

Program Review Data Resources

To view the Office of Institutional Effectiveness, Research, Planning, and Grants Tableau dashboards, a user will be prompted to enter their Cerritos College credentials.

A. Internal Data

[Internal Data](#) is provided by the Office of Institutional Effectiveness, Research, Planning, and Grants (IERPG). Related data dashboards are provided below.

[Institutional Set Standards](#)

Institution-set standards (ISS) are the minimum level of performance set internally by the institution to meet educational quality and institutional effectiveness expectations. These standards serve as baseline performance thresholds that the institution strives to maintain and does not intend to fall below. In addition to these minimum thresholds, the college also sets aspirational targets, often referred to as stretch goals, to support continuous improvement.

- Use to address how well your program is doing in comparison to the established Cerritos College baseline performance threshold.

[Unit Planning and Program Review Dashboard](#)

The Unit Planning & Program Review 2.0 dashboard offers interactive data visualizations and tables to support annual planning and program review. Users can disaggregate data by student groups and attributes, enabling in-depth analysis over time. This tool facilitates informed decision-making and identifies trends for program enhancement.

- Use to address headcount, enrollment, course success and completion, and disproportionality impacted student counts/rates.
- To review disproportionately impacted groups, data will need to be disaggregated by demographics and/or special populations, utilizing the filters on the dashboard and by switching from graph to table view.

[Awards Dashboard](#)

The Awards dashboard provides trends on awards conferred by Cerritos College. The dashboard displays awards counts and time to completion. Award counts provide the number of awards conferred or the distinct count of students who received an award. Time to complete explores how long it takes students to earn their first award.

- Use to address the number of degrees awarded and program completion numbers.

IPR@cerritos.edu

Learning Outcomes Dashboard

The Learning Outcomes dashboard allows you to see CSLO's, PSLO's, and ISLO's aggregated and disaggregated tables and graphs based on division, department, course code, course title, and term.

- Use to address learning outcomes assessment mastery and rate information.
- For SLO assistance, please contact the SLO coordinator at SLO@cerritos.edu.

Scheduling Patterns

The Scheduling Patterns dashboard displays information on enrollment, sections, fill rates and success rates by modality, time of day, and session.

- Use to address enrollment patterns for your department/program courses.

Enrollment Management Dashboard

The Enrollment Dashboard shows trends in headcount, enrollment, and FTE starting in Fall 2017 through the current term.

- Use to address headcount, enrollment and FTE patterns for your department/program courses.

Instructor Insights Dashboard

The dashboard contains enrollment and outcome data from Summer 2019 to Spring 2025. The goal is to enable instructors to gain an understanding of trends in their own outcomes and how these trends compare to their peers who are teaching the same courses.

- Use this dashboard to start conversations about ways to continuously improve your program's success outcomes.

Educational Plans

The student Educational Plan dashboard provides a summarized view of finalized educational plans by term/academic year. Information is displayed based on the LCP of the student's declared major. Data is provided from the 2019-2020 academic year through the current academic year.

- Use to address the number and portion of students with finalized educational plans within your program.

Faculty Hiring Prioritization

The Faculty Hiring Prioritization dashboard provides an overview of each department workload values (used in FHP formula), calculation details, and the final FHP ranking.

- Use to address the department/program's need for faculty and results of the previous cycle.

Articulation

The Articulation Dashboard consolidates all ADT articulation agreements in the CSU system. Additionally, it shows trends in ADT student enrollment and degrees awarded.

- Use to address ADT award trends and CSU programs your program feeds into local CSU transfer institutions.

Program Mapper

Program Mapper is a customized visual representation of the Cerritos College Catalog. Every academic program at Cerritos College is associated with one of the college's Learning and Career Pathways (LCPs). Each LCP is designed to help students explore a variety of related programs to decide which one is right for them. Program Mapper is organized by LCPs and allows you to explore various degree and certificate programs

offered at Cerritos College. Using Program Mapper, you can view semester-by-semester plans from program entry to completion.

- Use to address program scheduling related to program completion.

B. External Data

There are multiple external sources of data that may assist you with your program review. Visit the [external data](#) resources on the IERPG webpage for a comprehensive list.

California Community College Chancellors Office (CCCCO) Data Mart

The Data Mart uses Management Information Systems (MIS) data to provide information about students, courses, student services, outcomes, and faculty and staff. Check out the guide to help you navigate: [CCC Datamart Guide](#)

- Use for state and local comparisons for course retention, course success, and course enrollment.

CCCCO CTE Perkins V Report

CTE Web Application provides information/reports on various Core and Performance Indicators by college, TOP code, and Special population (Non-traditional, Displaced Homemaker, Single Parent, etc.). Web Application can also be used to download Negotiation reports for colleges and districts.

- Use for CTE related questions.

Labor Market Data (LMI) and job placement rates

The EDD – Labor Market Information (LMI) Division produces a wide variety of labor market and economic data which covers many important labor market subject areas such as, unemployment and labor force, economic indicators, industries, occupations, wages, employment projections, and much more.

- Use for CTE related questions.

Strong Workforce Program Report

This report provides a snapshot view of year over year progress for metrics used in the annual calculation of the 17% SWP Incentive Allocation funding for General Admit Students, who are not dually enrolled in K12, in All CTE Programs.

- Use for CTE related questions.

Student Athletics Report

This report provides an annual overview of CCC student-athletes participating in 3C2A sports programs.

- Use for athlete related data needs.
