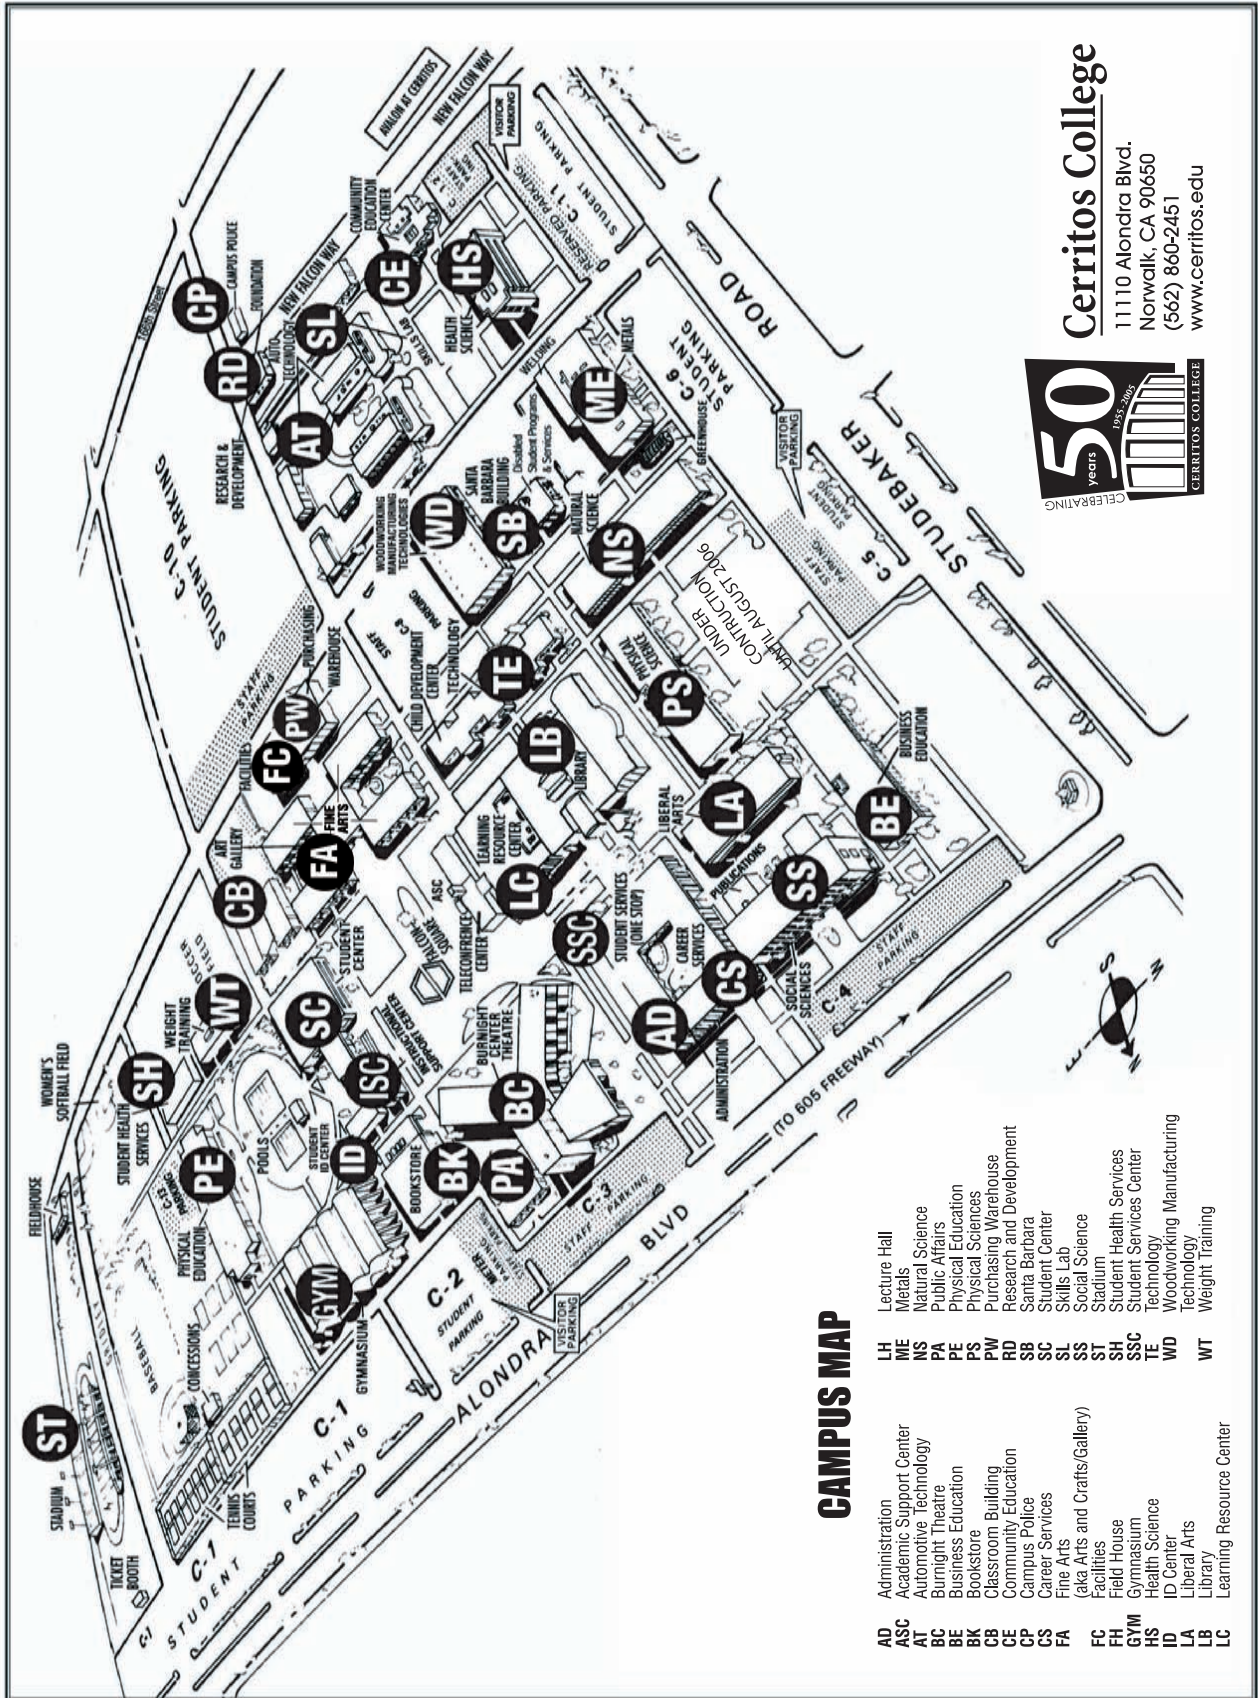

As a scholarship recipient, Sanchez participated in the 2005 Diversity Project 2000 and Beyond (DP2kB) Summer Institute held August 16-19. DP2kB is a mentoring and leadership program for future psychologists and a cooperative effort between the National Institute on Drug Abuse, the Center for Mental Health Services and the APA Office of Ethnic Minority Affairs.

While attending the student portion of the convention, Sanchez had a unique opportunity to learn leadership development skills, meet prominent psychologists of from minority and underrepresented groups, and be exposed to the full spectrum of psychology while networking with her community college peers. Sanchez and other students attended various programs, sessions, and activities at the APA convention on Thursday, August 18 and Friday, August 19.

"I want to continue my studies and become a psychologist," said Sanchez. "Going to D.C. was a great experience and gave me an opportunity to meet practicing psychologists that I hope to be like one day."

Sanchez, a second-year student at Cerritos College, received the DP2kB scholarship through her involvement as a member of Cerritos College's chapter of Psi Beta, the National Honor Society in Psychology for Community Colleges. Sanchez hopes to graduate from Cerritos College in May 2006 and transfer to either California State University – Long Beach or the University of California at Irvine to study clinical psychology.
