

WE HAVE AN EXCITING NEW COURSE FOR YOU: MATH 104: SURVEY OF MATHEMATICS

-  Are you majoring in a field that is **NOT** in Science, Technology, Engineering, or Mathematics (STEM)?
-  Are you planning to transfer to a California State University?
-  This course is an alternative to Math 75, 80, 112, or 114.

Math 104 may be perfect for you. This is a nontechnical course surveying a variety of topics in mathematics. For example, this course will empower you to be a better consumer of information by introducing you to useful concepts in probability and statistics. You will explore concepts in finance that will give you a better understanding of interest rates, loans, and taxes. Ask your [counselor](#) if this is the right course for you.

 This may be the most interesting math class you will ever take!
