RFQ Questions (Response Submitted Last Week)

The District prefers that the tiles remain intact, and any artwork proposed is applied over that surface. If the tiles must be removed, the District will assume this responsibility, but makes no guarantee as to the condition of the subsurface beneath it once the tiles are removed. In addition, the District prefers that the primary elements of the completed artwork be produced and/or fabricated offsite, and then installed in the appropriate location(s) on site (in part, to help ensure preservation and/or relocation of the artwork, should relocation ever become necessary in the future).
