

Local Application Program Information by TOP Code

College: CERRITOS COLLEGE

Agreement No.: 17-C01-006

Program Title: Computer Programming

TOP Code: 070710

Briefly describe program improvement issue(s) concerning this TOP code and include specific examples. (Limited to 2,000 characters, or approximately ½ page of text.)

The core indicators needing attention for this top code are 5a-Nontraditional Participation and 5b-Nontraditional Completions. The department needs to research better ways to serve these special populations. The department has plans to teach courses in innovative new ways in the the ALC (Advanced Learning Classroom) but the classroom is not yet functional due to a lack of funds to complete the design of the room. The department needs to research C-ID status for some of its existing courses to facilitate the development of an Information Technology pathway. Additional tablet computers need to be purchased for use in the mobile application development classes using Android tablets. Hardware and software in use in programming labs and Unix Operating Systems labs needs to be updated or replaced.

Briefly describe how the issue(s) will be addressed. (Limited to 2,000 characters, or approximately ½ page of text.)

The department will work to complete the design of the ALC and acquire and install new hardware and software to provide maximum flexibility and a fully professional teaching and learning classroom. Flipped classes will be offered in the ALC to increase student interest and to experiment with instructional delivery modes that will address student success. Interactive whiteboards will be purchased. Information Technology model curriculum will be created (if necessary) and curriculum for existing courses will be updated to meet TMC requirements for the Information Technology pathway. The department will seek funding for a lab of Macintosh computers for use in Apple training and support classes and programming classes. Existing macs in a lab will be made available for training and updating in A+ classes if new computers are purchased. In programming classes, students will continue to be exposed to the use of a Windows virtual machine on a Macintosh host computer using VMware Fusion. The department will investigate the creation of a lab of computers running Linux as the primary operating system. The department will investigate better ways to serve the needs of nontraditional students. The department will seek ways to acquire new computers for use in programming labs.

>Below are the nine §135(b) Requirements for Uses of Funds. Programs receiving these funds must meet these requirements. Indicate with a check mark those requirements that the program currently meets (met). Any remaining unmet requirement(s) must be addressed with completed or ongoing activities by June 30 for reporting in the final report. Note: All nine required uses of funds must be met by the end of the Act or each year until reauthorization. Funds may also be used for the permissive activities specified in number 10.		Indicate with a check mark which requirements have been met, below.
