

Local Application Program Information by TOP Code

College: CERRITOS COLLEGE

Agreement No.: 17-C01-006

Program Title: Engineering Technology, General

TOP Code: 092400

Briefly describe program improvement issue(s) concerning this TOP code and include specific examples. (Limited to 2,000 characters, or approximately ½ page of text.)

There are two major issue for engineering technology program at Cerritos College, and they are a) increasing student enrollment, b) obtaining qualified instructors. The other issues facing the ET program is the contextualization of knowledge, especially in the area of electrical and electronics engineering technology. At the moment of this writing Cerritos College has a lack of qualified instructors to teach most of the electrical topics, and does not have any equipment to contextualize electronics learning by making the printed circuit boards. Core Indicator 3 need to be addressed and so does many others.

Briefly describe how the issue(s) will be addressed. (Limited to 2,000 characters, or approximately ½ page of text.)

1. Increase exposure of ET program to local high school through participation through PLTW activities. With expiration of the AMTELL grant, its crucial to use Perkins funding for continuous access to PLTW portal and software. 2. Increase exposure of ET program through exhibiting and promotions at local makertfaire and similar shows. 3. Raising awareness by participating in national students competitions. 4. Train currently employed full time and part time ENGT instructors for teaching motor control and process control classes by attending Amatrol and PLTW training and national ET-related conferences. 5. Obtain equipment for fabrication of printed circuit boards, so that the ET-EET students can contextualize their learning.
