

Faculty Senate

Free Speech Statement

Approved: October 8, 2024

“We, the Cerritos College Faculty Senate, support faculty and students’ rights to protest nonviolently, safely, and free from aggression by police, free from academic retaliation by the college administration, free from attacks by violent counter-protesters, and without being confined into artificially constructed “free speech areas.” As required by the First Amendment, all open areas of the campus, as defined by AP 5550, must allow for free speech and free assembly, and all faculty and students’ rights to academic freedom must be protected.”
