Introduction around the zoom

Spring Event Brainstorming

- Continue the Fireside Chat
Falcon Day 2020 panel was used as an example.
- Assimilating going back to campus
- Emotional Intelligence
- True Colors:
Orange, Gold, Green, and Blue.
Each color represents a different primary personality type, and all four lay the foundation of True Colors' fun and insightful personality-identification system. Designed to uncover key social information about yourself and others, True Colors is a tool that fosters an environment of understanding and collaboration.
- CliftonStrengths formerly StrengthsQuest
It's an educational program that uses Gallup's world-renowned CliftonStrengths assessment to measure 34 research-validated talent themes. It then guides the development of those talents into strengths with resources tailored for students. (Student Services may be doing this already).
- Myers Brigg
The purpose of the Myers-Briggs Type Indicator® (MBTI®) personality inventory is to make the theory of psychological types described by C. G. Jung understandable and useful in people's lives. The essence of the theory is that much seemingly random variation in the behavior is actually quite orderly and consistent, being due to basic differences in the ways individuals prefer to use their perception and judgment.
