

CERRITOS COLLEGE
GEOGRAPHY (AA-T)
ASSOCIATE IN ARTS FOR TRANSFER

The Associate in Arts Degree in Geography for Transfer prepares students for a successful transition to universities with coursework focused on the relationship between humans and the environment. Geography at Cerritos College is a student focused program that includes lecture, laboratory and field-based research courses that develop critical thinking and communication skills. This holistic discipline examines the interconnections between cultural and physical processes with concentration on spatial patterns found on Earth. Geographers are interested in the diversity of people and places still found on our increasingly globalized Earth and creating a more environmentally sustainable and socially just planet for future generations.
