

Explore. Experience. Excel.

Whether you're planning to transfer, earn an associate degree, or develop new skills for the workforce, Cerritos College has a pathway to help you cross the finish line.

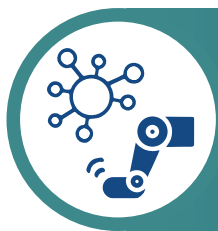

Learning and Career Pathways (LCPs)

With one of the largest offerings of programs in Southern California, Cerritos College is the place to plan your future!

Find the right program to meet your academic and career goals through one of our **Learning and Career Pathways (LCPs)**! An LCP is a collection of majors that have related content or fit within similar career areas. Cerritos College has eight LCPs to help you pick an area of study, work towards transfer, earn an associate degree, or develop new skills for the workforce.

LCP Success Teams

At Cerritos College, we understand the unique challenges that come with starting college for the first time. That's why we have implemented Learning and Career Pathways Success Teams, which are comprised of a team of experienced counselors, faculty, staff, and

administrators dedicated to helping you get the most out of your college experience. With the help of our LCP Success Teams, you'll have the resources and support you need to succeed in your academic journey.

Program Mapper

Take the guesswork out of majors and scheduling with Program Mapper. Program Mapper provides clear pathways for your degree or certificate. Each listing includes career information with current salary and growth statistics to assist you in finding the right Program for your needs. <https://programmap.cerritos.edu/academics>

Program Mapper

Program Mapper is a customized visual representation of the Cerritos College Catalog. Every academic program at Cerritos College is associated with one of the college's Learning and Career Pathways (LCPs). Each LCP is designed to help students explore a variety of related programs to decide which one is right for them. Program Mapper is organized by LCPs and allows you to explore various degree and certificate programs offered at Cerritos College. Using Program Mapper, you can view semester-by-semester plans from program entry to completion. The Mapper also provides information about occupations and careers commonly associated with each program, including typical wages and the labor market demand for California.

Learning and Career Pathways

Learning and career pathways are groups of careers that share common themes or require similar skills.

Applied Technology and Skilled Trades Are you action-oriented and prefer practical, hands-on experiences? Do you like working with tools, equipment, or machinery? How about designing, building, and repairing things your community needs? Programs in this LCP prepare students for getting jobs directly in their field of study whether welding, automotive repair, machine tool technology, cosmetology, engineering technology, woodworking, and much more! EXPLORE →	Arts, Humanities, and Communication Are you creative? Do you enjoy visual or performing arts? How about reading, analyzing literature, thinking critically, or communicating through speech or writing? Students pursuing programs in this LCP develop highly valued transferable skills preparing them for careers related to visual, applied, and performing arts, TV and film, working in the media, journalism, and public sector, non-profit, and advocacy work. EXPLORE →
Business, Accounting, and Law Are you interested in business organizations and developing practical skills that move you toward a well-paid career? Programs in this LCP provide an opportunity to learn how to manage human and financial resources to generate profits and build value for businesses and individuals through studying business administration, accounting, finance, marketing, management, business communications, office technology, paralegal studies, and law. EXPLORE →	Education and Human Services Do you enjoy teaching, learning, and collaborating? Do you want to inspire others and help them learn and grow? Programs in this LCP are designed for students who want to advocate for the welfare of others, leverage technology to increase the effectiveness of teaching and learning, or are considering careers as teachers, administrators, or assistants in a variety of educational settings.
