Persisters — Trailblazing Women who “Provided Healing and Promoted Hope”

Jo Hay, a contemporary British American portrait painter, specializes in large-scale portrait paintings of contemporary women involved in creating change and encouraging hope for others. Ms. Hay has studied a wide range of women and has used her talent as an artist to highlight them and bring attention to their unwavering strength to attain their goals.

Join us for this lively and interactive workshop where we will learn about these women, their background and how their persistence has provided healing and hope for others around the world. This workshop will close with time for you to share your own experiences with persistence and other women you would highlight.
