

Local Application Program Information by TOP Code

College: CERRITOS COLLEGE

Agreement No.: 17-C01-006

Program Title: Engineering Design Technology

TOP Code: 095300

Briefly describe program improvement issue(s) concerning this TOP code and include specific examples. (Limited to 2,000 characters, or approximately ½ page of text.)

Engineering Design Technology / Drafting have been rapidly changing and improving in the last several years at Cerritos College. One of the area where we lack the improvements is the non-traditional participation. Furthermore, drafting technology is rapidly changing with more computationally intensive programs, which represents problems for the execution on current computer stations.

Briefly describe how the issue(s) will be addressed. (Limited to 2,000 characters, or approximately ½ page of text.)

We propose streamlining of the curriculum to align it with current industry needs and interests of non-traditional participants in case of ENGT, females, and purchasing of high power dual screen CAD stations to keep up with computational demands of the current generation software. Furthermore, to increase industry competitiveness of our graduates, we propose subscribing to the mold-making specialty CAD and to the soft products CAD and to the Parametric Optimization CAD and create classes to teach those technologies.

<p>>Below are the nine §135(b) Requirements for Uses of Funds. Programs receiving these funds must meet these requirements. Indicate with a check mark those requirements that the program currently meets (met). Any remaining unmet requirement(s) must be addressed with completed or ongoing activities by June 30 for reporting in the final report. Note: All nine required uses of funds must be met by the end of the Act or each year until reauthorization. Funds may also be used for the permissive activities specified in number 10.</p>		<p>Indicate with a check mark which requirements have been met, below.</p>
