PUBLIC HEALTH SCIENCE (AS-T)
ASSOCIATE IN SCIENCE DEGREE FOR TRANSFER (AS-T)

The Associate in Science degree in Public Health Science for Transfer is an interdisciplinary degree grounded in the biological and health sciences that is designed to prepare leaders who promote community health, prevent disease, and improve environmental conditions where people can be healthy. The study of public health explores the factors that affect the overall health of a population and the factors that contribute to the spread, treatment, and prevention of disease. Students completing this program will exemplify a high level of health literacy and will be exposed to a wide variety of disciplines. Through this preparation, they will improve their understanding of the relationship of the environment to health, global health, public policy, and recognize and evaluate the economic impact of changing demographics on health care, identify disease outbreaks, and develop interventions to promote healthy behavior.
