

Office of the  
President

August 20, 2023

Dear colleagues,

Good evening. We have been monitoring the storm carefully over the weekend. Current projections indicate the rain is likely to clear up early tomorrow morning before our campus doors open. Campus Police is regularly checking our buildings and everything appears to be functioning properly. Our facilities team will arrive at 3:00 am on Monday to ensure that we can open our doors tomorrow. We are hoping to receive a facilities report by 7:00 am.

We have reached out to our local districts and all are planning to be open tomorrow. However, we understand that LAUSD will be closed tomorrow. Some of you may have children who attend LAUSD, and if you are facing difficulties with childcare, please reach out to your manager to discuss transitioning to remote work for the day.

For those employees who need to address any matters regarding the aftermath of the storm on Monday, please reach out to your manager.

Lastly, we understand that things can change at a moment's notice. If it becomes unsafe to keep the campus open tomorrow, we are prepared to take action. We will update you if we need to change our plans for tomorrow.

Executive Council
