Unknown Wonders

Intelligence, a world of its own

A realm of ones and zeroes, a place unknown

Programs and algorithms, a digital mind

A creation of man, a new world to find

A machine that learns, a mind that thinks

A world of possibilities, a future that blinks

A world of automation, a world of ease

A future of unknown wonders

A world of AI, a world of change

A world of innovation, a world so strange

A world of intelligence, a world of might

A world of progress, a world so bright

A world of machines, a world of dreams

A world of AI, a world that gleams with unknown wonders.
