Institutional Effectiveness, Research, \& Planning
Discipline Specific Tutoring Report, 2015-17
November 6, 2017

This report examines the relationship between visiting discipline specific tutoring at the Student Success Center and academic outcomes for the 2016 and 2017 school years. The report also compares course outcomes between students who chose to visit the success center and those who did not.

## EXECUTIVE SUMMARY

- Students were most likely to come to the success center for help with American Sign Language, Chemistry, and Physics.
- The overall number of visits for discipline specific tutoring declined from the 2016 school year to the 2017 school year. However, the number of visits for Chemistry and Anatomy and Physiology increased.
- Students who visited the student success center had higher levels of completion and success than students who did not visit the center.

## Details of the Data

A total of 405 students visited the Student Success Center for discipline specific tutoring during fall 2016 and spring 2017. The students visited the center approximately 1400 times (Table 1). Students were most likely to visit the center seeking assistance with Anatomy and Physiology, Chemistry, and Physics (Table 1). Tables 2 and 3 contain additional information about the average number of visits and the average amount of time spent in the center. The analysis focuses on the completion and success rates of students who visited the Student Success Center during the relevant time period. We also compared their outcomes to those of students enrolled in the same course sections who did not visit the Student Success Center.

Table 1. Number of Visits to the Student Success Center by Subject and Term.

| Subject | Term |  |  |  |
| :--- | ---: | ---: | ---: | ---: |
|  | Fall 2015 | Spring 2016 | Fall 2016 | Spring 2017 |

[^1]Table 4 shows indicators of academic achievement for Success Center users and non-users. On average, Success Center users had higher GPAs, earned more cumulative units, and enrolled in more units in the semester in which took their course.

Table 4. Comparison of Success Center Users and Non-Users on Academic Achievement Indicators.

| Academic Achievement | School Year |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | 2016 |  |  |  | 2017 |  |  |  |
|  | No Tutoring |  | Tutoring |  | No Tutoring |  | Tutoring |  |
|  | Mean | SD | Mean | SD | Mean | SD | Mean | SD |
| Cumulative GPA | 2.65 | 0.87 | 2.93 | 0.64 | 2.84 | 0.76 | 3.01 | 0.60 |
| Cumulative Units | 44.51 | 30.87 | 49.43 | 32.15 | 54.34 | 31.85 | 59.53 | 32.33 |
| Units Taken | 6.94 | 4.78 | 9.43 | 4.21 | 7.77 | 4.85 | 9.79 | 3.98 |

## Demographic Data for SC Users and Non-Users

Tables 5 through 7 show demographic data for students who visited the Student Success Center and for their peers who were enrolled in the same course sections but chose not to visit. The groups have similar gender (Table 5), ethnic (Table 6), and age (Table 7) composition.

Table 5. Comparison of Students by Gender

| Gender | School Year |  |  |  |  |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | 2016 |  |  |  | 2017 |  |  |  |

## Comparing Outcomes between the Tutoring and No Tutoring Groups

Our first set of analyses focused on comparing completion and success rates between students who visited the Student Success Center and students who did not visit the center.

Completion Rates. Completion rate was defined as the percentage of students that earned a grade in the course (A, B, C, D, F, P, or NP) and did not withdraw. Table 8 shows the number of enrollments and the completion rate in each discipline across the school years. Students who visited the Student Success center had higher completion rates in each discipline than their counterparts who did not visit. Across the two school years, students who visited the Success Center completed their courses $91 \%$ of the time, whereas those who did not visit completed their courses $81 \%$ of the time. A chi-square test showed that the overall difference in completion rates was statistically significant, $\chi^{2}(1)=117.06, p<.01$.

Table 9. Completion Rates for No Tutoring and Tutoring Groups.

| Subject | 2016 |  |  |  | 2017 |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  | No Tutoring |  | Tutoring |  | No Tutoring |  | Tutoring |  |
|  | N | Rate | N | Rate | N | Rate | N | Rate |
| Anatomy \& Physiology | 1279 | 75\% | 128 | 86\% | 667 | 82\% | 67 | 90\% |
| American Sign Language | 811 | 79\% | 412 | 94\% | 366 | 81\% | 115 | 95\% |
| Anthropology | 781 | 85\% | 22 | 95\% | - | - | - | - |
| Biology | 1214 | 83\% | 61 | 84\% | 142 | 79\% | * | 100\% |
| Chemistry | 1636 | 76\% | 325 | 89\% | 1025 | 75\% | 165 | 93\% |

| Physics | 765 | 77\% | 157 | 78\% | 413 | 79\% | 30 | 77\% |
| Psychology | 2565 | 90\% | 117 | 90\% | 1247 | 88\% | 31 | 90\% |
| Spanish | 1010 | 86\% | 72 | 90\% | 272 | 83\% | 14 | 86\% |

[^2]Success Rates. Success rate was defined as the percentage of students earning a grade of $A, B, C$, or $P$ (passing). Table 9 shows the number of enrollments and the success rate in each discipline across the four terms. Students who visited the student success center had higher success rates in each discipline than their counterparts who did not visit. Across the two school years, students who visited the Success Center successfully completed their courses $82 \%$ of the time, whereas those who did not visit successfully completed $67 \%$ of the time. A chi-square test showed that the overall difference in success rates was statistically significant, $\chi^{2}(1)=177.83, p<01$.

*Cell contains fewer than 10 students.

## Frequency of Success Center Visits and Course Outcomes

The Success Center users were categorized according to their total number of visits during the 2016-17 school year. The categories were minimal user ( 1 visit), casual user ( $2-5$ visits), moderate user ( $6-10$ visits), frequent user (11-20 visits) and extreme user ( 21 and more visits). The final two columns of Table 10 show the success and completion rates for each user type. The columns show increases in success and completion rates as the frequency of visits increases.

Table 10. Success Center User Profile Data

| School Year | User Type |  |  | Visits |  |  | Outcome Rates |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  | Number | Percent of Total | Range | Average Number | Average Time | Completion | Success |
| 2016 | Minimal | 423 | 42\% | 1 | 1.00 | 1.03 | 87\% | 78\% |
