## **2024-2025 GOALS**

The committee will receive updates from the Institutional, District, and Faculty Senate Shared Governance Committees to understand how each committees' work contributes to one or more of the Students First Framework Levers and to the College's overarching goal of graduating fifty percent of our students within five years or less by spring 2029.

The committee will review Board Policies and Administrative Procedures from Chapters 4, 5, and 6 to ensure alignment with current district practices. The committee will also review policies and procedures outside of these three chapters as needed.

The chairpersons of the Shared Governance Committees will receive regular emails requesting them to ensure that their respective websites and/or BoardDocs are consistently updated with the latest information. This will allow Coordinating Committee members to actively share information in order to ensure clear communication and meaningful collaboration amongst constituent groups.
