

Student Success Definition

Career Services

Student success in Career Services is assisting students in developing, evaluating, and implementing career, education, and employment readiness goals. In support of the college’s mission of guiding students in making their educational aspirations a reality, the mission of Career Services is to provide services to students as they transition into, through and out of the college in a supportive, attentive environment. Students will learn how self-understanding factors into their career decision making, as well as develop the knowledge and skills necessary to be employment ready.
