

Local Application Program Information by TOP Code

College: CERRITOS COLLEGE

Agreement No.: 17-C01-006

Program Title: Pharmacy Technician

TOP Code: 122100

Briefly describe program improvement issue(s) concerning this TOP code and include specific examples. (Limited to 2,000 characters, or approximately ½ page of text.)

•Core Indicators are below the state-negotiated levels in Core Indicator 2 – “Completions” and Core Indicator 3 – “Persistence and Transfer.” Overall the Department Core indicators from 2015-16 show 13 below negotiated levels, with only six areas below negotiated levels in 2016-17, and seven areas below negotiated levels for this year. •Core indicators indicate that the program needs to focus on Persistence and Transfer. However, we offer a terminal degree, our students rarely transfer. There is no CSU or UC Bachelor’s Degree program in Pharmacy. Since this is true, activities will continue to stress Persistence especially for single parent, non-traditional, and economically disadvantaged students. •Core indicators for Persistence and transfer, while still below negotiated targets, are improved for single parent and economically disadvantaged participants. •The issue for the program in past years has been Employment, especially employment of non-traditional and single parent students. This year and last year the program is well above all negotiated targets for employment.

Briefly describe how the issue(s) will be addressed. (Limited to 2,000 characters, or approximately ½ page of text.)

•The department will continue to (1) gather region-wide effective strategies/practices on improving retention, completion and nontraditional recruitment in pharmacy technology, (2) continue to work with Research and Development to improve its data collection methods, and (3) recruit and implement strategies to retain non-traditional students. •The Department currently participates in college-sponsored recruitment activities for non-traditional and other underrepresented student populations: Senior Preview Day, meetings with students from local high schools, and by teaching students taking Health Occupations 100: Health of Underserved Communities. •The Department has already implemented the following: Collaboration with (1) Cerritos Adult Education programs and (2) Southeast ROP programs to target non-traditional and economically disadvantaged students. Articulation agreements have been signed and plans are also in place to enroll student who have completed ROP classes in pharmacy technology. •Perkins funds will continue to be used for supplies, marketing, faculty professional development, and to replace outdated equipment with current industry standards. This should increase core indicators over time. •The College will continue to determine student barriers for enrollment in a non- traditional career field and overcome those barriers by presenting both a non- traditional career event for both female and males to allow students career exploration and to meet CTE Faculty •We will continue to encourage student to seek additional CTE services including Career Services, Adult Educations and other services available on campus. •As part of the College’s Academic Affairs Strategic Plan, printed materials have been made available which specifically target recruitment of economically disadvantaged, non-traditional, and single parent students.
